

White Power

creates

Black

consciousness

Black people have been exposed to racists whims of white fascist policemen. In areas like Notting Hill and Brixton, our brothers and sisters suffer the dehumanising spectacle of being searched in the street, their parties, weddings and christenings celebrations are raided by the Gestapo cops.

Our brothers are not safe from the drug planters. Recently in Finsbury Park 15 people were planted with drugs, all in one raid and this is no exception.

The Black Eagles, a revolutionary movement came to the decision that the Black citizens must be protected from the occupying troops and this is why our brothers took to the streets in an effort to police the policeman.

On the 7th September, two brothers who were walking Ghetto patrol were stopped by a white fascist policeman who wanted to search them, they refused to be searched and were accosted by another group of policemen who came on the scene. They were forcibly searched and was charged with ^{having} a tear gas gun and by force pushed into a van where they started beating him.

When the van reached Notting Hill police station he was dragged out and there again was beaten in such a manner that he pissed himself.

He was taken to hospital and the doctor recommended that he should be hospitalised and this was refused by the police.

COMPOSITION OF THE GHETTO PATROL

All kinds of people go in to form this force, there is no set image, no standard height, no rigid pigmentation. The two at present in custody, are like the rest of us, beautiful, peace-loving kind men who seek only justice.

The elder Michael Lee is the son of a Vietnamese peasant at present serving with us in Babylon. The younger "Sammy" was born in this country, he is 16 years of age and his pigmentation is sometimes described as white, sometime the natives call young people like him halfcast, we call him soul brother. We love him and those who sunk their boots at Notting Hill Gate station remember he is our brother. You declared yourselves, now reap the harvest.
