Dear uncle,

I wish I could see you married in
Cambodian. Please come to America and live
in my house. There are so many people
working in stores, kids playing in the
park, and kids going to school.

We have recess at school and go out to play.

If the kids fight the teacher tells them
to stop. you can work in Lowell. For money
to buy a car and a house. I want to ride
with you in the car.

Love

Cheth Choeun
