Dear Mr. Jones:

I like most Americans do not take the time to express my views on issues which affect me but now I am compelled to do so. I voted for President Nixon and supported him until recently. I gave him the benefit of a doubt in the Watergate matter until the two key tapes came up missing. Now we find a key conversation is mysteriously blocked out. How stupid does the Nixon Administration think we are? It is obvious to the ordinary citizen that this is more than a mere coincidence.

It gives me a sick gut feeling to think that high officials are above the law. I believe it is the Administration's intent to drag this matter out until justice is denied. President Nixon says he will cooperate in every way but throws up obstructions at every opportunity.

The obstruction of justice is an impeachable offence and I now believe President Nixon is guilty of this. As sincere and conscientious leader I urge you to help bring justice in this matter.

Sincerely,

John C. Long
