**TABLE XV. FIGURES TO BE USED IN CALCULATING DISTRIBUTION OF STATE FUNDS**

I. Total Average Daily Attendance, Grades One to Eleven inclusive, in the schools of Fullton County or City for the school year 1947-1948, of children RESIDING in this county or city. Copy from (bottom line) summary column, Pages 5 and 13. These figures do not include any children counted in Item II below.

II. Children living in this school system attending schools in other county systems or independent systems. Give name of each system.

| AVERAGE DAILY ATTENDANCE |        |       | TOTAL  |
|--------------------------|--------|-------|--------|
|                          | Elem.  | H. S. |        |
| White                    | 14,562 | 5,298 | 19,860 |
| Colored                  | 3,645  | 312   | 3,957  |
| Total                    | 18,207 | 5,610 | 23,817 |

(A typed letter may be pasted in this space if more convenient.)

- Enter in each space the combined totals of all schools in your system, as taken from last page of Principal's Reports.
- Be sure that totals agree with totals shown on pages 6 and 14 (Enrollment by Grades).
- The enrollment shown between the heavy lines in this table represents Normal Pupil Progress. Those below the line are accelerated and those above are retarded.

Mr. Jarvis Barnes  
Director of Attendance  
City of Atlanta School System  
Atlanta, Georgia

Dear Mr. Barnes:

Will you please furnish us the information called for by table XV section II, page seventeen (17) of the Superintendent's Annual Report to the State Department of Education as pertains to the children of this county attending the schools of the City of Atlanta?

In view of the June 30th filing date for this report your promptness in furnishing the above information will be greatly appreciated.

Very truly yours,

Superintendent

PDW/mh

1947-48

# INSTRUCTIONS

**GENERAL**—The statistical information for this report may be compiled from the data found on the Principal's Annual Report, Office records and reports from bus drivers. You will note that the Principal's Annual Report is keyed to this Form and the information desired in the tables may be easily transcribed from the Principal's Report. It is important that complete and accurate information be furnished about the total operation of each school listed herein. **PLEASE OBSERVE CAREFULLY FOOTNOTES ON ALL PAGES IN BOTH WHITE AND COLORED SECTIONS OF THIS REPORT.**

**SCHOOL PLANT**—TABLE I—On page 1 list the names of all schools in alphabetical order. Use only one line across pages 1 and 2 in reporting complete information about all school plants in active use. All plant facilities in a line-school between counties, or independent system and county, should be reported by the superintendent of the school system in which the building is located. No individual school should be reported in part by two school systems.

**INSTRUCTIONAL EMPLOYEES**—TABLE II—The total number of instructional employees in each school should be shown in Table II on page 3. The total number of teachers should not exceed the total number of teaching positions in any school. The number of teachers receiving aid in salary from Federal Funds should also be listed as teachers employed in the elementary or high school grades. In order to secure uniformity in all reports, list only those principals who do no classroom teaching as non-teaching principals. All teachers in a line-school between counties, or independent system and county, should be reported by the superintendent of the school system in which the building is located. No individual school staff should be reported in part by two school systems.

**MISCELLANEOUS**—TABLE III—The total number of certificates held by teachers on the regular program should agree with the number of instructional employees in the regular program shown on page 3. In calculating the per pupil cost of instruction on page 4 include yearly salaries paid teachers and principals, and expenditures for teaching supplies.

**AVERAGE DAILY ATTENDANCE**—TABLE IV—Use only whole numbers in reporting average daily attendance on page 5. When the fraction is less than a half drop it and when more than a half increase it to a whole number. Be sure the attendance by grades when added equals the number shown in total columns. All attendance in a line-school between counties, or independent system and county, should be reported by the superintendent of the school system in which the building is located. Provision is made on page 17 for reporting children living in one school system and attending school in another system. In cases where children cross county or independent school system lines, the superintendents of the systems involved should see that their reports are in agreement. The yearly aggregate days of attendance for all pupils should equal the product of the ADA multiplied by the number of days taught. High school graduates refers only to four-year graduates.

**ENROLLMENT**—TABLE V—The enrollment of any grade or school will always exceed the average daily attendance. Be sure the enrollment by grades when added equals the number shown in total columns.

**PUPIL TRANSPORTATION**—TABLES VI and VII—This report will include information on pupil transportation. **Superintendents of independent school systems will please disregard the forms on pupil transportation.** County superintendents should report only pupil transportation paid for by public school funds. The information as provided for on the tables relating to pupil transportation should be secured from the bus drivers. It should be noted that pupil transportation will be reported separately for buses and cars. Station wagons are classified as cars. Tables on transportation are included in the report for white schools and also for colored schools. Use only one line to report each bus or car. Buses and cars will be reported according to the type of ownership. In column 2 write public, private or joint according to the type of ownership. The one-way mileage shown in column 6 must cover only the mileage from the point where the first child is picked up in the morning to the school last served by the bus. Column 7 will show whether the bus served a school that operated 140, 160, or 180 days. The total yearly mileage shown in column 8 may be had by doubling the total mileage in column 6 and multiplying this sum by the number of days operated as shown in column 7. It is not necessary for the state office to have information about the purchase price of cars. It is important that the purchase price of chassis and body be shown in column 9 of the table for school buses. All children living within 1½ miles of the school building must be omitted from the number of children transported to school. In column 11 of the bus report give the total payment for the operation of privately owned buses; where buses are publicly owned include ten per cent depreciation for equipment and repair costs, gas, oil, salary of driver, etc. The information for column 13(a) may be had by dividing column 11 by column 10. The per pupil yearly cost may be had by dividing the total operating cost by the number of pupils transported. The per bus mile operation cost may be had by dividing the total yearly operation cost by the total yearly mileage. Please insert totals for the school system and furnish all information requested in the summary table.

**COLORED SCHOOLS**—The tables contained in the section of this report for colored schools are identical with those used for white schools. Hence the instructions about tables for the white schools are also applicable to the colored schools.

**ATTENDANCE SUMMARY**—TABLE XV—The information shown in Table XV (yearly summary of attendance) is used by the State in calculating the allotment of teachers to school systems. Parts 2 and 3 of this table should show the number of pupils transferring from one school system to another. Pupils reported in parts 2 and 3 of this table should be by agreement of system superintendents in providing educational opportunities for children. It is imperative that elementary and high school attendance be reported separately.

**AGE AND GRADE CHART**—TABLE XXI—The total number of children shown in each grade should tally with the total number of children enrolled as shown in Table V on page 6.

**CONCLUSION**—After all information about each school has been properly recorded in the tables of this report, please be sure that the totals shown at the bottom of tables are correct.
