## Miss Greene County Says Thanks...

J. Sig Pulson once said, "Joy is an asset but we must invest it in (enjoy) what we are doing before we reap its dividends." My reign as Miss Greene County definitely has been a joy to me. Although I must admit at first I had a few doubts and fears, they soon passed. I accepted my reign as a personal challenge, something I wanted to do, to work hard at. I invested joy into my experiences and I sincerely feel that I have reaped its dividends.

This has been a year of sharing and receiving knowledge, making new acquaintances and friends, further developing my abilities and talents. As a result of this, I feel richer, wiser, more poised and confident. I have learned to be myself while working constantly to improve that self.

As I relinquish my crown, I give it to the new Miss Greene County with the hope that she will invest joy into her experiences and the faith that she will reap its dividends.

Thank you Jaycees and Jaycettes, my family, and a special thanks to you Greene Countians for making my reign as Miss Greene County a once in a lifetime experience.
