Power Love

It was our third anniversary. I couldn't wait to make love to Doug tonight. After three years I still wasn't tempted to stray. Just looking at him unroll that condom over my stiff cock made my whole body quiver with anticipation. Tonight was going to be really special.

Doug was lying back on the bed

SB

now, looking up at me with his big, brown puppy-dog eyes. As I brought his legs up to my shoulders, I thought about the first time those beautiful eyes gazed at me. It was three years ago tonight. Each time I penetrated him since then, we seemed to get closer. And now I was pulling out of him once again, ripping off the rubber and letting my cum spray across his chest. I kissed him passionately and told him that, without a doubt, tonight was our best night yet.

Let Me Rub You

For weeks I had wanted to touch Joe's hairy, muscular body. Now, like a dream, there he was naked in my bed. This was really happening. I asked him to lie face down and began to massage the back of his strong neck. I could feel Joe's body begin to relax underneath me.

His broad shoulders felt like steel as I continued my deep, penetrating massage. He moaned with pleasure as the tension left his brawny body. Working my way down his arms, I pushed the tension right out his fingertips. Then I worked my way down to his beautiful butt. I rubbed his ass cheeks deeply, and he told me he had never felt so good in his life. It was ecstasy to get to know his body so well. The time passed quickly. I couldn't believe it when I saw the rising sun.

Do you think safer sex is a bore? Have you been practicing abstinence because you think everything that turns you on is too risky?

If you've answered "yes" to either of these questions, or if you just like to read about sex, we'd like to share some hot stories with you. These stories may change your mind about safer sex. There are some real sexy guys in our community who are having incredibly good safer sex.

Maybe you could learn a few new tricks from them. Here are some of the hottest stories we've heard.

Bottom Up

Everything about the guy made me think he was the perfect bottom for me. I loved the way he sniffed the sleeve of my black leather jacket and submissively sucked my fingers before I forced him to his knees. He knelt before me, lapping my hairy crotch like an expert, awaiting my next command. He was almost too good, I thought.

He bent over and showed me his pretty little hole, just like I told him to. And I thought, if he's going to let me fuck him without a safe, I'm not touching him with *my* dick. To find out, I told him he was going to get fucked. He said, "Oh, please sir, fuck me with a rubber. Please let me put it on you, sir." I smiled as his quivering hand helped the condom onto my big, fat cock. Now I knew he was my boy.

Thinking Big

Alone in my room, I was thinking about that new guy at my gym. The one with the tattoo on his left bicep. Does he know how much I'm attracted to him? Does he even know I'm gay? Is he gay? All these questions kept entering my mind. I

wasn't ready for the answers yet, but the thought of his body was so erotic to me. I thought about what it would be like to have his cock in my mouth. A bulge began to show in my pants. I unzipped my zipper and let my cock spring out. I spit into my hand and began to fondle my growing penis. It felt incredible. You see, I couldn't really handle being with that guy right now. But alone in my room I could let my imagination take me wherever I wanted to go. And knowing my own cock so well, I stroked it to perfection until I reached a shattering climax.

He Made Me Do It

I didn't know this guy at all. Still, I was really shocked when he stopped me from putting on a condom because everyone uses them now. I grabbed it right out of my hand, and started to lose my hard-on. But then he placed a couple drops of lubricant inside it. And he kissed my erect penis softly, slipping the rubber over me and carefully unrolling it. When it was all the way down to the base of my shaft he skillfully covered the latex with more lube. The sensation almost made me cum.

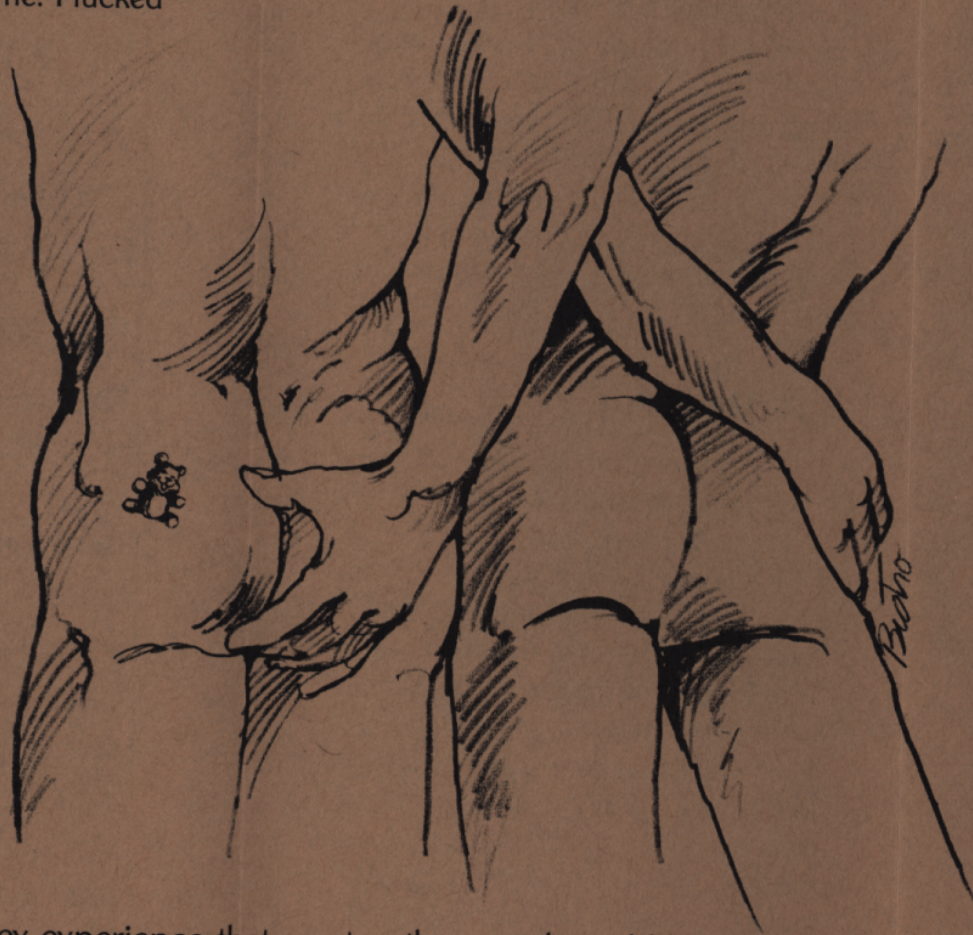

Suddenly the guy got down on

all fours and guided my throbbing tool toward his quivering hole. He begged me to fuck him doggie-style. I penetrated slowly at first, and then I could feel him opening up to me. I fucked harder, thrusting my rod deeper and deeper into his grateful asshole. Finally I couldn't take it any more. I pulled out, ripped off the rubber and let a hot load shoot across his lean muscular body.

Nice To Meat You

The four of us were total strangers, stark naked in the sauna. For a while I sat there imagining what it would be like to make it with each one of them. I tried to decide which

one I'd pick. Then suddenly the cute blond began to rub my crotch, and the black guy put his lips up to mine, and I realized we were all going to get it on

together. This was really happening. Before I knew it the blond was on his knees hungrily licking my balls and lovingly massaging my stiff prick. I gently caressed the back of his head with my left hand, while my right hand found its way to the black guy's massive smooth chest. Then the handsome, hairy brunette brought his face so close to mine, I found myself licking his neck. Finally our lips met in a kiss so passionate I shot my load all over the blond kid's curly locks.

First Taste

It was the boys at school that interested me. That much I knew. And it was Jim who really caught my attention. He was graduating, and I was just a junior. I could tell he liked me, too, but I didn't know what to do about it. I had never been with a boy before. Anyway, when he finally invited me to his house after school, I thought I was going to cum in my pants before I could even get out a "yes."

If you've had a safer-sex experience that can top these and would like to share it, we'd love to know about it. Remember: Don't cum in his ass. Don't let him cum in yours.
Use a condom every time you fuck.

No one was home except us. Jim took his pants off right in front of me and told me to do the same. I was afraid and told him I didn't want to get AIDS. He told me not to worry. He said he knew how to fool around safely. So I took off my pants. He took my dick in his hand and rubbed it. Then he asked me to rub his. It felt so hard, so warm, so nice. We both shot our loads kind of fast.
