

MEMO

To : Dennis K.
From: Frank D.
Date: 8/3/83

Attached is a list of Radio Actualities and Press Releases. My role is to record Paul's accomplishments but the following are ones where that was not the only role or where the recording magnified the accomplishment.

- Paul's co-sponsorship of a Senate Resolution banning the use of plastic bullets in Northern Ireland. This stand helped to offset the feeling against PT among some in the Irish Community because of his support for Britain in the Falklands crisis.
- The initial contact relative to the GSA layoffs at the McCormack P.O. and Courthouse in Boston was made through me by the AFGB. I worked on this initially, got Andy involved and then got it recorded in the AFGB newsletter.
- Paul had four Press Conferences in Boston during this period (1/1 to 8/1, 1983)
 - The High Tech Morrill Act
 - Education at Copley Square High School
 - Cambridge Computer Education Program
 - The Sale of the Celtics
- Testimony in support of the Bolling Bill on the Arena feasibility study. The bill recently passed the House and could be on the Governor's desk this week.
- We coordinated with the Mayor of Peabody on a UDAG announcement that got an incredible amount of media attention in the North Shore media. Fortunately Paul was available on the next working day after the announcement and the Mayor put together a large group on very short notice. Paul's availability made this a great opportunity to get media notice far beyond what we ordinarily do for such an announcement and in an area that we want to emphasize as well.
- Worked with Doug M and Pittsfield business people on media for meeting on Downtown Economic Development program for Pittsfield. Coordinated PT on a radio actuality to coincide with the meeting.
- Worked to position Paul with Roadbuilding and Heavy Construction Contractors for a positive reception when he spoke to them in May. Emphasized with them Paul's positions on Jobs Bill and Capital budget. These two issues offset their previous wariness about

Paul because of his opposition to a third harbor tunnel and his emphasis on Mass Transit in the Mass Plan. Bill Reynolds, the Chairman of CJM who is a friend of mine, asked me over a year ago if it were possible for Paul to speak. He was well received and I think that sporadic attention to this audience over the course of the year was well worth it.

-Publicity on the Bielecki and Suarez cases had effect beyond that of a news story. In both cases but especially with the Polish Community because of the Bielecki case, Paul's effort did not go unnoticed.

PRESS RELEASES

These releases listed are those written on substantive topics and do not include releases on Paul's Schedule, Shirley Simons Schedule and the Van Schedule.

- Tsongas calls on National Park Service to assist Blackstone River Conservation Strategy.
- three releases on the nomination of Thomas Ellis to the Board of International Broadcasting.

- Tsongas to file Legislation to Aid Homeless
- Equal Rights Amendment
- Tsongas Announces Federal Energy Grant for Massachusetts
- Tsongas calls Federal Financing for Shoreside Facilities a " Shot in the Arm " for fishing industry.

RADIO ACTUALITIES

This is a partial list of radio actualities. We didn't start recording them until late March or April.

- Central America and Henry Kissinger
- Acid Rain
- ASAT Amendment
- Negotiations in Central America
- Pittsfield Downtown Development
- 10 % Withholding
- King Hussein decides not to join Peace Process
- President's Speech on Arms Control
- Social Security
- The Cambridge Plan - Computers for Kids
- The Rowny Hit List
- Nuclear Freeze
- Jobs Bill
- Adelman Confirmation
- State of the Union
- President's Visit to Boston
- Legislative Focus of the 98th Congress.

Most of the major radio outlets outside of Boston have taken these actualities and run them. (Generally, Boston outlets won't take pre-taped statements). We have systematized all the outlets in the state, so that we can tell at a glance whether we have neglected any area. Also, we have made some recent technical adjustments that make it possible to get these out easier and faster.
