

Dennis:

It is VERY important that we begin to develop a photo library of Paul. I get requests from Network artist and others who need a variety of action shots of Paul in order to complete their sketches of Senate Floor action. As of now, we are not able to offer them anything but a relatively poorly reproduced head shot.

Marsha has a few photos in her file but not a very good selection.

My request is this:

- (1) Could we have Paul sit for a professional photographer so that we can have really decent, handsome photos of him for the general public (he seems to be difficult to photograph) and
- (2) Could we have a photographer follow him around at least three times a year, starting next month, for action shots.

This way we could reproduce a nice package for TV and newspapers and other publications who might feature him.

Please let me know. I know that it will cost a couple of hundred dollars to accomplish this but I really think that its necessary.
