From Where They Come

My heart returns to times of old
When I recall that place so bold
In all her glory, resting there,
As would Athena at her prayer.

In spring, a soft and gentle breeze
Would play among her dogwood trees,
So as to swell the lightest heart
To vow that it would never part.

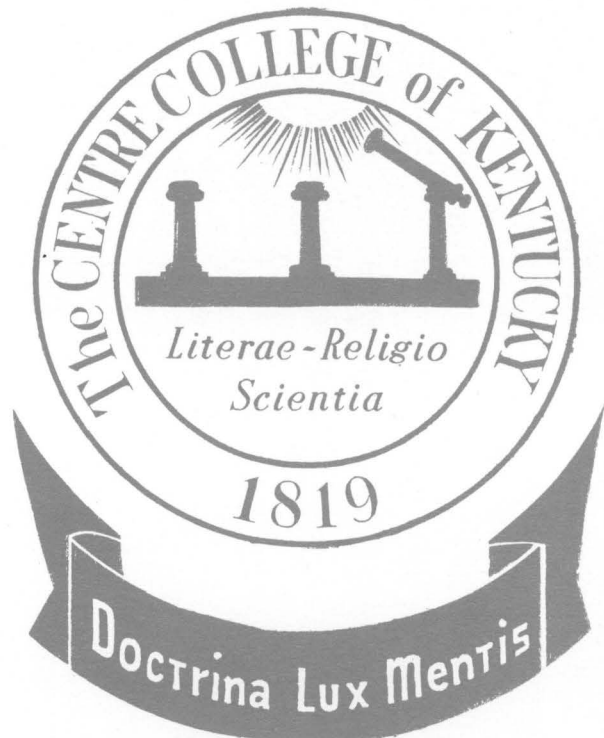

Then summer came and drove away
That breeze we hoped would always stay.
But still remained a low lit flame
To raise some fervent hope to fame.

New life she sought, but when it came
It could not draw Athena's flame;
For there across the redd'ning sky
—Athena knows she's soon to die.

Now wintry shades foreclose the stage
And angels come to make their page.
O Lord! O Time! Tell us just how
Your secret helps our cause right now:

*When fatal time forsakes the soul
And fortune takes her fateful course,
Then time befriends your legends strong
And makes that foe your mighty force.*

Dedication

With esteem and gratitude the Staff of the 1961-1962 *Olde Centre* dedicates this pictorial history of one year of the College's life to Dr. Alden Vaughan, a man whose unfailing devotion to academic and co-curricular affairs has contributed inobtrusively but immeasurably to the life of the college in the years since his coming to the campus.

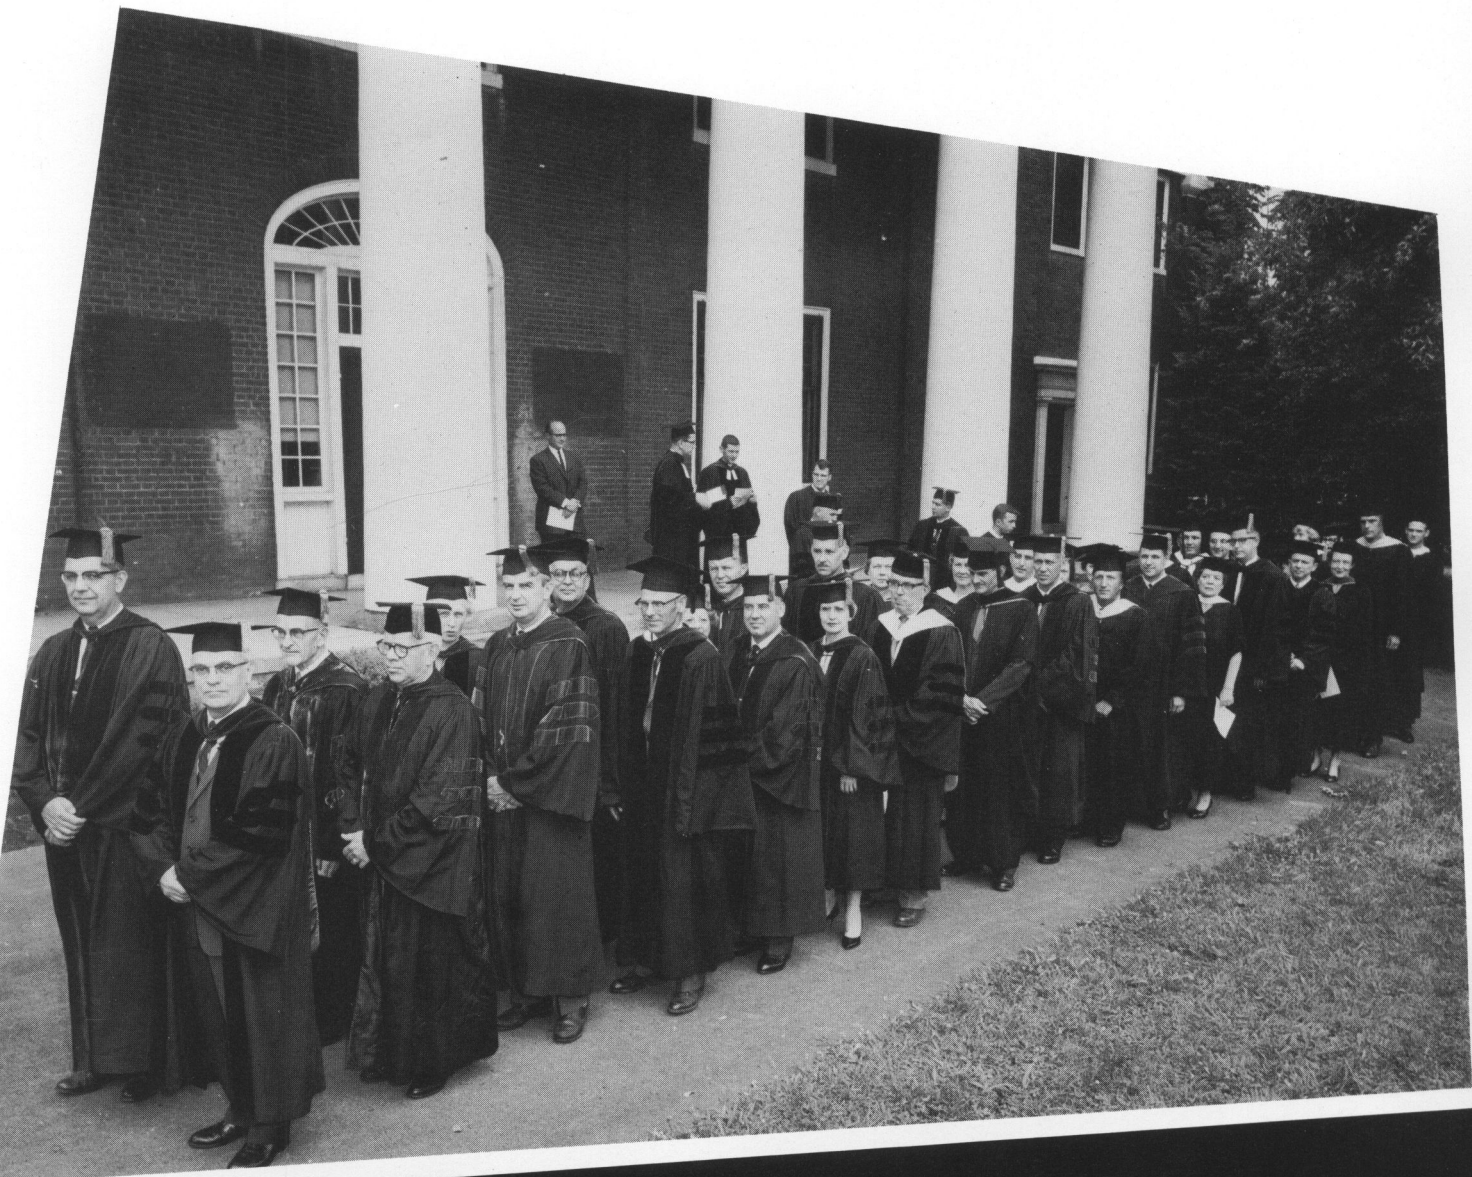

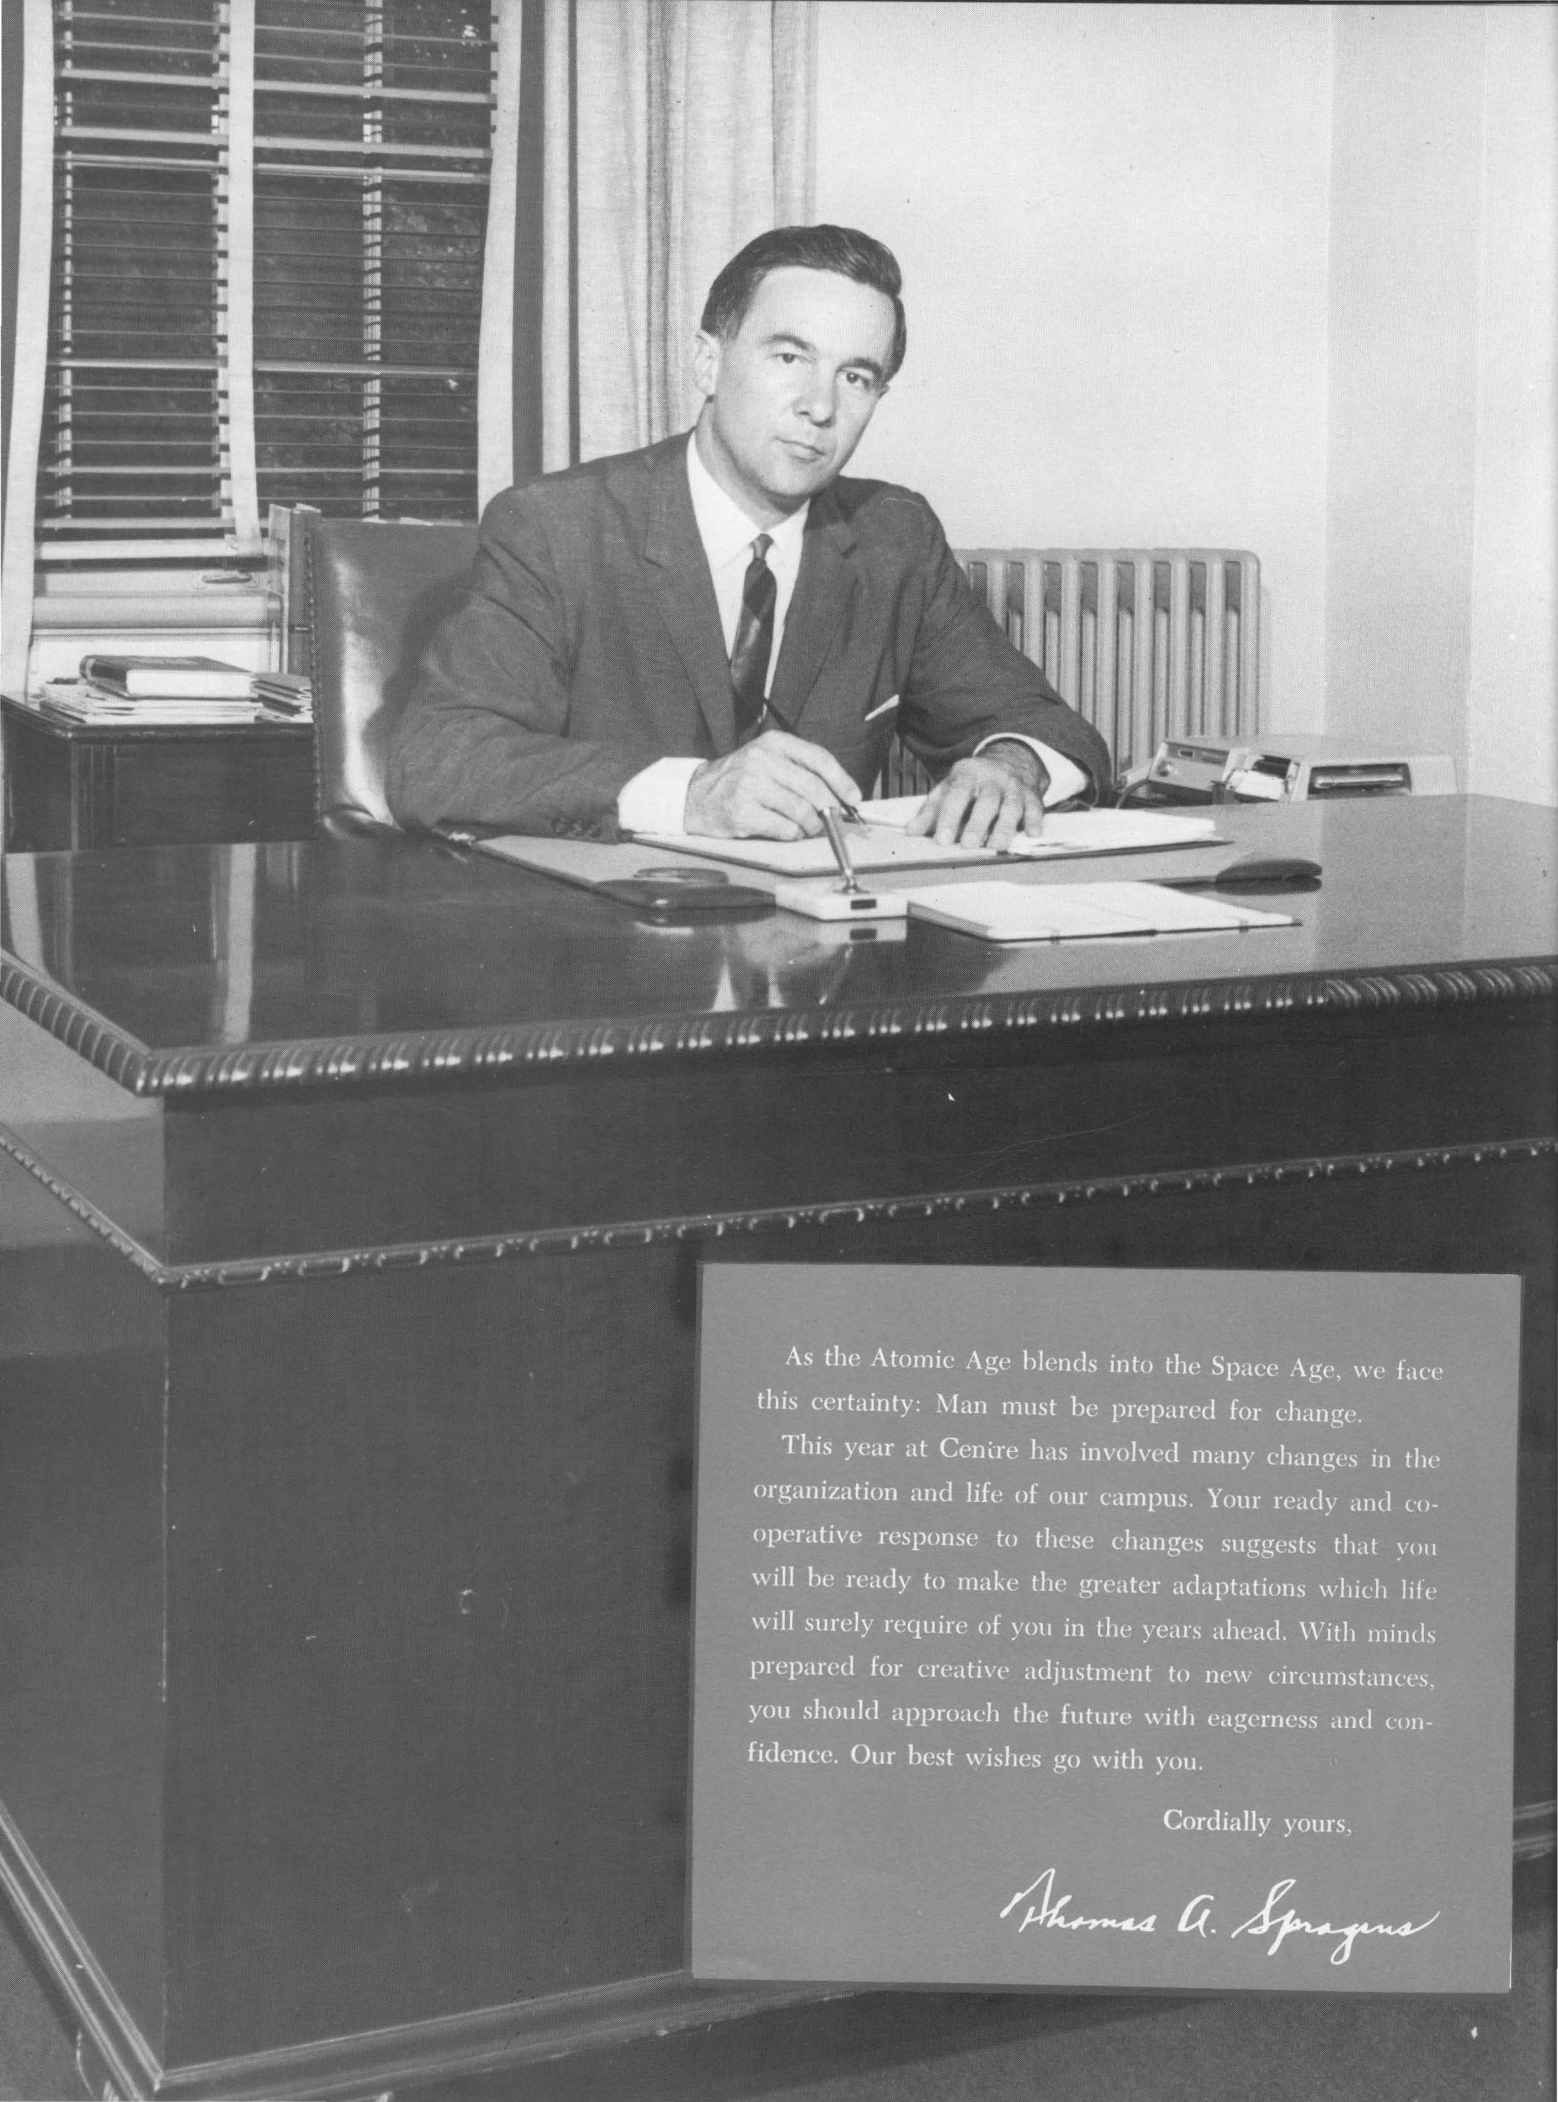

In addition to the time Dr. Vaughan gives to the students in the course of his regular duties, teaching Latin, Greek and Humanities and serving as Chairman of the Committee on Publications and of the Committee on Who's Who in American Colleges and Universities, he contributes time and assistance to various student groups. He frequently gives Dr. Hill and the Centre Players aid and advice in the staging of their productions. The Junior Pitkin Club benefits from his services as faculty advisor and both he and Mrs. Vaughan serve as advisor to the Westminster Fellowship group.

Faculty and

Administration

As the Atomic Age blends into the Space Age, we face this certainty: Man must be prepared for change.

This year at Centre has involved many changes in the organization and life of our campus. Your ready and cooperative response to these changes suggests that you will be ready to make the greater adaptations which life will surely require of you in the years ahead. With minds prepared for creative adjustment to new circumstances, you should approach the future with eagerness and confidence. Our best wishes go with you.

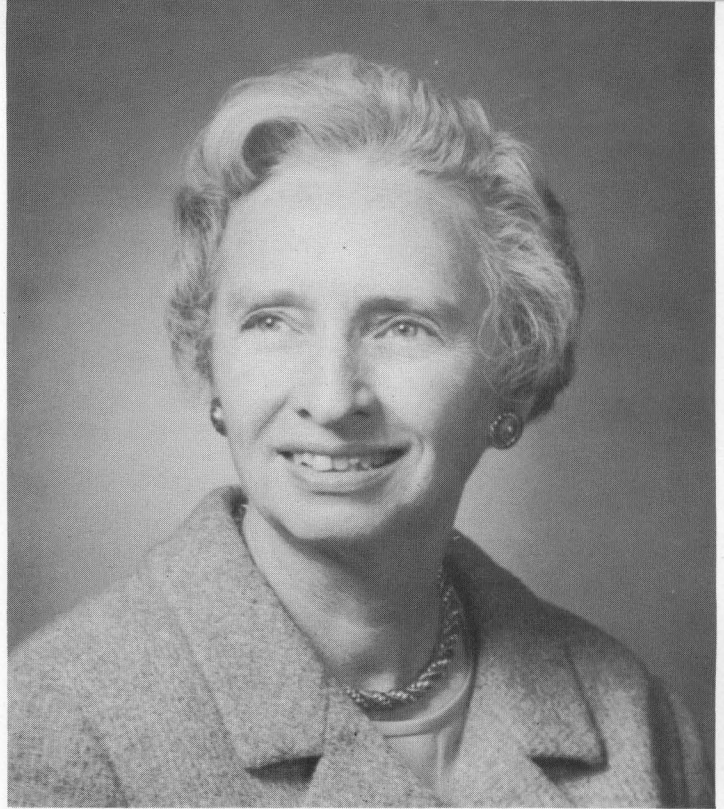

Cordially yours,

The Memoriam . . .

DR. RICHARD I. RUSH

Dr. Richard Irwin Rush, '60 served as professor of chemistry and department head at Centre College from 1927. Dr. Rush pursued with distinction the ideal of a Christian scholar-teacher. He was highly competent and respected in his own field, active in research, and a dedicated teacher.

His 34 years of service to Centre was the longest of any member of the present Centre faculty. He was chairman of the Centre faculty research grant committee and had served as chairman of the school's scholarship committee. In 1954, he was voted by Centre students as "the most popular professor."

A Dr. Richard I. Rush Memorial Scholarship Fund has been established at Centre. The fund will be used for a scholarship for a deserving chemistry student.

PROFESSOR DWIGHT STEERE

For over fifteen years, Mr. Dwight Steere served as the chairman of Centre's department of music. An accomplished musician, he set and achieved high standards of performance for himself and for his students. But his concern for the college extended far beyond his own teaching responsibilities. He was a broadly educated man, deeply interested in every measure which promised to enhance the effectiveness of the college.

Under Prof. Steere's direction Centre choirs gained prominence through annual concert tours into many states. He was the author of two books dealing with music for Protestant worship. He was also organist and choir director at the First Presbyterian Church, Danville, and president of the recently established Danville Community Orchestra.

DR. EARLAND RITCHIE

During his fifteen years at Centre, Dr. Earland Ritchie demonstrated a genuine devotion to his duties as a teacher and a deep concern for the intellectual growth of the young people whom he taught and counseled.

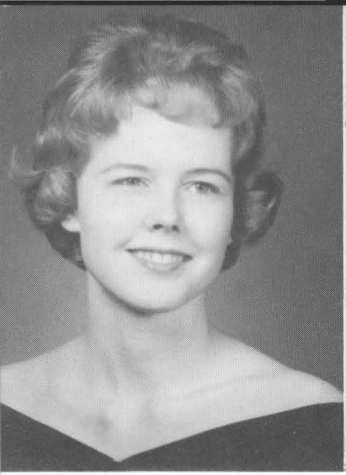

While he spent most of his career as a college teacher, Dr. Ritchie took an active part in the movement to improve the quality of instruction in the sciences in the elementary and secondary schools. He will be remembered particularly as an earnest Christian and active churchman.
