"1977," one of the coldest winters in the United States in years. Many schools all over the United States had what we call unexpected "holidays". Some schools were out completely because the cold weather caused a complete disaster. At least it wasn't so cold here at South Fulton that we couldn't enjoy it. So, as you can see, we did!

# Autographs

The success of an annual, like the success of anything, is dependent on the people involved in its production. I would like to thank my yearbook staff for doing what I consider an outstanding job. With only a short time to learn, and no previous experience, they composed a book that equals any I can remember seeing.

I have grown very close to all the students at South Fulton. You will be missed. But carry with you this book of memories, and the wish for future success, whatever your endeavor might be.

I would also like to thank the following people: Valentine Hayes, Charles Crews, Ann Carpenter, and all the other teachers who helped me this year.

Sincerely,  
CB Hackworth, Sponsor
