REGENTS APPROVE COLLEGE OF DENTISTRY FOR MEDICAL CENTER ADMINISTRATION

At their meeting last week University regents approved the administrative realignment of the College of Dentistry from the Lincoln campus to the Medical Center.

The change, to be effective July 1, will make the College of Dentistry a part of the Medical Center, with its dean reporting to the Medical Center chancellor.

The principal purpose of the change is to provide for closer educational and administrative relationships among the various units of the University within the general area of professional health sciences, and to strengthen programs and educational opportunities in allied disciplines.

The regents emphasized there is no intention to move the College physically from Lincoln to Omaha.
