Dear brother,

I miss you very much. and I want you to come to America. We have alot of food. In America we have food that we didn't eat before in cambodia like pizza and other food. My favorite food in America is hamburgers. Most Americans love them. A hamburger is chopped up beefs made into a round, flat piece, fried and we eat it between 2 pieces of bread called a bun. I like tomatoes, pickles and lettuce on mine. Americans love french fries too. They are long thin pieces of potatoes, fried - They are delicious. I like ketchup on my food too. I like Cambodian and American food.

Your brother,
Channy Vann
