

How My Family Celebrates Cambodian New Year

My family celebrates Cambodian New Year by going to the temple to pray for good health.

The temple has a lot of decorations all around it statues of Buddha, flowers, candles and pictures of Buddha.

My family brings special food to the temple like two or three kinds of coconut, rice candles and fruit.

People wear new clothes on Cambodian New Year. Sometimes they wear the old fashioned clothes or, plain clothes.

At the end of Cambodian New Year we have musical concerts where they ^{play} Cambodian songs and people dance.

Hope You
