MERIT ROLLS

POSITION IN CLASS. The marks on which the merit rolls are made are obtained by multiplying the average in each branch by its "weight." The aggregate of these "weighted averages," with the Conduct Marks added in, determine the relative *class standing* of cadets. Elective studies are not counted in the final grading for graduation.

WEIGHTS. The weights given in the various subjects are proportional to the time assigned them in the schedule of recitations.

ACADEMIC STANDARD. A minimum average of 50 per cent is required in each department, and a "general average" of 70 per cent of the aggregate—not including the Conduct Mark—is required for advancement to a higher class and for graduation.

CONDUCT MARK. The value of the conduct mark is fixed at five per cent of the Academic aggregate.

CONDUCT ROLL. Rolls exhibiting the relative standing of the cadets in Conduct shall be formed by the President at the June examination for the whole Academic Year, in the following manner:

1st. Merits. Merits shall be awarded to the cadets upon the following basis.

For perfect Conduct for one week.....1

2nd. Demerits. To all the recorded delinquencies of the cadets shall be affixed a number of demerits, not exceeding 10, corresponding to the degree of criminality.

In determining standing on the "Conduct Roll," Merits and Demerits shall have correlative value.

DEFICIENCY IN CONDUCT. When any cadet shall have a number expressing his demerits on the general Conduct Roll greater than 200 for his Freshman year, 170 for his Sophomore year, 150 for his Junior year, 130 for his Senior year, such cadet shall be declared deficient in Conduct, and be immediately suspended, and reported to the Board of Visitors at its next meeting.

CADETS

OF

THE CITADEL

THE MILITARY COLLEGE OF SOUTH CAROLINA

IN THEIR RESPECTIVE CLASSES

FOR THE SESSION 1925-26.

CLASSIFICATION OF CADETS

The cadets are arranged in four distinct classes, corresponding to the four years of study. The cadets employed on the first year's course constitute the Freshman Class; those on the second year's course, the Sophomore Class; those on the third year's course, the Junior Class; and those on the fourth year's course, the Senior Class.

NOTE.

Those cadets whose names appear in CAPITALS are officially selected for publication, conformably to a regulation which requires the names of the most distinguished cadets not exceeding two in each class, to be reported for this purpose at each Annual Examination.

DEPARTMENT OF INSTRUCTION

COURSES

The studies of the Freshman and Sophomore Classes are the same in all the courses. Beginning with the Junior Class, in addition to certain prescribed studies common to all the courses, students are offered optional subjects in the line of civil engineering, chemistry, physics and electricity, "premedical" preparation, English and history, or business administration.

DEGREES

Upon the completion of the four years course of studies, as outlined in the following pages, the cadet is granted the degree of Bachelor of Science, or the degree of Bachelor of Arts.

The degree of Bachelor of Arts is granted to all students who successfully complete the English-history course. The degree of Bachelor of Science is granted to graduates in the other courses.

The degree of Civil Engineer is granted to those students in Engineering, who, after graduation, furnish satisfactory evidence of engineering work of a superior quality extending over at least three years, and who submit a satisfactory thesis.
