Elder Service Program

The Elder service program at CMAA is dedicated to improving the quality of life for Cambodian Elders.

Some of the services we provide are transportation and translation.

Program staff assist clients fill out citizenship applications, and other required forms for various social services.

We assist clients in making and getting to medical appointments as well as translation during medical appointments.

Elderly Health

Part of the Elder Service Program is to educate Cambodian Elders on the importance of living healthy and productive lives..

Program staff provides education, training and case management to Cambodian refugees who are living with chronic disease.

Program staff educates participants on the warning signs and treatment of diabetes, cardiovascular disease, Hepatitis B, osteoporosis and depression.

A Registered Nurse from Lowell Community Health center attends some of the health classes where she shares answers to clients questions and gives them facts on healthy living habits.
