Dear Sir;

The cry goes up again from all the Pollyanna, sob-sisters and ~~others~~ there "Let's stop persecuting our president and discussing the Watergate mess. The whole story could be finished in one day if the American people could get the answer to the following questions -

1. Who ordered those men, who entered the Watergate, to obtain information about the Democrats in the first place? That person has the main complicity. If someone pays another to commit murder, then he is more guilty than the murderer.
2. Who set up the "Plumbers", or secret police force?
3. Who suggested publishing false stories about their political opponents?
4. Who suggested using federal agencies, to like I.R.S., to investigate imagined "enemies"?
5. Were illegal funds used to finance illegal activities and who gave these funds?
6. Who ordered the erasure of incriminating tapes and the destruction of all incriminating evidence in the Watergate affair?

Until we have the complete answer to all of these questions, the American people will never be satisfied! Louise Snyder

Dear Mrs. Snider:

Thank you very much for communicating with me concerning your opinions on the question of impeachment.

After several resolutions of impeachment were introduced last year, the House Judiciary Committee was assigned the responsibility of investigating the facts to determine whether there was evidence to personally implicate the President in an impeachable offense.

A staff was assembled in December to begin this study. It is expected that the Judiciary Committee staff investigation will be completed sometime in April. At that time, the evidence will be presented and a vote taken to determine whether impeachment proceedings should begin or be dropped.

Most House Members, including myself, believe that we should keep an open mind and decide on the basis of the legal evidence which is presented later in the spring.

In the meantime, Congress has a full agenda of important business in the areas of energy, the economy, and other domestic legislation which will occupy my work and attention.

I do appreciate your taking the time to share your views with me, and I will keep these in mind at such time as I am called upon to decide on this issue.

With best wishes, I am

Sincerely yours,

JAMES R. JONES  
Member of Congress
