

The History of Lowell Immigration
project was done by Chapter I ESL
students in grades 3-6. Room 16

Each feature in the project was
drawn free hand on construction paper,
colored, cut out and then pasted on
each poster board.

Although Lowell has been and is
home to people of every color, race
and creed, the project displays in
general, the largest waves of
immigrant/refugee groups who have
emigrated from their native
land and have chosen to settle
in Lowell, Massachusetts.
