Dear Grand Mother,

How are you? I Miss you very much. Do you love me or not? My family loves you very much. And do you know what? My mother has a new baby and it is a boy. He is very beautiful. And he is funny too. He knows how to walk but he doesn't really walk very well. America is different from Cambodia. America has beautiful houses and it has tall schools. The schools have many rooms in it. We have different food from Cambodia. We can buy Cambodian food in Cambodian food stores. When it is recess we go out and play. Some people play Jump rope and some people play hide and seek and some tell funny stories. See how different it is?

Love you
Your granddaughter Savy Chum
