## MERIT ROLLS

**POSITION IN CLASS.** The marks on which the merit rolls are made are obtained by multiplying the average in each branch by its "weight." The aggregate of these "weighted averages," with the Conduct Mark added in, determine the relative *class standing* of cadets. Elective studies are not counted in the final grading for graduation.

**WEIGHTS.** The weights given in the various subjects are proportional to the time assigned them in the schedule of recitations.

**ACADEMIC STANDARD.** A minimum average of 50 per cent. is required in each department, and a "general average" of 70 per cent. of the aggregate—not including the Conduct Mark—is required for advancement to a higher class and for graduation.

**CONDUCT MARK.** The value of the conduct mark is fixed at five per cent. of the Academic aggregate.

**CONDUCT ROLL.** Rolls exhibiting the relative standing of the cadets in Conduct shall be formed by the President at the June examination for the whole Academic Year, in the following manner:

*1st. Merits.* Merits shall be awarded to the cadets upon the following basis.

For perfect Conduct for one week.....1

*2nd. Demerits.* To all the recorded delinquencies of the cadets shall be affixed a number of demerits, not exceeding 10, corresponding to the degree of criminality.

In determining standing on the "Conduct Roll," Merits and Demerits shall have correlative value.

**DEFICIENCY IN CONDUCT.** When any cadet shall have a number expressing his demerits on the general Conduct Roll greater than 200 for his Freshman year, 170 for his Sophomore year, 150 for his Junior year, 130 for his Senior year, such cadet shall be declared deficient in Conduct, and be immediately suspended, and reported to the Board of Visitors at its next meeting.
