Dear Susan,

My seven 6<sup>th</sup> grade students  
& I have finally succeeded in  
sending these letters off to you & your  
students -

These letters have gone through  
many drafts & many date changes -  
however, the students are so very,  
very excited & interested in this  
project (as am I).

I'll give you the names  
of the students & gender of each  
(as it is not possible to identify  
gender by name).
