Dean Stuby, junior, added the PAT.

### Stuby Runs 66 Yards

The 66-yard run by Rister was excellent blocking by the Bulldog linemen, but a block was thrown by the defensive line by Larry Stuby on the Lions' line. He did not take a man but two, which enabled him to continue his run. Doug Young and junior tackle Ken Hieber stepped up to take out the final man on the Lions' line. Rister later returned a punt for 49 yards, nullified by a clipping

Last week the Bulldogs defeated the Lawrenceville Indians by a score of 6-0. The only game was scored by back and all-conference player, John Gidcumb, a kickoff from sophomore back Bill Fulkerson. The game was dominated from the two halves.

The try for the extra point by Stuby was good, but was nullified by an off-side play against the Bulldogs. The Lions marched from the 40 yard line in eleven plays for a touchdown. During one of the eleven plays, Larry Rister suffered a slight injury.

## IN MEMORIAM

CHARLES BAKER

*Charles was with us at Milton only a short time,  
but we will always cherish the memory of his  
friendliness.*

Senator Ollie D. Johnston, Democrat of South Carolina and Chairman of the Senate Post Office Committee sent Mr. Day a letter. In part, Senator Johnston said:

"I am mindful that you believe savings of \$300,000,000 can be achieved, provided the Department be given time and authority. I am anxious to know what additional authority the Department will require.

"The Congress would welcome a reduction of this magnitude because it would be a potent factor in reaching an equitable rate adjustment in 1962. I wholeheartedly support the postal system modernization, which will result in substantial savings without impairing this vital public service, or harm to the devoted career workers."

These are strong words indeed from the man who will play the most important role in this rate question. Mr. Day and Mr. Kennedy have their work cut out for them if they hope to win more money for the Post Office from the public through the action of Congress.

Now is the time to write your representatives to tell them of your feelings on this and other important matters which will face Washington during the next session. Be a responsible citizen by writing them and informing your

Money spent per pupil increased from \$224 a year to \$390 a year. And American communities approved the highest volume of school bond issues in history during 1960. Even so, less than one per cent of America's local school districts have reached their maximum bond limitations.

All this has been done without Federal intervention, Federal dictation-or the Federal control that surely must follow Federal subsidy. It has been done with the local taxpayers' money, taxpayers who are interested in seeing the schools in their local communities improve and expand. We need to increase teachers' salaries. The need to improve and expand school facilities is also great. The local communities are moving to

# Football Queen at Bonfire Rally

"The 1960 Homecoming Queen... Linda Crowder," revealed honorary captain Richard Gates at the bonfire and pep rally held Thursday night before Homecoming.

These words signaled the start of a time of revelry, supervised and otherwise. After naming Linda Crowder as a snake dance up Main Street was held in her honor.

As Carmi awoke Friday morning, evidence was seen of activities that went on after the snake dance was over. The homecoming bands on the football field had been decorated with tissue and free containers of flowers had been placed on the field in reverence to the Mt. Carmel Aces, the Bulldog's Homecoming opponent.

Soap had been applied without restraint on car windows, fenders and...

Sad and downtrodden, the CTHS juniors finished the magazine drive, falling more than a thousand dollars short of the \$5,000 goal.

Leading the sales of \$3,560.12 were Susan Swanson with \$168.21 and Bill Behnke with \$145.00. They were declared high salesmen of the drive. Their reward will be an "oscar" trophy and a party.

A cake baked in two or three minutes was demonstrated to some students until Mr. Gary Turco proved that it was not a rubber cake. The difference between the chemical cake and the real one was that the synthetic rubber have a little spring to them.

This was one of the new inventions presented to the student body in General Motors Previews of Progress narrated with tact and humor by Mr. Gary Turco and Mr. William Vandewater.

A new type of non transparent glass called pyroceram was demonstrated. This is used for the windows of rockets sent into space.

# Bonfire Rally To Procure Cards

"Bracelets and necklaces inscribed with football pictures will be given as bonuses to the students who purchase Christmas cards now on display in the gymnasium downstairs," stated Mr. Turco as he explained the drive.

The sixth annual Christmas card campaign is now in progress. The cards are being sold in the gymnasium.

Contributing to the drive \$100 or more were John Darrell Trout, Charles Dennis Beck, who will receive a party.

Other high salesmen were selling \$50 or more were John Young's room with \$212.12 was high home of the drive. Following John Cralley's room with \$180.00. Coming in third and fourth were Mr. Darrell Lower's room with \$520.93 and Miss Grace with \$506.72. Unhappy party in the near future three low home rooms: Harrison' with \$429.63, Evers with \$383.23 and Dixon with \$271.18.

# VARSITY BOYS' BASKETBALL

The boys' basketball team under the leadership of captain Louie Fouts had another of their fine years.

The Starters, all repeaters from last year's team, are as follows: Melvin Cochran, Wayne Brand, Jim Martin, Arthur Letchas, and Louie Fouts. These boys, combined with the efforts of the second string, made competition keen in every game.

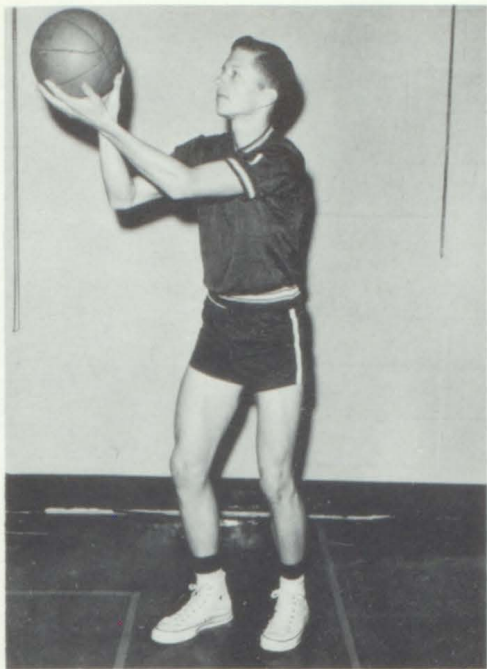

Since all the starters on this year's team are seniors, there will be a large gap to be filled by this year's substitutes.

## In Appreciation...

Members of the AERIE staff will always be grateful for the many persons who have made publication of this book possible. We realize the inconvenience that picture schedules have caused both faculty and students, and to you we extend our sincere appreciation.

Support from our advertisers and the ad staff has been invaluable. The ads contributed greatly to the financing of our year book, and the staff has given freely of time and ability.

Our advisors, Miss Gail Thompson and Mr. Clayton Hawkins, have always been ready to work and to encourage us.

To Hewett Publishers and Company and Mr. E. S. Garmon we owe our gratitude for their cooperation and interest. Mr. William Brandon has kept in contact with us and offered suggestions and advice. We appreciate the time they have given us.

It has been a memorable pleasure to work with all of these people in producing the 1962 AERIE.
