RECEIVED

Rep James Jones
House of Representatives,
Washington D.C.

FEB 4 1974

JAMES R. JONES, M.C.
WASHINGTON, D.C.

My dear Mr. Jones, I sent
a note and clipping intended
for my representative in
Congress mistakenly addressed
to Fred Harris I hope you
received it if it bears any
weight.

The message intended
was Lay off the President
we only have one and in
my opinion is the most
honest and "cleanest"
we have had since
Herbert Hoover. You and
many others know only
of riding along on

war, in Europe and Asia
it was a little too warm
when it came to Cuba
Thanks to Mr Stevenson
(Kennedy took the credit)
we did not mix up in
that:

Personally I am against
the Government telling all
of us what to do where to
live etc., but so many
have their hands out
for government checks I
guess it may balance
the weight in your,
The Democrats, dissection
Big business, Big
Government? we do not
have much choice but former
is less dangerous

Dear Mrs. Harrington:

Thank you very much for communicating with me concerning your opinions on the question of impeachment.

After several resolutions of impeachment were introduced last year, the House Judiciary Committee was assigned the responsibility of investigating the facts to determine whether there was evidence to personally implicate the President in an impeachable offense.

A staff was assembled in December to begin this study. It is expected that the Judiciary Committee staff investigation will be completed sometime in April. At that time, the evidence will be presented and a vote taken to determine whether impeachment proceedings should begin or be dropped.

Most House Members, including myself, believe that we should keep an open mind and decide on the basis of the legal evidence which is presented later in the spring.

In the meantime, Congress has a full agenda of important business in the areas of energy, the economy, and other domestic legislation which will occupy my work and attention.

I do appreciate your taking the time to share your views with me, and I will keep these in mind at such time as I am called upon to decide on this issue.

With best wishes, I am

Sincerely yours,

JAMES R. JONES
Member of Congress
