WE'RE GETTING THERE

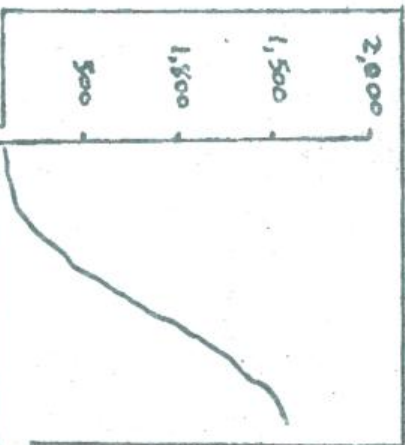

This morning (13/2) about thirty of us turned up at the Royal Courts Of Justice (HighCourt) in the Strand, to see if we could stop British Rail evicting us from Rother ithe New Rd. quite as quickly as they would like to. After we had finally found the court which was in fact at the Land Tribunal in Chancery Lane (good job we were early and the case started late) we all gave our names (for the day) and addresses to the nice lady in the black gown and went and sat down in Court No. 3.

The judge seemed very pleased to see us and said he had never had so many skwooters in his court at the same time. IT WAS put to him quite simply that there would be no harm in letting us stay until all the legal tenants had been re-housed, as BR only wanted to demolish the block. The judge was quite taken with this point but the BR gentlemen seemed very confused by the suggestion. After some whispering between themselves, their lawyer asked for us to be asked to leave the court. So the judge asked us and we did. cont. P. 2.

82 83 84 85 86 LATEST FIGURES REQUIRED!!

We now have the latest figures of skwots in Southwark from the Housing Management Sub-Committee Monitoring Report (no-less) in the Public Library. There are now 1500 skwots. The overall number has increased despite attempted mass evictions. The number of empties is over 2500-so go fill 'em up cause the best skwots are still amongst the undesirable letting stock. Old houses and stuff due for renovation are more likely to be reposessed. Happy Skwots!

(EVEN IF NOBODY ELSE DOES!)

AROUND THE WORLD FOR 60P

Like to travel? No money available to make the most of this worthwhile and popular pursuit? Well read on... Obtain a travel card (2 passport style photographs of yourself or Abraham Lincoln needed) and then, from a newsagent, purchase a one week, one zone bus pass or whatever, starting one week after the day you buy it. Show it to the conductor/driver in a normal manner (as though you had a regular pass) and laugh quietly, to yourself, when they say "Thank you, next please!"

Letter to Wire, 31 Jan '86.

To whom it may concern, having recently read wire which contained a joke which I found quite offensive (about two Irish fishermen) I'd like to know how the fuck people who present themselves as an 'anarchist squotting group' can possibly print this sort of derogatory nonsense (why Irish??) It is quite enough to have to put up with Irish jokes coming from the more prejudiced and reactionary public figures in the media without finding the same crap in something one regards as somewhat relevant.

So kindly wise up
or fuck
up...
JO.

A quote.

"I am a tenant, you are a squatter... go away or I will call the police."

Solomon Ben-Ami
Chairman Rockingham Ten. Acc.

ROCKINGHAM

A couple of weeks ago "2 squatters were arrested for obstructing the bailiffs and pigs on Rockingham, another time and money waster by the pigs. Both people appeared, no evidence was offered (they couldn't really could they?) so both were bound over for a year. No other details available but nice one!

SQUATTERS 2 PIGS NIL.

COCAINE WARS

New York - A new form of coke is causing concern to the authorities, their claim being that it speeds up drug abuse in adolescents.

Crack as it's called just turned up a year ago in the Bronx.

Crack is already processed in its purified form that allows that allows it to be freebasing. That is mixing cocaine powder with baking powder or ether and evaporating the paste over a flame.

Up until recently, 60% of users snorted coke and 40% injected or freebased.

But with the rise in AIDS (acquired Immune Deficiency Syndrome) users have turned to freebasing.

The effects are a bit different too, their highs not even comparable. Its like were taking a different drug here. A word of warning, while snorting coke is not as good a hit, you only need a rolled fiver to get you there. Freebasing needs a flame - ask Richard Pryor!

BRENDAN.

SUNDAY
6 P.M.

This is an appeal on behalf of a squatter who has been heating water on a candle. Well you know what I mean. They have been 2" cooking" on a lece fire laid on its side.. So if any of you out there have any kind of electric cookink devices please get in contact with Wille at SNOW or at 10. Keston House. (We have a cold water squat... plenty of lece but nothing else) So please HELP..

THE EXTREMELY HIGH QUALITY OF THIS WATER IS DUE TO THE LACK OF DRINKERS.

good food
