Residence: 13 Aspen Dr,
North Caldwell, N.J.

Nationality: void dweller.

Description: 7'4", 315 lbs,
Green eye, black feathers.

Occupation: Doctor of Ornithology
at Caldwell University

Doctor Tiel Luca is your typical college professor, driven by the pursuit of knowledge. Born from the heart of a collapsing red star in an unexplored corner of the cosmos, he finds life in the city exciting.

Typically spending his weekends feeding his birds or going bird watching in the marshlands of South Jersey.

With the power to command powerful gusts of wind, blistering flight, and an exoskeleton as hard as steel, his course on avian conservational efforts is not one to miss.
