Dear Sir:

I am becoming increasingly concerned about the picture of the House of Representatives And Senate that is being painted by the news media. In this picture I see certain representatives and senators "out to get the President" with others seemingly willing to join in.

I want to make it as clear as possible to you my feelings concerning my support of the President of The United States in the areas of "Watergate" and impeachment.

I support the President 100 percent.

I ask that you support Mr Dixon in these matters.

Sincerely,
Eugene J. Milligan
