

Ecocity Berkeley: Thirty Years On

September 15 - December 15, 2017

In 1987 Richard Register released his first major book, *Ecocity Berkeley: Building Cities for a Healthy Future*, inserting “ecocity” into the urban planning lexicon. Using Berkeley as a test bed, he promoted a new vision for urban development; his ideas and drawings presaged a number of contemporary design elements, tuning architecture and urban design to nature’s and human needs and desires. This exhibit explores his inspiring vision and its international influence.

**Environmental Design Library,
210 Wurster Hall
University of California, Berkeley**

Exhibit Committee:

David Eifler, Richard Register
Julie Le DenMat, Jason Miller
