Dear Cousins,

I miss you a lot. I wish you could come to America with us. I live with my mother and my aunt in America. America is cold and hot. I am in the J. G. Ryne School. I am very happy in America. My mother has a car. She know how to drive. My mother works hard. In school I have a lot of friends. In America there are a lot of people. There are America people, Spanish people and also black people. America has a lot of rain and wind too. I study hard in school. And I knew how to speak English. And I know how to read and write. I have three teachers. If you come to America you can learn.

Love,  
Chantha Duong
