Re Speech on National Forest Amendment

The front part is new--focusing on jobs.

The middle is a revision on what was in the comprehensive speech Monday.

- I will revise it more as time allows.
- Reminder: Roy suggests not mentioning a projected mmbf figure that exceeds 520 mmbf (e.g., 600-700 mmbf) at all.

There's a little at the end that's new.
