3:25 - 3:30	Planning Period	

ANNUAL SUMMARY OF PROGRESS TOWARD
ACHIEVING OBJECTIVES

Our progress has been achieved greatly. Ample time was given to each group along with individual attention.

We have learned the meaning of good citizenship & it takes this to maintain a good community & school.

Mrs. J. A. Bowers

Our first plans were to make our room a more attractive place for our work. The children offered several suggestions as making a new bulletin board. Others made use of the planning period to get stories & poems for our collection.

A very interesting project was planned by the fourth & fifth grades combined. Since our keep was so small in both instances we planned our work together. Our interest was focused on the dominant animals of long ago. Several books and pictures were displayed & used in this subject. I think the children here come to conclusion through the study of dinosaurs that they would rather live in the present period.

Another well accomplished course was called "Our Changing World". This unit showed us the many interesting and fast changing things that have been done throughout each generation. Through this we are progressing fast and better.

Film strips were shown for further study.

Our whole year has been very successful in all that we have attempted to do. Our P. T. C. has worked wonderful for the betterment of our school.

SCHOOL OBJECTIVES

Our school objectives were to develop four points of view: (1) open-mindedness, (2) eagerness to learn, (3) be critical minded to know the right & wrong & to be able to discuss these problems intelligently. (4) Courage to do, especially to put into practice what was accepted. All of this was to help us along in our educational program set before us.

Mrs. Josephine Bowers
Raven Mountain (C) School

CLASSROOM OBJECTIVES

In our Language Arts program we have been using several aids to provide an ^{added} enrichment to the child's language program. With these aids, such as the workbooks, charts, games & pictures we found that all of this has broadened his interests & opportunities in his use of spoken & written language. Since this has been our most difficult unit. We found a lot of fun doing our work by the new procedure.
