

Cassette Tape Notes From Denny Clifford "S.O.S." Recordings

This tape is dedicated to the memory of my grandfather,
George H. Aldrich
(5-10-1865 ---- 4-7-1953)

A fine fiddler and all around musician. He started out on fiddle in 1873 at the age of eight, and got me going in 1949 at the age of ten, which may account for the reason that I sort of missed the mainstream of Fifty's music. I was busy.

The songs on this tape consist of a conglomeration of music, spanning a time frame of 100 years, plus. There are some rags, some archaic dance tunes, some music hall ballads, and some 1930's maudlin pop.

The only thing they have in common is, I like 'em.

I play them the way I remember them with no attempt at academic accuracy. I've no pretensions of, or intentions of being a folk scholar, or polished entertainer, (or typist).

All the instruments on the tape were played by me. (through the modern miracle of overdubbing) Saves a lot of hassle with the band that way.

Thank you for your interest and support, and

ENJOY

[signature appears in the original cassette notes]

Song Titles

[Songs on this web page appear in the following sequence. Tape side and track number from the original cassette are also provided. Note that Side B Track 1 "lady margaret" is missing]
