

JACKSON JOHNSTON TSONGAS WILLIAMS AMENDMENT ON HUD-DOE INTERAGENCY AGREEMENT

Requires the two agencies to enter into an agreement on the administration and operation of the local energy program.

This strengthens the bill language, which calls for "consultation" between the two agencies, and gives the administration the authority to use what is necessary in terms of HUD data base for the funding formulations, the field structure and field staff and other critical resources.

The amendment represents a compromise between the Senate and Banking Committees.

It should be adopted by voice vote, without debate.
