SOUTHERN ASSOCIATION OF COLLEGES AND SCHOOLS
Fayetteville Technical Community College is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools (1866 Southern Lane, Decatur, Georgia 30033-4097; Telephone number 404-679-4501) to award associate degrees, diplomas, and certificates.

THE PRESIDENT'S MESSAGE

Dear Prospective FTCC Student:

Welcome to Fayetteville Technical Community College, where you are our most valued customer. To ensure your early success, a well-qualified faculty and staff are available to assist you in your admissions, registration and learning process. As the third largest Community College in the 58 North Carolina Community College System, FTCC offers over 122 associate degree, diploma and certificate programs — “something for everyone.” And, FTCC offers courses and programs at times and places convenient for everyone.

At FTCC, we encourage life-long learning and strive to prepare students for further workforce and educational experiences. We are proud of our 96 percent job placement rate, the highest in over five years, which is a testament to the excellent training and academic preparation our graduates receive. Likewise, the average starting salary for an FTCC graduate has grown consistently over the past five years to \$31,493.

In addition to offering a quality, affordable education, the College also provides extensive academic support services that are described in this catalog. Whether you are interested in an educational program for the certificate, diploma, or curriculum degree, this catalog will provide you with a description of each course and program.

We are indeed pleased that you have selected FTCC as your college of choice and the faculty and staff look forward to assisting you in meeting your educational and career goals. You are important to us, and we wish you much success.

Sincerely,

A handwritten signature in cursive script that reads "Larry B. Norris". The signature is written in dark ink and is positioned above the printed name.

Larry B. Norris
President

PURPOSE OF THE CATALOG

Fayetteville Technical Community College publishes this catalog to provide students and other interested persons with the information about the College and its programs. The information provided is up-to-date as of January 2006. Changes subsequent to publication of this catalog are posted to the catalog on our website. For current information, visit our website at www.faytechcc.edu.

The provisions of this catalog are not to be regarded as an irrevocable contract between students and Fayetteville Technical Community College. The College reserves the right to change any provisions, requirements, or schedules at any time or to add or withdraw courses or program offerings. Every effort will be made to minimize the inconvenience such changes create for students.

Students having questions not answered by this catalog may receive additional information from their Department Chair or academic advisor. Applicants are encouraged to contact the Admissions Office, Fayetteville Technical Community College, PO Box 35236, Fayetteville, NC 28303-0236; telephone (910) 678-8473 or e-mail to: prospect@faytechcc.edu.

NONDISCRIMINATION STATEMENT

The Board of Trustees and the administration of Fayetteville Technical Community College are fully committed to the principles and practice of equal employment and educational opportunities. Accordingly, Fayetteville Technical Community College does not practice nor condone discrimination, in any form, against students, employees, or applicants on the grounds of race, color, national origin, religion, sex, age, disability or political affiliation. Fayetteville Technical Community College commits itself to positive action to secure equal opportunity regardless of those characteristics.

Fayetteville Technical Community College supports the protection available to members of its community under all applicable Federal Laws, including Title VI and VII of the Civil Rights Act of 1964 and 1991, Title IX of the Education Amendments of 1972, Sections 799A and 845 of the Public Health Service Act, the Equal Pay and Age Discrimination Acts, the Rehabilitation Act of 1973, the Americans with Disabilities Act of 1990, and Executive Order 11375.

For information concerning these provisions, contact:
Vice President for Human Resources
Fayetteville Technical Community College
P.O. Box 35236
Fayetteville, NC 28303-0236

PLEASE CALL US WITH YOUR QUESTIONS.

THE COLLEGE

GENERAL INFORMATION

Fayetteville Technical Community College, as a comprehensive community college, adheres to an "Open Door" admissions policy. High school graduates, persons achieving a North Carolina equivalency certificate (GED), and adults who show potential for post high school education may be admitted to courses which are appropriate to their educational potential. Successful implementation of an "Open Door" admissions policy requires an emphasis on admissions counseling services. As part of the admissions counseling process, Fayetteville Technical Community College utilizes an initial placement assessment and an evaluation of the applicant's prior school record to determine potential for success. When the admissions counseling process indicates that an applicant lacks sufficient academic background to pursue credit courses, he or she will be directed to the Developmental Studies program prior to entry into a diploma or degree curriculum. If the applicant lacks a high school diploma, he or she will be given the opportunity to pursue studies to achieve an Adult High School Diploma or a North Carolina equivalency certificate (GED) prior to entering a regular curriculum. Admissions to curricula are open to applicants without regard to race, color, national origin, religion, age, sex, disability, or political affiliation.

HISTORY OF FAYETTEVILLE TECHNICAL COMMUNITY COLLEGE

From a building of 38,000 square feet, a faculty and staff of nine people, and an enrollment of 50 students, Fayetteville Technical Community College has experienced phenomenal growth from 1961 to the present. Now in its third decade, FTCC provides programs to meet the vocational, technical, and adult education needs of Fayetteville, Cumberland County and surrounding counties. FTCC currently is housed on an 140-acre campus with a physical plant of over 840,660 square feet and has a full-time faculty and staff of 706 people, an enrollment of over 10,000 curriculum students, and a total operating budget of over 80 million dollars.

FTCC originated in 1961 as the Fayetteville Area Industrial Education Center under the auspices of the City Board of Education and operated in the old senior high school while facilities in the Honeycutt area were being finished. In 1963, the North Carolina General Assembly created the Department of Community Colleges for the expressed purpose of providing for the establishment, organization, and administration of a system of educational institutions. Located throughout the state, these institutions offered courses of instruction in one or more of the general areas of two-year college parallel, technical, vocational, and adult education pro-

grams. The authority for this newly-created department was vested in the North Carolina State Board of Education. The Center became a part of this system at that time.

The Center's progress in providing quality educational programs resulted in the Board of Trustees requesting that the status "Technical Institute" be given the Center. This request was granted by the State Board of Education in September 1963, and the name Fayetteville Technical Institute was adopted. With the status of "Technical Institute," the Board of Trustees was granted authority to award the Associate in Applied Science Degree and Associate Degree in General Education in addition to the diplomas offered in numerous programs.

From its beginning in 1961 to the present, FTCC has seen the construction of a number of buildings such as Lafayette Hall, Cumberland Hall, the Paul H. Thompson Resource Center, the Thomas R. McLean Administration Building, the Tony Rand Student Center, Center for Business and Industry, and the Advanced Technology Center. In November 1992, Cumberland County voters passed an FTCC bond referendum which provided funds for construction of the Continuing Education Center. North Carolinians passed a community college bond in November of 1993 which provided construction funds for the Health Technologies Center. In the fall of 2001, a state-of-the art Early Childhood Center was opened to care for 153 children. In the summer of 2004, the Spring Lake Campus opened and provided opportunities for students who reside in northern Cumberland County. The Harry F. Shaw Virtual Learning Center opened for classes in the fall of 2005, and the Horticulture Educational Center is expected to open for classes in the fall of 2006. These buildings are part of the continuous effort to provide state-of-the-art facilities and equipment to train FTCC students for a broad range of job opportunities.

Effective January 1, 1981, the North Carolina Community College System was transferred from under the control of the State Board of Education to the newly-created State Board of Community Colleges. This Board is leading the North Carolina Community College System into the third decade of educational challenge and beyond.

In January 1988, Fayetteville Technical Institute became Fayetteville Technical Community College when the North Carolina Department of Community Colleges and the North Carolina State Legislature allowed all the technical colleges and institutes in the state to refer to themselves as community colleges. The change was in name only as the purpose and mission of Fayetteville Technical Community College remains intact.

FAYETTEVILLE TECHNICAL COMMUNITY COLLEGE PURPOSE STATEMENT

The purpose of Fayetteville Technical Community College is to provide low cost vocational/technical, general education, college transfer, and continuing education programs which meet the needs and desires of its students and community. To improve the educational base of society, FTCC encourages lifelong learning and strives to prepare students for further educational experiences.

FTCC identifies the educational needs of applicants and assists students in satisfying these needs at a minimal expense. Each adult who applies will be admitted to a program appropriate to his or her abilities and interests. The College is in partnership with the public school system through Tech Prep and other programs. Further, agreements with four-year colleges and universities support the educational continuum from high school through the baccalaureate degree.

Curricular programs reflect the changing technical, commercial, industrial, and health needs of Fayetteville, Cumberland County, and surrounding areas. Various curricula offer certificates, diplomas, and associate degrees. As a learning-centered College, FTCC offers courses and programs at times and places convenient to prospective students. Courses are also available for high school graduates who need additional academic preparation before attempting college work.

FTCC provides instruction in the basic life skills needed to contribute effectively to society. Continuing Education programs are designed to meet specific needs in basic educational competencies, high school completion, upgrading occupational skills, and other avocational or practical skills required for the rapidly changing technological advances in the community.

Adopted: April 27, 1992

Reaffirmed: February 2006

INSTITUTIONAL CHARTER AND ACCREDITATIONS

NORTH CAROLINA COMMUNITY COLLEGE SYSTEM

Fayetteville Technical Community College is chartered by the North Carolina State Department of Community Colleges, as specified in Chapter 115D of the General Statutes of North Carolina.

SOUTHERN ASSOCIATION OF COLLEGES AND SCHOOLS

Fayetteville Technical Community College is accredited by the Commission on Colleges of the Southern Association

of Colleges and Schools (1866 Southern Lane, Decatur, Georgia 30033-4097, telephone 404-679-4501) to award associate degrees, diplomas, and certificates.

UNITED STATES DEPARTMENT OF EDUCATION

Fayetteville Technical Community College is recognized by the U.S. Department of Education as an institution of higher learning and is qualified to receive federal assistance in its higher education programs.

NORTH CAROLINA DEPARTMENT OF PUBLIC INSTRUCTION

Fayetteville Technical Community College's High School Diploma Program meets the standards required by the North Carolina Department of Public Instruction for the purpose of awarding high school diplomas.

PROGRAM ACCREDITATIONS AND ASSOCIATIONS

ACCREDITATION BOARD FOR ENGINEERING AND TECHNOLOGY, INC. (ABET)

The following curricula offered by Fayetteville Technical Community College are accredited by the Technology Accreditation Commission of the Accreditation Board for Engineering and Technology, Inc.

1. Civil Engineering Technology
2. Electronics Engineering Technology

AIR CONDITIONING CONTRACTORS OF AMERICA

The Air Conditioning, Heating, and Refrigeration Technology program at Fayetteville Technical Community College is a member of the Air Conditioning Contractors of America.

AMERICAN BAR ASSOCIATION

Fayetteville Technical Community College's Paralegal Technology program is approved by the American Bar Association.

AMERICAN BOARD OF FUNERAL SERVICE EDUCATION

Fayetteville Technical Community College's Funeral Service Associate Degree program is accredited by the American Board of Funeral Service Education, 3432 Ashland Ave., Suite U, St. Joseph, MO 64506, (816) 233-3747, Fax (816) 233-3793.

AMERICAN DENTAL ASSOCIATION

The programs in Dental Assisting and Dental Hygiene are accredited by the Commission on Dental Accreditation and have been granted the accreditation of approval. The Commission is a specialized accrediting body recognized by the United States Department of Education. The Commission on Dental Accreditation can be contacted at (312) 440-4653 or at 211 East Chicago Avenue, Chicago IL, 60611-2678.

AMERICAN SOCIETY FOR ENGINEERING EDUCATION (SOUTHEASTERN SECTION)

FTCC's Civil and Electronics Engineering Technology programs are assisted through institutional membership in the American Society for Engineering Education, Southeastern Section.

COMMISSION ON ACCREDITATION IN PHYSICAL THERAPY EDUCATION. AMERICAN PHYSICAL THERAPY ASSOCIATION

The Physical Therapist Assistant Program at Fayetteville Technical Community College is accredited by the Commission on Accreditation in Physical Therapy Education, American Physical Therapy Association, 1111 North Fairfax Street, Alexandria, VA 22314, (703) 684-2782 or 1-800-999-2782.

COMMITTEE ON ACCREDITATION FOR RESPIRATORY CARE (CoARC)

Fayetteville Technical Community College's Respiratory Care Program is accredited by the Committee on Accreditation for Respiratory Care (CoARC), 1701 W. Euless Boulevard, Suite 300, Euless, TX 76040-6823, (800) 874-5615.

JOINT REVIEW COMMISSION ON ACCREDITATION OF ALLIED HEALTH EDUCATION PROGRAMS (CAAHEP)

The Surgical Technology Program at Fayetteville Technical Community College is accredited by the Commission on Accreditation of Allied Health Education Programs, 7108-C South Alton Way, Suite 150, Englewood, CO 80112-9262, (303) 741-3655. This accreditation decision was made upon the recommendation of the Joint Review Committee on Education for the Surgical Technologist (JRC/ST) which is sponsored by the American College of Surgeons and the Association of Surgical Technologists.

JOINT REVIEW COMMITTEE ON EDUCATION IN RADIOLOGIC TECHNOLOGY

Fayetteville Technical Community College's Radiography Program is accredited by the Joint Review Committee on Education in Radiologic Technology, 20 North Wacker Drive, Suite 900, Chicago, IL 60606-2901, (312) 704-5300, E-mail: jrcert@mail.idt.net.

NATIONAL LEAGUE FOR NURSING ACCREDITING COMMISSION (NLNAC)

The Associate Degree Nursing Program of Fayetteville Technical Community College is accredited by the National League for Nursing Accrediting Commission, 61 Broadway, New York, New York 10006, (212) 812-0390. This type of approval is national in scope and voluntary rather than required by law. The standards set by the accrediting body are

uniform throughout the United States. The achievement of NLN accreditation by a program signifies that it has met the national standards of excellence for programs in nursing of its type.

NORTH CAROLINA APPRAISAL BOARD

The North Carolina Appraisal Board approves and certifies all real estate appraisal instructors and approves the following courses:

- Introduction to Real Estate Appraisal
- Valuation Principles and Procedures
- Application of Residential Property Valuation
- Introduction to Income Property Appraisal
- Advanced Income Capitalization Procedures
- Application of Income Property Valuation

NORTH CAROLINA BOARD OF NURSING

Fayetteville Technical Community College is approved by the Board of Nursing to offer a two-year associate degree program with a major in nursing and an one-year diploma practical nursing program. Both programs qualify the graduates to write the National Council Licensure Examination for the respective levels of preparation. Candidates who successfully complete these examinations are licensed to practice nursing.

NORTH CAROLINA DEPARTMENT OF INSURANCE

Fayetteville Technical Community College is approved by the North Carolina Department of Insurance for the purpose of pre-licensing education.

NORTH CAROLINA STATE BOARD OF MORTUARY SCIENCE

Fayetteville Technical Community College's Funeral Service programs are approved by the North Carolina State Board of Mortuary Science.

NORTH CAROLINA REAL ESTATE COMMISSION

The North Carolina Real Estate Commission approves and certifies all fundamental and advanced real estate instructors and approves the following courses:

1. Fundamentals of Real Estate
2. Real Estate Law
3. Real Estate Finance
4. Real estate Brokerage

NORTH CAROLINA STATE BOARD OF CERTIFIED PUBLIC ACCOUNTANT EXAMINERS

Fayetteville Technical Community College is approved by the North Carolina State Board of Certified Public Accountant Examiners for the purpose of mandatory Certified Professional Education credits.

THE NORTH CAROLINA COMMUNITY COLLEGE SYSTEMS' ACCOUNTABILITY MEASURES+

In February 1999, the North Carolina Community College System, in response to the special provision in Senate Bill 1366, Section 10.5, adopted 12 performance measures of accountability. The following report outlines how Fayetteville Technical Community College (FTCC) performed during the 2003-2004 school year.

1. Progress of Basic Skills Students

NCCCS Benchmark: 75% of Basic Skills students will progress within the level, complete the level, advance to the next level, or enter curriculum courses or occupational extension courses.

FTCC Performance: FTCC met this standard.

2. Passing Rates of Licensure and Certification Exams

NCCCS Benchmark: The aggregate institutional passing rate for first-time test takers on all licensure and certification exams will be at least 80%, plus the rate on all specific exams will be at least 70%.

FTCC Performance: FTCC met this standard.

3. Goal Completion for Program Completers and Non-Completers

NCCCS Benchmark: At least 95% of responding completers (graduates) will indicate that they have achieved their goal.

FTCC Performance: FTCC met this standard.

4. Employment Status of Graduates

NCCCS Benchmark: At least 95% of graduates will be employed within one year of graduation or continuing their education.

FTCC Performance: FTCC met this standard.

5. Performance of College Transfer Students

NCCCS Benchmark: 86.8% obtaining an overall GPA of 2.0 or higher after completing one academic year at the public university.

FTCC Performance: FTCC did not meet this standard.

6. Developmental Course Passing Rates

NCCCS Benchmark: The aggregate passing rate for all courses coded as developmental will be at least 70%

FTCC Performance: FTCC met this standard.

7. Success of Developmental Students in Subsequent College Level Courses

NCCCS Benchmark: There will be no statistically significant difference in the performance of developmental students as compared to non-developmental students in subsequent college level classes.

FTCC Performance: FTCC met this standard.

3. Student Satisfaction of Completers and Non-completers

NCCCS Benchmark: At least 90% of the responding completers (graduates) and non-completers will indicate satisfaction with the quality of college programs and services.

FTCC Performance: FTCC met this standard.

9. Curriculum Student Retention and Graduation

NCCCS Benchmark: At least 60% of the students who enrolled in a curriculum program in the fall of a given year will by the following fall have either (1) completed the curriculum program, receiving a degree, diploma, or certificate; or (2) enrolled the next fall in a curriculum or extension program.

FTCC Performance: FTCC met this standard.

10. Employer Satisfaction with Graduates

NCCCS Benchmark: At least 85 % of employers responding to the college survey will indicate satisfaction with graduates.

FTCC Performance: FTCC met this standard.

11. Client Satisfaction with Customized Training

NCCCS Benchmark: At least 90% of clients responding to a survey will indicate satisfaction with customized training.

FTCC Performance: FTCC met this standard.

12. Program Enrollment

NCCCS Benchmark: Each curriculum program will have a three-year average unduplicated headcount enrollment of at least 10 students.

FTCC Performance: FTCC met this standard.

ADMISSIONS INFORMATION

ASSESSMENT AND EVALUATION OF STUDENTS

Fayetteville Technical Community College wants each student to be successful in meeting his or her educational goals. To evaluate the level of preparation and to place students in appropriate courses, the College requires entry assessment in the skill areas of English, reading, and mathematics. To satisfy assessment requirements for most programs the student needs to take the ACCUPLACER (or other North Carolina Community College System approved assessments) unless eligible for a waiver.

Entry assessment scores will be used for course level placement. Each of the three skill areas of English, reading and mathematics are independent of each other. A student may place at the college level in one or more areas and at the college preparatory level in other areas(s). The College may limit the student to college-preparatory courses and any other instruction for which he or she is adequately prepared.

REQUIREMENTS FOR TAKING ENTRY ASSESSMENT

Whether the student is seeking full-time or part-time enrollment, unless he or she is qualified for an exception, the student must complete a state-approved assessment as indicated:

1. Prior to participating in registration if the student is seeking a degree.
2. Prior to registration for the first session if a Dual Enrollment student.
3. Prior to registration for any course which has a specific entry assessment score as a prerequisite.

Entry assessment scores may not be more than three years old.

ENTRY ASSESSMENT

Students will be exempt from taking the entry assessment for registration in courses for which they are qualified if they provide written documentation for one of the following exceptions:

1. The student has attended a regionally accredited institution (RAI) in which English was the language of instruction and has successfully completed with a grade of "C" or higher a transferable college-level English and/or mathematics course.
2. The student holds an associate's or bachelor's degree from a RAI in which English was the language of instruction and has successfully completed with a grade of "C" or higher a transferable college-level English and/or mathematics course.

3. The student's official transcript is evaluated for select courses to substantiate completion of prerequisites when the student is enrolled in another college or university and has applied to Fayetteville Tech for "special credit" status.
4. The student's official FTCC record indicates that he or she is enrolled for job improvement or in selected courses with no intent for an FTCC degree.
5. The student has taken the SAT with verbal and math scores at or above 450 each or ACT composite score of 18 or higher within the last five years.
6. The student chooses to begin with the most basic college-preparatory courses: English 70, Math 50 and Reading 70.

NORTH CAROLINA COMMUNITY COLLEGE SYSTEM APPROVED ENTRY ASSESSMENTS

ACCUPLACER

FTCC administers the ACCUPLACER Computerized Placement Tests and Companion from the College Board. The assessments are Reading Comprehension, Sentence Skills, computation/Arithmetic, Elementary Algebra, and College-Level Mathematics. There is no charge for the ACCUPLACER. The assessment takes approximately two to two and one-half hours and is available days and evenings.

Other Assessments

Other tests approved by the North Carolina Community College System are the ASSET and COMPASS.

Retest Policy

Students who wish to take a retest of the entry assessment should make the request through an FTCC counselor.

There is a three-month waiting period between the initial placement assessment and any scheduled retest. This three-month waiting period may be waived upon request if, in the counselor's judgment, the testing candidate has taken sufficient action to assure improvement (or testing conditions warrant retest).

There is a mandatory three-month waiting period between a retest and any subsequent retest in order to ensure the validity of the placement assessment results.

Test scores remain current for a period not to exceed three years.

ADMISSIONS POLICIES AND PROCEDURES

Fayetteville Technical Community College adheres to an "Open Door" admissions policy for general admission to the College; however, various curricular programs have their own specific requirements for admission beyond the regular requirements to enter FTCC.

1. Applicants must submit an application form, including a residency statement.
2. Applicants must be high school graduates. *A state equivalency certificate or GED test results which meet North Carolina equivalency standards are acceptable in lieu of a high school diploma.* Official transcripts, those bearing the sender's raised seal, verifying secondary school completion must be sent to the Director of Admissions, FTCC, P.O. Box 35236, Fayetteville, NC 28303-0236. Students who have previously received an Associate's or Bachelor's degree are not required to submit a high school transcript. *Exception: Health program applicants are required to submit a high school transcript in addition to college transcripts.*
3. Applicants who have previously attended any other college or post-secondary institution must request that official transcripts of each college (all work attempted) be sent to the Admissions Office.
4. Each applicant is scheduled for the FTCC placement assessment, unless exempt by program requirements or by test waiver. Previous school records and placement assessment results will be used in conjunction with the student's personal aspirations to help plan a workable educational program.
5. The placement assessment requirements may be waived by the Director of Admissions upon receipt of official transcripts if the applicant:
 - a) has attended a regionally accredited institution (RAI) and completed with a grade of "C" or higher a transferable college-level English and/or mathematics course;
 - b) has taken the SAT with verbal and math scores at or above 450 each or ACT composite score of 18 or higher within the last five years;
 - c) has earned an Associate Degree or higher from a regionally accredited college and has completed the required prerequisite courses (i.e., college level English and/or mathematics)
6. Certain programs have prerequisite course requirements. In addition to published program requirements, the college reserves the right to identify and require specific prerequisites before allowing students into certain courses. The identification of prerequisite requirements will be through normal test results and/or transcript evaluation.

7. Students requesting approval for certification of VA educational benefits must provide copies of form DD214 for evaluation of military experience.
8. Disposition of Applications for Admissions Files. Generally, the staff will destroy incomplete applications and applications for students not enrolling after 1 year.

* Grade of "C" or better

** Qualified applicants will be scheduled for a departmental information session or interview

*** Approved students must provide a completed medical examination form.

10. Communicable Disease Policy

Under the FTCC Communicable Disease Policy, students who enter a health program or other program with potential exposure to blood or other body fluids will be required to have begun or completed all immunizations as specified in the pre-entrance medical record prior to admission. Those students who do not receive immunizations could jeopardize their ability to fulfill clinical requirements. The prospective student will also be required to sign a statement releasing FTCC from any liability related to the failure to have the immunizations.

11. Health Programs Area Admission Requirements

Priority consideration for admission to health programs will be given to individuals completing the following by January 30. *Applications received after this date will be considered based on space availability.*

- a. Submit a completed "Application for Admissions" to the Admissions Office.
- b. Request official transcripts be sent to the Admissions Office from high school and each college previously attended. It is the responsibility of the applicant to ensure the transcripts are received by the Admissions Office before the deadline.
- c. Complete all program prerequisites.*
- d. Complete the entrance assessment with the required minimum scores, or achieve a grade of "C" or better in all recommended developmental courses. Developmental courses may be attempted only twice to satisfy the prerequisite requirements.** Exceptions may be approved by the appropriate health program chairperson.

*Courses taken after high school to satisfy prerequisite requirements for health programs may be attempted only twice.

**The current admissions policy allows for certain exemptions from taking the entry assessment. (See "Entry Assessments")

Selection Criteria

Applications will be ranked and selected on a competitive basis. The number of points awarded in the following areas will determine ranking:

- a. Quality Points will be determined by one of the two below processes:
 1. College Students: Grade points based on previously completed course credits applicable to the program. A minimum grade point average (GPA) of 2.5 is required on all previously completed related course work for Associate Degree Nursing, Dental Hygiene, Emergency Medical Science, Nuclear Medicine Technology, Physical Therapist Assistant, Radiography, Respiratory Care, Speech Language Pathology Assistant and

Surgical Technology. A minimum GPA of 2.0 is required on all previously completed course work for all other health-related programs. A cumulative GPA of 2.0 on all courses is required.

Note: Previously completed science courses must have been satisfactorily completed with a grade of "C" or better *within five years of entry in a health program*. These courses may be attempted only twice. The appropriate health department chairperson may approve exceptions.

2. Current High School Students: Grade points for Algebra, Biology, Chemistry, and Sociology or Psychology courses will be awarded based on their unweighted GPA at the end of the first semester of the senior year. A crosswalk or "GPA scale" based on the GPA range for each program will be used.

- b. Participation in a departmental information session is required. Sessions will be scheduled by the College. A maximum of 15 points may be awarded based on departmental criteria.

All applicants completing the departmental information session will be notified by the Admissions Office of their status by letter on or about May 1, whether selected or not.

NOTE: An applicant applying for more than one program must indicate his or her order of preference on the application. Upon approval for admission to a program, an applicant's name will be removed from the applicant pool for all other programs. Applicants not selected for admission and those processed after published deadlines may reapply for the following year and be considered with all other applicants for the next class.

12. ADN Advanced Placement Option

Licensed Practical Nurses may be granted advanced placement into the Associate Degree Nursing Program under the conditions set forth below. Candidates will be admitted based on space availability. The criteria for advanced placement include the following:

- a. Have a current unrestricted LPN license.
- b. Meet the requirements for admission into the FTCC ADN Program.
- c. Complete all related courses for ADN with an overall GPA of 2.50 or better for the previous semester(s) of entry. A grade of "C" or better is required in related courses.
- d. Pass the Accelerated Challenge Exam (ACE) according to one of the following criteria:

1. For advanced placement into NUR 189 and NUR 210, the candidate must pass the Foundations of Nursing, Pediatrics, and OB sections with at least a score of 70 on each test.
2. For advanced placement into NUR 189 and NUR 130, the candidate (a) must pass the Foundations of Nursing and Pediatrics sections with at least a score of 70 on each test, and (b) must pass the OB section with at least a score of 60.
3. For advanced placement into NUR 189 and NUR 120, the candidate (a) must pass the Foundations of Nursing section with at least a score of 70, and (b) must pass the Pediatrics and OB sections with at least a score of 60.

Candidates are responsible for all costs of the exam. Candidates may attempt the exam only twice.

- e. Attend an interview with the chairperson of the nursing department.
- f. The candidate's score on the Accelerated Challenge Exam (ACE) and the overall GPA will be used for selection.
- g. The candidate must pass with 100 percent mastery nursing skills as set forth by the nursing department.

ADMISSION OF INTERNATIONAL STUDENTS

International applicants who apply from outside the United States and have not previously attended an American college or university will be processed as entering freshman. If you are a qualified applicant who wishes to attend the College, please apply by sending your request to:

Director of Admissions

Fayetteville Technical Community College
P.O. Box 35236
Fayetteville, NC 28303-0236 USA

Applicants are responsible for requesting that the school principal or headmaster send official copies of high school (secondary) transcripts directly to FTCC. If applicants have attended an American or Foreign college/university, applicants must have an official transcript sent directly from that college or university.

Student Visa Applicants

International applicants holding an F-1 or M-1 Visa are ONLY admitted to begin their studies for the fall semester. All paper work must be completed no later than **March 1** of the year you plan to begin classes at Fayetteville Technical Community College. **Applications will not be considered until all of the following items have been received:**

- FTCC Application
- Preliminary Application (Form A)
- Completed financial certificate (Form B)
- Test of English as a Foreign Language (TOEFL) results (Only official scores sent from Princeton, New Jersey are acceptable.)
- Official high school (secondary) transcript
- Official college or university transcripts, if applicable
- Completed Pre-entrance Medical Record
- Deposit of 5,000 US Dollars in your FTCC Student Account

Getting a Student Visa (F-1 or M-1)

In order to apply for an F-1 or M-1 (student visa), applicants must first apply and be admitted to a school in the U.S. After admission to Fayetteville Technical Community College (FTCC), a Form I-20, which authorizes your study period, will be issued. A \$100.00 *Student and Exchange Visitor Information System (SEVIS) I-20* fee must be paid. The Form I-20 must be submitted to the U.S. Consulate in the applicant's country to apply for a visa. To obtain a non-immigrant, student visa, applicants must be able to prove the following:

- That they have strong ties to their home country by demonstrating their intention to return home (In other words, applicants do not plan to immigrate permanently to the U.S.)
- That they have sufficient funds to pay for their financial needs while studying in the U.S., including tuition, health insurance, housing, travel expenses, etc.
- That they have legitimate intentions to study full time and gain education and training which will be useful in their home country. After receiving an F-1 or M-1 Visa from the U.S. consulate, applicants are eligible to come to the U.S. and "apply" for entry. An Immigration Inspector at the border (usually the airport) will decide if applicants may enter by looking for proof of the above criteria once again. Therefore, applicants may be asked to show financial documentation again, or to prove study plans. Applicants must show their I-20.

English Proficiency

Proficiency in the use of the English Language and past academic record will be important factors in the admission decision. The Test of English as a Foreign Language (TOEFL) is required of all foreign applicants. To obtain materials and information regarding the TOEFL, write to:

Test of English as a Foreign Language

Box 899
Princeton, New Jersey 08540 USA

Please specify code number **5208** when requesting TOEFL scores to be reported to Fayetteville Technical Community College.

Financial Information

As part of the admission process to Fayetteville Technical Community College and before F-1 or M-1 Visa approval is granted, applicants must show evidence of official financial support (Form B) for each year of study in the United States. **The college cannot provide financial aid to students applying from other nations. Applicants must certify their financial support.**

Many international students receive financial help from sources outside the United States. Therefore, it is suggest that applicants consult the excellent publications about study abroad, which may be available through local educational institutions or the United States Consulate. Applicants should also investigate financial assistance that may be available through their government or home university.

Fayetteville Technical Community College is tax supported by the people of North Carolina. Legal residents of North Carolina and the United States are given preference in the admission process. Therefore, applications of international students are accepted only on a space availability basis.

Employment

ON-CAMPUS. F-1 and M-1 students are allowed to work part-time on the campus of the school they are attending (and whose I-20 they have). They may work up to 20 hours per week while attending full-time classes. They can work full-time during summer vacations and between terms, provided they continue at that school the following term.

OFF-CAMPUS. Students holding F-1 or M-1 Visas **are not authorized to work except under extraordinary circumstances.** There are two ways to get permission for off-campus work: practical training and severe economic hardship. The United States Immigration Services must grant permission.

Period of Authorized Stay

Admission to the U.S. on an F-1 or M-1 Visa is for "duration of status" (D/S). This is the time estimated for program completion. During that time, students are required to make satisfactory progress each term, keep a current passport that is valid for at least six months into the future, and maintain a valid I-20.

Housing

Fayetteville Technical Community College serves entirely a commuting student body. Housing is **not** available on campus. International students must seek housing in the community and commute daily by public transportation. Arrangements for housing must be made between the **landlord and the student.**

Transportation

International students must provide their own transportation or use public transportation to travel between the campus and their housing accommodations.

Full-time Requirement

International students holding an F-1 or M-1 Visa must enroll as a full-time student. College students must pass a minimum of 12 credits per term. The student should make satisfactory progress in their approved program each term. Otherwise, the continuation of study on a student visa may be jeopardized and the Form I-20 rescinded.

Non-Student Visa and Resident Alien Applicants

Foreign applicants holding either (a) a visa other than an F-1 or M-1 or (b) a Resident Alien card may be admitted on a rolling basis. Your application will not be considered until all of the following items have been received:

- FTCC Application
- Presentation of either a valid Passport & Visa or a Resident Alien Card
- FTCC Entrance Assessment Results
- Official high school (secondary) transcript
- Official college or university transcripts, if applicable

NOTE: People who hold a visitor's visa (B-1) are NOT eligible to enroll in FTCC's college-level classes.

ADMISSION OF SPECIAL CREDIT STUDENTS

Special credit (non-matriculating) students may take 16 semester hours prior to taking the placement assessment. Special credit students must comply with the regular Admissions policy when they decide to pursue a degree, certificate, or diploma.

ADMISSION OF TRANSFER STUDENTS

Students who have attempted course work at other colleges and universities must submit official transcripts of all post-secondary work. Major courses with technical/skill content have time limitations in terms of their relevance to the curriculum program and to the occupational field. Courses in the technical or major area taken more than seven years prior to the current semester, either at other institutions or at FTCC, may not be considered for transfer purposes. Some technology-based programs may have stricter limitations on the transfer of grades, depending on changes in technology and competencies required for jobs in the field. The final decision of the acceptance of transfer credit for major courses will be made by the Department Chairperson. Transcripts will be reviewed during the admissions process and transfer credit awarded according to the following criteria:

1. Prior course work must be equivalent to FTCC courses required in the degree or diploma program being sought.

2. Course work must have been completed at a regionally accredited college (i.e., Southern Association of Colleges and Schools or regional counterpart) or an institution holding professional area accreditation status (ABET, ABA, ADA, AMA, etc.).
3. Course work must have been completed with a grade of "C" or better.
4. Transfer students must complete a minimum of 25 percent of resident credit at FTCC to be eligible to receive an associate degree or diploma.
5. A record of transfer credit awarded is available on the FTCC student educational plan provided at the time of approval. Official FTCC transcripts will not be provided until the student has completed the first term of enrollment at the college.

INTERCURRICULAR TRANSFER OF CREDITS

Students who change curriculums may be awarded transfer credit for applicable courses taken and passed in the previous curriculum. All credits considered must be applicable to the instructional field and approved by the Department Chair or appropriate Academic Dean.

CREDIT FOR NON-TRADITIONAL LEARNING

FTCC will evaluate non-traditional educational records for the possible transfer of credits. Full documentation must be provided before an evaluation can be made. Transfer of credit for non-traditional work is limited to no more than 75 percent of the AAS degree or diploma requirements.

1. *Advanced Placement Examinations*

Applicants to the college may request transfer credit for subjects covered under advanced placement examinations. CLEP and DANTES General Exams and Subject Area Exams are evaluated for transfer credit. Test scores must meet ACE (American Council on Education) recommendations. Advanced credit awarded at prior colleges must be supported by official test score reports to be considered for transfer credit.

2. *Military Service Training*

Military service school records may be submitted for transfer credit evaluations. The service member is encouraged to submit a "Request for Evaluation of Military Experience" (form DD295) or the AARTS (Army/ACE Registry System) transcripts for evaluation purposes. Service school diplomas and MOS (Military Occupational Specialty) Evaluation Score Reports are acceptable in lieu of the AARTS Transcript. Military service experiences are evaluated using ACE Guide recommendations.

3. *Independent Study*

Independent Study may be conducted through (1) regularly scheduled TV transmissions/cable educational programming and/or (2) modem-based instruction.

A student who wishes to enroll in an approved Independent Study course(s) must: (1) be an approved curriculum student, (2) have a cumulative grade point average of 2.00 or higher, (3) need the requested course for graduation, and (4) submit a "Request for Independent Study" to the office of the appropriate Academic Area Dean.

Students participating in Independent Study course work will be evaluated by the assigned faculty in accordance with established grading policies. Students will be required to maintain satisfactory progress and to maintain regular contact with the instructor. Students who withdraw or otherwise fail to complete an independent study course within the scheduled term will be dropped as of the last date of contact with the instructor.

A list of courses approved for independent study through television programming is printed in the current class Schedule(s).

4. *Industrial and Professional Training*

FTCC will consider the evaluation of credit for documented professional training and certification. Transfer of credits is considered using *The National Guide to Educational Credit for Training Programs*.

5. *Experiential Learning*

FTCC does not consider experiential or life experiences for transfer credit evaluation.

6. *Proficiency Tests*

FTCC students who plan to challenge a curriculum level course must contact the department chairperson of the appropriate department to request a proficiency examination. Proficiency tests are given under the following conditions.

- a. Students who have passed a preliminary screening test given by the department chairperson may take a proficiency exam.
- b. Students must be registered for the course in order to take a proficiency exam.
- c. Proficiency exams must be taken within the first four class days of the term.
- d. Students who pass a proficiency exam at the "C" grade level or above will be assigned a "P" grade and will not be required to attend further class sessions.
- e. Veteran students and other third party recipients may not use courses passed by proficiency for the purposes of educational entitlement. Students who pass a proficiency test are encouraged to add additional curriculum courses in order to maintain full-time status.

*CLEP examinations will be the required proficiency test where available. Students will be referred to area CLEP examination sites for testing when appropriate.

7. *Tech Prep Advanced Placement*

Cumberland County high school graduates who participated in the Tech Prep Program may be awarded proficiency credit based upon the recommendations of the Cumberland County Tech Prep Curriculum Development Committee.

8. *SOCAD*

Fayetteville Technical Community College is a participant in the Serviceman's Opportunity College (SOC) and supports the concept that military personnel should be encouraged to begin their post-secondary education while serving their country. FTCC also participates in the SOCAD network with many degree programs available. For further information on SOC/SOCAD policies, contact the FTCC Ft. Bragg Office, 678-1050.

RE-ADMISSION OF FORMER STUDENTS

Any student who withdraws from the College and wishes to return must contact the Admissions Office to reactivate his/her application for admission.

1. A student who withdrew for unavoidable reasons may be eligible for re-admission at the beginning of the next term.
2. A student who was suspended for unsatisfactory academic progress is required to re-apply for re-entrance

through the Director of Admissions. He or she must complete the **Admissions Application** and the **Appeal of Suspension Form**. Re-admission decisions will then be based upon a review of previous grades, consultation with instructors and Department Chairpersons involved, additional achievement and/or interest testing, and interviews to determine the reasons for unsatisfactory progress. In cases where the probable causes of unsatisfactory progress while previously enrolled have not been removed, re-entry to curricular studies may be denied or re-entry approved under specific conditions which can include change of curriculum, remedial course work, and probationary status.

3. A student who was dismissed from the College by disciplinary action may re-enter only upon approval by the Program Area Dean.
4. A student who withdraws from the institution and re-enters at a later term, including students who have completed at least one or more terms, will be subject to curricular requirements in effect at the time of re-entry.
5. Any student indebted to the College is ineligible to re-enter until all financial obligations to the institution have been satisfied.

NEW STUDENT ORIENTATION

All students who are admitted to an academic program at Fayetteville Technical Community College are required to attend an orientation session. The purpose of this session is to review the regulations, policies and privileges of the College.

FINANCIAL INFORMATION

COLLEGE EXPENSES

Tuition and fees are assessed on a semester basis and are due at registration. Payments may be made by cash, personal check, VISA or MasterCard. Second party checks, counter checks, checks without printed name and address, and checks in excess of actual costs are not accepted. A student is not considered to be registered until fees are paid.

Estimated costs* for an academic year (9 months) are shown below. Estimates are based on the 2005-2006 tuition costs and a course load of 16 credit hours. A student is considered full-time if he/she is taking 12 or more credit hours.

All students will be charged a student support services fee.

In-State Tuition:	*\$632.00 per semester or \$1,264 (2 terms)
Under 16 hours:	*\$39.50 per credit hour
Out-of-State Tuition:	*\$3,512.00 per semester or \$7,024.00 (2 terms)
Under 16 hours:	*219.50 per credit hour
Books (Estimated):	\$550.00 per term

*Estimates exclude board and room, child care, and transportation costs, if any.

Other fees:

1. Additional expenses required to cover uniforms, instruments, tools, malpractice insurance, and dues to student associations are detailed in the departmental information brochures.
2. Parking stickers are issued upon payment of tuition and fees. Students are held responsible for all parking regulations as stated in the Rules and Regulations Bulletin, available at the FTCC Security Office, Tony Rand Student Center, Room 132.
3. All students are charged a student support services fee of \$14.00 for fall and spring semesters and \$10.00 for summer term. This fee covers the cost of student accident insurance, health services, student government activities, and other student-related activities.
4. Once a semester, each student is charged a technology fee of \$16.00, which covers the cost of software, hardware, and lab support.
5. All prospective graduates will be charged a graduation fee of \$25.00. There is a fee of \$10.00 for each additional program area.
6. A replacement fee of \$5.00 will be charged for lost or stolen ID cards.

Tuition and fees may change because of legislative or institutional policy subsequent to publication of the Catalog.

RESIDENCY CLASSIFICATION FOR TUITION PURPOSES

Every applicant is required to provide information regarding his or her length of residency in North Carolina. The tuition charge for legal residents of North Carolina is less than the tuition charge for non-residents attending Fayetteville Technical Community College. To qualify for in-state tuition, a legal resident must have maintained his or her domicile in North Carolina for at least twelve months prior to his or her classification as a resident for tuition purposes. Copies of the applicable law (G.S. 116-143.1) and implementing regulation are available in the Admissions Office. Initial classification of residency for tuition purposes is made in the Admissions Office. Appeals and requests for re-classification should be addressed to the Director of Admissions.

Responsibilities of the Student Relative to Residency Classification

1. If you currently are classified as a nonresident for tuition purposes, it is your right to petition for a change in classification to that of resident if you claim that you are now and, for at least the twelve-month period immediately preceding the date of such petition, have been a legal resident of the State of North Carolina. The fact that you have resided in the state for twelve months does not in itself constitute in-state residency. You must be able to show proof that you have indeed taken steps to become a legal resident. Examples are: filing income tax in North Carolina, registering to vote, listing personal property taxes, proof of automobile registration, etc.
2. If you currently are classified as a resident for tuition purposes, it is your obligation to petition for a change in classification to that of a nonresident if you have reasonable basis for believing that change in facts requires such a change in classification. Failure to fulfill this obligation may result in appropriate disciplinary action including, but not necessarily limited to, cancellation of enrollment. If it is determined that, in fact, you have become a nonresident, the effective date of change in applicable tuition rates shall be the next term following the date of change in facts which required the change in classification, unless you are deemed eligible to further enjoy the in-state tuition rate under the statutory twelve-month grace period. If you claim eligibility as a member of the Armed Forces or a dependent relative of such a member to be charged the in-state tuition rate under G.S. 116-143.3, you must submit the appropriate application prior to initial enrollment or re-enrollment for which you claim the tuition benefit. You must submit the application prior to each successive academic year of enrollment.

3. North Carolina laws require that each student supply all information requested relative to residency classification for tuition purposes. Failure to do so would result in classification as a nonresident for tuition purposes.

REFUND POLICIES

1. Tuition Refunds

A 75 percent refund shall be made upon request of the student if:

- a. The student officially withdraws from the class(es) prior to or on the official 10 percent point of the session.

or

- b. The student officially withdraws from all class(es) prior to or on the 10 percent point of the session.

NOTE: To receive a 100 percent refund, the student must drop the unwanted class (es) and request a refund in writing no later than the day prior to the first day of the session. Tuition refunds will be mailed approximately two weeks after the last day to request a refund. CASH REFUNDS cannot be made.

2. Financial Aid Recipients – **BEWARE!**

A refund policy (Return to Title IV) became effective in the 2000-2001 academic year. This policy affects any student who withdraws from all classes prior to completing 60% of the enrollment period and has any Title IV aid (i.e., Pell, SEOG, Stafford Loan). To withdraw prior to completing 60 percent of classes results in "unearned monies" and may require the student to repay a portion of any funds received by check and/or charges for tuition, fees, or books.

If a student is contemplating withdrawal, it would be to his or her advantage to visit the College's Financial Aid Office and review the policy on student financial responsibility.

A withdrawal date is determined as follows:*

- a. The date the student actually starts the process to withdraw from class
- b. The midpoint of the enrollment period if the student ceases attending classes without official notification.

*Title IV aid is earned by the following calculation:

- a. $\frac{\# \text{ days completed}}{\text{Total } \# \text{ days in term}} = \% \text{ of term completed}$
- b. $\% \text{ of term} * \text{ Title IV aid awarded} = \text{earned Title IV aid}$

Unearned monies is Title IV aid awarded less earned Title IV aid. All aid is considered earned at 61 percent of the enrollment period.

Students will be required to repay any unearned dollars to the Department of Education and/or FTCC. Notification of amounts due will be mailed upon notification of withdrawal and completion of calculation.

Examples of how refunds will affect your financial aid may be reviewed in the Financial Aid Office.

Any monies that FTCC must return on your behalf as unearned monies will become a debt of the student to the college.

All withdrawals must be in writing and processed through your instructors and the Registrar's Office.

*Calculation based on Federal Regulations: 34 CFR 668.22

2. Bookstore Refunds

Bookstore refunds are made under the following conditions:

- a. Students are allowed ten (10) calendar days beginning with the first day of the term to return textbooks for refund or credit.
- b. Books which have not been used, damaged, or marked in will be accepted for 100 percent refund or credit toward the purchase of additional items. Proof of purchase (cash register receipt) must be shown.
- c. All refunds will be made by check mailed to the individual student. No cash refunds will be made.

TUITION WAIVERS

- Senior citizens aged 65 or over are entitled to free tuition.
- High school students enrolled in a community college curriculum class under Huskins Bill Programs or concurrent enrollment provisions are exempt from tuition.
- When an employer, other than the armed services, pays tuition for an employee to attend a community college and when the employee works at a North Carolina business location, the employer is charged the in-state tuition rate.
- As long as there is not a break in enrollment, out-of-state service members and their dependents stationed at a North Carolina base are eligible to be charged the in-state tuition rate. This waiver is for the academic year. Continuing students must re-apply each fall term.
- Certain out-of-state students, who are members of families that were transferred to North Carolina by businesses or industries or civilian families transferred to this state by employment, may be eligible for in-state tuition rates.

FINANCIAL AID

Fayetteville Technical Community College operates with the assumption that no student should be denied a college education due to lack of financial resources. As far as possible, students are aided in meeting college costs through careful planning and various forms of financial aid and other third-party support.

The Financial Aid Office at FTCC administers the various Title IV financial aid programs under policies established by the College and guidelines provided by the U.S. Department of Education. The College Financial Aid and Scholarship Committee recommends policy changes and awards a variety of scholarships.

Financial aid at Fayetteville Technical Community College is offered to all students enrolled in eligible curricula who meet eligibility requirements. Most aid is granted on the basis of need rather than scholastic ability. The Financial Aid Office utilizes the Free Application for Federal Student Aid (FAFSA) www.fafsa.ed.gov to analyze applicant data and determine student eligibility for financial aid.

All applicants and FTCC students are urged to apply for financial aid. The FAFSA application package is available in the FTCC Financial Aid Office and should be completed as early as possible. Applicants are urged to read the directions carefully and fill out the form completely and accurately. The FAFSA form covers all forms of financial aid offered at the college with the exception of scholarships.

Various resources are available through the Financial Aid Office located in Room 130 of the Tony Rand Student Center or on our website at www.faytechcc.edu.

STUDENT INSURANCE

All students, either full- or part-time, who are charged a student fee are covered by a master student accident insurance plan carried by the College. Students are insured while attending school during the hours that school is in regular session or participating in or attending an activity (other than an athletic activity) exclusively sponsored and supervised by the College, and traveling directly to or from such activity (other than an athletic activity) in a vehicle furnished and supervised by the College.

Students participating in athletic activities which are a part of their regularly scheduled instruction are covered by this insurance. Students participating in organized intramural sports are also covered.

The student accident insurance plan does not guarantee payment of all medical costs, and the student is responsible for the payment of all costs in excess of those paid by the insurance policy. A copy of the student accident insurance plan for the College is available in the Health Services Office.

CAMPUS LIFE

STUDENT GOVERNMENT ASSOCIATION

The Student Government Association represents the student body in institutional affairs at Fayetteville Technical Community College. Members of the Student Government Association are assigned to serve as members of an institutional standing committee. The president of the Student Government Association serves on the FTCC Steering Committee. The president, as head of the student body, also serves as an ex-officio member of the FTCC Board of Trustees. Student Government information, activities, and newsletters are posted on the FTCC website at www.faytechcc.edu.

STUDENT ACTIVITIES

Student activities are an integral part of the total development of students at Fayetteville Technical Community College. Through participation in these activities, students receive practical experience in the responsibility of citizenship. All students are encouraged to participate. Intramurals, club membership, educational, cultural, and social events are provided. Activities are open to all students without regard to race, color, national origin, religion, sex, age, handicap or political affiliation.

The Alumni Association of Fayetteville Technical Community College was officially founded in November 1984. The purpose of the organization is to foster a mutually beneficial relationship between the College and its graduates.

Each member enjoys the benefits of continued use of campus resources such as the library and job placement, the receipt of a newsletter, and involvement in cultural and social activities on campus. Membership dues are \$10 per year.

The activities and growth of the Alumni Association are guided by a 12-member Board of Directors who are elected from within the membership.

The members of the Alumni Association are dedicated to advancing the growth and development of their alma mater, and to helping each other become better, more productive people. They share a pride in the past with a focus on the future.

PUBLISHING GUIDELINES FOR STUDENT PUBLICATIONS

1. The purpose of any student publication is to keep the FTCC students informed of issues, interests, and events related to campus and academic life.
2. Student organizations seeking to publish a newsletter must discuss the goals and purpose of the publication with the Vice President for Institutional Advancement and the Student Activities Director. Approval of the publication may then be given by the Vice President and the Student Activities Director.
3. Student publications may not necessarily reflect the view or opinions of the staff and faculty at the College but must be fair and accurate.
4. All submissions must include the author's name, address, and phone number.
5. No material which defames or insults any individual or group can be published. Opinions, editorials, or viewpoints must be clearly labeled. Material that is obscene, libelous, insensitive, or disruptive will not be published.
6. The decision regarding what will be published rests with the editor of a given publication. If a situation arises when the editor's decision is questioned by the Vice President for Institutional Advancement or the Student Activities Director, an Editorial Review Board will be convened. The Editorial Review Board will consist of the Editor, the Vice President for Institutional Advancement and the Student Activities Director, the Faculty Advisor and one other student from the appropriate group.
7. Student publications may not solicit advertisements.
8. All student publications must include a nondiscrimination statement.

STUDENT SERVICES INFORMATION

STUDENT SERVICES OFFICES

The Office of Student Services at Fayetteville Technical Community College, located in the Tony Rand Student Center, is responsible for the following functions:

1. Admissions
2. Career Counseling and Development
3. Counseling
4. Financial Aid
5. Graduate Job Placement
6. Health Service
7. New Student Orientation
8. Placement and Cooperative Education
9. Recruitment
10. Registration
11. Special Population Services
12. Student Activities
13. Testing
14. Veterans' Services

All offices are open to assist students each day, Monday through Friday. Office hours are maintained as follows:

Admissions

8:00 am to 7:00 pm, Monday – Thursday*
8:00 am to 6:00 pm, Friday*

Career Center

8:00 am to 5:00 pm, Monday – Wednesday & Friday
8:00 am to 7:00 pm, Thursday

Counseling Services

8:00 am to 7:00 pm, Monday – Thursday*
8:00 am to 6:00 pm, Friday*

Financial Aid

8:00 am to 6:00 pm, Monday
8:00 am to 5:00 pm, Tuesday, Wednesday, & Friday
8:00 am to 1:00 pm, Thursday

Registration and Records

8:00 am to 7:00 pm, Monday – Thursday
8:00 am to 6:00 pm, Friday

Special Populations

8:00 am to 7:00 pm, Monday
8:00 am to 5:00 pm, Tuesday – Friday

Testing

8:00 am to 5:00 pm, Tuesday, Thursday, and Friday
8:00 am to 7:00 pm, Monday and Wednesday

Veterans Services Office

8:00 am to 6:00 pm, Monday
8:00 am to 5:00 pm, Tuesday – Friday

Student services activities are also provided under Off-Campus Programs at the following three locations:

Spring Lake Campus

8:00 am to 5:30 pm, Monday – Thursday
8:00 am to 5:00 pm, Friday

Fort Bragg Center**

8:00 am to 5:00 pm, Monday – Friday

Pope AFB Center**

8:00 am to 5:00 pm, Monday – Friday

*Students/visitors must check in one hour before closing.

**Additional evening hours are scheduled as needed to assist students with registration and other services.

These services are provided to assist students in achieving their educational goals as quickly as possible. Therefore, students, faculty, and staff who need assistance should feel free to contact staff personnel.

CAREER DEVELOPMENT

Assistance with the development of realistic career goals and plans is available through the Career Center. Through the Career Center an individual can talk with a trained counselor and work jointly in solving problems associated with career choices, daily choices, and educational planning. The Career Center offers information on career-related topics, including job descriptions, duties, working environments, earnings, minimum entry skills, and the education and training required for entry into the job market. Special testing, including aptitude and achievement tests, is utilized to aid the career development process. Career Center services are available to students, staff and faculty, and members of the community. Visit our website at www.faytechcc.edu for further information and assistance.

COOPERATIVE EDUCATION

Cooperative Education offers an extension and application of classroom instruction through a supervised work experience that is related to the student's educational goals. It is an educational plan designed to use the "laboratories of the community" in business, industry, and civic agencies to the best advantage of the students, the college, and the employers.

The principle of this concept is that classroom instruction along with practical experience is the most effective way to obtain a balanced education. The program is designed to provide the necessary tools to prepare the student for the transition from school to work.

COUNSELING SERVICES

The counseling staff, located in the Tony Rand Student Center, is available to assist all students with career plans, personal concerns, or educational counseling. Counselors are available evenings and through telephone and Internet access for evening, off-campus, and distance learning students. They are available Monday through Thursday, from 8:00 a.m. to 7:00 p.m. and Friday 8:00 a.m. to 6:00 p.m. Students are seen on a walk-in basis, or appointments may be made in person or by calling 678-8419.

Staff

The counseling staff is composed of professionals with extensive training and competencies in counseling and guidance. They are experienced in assisting students in developing skills and attitudes needed to deal effectively with their surroundings. Responsibilities of counseling are shared equally between counselor and student, and the counselor respects the ability of the individual to make realistic choices among options presented.

Counseling Services

Admissions Counseling: Counselors interpret test data, review transcripts, make course recommendations, and assist students in viewing alternatives as they prepare to enter Fayetteville Technical Community College. This process may involve career counseling. In such cases, counselors assist students in making a thorough self-appraisal of interests, abilities, and personality traits so that they may utilize this information in making a wise career choice. Additional career/vocational counseling services are available through the Career Center, Room 113, Student Center.

Educational Counseling: Students who are uncertain regarding their major course of study or who are experiencing academic difficulty are aided in making more meaningful academic choices.

Personal Counseling: Many students have personal concerns which may interfere with their academic success. The counseling staff provides an atmosphere in which students may discuss problems with the assurance that all counseling information is confidential and would be released only with the student's written consent.

Group Counseling: Counseling Services provides a variety of small group experiences ranging from personal growth groups, to study skills groups, to career decision-making workshops. Students who wish to improve communication or interpersonal skills may participate in growth groups where they can experiment with new types of behavior in a safe and accepting environment. For those students experiencing academic difficulty, study skills groups provide instruction and supervised activity designed to improve study skills and habits. Students can gain insight regarding their

interests, abilities, and decision-making styles, as well as the world of work, while participating in career decision-making workshops.

Referrals: Those students with long-term counseling needs or serious problems, such as personality disorders which require special treatment, are referred to appropriate agencies.

On-line Counseling: Students may receive most counseling services at home. They may connect to the Internet and access the following URL: <http://www.faytechcc.edu/stuserv/counseling/online.htm>. Students can enter their request and expect a reply within 24-48 hours. This service does not include personal counseling.

CURRICULUM REGISTRATION AND RECORDS

The Curriculum Registration and Records office is responsible for all student and prospective student academic records at Fayetteville Technical community College.

The office is located in Room 114 of the Tony Rand Student Center. The staff is a caring group of people who are here to assist students with registration, drop-add, name and address changes, and requests for copies of their FTCC academic transcript. Access to student records is governed by the Family Educational Rights and Privacy ACT (FERPA).

FACULTY ADVISEMENT

The Faculty Advisory System at Fayetteville Technical Community College is an integral part of the instructional and student development programs of the college. There are two (2) primary components of faculty advising. They are developmental and prescriptive advising. Effective advisors master both. Developmental advising includes: projecting enthusiasm for the role as advisor; responding to non-verbal communication; providing a caring and personal relationship by exhibiting a positive attitude toward advisees and their concerns; planning a reasonable schedule; assisting with academic problems, including study habits, appropriate course load, and career objectives; and referring advisees to special services and/or counseling as needed.

Prescriptive advising includes: possessing and effectively providing accurate information about FTCC's policies, procedures, resources, and academic programs; placing emphasis on the students' academic development and their progress toward fulfilling the requirements of their Educational Plan; assisting with student scheduling and registration; reviewing with the advisee his or her Graduation Progress and Graduation Summary Report; providing timely feedback; and utilizing appropriate institutional technology and software.

HEALTH SERVICES

Health services at FTCC are handled by the Health Services Coordinator. Each shop and lab is equipped with first-aid kits. Basic first aid is available. Students are referred to an area health care facility when treatment is required. Health counseling is provided by a trained staff member. The Health Services Coordinator will act as a referral agent as necessary.

JOB PLACEMENT

The Placement Office is available year round to assist graduates entering the job market. The Placement Office maintains placement records on students, initiates contacts with prospective employers, arranges and coordinates job interviews between students and employer representatives, and maintains current information on employment opportunities including salaries. Follow-up studies of FTCC graduates are conducted yearly in order to provide current information on graduate placement, including type of employment, geographic location, and salary scale.

STUDENTS WITH DISABILITIES

The college recognizes its responsibility under Section 504 of the Rehabilitation Act of 1973 to provide equal access to education for students with disabilities. Support services are available to the hearing impaired, visually impaired, orthopedically handicapped, learning disabled, and other health impaired individuals. Please note the following:

1. Students who feel that they need accommodations due to a disability or handicap must complete a "Special Populations Student Intake" form indicating the nature of their disability.
2. Students who have identified themselves as having special needs may make a request for special accommodations to the Special Populations Counselor or the Director of Counseling Services. New students should make such requests at least 30 days prior to the beginning of their first term of enrollment at the College. Continuing students should communicate their needs to the Special Populations Counselor immediately upon the discovery of the need. Early communication of special needs provides the time needed to arrange for services and/or the procurement of equipment that may be needed by a student.
3. Students must arrange to provide supporting documentation upon request. Federal regulations obligate the student to provide information on identifying appropriate and effective auxiliary aids.

4. Each request will be evaluated by the Special Populations Counselor and/or the Director of Counseling, who will recommend any modifications to the educational plan that are essential to satisfactory completion of course requirements by the student according to the ADA guidelines.
5. The Special Populations Counselor and/or the Director of Counseling will provide the student with a "Disabled Student Enrollment" form which lists recommended services and/or accommodations. This document is to be used to inform college faculty and staff of authorized accommodations. For further information and assistance, contact the Special Populations Counselor.

Reasonable Accommodations

The following are considered reasonable accommodations to be made for students with disabilities:

1. The process must be an interactive one involving "a reasonable reciprocal effort" on the part of both parties.
2. The College may not make a unilateral decision regarding the existence of a disability or the accommodation that is necessary.
3. What is "reasonable" involves a detailed analysis of the specific circumstances of the case in question. Broad generalizations are not acceptable. An "individualized assessment" of the student's situation must be conducted.
4. The college is not required to provide specifically what the student requests. An alternative accommodation may be provided if it is effective.
5. The College does not have to provide accommodations that are not effective. The College has a right to refuse to provide auxiliary aids and services that do not in fact provide meaningful access.
6. The College must be given a reasonable amount of time to evaluate requests and to offer the necessary accommodations.
7. The College does not have to provide accommodations that will impose an "undue administrative or financial burden".
8. Challenges to student's requests must clearly involve substantive questions regarding the manifestations of the disability of the nature of the accommodations requested. Mere administrative expedience or philosophical differences of opinions cannot be used as a justification for denying reasonable accommodations.
9. Determining what is reasonable requires one to balance two important rights: the student's rights to be provided meaningful access and the College's right to protect the integrity of its programs and services.

STUDENT HOUSING

Housing arrangements are the student's responsibility. As a member of the North Carolina Department of Community Colleges, FTCC does not provide student housing. Assistance is available in locating living arrangements in the community. Students in need of housing should contact the Student Activities Office in the Tony Rand Student Center. The college assumes no responsibility in any financial arrangement between the student and the landlord. Financial arrangements for rooms are on an individual basis between the student and the landlord.

VETERANS SERVICES OFFICE

The FTCC Veterans Services Office (VSO) serves as the interface for veterans and eligible family members seeking access to educational benefits provided by the Veterans Administration. As such, it is the responsibility of the VSO to provide counseling, clarification of VA regulations, and certification for pay to the appropriate Department of Veterans Administration office.

THE CRIME AWARENESS AND CAMPUS SECURITY ACT OF 1990

The Crime Awareness and Campus Security Act of 1990, requires all institutions of higher education that receive federal funding to collect all incidents of certain crimes that occur on- and off-campus and publish the data in an annual report for review by all interested personnel. A copy of the *FTCC Annual Security Report* is maintained on file in the Campus Library and the Campus Safety and Security Office.

OFF-CAMPUS PROGRAMS

FTCC offers three full service off-campus sites to meet the educational needs of its military and civilian communities in northern Cumberland County.

The Fort Bragg Education Center is located on the corner of Knox and Randolph Streets and offers 9-week classes in the evenings and weekends at nearby Irwin Elementary School, Albritton Middle School and Soldier Development Center.

The Pope Air Force Base Center is housed in the MSS Personnel Building on Maynard Street, with 9-week classes held in the same facility.

The Spring Lake Campus, located on Laketree Boulevard, off North Bragg Boulevard and Odell Road, offers 8 and 9-week day and evening classes, also leading to the diploma, certificate and degree.

Qualified professional staff are available at each site to provide a full compliment of one-stop quality customer services for the student's registration convenience.

In addition, FTCC's newest off-campus facility, the **Horticulture Educational Center**, is a state-of-the-art training site located next to the Botanical Gardens, off Hwy 301 North.

ACADEMIC LIFE

ACADEMIC POLICIES AND PROCEDURES

Credits

1. All curricular students receive semester-hour credit for courses which they successfully complete.
2. The Board of Trustees of Fayetteville Technical Community College has been authorized by the North Carolina Board of Community Colleges to award the Associate in Arts, Associate in Science, Associate in Applied Science Degree, Associate Degree in General Education, the Diploma, and the Certificate upon successful completion of curricular requirements.
3. Fayetteville Technical Community College has structured its curricula, of both one and two years' duration, on a post-secondary level and grants credit on a semester-hour basis. Instruction in all curricula is post-secondary and requires students to be capable of study beyond the high school equivalency level for success. The curricula are designed on a semester-hour basis to include general education areas which require extra out-of-class preparation each term. Each class, lab, and shop session is of 50 minutes duration and requires a minimum of outside preparation of two hours for each classroom session, one hour for each lab session and additional outside preparation for shop sessions. Semester-hour credit is granted on a basis of one credit to three sessions of shop, one credit to two sessions of lab, and one credit to each classroom session of weekly attendance and one credit to ten hours of cooperative work experience or practicum.
4. Students with academic deficiencies who require remedial work as background preparation may enroll in developmental studies courses. Developmental studies courses carry credit hours for institutional accounting purposes only and are not counted as credit hours toward graduation in any of the curricula.

Course Repeat Policy

A student may repeat for credit or audit any curriculum course one time in an effort to earn a higher grade and/or to add to his/her mastery of course content. If a student petitions for another attempt through the appropriate Dean, **a third and final attempt** may be granted based on documented major extenuating circumstances. When a course is repeated, the last grade earned (A, B, C, D, F, WF, and U) will be counted in determining the hours earned and in determining the grade point average at Fayetteville Technical Community College.

However, all grades will be recorded on the student's official transcript. Grades of withdrawal (W), withdrawal passing (WP) and audit (AU) are not calculated in the GPA, but they will be considered as a repeat grade.

A student who earns a deficient grade ("D," "F" "WF" or "U") in a required course two times must see a counselor. Specific program requirements for academic progress are outlined in the College catalog (i.e., Health occupations curriculums, Funeral Service Education, and Paralegal Technology).

The University of North Carolina System and other colleges or universities require that a student earn a grade of "C" or better in each transfer course completed. A student planning to transfer should realize that receiving institutions do not have consistent policies regarding grade forgiveness. Admissions personnel will review the transcripts of transfer applicants and may recompute grade point averages to include the grade originally assigned, or compute all grades assigned at Fayetteville Technical Community College.

Note to students receiving VA assistance: Two attempts will be the maximum allowed for counting a course as part of a student's credit hour load for determining eligibility. Veterans who wish to repeat courses, for which a passing grade (D or higher) has been earned, will not receive educational benefits for repeating those courses.

Note to students receiving Title IV Financial Aid: **All** attempted classes will be counted toward academic progress.

Note to students interested in a health program: Previously completed science courses must have been satisfactorily completed with a grade of "C" or better within five years of entry in a health program. These courses may be attempted only twice. The appropriate health department chairperson through the Dean of Health Programs may approve exceptions.

Effective: Fall term 2001

Revised: February 2003

Course Repeat Procedures

These procedures apply to all students who have taken curriculum courses at FTCC.

1. The request for course repeat must be initiated by the student and directed to the Registrar.
2. All requests must be initiated prior to the end of the final term of enrollment (i.e., at the end of the fall term if graduating at the end of the spring term).
3. Students applying for health programs must make the request prior to the January 30 deadline.
4. The "Course Repeat" form is available in the Registrar's office.

A student may petition in writing to the Associate Vice President for Curriculum Programs to have grades which are at least seven years old forgiven.

The Vice President for Academic and Student Services must approve exceptions to this policy.

Classification of Students

- Full-time student:** A student enrolled for 12 or more semester hours. (Summer semester: 9 credit hours)*
- Part-time student:** A student enrolled for fewer than 12 semester hours. (Summer semester: fewer than 9 credit hours)*
- Freshman:** A student who has fewer than the number of semester hours required for the first two terms in his or her major.
- Sophomore:** A student who has accumulated credits of 30 or more total credit hours in his or her major.

***Financial aid recipients registered during the summer semester will need 12 semester credit hours for full PELL awards. VA requirements may vary. See the VSO.**

Academic Course Load

The maximum course load for any academic term ranges from 12 to 23 semester hours. Any request for exception to the academic course load maximum must be evaluated by your Academic Dean. When extenuating circumstances exist, the Dean may grant you special permission to deviate from the course load maximum.

The College reserves the right to limit the number of credit hours in which you can enroll if you need developmental studies courses or if you are placed on academic probation.

Schedule Adjustments and Withdrawals

- A. Students may add a class within the first two school days (one day for 8-week and 9-week terms) of any term if the class has not met.

WARNING: Complete all drop/add transactions in one process. If you change or drop classes, the system refunds 75 percent of the tuition. If you add a class at another time (not during the same computer transaction as the drop), instead of a net zero, your account reflects the 75 percent refund and a 100 percent charge for the new class. The result is an additional 25 percent of the class tuition.

- B. Once a student has duly enrolled in a class and paid the registration fee, the student shall maintain membership in said class, until one of the following occurs:
1. Student Withdrawal – He or she officially withdraws and the action is effective as of that date.
 2. Administrative Withdrawal
 - a. He or she ceases attending class. Students who are absent for more than 20 percent of the scheduled class sessions may be dropped from the class rolls.

- b. He or she fails to attend class prior to the 10 percent point of the term (census date). Then the instructor may be reasonably assured that the student does not intend to pursue the learning activities of the course. This constitutes administrative withdrawal (No Show) and is effective as of the first day of class. A grade of “W*” will be assigned.
 - c. He or she completes the minimum objectives stated for the class or transfers to another class.
- C. A student may drop a class with the following results:
1. A student may drop as late as the 30 percent date of the term without penalty. The transcript will indicate a “W.”
 2. A student who drops between the 30 percent date of the term and the 80 percent date will receive a grade of “WP” or “WF”, depending on the student’s average in the class at the time of the withdrawal.
 3. Course requirements/tests missed in the remainder of the class will be averaged into the final grade as zero.
- D. A student who wishes to withdraw must complete a “Registration Change” form, have it initialed by the faculty member, and present it to the Registrar before an official withdrawal can be recorded. Failure to comply with this procedure will result in a grade of “WF.”
- E. A student who is dropped for excessive absences prior to the 30 percent point of the class will be assigned a grade of “W.”
- F. Failure to withdraw properly may receive a failing grade for the course and may jeopardize a student’s right to re-enroll at a later date.
- G. A student who withdraws or drops from any portion of a course (classroom, lab, clinic or shop) will be dropped from the entire course.
- H. *Students who receive Financial Aid or VA Educational benefits should confer with personnel in those offices before dropping classes or withdrawing from the College.*

GRADING PROCEDURES

FTCC grades are based on a 4.0 grading system. Each grade is assigned a “grade-point equivalent” in quality points for each term credit hour scheduled. The scholastic point average is determined by dividing the total of quality points earned by the number of term hours scheduled.

Numerical Grade	Grade	Grade Point Equivalent
93 - 100	A - Excellent	4 grade points for each credit hour
85 - 92	B - Good	3 grade points for each credit hour
77 - 84	C - Average	2 grade points for each credit hour
70 - 76	D - Below Average	1 grade point for each credit hour
0 - 69	F - Failure	0 grade point
	I - Incomplete	After eight (8) weeks for 16 week classes and 4 weeks for 8 or 9 week classes, the grade becomes an "F"
	AU - Audit (No Credit)	No effect on grade point average
	P - Proficiency	No effect on grade point average
	S - Satisfactory	No effect on grade point average
	T - Transfer	No effect on grade point average
	U - Unsatisfactory	0 grade point
	W - Withdrew	No effect on grade point average
	W* - Withdrew	No effect on grade point average
	W/F - Withdrew Failing	0 grade point
	W/P - Withdrew Passing	No effect on grade point average

- I (Incomplete) may be given at the discretion of the instructor when all course requirements have not been met. After eight weeks from the beginning of the next term, an incomplete grade in a sixteen-week class becomes an "F." After four weeks from the beginning of the next term, an incomplete grade in an eight or nine-week class becomes an "F."
- P (Proficiency) by examination may be given after the student has registered for the course and after a preliminary screening test is given by the department chairperson. The grade equates to a "C" or better. This process must be completed within the first two days of the sixteen-week course and the first day of an eight or a nine-week course.
- AU (Audit) requests must be made at the first class session. The intent of the AU is to allow students to take courses for no credit. Forms must be obtained from the Registrar's Office and be signed by both student and instructor during the first two days of the sixteen-week

course and the first day of an eight or a nine-week course.

Developmental classes may not be audited. To receive the AU, the student must meet all course requirements. This grade is permanent and can not be converted to a letter grade.

- S (Satisfactory) is the grade given for the successful completion of ACA 111. The grade equates to a "C" or better.
- T (Transfer) credit is granted for courses completed at other regionally accredited community colleges, colleges, and universities.
- U (Unsatisfactory) is the grade given for unsatisfactory completion of ACA 111 and remedial courses.
- W (Withdrew) is the grade given when a student may drop courses after the 10 percent date of the term, but before the 30 percent date of the term. No penalty is involved.
- W* (Withdrew) is the grade given when a student may drop courses on or before the 10 percent date of the course. No penalty is involved.
- WP (Withdrew Passing) is the grade given when withdrawals or drops occur between the 30 percent date of the term and the 80 percent date if the student's average in the class is equivalent to a passing grade.
- WF (Withdrew Failing) is the grade given when a student's average in a class is equivalent to a failing grade and the withdrawal or drop occurring between the 30 percent date of the term and the 80 percent date of the term.

Students will receive their grades in the mail, so be sure to report any change of addresses to the Registrar's Office immediately.

All final course grades will be letter grades in accordance with the adopted grading system. Student grade reports are mailed at the end of each term.

All students must have at least a 2.0 grade point average (major and cumulative GPA) and have passed all curricular subjects as listed in the course outline under which they entered to be eligible for graduation. They must also meet the grade level needed in major subjects required to take licensure examinations.

Health occupations curricula, Funeral Service Education, and Paralegal Technology require course grades of C or better in order to progress to the next course/term. Each department area will issue to the student in written form the necessary information to cover such grading policies. Students who request transfers to other degree curricula are expected to have maintained a 2.0 GPA on all courses completed including prerequisite courses.

DEVELOPMENTAL COURSE GRADING SYSTEM

Courses numbered below 100 are developmental courses. The following grades are assigned for developmental courses: A, B, C, or U. Students who receive a grade of "U" (Unsatisfactory Progress) will be required to re-take the course.

Developmental course grades are not counted as credit towards graduation, nor are they calculated into the student's cumulative Grade Point Average.

STANDARDS OF PROGRESS

Academic Standards

The College requires that students maintain a cumulative and/or major grade point average of 2.00 or better in order to meet institutional standards of progress and be eligible for graduation.

Academic Probation

Students enrolled in a curriculum program will be placed on Academic Probation if any of the following conditions occur:

1. Major GPA and/or cumulative GPA is below 2.0.
2. Failure to successfully complete 50 percent of credit hours attempted for two consecutive terms.
3. A student simultaneously enrolled in developmental coursework and major courses will be placed on Academic Probation if either condition above occurs or if the student fails to complete a required developmental course with a grade of "C" or better.
4. Special credit students must maintain a cumulative GPA of 2.00 or better.

Note: All students are responsible for being aware of any additional departmental requirements. (See "Select Programs Progress Standards.")

Removal from Academic Probation

To be removed from Academic Probation, a student must attend mandatory counseling sessions and achieve a major GPA of 2.00 while completing 50 percent of the credit hours attempted. Students on probation should not enroll in accelerated sessions (8 or 9-week sessions) without advisor approval. A student on academic probation would be eligible to continue enrollment for no more than 24 semester hours.

A student enrolled in developmental coursework must attend mandatory counseling sessions and successfully complete required developmental courses with a grade of "C" or better. Students on Academic Probation may not enroll in any course requiring a developmental prerequisite without first completing the developmental course(s).

Academic Suspension

Students failing to remove themselves from Academic Probation after attempting 24 semester hours will be placed on Academic Suspension for a minimum of one semester. Academic Suspension means a student may not enroll in any credit courses offered by FTCC during the suspension period.

Appeal of Academic Suspension

To be removed from Academic Suspension and continue in the same program, a current student must be approved by the department chairperson in order to re-enroll. When readmitted to the same program, a student will be placed on Academic Probation and must achieve a 2.0 GPA for the coursework attempted while successfully completing at least 50 percent of the credit attempted. Students who do not achieve these requirements will be dismissed from the college as ineligible to re-enter that same curriculum program. Current students who do not wish to continue in the same program and returning (away for one term or more) students must apply for readmission through the Director of Admissions. Students may also be readmitted to the college by redirection of program through counseling. These students will be placed on Academic Probation and must achieve a 2.0 GPA for the coursework attempted while successfully completing at least 50 percent of the credit attempted. Students who do not achieve these requirements will be placed on academic suspension.

Appeals of the decision of the department chair or Director of Admissions may be made to the appropriate program area dean. All appeals must be in writing and received no later than five days from the time of notification of the readmission decision. Students placed on academic suspension may be allowed to continue attending class until the appeal has been resolved. The decision of the dean in matters of academic probation and academic suspension is final and not subject to further appeal. This process must be completed prior to the end of drop/add.

Progress Standards for Select Programs

The following programs require that a student complete the stated course work with a grade of "C" or better in order to progress to the next course/term:

Associate Degree Nursing -

C or better in all major and science courses. Satisfactory grade in clinical.

Dental Assisting -

C or better in all major and science courses. Satisfactory grade in clinical.

Dental Hygiene -

C or better in all major and science courses. Satisfactory grade in clinical.

Emergency Medical Science -

C or better in all major and science courses. Satisfactory grade in clinical.

Funeral Service Education -

C or better in all FSE courses and ACC 111, BUS 115, and PSY 141.

Nuclear Medicine Technology -

C or better in all major and science courses.

Paralegal Technology -

C or better in all LEX courses.

Pharmacy Technology -

C or better in all major and science courses.

Phlebotomy -

C or better in all major courses.

Physical Therapist Assistant -

C or better in all major and science courses.

Practical Nursing Education -

C or better in all major and science courses.

Radiography -

C or better in all major and science courses.

Respiratory Care Technology -

C or better in all major and science courses.

Speech-Language Pathology Assistant -

C or better in all major and science courses.

Surgical Technology -

C or better in all major and science courses.

GENERAL COMPETENCIES FOR FTCC GRADUATES

The following competencies were developed within the framework of Fayetteville Technical Community College's purpose statement which reflects the institution's desire to meet the needs of its students and the surrounding community. Students who graduate from FTCC's degree and diploma programs should be able to:

- communicate effectively in speaking, writing, reading, and listening.
- perform technical skills in their chosen occupation.
- use information to analyze problems and make logical decisions.
- demonstrate positive interpersonal skills in various aspects of life.
- demonstrate quantitative competencies.
- demonstrate basic skills in using a personal computer.

HONORS AND AWARDS

Any student who has earned a quality point average of 4.0 in his/her program of study at Fayetteville Technical Community College will be granted a diploma or degree with highest honors. Any student who has earned a quality point average of 3.5 in his/her program of study will be granted a diploma or degree with honors. The student's transcript will be noted to reflect this achievement.

President's List

The President's List is published at the end of each semester to honor students with a perfect grade point average.

1. Students must be approved for a curriculum prior to the start of the semester. The developmental studies curriculum and courses are excluded from this consideration.
2. Students must make a final grade of "A" on a minimum of 12 credit hours of curricular work during the semester of consideration.
3. Students must earn a 4.00 GPA on a minimum of 12 credit hours. The formula used to calculate this 4.00 GPA excludes the following grades: AU, P, S, T, W, WP, and W*.
4. Students are NOT eligible for consideration until all course work is completed for the semester.

Dean's List

The Dean's List is published each semester to honor those students with an outstanding grade point average.

1. Students must be approved for a curriculum prior to the start of the semester. The developmental studies curriculum and courses are excluded from this consideration.
2. Students must make a final grade of "A" or "B" on a minimum of 12 credit hours of curricular work during the semester of consideration.
3. Students must earn at least a 3.5 GPA on a minimum of 12 credit hours. The formula used to calculate this minimum 3.5 GPA excludes the following grades: AU, P, S, T, W, WP and W*.
4. Students are NOT eligible for consideration until all course work is completed for the semester.

Ambassadors

Each academic year, Fayetteville Technical Community College chooses eight students to serve as ambassadors. The ambassadors act as official hosts and hostesses for various campus events. All ambassador candidates must:

- have completed 12 hours at FTCC.
- have a minimum 2.5 GPA.
- be recommended by three members of the college community.

Marshals

Marshals are selected and given the privilege to lead the academic procession during graduation exercises. The selection of marshals is a competitive process based on academic averages. Marshals must be second-semester freshmen in a two-year curriculum and have minimum of 3.5 GPA.

The President's Award

The President's Award is presented to a deserving student selected by a faculty-staff committee. To be eligible for this award, a student must have a minimum GPA of 3.0 and must have been enrolled on a full-time basis during the year of nomination. The student must exhibit and promote good student morale and demonstrate a genuine concern for FTCC and its role in the community.

REQUIREMENTS FOR GRADUATION

To be eligible for graduation, the student must:

- successfully complete the curricular requirements in effect at the time the student entered the curriculum.
- have sufficient quality points to average 2.0 (cumulative and major GPA).
- have passing grades in all required courses.
- have taken care of ALL financial indebtedness to Fayetteville Technical Community College, including a graduation fee.
- fill out an application to graduate at a time designated. Failure to do so may result in diplomas not being available at the time of graduation. The College assumes no responsibility for making special adjustments for students who fail to file applications by the designated time.
- complete a minimum of 25 percent of resident credit at FTCC.

Course Substitutions. In special circumstances, a student may apply to his or her advisor for approval for a course substitution. The course used as a substitute must have academic relevance to both the course it replaces and the curriculum. Technical and skills-based courses must have been completed within the last seven years. The substitution will be made on an individual basis and will apply only to the curriculum in which the student is enrolled. Substitution of courses for graduation purposes is limited to *ten percent* of the total credit hours required to graduate and must be approved by the department chairperson and the program area dean. All exceptions to the ten percent limit must be approved by the Associate Vice President for Student Services.

Prior to enrollment in the course to be used as a substitute, a completed *Course Substitution Form* must be received by the Registrar's office.* All course substitutions will be made upon the recommendation of the advisor, with endorsements by the department chairperson, division chair, and curriculum program dean. Exceptions to this policy must be approved by the Vice President for Academic and Student Services.

**Students receiving assistance from the Veterans Administrations must have prior approval to make course substitutions from the Veterans' Services Officer.* Electives taken by students under VA educational benefits may exceed the total required hours of a curriculum only by the hours of the last elective taken to fulfill those requirements.

STUDENT OBLIGATIONS

Attendance Policy

Regular class attendance is an essential part of the educational process; therefore, absences must be kept to a minimum. While stressing regular attendance, FTCC simultaneously desires to allow students to develop a real sense of personal responsibility toward their studies. This policy has been established for the benefit of students who are forced, because of reasons beyond their control, to miss classes. Attendance may be taken separately in each portion of a course (i.e., class, lab, clinic, shop). Missing 20 percent of any portion of a course may result in administrative withdrawal.

1. Students who add a course after the first day of the class are responsible for all materials covered from the beginning of the course. Classes missed prior to a student's late enrollment in a course are included in the calculation of absences.
2. Instructors are encouraged to refer students with excessive absences to the Counseling Office.
3. Each student is expected to attend class regularly--at least 80 percent of all scheduled contact hours.
4. If absences exceed 20 percent, the faculty member may drop the student from the course at any point during the term, or if the student is performing acceptably, he or she may be allowed to continue in the course under conditions set by the instructor.
5. Tardy students interrupt the beginning of a class meeting. If a student enters the class after the faculty member has started the class, the student shall be recorded as being tardy. Three tardies shall be counted as one absence.
6. No absence, for any reason, shall excuse a student from an announced test or other assigned activity. Make-up of any tests or work missed shall be at the discretion of the faculty member.
7. Each student dropped may submit a request through the Director of Counseling for review by the Student Appeals Committee.
8. The following programs and departments have special attendance policies which will be distributed to the students during the first week of classes: Associate Degree Nursing, BLET, Dental Assisting, Dental Hygiene, Emergency Medical Science, Emergency Medical Technician (Continuing Education), Nursing Assistant (Continuing Education), Pharmacy Technology, Phlebotomy, Physical Therapist Assistant, Practical Nursing, Radiography, Respiratory Care, Speech-Language Pathology Assistant, and Surgical Technology.

STUDENT RIGHTS, RESPONSIBILITIES AND JUDICIAL PROCEDURES

Academic institutions exist for the transmission of knowledge, the pursuit of truth, the development of students, and the well-being of society. Free inquiry and free expression are indispensable to the attainment of these goals. As members of the FTCC academic community, students are encouraged to develop the capacity for critical judgment and to engage in a sustained and independent search for truth.

Freedom to teach and freedom to learn are inseparable facets of academic conditions in the classroom, on the campus, and in the community. Students should exercise their freedom with responsibility. As members of the FTCC academic community, students are subject to the obligations which accrue to them by virtue of this membership. As members of the larger community of which the College is a part, students are entitled to all rights and protection accorded them by the laws of that community.

By the same token, students are also subject to all laws, whether on campus or off campus, the enforcement of which is the responsibility of duly constituted authorities. When students violate laws, they may incur penalties prescribed by legal authorities. In such instances, College discipline will be initiated only when the presence of the student on campus will disrupt the educational process of the College. However, when a student's violation of the law also adversely affects the College's pursuit of its recognized educational objectives, the College may enforce its own regulations. When students violate College regulations, they are subject to disciplinary action by the College whether or not their conduct violates the law. If a student's behavior simultaneously violates both College regulations and the law, the College may take disciplinary action independent of that taken by legal authorities.

STUDENT RIGHTS

1. All rights and privileges guaranteed to every citizen by the Constitution of the United States and by the state of North Carolina shall not be denied any student.
2. Within limitations, students are free to pursue their educational goals. Appropriate opportunities for learning in the classroom and on the campus shall be provided for by the college. Student performance will be evaluated solely on an academic basis, not on opinions or conduct in matters unrelated to academic standards.
3. Students have the right to freedom of expression, inquiry, and assembly subject to reasonable and non-discriminatory rules and regulations regarding time, place, and manner.
4. Students have the right to inquire about and to propose improvements in policies, regulations and procedures affecting the welfare of students through established student government procedures, campus committees, and college offices.
5. The Family Educational Rights and Privacy Act of 1974 provides safeguards regarding the confidentiality of an access to student records, and this Act will be adhered to by the College. Students and former students have the right to review their official records and to request a hearing if they challenge the contents of these records. No records shall be made available to unauthorized personnel or groups outside the College without the written consent of the student involved, except under legal compulsion.
6. No disciplinary sanctions other than removal from class or activity (only for duration of said activity) may be imposed upon any student without due process. Due process procedures are established to guarantee a student accused of a Student Code of Conduct violation the right of a hearing, a presentation of charges, evidence for charges, the right to present evidence, the right to have witnesses on one's behalf and to hear witnesses on behalf of the accuser(s), and the right of appeal.

STUDENT CODE OF CONDUCT

The College reserves the right to maintain a safe and orderly educational environment for students and staff. Therefore, when in the judgment of College officials, a student's conduct disrupts or threatens to disrupt the College community, appropriate disciplinary action will be taken to restore and protect the orderliness of the FTCC community.

Students are expected to conduct themselves in accordance with generally accepted standards of scholarship and conduct. The purpose of this code is not to restrict student rights but to protect the rights of individuals in their academic pursuits.

The following regulations set forth rules of conduct which prohibit certain types of student behavior. Violation of one or more of the following regulations may result in disciplinary sanctions by the College and/or legal sanctions:

1. Academic Dishonesty – taking or acquiring possession of any academic material (test information, research papers, notes, etc.) from a member of the College staff or student body without permission; receiving or giving help during tests; submitting papers or reports (that are sup-

- posed to be original work) that are not entirely the student's own, except in cases of group assignments; not giving credit for others' work (plagiarism).
2. Theft of, misuse of, or damage to College property, or theft of or damage to property of a member of the College community or a campus visitor on College premises or at College functions; unauthorized entry upon the property of the College or into a College facility or a portion thereof which has been restricted in use and thereby placed off limits; unauthorized presence in a College facility after closing hours.
 3. Possession of or use of alcoholic beverages or being in a state of intoxication on the College campus or at College sponsored or supervised functions off campus or in College owned vehicles. Possession, use or distribution of any illegal drugs, except as expressly permitted by law. Any influence which may be attributed to the use of drugs or of alcoholic beverages shall not in any way limit the responsibility of the individual for the consequences of his/her actions.
 4. Lewd or indecent conduct, including public physical or verbal action or distribution of obscene or libelous written material on the FTCC campus.
 5. Mental or physical abuse of any person on College premises or at College sponsored or College supervised functions, including verbal or physical actions which threaten or endanger the health or safety of any such persons.
 6. Any unwelcome verbal or physical act or behavior which is of a sexually suggestive or harassing nature and which in any way interferes with the student's or an employee's performance or creates an intimidating, hostile, or offensive environment.
 7. Intentional obstruction or disruption of teaching, research, administration or disciplinary proceedings, or other College activities, including public service functions, and other duly authorized activities on College premises.
 8. Occupation or seizure in any manner of College property, a College facility or any portion thereof for a use inconsistent with prescribed, customary, or authorized use.
 9. Participating in or conducting an assembly, demonstration, or gathering in a manner which threatens or causes injury to person or property; which interferes with free access to ingress or egress of College facilities; which is obstructive or disruptive to the education process or institutional functions of the College; remaining at the scene of such an assembly after being asked to leave by a representative of the College staff.
 10. Possession or use of a firearm, or other deadly weapon, incendiary device or explosive, except in connection with a College-approved activity. (This also includes unauthorized use of any instrument.)
 11. Setting off a fire alarm, or using, or tampering with any fire safety equipment, except with reasonable belief in the need for such alarm or equipment.
 12. Gambling.
 13. Smoking and/or using other forms of tobacco products in classrooms, shops, and labs or other unauthorized areas.
 14. Violation of College regulations regarding the operation and parking of motor vehicles.
 15. Forgery, alteration, or misuse of College documents, records, or instruments of identification with intent to deceive.
 16. Failure to comply with instructions of College officials acting in performance of their duties.
 17. Violation of the terms of disciplinary probation or any College regulation during the period of probation.
 18. Fiscal irresponsibility such as failure to pay College levied fines, failure to repay College funded loans, or the passing of worthless checks to College officials.
 19. Violation of a local, state, or federal criminal law on College premises adversely affecting the College community's pursuit of its proper educational purposes.
 20. Students must not engage directly in, or aid or abet in, acts such as the playing of radios, stereos, and tape players or the personal use of loud, threatening or obscene language which disrupts, disturbs, or interferes with the peace, order or discipline while on College property or attending College activities.
 21. Minors under age sixteen (16) must not be left unattended on campus at any time. Without college authorization, minors under age sixteen (16) are not allowed in classrooms, labs, shops, or other instructional areas.
 22. Students must not engage in any activity which is disruptive to orderly classroom instruction including, without limitation, taking cell phone or pager calls. Students are therefore required to disengage all such devices when present in a classroom.
 23. This Student Code of Conduct is not all-inclusive. Other conduct which is disruptive may be subject to appropriate sanctions.

COMPUTER USE GUIDELINES

Fayetteville Technical Community College employees, students, staff and other authorized users may not use or distribute personally owned software on FTCC computers or local area network. Employees are not permitted to copy software from FTCC computers and install it on home or any other computer without the expressed written permission of the license owner.

A variety of software is available on the Internet. Some of this software, called "Freeware" or "Shareware" is available, free of charge, for limited use and may be downloaded to FTCC's computers with prior written approval of the MIS Department. Other software available on the Internet and from other electronic sources, however, requires the user to obtain a license for its use, sometimes for a fee. No employee shall download such software to FTCC computers without prior written approval of the MIS Department.

College owned or operated computing resources are for the use of faculty, students, staff, and other authorized individuals. Users must exercise responsible, ethical behavior when using these resources. The College does not attempt to articulate all required or unacceptable behavior by its users. Therefore, individuals are expected to use good judgment in using computer resources. To assist in such judgment, the following guidelines have been developed:

1. Computing resources and access accounts are to be used only for the purpose for which they are assigned and are not to be used for commercial purposes or non-college related activities.
2. FTCC students may use any computer software licensed to the College for instructional purposes. This software will be available for use in the designated Open Computer Lab on a first-come first-served basis. Priority may be given to students currently registered for classes requiring computer use.
3. An access account assigned to an individual must not be used by others. Individuals are responsible for the proper use of their accounts, including proper password protection and appropriate use of Internet resources. Allowing friends, family or co-workers to use the account is a serious violation of these guidelines.
4. All computer software is protected by the federal copyright law and most is proprietary and protected by legal licensing agreements in addition to the copyright law. The user is responsible for being aware of the licensing restrictions for the software used on any system.
5. Individuals shall not engage in activities which damage or disrupt hardware or communication such as virus creation and propagation, wasting system resources, and overloading networks with excessive data.
6. Individuals shall not monopolize or misuse system resources, for example, by requesting multiple copies from printers or by playing games.
7. Individuals shall not create, display, transmit or make accessible threatening, racist, sexist, obscene, offensive, annoying or harassing language and/or material, including broadcasting unsolicited messages or sending unwanted mail.
8. Individuals shall not intentionally access or damage systems or information such as College records, or use any system for illegal activities.
9. Failure to follow the acceptable use guidelines may result in the suspension or revoking of access accounts or other College disciplinary action.

POSSESSION OF WEAPONS ON CAMPUS

Possession of weapons on campus or at any FTCC class, site, activity, or program is a violation of North Carolina State Law (GS 14- 269.2).

The following applies:

1. It shall be a Class I Felony for any person to possess or carry, whether openly or concealed, any gun, rifle, pistol, or other firearm of any kind, or any dynamite cartridge, bomb, grenade, mine or powerful explosive on campus or at any FTCC class, site, activity, or program.
2. It shall be a misdemeanor for any person to possess or carry, whether openly or concealed, any BB gun, air rifle, air pistol, Bowie knife, dirk, dagger, slingshot, leaded cane, switchblade knife, blackjack, metallic knuckles, razors and razor blades, and any sharp-pointed or edged instruments except instructional supplies, unaltered nail files and tools used solely for preparation of food, instruction, and maintenance on campus or at any FTCC class site, activity, or program. Any person found to be in violation of the law will be referred to the local area law enforcement authorities for appropriate legal action.
3. Students who violate the law will be suspended immediately for a minimum of one full term. A student is identified as any person currently enrolled in continuing education class(es), or curriculum class(es), whether the person is an adult or a minor.
4. Students in violation of this policy may be placed on permanent expulsion when one of the following occurs:
 - a. possession of a firearm on campus
 - b. repeat offense on campus or any FTCC class site, activity, or program
 - c. subsequent conviction of a violation of the law
 - d. use of a weapon to harm or threaten another individual

SMOKING ON CAMPUS

All buildings on the FTCC campus are smoke-free. In addition, smoking adjacent to buildings will only be permitted at outdoor areas that have been designated by the President as smoking areas. This policy is implemented to reduce second hand smoke at building entrances. The designated smoking areas are listed below:

BLDG #	NAME	LOCATION
1	Administration Bldg (ADM)	Rear of building
2	Library/Learning Center (LRC)	Patio between Library & VCC
3	Cumberland Hall (CUH)	Center patio area
4	Lafayette Hall (LAH)	Patio area by snack bar
5	Horace Sisk (HOS)	Large center courtyard area
6	Neil Currie Bldg (NCB)	Patio area by snack bar
7	Tony Rand Student Center (SDC)	Rear patio by canopy
8	Center for Business and Industry (CBI)	Rear door leading to P/L #19
9	Advance Technology Center (ATC)	Patio area by vending area
10	Continuing Education Center (CEC)	Patio area by snack bar
11	Health Technologies Center (HTC)	Patio area adjacent to callbox #32
12	Early Childhood Education Center (ECC)	Door on end of building nearest Access Rd
13	Auto Body Shop (AUB)	Rear door
14	Criminal Justice Center (CJC)	Covered patio area toward front of building
15	Harry F. Shaw (Virtual College Center (VCC)	Patio between Library & VCC
16	Horticulture (HEC)	Outside of classroom bldg away from the entrance
	Warehouse/Print Shop (SRD)	Rear door of print shop
	SLC	CEC wing entrance

DISCIPLINARY ACTION

Immediate Suspension

If an act of misconduct threatens the health or safety of any member of the academic community or seriously disrupts the function and good order of the College, an instructor or administrative officer may direct the student(s) involved to cease and desist such conduct and advise them that failing to cease and desist will result in immediate suspension. The instructor may suspend the student(s) from that class until further notice. An administrative officer may suspend the stu-

dent(s) from either the class or the College until a resolution of the matter can be made. Disruptive behavior may include, but not be limited to, obscene and/or disruptive language, threatening actions, and blocking or restricting access to College classes, offices, and programs.

The instructor or administrative officer invoking such suspension shall notify the Program Area Dean/Director in writing of the individual(s) involved and the nature of the infraction as soon as possible but no more than two days following the incident. The Dean or Director shall resolve the matter in a timely fashion utilizing the steps outlined below.

Responsibility for Implementation

The program area dean is responsible for implementing student discipline procedures.

Disciplinary Procedures

In order to provide an orderly procedure for handling student disciplinary cases in accordance with due process and justice, the following procedures will be followed:

1. **Charges:** Any administrative official, faculty/staff member, or student may file charges with the FTCC Security Office against any student or student organization for violations of College regulations. The individual(s) making the charge must complete a charge form stating:
 - a. name of the student(s) involved,
 - b. the alleged violation of the specific Code of Conduct,
 - c. the time, place, and date of the incident,
 - d. names of person(s) directly involved or witnesses to the infractions,
 - e. any action taken that relates to the matter, and
 - f. desired solution(s).

The completed charge form should be forwarded directly to the Dean or Director.

2. **Investigation and Decision:** Within five (5) working days after the charge is filed, Security shall complete a preliminary investigation of the charge and the program Area Dean shall schedule a meeting with the student. After discussing the alleged infraction with the student, the dean may act as follows:
 - a. drop the charges,
 - b. impose a sanction consistent with those shown below, and/or
 - c. refer the student to a College office or community agency for services.

3. **Notification:** The decision of the Dean/Director shall be presented to the student in writing or mailed within five (5) working days. In instances where the student cannot be reached to schedule an appointment with the Dean/Director or where the student refuses to

cooperate, the dean shall send a certified letter to the student's last known address providing the student with a list of charges, the Dean's/Director's decision, and instructions governing the appeal process.

Sanctions

1. **Reprimand:** A written communication which gives official notice to the student that any subsequent offense against the Student Code of Conduct will carry heavier penalties because of this prior infraction.
2. **General Probation:** An individual may be placed on General Probation when involved in a minor disciplinary offense. General Probation has two (2) important implications: the individual is given a chance to show capability and willingness to observe the *Student Code of Conduct* without further penalty; secondly, if the individual errs again, further action will be taken. This probation will be in effect for no more than two (2) terms.
3. **Restrictive Probation:** Restrictive Probation results in loss of good standing and becomes a matter of record. Restrictive conditions may limit activity in the college community. Generally, the individual will not be eligible for initiation into any local or national organization and may not receive any college award or other honorary recognition. The individual may not occupy a position of leadership with any college or student organization or activity. This probation will be in effect for not less than two (2) terms. Any violation of Restrictive Probation may result in immediate **SUSPENSION**.
4. **Restitution:** Paying for damaging, misusing, destroying or losing property belonging to the College, College personnel, or students.
5. **Interim Suspension:** Exclusion from class and/or other privileges or activities as set forth in the notice, until a final decision has been made concerning the alleged violation.
6. **Loss of Academic Credit or Grade:** Imposed as a result of academic dishonesty.
7. **Withholding grade reports, diploma, or right to register or participate in graduation ceremonies:** Imposed when financial obligations are not met.
8. **Suspension:** Exclusion from class(es), and/or all other privileges or activities of the college for a specified period of time. This sanction is reserved for those offenses warranting discipline more severe than probation or for repeated misconduct. Students who receive this sanction must get specific written permission from the dean before returning to campus.
9. **Expulsion:** Dismissing a student from campus for an indefinite period losing student status. The student may be readmitted to the College only with the approval of the Vice President for Academic Affairs.

10. **Group Probation:** This is given to a College club or other organized group for a specified period of time. If group violations are repeated during the term of the sentence, the charter may be revoked or activities restricted.
11. **Group Restriction:** Removing College recognition during the term in which the offense occurred or for a longer period (usually not more than one other term). While under restriction, the group may not seek or add members, hold or sponsor events in the College community, or engage in other activities as specified.
12. **Group Charter Revocation:** Removal of College recognition for a group, club, society, or other organizations for a minimum of two years. Recharter after that time must be approved by the President.

APPEALS AND DUE PROCESS

Students subject to administrative decisions affecting their right to attend classes are entitled to due process. Due process includes, but is not limited to the following considerations:

1. The student must be informed of any charges made against him or her that may result in administrative action.
2. The student must be advised in writing of the administrative action taken.
3. The student will be advised of corrective action required.
4. The student is entitled to an appeal as herein provided. The appeals process described in the subsequent paragraphs must be followed.
5. The student is entitled to appear and present testimony at any committee meeting scheduled to hear an appeal from said student.

Admissions Decisions

Initial decisions to approve a student or potential student to enter a program or a student re-entering a program are made by the counselor conducting the admissions interview. Appeals of admissions decisions are referred to the Director of Admissions. Decisions of the Director of Admissions may be appealed to the Associate Vice President for Student Services in writing no later than ten (10) college days after the date of the Director of Admissions' letter. The Associate Vice President for Student Services will confer with the department chairperson and respond to the student within five (5) working days. Decisions of the Associate Vice President for Student Services are final.

Attendance Problems

Students with excessive absences are dropped by the instructor according to guidelines published in the Student

Handbook. They should be referred to the curriculum program counselor.

1. Appeals of attendance decisions should be made first to the department chairperson and then to the program area dean. Further appeals of administrative withdrawal from class for attendance will be made in writing no later than five (5) college days to the FTCC Student Appeals Committee through the Director of Counseling.
2. The decisions of the FTCC Student Appeals Committee are referred to the Associate Vice President for Student Services as recommendations. The Associate Vice President for Student Services will review the case, consider the recommendation, reach a decision, and notify the student involved of the resulting decision as soon as possible, but no later than three (3) College days from the receipt of the recommendation of the Student Appeals Committee.
3. If the student wishes to appeal the decision of the Associate Vice President for Student Services, the appeal must be in writing and addressed to the Vice President for Academic and Student Services. Thereafter, the route of appeal is to the President and then to the Board of Trustees. Decisions of the Board of Trustees are final.
4. Students placed on suspension for attendance problems may be allowed to continue attending class until the appeal has been resolved.

Grades

Grading is the prerogative of the faculty member. Appeals concerning grades must be directed to that faculty member. Failing to reach a satisfactory solution, the student may appeal in accordance with the outline below. The appeal of a grade must be initiated prior to the end of the next regular term.

1. The student shall present the appeal to the chairperson of the department within which the protested grade was awarded. The chairperson shall, by conferring with the student and the faculty member, seek resolution by mutual agreement.
2. Failing to reach a resolution, the department chairperson will transmit the appeal to the appropriate program area dean or director who may convene the Academic Review Committee.
3. The Academic Review Committee will consist of the convening dean or director and four faculty members appointed by the dean. If the committee affirms the faculty member's decision, the dean or director will notify in writing the faculty member, the student, and the department chairperson. If the committee supports the student's appeal, it shall prescribe the method by which the student will be re-evaluated. The resulting grade must be submitted within college guidelines and may not be further appealed.

4. A grade appeal that is presented after the term immediately following the term in which the grade was earned must be presented in writing to the Associate Vice President for Curriculum Programs. The Vice President for Academic and Student Services must approve a recommendation for a grade change at this point. No grade change will be made without approval of the faculty member.
5. Grades may not be appealed after one calendar year from the time the final course grade was recorded on the official class roster, unless extenuating circumstances justify the change.

Academic Probation and Suspension

Students who fail to meet requirements of academic progress will be placed on academic probation or academic suspension. The AVP for Student Services will refer these students to their academic advisor or counselor. The College will assist the student in identifying the probable causes of academic difficulty and will attempt to recommend strategies for change.

Any consideration of academic standing or reinstatement must be approved by the appropriate department chairperson and would require assurances that the reasons for academic difficulties have been removed.

Appeals of decisions of the department chairperson may be made to the appropriate program area dean. All appeals must be in writing and received no later than five days from the time of notification of the department chairperson's decision. Students placed on academic suspension may be allowed to continue attending class until the appeal has been resolved. The decision of the dean in matters of academic and academic suspension is final and not subject to further appeal. This process must be completed prior to the end of drop/add.

Disciplinary Sanction

The program area dean or director investigates charges of misconduct and determines the action to be taken. The decision of the dean or director is presented to the student in writing within five (5) College days after the charge is filed. If the student is notified that a disciplinary sanction will be imposed, he or she may appeal the decision.

1. If the student wishes to appeal the dean's or director's decision, he or she must submit the appeal in writing within five (5) College days to the Associate Vice President for Curriculum Programs or the Associate Vice President for Continuing Education. The Associate Vice President will render a decision and will notify the student of the decision in writing within five (5) College days of the receipt of the appeal.
2. Further appeals of disciplinary sanctions may be made to the FTCC Student Appeals Committee through the Director of Counseling, provided that they are made in writing within five (5) college days or receipt of the Associate Vice President's decision.

3. The decisions of the FTCC Student Appeals Committee are referred to the Associate Vice President for Student Services as recommendations. The Associate Vice President for Student Services will review the case, consider the recommendation, reach a decision, and notify the student involved of the resulting decision as soon as possible, but no later than three (3) College days from the receipt of the recommendation of the Student Appeals Committee.
4. If the student wishes to appeal the decision of the Associate Vice President for Student Services, the appeal must be in writing and addressed to the Vice President for Academic and Student Services. Thereafter, the route of appeal is to the President and then to the Board of Trustees. Decisions of the Board of Trustees are final.

Financial Obligations

Initial telephone contacts and certified letters of advisement from the Business Office at FTCC regarding delinquent loans and returned checks are mailed to the student. Unpaid indebtedness to the College will result in suspension from the class(es). Student will not be allowed to register for the next term until the debt is cleared with the Business Office.

For returned checks, students are given 15 days from the date of the certified letter to clear the debt before legal action is taken by FTCC. If after 15 days the debt is not cleared, a warrant is issued by the Cumberland County Magistrates' Office. After this time, the student must make payment of the returned check plus court costs to the Clerk of Superior Court.

For student loans, the promissory note states that payment in full becomes due immediately upon default of any installment or termination of at least half-time study. If payment is not made, the student's account is submitted to the Attorney General's Office for collection. Upon notification of disposition by the Attorney General, the student's unpaid account is submitted to an outside collection agency.

Monthly, any unpaid student accounts are submitted to the North Carolina Department of Revenue under the Set-Off Debt Collection Act. This entitles FTCC to claim a part or all of the student's income tax refund to apply against the debt.

Financial indebtedness to FTCC can only be appealed through the Business Office until the matter is submitted to local and state legal authorities.

Dismissal

Fayetteville Technical Community College reserves the right to dismiss any student when it believes such action is in the best interest of the College, the students, the faculty, the staff, or the student him/herself. In all cases, the right of due process is the student's prerogative.

STUDENT GRIEVANCE POLICY AND PROCEDURE

Fayetteville Technical community College encourages the prompt and fair settlement of grievances. A student may present a grievance without fear of coercion, restraint, interference, penalty, or reprisal.

The purpose of the student grievance policy and procedure is to provide a system to resolve student complaints against faculty, staff, or other students concerning alleged discrimination on the basis of age, sex, race, disability, or other conditions.

Academic Appeals

Appeal of admissions decisions, individual grades, academic probation and/or suspensions, attendance problems, disciplinary sanctions, and dismissal shall not be considered under this policy, unless illegal discrimination is alleged. Such appeals shall be considered according to the guidelines set forth in the Appeals and Due Process section of this catalog.

Sexual Harassment Complaints

Sexual harassment complaints shall be directed to the Associate Vice President for Student Services, unless the alleged harasser is the Associate Vice President. In that case, the complaint shall be directed to the Vice President for Academic and Student Services or to the President. Upon receiving the complaint, the Associate Vice President for Student Services shall refer the sexual harassment complaint to the Vice President for Human Resources, who will investigate the complaint following the procedures outlined in the College's Sexual Harassment Policy and Procedures.

If the student is not satisfied with the outcome of the investigation, he or she may, within ten (10) working days, file the grievance in writing with the President. The chain of appeal goes then from the President to the Board of Trustees. Decisions of the Board of Trustees are final.

Grievance Procedure

This procedure applies to all students of FTCC.

Step 1:

The student is encouraged to go to the instructor or staff member where the alleged problem originated. An attempt will be made to resolve the matter equitably and informally at this level. The conference must take place within five (5) working days of the incident which generated the complaint.

Step 2:

If the grievance is not resolved, the student may file a written grievance. The student must present the written grievance to the appropriate Associate Vice President

within thirty (30) days of the incident giving rise to the grievance. The student and the Associate Vice President will meet within three (3) working days following the presentation of the grievance to discuss the grievance fully, and to attempt informal resolution. The Associate Vice President will investigate the grievance and will ask the employee against whom the grievance was filed to respond in writing to the allegation. The Associate Vice President will provide a written decision on the grievance not later than ten (10) working days following this meeting.

Step 3:

If the student is not satisfied with the decision, he or she may, within five (5) working days, file the grievance in writing with the Vice President for Academic and Student Services. The Vice President for Academic and Student

Services will notify the President. Depending on the nature of the allegation, the Vice President for Human Resources may be asked to investigate. After reviewing the facts of the case, the Vice President for Academic and Student Services and/or the Vice President for Human Resources will make a recommendation to the President. The student will receive written notification within ten (10) working days of filing the complaint with the Vice President.

Further Appeal Procedure for Grievances

If the student is not satisfied with the decision, he or she may, within ten (10) working days, file the grievance in writing with the President. The chain of appeal goes then from the President to the Board of Trustees. Decisions of the Board of Trustees are final.

STUDENT RECORDS

The Registrar is responsible for student records. All students are provided rights under the Family Education Rights and Privacy Act (FERPA).

1. After submitting a written request and within two working days, a student may receive an unofficial copy of his or her transcript. Requests received during the registration period will require 5-10 working days upon submitting a written request, official transcripts will be forwarded to other colleges, universities and agencies. No fee will be charged for records provided and/or forwarded to another institution or agency.
2. State of Rights - Operating under the premise that the educational process is a cooperative venture between the student and FTCC, this policy emphasizes the following rights of students:
 - a. to inspect and review their educational records
 - b. to exercise limited control over other people's access to their educational records
 - c. to seek to correct their educational records in a hearing if necessary
 - d. to report violations of FERPA to the Family Education Rights and Privacy Act Office - Department of Education
 - e. to be informed about their FERPA rights
3. FTCC designates the following personally identifiable information contained in student records as Directory Information:
 - name
 - curriculum
 - enrollment status
 - dates of enrollment
 - degree received
 - mailing address
 - e-mail address(es)
4. Students may petition the Registrar to amend or correct any part of the educational record which the student believes is inaccurate, misleading, or in violation of student rights. This includes the right to a hearing to present evidence that the record should be changed if FTCC decides not to alter it according to the student's requests.
5. Students may file a complaint with the FERPA Office, Department of Education, 330 Independence Avenue, SW, Washington, DC 20201, if FTCC violates the FERPA or this policy.
6. Students may obtain copies of the FERPA by making a request to the U. S. Department of Education, 400 Maryland Avenue, SW, Washington, DC 20202-4605, or by accessing the following websites: www.soconline.org/publicpolicy/laws/ferpa.html; cfco.ed.gov/fedreg.htm; www.ed.gov/news.html; or www.accessreports.com/statutes/FERPA.htm.
7. FTCC reserves the right to deny transcripts or copies of records not required by FERPA in any of the following situations:
 - a. The student has any unpaid financial or other obligations to the College, including, without limitation, unresolved parking violations, overdue books, or unpaid library fines.
 - b. There is unresolved disciplinary action against the student or unresolved litigation between the student and FTCC.

Note: When a student has a name change, the student is responsible for contacting the Registrar's Office in person, with the necessary documentation, to revise the information (i.e., a social security card). Out-of-town and/or distance learning students may fax or send a copy of the document to the Registrar's Office.

STUDENT RIGHTS & PRIVACY ACT – INFORMATION STATEMENT

Release of Student Information

Fayetteville Technical Community College is committed to the concern for and protection of students' rights and privacy of information. The College complies with the provisions of the Federal Family Rights and Privacy Act (FERPA), which is a federal law that governs the maintenance of students' records. Under the law, students have the right to inspect their educational records, correct inaccuracies in the records if warranted, and are protected from release of information without written consent. All student records are open for inspection and review by the student unless he or she waives this right. The parent(s) of a dependent student as defined in Title 26 U.S. C. s152 of the Internal Revenue Code also has this right to inspect records that are maintained by the College on behalf of the student.

There are three distinct categories of records: (1) Directory Information Records, (2) Limited Access Records, and (3) Sole Possession Records.

- (1) Fayetteville Technical Community College classifies the following as directory information: name and enrollment status, including curriculum and dates of enrollment. The student's mailing address, e-mail address, telephone number and location on campus may also be released if the request is legitimate and a need for emergency access exists as determined by the Registrar or staff. School officials may release this information to any person without the consent of the student or the parent(s) of a dependent student. Any student who objects to the release of any or all of this information without his/her consent must notify the Registrar in writing by a date which is five (5) school days from the date that the student receives his/her Student Handbook. The objection must state what information the student or parent(s) of a dependent child does not want to be classified as directory information. If no objection is received by the aforesaid date, the information will be classified as directory information until the beginning of the next school year.
- (2) Limited Access Records pertain to the permanent academic records of the student, disciplinary records, financial information and testing data. This category also covers all records maintained officially by the institution which do not come under the categories of Directory Information, or sole Possession Records. The College will not release information in Limited Access Records without written permission of the student or parent of a dependent student, except to any other educational personnel.
- (3) Sole Possession Records pertain to records of instructional, supervisory, and administrative personnel which are in the sole possession of the maker and are not accessible or revealed to any other person except the substitute of such persons.

The educational process is a cooperative venture between the student and FTCC. This policy emphasizes the following rights of students: (a) to inspect and review their educational records; (b) to exercise limited control over other people's access to their educational records; (c) to seek to correct their educational records in a hearing if necessary; (d) to report violations of FERPA to the Family Education Rights and Privacy Act Office – Department of Education; and (e) to be informed about their FERPA rights.

Additional details concerning the release of student information, including exceptions, challenges to the content of records and related matters, may be obtained by consulting with the Associate Vice President for Student Services, Registrar, or designee.

Complaints about failures of Fayetteville Technical Community College to comply with the Family Educational Rights and Privacy Act may be made in writing to the FERPA Office, Department of Health, Education, and Welfare, 330 Independence Avenue, S.W., Washington, D.C. 20201. Students may obtain copies of the FERPA by making a request to the U. S. Department of Education, 400 Maryland Avenue, SW, Washington, DC 20202-4605, or by accessing the following websites:

www.socon-line.org/publicpolicy/laws/ferpa.html;

cfco.ed.gov/fedreg.htm;

www.ed.gov/news.html; or

www.accessreports.com/statutes/FERPA.htm.

LEARNING TECHNOLOGIES

The Learning Technologies Division is composed of the following staff and departments that provide support to all areas of the College:

- Administrative Services and Support
- Distance Learning
- FTCC Webmaster
- Success Center
- Library
- Media Services

ADMINISTRATIVE SERVICES AND SUPPORT

The Associate Vice President for Learning Technologies and his staff provide administrative and technical support services to the other divisions of the College, as well as to their departmental staff and faculty. While not limited to any one type of support, the majority of support rendered is in the following areas:

DISTANCE LEARNING

Learning Technologies staff maintain expertise in and provide day-to-day support to Curriculum and Continuing Education staff and faculty for the actual delivery of all distance learning (especially online learning). Staff also support distance learning-related activities such as registration, technical support to faculty and students, and professional development training.

Distance Learning at FTCC is available in a number of delivery methods. These include courses offered via the Internet, videocassette, television, videoconference, and courses that combine several methods of instruction. The College currently has twelve associate degrees and one certificate that can be earned via distance learning at FTCC.

eArmyU is a program offered by the US Army for soldiers stationed at selected bases. Participants in this program must be approved by the Army and be processed through the Army Education Center prior to being admitted. FTCC is one of the colleges providing education through this distance learning initiative. Additional information is available at <http://earmyu.com>.

FTCC WEBMASTER

The maintenance of the FTCC Homepage is the responsibility of the College's Webmaster. It is kept up to date through collaborative efforts between the Webmaster and individual staff members in other departments who are charged with providing current information about specific programs and services.

These three departments within the Learning Technologies Division provide direct support to students, as well as to faculty and staff:

- Success Center
- Library
- Media Services

SUCCESS CENTER

The Success Center at Fayetteville Technical Community College is primarily designed to provide enhanced educational opportunities to students enrolled in any of the College's college credit (Curriculum) or developmental studies courses.

Success Center instructors provide *individualized, supplemental instruction* to students in a wide range of subjects, including English, mathematics, science, and business-related courses such as accounting. Instructors also guide students in the use of the many resources available in the Center, including Small Group Instruction Rooms, course-specific computer software, audiovisual aids, and printed materials such as instructor-developed "hand-outs." These hand-outs are continually reviewed and revised to supplement current classroom instruction.

The Success Center is available free-of-charge to any student enrolled in any Curriculum (college credit) course at FTCC. The student must bring a current, valid FTCC Curriculum Student ID Card to enroll and to use the Center's resources. Individuals may also enroll in the Success Center as Continuing Education (non-college credit) students if they wish to:

- Study for and earn Teacher Renewal Credit/Continuing Education Units (CEUs) by enrolling in one of the 20+ Teacher Renewal Courses currently offered in the Center.
- Study to build their college-entrance and work-related skills by enrolling in the Center's College/Job Ready Course.

(The Teacher Renewal and College/Job Ready courses are fee-based Continuing Education courses. Potential students may contact either the Success Center or the Community Services/Extension Education Office at 678-8431 for more information.)

Success Center instructors are available to answer questions and keep students on track with the materials and methods selected to assist and instruct them.

Assistance may include:

- the use of a CD, videotape, and/or an audiotape
- the use of a worksheet ("handout"), a textbook, and/or other printed materials
- the use of a computer program and/or Internet resources
- a Success Center instructor providing one-on-one or small group instructional assistance

- a combination of the above
(*Continuing Education students enrolled in a Basic Skills course [e.g., Adult Basic Education, Adult High School Diploma, General Educational Development/GED, English as a Second Language, Compensatory Education, or Human Resources Development], should visit the Basic Skills Resource Center or the Workforce Preparedness Center, both of which are located in the Continuing Education Center on our main campus.*)

The Success Center is open from 8:00 am to 9:00 pm Monday thru Thursday, and from 8:00 am until 5:00 pm on Friday (closing at 1:00 pm on Fridays during the Summer).

The Success Center is located on the second floor of the Harry F. Shaw Virtual College Center, Room 232.

LIBRARY

The Paul H. Thompson Library is located in the Library Building, directly across from the Tony Rand Student Center. It provides students with excellent facilities for study, research, browsing, self-improvement, and enjoyment. The collection is so varied that one can find material on the future of nanotechnology or the steps involved in building a birdhouse.

The Library staff supports the entire curriculum at FTCC. The collection includes over 60,000 volumes of books, 350 magazine subscriptions, and nine different electronic indexes. These databases contain literally thousands of magazine and newspaper articles. These databases serve a dual function. Students can locate articles on a subject and also locate the full text of that article. Some indexes specialize in scientific, legal, and business topics while others cover many subjects. All of the indexes are available on campus computers while five can be accessed from off campus. Passwords for the off-campus databases can easily be obtained by visiting, calling, or e-mailing the library.

Many of the specialized services that are available from the library can be accessed through the Library Home Page (www.faytechcc.edu/library). Here one can find the "Ask a Librarian" link for brief reference questions. The Library's homepage also has a link to NCKnows. Using this site, students have access to reference librarians 24/7. A Virtual Reference Link, enables patrons to use a large collection of online reference materials like dictionaries, thesauruses, and atlases. Links to the electronic databases are found on the Library Home Page. The Automated Catalog is accessible from the homepage. This catalog (CCLINC) is the guide to the Library's collection of books and the audiovisual materials available on the FTCC campus. CCLINC is a window to 43 other North Carolina Community Colleges. In addition to viewing other library collections, one can also place a hold to borrow books from other community colleges. The book(s) arrive in about a week and can be picked up at the Circulation desk. To accomplish this Interlibrary Loan, a patron needs to have a library barcode affixed to his or her FTCC ID card.

Upstairs, a lab with twenty scholar's computer workstations is available to students. A smaller lab with six computers is in the downstairs Reference Room. Each of the workstations can search the Internet, send e-mail, use the electronic databases, access Blackboard, and word process. These computers are networked to a free laser printer.

Patrons can find non-electronic services in the Library. Two coin-operated photocopy machines, typewriters for completing applications, and two coin-operated fiche-film reader/printers are available. Patrons can also have color and black and white transparencies made. Notary services are available to students at no charge between the hours of 8:00 am to 6:00 pm during the week.

Books are loaned for two weeks with a nine-day grace period before fines are charged. Most pamphlets are loaned for three days and some of the videos circulate. Fines and replacement costs are assessed for all delinquent and lost materials.

Staff members are available to help patrons find the information they seek. The Paul H. Thompson Library is open from 7:45 am to 9:00 pm Monday thru Thursday, and until 7:00 pm on Friday. The Library is also open from 10:00 am to 1:00 pm on the last seven Saturdays of each semester.

MEDIA SERVICES

The Media Services Group within the Learning Technologies Division provides full-service video, audio, photographic, and web design services for faculty, staff and administrators at FTCC. The Media Services organization utilizes the latest in digital video, audio, and photographic technology hardware and software to provide the highest quality production services available anywhere.

Some of the services available include scripting, shooting, and editing video for CD and DVD development and distribution, and photographic services for web page development and for the marketing of FTCC programs.

In addition to production services, the Media Services Group also provides audio/visual (A/V) support for traditional classroom, face-to-face instruction. Support for video conferencing, and two-way interactive video classes and meeting sessions in support of FTCC's Distance Learning initiative. Support for face-to-face instruction includes overhead projectors, VCR/Television systems, and videotape collection checkout, as well as large display of video and computer images. The Media Services Operations Section also provides all training and support for video projection and large screen computer displays including delivery of multimedia computer systems on large A/V carts.

Web page design is the newest service available through the FTCC Media Services Group. This service includes all aspects of the design including Flash animations, graphics, photos, and even posting.

The Media Services Group is located on the first floor of the Harry F. Shaw Virtual College Center. The Check Out Inventory Desk, located in Room 123, is open from 8:00 am until 5:00 pm, Monday through Friday.

CONTINUING EDUCATION

GENERAL

The Continuing Education Division is responsible for non-curriculum, non-credit educational programs for adults 18 years of age or older. Due to ongoing changes in technology, career and job requirements, as well as revised life styles, needs are being created for continuing education in most occupational and avocational areas. The Continuing Education Division is responsible for responding to these needs by providing services to individuals, organizations, businesses, and industries within the Fayetteville-Cumberland County area. Requests for continuing education programs range from courses in basic reading and writing to advanced courses in technical fields. These courses are made available whenever there is a sufficient number of students interested in the same subject area and a qualified instructor is available. Adults may also attend continuing education courses to improve vocational, avocational, and practical skills.

6. To provide for the educational needs of the military and family members at Ft. Bragg and Pope Air Force Base, and to expand in-service staff development programs for civil service employees.
7. To provide training for local law enforcement agencies, fire departments, rescue services, and to offer lifesaving programs such as CPR and first aid to all citizens in Cumberland County.
8. To provide educational services to special populations in the Cumberland County area where opportunities beyond the traditional school setting are required (e.g., ABE and GED Correspondence).
9. To conduct instructor training programs for instructors of Continuing Education.
10. To continue to be the educational organization recognized by the community as receptive to special interest programs.

DIRECTORY OF SERVICES

Areas

Continuing Education is divided into the following areas:

- Basic Skills Education
- Occupational Extension Education
- Industry Services
- Fire/Rescue Training
- Law Enforcement Training
- Community Services and Extension Education
- Business Services
- Small Business Center

Purposes

1. To provide educational opportunities for interested adults.
2. To provide an innovative Basic Skills Program (ABE, GED, ESL, AHS, and CED) in locations easily accessible to interested adults throughout Cumberland County.
3. To provide a community-wide program of adult education which includes instruction to prepare adults for better job opportunities, promotion in present employment, civic and community leadership, and family living.
4. To provide a centralized assessment and retention program for Basic Skills Education.
5. To offer special training programs for new and expanding industry in the county, which provide a labor force possessing necessary skills to make the industry immediately productive.

BASIC SKILLS EDUCATION

The Basic Skills Program includes the areas of Adult Basic Education (ABE), Adult High School Diploma (AHS), Compensatory Education (CED), English as a Second Language (ESL), General Educational Development (GED), Human Resources Development (HRD), Workforce Preparedness Center, and Basic Skills Student Services.

Adult Basic Skills Program

The Adult Basic Education Program at FTCC is the cornerstone upon which the overall Basic Skills Program is built. ABE is a dynamic outreach program specifically targeting non-readers and other undereducated adults. A variety of traditional and non-traditional, innovative curricula have been implemented to upgrade the academic skills of this population. Special programs often offered through formal partnerships with other agencies have promoted program accessibility.

Adult High School Diploma Program (AHS)

The Adult High School Diploma is a course of studies in 14 core and 7 elective subjects. This program is designed to give eligible adults in Cumberland County an opportunity to earn a high school diploma. A student must be 18 years of age or older to enter the program. A student less than 18 years of age must be screened through Basic Skills Student Services to determine eligibility.

Each of the subjects offers a concentrated study of a minimum of sixty-five (65) hours. Following assessment and evaluation of student academic transcripts, students are informed as to the number of courses needed to complete requirements

for their adult high school diploma. These requirements include each student passing the N. C. Competency Test. These requirements must be met, regardless of any program interruptions (class cancellations, etc.). The diploma is issued by Fayetteville Technical Community College in cooperation with the Cumberland County Board of Education.

Each course is taught by a qualified instructor who possesses at least a four-year degree. The instructor uses modern classroom techniques, which include current textbooks, audiovisual aids, community resources, computer-assisted learning and a variety of other teaching methods.

ABE & GED Correspondence

ABE & GED Correspondence provides an additional opportunity for adults who are unable to attend regular classes. Completion of each lesson helps prepare the participant for further educational opportunities that may include successful completion of the official GED test.

Basic Skills Online

Provides an additional opportunity for adults who are unable to attend regular classes. The curriculum is available on-line using SkillsTutor.com so students can improve their core academic skills and/or prepare for the GED tests using the Internet. Lessons are available in reading, writing, math, language arts, algebra and science. Individualized instruction, diagnostic testing, prescription assignments and automatic reporting are incorporated.

Basic Skills Resource Center

The Basic Skills Resource Center offers individualized instruction and study opportunities, including employment readiness and advancement training, in all areas of Basic Skills Education. Computer-assisted instruction, along with a variety of other materials, allows students to learn at their own pace and enables them to reach their goals.

Compensatory Education (CED)

Compensatory Education is designed to provide remedial academics to adults who have been diagnosed as being a delayed learner and who can provide documentation of mental retardation. The program includes task-analyzed lessons in language arts, math, social sciences, consumer education, health and community living skills.

English as a Second Language

English as a Second Language classes are designed for adults who are not native English speakers. Instruction in reading, writing, speaking, and listening is tailored to meet individual needs. Three distinct levels are offered, Beginning, Intermediate and Advance, to help students acquire functional English competence.

Family Literacy Program (FLP)

Family Literacy is designed to break the discouraging cycle of under education, poverty and dependence of parents whose educational level is below that of a high school graduate. The goal of Family Literacy is to provide, in one location, a positive educational setting that will allow a parent the chance to enhance his/her skill level or to earn a GED Diploma while providing their young children with constructive preschool or elementary school activities.

General Education Development (GED)

General Education Development courses are designed for adults who have not received a high school diploma. Courses prepare students for the five official GED tests: language arts, writing, social studies, science, reading and mathematics. The GED diploma certifies that the graduate has achieved a level of general education development equivalent to that of high school diploma recipients.

Human Resources Development (HRD)

Human Resources Development provides short-term pre-vocational training and counseling to help unemployed and underemployed adults successfully enter the work force or further training. The curriculum focuses on training that helps students learn how to find and keep a job. This includes teaching students how to assess their assets and limitations, develop their problem-solving and communication skills, develop a positive self-image, improve academic skills, and understand the dynamics of interpersonal relationships.

Workforce Program

Workforce Basic Skills classes are the result of partnerships between FTCC, and local businesses and industries, and the Workforce Development Board in Cumberland County. Basic Skills, as well as specific job related employability skills, are taught to employees on the job site or an FTCC site. Whether working toward a high school equivalency diploma or improvement in specific work skills, the result of the program is a more capable, confident, and efficient employee. The focus of this program is to improve skills that will lead to enhanced competitiveness for business and industry.

Workforce Preparedness Center

The Workforce Preparedness Center, located in the Center for Continuing Education, is designated to serve adults who plan to re-enter the workforce, who want to prepare for and pass employment tests, or who want to improve their basic work skills. Students may work to improve their reading, business writing, mathematics, problem solving, and critical thinking skills, as well as learn to work as part of a team.

OCCUPATIONAL EXTENSION EDUCATION

Extension Education offers a wide variety of courses in business, computer education, general contractor's license preparation, vocational shop, and general interest programs (including such courses as bartending, travel agent, and effective teaching training). These courses are intended to provide training to upgrade a person's skills or qualifications, and assist in preparing an individual for a new career.

Fayetteville Technical Community College, in cooperation with the Cumberland County schools, utilizes the facilities at a number of local public school campuses to make these courses more accessible to the residents of the greater Fayetteville area.

A variety of occupational courses are offered at Ft. Bragg for the purpose of enhancing/updating individual skills. Additionally, the courses provide family members an opportunity to acquire new skills, hence making themselves marketable to the local economy and increasing the North Carolina tax base.

INDUSTRY SERVICES

The Industry Services area of Continuing Education, located in the Center for Business and Industry, helps industries by customizing educational programs and training courses for employees. The staff is available to assess, design, and implement appropriate courses to meet the needs of industry in the following:

In-Plant Training Skills Program

In-Plant courses provide employers an option to the traditional classroom setting by providing skills training to individuals at their assigned workstation in the manufacturing facility. The In-Plant Training Program is designed to develop entry-level skills for new employees or to retrain current employees whose jobs have changed due to new equipment, processes, or products.

New and Expanding Industry Program

The New and Expanding Industry Program provides customized training support to new or existing industries that are creating new jobs in Cumberland County. This program is designed to reduce the costs of training newly hired employees in a manufacturing plant.

Seminars

FTCC can arrange for guest lecturers and consultants to address the latest topics in business and industry, such as ISO 9000, TQM, OSHA updates and training, or Contracting with the Federal Government.

EMERGENCY AND PROTECTIVE SERVICES

EMERGENCY AND PROTECTIVE SERVICES TRAINING

Emergency and Protective Services Training consists of education in the areas of Law Enforcement, Emergency Medical, Emergency Rescue Technician and Fire Service Training. Courses offered include Law Enforcement, Basic and Advanced Rescue Technician, Emergency Medical Technician, State and National Registry, Paramedic, Fire Fighter I & II Certification, Driver Operator Certification, Hazardous Material, Nursing Assistant, Cardiopulmonary Resuscitation, National Fire Academy courses and numerous other programs in the Law Enforcement, Fire, Rescue, and Emergency Medical areas. Courses are offered on campus, at local fire and police departments, rescue facilities, the airport training facility, churches, schools, businesses, industries, or other locations where there is community interest. A number of courses are open to the public while some are limited to in-service training. Although the state prescribed registration fee is required, exceptions are recognized for fire service, police, and life saving personnel. Descriptive course information follows.

Fire Service

The Fire Service courses prepare firefighters and potential firefighters with both entry-level skills and specific area skills in fire related subjects. The Firefighters Certification Program includes 26 classes that are required for certification as Firefighter I and II. These courses are taught individually or in a 12-week academy. Specialty areas for firefighters include Driver Operator, Emergency Vehicle Operator, Aerial Operator, Hazardous Materials, and many other related courses. National Fire Academy courses are also presented with FTCC certificates and National Fire Academy certificates. There are no expenses incurred for these courses as long as the student is affiliated with a fire department. A high school diploma or GED certificate is required for certification.

Emergency Rescue Technician

Emergency Rescue Technician certification classes are presented to fire departments, rescue squads, and ambulance services. Each level of certification contains several individual classes dealing with various areas of situational rescues. Areas of emphasis include vehicle extrication, raises and lowers, rappelling, confined space, trench, search management, and several other similar areas. There are no expenses incurred for these classes if the student is affiliated with a fire department, rescue squad, or other emergency service provider. A high school diploma or GED certificate is required for certification.

Airport Firefighting Training Facility

The Fayetteville Regional Airport Firefighters' Training Facility has been designed and built to provide state-of-the-art training for airport firefighters in accordance with the Federal Aviation Regulations Part 139, National Fire Protection Association Standard 1003, and the United States Air Force Regulation 92-1. The facility is operated by Fayetteville Technical Community College and the City of Fayetteville. The facility contains the most modern fire service training mockups in the country to date. All of the live-fire simulators utilize propane fuel, which provide airport managers and fire chiefs the opportunity to meet the requirements of FAR 139 pertaining to airport fire services. More programs will be added in the future. All live-fire simulations will utilize water during the attack.

Emergency Medical Technician – State and National Registry

This course provides training in the first phase of the EMT career structure. The student will be provided knowledge and training in skills to control bleeding, application of splints, prevention of shock, childbirth, and other basic life support techniques. This course will also include instruction on oxygen therapy, respiratory emergency, major trauma, and advanced CPR techniques. At the completion of this course, the student will be qualified to take the Office of EMS NC State EMT Basic Exam or National Registry Exam. The course requires the student to comply with FTCC's Immunization policy. There may be other expenses incurred during this course. Prerequisite for this course is a high school diploma or GED.

Nursing Assistant I & II

The Nursing Assistant I and II courses prepare graduates to provide personal care and perform basic nursing skills for the elderly and other adults. Emphasis is on the process of aging, including mental, social and physical needs of the elderly, patients' rights, nutrition management, disease/disorders, human body structure and functions, etc. The course includes class, laboratory, and clinical learning experiences. The Nursing Assistant I course requires the student to have a high school diploma or GED and comply with FTCC's immunization policy. There may be other expenses incurred during this course. The NA-II program requires a student to be a licensed NA-I.

Protective Services Training

The Protective Services Training office offers training programs designed to enhance the performance of certified law enforcement officers, law enforcement supervisors, law enforcement chief executive officers, detention officers, jail administrators, telecommunicators, and security officers by providing quality training courses. The office is committed to offering timely, relevant and professional training utilizing

the guidelines mandated by The North Carolina Criminal Justice Education and Training Standards Commission, The North Carolina Sheriff's Education and Training Standards Commission and the Private Protective Services Board of the North Carolina State Bureau of Investigation. "Professionalism through Education and Training" is the motto of The Protective Services Training office.

The objective of this office is to offer the most timely and effective training available. The office adds new course offerings in response to contemporary training demands. Federal, state and local departments are contacted by Protective Services Training staff members in order to ascertain current crime trends. The findings are incorporated into existing courses, which are continually updated and revised to present the most current legal and practical application training to the student.

All instructional staff utilized by the Protective Services Training office are certified trainers with many years of practical experience and are considered subject matter experts in their respective areas.

Courses are offered on the main campus of Fayetteville Technical Community College, law enforcement agencies, Ft. Bragg, Pope Air Force Base, and other selected locations within Cumberland County.

The Basic Law Enforcement Training Academy (BLET) allows the admission of students interested in pursuing a law enforcement career as a police officer or deputy sheriff in the State of North Carolina. An intensive application process precedes a student's acceptance into this course. The course is 648 hours in length and is offered in two formats, a full time academy (16 weeks) and a part time academy (9 months). At the conclusion of the course, the student must pass the North Carolina Law Enforcement Officer Certification Examination, administered by the North Carolina Education and Training Standards Commission, for successful course completion.

COMMUNITY SERVICE

Community Service programs are an integral part of Continuing Education. Classes such as art, home economics, foreign languages, test preparation for the SAT and GRE, and general interest are offered mornings, afternoons, and evenings. These serve approximately 4,000 students in more than 400 classes per year. Classes are conducted at various locations throughout Fayetteville, Spring Lake, Hope Mills, Stedman, and other areas. Classes are also coordinated with local community centers, senior citizens centers, and recreation centers. Likewise, businesses, churches, and schools as well as public facilities are utilized.

Courses are frequently designed to meet specific requests; therefore, this area is expected to change with the interests and needs of the community. Students are regularly surveyed for comments and suggestions.

Training sessions are co-sponsored with county volunteer agencies such as Rape Crisis Volunteers of Cumberland County and the Cumberland County Dispute Resolution Center. Courses are offered in seven senior citizens centers for the convenience of Cumberland County's senior citizens. These classes serve approximately 1,500 senior citizens during the year.

BUSINESS SERVICES

The Business Services area of FTCC Continuing Education, located in the Center for Business and Industry, helps businesses, governmental agencies, and medical organizations by customizing education programs and training courses for employees. The staff is available to assess, design, and implement appropriate courses to meet the needs of business in the following and in other areas.

Supervisory Skills

Improved supervisory skills can contribute in a significant manner to employee productivity. The Center's staff can assist business and industry in developing and evaluating training programs to meet staff members' needs ranging from general management skills, finance, and marketing to manufacturing management.

FTCC offers the American Management Association Certificate in Management program that provides 126 hours of supervisory and management training for businesses and professionals.

Communication

Good verbal and written communication in an organization is essential. The Center's staff has developed seminars ranging from proper telephone usage for the secretarial staff to effective business letter writing for managers.

Computer Training

Specialized classes can be designed to provide training on software programs such as Windows, Word, Excel, WordPerfect, Lotus, and other business oriented software.

Instructor Training

Workshops are available to assist personnel in becoming more proficient instructors, for example "Training the Trainer" and "Team Development."

License Support Training

Classes are designed for various professional groups, such as Real Estate, Insurance, Day Care, Funeral Service, and the National Executive Housekeeping Association to assist in maintaining existing licenses.

FTCC SMALL BUSINESS CENTER

The mission of the Fayetteville Technical Community College Small Business Center is to improve the success rate of small businesses throughout the service area.

Are you considering a new business venture? Expansion? Perhaps you just need help with an existing business plan. Have you developed a business plan? What about market research? Do you understand cash flow, break-even analysis, finance, record keeping and taxes? Is it necessary for you to use a CPA and/or an attorney? What form of business entity will best suit you? We are in the business of helping businesses succeed. Whether it is through additional training, one-on-one counseling or providing the contacts and information you need, we are here to assist you.

Our services include:

Specialized Business Seminars

Each term specialized seminars are offered which are designed to improve your management or technical skills from the basics of how to start your own business to the complexities of record keeping and taxes.

Resource Room

Literature and audiovisual materials are available for your use. Handouts from the Small Business Administration (SBA) are available for you. Come by and ask about our services.

Small Business Counselor

A part-time counselor is available to provide you with advice on starting a new business, operating your business or refer you to a number of local, state or federal agencies that can answer your questions.

R.E.A.L.

R.E.A.L. stands for "Rural Entrepreneurship through Action Learning." NC R.E.A.L. Enterprises, a nonprofit organization based in Durham, NC, works with selected community colleges across North Carolina to provide adults of all ages with the opportunity to become entrepreneurs. This unique program is now available at Fayetteville Technical Community College.

FTCC's R.E.A.L. program is designed to assist and empower a person with entrepreneurial interests and abilities to plan and start a business or trade. Prior business experience and/or courses are not required. If you would like to create a business from a talent, skill or idea you have, and you are willing to work to make it a reality, R.E.A.L. is for you!

ACCOUNTING**A25100**

The Accounting curriculum is designed to provide students with the knowledge and the skills necessary for employment and growth in the accounting profession. Using the "language of business," accountants assemble and analyze, process, and communicate essential information about financial operations.

In addition to course work in accounting principles, theories, and practice, students will study business law, finance, management, and economics. Related skills are developed through the study of communications, computer applications, financial analysis, critical thinking skills, and ethics.

Graduates should qualify for entry-level accounting positions in many types of organizations including accounting firms, small businesses, manufacturing firms, banks, hospitals, school systems, and governmental agencies. With work experience and additional education, an individual may advance in the accounting profession.

Awards

Associate Degree: Accounting (A25100)

Length of Program: 5 Semesters

Prerequisite: 2 units of Algebra

Diploma: Not Applicable

Certificate: Not Applicable

Cooperative Education Requirements/Opportunities:

Qualified students may take up to six (6) credit hours of Cooperative Education. Three (3) credit hours in lieu of other major courses and three (3) credit hours in lieu of a free elective upon approval of the Department Chairperson and Co-op Director.

License or Certification Information: None Required

A/C, HEATING AND REFRIGERATION TECHNOLOGY A35100

The Air Conditioning, Heating, and Refrigeration Technology curriculum provides the basic knowledge to develop skills necessary to work with residential and light commercial systems.

Topics include mechanical refrigeration, heating and cooling theory, electricity, controls and safety. The diploma program covers air conditioning, furnaces, heat pumps, tools and instruments. In addition, the AAS degree covers residential building codes, residential system sizing, and advanced comfort systems.

Diploma graduates should be able to assist in the start up, preventive maintenance, service, repair, and/or installation of residential and light commercial systems. AAS degree graduates should be able to demonstrate an understanding of system selection and balance and advanced systems.

NUR-189 Nursing Transition for LPN's - Approved for Advanced Placement.

Students with a felony conviction may have limited licensure and employment opportunities.

*It is recommended that students take COM231 instead of ENG115.

*ACA 115 is strongly recommended for students bridging into the ADN program.

ASSOCIATE IN ARTS**A10100**

The College Transfer program is designed for students who intend to transfer to a four-year college or university to pursue a baccalaureate degree. Students in this program are responsible for examining the requirements of the four-year college or university to which they plan to transfer for completion of their degree. Counselors and advisors are available to assist students in planning their program.

The course work in the program includes humanities/fine arts, social/behavioral sciences, mathematics, physical education, English, communications and the sciences. The Associate in Arts program concentrates heavily on the humanities and social sciences and is recommended for those who plan to continue in a Bachelor of Arts degree program. The Associate in Science program leans more toward mathematics and the physical and life sciences and is intended for those pursuing the Bachelor of Science degree.

Upon completion of the program, the student will receive an associate in arts degree.

Awards

Associate Degree: Associate in Arts (A10100)

Length of Program: 4 Semesters

Prerequisite: High School Diploma, Algebra I, Algebra II

Diploma: Not Applicable

Certificate: Not Applicable

Associate in Arts – Pre-Majors

Fayetteville Technical Community College has 15 pre-majors available in the area of Associate in Arts.

Pre-major in Business Administration (A1010B)

Pre-major in Business Education & Marketing Education (A1010C)

Pre-major in Criminal Justice (A1010D)

Pre-major in Elementary Education, Middle Grade, and Special Education (A1010P)

Pre-major in English (A1010E)

Pre-major in English Education (A1010F)

Pre-major in Health Education (A1010G)

Pre-major in History (A1010H)

Pre-major in Nursing (A1010I)

Pre-major in Physical Education (A1010J)

Pre-major in Political Science (A1010K)

Pre-major in Psychology (A1010L)

Pre-major in Social Science Secondary Education (A1010M)

Pre-major in Social Work (A1010Q)

Pre-major in Sociology (A1010N)

ASSOCIATE IN SCIENCE

A10400

The College Transfer program is designed for students who intend to transfer to a four-year college or university to pursue a baccalaureate degree. Students in this program are responsible for examining the requirements of the four-year college or university to which they plan to transfer for completion of their degree. Counselors and advisors are available to assist students in planning their program.

The course work in the program includes literature, humanities, mathematics, physical education, and the sciences. The Associate in Science program leans more toward mathematics and the physical and life sciences and is intended for those pursuing the Bachelor of Science degree. The Associate in Arts program concentrates heavily on the humanities and social sciences and is recommended for those who plan to continue in a Bachelor of Arts degree program.

Upon completion of the program, the student will receive an associate in science degree.

Awards

Associate Degree: Associate in Science (A10400)

Length of Program: 4 Semesters

Prerequisite: High School Diploma, Algebra I, Algebra II

Diploma: Not Applicable

Certificate: Not Applicable

Associate in Science – Pre-Majors

Fayetteville Technical Community College has 4 pre-majors available in the area of Associate in Science.

Pre-major in Biology and Biology Education (A1040A)

Pre-major in Chemistry and Chemistry Education (A1040B)

Pre-major in Mathematics (A1040E)

Pre-major in Mathematics Education (A1040F)

AUTOBODY REPAIR**D60100**

The Autobody Repair curriculum provides training in the use of equipment and materials of the autobody repair trade. The student studies the construction of the automobile body and techniques of autobody repairing, rebuilding, and refinishing.

The course work includes autobody fundamentals, industry overview, and safety. Students will perform hands-on repairs in the areas of non-structural and structural repairs, MIG welding, plastics and adhesives, refinishing, and other related areas.

Graduates of the curriculum should qualify for entry-level employment opportunities in the automotive body and refinishing industry. Graduates may find employment with franchised independent garages, or they may become self-employed.

Awards

Diploma: Auto Body Repair (D60100)

Length of Program: 3 semesters

Prerequisite: High School Diploma

Certificate: Basic Autobody Repair (C60100C1)

Length of Program: 2 Semesters

Prerequisite: High School Diploma

Cooperative Education Requirements/Opportunities:

Qualified students may elect to take up to three (3) credit hours of Cooperative Education in lieu of AUB-141 provided they acquire approval from the Department Chairperson and Co-op Director.

License or Certification Information: None Required**Program Information Contact:**

Curriculum Chairperson: Arthur Hall
 Telephone Number: (910) 678-8213
 Office Location: Autobody Shop, Room 101B
 Email: halla@faytechcc.edu
 Department Office: Autobody Shop, Room 101B
 Telephone: (910) 678-8213
 FTCC Web Site: www.faytechcc.edu

Application Deadlines:

The program is designed for a student to enter during the fall semester. A student may enter at other times with approval of the Department Chairperson.

Scholarship/Financial Aid Information:

Scholarships are available. Financial Aid Office, Student Center, Room 126; Telephone: (910) 678-8448

Child Care Financial Assistance Information:

See Child Care Associate, Student Center, Room 142; Telephone: (910) 678-8486/8387

Employment Statistics**Job Placement Rates:**

100% of 2004 graduates available for work were employed within four (4) months.

Average Salary of Graduates:

Graduates who graduated in 2004 earn an average salary of \$28,000 – 35,000.

ATTENTION: If you have missed a fall or spring semester, you must see a counselor to be readmitted into your program.

AUTOMOTIVE SYSTEMS TECHNOLOGY

A60160

The Automotive Systems Technology program prepares individuals for employment as automotive service technicians. It provides an introduction to automotive careers and increases student awareness of the challenge associated with this fast and ever-changing field.

Classroom and lab experiences integrate technical and academic course work. Emphasis is placed on theory, servicing and operation of brakes, electrical/electronic systems, engine performance, steering/suspension, automatic transmission/transaxles, engine repair, climate control, and manual drive trains.

After completion of this curriculum, students should be prepared to take the ASE exam and be ready for full-time employment in dealerships and repair shops in the automotive service industry.

Awards

Associate Degree: Automotive Systems Technology (A60160)

BASIC LAW ENFORCEMENT TRAINING C55120

Basic Law Enforcement Training (BLET) is designed to give students essential skills required for employment as a law enforcement officer with state, county, or municipal governments, or with private enterprise.

This program utilizes State commission-mandated topics and methods of instruction. General subjects include, but are not limited to, criminal, juvenile, civil, traffic, and alcoholic beverage laws, investigative, patrol, custody, and court procedures, emergency responses, ethics and community relations.

Successful graduates receive a curriculum certificate and are qualified to take the certification examinations mandated by the North Carolina Criminal Justice Education and Training Standards Commission.

BIOTECHNOLOGY**A20100**

The Biotechnology curriculum, which has emerged from molecular biology and chemical engineering, is designed to meet the increasing demands for skilled laboratory technicians in various fields of biological and chemical technology.

Course work emphasizes biology, chemistry, mathematics, and technical communications. The curriculum objectives are designed to prepare graduates to serve in three distinct capacities: research assistant to a biologist or chemist; laboratory technician/instrumentation technician; and quality control/quality assurance technician.

Graduates may find employment in various areas of industry and government, including research and development, manufacturing, sales, and customer service.

Awards

Associate Degree: Associate in Applied Science Biotechnology

BUILDING CONSTRUCTION TECHNOLOGY

A35140

The Building Construction Technology curriculum is designed to provide students with an overview of the building construction industry. Construction labs/lecture courses and other related classes, provide students with up-to-date knowledge on materials, trends, and techniques of the ever-changing construction industry.

Course work includes basic construction concepts such as general construction, blueprint reading, construction estimating, and project management. Students will also diversify their knowledge of construction in other areas like electrical wiring, construction surveying, plumbing, statics/strength of materials, and HVAC.

Graduates should qualify for entry-level jobs in any general construction setting and be able to advance quickly to management positions such as supervisors, superintendents, project coordinators, project planners, estimators, and inspectors.

BUSINESS ADMINISTRATION A25120

The Business Administration curriculum is designed to introduce students to the various aspects of the free enterprise system. Students will be provided with a fundamental knowledge of business functions, processes, and an understanding of business organizations in today's global economy.

Course work includes business concepts such as accounting, business law, economics, management, and marketing. Skills related to the application of these concepts are developed through the study of computer applications, communication, team building, and decision making.

Through these skills, students will have a sound business education base for lifelong learning. Graduates are prepared for employment opportunities in government agencies, financial institutions, and large to small businesses or industries.

Awards

**BUSINESS ADMINISTRATION/
OPERATIONS MANAGEMENT**
A2512G

Operations Management is a concentration under the curriculum title of Business Administration. This curriculum is designed to educate individuals in the technical and managerial aspects of operations for manufacturing and service industries.

Emphasized are analytical reasoning, problem solving, and continuous improvement concepts required in today's dynamic business and industry environments. Concepts include quality, productivity, organizational effectiveness, financial analysis, and the management of human, physical, and information resources.

Graduates should qualify for leadership positions or enhance their professional skills in supervision, team leadership, operations planning, quality assurance, manufacturing and service management, logistics/distribution, health and safety, human resources management, and inventory/materials management.

Awards
Associate Degree:

Business Administration/Operations Management (A2512G)

Length of Program: 5 Semesters

Prerequisite: High School Diploma

Diploma: Not Applicable

Certificate: Not Applicable

Cooperative Education Requirements/Opportunities:

Qualified students may take up to six (5) credit hours of Cooperative Education upon approval of the Department Chairperson and Co-op Director.

License or Certification Information: None Required

Program Information Contact:

Curriculum Coordinator: Carl Mitchell
 Telephone Number: (910) 678-8444
 Office Location: Cumberland Hall, Room 377D
 Email: mitchelc@faytechcc.edu
 Department Office: Cumberland Hall, Room 377
 Telephone: (910) 678-8292
 FTCC Web Site: www.faytechcc.edu

Application Deadlines:

The program is designed for a student to enter during the fall semester. A Student may enter at other times with approval of the Department Chairperson.

Scholarship/Financial Aid Information:

Scholarships are available. Financial Aid Office, Student Center, Room 126; Telephone: (910) 678-8448

Child Care Financial Assistance information:

See Child Care Associate, Student Center, Room 142; Telephone: (910) 678-8486/8387

Employment Statistics
Job Placement Rates:

100% of 2005 graduates available for work were employed within four (4) months.

Average Salary of Graduates:

2005 graduates earn an average salary of \$30,000 - \$75,000 depending on job location/specific position.

ATTENTION: If you have missed a fall or spring semester, you must see a counselor to be readmitted into your program.

**BUSINESS ADMINISTRATION/
PUBLIC ADMINISTRATION A2512H**

Public Administration is a concentration under the curriculum title of Business Administration. This curriculum prepares students for entry into management positions in state/local governments and not-for-profit organizations, provides education for current employees, and informs citizens of governmental functions.

Course work includes study and practical application to personnel administration, decision-making, ethics, organizational theories, and budgetary, and other governmental issues. Emphasis is placed on building analytical skills, stimulating moral imagination, and recognizing the discretionary power of the administrator's role.

Through acquisition of knowledge and skills, individuals should be able to perform governmental activities. By developing personal competencies and qualities, graduates will be eligible for employment in the public administration profession.

**CIVIL ENGINEERING
TECHNOLOGY****A40140**

The Civil Engineering Technology curriculum program provides the application of relevant theory of engineering needed by technicians to carry out planning and supervisory tasks in the construction of transportation systems, residential and commercial buildings, bridges, dams, and water and wastewater treatment systems.

Course work includes the communication and computational skills required to support the fields such as materials testing, structures, estimating, project management, hydraulics, environmental technology, and surveying. Additional course work will cover the operation of computers and application software including computer-aided drafting.

Graduates should qualify for technician-level jobs with both public and private engineering, construction, and surveying agencies.

**COMMUNITY SPANISH
INTERPRETER**

A55370

The Community Spanish Interpreter curriculum prepares individuals to work as entry-level bilingual professionals who will provide communication access in interview and interactive settings. In addition, this curriculum provides educational training for working professionals who want to acquire Spanish language skills.

Course work includes the acquisition of Spanish: grammar, structure, and sociolinguistic properties, cognitive processes associated with interpretation between Spanish and English; the structure and character of the Hispanic community; and acquisition of communication skills.

Graduates should qualify for entry-level jobs as para-professional bilingual employees in educational systems or a variety of community settings. Individuals may choose from part-time, full-time, or self-employment/free-lance positions, or apply language skills to other human service related areas.

COMPUTER INFORMATION TECHNOLOGY

A25260

The Computer Information Technology curriculum is designed to prepare graduates for employment with organizations that use computers to process, manage, and communicate information. This is a flexible curriculum that can be customized to meet community information systems needs.

Course work will develop a student's ability to communicate complex technical issues related to computer hardware, software, and networks in a manner that computer users can understand. Classes cover computer operations and terminology, operating systems, database, networking, security, and technical support.

Graduates should qualify for employment in entry-level positions with businesses, educational systems, and governmental agencies which rely on computer systems to manage information. Graduates should be prepared to sit for industry-recognized certification exams.

COMPUTER TECHNOLOGIES CERTIFICATE (C25260C1)

Effective: Fall 2006 – Revised: 10/03/05

The Computer Technologies Certificate will expose the student to a general overview of the computer area. Students will study computers, networks, operating systems and programming. Graduates from this are prepared to work as a Computer Technician, or to apply these classes to any other degree in the computer division.

Length: 2 Semesters
 Prerequisite: High School Diploma
 Award: Certificate

COMPUTER PROGRAMMING A25130

The Computer Programming curriculum prepares individuals for employment as computer programmers and related positions through study and applications in computer concepts, logic, programming procedures, languages, generators, operating systems, networking, data management, and business operations.

Students will solve business computer problems through programming techniques and procedures, using appropriate languages and software. The primary emphasis of the curriculum is hands-on training in programming and related computer areas that provide the ability to adapt as systems evolve.

Graduates should qualify for employment in business, industry, and government organizations as programmers, programmer trainees, programmer/analysts, software developers, computer operators, systems technicians, database specialist, computer specialist, software specialist, or information systems managers.

Awards

Associate Degree: Computer Programming (A25130)

Length of Program: 5 Semesters

Prerequisite: 2 Units of Algebra

Diploma: Not Applicable

Certificate: C++ Programming (C25130C2)

Length of Program: 3 Semesters

Prerequisite: High School Diploma, 2 Units of Algebra

Certificate: COBOL Programming (C25130C1)

Length of Program: 3 Semesters

Prerequisite: High School Diploma, 2 Units of Algebra

Certificate: RPG Programming (C25130C3)

Length of Program: 3 Semesters

Prerequisite: High School Diploma, 2 Units of Algebra

Certificate: Visual Basic Programming (C25130C4)

Length of Program: 3 Semesters

Prerequisite: High School Diploma, 2 Units of Algebra

Certificate: JAVA Programming (C25130C5)

Length of Program: 3 Semesters

Prerequisite: High School Diploma, 1 Unit of Algebra

Cooperative Education Requirements/Opportunities:

Qualified students may elect to take up to three (3) credit hours of Cooperative Education. Three (3) credit hours in lieu of other major courses upon approval of the Department Chairperson and the Co-op Director.

License or Certification Information: None Required**Program Information Contact:**

COSMETOLOGY**D55140**

The Cosmetology curriculum is designed to provide competency-based knowledge, scientific/artistic principles, and hands-on fundamentals associated with the cosmetology industry. The curriculum provides a simulated salon environment, which enables students to develop manipulative skills.

Course work includes instruction in all phases of professional imaging, hair design, chemical processes, skin care, nail care, multi-cultural practices, business/computer principles, product knowledge and other selected topics.

Graduates should qualify to sit for the State Board of Cosmetic Arts examination. Upon successfully passing the State Board Exam, graduates will be issued a North Carolina license. Employment is available in beauty salons and related businesses.

Awards

**CRIMINAL JUSTICE
TECHNOLOGY**

A55180

The Criminal Justice Technology curriculum is designed to provide knowledge of criminal justice systems and operations. Study will focus on local, state, and federal law enforcement, judicial process, corrections, and security services. The criminal justice system's role within society will be explored.

Emphasis is on criminal justice systems, criminology, juvenile justice, criminal and constitutional law, investigative principles, ethics, and community relations. Additional study may include issues and concepts of government, counseling, communications, computers, and technology.

Employment opportunities exist in a variety of local, state, and federal law enforcement, corrections, and security fields. Examples include police officer, deputy sheriff, county detention officer, state trooper, intensive probation/parole surveillance officer, correctional officer, and loss prevention specialist.

Awards

**CRIMINAL JUSTICE TECHNOLOGY A5518A
LATENT EVIDENCE CONCENTRATION**

Latent Evidence is a concentration under the curriculum of Criminal Justice Technology. This curriculum is designed to provide knowledge of latent evidence systems and operations. Study will focus on local, state and federal law enforcement, evidence processing and procedures.

Students will learn both theory and hands-on analysis of latent evidence. They will learn fingerprint classification, identification, and chemical development. Students will record, cast and recognize footwear and tire-tracks; and process crime scenes. Issues and concepts of communications and the use of computers and computer assisted design programs in crime scene technology will be discussed.

Graduates should qualify for employment in a variety of criminal justice organizations especially in local, state, and federal law enforcement, and correctional agencies.

Awards**Associate in Applied Science:**

CRIMINAL JUSTICE TECHNOLOGY A5518B FINANCIAL CRIME/COMPUTER FRAUD

Financial Crime/Computer Fraud is a concentration under the curriculum of Criminal Justice Technology. The curriculum is designed to prepare students for positions in the public or private sector in financial crime or computer fraud investigation.

Students will study financial criminal activity and computer investigative security procedures from a law enforcement perspective through forensic accounting and investigative computer courses.

Graduates should qualify for positions in either the public or private sector investigating fraud within financial institutions and/or computer crimes, including fraud, hacking, and identity theft.

Awards

Associate in Applied Science:

Criminal Justice Technology (A5518B)

CULINARY TECHNOLOGY

A55200

The Culinary Technology curriculum provides specific training required to prepare students to assume positions as trained culinary professionals in a variety of food service settings including full service restaurants, hotels, resorts, clubs, catering operations, contract food service, and health care facilities.

Course offerings emphasize practical application, a strong theoretical knowledge base, and professionalism and provide the critical competencies to successfully meet industry demands. Courses also include sanitation, food/beverage service and control, baking, grade manger, American/international cuisines, food production, and hospitality supervision.

Graduates should qualify for entry-level positions such as line cook, station chef, and assistant pastry chef. American Culinary Federation certification is available to graduates. With experience, graduates may advance to positions such as sous-chef, executive chef, or food service manager.

DENTAL ASSISTING

D45240

The Dental Assisting curriculum prepares individuals to assist the dentist in the delivery of dental treatment and to function as integral members of the dental team while performing chair side and related office and laboratory procedures.

Course work includes instruction in general studies, biomedical sciences, dental sciences, clinical sciences, and clinical practice. A combination of lecture, laboratory, and clinical experiences provides students with knowledge in infection/hazard control, radiography, dental materials, preventive dentistry, and clinical procedures.

Graduates may be eligible to take the Dental Assisting National Board Examination to become Certified Dental Assistants. As a Dental Assistant II, defined by the Dental Law of North Carolina, graduates work in dental offices and other related areas.

Awards

Associate Degree: Not Applicable

Diploma: Dental Assisting (D45240)

EARLY CHILDHOOD ASSOCIATE A55220

The Early Childhood Associate curriculum prepares individuals to work with children from infancy through middle childhood in diverse learning environments. Students will combine learned theories with practice in actual settings with young children under the supervision of qualified teachers.

Course work includes child growth and development; physical/nutritional needs to children; care and guidance of children; and communications skills with parents and children. Students will foster the cognitive/language, physical/motor, social/emotional, and creative development of young children.

Graduates are prepared to plan and implement developmentally appropriate programs in early childhood settings. Employment opportunities include child development and child care programs, preschools, public and private schools, recreational centers, Head Start Programs, and school-age programs.

EARLY CHILDHOOD ASSOCIATE CERTIFICATION IN CHILD CARE ADMINISTRATION (C55220C1)

Effective: Fall 2005 – Revised: 12/07/04

This certificate will provide courses needed by the child care professional to obtain the North Carolina Early Childhood Administration Certificate (NCECA). The courses offered in this program prepare the childcare professional to be successful as an administrator in a childcare setting. Students will learn skills such as program development, rules and regulations for the state of North Carolina, staff and organizational management, public relations and community outreach, financial management, and leadership. This certificate also provides an opportunity for the individual to obtain the North Carolina Early Childhood Credential Certificate.

Length: 3 Semesters
Prerequisite: High School Diploma
Award: Certificate

EARLY CHILDHOOD ASSOCIATE/ A5522A SPECIAL EDUCATION

Special Education is a concentration under the curriculum title of Early Childhood Associate. This curriculum prepares individuals to work with children from infancy through middle childhood in diverse learning environments. Students will combine learned theories with practice in actual settings with young children under the supervision of qualified teachers.

Course work includes childhood growth and development, physical/nutritional needs of children, care and guidance of children, and communication skills with parents and children. Students will foster the cognitive/language, physical/motor, social/emotional, and creative development of young children.

Graduates are prepared to plan and implement developmentally appropriate programs in early childhood settings. Employment opportunities include child development and child care programs, preschools, public and private schools, recreational centers, Head Start Programs, and school-age programs.

Awards

Associate in Applied Science Degree: Early Childhood Associate/Special Education (A5522A)

Length of Program: 5 Semesters

Prerequisite: High School Diploma

Diploma: Not Applicable

Certificate: Not Applicable

Cooperative Education Requirements/Opportunities:

Students are required to take 1 (one) credit hour of cooperative education.

License or Certification Information:

None Required

ELECTRICAL/ELECTRONICS TECHNOLOGY **A35220**

The Electrical/Electronics Technology curriculum is designed to provide training for persons interested in the installation and maintenance of electrical/electronic systems found in residential, commercial, and industrial facilities.

Training, most of which is hands-on, will include such topics as AC/D theory, basic wiring practices, digital electronics, programmable logic controllers, industrial motor controls, and the National Electric Code, and other subjects as local needs require.

Graduates should qualify for a variety of jobs in the electrical/electronic field as an on-the-job trainee or apprentice assisting in the layout, installation, and maintenance of electrical/electronic systems.

Awards

Associate Degree: Electrical/Electronics Technology (A35220)

Length of Program: 5 Semesters

Prerequisite: High School Diploma

Diploma: Electrical/Electronics Technology (D35220)

Length of Program: 3 Semesters

Prerequisite: High School Diploma

Cooperative Education Requirements/Opportunities:

Qualified students may elect to take up to three (3) credit hours of Cooperative Education in lieu of 3 credit hours of electives provided they obtain approval from the Co-op Director and the Department Chairperson.

ELECTRONICS ENGINEERING TECHNOLOGY**A40200**

The Electronics Engineering Technology curriculum prepares individuals to become technicians who design, build, install, test, troubleshoot, repair, and modify developmental and production electronic components, equipment, and systems such as industrial/computer controls, manufacturing systems, communication systems, and power electronic systems.

A broad-based core of courses, including basic electricity, solid-state fundamentals, digital concepts, and microprocessors, ensures the student will develop the skills necessary to perform entry-level tasks. Emphasis is placed on developing the student's ability to analyze and troubleshoot electronic systems.

Graduates should qualify for employment as engineering assistants or electronic technicians with job titles such as electronics engineering technician, field service technician, maintenance technician, electronic tester, electronic systems integrator, bench technician, and production control technician.

Awards

EMERGENCY MEDICAL SCIENCE A45340

The Emergency Medical Science curriculum is designed to prepare graduates to enter the workforce as paramedics. Additionally, the program can provide an Associate Degree for individuals desiring an opportunity for career enhancement.

The course of study provides the student an opportunity to acquire basic and advanced life support knowledge and skills by utilizing classroom instruction, practical laboratory sessions, hospital clinical experience, and field internships with emergency medical service agencies.

Student progressing through the program may be eligible to apply for both state and national certification exams. Employment opportunities include ambulance services, fire and rescue agencies, air medical services, specialty areas of hospitals, industry, educational institutions, and governmental agencies.

Awards

Associate Degree: Emergency Medical Science (A45340)

Length of Program: 5 Semesters

Prerequisite: High School Diploma or GED
1 Unit of Algebra, 1 Unit of Biology

Diploma: Emergency Medical Science (D45340)

Length of Program: 3 Terms

Prerequisite: High School Diploma or GED
1 Unit of Biology

Certificate: Emergency Medical Science (C45340)

Length of Program: 1 Semester

Prerequisite: High School Diploma or GED

EMS Bridge: Emergency Medical Science (A45340B)

Length of Program: 3 Semesters

Prerequisite: 1 Unit of Algebra & Biology; Current North Carolina or National Registry EMT-Paramedic; Current Healthcare Provider Level CPR; Current Advanced Cardiac Life Support Provider; Current Pediatric Advanced Life Support; Current Basic Trauma Life Support or Pre-Hospital Trauma Life Support; Two Thousand (2000) documented hours of Paramedic Level Work Experience; Two Letters of Recommendation: One from the Medical Director; One from the Training Officer or Supervisor

Cooperative Education Requirements/Opportunities:

Not Applicable

License or Certification Information:

Student completing the first semester of the Associate Degree Program or entering the Diploma Program must pass the North Carolina State or National Registry EMT-Basic Examination.

Program Information Contact:

Curriculum Chairperson: Rick Criste
Telephone Number: (910) 678-8515
Office Location: Health Technology Center,
Room 253-1
Email: crister@faytechcc.edu
Department Office: Health Technology Center,
Room 169
Telephone: (910) 678-8264
FTCC Web Site: www.faytechcc.edu

Application Deadlines:

The program is designed for a student to enter during the fall semester. A student may enter at other times with approval of the Department Chairperson. Students should apply by January 30th. Specific health program admission requirements must be met before a student is eligible for admission.

Scholarship/Financial Aid Information:

Scholarships are available. Financial Aid Office, Student Center, Room 126; Telephone: (910) 678-8448

Child Care Financial Assistance Information:

See Child Care Associate, Student Center, Room 142; Telephone: (910) 678-8486/8387

Employment Statistics:**Job Placement Rates:**

100% of 2004 graduates available for work were employed within four (4) months.

Average Salary of Graduates:

Graduates who graduated in 2004 earn an average salary of \$42,000.

ATTENTION: If you have missed a fall or spring semester, you must see a counselor to be readmitted into your program.

FIRE PROTECTION TECHNOLOGY A55240

The Fire Protection Technology curriculum is designed to provide individuals with technical and professional knowledge to make decisions regarding fire protection for both public and private sectors. It also provides a sound foundation for continuous higher learning in fire protection, administration, and management.

Course work includes classroom and laboratory exercises to introduce the student to various aspects of fire protection. Students will learn technical and administrative skills such as hydraulics, hazardous materials, arson investigation, fire protection safety, fire suppression management, law, and codes.

Graduates should qualify for employment or advancement in governmental agencies, industrial firms, insurance rating organizations, educational organizations, and municipal fire departments. Employed persons should have opportunities for skilled and supervisory-level positions within their current organizations.

Students with felony convictions may have limited employment opportunities in fire services careers.

FUNERAL SERVICE EDUCATION A55260

The Funeral Service Education curriculum provides students with the opportunity to become proficient in basic funeral service skills.

In addition to the general education courses offered in the curriculum, technical courses such as human anatomy, embalming theory and practice, embalming chemistry, restorative arts, funeral law, and funeral home operations are taught.

Graduates of the curriculum, upon passing the state or national exam and completing an internship in a funeral home, will be qualified for employment as embalmers and/or funeral directors.

The specific aims and purposes of the Department of Funeral Service Education are:

- To give students the knowledge, principles, techniques and skills which are the basis of the funeral service profession.
- To provide for education and professional advancement of student whether they choose to follow the funeral service profession or whether they decide to use their specialized education in other general or technical fields.
- To educate and prepare individuals to contribute to the service and welfare of the community.
- To become a major provider of continuing education programs meeting mandatory re-licensure requirements for the licensed funeral service personnel in the state.

Awards

Associate in Applied Science Degree: Funeral Service Education (A55260)

Length of Program: 5 Semesters

Prerequisite: High School Diploma

Diploma: N. C. Funeral Director (D55260)

Length of Program: 2 Semesters

Prerequisite: High School Diploma

Certificate: Not Applicable

Cooperative Education Requirements/Opportunities:

Qualified students may elect to take up to four (4) credit hours in Cooperative Education in lieu of FSE*211 and FSE*213 provided approval is obtained from the Department Chairperson.

Note: Cooperative Education not available in diploma program.

License or Certification Information:

Graduates are eligible to take the National Board Exam for Funeral Service or the North Carolina State Board Exam of Mortuary Science

Programmatic Accreditation: Accredited By: American Board of Funeral Service Education, 3432 Ashland Ave., Suite U, St. Joseph, MO 64506. Phone (816) 233-3747, Fax (816) 233-3793.

Co-op Option: Not authorized for this program.

This academic program is designed to meet specific state or professional needs. It is not accredited by the American Board of Funeral Service Education owing to the fact that it does not include instruction in the following areas: Anatomy, Chemistry, Embalming, Microbiology, and Restorative Arts. Students graduating from this program are not eligible to take the National Board Examination or any state board examination for which graduation from an ABFSE accredited program is required.

GENERAL OCCUPATIONAL TECHNOLOGY

A55280

The General Occupational Technology curriculum provides individuals with an opportunity to upgrade their skills and to earn an associate degree by taking courses suited for their occupational interests and/or needs.

The curriculum content will be individualized for students according to their occupational interests and needs. A program of study for each student will be selected from the associate degree-level courses offered by the College.

Graduates will become more effective workers, better qualified for advancements within their field of employment, and become qualified for a wide range of entry-level employment opportunities.

Awards

Associate Degree: General Occupational Technology (A55280)

Length of Program: 4 Semesters

Prerequisite: High School Diploma

Diploma: Not Applicable

Certificate: Not Applicable

Cooperative Education Requirements/Opportunities:

Qualified students may elect to take up to eight (8) credit hours of Cooperative Education upon approval of the Department Chairperson and the Co-op Director.

MACHINING TECHNOLOGY A50300

The Machining Technology curriculum is designed to develop skills in the theory and safe use of hand tools, power machinery, computerized equipment, and sophisticated precision inspection instruments.

Students will learn to interpret blueprints, set up manual and CNC machines, perform basic and advanced machining operation, and make decisions to insure that work quality is maintained.

Employment opportunities for machining technicians exist in manufacturing industries, public institutions, governmental agencies, and in a wide range of specialty machining job shops.

Awards

Associate Degree: Machining Technology (A50300)

Length of Program: 5 Semesters

Prerequisite: High School Diploma

Diploma: Not Applicable

Certificate: Basic Machining Technology Certificate (C50300C1)

Length of Program: 2 Semesters

Prerequisite: High School Diploma

Cooperative Education Requirements/Opportunities:

Qualified students may elect to take up to three (3) credit hours of Cooperative Education in lieu of 3 credit hours of electives provided they acquire approval from the Co-op Director and the Department Chairperson.

License or Certification Information: None Required**Program Information Contact:**

Curriculum Chairperson: Glenn Holley

Telephone Number: (910) 678-8427

Office Location: Lafayette Hall, Room 137A

Email: holleyg@faytechcc.edu

Department Office: Lafayette Hall, Room 120

Telephone: (910) 678-8383

FTCC Web Site: www.faytechcc.edu

Application Deadlines:

The program is designed for a student to enter during the fall semester. A student may enter at other times with approval of the Department Chairperson.

Scholarship/Financial Aid Information:

Scholarships are available. Financial Aid Office, Student Center, Room 126; Telephone: (910) 678-8448

Child Care Financial Assistance Information:

See Child Care Associate, Student Center, Room 142; Telephone: (910) 678-8486/8387

Employment Statistics**Job Placement Rates:**

100% of 2004 graduates available for work were employed within four (4) months.

Average Salary of Graduates:

Graduates who graduated in 2004 earn an average salary of \$48,453.

ATTENTION: If you have missed a fall or spring semester, you must see a counselor to be readmitted into your program.

Revised: 11/04/05

NETWORKING TECHNOLOGY A25340

The Networking Technology curriculum prepares students to install and support networks and develops strong analytical skills and extensive computer knowledge.

Course work includes extensive hands-on experience with networks. Classes cover media types, topologies, and protocols with installation and support of hardware and software, troubleshooting network and computer problems, and administrative responsibilities.

Graduates should qualify for positions such as: LAN/PC administrator, microcomputer support specialist, networks control operator, communications technician/analyst, network/computer consultant, and information systems specialist. Graduates should be prepared to sit for certification exams, which can result in industry-recognized credentials.

Awards

Associate Degree: Networking Technology (A25340)

Length of Program: 5 Semesters

Prerequisite: 2 Units of Algebra

Diploma: Not Applicable

Certificate: Microsoft Networking (C25340C1)

NUCLEAR MEDICINE TECHNOLOGY

A45460

The Nuclear Medicine Technology curriculum provides the clinical and didactic experience necessary to prepare students to qualify as entry-level Nuclear Medicine Technologists.

Students will acquire the knowledge and skills necessary to properly perform clinical procedures. These skills include patient care, use of radioactive materials, operation of imaging and counting instrumentation and laboratory procedures.

Graduates may be eligible to apply for certification/registration examinations given by the Nuclear Medicine Technology Certification Board and the American Registry of Radiologic Technologists.

Awards

Associate Degree: Associate in Applied Science (A45460)

Length of Program: 5 Semesters

Prerequisite: High School Diploma, 2 Units of Algebra, 1 Unit of Biology, 1 Unit of Chemistry

Diploma: Diploma (D45460)

Length of Program: 4 Semesters

Prerequisite: Applicants must: (1) be currently enrolled as a second level Radiography student in the FTCC Radiography program. Radiography students must graduate spring semester and obtain AART certification by the end of the fall semester of the Nuclear Medicine Program or (2) have graduated from an accredited Radiography program with a minimum of a 2.5 GPA and be currently AART certified. The following courses will be used to determine eligibility in the competitive process and must be completed in order to enter into the Nuclear Medicine Program: BIO 168 and 169, COM-231, PSY-150, and a Humanities or Fine Arts elective.

Certificate: Not Applicable

Cooperative Education Requirements/Opportunities: Not Applicable

License or Certification Information:

Graduates are eligible to take the Nuclear Medicine Technology Certification Exam.

Programmatic Accreditation:

Joint Review Committee on Education Program in Nuclear Medicine Technology.

OFFICE SYSTEMS TECHNOLOGY A25360

The Office Systems Technology curriculum prepares individuals for positions in administrative support careers. It equips office professionals to respond to the demands of a dynamic computerized workplace.

Students will complete courses designed to develop proficiency in the use of integrated software, oral and written communications, analysis and coordination of office duties and systems, and other support topics. Emphasis is placed on nontechnical as well as technical skills.

Graduates should qualify for employment in a variety of positions in business, government, and industry. Job classifications range from entry-level to supervisory to middle management positions.

Awards

Associate Degree: Office Systems Technology (A25360)

Length of Program: 5 Semesters

Prerequisite: High School Diploma

Diploma: Not Applicable

Certificate: Basic Office Systems Technology (C25360C1)

Length of Program: 2 Semesters

Prerequisite: High School Diploma

Cooperative Education Requirements/Opportunities: One (1) credit hour is required.

License or Certification Information: None Required

PARALEGAL TECHNOLOGY**A25380**

The Paralegal Technology curriculum prepares individuals to work under the supervision of attorneys by performing routine legal tasks and assisting with substantive legal work. A paralegal/legal assistant may not practice law, give legal advice, or represent clients in a court of law.

Course work includes substantive and procedural legal knowledge in the areas of civil litigation, legal research and writing, real estate, family law, wills, estates, trusts, and commercial law. Required courses also include subjects such as English, mathematics, and computer utilization.

Graduates are trained to assist attorneys in probate work, investigations, public records search, drafting and filing legal documents, research, and office management. Employment opportunities are available in private law firms, governmental agencies, banks, insurance agencies, and other business organizations.

Awards

Associate Degree: Paralegal Technology (A25380)

Length of Program: 5 Semesters

Prerequisite: High School Diploma

Diploma: Paralegal Technology (D25380)

Length of Program: 3 semesters

Prerequisite: Bachelor's Degree

PARALEGAL (D25380)

Effective: Fall 2006 – Revised Date: 10/03/05

The Paralegal Diploma is a one-year program of study for those who already have a Bachelor's degree. The diploma program provides intensive practical training in a variety of areas of law. Students who desire to refine the skills acquired through a Bachelor's degree into marketable job competencies in the legal field will find this to be an excellent opportunity. A Paralegal/Legal Assistant may not practice law, give legal advice, or represent clients in a court of law.

Length: 3 Semesters

PHARMACY TECHNOLOGY**D45580**

The Pharmacy Technology curriculum prepares individuals to assist the pharmacist in duties that a technician can legally perform and to function within the boundaries prescribed by the pharmacist and the employment agency.

Graduates will maintain patient's records; fill prescriptions; maintain inventories, setup, package, and label medication doses; prepare solutions and intravenous additives; perform clerical duties, including insurance forms and forms required by third-party payers.

Graduates may be employed in hospitals, nursing homes, private and chain drug stores, research laboratories, wholesale drug companies, and pharmaceutical manufacturing facilities. Graduates will qualify to take the National Certification Examination developed by the Pharmacy Technician Certification Board.

**BASIC PLUMBING CERTIFICATE (C35300C1)
EVENING/WEEKEND PROGRAM**

Effective: Fall 2001 – Revised: 10/25/04

This evening certificate program is designed to prepare individuals for entry-level positions in plumbing. Course work includes fundamental practices in plumbing assembly and repair and in basic plumbing codes.

Opportunities for employment as plumbing assistants and as parts supply clerks exist throughout the area.

Courses in this program can be transferred directly into the Plumbing diploma curriculum.

Length: 2 Semesters
Prerequisite: High School Diploma
Award: Certificate

RADIOGRAPHY

A45700

The Radiography curriculum prepares the graduate to be a radiographer, a skilled health care professional who uses radiation to produce images of the human body. Course work includes clinical rotations to area health care facilities, radiographic exposure, image processing, radiographic procedures, physics, pathology, patient care and management, radiation protection, quality assurance, anatomy and physiology, and radiobiology.

Graduates of accredited programs are eligible to apply to take the American Registry of Radiologic Technologists' national examination for certification and registration as medical radiographers. Graduates may be employed in hospitals, clinics, physicians' offices, medical laboratories, government agencies, and industry.

Awards

Associate Degree: Radiography (A45700)

Length of Program: 5 Semesters

RESPIRATORY CARE**A45720**

Revised: 10/03/05

The Respiratory Care curriculum prepares individuals to function as Respiratory Care Technicians and/or Respiratory Care Therapists. In these roles, individuals perform diagnostic testing, treatment, and management of patients with heart and lung diseases.

Students will master skills in patient assessment and treatment of cardiopulmonary diseases. These skills include life support, monitoring, drug administration, and treatment of patients of all ages in a variety of settings.

Graduates of accredited programs may be eligible to take entry-level examinations from the National Board of Respiratory Care. Therapy graduates may also take the Advanced Practitioner Examination.

Graduates may be employed in hospitals, clinics, nursing homes, education, industry, and home care.

Awards

SPEECH-LANGUAGE PATHOLOGY ASSISTANT A45730

The Speech-Language Pathology Assistant curriculum prepares graduates to work under the supervision of a licensed Speech-Language Pathologist, who evaluates, diagnosis, and treats individuals with various communication disorders.

Courses provide instruction in methods of screening for speech, language, and hearing disorders and in following written protocols designed to remediate individual communication problems. Supervised field experience includes working with patients of various ages and various disorders.

Graduates may be eligible for registration with the North Carolina Board of Examiners for Speech-Language Pathologist and Audiologist and must be supervised by a licensed Speech-Language Pathologist. They may be employed in healthcare or education settings.

SURGICAL TECHNOLOGY**A45740**

The Surgical Technology curriculum prepares individuals to assist in the care of the surgical patient in the operating room and to function as a member of the surgical team.

Students will apply theoretical knowledge to the care of patients undergoing surgery and develop skills necessary to prepare supplies, equipment, and instruments; maintain aseptic conditions; prepare patients for surgery; and assist surgeons during operations.

Graduates of this program will be eligible to apply to take the Liaison Council's Certification Examination for Surgical Technologists. Employment opportunities include labor/delivery/emergency departments, inpatient/outpatient surgery centers, dialysis units/facilities, physicians' offices, and central supply processing units. Completion of the degree is recommended since it prepares the graduate for advanced placement in the Surgical Environment.

Awards

Associate Degree: Associate in Applied Science (A45740)

Length of Program: 5 Semesters

Prerequisite: 1 Unit of Biology, 1 Unit of Algebra, Completion of Level I (Diploma), Certified Surgical Technologist (CST), CPR healthcare provider certification, and two references indicating acceptable character

Diploma: Surgical Technology (D45740)

Length of Program: 3 Semesters

Prerequisite: 1 Unit of Biology and Algebra

Diploma: Surgical Technology (D45740B)

Length of Program: 2 Semesters

SURGICAL TECHNOLOGY (D45740)

Effective: Fall 2004 – Revised: 02/21/05

The Surgical Technology curriculum prepares individuals to assist in the care of the surgical patient in the operating room and to function as a member of the surgical team.

Students will apply theoretical knowledge to the care of patients undergoing surgery and develop skills necessary to prepare supplies, equipment, and instruments; maintain aseptic conditions; prepare patients for surgery; and assist surgeons during operations.

Graduates of this program will be eligible to apply to take the Liaison Council's Certification Examination for Surgical Technologists. Employment opportunities include labor/delivery/emergency departments, inpatient/outpatient surgery centers, dialysis units/facilities, physicians' offices, and central supply processing units.

Length: 3 Semesters
 Prerequisite: 1Unit Biology and Algebra
 Award: Diploma

***ENG-101 will not transfer to Associate Degree program.**

Students with a felony conviction may have limited certification and employment opportunities.

It is strongly recommended that students take the ACA 111 College Student Success course either before starting the program or as an excess elective course. ACA 111 is required for the AAS in Surgical Technology.

SURGICAL TECHNOLOGY (D45740B)

Effective: Fall 2004 – Revised: 10/12/04

The Surgical Technology AAD Bridge curriculum prepares individuals to assist in the care of the surgical patient in the operating room and to function as a member of the surgical team.

Current Surgical Technologists may enter the Diploma Surgical Technology Program through the Bridging Program (The Accelerated Alternate Delivery Program). A current Surgical Technologist may be required to take courses on line or applicant may obtain credit through proficiency examination with Department Chair approval.

Graduates of this program will be eligible to apply to take the Liaison Council's Certification Examination for Surgical Technologists. Employment opportunities include labor/delivery/emergency departments, inpatient/outpatient surgery centers, dialysis units/facilities, physicians' offices, and central supply processing units.

Length: 2 Semesters
 Prerequisite: 1 Unit Biology and Algebra
 Current Surgical Technologist
 Documented 1000 hours working experience as a Surgical Technologist
 Documentation of having independently scrubbed on 125 surgical cases
 2 Letters of Recommendation from former and/or current supervisors
 Award: Diploma

SURVEYING TECHNOLOGY

A40380

The Surveying Technology curriculum provides training for technicians in the many areas of surveying. Surveyors are involved in land surveying, route surveying, construction surveying, photogrammetry, mapping, global positioning systems, geographical information systems, and other areas of property description and measurements.

Course work includes the communication and computational skills required for boundary, construction, route, and control surveying, photogrammetry, topography, drainage, surveying law, and subdivision design, with emphasis upon applications of electronic data collection and related software including CAD.

Graduates should qualify for jobs as survey party chief, instrument person, surveying technician, highway surveyor, mapper, GPS technician, and CAD operator. Graduates will be prepared to pursue the requirements necessary to become a Registered Land Surveyor in North Carolina.

Awards

Associate Degree: Surveying Technology (A40380)

Length of Program: 5 Semesters

Prerequisite: 2 Units of Algebra

Diploma: Not Applicable

Certificate: Not Applicable

Cooperative Education Requirements/Opportunities:

Qualified students may take up to six (6) credit hours of Cooperative Education upon approval of the Department Chairperson and Co-op Director.

License or Certification Information: None Required

Program Information Contact:

WEB TECHNOLOGIES**A25290**

The Web Technologies curriculum prepares graduates for careers in the information technology arena using computers and distributed computing to disseminate and collect information via the web.

Course work in this program covers the terminology and use of computers, network devices, networks, servers, databases, applications, programming languages, as well as web applications, site development and design. Studies will provide opportunity for students to learn related industry standards.

Graduates should qualify for career opportunities as designers, administrators, or developers in the areas of web applications, web-sites, web services, and related areas of distributed computing.

Awards

WELDING TECHNOLOGY**D50420**

The Welding Technology curriculum provides students with a sound understanding of the science, technology and applications essential for successful employment in the welding and metal industry.

Instruction includes consumable and non-consumable electrode welding and cutting processes. Courses in math, blueprint reading, metallurgy, welding inspection, and destructive and non-destructive testing provide the student with industry-standard skills developed through classroom training and practical application.

Successful graduates of the Welding Technology curriculum may be employed as entry-level technicians in welding and metalworking industries. Career opportunities also exist in construction, manufacturing, fabrication, sales, quality control, supervision, and welding-related self-employment.

Awards

Associate Degree: Not Applicable

Diploma: Welding Technology (D50420)

Length of Program: 3 Semesters

Prerequisite: High School Diploma

Certificate: Basic Welding Technology Certificate (C50420C1)

Length of Program: 2 Semesters

Prerequisite: High School Diploma

Cooperative Education Requirements/Opportunities:

COURSE DESCRIPTIONS

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS	
ACA 111 College Student Success	01	00	00	01	
Prerequisites: None					
Corequisites: None					
Component: None					
This course introduces the college's physical, academic, and social environment and promotes the personal development essential for success. Topics include campus facilities and resources; policies, procedures, and programs; study skills; and life management issues such as health, self-esteem, motivation, goal-setting, diversity, and communication. Upon completion, students should be able to function effectively within the college environment to meet their educational objectives.					
ACA 115 Success & Study Skills	00	02	00	01	
Prerequisites: None					
Corequisites: None					
Component: None					
This course provides an orientation to the campus resources and academic skills necessary to achieve educational objectives. Emphasis is placed on an exploration of facilities and services, study skills, library skills, self-assessment, wellness, goal-setting, and critical thinking. Upon completion, students should be able to manage their learning experiences to successfully meet educational goals.

Corequisites: None					
Component: None					
This course introduces the basic framework of accounting. Emphasis is placed on the accounting cycle and financial statement preparation and analysis. Upon completion, students should be able to demonstrate an understanding of the principles involved and display an analytical problem-solving ability for the topics covered.					
ACC 115 College Accounting	03	02	00	04	
Prerequisites: None					
Corequisites: None					
Component: None					
This course introduces basic accounting principles for a business. Topics include the complete accounting cycle with end-of-period statements, bank reconciliation, payrolls, and petty cash. Upon completion, students should be able to demonstrate an understanding of accounting principles and apply those skills to a business organization.					
ACC 120 Prin of Financial Acct	03	02	00	04	
Prerequisites: None					
Corequisites: None					
Component: ACC 120AA, ACC 120BB					
This course introduces business decision-making accounting information systems. Emphasis is placed on analyzing, summarizing, reporting, and interpreting financial information. Upon completion, students should be able to prepare financial statements, understand the role of financial information in decision-making and address ethical considerations. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement. This course is also available through the Virtual Learning Community (VLC).					
ACC 121 Prin of Managerial Acct	03	02	00	04	
Prerequisites: ACC 120					
Corequisites: None					
Component: ACC 121AA, ACC 121BB					
This course includes a greater emphasis on managerial and cost accounting skills. Emphasis is placed on managerial accounting concepts for external and internal analysis, reporting and decision-making. Upon completion, students should be able to analyze and interpret transactions relating to managerial concepts including product-costing systems. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement. This course is also available through the Virtual Learning Community (VLC).					
ACC 129 Individual Income Taxes	02	02	00	03	
Prerequisites: None					
Corequisites: None					
Component: None					
This course introduces the relevant laws governing individual income taxation. Topics include tax law, electronic research and methodologies, and the use of technology for preparation of individual tax returns. Upon completion, students should be able to analyze basic tax scenarios, research applicable tax law, and complete various individual tax forms. This course is also available through the Virtual Learning Community (VLC).					
ACC 130 Business Income Taxes	02	02	00	03	
Prerequisites: None					
Corequisites: None					
Component: None					
This course introduces the relevant laws governing business and fiduciary income taxes. Topics include tax law relating to business organizations, electronic research and methodologies, and the use of technology for the preparation of business tax returns. Upon completion, students should be able to analyze basic tax scenarios, research applicable tax law, and complete various business tax forms.					
ACC 131 Federal Income Taxes	02	02	00	03	
Prerequisites: ACC 111 or ACC 120					
Corequisites: None					
Component: None					
This course provides an overview of federal income taxes for individuals, partnerships, and corporations. Topics include tax law, electronic research and methodologies and the use of technology for the preparation of individual and business tax returns. Upon completion, students should be able to analyze basic tax scenarios, research applicable tax laws, and complete federal tax returns for individuals, partnerships, and corporations.					
ACC 140 Payroll Accounting	01	02	00	02	
Prerequisites: ACC 115 or ACC 120					
Corequisites: None					
Component: None					
This course covers federal and state laws pertaining to wages, payroll taxes, payroll tax forms, and journal and general ledger transactions. Emphasis is placed on computing wages; calculating social security, income, and unemployment taxes; preparing appropriate payroll tax forms; and journalizing/posting transactions. Upon completion, students should be able to analyze data, make appropriate computa-

AHR 110 Introduction to Refrigeration	02	06	00	05		AHR 115 Refrigeration Systems	01	03	00	02
Prerequisites: None						Prerequisites: All courses required: AHR 110, AHR 130				
Corequisites: None						Corequisites: None				
Component: None						Component: None				
This course introduces the basic refrigeration process used in mechanical refrigeration and air conditioning systems. Topics include terminology, safety, and identification and function of components; refrigeration cycle; and tools and instrumentation used in mechanical refrigeration systems. Upon completion, students should be able to identify refrigeration systems and components, explain the refrigeration process, and use the tools and instrumentation of the trade.						This course introduces refrigeration systems and applications. Topics include defrost methods, safety and operational control, refrigerant piping, refrigerant recovery and charging, and leak testing. Upon completion, students should be able to assist in installing and testing refrigeration systems and perform simple repairs.				
AHR 111 HVACR Electricity	02	02	00	03		AHR 120 HVACR Maintenance	01	03	00	02
Prerequisites: None						Prerequisites: None				
Corequisites: None						Corequisites: None				
Component: None						Component: None				
This course introduces electricity as it applies to HVACR equipment. Emphasis is placed on power sources, interaction of electrical components, wiring of simple circuits, and the use of electrical test equipment. Upon completion, students should be able to demonstrate good wiring practices and the ability to read simple wiring diagrams.						This course introduces the basic principles of industrial air conditioning and heating systems. Emphasis is placed on preventive maintenance procedures for heating and cooling equipment and related components. Upon completion, students should be able to perform routine preventive maintenance tasks, maintain records, and assist in routine equipment repairs.				
AHR 112 Heating Technology	02	04	00	04		AHR 130 HVAC Controls	02	02	00	03
Prerequisites: AHR 110						Prerequisites: AHR 111 or ELC 111				
Corequisites: None						Corequisites: None				
Component: None						Component: None				
This course covers the fundamentals of heating including oil, gas, and electric heating systems. Topics include safety, tools and instrumentation, system operating characteristics, installation techniques, efficiency testing, electrical power, and control systems. Upon completion, students should be able to explain the basic oil, gas, and electrical heating systems and describe the major components of a heating system.						This course covers the types of controls found in residential and commercial comfort systems. Topics include electrical and electronic controls, control schematics and diagrams, test instruments, and analysis and troubleshooting of electrical systems. Upon completion, students should be able to diagnose and repair common residential and commercial comfort system controls.				
AHR 113 Comfort Cooling	02	04	00	04		AHR 133 HVAC Servicing	02	06	00	04
Prerequisites: None						Prerequisites: AHR 112 or AHR 113				
Corequisites: None						Corequisites: None				
Component: None						Component: None				
This course covers the installation procedures, system operations, and maintenance of residential and light commercial comfort cooling systems. Topics include terminology, component operation, and testing and repair of equipment used to control and produce assured comfort levels. Upon completion, students should be able to use psychometrics, manufacturer specifications, and test instruments to determine proper system operation.						The course covers the maintenance and servicing of HVAC equipment. Topics include testing, adjusting, maintaining, and troubleshooting HVAC equipment and record keeping. Upon completion, students should be able to adjust, maintain, and service HVAC equipment.				
AHR 114 Heat Pump Technology	02	04	00	04		AHR 151 HVAC Duct Systems I	01	03	00	02
Prerequisites: AHR 110 or AHR 113						Prerequisites: AHR 112				
Corequisites: None						Corequisites: None				
Component: None						Component: None				
This course covers the principles of air source and water source heat pumps. Emphasis is placed on safety, modes of operation, defrost systems, refrigerant charging, and system performance. Upon completion, students should be able to understand and analyze system performance and perform routine service procedures.						This course introduces the techniques used to lay out and fabricate duct work commonly found in HVAC systems. Emphasis is placed on the skills required to fabricate duct work. Upon completion, students should be able to lay out and fabricate simple duct work.				
AHR 115 Refrigeration Systems	01	03	00	02		AHR 160 Refrigerant Certification	01	00	00	01
Prerequisites: All courses required: AHR 110, AHR 130						Prerequisites: None				
Corequisites: None						Corequisites: None				
Component: None						Component: None				
This course introduces the basic refrigeration process used in mechanical refrigeration and air conditioning systems. Topics include terminology, safety, and identification and function of components; refrigeration cycle; and tools and instrumentation used in mechanical refrigeration systems. Upon completion, students should be able to identify refrigeration systems and components, explain the refrigeration process, and use the tools and instrumentation of the trade.						This course covers the requirements for the EPA certification examinations. Topics include small appliances, high pressure systems, and low pressure systems. Upon completion, students should be able to demonstrate knowledge of refrigerants and be prepared for the EPA certification examinations.				

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
AHR 180 HVACR Customer Relations	01	00	00	01

Prerequisites: AHR 114

Corequisites: None

Component: None

This course introduces common business and customer relation practices that may be encountered in HVACR. Topics include business practices, appearance of self and vehicle, ways of handling customer complaints, invoices, telephone communications, and warranties. Upon completion, students should be able to present themselves to customers in a professional manner, understand how the business operates, complete invoices, and handle complaints.

AHR 210 Residential Building Code	01	02	00	02
--	-----------	-----------	-----------	-----------

Prerequisites: AHR 151

Corequisites: None

Component: None

This course covers the residential building codes that are applicable to the design and installation of HVAC systems. Topics include current residential codes as applied to HVAC design, service, and installation. Upon completion, students should be able to demonstrate the correct usage of residential building codes that apply to specific areas of the HVAC trade.

AHR 211 Residential System Design	02	02	00	03
--	-----------	-----------	-----------	-----------

Prerequisites: AHR 151

Corequisites: None

Component: None

This course introduces the principles and concepts of conventional residential heating and cooling system design. Topics include heating and cooling load estimating, basic psychometrics, equipment selection, duct system selection, and system design. Upon completion, students should be able to design a basic residential heating and cooling system.

AHR 212 Advanced Comfort Systems	02	06	00	04
---	-----------	-----------	-----------	-----------

Prerequisites: All courses required: AHR 114, AHR 115

Corequisites: None

Component: None

This course covers water-cooled comfort systems, water-source/geothermal heat pumps, and high efficiency heat pump systems including variable speed drives and controls. Emphasis is placed on the application, installation, and servicing of water-source systems and the mechanical and electronic control components of advanced comfort systems. Upon completion, students should be able to test, analyze, and troubleshoot water-cooled comfort systems, water-source/geothermal heat pumps, and high efficiency heat pumps.

AHR 215 Commercial HVAC Controls	01	03	00	02
---	-----------	-----------	-----------	-----------

Prerequisites: AHR 111

Corequisites: None

Component: None

This course introduces HVAC control systems used in commercial applications. Topics include electric/electronic control systems, pneumatic control systems, DDC temperature sensors, humidity sensors, pressure sensors, wiring, controllers, actuators, and controlled devices. Upon completion, students should be able to verify or correct the performance of common control systems with regard to sequence of operation and safety.

AHR 240 Hydronic Heating	01	03	00	02
---------------------------------	-----------	-----------	-----------	-----------

Prerequisites: AHR 112

Corequisites: None

Component: None

This course covers the accepted procedures for proper design, installation, and balance of hydronic heating systems for residential or commercial buildings. Topics include heating equipment; pump, terminal unit, and accessory selection; piping system selection and design; and pipe sizing and troubleshooting. Upon completion, students should be able to assist with the proper design, installation, and balance of typical hydronic systems

AHR 245 Chiller Systems	01	03	00	02
--------------------------------	-----------	-----------	-----------	-----------

Prerequisites: AHR 110

Corequisites: None

Component: None

This course introduces the fundamentals of liquid chilling equipment. Topics include characteristics of water, principles of water chilling, the chiller, the refrigerant, water and piping circuits, freeze prevention, purging, and equipment flexibility. Upon completion, students should be able to describe the components, controls, and overall operation of liquid chilling equipment and perform basic maintenance tasks.

AHR 250 HVAC System Diagnostics	00	04	00	02
--	-----------	-----------	-----------	-----------

Prerequisites: AHR 112

Corequisites: AHR 212

Component: None

This course is a comprehensive study of air conditioning, heating, and refrigeration system diagnostics and corrective measures. Topics include advanced system analysis, measurement of operating efficiency, and inspection and correction of all major system components. Upon completion, students should be able to restore a residential or commercial AHR system so that it operates at or near manufacturers' specifications.

ANT 210 General Anthropology	03	00	00	03
-------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course introduces the physical, archaeological, linguistic, and ethnological fields of anthropology. Topics include human origins, genetic variations, archaeology, linguistics, primatology, and contemporary cultures. Upon completion, students should be able to demonstrate an understanding of the four major fields of anthropology. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

ANT 220 Cultural Anthropology	03	00	00	03
--------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course introduces the nature of human culture. Emphasis is placed on cultural theory, methods of fieldwork, and cross-cultural comparisons in the areas of ethnology, language, and the cultural past. Upon completion, students should be able to demonstrate an understanding of basic cultural processes and how cultural data are

collected and analyzed. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

ANT 221 Comparative Cultures 03 00 00 03

Prerequisites: None
 Corequisites: None
 Component: None

This course provides an ethnographic survey of societies around the world covering their distinctive cultural characteristics and how these relate to cultural change. Emphasis is placed on the similarities and differences in social institutions such as family, economics, politics, education, and religion. Upon completion, students should be able to demonstrate knowledge of a variety of cultural adaptive strategies. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

ANT 230 Physical Anthropology 03 00 00 03

Prerequisites: None
 Corequisites: None
 Component: None

This course introduces the scientific study of human evolution and adaptation. Emphasis is placed on evolutionary theory, population genetics, biocultural adaptation and human variation, as well as non-human primate evolution, morphology, and behavior. Upon completion, students should be able to demonstrate an understanding of the biological and cultural processes which have resulted in the formation of the human species. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

ANT 230A Physical Anthropology Lab 00 02 00 01

Prerequisites: None
 Corequisites: ANT 230
 Component: None

This course provides laboratory work that reinforces the material presented in ANT 230. Emphasis is placed on laboratory exercises which may include fossil identification, genetic analysis, skeletal comparisons, forensics, computer simulations, and field observations. Upon completion, students should be able to demonstrate an understanding of the analytical skills employed by anthropologists in the study of primate evolution and variation. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

ANT 240 Archaeology 03 00 00 03

Prerequisites: None
 Corequisites: None
 Component: None

This course introduces the scientific study of the unwritten record of the human past. Emphasis is placed on the process of human cultural evolution as revealed through archaeological methods of excavation and interpretation. Upon completion, students should be able to demonstrate an understanding of how archaeologists reconstruct the past and describe the variety of past human cultures. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

ARC 111 Introduction to Architectural Technology

CLASS LAB CLINIC CREDIT
HRS HRS HRS HRS

01 06 00 03

Prerequisites: None
 Corequisites: None
 Component: None

This course introduces basic architectural drafting techniques, lettering, use of architectural and engineer scales, and sketching. Topics include orthographic, axonometric, and oblique drawing techniques using architectural plans, elevations, sections, and details; reprographic techniques; and other related topics. Upon completion, students should be able to prepare and print scaled drawings within minimum architectural standards.

ARC 112 Construction Materials & Methods

03 02 00 04

Prerequisites: None
 Corequisites: None
 Component: None

This course introduces construction materials and their methodologies. Topics include construction terminology, materials and their properties, manufacturing processes, construction techniques, and other related topics. Upon completion, students should be able to detail construction assemblies and identify construction materials and properties.

ARC 113 Residential Architectural Tech 01 06 00 03

Prerequisites: ARC 111
 Corequisites: ARC 112
 Component: None

This course covers intermediate residential working drawings. Topics include residential plans, elevations, sections, details, schedules, and other related topics. Upon completion, students should be able to prepare a set of residential working drawings that are within accepted architectural standards.

ARC 114 Architectural CAD 01 03 00 02

Prerequisites: None
 Corequisites: None
 Component: None

This course introduces basic architectural CAD techniques. Topics include basic commands and system hardware and software. Upon completion, students should be able to prepare and plot architectural drawings to scale within accepted architectural standards.

ARC 114A Architectural CAD Lab 00 03 00 01

Prerequisites: None
 Corequisites: ARC 114
 Component: None

This course provides a laboratory setting to enhance architectural CAD skills. Emphasis is placed on further development of commands and system operation. Upon completion, students should be able to prepare and plot scaled architectural drawings.

ARC 131 Building Codes 02 02 00 03

Prerequisites: ARC 112 or CAR 111
 Corequisites: None
 Component: None

This course covers the methods of researching building codes for specific projects. Topics include residential and commercial building

ART 111 Art Appreciation	03	00	00	03					
Prerequisites: None									
Corequisites: None									
Component: None									
This course introduces the origins and historical development of art. Emphasis is placed on the relationship of design principles to various art forms including but not limited to sculpture, painting, and architecture. Upon completion, students should be able to identify and analyze a variety of artistic styles, periods, and media. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.									
ART 114 Art History Survey I	03	00	00	03					
Prerequisites: None									
Corequisites: None									
Component: None									
This course covers the development of art forms from ancient times to the Renaissance. Emphasis is placed on content, terminology, design, and style. Upon completion, students should be able to demonstrate an historical understanding of art as a product reflective of human social development. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.									
ART 115 Art History Survey II	03	00	00	03					
Prerequisites: None									
Corequisites: None									
Component: None									
This course covers the development of art forms from the Renaissance to the present. Emphasis is placed on content, terminology, design, and style. Upon completion, students should be able to demonstrate an historical understanding of art as a product reflective of human social development. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts. This course is also available through the Virtual Learning Community (VLC).									
ART 116 Survey of American Art	03	00	00	03					
Prerequisites: None									
Corequisites: None									
Component: None									
This course covers the development of American art forms from colonial times to the present. Emphasis is placed on architecture, painting, sculpture, graphics, and the decorative arts. Upon completion, students should be able to demonstrate understanding of the history of the American creative experience. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.									
ART 117 Non-Western Art History	03	00	00	03					
Prerequisites: None									
Corequisites: None									
Component: None									
This course introduces non-Western cultural perspectives. Emphasis is placed on, but not limited to, African, Oriental, and Oceanic art forms throughout history. Upon completion, students should be able to demonstrate an historical understanding of art as a product reflective of non-Western social and cultural development. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.									
ART 121 Design I						00	06	00	03
Prerequisites: None									
Corequisites: None									
Component: None									
This course introduces the elements and principles of design as applied to two-dimensional art. Emphasis is placed on the structural elements, the principles of visual organization, and the theories of color mixing and interaction. Upon completion, students should be able to understand and use critical and analytical approaches as they apply to two-dimensional visual art. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.									
ART 122 Design II						00	06	00	03
Prerequisites: ART 121									
Corequisites: None									
Component: None									
This course introduces basic studio problems in three-dimensional visual design. Emphasis is placed on the structural elements and organizational principles as applied to mass and space. Upon completion, students should be able to apply three-dimensional design concepts. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.									
ART 131 Drawing I						00	06	00	03
Prerequisites: None									
Corequisites: None									
Component: None									
This course introduces the language of drawing and the use of various drawing materials. Emphasis is placed on drawing techniques, media, and graphic principles. Upon completion, students should be able to demonstrate competence in the use of graphic form and various drawing processes. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.									
ART 132 Drawing II						00	06	00	03
Prerequisites: ART 131									
Corequisites: None									
Component: None									
This course continues instruction in the language of drawing and the use of various materials. Emphasis is placed on experimentation in the use of drawing techniques, media, and graphic materials. Upon completion, students should be able to demonstrate increased competence in the expressive use of graphic form and techniques. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.									
ART 135 Figure Drawing I						00	06	00	03
Prerequisites: ART 131									
Corequisites: None									
Component: None									
This course introduces rendering the human figure with various drawing materials. Emphasis is placed on the use of the visual elements, anatomy, and proportion in the representation of the draped and undraped figure. Upon completion, students should be able to demonstrate competence in drawing the human figure. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

Corequisites: AST 152A						Corequisites: None				
Component: None						Component: None				
This course is a continuation of AST 151 with primary emphasis beyond the solar system. Topics include the sun, stars, galaxies, and the larger universe, including cosmology. Upon completion, students should be able to demonstrate a working knowledge of astronomy. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.						This course introduces multistage finishes, custom painting, and protective coatings. Topics include base coats, advanced intermediate coats, clear coats, and other related topics. Upon completion, students should be able to identify and apply specialized finishes based on accepted industry standards.				
AST 152A General Astronomy II Lab	00	02	00	01		AUB 121 Non-Structural Damage I	01	04	00	03
Prerequisites: AST 151						Prerequisites: None				
Corequisites: AST 152						Corequisites: None				
Component: None						Component: None				
The course is a laboratory to accompany AST 152. Emphasis is placed on laboratory experiences which enhance the materials presented in AST 152 and which provide practical experience. Upon completion, students should be able to demonstrate a working knowledge of astronomy. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.						This course introduces safety, tools, and the basic fundamentals of body repair. Topics include shop safety, damage analysis, tools and equipment, repair techniques, materials selection, materials usage, and other related topics. Upon completion, students should be able to identify and repair minor direct and indirect damage including removal/repairing/ replacing of body panels to accepted standards.				

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS		CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS	
AUB 122 Non-Structural Damage II	02	06	00	04		AUB 141 Mech & Elec Components I	02	02	00	03
Prerequisites: AUB 121						Prerequisites: None				
Corequisites: None						Corequisites: None				
Component: None						Component: None				
This course covers safety, tools, and advanced body repair. Topics include shop safety, damage analysis, tools and equipment, advanced repair techniques, materials selection, materials usage, movable glass, and other related topics. Upon completion, students should be able to identify and repair or replace direct and indirect damage to accepted standards including movable glass and hardware.						This course covers the basic principles of automotive mechanical and electrical components. Topics include personal and environmental safety and suspension and steering, electrical, brake, heating and air-conditioning, cooling, drive train, and restraint systems. Upon completion, students should be able to identify system components and perform basic system diagnostic checks and/or repairs according to industry standards.				
AUB 131 Structural Damage I	02	04	00	04		AUB 162 Autobody Estimating	01	02	00	02
Prerequisites: None						Prerequisites: None				
Corequisites: None						Corequisites: None				
Component: None						Component: None				
This course introduces safety, equipment, structural damage analysis, and damage repairs. Topics include shop safety, design and construction, structural analysis and measurement, equipment, structural glass, repair techniques, and other related topics. Upon completion, students should be able to analyze and perform repairs to a vehicle which has received light/moderate structural damage.						This course provides a comprehensive study of autobody estimating. Topics include collision damage analysis, industry regulations, flat-rate and estimated time, and collision estimating manuals. Upon completion, students should be able to prepare and interpret a damage report.				
AUB 132 Structural Damage II	02	06	00	04		AUT 113 Automotive Servicing	02	06	00	04
Prerequisites: AUB 131						Prerequisites: None				
Corequisites: None						Corequisites: None				
Component: None						Component: None				
This course provides an in-depth study of structural damage analysis and repairs to vehicles that have received moderate to heavy structural damage. Topics include shop safety, structural analysis and measurement, equipment, structural glass, advanced repair techniques, structural component replacement and alignment, and other related topics. Upon completion, students should be able to analyze and perform repairs according to industry standards.						This course covers diagnostic procedures necessary to determine the nature and cause of auto service problems and the procedures used to repair/replace components. Emphasis is placed on troubleshooting, testing, adjusting, repairing, and replacing components using appropriate test equipment and service information. Upon completion, students should be able to perform a variety of automotive repairs using proper service procedures and operate appropriate equipment.				
AUB 134 Autobody MIG Welding	01	04	00	03		AUT 115 Engine Fundamentals	02	03	00	03
Prerequisites: None						Prerequisites: None				
Corequisites: None						Corequisites: AUT 116				
Component: None						Component: None				
This course covers the terms and procedures for welding the various metals found in today's autobody repair industry with an emphasis on personal/environmental safety. Topics include safety and precautionary measures, setup/operation of MIG equipment, metal identification methods, types of welds/joints, techniques, inspection methods, and other related topics. Upon completion, students should be able to demonstrate a basic knowledge of welding operations and safety procedures according to industry standards.						This course covers the theory, construction, inspection, diagnosis, and repair of internal combustion engines and related systems. Topics include fundamental operating principles of engines and diagnosis, inspection, adjustment, and repair of automotive engines using appropriate service information. Upon completion, students should be able to perform basic diagnosis/repair of automotive engines using appropriate tools, equipment, procedures, and service information.				
AUB 136 Plastics & Adhesives	01	04	00	03		AUT 116 Engine Repair	01	03	00	02
Prerequisites: None						Prerequisites: None				
Corequisites: None						Corequisites: AUT 115				
Component: None						Component: None				
This course covers safety, plastic and adhesive identification, and the various repair methods of automotive plastic components. Topics include safety, identification, preparation, material selection, and the various repair procedures including refinishing. Upon completion, students should be able to identify, remove, repair, and/or replace automotive plastic components in accordance with industry standards.						This course covers service/repair/rebuilding of block, head, and internal engine components. Topics include engine repair/reconditioning using service specifications. Upon completion, students should be able to rebuild/recondition an automobile engine to service specifications.				

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS		CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
AUT 141 Suspension & Steering Systems	02	04	00	04					
Prerequisites: None									
Corequisites: None									
Component: None									
This course covers principles of operation, types, and diagnosis/repair of suspension and steering systems to include steering geometry. Topics include manual and power steering systems and standard and electronically controlled suspension and steering systems. Upon completion, students should be able to service and repair various steering and suspension components, check and adjust various alignment angles, and balance wheels.									
AUT 151 Brake Systems	02	02	00	03					
Prerequisites: None									
Corequisites: AUT 152									
Component: None									
This course covers principles of operation and types, diagnosis, service, and repair of brake systems. Topics include drum and disc brakes involving hydraulic, vacuum boost, hydra-boost, electrically powered boost, and anti-lock and parking brake systems. Upon completion, students should be able to diagnose, service, and repair various automotive braking systems.									
AUT 152 Brake Systems Lab	00	02	00	01					
Prerequisites: None									
Corequisites: AUT 151									
Component: None									
This course provides a laboratory setting to enhance brake system skills. Emphasis is placed on practical experiences that enhance the topics presented in AUT 151. Upon completion, students should be able to apply the laboratory experiences to the concepts presented in AUT 151.									
AUT 161 Electrical Systems	02	06	00	04					
Prerequisites: None									
Corequisites: None									
Component: None									
This course covers basic electrical theory and wiring diagrams, test equipment, and diagnosis/repair/replacement of batteries, starters, alternators, and basic electrical accessories. Topics include diagnosis and repair of battery, starting, charging, lighting, and basic accessory systems problems. Upon completion, students should be able to diagnose, test, and repair the basic electrical components of an automobile.									
AUT 162 Chassis Electrical & Electronics	02	02	00	03					
Prerequisites: None									
Corequisites: One course required: AUT 163, COE 111 or COE 212									
Component: None									
This course covers electrical/electronic diagnosis/repair, including wiring diagrams, instrumentation, and electronic/computer-controlled devices and accessories. Topics include interpreting wiring diagrams and diagnosis and repair of chassis electrical and electronic systems. Upon completion, students should be able to read and interpret wiring diagrams and determine/perform needed repairs on chassis electrical and electronic systems.									
AUT 163 Chassis Electrical & Electronics Lab	00	02	00	01					
Prerequisites: None									
Corequisites: AUT 162									
Component: None									
This course provides a laboratory setting to enhance chassis electrical and electronic system skills. Emphasis is placed on practical experiences that enhance the topics presented in AUT 162. Upon completion, students should be able to apply the laboratory experiences to the concepts presented in AUT 162.									
AUT 164 Automotive Electronics	02	02	00	03					
Prerequisites: AUT 161									
Corequisites: None									
Component: None									
This course covers fundamentals of electrical/electronic circuitry, semi-conductors, and microprocessors. Topics include Ohm's law, circuits, AC/DC current, solid state components, digital applications, and the use of digital multimeters. Upon completion, students should be able to apply Ohm's law to diagnose and repair electrical/electronic circuits using digital multimeters and appropriate service information.									
AUT 171 Heating & Air Conditioning	02	03	00	03					
Prerequisites: None									
Corequisites: None									
Component: None									
This course covers the theory of refrigeration and heating, electrical/electronic/pneumatic controls, and diagnosis/repair of climate control systems. Topics include diagnosis and repair of climate control components and systems, recovery/recycling of refrigerants, and safety and environmental regulations. Upon completion, students should be able to describe the operation, diagnose, and safely service climate control systems using appropriate tools, equipment, and service information.									
AUT 181 Engine Performance-Electrical	02	03	00	03					
Prerequisites: None									
Corequisites: AUT 182									
Component: None									
This course covers the principles, systems, and procedures required for diagnosing and restoring engine performance using electrical/electronics test equipment. Topics include procedures for diagnosis and repair of ignition, emission control, and related electronic systems. Upon completion, students should be able to describe operation of and diagnose/repair ignition/emission control systems using appropriate test equipment and service information.									
AUT 182 Engine Performance-Electrical Lab	00	03	00	01					
Prerequisites: None									
Corequisites: One course required: AUT 181, COE 111 or COE 112									
Component: None									
This course provides a laboratory setting to enhance the skills for diagnosing and restoring engine performance using electrical/electronics test equipment. Emphasis is placed on practical experiences that enhance the topics presented in AUT 181. Upon completion, students should be able to apply the laboratory experiences to the concepts presented in AUT 181.									

AUT 183 Engine Performance-Fuels 02 03 00 03

Prerequisites: None
 Corequisites: AUT 184
 Component: None

This course covers the principles of fuel delivery/management, exhaust/emission systems, and procedures for diagnosing and restoring engine performance using appropriate test equipment. Topics include procedures for diagnosis/repair of fuel delivery/management and exhaust/emission systems using appropriate service information. Upon completion, students should be able to describe, diagnose, and repair engine fuel delivery/management and emission control systems using appropriate service information and diagnostic equipment.

AUT 184 Engine Performance-Fuels Lab 00 03 00 01

Prerequisites: None
 Corequisites: AUT 183
 Component: None

This course provides a laboratory setting to enhance the skills for diagnosing and repairing fuel delivery/management and emission systems. Emphasis is placed on practical experiences that enhance the topics presented in AUT 183. Upon completion, students should be able to apply the laboratory experiences to the concepts presented in AUT 183.

AUT 211 Automotive Machining 02 06 00 04

Prerequisites: AUT 115
 Corequisites: None
 Component: None

This course covers engine machining processes for remanufacturing automotive engines. Emphasis is placed on cylinder head service, machining block surfaces, reconditioning connecting rod assemblies, camshafts, flywheels, and precision measurement. Upon completion, students should be able to explain the operation and proper use of automotive machining equipment.

AUT 221 Automatic Transmissions 02 06 00 04

Prerequisites: None
 Corequisites: None
 Component: None

This course covers operation, diagnosis, service, and repair of automatic transmissions/transaxles. Topics include hydraulic, pneumatic, mechanical, and electrical/electronic operation of automatic drive trains and the use of appropriate service tools and equipment. Upon completion, students should be able to explain operational theory and diagnose and repair automatic drive trains.

AUT 231 Manual Drive Trains/Axles 02 03 00 03

Prerequisites: None
 Corequisites: One course required: AUT 232,
 COE 111 or COE 112
 Component: None

This course covers the operation, diagnosis, and repair of manual transmissions/transaxles, clutches, driveshafts, axles, and final drives. Topics include theory of torque, power flow, and manual drive train service and repair using appropriate service information, tools, and equipment. Upon completion, students should be able to explain operational theory and diagnose and repair manual drive trains.

AUT 232 Manual Drive Trains/Axles Lab

Prerequisites: None
 Corequisites: AUT 231
 Component: None

This course provides a laboratory setting to enhance the skills for diagnosing and repairing manual transmissions/transaxles, clutches, driveshafts, axles, and final drives. Emphasis is placed on practical experiences that enhance the topics presented in AUT 231. Upon completion, students should be able to apply the laboratory experiences to the concepts presented in AUT 231.

AUT 281 Adv Engine Performance 02 02 00 03

Prerequisites: None
 Corequisites: None
 Component: None

This course utilizes service information and specialized test equipment to diagnose/repair power train control systems. Topics include computerized ignition, fuel and emission systems, related diagnostic tools and equipment, data communication networks, and service information. Upon completion, students should be able to perform advanced engine performance diagnosis and repair.

BAF 110 Principles of Banking 03 00 00 03

Prerequisites: None
 Corequisites: None
 Component: None

This course covers the fundamentals of bank functions in a descriptive fashion. Topics include banks and the monetary system, the relationship of banks to depositors, the payment functions, bank loans and accounting, regulations, and examinations. Upon completion, students should be able to demonstrate an understanding of the business of banking from a broad perspective.

BAF 111 Teller Training 03 00 00 03

Prerequisites: None
 Corequisites: None
 Component: None

This course provides an overview of banking teller operations, bank security, and customer relations in preparation for work as a bank teller. Topics include bank profitability, cash and cash handling, checks and other transactions, balancing and setting, and security threats and their detection. Upon completion, students should be able to discuss the components of teller performance and perform effectively as a teller after minimal on-the-job training.

BAF 131 Fund of Bank Lending 03 00 00 03

Prerequisites: ACC 120
 Corequisites: None
 Component: None

This course introduces the basic knowledge and skills needed to be an effective lender. Topics include the functions of the loan interview and credit investigation, the "C"s of credit, elements of loan documentation, and warning signs of problem loans. Upon completion, students should be able to demonstrate an understanding of the credit functions and regulatory issues affecting this key banking function. This course is a unique concentration requirement of the Banking and Finance concentration in the Business Administration program.

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS		CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
BAF 141 Law & Banking: Principles	03	00	00	03					
Prerequisites: None									
Corequisites: None									
Component: None									
This course provides an overview of the legal aspects of banking and the legal framework within which banks function. Topics include the court system, consumer protection, tangible and intangible property ownership, and the legalities and regulations of bank transactions. Upon completion, students should be able to discuss the non-technical aspects of the legal system and how these affect the bank's organization and operation. This course is a unique concentration requirement of the Banking and Finance concentration in the Business Administration program.									
BAF 222 Money and Banking	03	00	00	03					
Prerequisites: None									
Corequisites: None									
Component: None									
This course provides a fundamental treatment of how money and banks function in the US and world economies. Topics include the roles of money in the US economy, the functions of the Federal Reserve Board, and the workings of monetary and fiscal policies. Upon completion, students should be able to explain how the monetary economy functions, how banks are creators of money, and the impact of the Federal Reserve. This course is a unique concentration requirement of the Banking and Finance concentration in the Business Administration program.									
BAF 232 Consumer Lending	03	00	00	03					
Prerequisites: None									
Corequisites: None									
Component: None									
This course details the many types of credit arrangements in which a finance charge is paid for the privilege of repaying debt in delayed payments. Topics include consumer credit policy, the loan process, servicing and collecting loans, consumer compliance, and evaluating credit risks. Upon completion, students should be able to identify collection policies and procedures, explain principles of credit evaluation, define open-end credit, and describe indirect lending.									
BAF 234 Residential Mortgage Lending	03	00	00	03					
Prerequisites: None									
Corequisites: None									
Component: None									
This course provides an overview of the field of mortgage lending and the various financial markets for real estate mortgages. Topics include conventional and government related mortgages, contracts, financial markets, and qualifying prospective loan customers. Upon completion, students should be able to demonstrate an understanding of mortgage loan origination and processing, government regulations, and compliance issues.									
BAF 235 Analyzing Financial Statements	03	00	00	03					
Prerequisites: ACC 120									
Corequisites: None									
Component: None									
This course provides practice in constructing and analyzing long-range, multiple-year forecasts of income statements and balance sheets, and cash budgets. Topics include trend, ratio, common size, comparative analysis, programs, projections, and cash budgets. Upon completion, students should be able to analyze income statements, balance sheets, and pro forma statements.									
BIO 090 Foundations of Biology	03	02	00	04					
Prerequisites: None									
Corequisites: RED 090									
Component: None									
This course introduces basic biological concepts. Topics include basic biochemistry, cell structure and function, interrelationships among organisms, scientific methodology, and other related topics. Upon completion, students should be able to demonstrate preparedness for college-level biology courses.									
BIO 092 Basics of Cell Biology	03	02	00	04					
Prerequisites: None									
Corequisites: RED 090 or COMPASS Reading Score of 68									
Component: None									
This course covers basic cell biology. Emphasis is placed on biological chemistry, cell structure and function, cellular metabolism, genetics, and other related topics. Upon completion, students should be able to demonstrate preparedness for college-level biology courses.									
BIO 094 Concepts of Human Biology	03	02	00	04					
Prerequisites: None									
Corequisites: RED 090 or COMPASS Reading Score of 68									
Component: None									
This course focuses on fundamental concepts of human biology. Topics include terminology, biochemistry, cell biology, tissues, body systems, and other related topics. Upon completion, students should be able to demonstrate preparedness for college-level anatomy and physiology courses.									
BIO 106 Introduction to Anat/Phys/Micro	02	02	00	03					
Prerequisites: None									
Corequisites: None									
Component: None									
This course covers the fundamental and principle concepts of human anatomy and physiology and microbiology. Topics include an introduction to the structure and function of cells, tissues, and human organ systems, and an overview of microbiology, epidemiology, and control of microorganisms. Upon completion, students should be able to identify structures and functions of the human body and describe microorganisms and their significance in health and disease. This course is intended for certificate and diploma programs.									
BIO 110 Principles of Biology	03	03	00	04					
Prerequisites: None									
Corequisites: None									
Component: None									
This course provides a survey of fundamental biological principles for non-science majors. Emphasis is placed on basic chemistry, cell biology, metabolism, genetics, taxonomy, evolution, ecology, diversity, and other related topics. Upon completion, students should be									

able to demonstrate increased knowledge and better understanding of biology as it applies to everyday life. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

BIO 111 General Biology I 03 03 00 04

Prerequisites: None

Corequisites: None

Component: None

This course introduces the principles and concepts of biology. Emphasis is placed on basic biological chemistry, cell structure and function, metabolism and energy transformation, genetics, evolution, classification, and other related topics. Upon completion, students should be able to demonstrate understanding of life at the molecular and cellular levels. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

BIO 112 General Biology II 03 03 00 04

Prerequisites: BIO 111

Corequisites: None

Component: None

This course is a continuation of BIO 111. Emphasis is placed on organisms, biodiversity, plant and animal systems, ecology, and other related topics. Upon completion, students should be able to demonstrate comprehension of life at the organismal and ecological levels. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

BIO 120 Introductory Botany 03 03 00 04

Prerequisites: BIO 111

Corequisites: None

Component: None

This course provides an introduction to the classification, relationships, structure, and function of plants. Topics include reproduction and development of seed and non-seed plants, levels of organization, form and function of systems, and a survey of major taxa. Upon completion, students should be able to demonstrate comprehension of plant form and function, including selected taxa of both seed and non-seed plants. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

BIO 130 Introductory Zoology 03 03 00 04

Prerequisites: BIO 111

Corequisites: None

Component: None

This course provides an introduction to the classification, relationships, structure, and function of major animal phyla. Emphasis is placed on levels of organization, reproduction and development, comparative systems, and a survey of selected phyla. Upon completion, students should be able to demonstrate comprehension of animal form and function including comparative systems of selected groups. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

BIO 140 Environmental Biology 03 00 00 03

Prerequisites: None

Corequisites: BIO 140A

Component: None

This course introduces environmental processes and the influence of human activities upon them. Topics include ecological concepts, population growth, natural resources, and a focus on current environmental problems from scientific, social, political, and economic perspectives. Upon completion, students should be able to demonstrate an understanding of environmental interrelationships and of contemporary environmental issues. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics. This course is also available through the Virtual Learning Community (VLC).

BIO 140A Environmental Biology Lab 00 03 00 01

Prerequisites: None

Corequisites: BIO 140

Component: None

This course provides a laboratory component to complement BIO 140. Emphasis is placed on laboratory and field experience. Upon completion, students should be able to demonstrate a practical understanding of environmental interrelationships and of contemporary environmental issues. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

BIO 161 Intro to Human Biology 03 00 00 03

Prerequisites: OST 141 and OST 142

Corequisites: None

Component: None

This course provides a basic survey of human biology. Emphasis is placed on the basic structure and function of body systems and the medical terminology used to describe normal and pathological states. Upon completion, students should be able to demonstrate an understanding of normal anatomy and physiology and the appropriate use of medical terminology.

BIO 163 Basic Anatomy and Physiology 04 02 00 05

Prerequisites: None

Corequisites: None

Component: None

This course provides a basic study of the structure and function of the human body. Topics include a basic study of the body systems as well as an introduction to homeostasis, cells, tissues, nutrition, acid-base balance, and electrolytes. Upon completion, students should be able to demonstrate a basic understanding of the fundamental principles of anatomy and physiology and their interrelationships. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

Corequisites: None					Corequisites: None				
Component: None					Component: None				
This course introduces the principles of animal biology of the chordate phylum. Emphasis is placed on the diversity, morphology, reproduction, development, behavior, ecology, evolution, and importance of the chordates. Upon completion, students should be able to demonstrate increased knowledge and comprehension of zoology as it applies to life. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.					This course provides experience in selected laboratory procedures. Topics include proper laboratory techniques in biology and chemistry. Upon completion, students should be able to identify laboratory techniques and instrumentation in basic biotechnology. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.				
BIO 240 Waste Management	03	00	00	03	BIO 285 Research & Measurement	02	04	00	04
Prerequisites: One course required: BIO 110 or BIO 111					Prerequisites: BIO 112 and CHM 132				
Corequisites: None					Corequisites: None				
Component: None					Component: None				
This course is a study of human use of and impact on the environment. Topics include how human activities can negatively affect the land and water and how to avoid and cope with waste problems. Upon completion, students should be able to identify both hazardous and nonhazardous waste products and solutions for their management. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.					This course provides an intensive laboratory experience with an investigative approach. Emphasis is placed on the use of various laboratory equipment and field techniques to enhance research and measurement competencies in ecology, natural resources, and other related topics. Upon completion, students should be able to demonstrate competencies with laboratory equipment and prepare a presentation of a selected research topic. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.				
BIO 250 Genetics	03	03	00	04	BPR 111 Blueprint Reading	01	02	00	02
Prerequisites: BIO 112					Prerequisites: None				
Corequisites: None					Corequisites: None				
Component: None					Component: None				
This course covers principles of prokaryotic and eukaryotic cell genetics. Emphasis is placed on the molecular basis of heredity, chromosome structure, patterns of Mendelian and non-Mendelian inheritance, evolution, and biotechnological applications. Upon completion, students should be able to recognize and describe genetic phenomena and demonstrate knowledge of important genetic principles. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a pre-major and/or elective course requirement.					This course introduces the basic principles of blueprint reading. Topics include line types, orthographic projections, dimensioning methods, and notes. Upon completion, students should be able to interpret basic blueprints and visualize the features of a part.				
					BPR 121 Blueprint Reading: Mechanical	01	02	00	02
					Prerequisites: BPR 111				
					Corequisites: None				
					Component: None				
					This course covers the interpretation of intermediate blueprints. Topics include tolerancing, auxiliary views, sectional views, and assembly drawings. Upon completion, students should be able to read and interpret a mechanical working drawing.

BUS 115 Business Law I	03	00	00	03						
Prerequisites: None Corequisites: None Component: None This course introduces the ethics and legal framework of business. Emphasis is placed on contracts, negotiable instruments, Uniform Commercial Code, and the working of the court systems. Upon completion, students should be able to apply ethical issues and laws covered to selected business decision-making situations. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.										
BUS 116 Business Law II	03	00	00	03						
Prerequisites: BUS 115 Corequisites: None Component: None This course continues the study of ethics and business law. Emphasis is placed on bailments, sales, risk-bearing, forms of business ownership, and copyrights. Upon completion, students should be able to apply ethical issues and laws covered to selected business decision-making situations.										
BUS 121 Business Math	02	02	00	03						
Prerequisites: None Corequisites: None Component: None This course covers fundamental mathematical operations and their application to business problems. Topics include payroll, pricing, interest and discount, commission, taxes, and other pertinent uses of mathematics in the field of business. Upon completion, students should be able to apply mathematical concepts to business.										
BUS 125 Personal Finance	03	00	00	03						
Prerequisites: None Corequisites: None Component: None This course provides a study of individual and family financial decisions. Emphasis is placed on building useful skills in buying, managing finances, increasing resources, and coping with current economic conditions. Upon completion, students should be able to develop a personal financial plan.										
BUS 135 Principles of Supervision	03	00	00	03						
Prerequisites: None Corequisites: None Component: None This course introduces the basic responsibilities and duties of the supervisor and his/her relationship to higher-level supervisors, subordinates, and associates. Emphasis is placed on effective utilization of the work force and understanding the role of the supervisor. Upon completion, students should be able to apply supervisory principles in the work place. This course is also available through the Virtual Learning Community (VLC).										
BUS 137 Principles of Management	03	00	00	03						
Prerequisites: None Corequisites: None Component: None This course is designed to be an overview of the major functions of management. Emphasis is placed on planning, organizing, control-										
ling, directing, and communicating. Upon completion, students should be able to work as contributing members of a team utilizing these functions of management.										
BUS 152 Human Relations	03	00	00	03						
Prerequisites: None Corequisites: None Component: None This course introduces the concepts of effective human interaction in the business work environment. Topics include effective communication techniques, motivation, ego states, stress, and conflict. Upon completion, students should be able to explain the importance of human relations, apply motivational techniques, and implement strategies for resolving work-related conflicts.										
BUS 153 Human Resource Management	03	00	00	03						
Prerequisites: None Corequisites: None Component: None This course introduces the functions of personnel/human resource management within an organization. Topics include equal opportunity and the legal environment, recruitment and selection, performance appraisal, employee development, compensation planning, and employee relations. Upon completion, students should be able to anticipate and resolve human resource concerns.										
BUS 217 Employment Law and Regulations	03	00	00	03						
Prerequisites: None Corequisites: None Component: None This course introduces the principle laws and regulations affecting public and private organizations and their employees or prospective employees. Topics include fair employment practices, EEO, affirmative action, and employee rights and protections. Upon completion, students should be able to evaluate organization policy for compliance and assure that decisions are not contrary to law. This course is also available through the Virtual Learning Community (VLC).										
BUS 225 Business Finance	02	02	00	03						
Prerequisites: ACC 120 Corequisites: None Component: None This course provides an overview of business financial management. Emphasis is placed on financial statement analysis, time value of money, management of cash flow, risk and return, and sources of financing. Upon completion, students should be able to interpret and apply the principles of financial management.										
BUS 228 Business Statistics	02	02	00	03						
Prerequisites: One course required: MAT 115, MAT 140 or MAT 161 Corequisites: None Component: None This course introduces the use of statistical methods and tools in evaluating research data for business applications. Emphasis is placed on basic probability, measures of spread and dispersion, central tendency, sampling, regression analysis, and inductive inference. Upon										

completion, students should be able to apply statistical problem solving to business. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

BUS 230 Small Business Management 03 00 00 03

Prerequisites: None

Corequisites: None

Component: None

This course introduces the challenges of entrepreneurship including the startup and operation of a small business. Topics include market research techniques, feasibility studies, site analysis, financing alternatives, and managerial decision making. Upon completion, students should be able to develop a small business plan.

BUS 234 Training and Development 03 00 00 03

Prerequisites: None

Corequisites: None

Component: None

This course covers developing, conducting, and evaluating employee training with attention to adult learning principles. Emphasis is placed on conducting a needs assessment, using various instructional approaches, designing the learning environment, and locating learning resources. Upon completion, students should be able to design, conduct, and evaluate a training program.

BUS 235 Performance Management 03 00 00 03

Prerequisites: None

Corequisites: None

Component: None

This course includes the legal background for performance management and the basic methodology used in developing and validating a performance management system. Emphasis is placed on job analysis, job descriptions, appraisal instruments, and action plans. Upon completion, students should be able to develop, implement, and maintain a performance management system.

BUS 237 Current Management Issues 02 00 00 02

Prerequisites: None

Corequisites: None

Component: None

This course introduces current management issues and problems. Emphasis is placed on the management topics and challenges faced by all employees in an organization. Upon completion, students should be able to critically analyze alternative solutions within a team environment.

BUS 239 Business Applications

Seminar 01 02 00 02

Prerequisites: Take ACC 120, BUS 115, BUS 137, and MKT 120. Take ECO 151 or ECO 251 or ECO252

Corequisites: None

Component: None

This course is designed as a capstone course for Business Administration majors. Emphasis is placed on decision making in the areas of management, marketing, production, purchasing, and finance. Upon completion, students should be able to apply the techniques, processes, and vital professional skills needed in the work place.

CLASS LAB CLINIC CREDIT
HRS HRS HRS HRS

BUS 240 Business Ethics

CLASS LAB CLINIC CREDIT
HRS HRS HRS HRS

03 00 00 03

Prerequisites: None

Corequisites: None

Component: None

This course introduces contemporary and controversial ethical issues that face the business community. Topics include moral reasoning, moral dilemmas, law and morality, equity, justice and fairness, ethical standards, and moral development. Upon completion, students should be able to demonstrate an understanding of their moral responsibilities and obligations as members of the workforce and society.

BUS 252 Labor Relations 03 00 00 03

Prerequisites: None

Corequisites: None

Component: None

This course covers the history of the organized labor movement and the contractual relationship between corporate management and employees represented by a union. Topics include labor laws and unfair labor practices, the role of the NLRB, organizational campaigns, certification/decertification elections, and grievance procedures. Upon completion, students should be able to act in a proactive and collaborative manner in an environment where union representation exists. This course is also available through the Virtual Learning Community (VLC).

BUS 253 Leadership and Management Skills

03 00 00 03

Prerequisites: None

Corequisites: None

Component: None

This course includes a study of the qualities, behaviors, and personal styles exhibited by leaders. Emphasis is placed on coaching, counseling, team building, and employee involvement. Upon completion, students should be able to identify and exhibit the behaviors needed for organizational effectiveness.

BUS 256 Recruit Select & Personnel Planning

03 00 00 03

Prerequisites: None

Corequisites: None

Component: None

This course introduces the basic principles involved in managing the employment process. Topics include personnel planning, recruiting, interviewing and screening techniques, maintaining employee records; and voluntary and involuntary separations. Upon completion, students should be able to acquire and retain employees who match position requirements and fulfill organizational objectives. This course is a unique concentration requirement of the Human Resource Management concentration in the Business Administration program. This course is also available through the Virtual Learning Community (VLC).

BUS 258 Compensation and Benefits 03 00 00 03

Prerequisites: None

Corequisites: None

Component: None

This course is designed to study the basic concepts of pay and its role in rewarding performance. Topics include wage and salary surveys,

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS		CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
CAR 110 Introduction to Carpentry	02	00	00	02					
Prerequisites: None									
Corequisites: None									
Component: None									
This course introduces the student to the carpentry trade. Topics include duties of a carpenter, hand and power tools, building materials, construction methods, and safety. Upon completion, students should be able to identify hand and power tools, common building materials, and basic construction methods.									
CAR 111 Carpentry I	03	15	00	08					
Prerequisites: None									
Corequisites: None									
Component: CAR 111AA, CAR 111BB									
This course introduces the theory and construction methods associated with the building industry, including framing, materials, tools, and equipment. Topics include safety, hand/power tool use, site preparation, measurement and layout, footings and foundations, construction framing, and other related topics. Upon completion, students should be able to safely lay out and perform basic framing skills with supervision.									
CAR 112 Carpentry II	03	15	00	08					
Prerequisites: A set of courses is required: CAR 111 or CAR 111A and CAR 111B									
Corequisites: None									
Component: CAR 112AA, CAR 112BB									
This course covers the advanced theory and construction methods associated with the building industry including framing and exterior finishes. Topics include safety, hand/power tool use, measurement and layout, construction framing, exterior trim and finish, and other related topics. Upon completion, students should be able to safely frame and apply exterior finishes to a residential building with supervision.									
CAR 113 Carpentry III	03	09	00	06					
Prerequisites: A set of courses is required: CAR 111 or CAR 111A and CAR 111B									
Corequisites: None									
Component: None									
This course covers interior trim and finishes. Topics include safety, hand/power tool use, measurement and layout, specialty framing, interior trim and finishes, cabinetry, and other related topics. Upon completion, students should be able to safely install various interior trim and finishes in a residential building with supervision.									
CAR 114 Residential Building Codes	03	00	00	03					
Prerequisites: None									
Corequisites: None									
Component: None									
This course covers building codes and the requirements of state and local construction regulations. Emphasis is placed on the minimum requirements of the North Carolina building codes related to residential structures. Upon completion, students should be able to determine if a structure is in compliance with North Carolina building codes.									
CAR 115 Residential Planning/Estimating	03	00	00	03					
Prerequisites: All Courses Required: BPR 130									
Corequisites: None									
Component: None									
This course covers project planning, management, and estimating for residential or light commercial buildings. Topics include planning and scheduling, interpretation of working drawings and specifications, estimating practices, and other related topics. Upon completion, students should be able to perform quantity take-offs and cost estimates.									
CET 245 Internet Servers	02	03	00	03					
Prerequisites: CSC 134 or CSC 148									
Corequisites: None									
Component: None									
This course covers the setup and management of Internet server hardware and software. Topics include TCP/IP, FTP, SMTP, and SNMP; installation and configuration of server software for WWW, FTP, DNS, news, mail, and listserve services; and other topics. Upon completion, students should be able to set up and maintain Internet servers.									
CHM 081 Basic Chemistry I	03	02	00	04					
Prerequisites: None									
Corequisites: MAT 070									
Component: None									
This course covers basic fundamental principles and laws of chemistry. Topics include matter, energy, atomic structure, periodic classification, nomenclature, bonding, molecular geometry, measurement, chemical reactions, stoichiometry, and gas laws. Upon completion, students should be able to explain and apply the chemical concepts and laboratory skills as needed in CHM 082.									
CHM 082 Basic Chemistry II	03	02	00	04					
Prerequisites: A set of courses is required: CHM 081 or CHM 081C and CHM 081L									
Corequisites: None									
Component: None									
This course provides a continuation of the study of basic fundamental principles and laws of chemistry. Topics include intermolecular forces, solutions, acids and bases, redox reactions, chemical equilibrium, with elements of organic and nuclear chemistry. Upon completion, students should be able to explain and apply basic chemical concepts and laboratory skills needed for success in college-level chemistry courses.									
CHM 090 Chemistry Concepts	04	00	00	04					
Prerequisites: None									
Corequisites: None									
Component: None									
This course provides a non-laboratory based introduction to basic concepts of chemistry. Topics include measurements, matter, energy, atomic theory, bonding, molecular structure, nomenclature, balancing equations, stoichiometry, solutions, acids and bases, gases, and basic organic chemistry. Upon completion, students should be able to understand and apply basic chemical concepts necessary for success in college-level science courses.									

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
CHM 092 Fundamentals of Chemistry	03	02	00	04

Prerequisites: None

Corequisites: None

Component: None

This course covers fundamentals of chemistry with laboratory applications. Topics include measurements, matter, energy, atomic theory, bonding, molecular structure, nomenclature, balancing equations, stoichiometry, solutions, acids and bases, gases, and basic organic chemistry. Upon completion, students should be able to understand and apply basic chemical concepts and demonstrate basic laboratory skills necessary for success in college-level science courses.

CHM 094 Basic Biological Chemistry	03	02	00	04
---	----	----	----	----

Prerequisites: MAT 060

Corequisites: MAT 070

Component: None

This course introduces the chemistry important to biological processes. Emphasis is placed on the aspects of general, organic, and biological chemistry that apply to biological systems and processes. Upon completion, students should be able to demonstrate an understanding of the basic biological chemistry necessary for success in college-level biology courses.

CHM 115 Concepts in Chemistry	03	00	00	03
--------------------------------------	----	----	----	----

Prerequisites: None

Corequisites: None

Component: None

This course introduces basic chemical concepts and their applications to daily life for non-science majors. Topics include air pollution, global warming, energy, world of polymers, water and its importance to a technological society, food, drugs, and nuclear chemistry. Upon completion, students should be able to discuss, apply, and appreciate the impact of chemistry on modern society. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

CHM 115A Concepts in Chemistry Lab	00	02	00	01
---	----	----	----	----

Prerequisites: None

Corequisites: CHM 115

Component: None

This course is a laboratory for CHM 115. Emphasis is placed on laboratory experiences that enhance materials presented in CHM 115. Upon completion, students should be able to utilize basic laboratory procedures and apply them to chemical concepts presented in CHM 115. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

CHM 130 General, Organic, & Biochemistry	03	00	00	03
---	----	----	----	----

Prerequisites: None

Corequisites: CHM 130A

Component: None

This course provides a survey of basic facts and principles of general, organic, and biochemistry. Topics include measurement, molecular structure, nuclear chemistry, solutions, acid-base chemistry, gas laws, and the structure, properties, and reactions of major organic and bio-

logical groups. Upon completion, students should be able to demonstrate an understanding of fundamental chemical concepts. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

CHM 130A General, Organic, & Biochemistry Lab	00	02	00	01
--	----	----	----	----

Prerequisites: None

Corequisites: CHM 130

Component: None

This course is a laboratory for CHM 130. Emphasis is placed on laboratory experiences that enhance materials presented in CHM 130. Upon completion, students should be able to utilize basic laboratory procedures and apply them to chemical principles presented in CHM 130. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

CHM 131 Introduction to Chemistry	03	00	00	03
--	----	----	----	----

Prerequisites: None

Corequisites: CHM 131A

Component:

This course introduces the fundamental concepts of inorganic chemistry. Topics include measurement, matter and energy, atomic and molecular structure, nuclear chemistry, stoichiometry, chemical formulas and reactions, chemical bonding, gas laws, solutions, and acids and bases. Upon completion, students should be able to demonstrate a basic understanding of chemistry as it applies to other fields. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

CHM 131A Introduction to Chemistry Lab	00	03	00	01
---	----	----	----	----

Prerequisites: None

Corequisites: CHM 131

Component: None

This course is a laboratory to accompany CHM 131. Emphasis is placed on laboratory experiences that enhance materials presented in CHM 131. Upon completion, students should be able to utilize basic laboratory procedures and apply them to chemical principles presented in CHM 131. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

CHM 132 Organic and Biochemistry	03	03	00	04
---	----	----	----	----

Prerequisites: CHM 131 and CHM 131A or CHM 151

Corequisites: None

Component: None

This course provides a survey of major functional classes of compounds in organic and biochemistry. Topics include structure, properties, and reactions of the major organic and biological molecules and basic principles of metabolism. Upon completion, students should be able to demonstrate an understanding of fundamental chemical concepts needed to pursue studies in related professional fields. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
CHM 135 Survey of Chemistry I	03	02	00	04

Prerequisites: MAT 070

Corequisites: None

Component: None

This course provides an introduction to inorganic chemistry. Emphasis is placed on measurement, atomic structure, bonding, molecular geometry, nomenclature, reactions, the mole concept, stoichiometric calculations, states of matter, and the gas laws. Upon completion, students should be able to demonstrate a basic understanding of chemistry as it applies to other fields. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

CHM 136 Survey of Chemistry II	03	02	00	04
---------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: CHM 135

Corequisites: None

Component: None

This course is a continuation of CHM 135 with further study of inorganic reactions and an introduction to organic, biological, and nuclear chemistry. Topics include solutions, acid-base theory, redox reactions, chemical kinetics, organic chemistry, biochemistry, and nuclear chemistry. Upon completion, students should be able to demonstrate a basic understanding of chemistry as it applies to other fields. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

CHM 151 General Chemistry I	03	03	00	04
------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: MAT 161

Corequisites: None

Component: None

This course covers fundamental principles and laws of chemistry. Topics include measurement, atomic and molecular structure, periodicity, chemical reactions, chemical bonding, stoichiometry, thermochemistry, gas laws, and solutions. Upon completion, students should be able to demonstrate an understanding of fundamental chemical laws and concepts as needed in CHM 152. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

CHM 152 General Chemistry II	03	03	00	04
-------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: CHM 151

Corequisites: None

Component: None

This course provides a continuation of the study of the fundamental principles and laws of chemistry. Topics include kinetics, equilibrium, ionic and redox equations, acid-base theory, electrochemistry, thermodynamics, introduction to nuclear and organic chemistry, and complex ions. Upon completion, students should be able to demonstrate an understanding of chemical concepts as needed to pursue further study in chemistry and related professional fields. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
CHM 251 Organic Chemistry I	03	03	00	04

Prerequisites: CHM 152

Corequisites: None

Component: None

This course provides a systematic study of the theories, principles, and techniques of organic chemistry. Topics include nomenclature, structure, properties, reactions, and mechanisms of hydrocarbons, alkyl halides, alcohols, and ethers; further topics include isomerization, stereochemistry, and spectroscopy. Upon completion, students should be able to demonstrate an understanding of the fundamental concepts of covered organic topics as needed in CHM 252. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

CHM 252 Organic Chemistry II	03	03	00	04
-------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: CHM 251

Corequisites: None

Component: None

This course provides continuation of the systematic study of the theories, principles, and techniques of organic chemistry. Topics include nomenclature, structure, properties, reactions, and mechanisms of aromatics, aldehydes, ketones, carboxylic acids and derivatives, amines and heterocyclics; multi-step synthesis will be emphasized. Upon completion, students should be able to demonstrate an understanding of organic concepts as needed to pursue further study in chemistry and related professional fields. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

CIS 070 Fundamentals of Computing	00	02	00	01
--	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

This course covers fundamental functions and operations of the computer. Topics include identification of components, overview of operating systems, and other basic computer operations. Upon completion, students should be able to operate computers, access files, print documents and perform basic applications operations.

CIS 110 Introduction to Computers	02	02	00	03
--	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course introduces computer concepts, including fundamental functions and operations of the computer. Topics include identification of hardware components, basic computer operations, security issues, and use of software applications. Upon completion, students should be able to demonstrate an understanding of the role and function of computers and use the computer to solve problems. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural science/mathematics (Quantitative Option). This course is also available through the Virtual Learning Community (VLC).

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS		CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
CIS 111 Basic PC Literacy	01	02	00	02					
Prerequisites: None									
Corequisites: None									
Component: None									
This course provides an overview of computer concepts. Emphasis is placed on the use of personal computers and software applications for personal and fundamental workplace use. Upon completion, students should be able to demonstrate basic personal computer skills. This course is also available through the Virtual Learning Community (VLC).									
CIS 112 Windows (tm)	01	02	00	02					
Prerequisites: None									
Corequisites: None									
Component: None									
This course includes the fundamentals of the Windows™ software. Topics include graphical user interface, icons, directories, file management, accessories, and other applications. Upon completion, students should be able to use Windows™ software in an office environment. This course will become obsolete effective Summer 2007.									
CIS 113 Computer Basics	00	02	00	01					
Prerequisites: None									
Corequisites: None									
Component: None									
This course introduces basic computer usage for non-computer majors. Emphasis is placed on developing basic personal computer skills. Upon completion, students should be able to demonstrate competence in basic computer applications. This course is also available through the Virtual Learning Community (VLC).									
CIS 115 Intro to Prog & Logic	02	03	00	03					
Prerequisites: Take 1 course: MAT 070, MAT 080, MAT 090, MAT 095; MAT 120, MAT 121, MAT 161, MAT 171, or MAT 175									
Corequisites: None									
Component: None									
This course introduces computer programming and problem solving in a structured program logic environment. Topics include language syntax, data types, program organization, problem solving methods, algorithm design, and logic control structures. Upon completion, students should be able to manage files with operating system commands, use top-down algorithm design, and implement algorithmic solutions in a programming language. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural science/mathematics (Quantitative Option). This course is also available through the Virtual Learning Community (VLC).									
CIS 120 Spreadsheet I	02	02	00	03					
Prerequisites: One course required: CIS 110, CIS 111 or OST 137									
Corequisites: None									
Component: None									
This course introduces basic spreadsheet design and development. Topics include writing formulas, using functions, enhancing spreadsheets, creating charts, and printing. Upon completion, students should be able to design and print basic spreadsheets and charts. CIS 120 has been revised to CTS 130 (Spreadsheet) effective Fall 2006. See CTS 130 for course information.									
CIS 122 Introduction to Business Computers	02	02	00	03					
Prerequisites: CIS 110 or CIS 111									
Corequisites: None									
Component: None									
This course provides preparation in solving business problems using computers. Topics include hardware and software concepts, the DOS operating system, Windows(tm), spreadsheets, and communications. Upon completion, students should be able to use DOS commands, navigate a Windows(tm) environment, use spreadsheet capabilities, and access information in a business environment. This course will become obsolete effective Summer 2007.									
CIS 124 DTP Graphics Software	02	02	00	03					
Prerequisites: CIS 110 or CIS 111									
Corequisites: None									
Component: None									
This course introduces graphic design software using a variety of software packages. Emphasis is placed on efficient utilization of software capabilities. Upon completion, students should be able to incorporate appropriate graphic designs into desktop publishing publications.									
CIS 126 Graphics Software Intro	02	02	00	03					
Prerequisites: None									
Corequisites: None									
Component: None									
This course provides an introduction to graphic design and execution of pictorial graphics using a variety of software packages. Emphasis is placed on creation and manipulation of images using graphic design software. Upon completion, students should be able to create graphic designs and incorporate these designs into printed publications.									
CIS 128 Computer Language Survey	03	00	00	03					
Prerequisites: None									
Corequisites: None									
Component: None									
This course provides an opportunity to compare various computer languages. Emphasis is placed on appropriate uses, syntax, and comparative programming. Upon completion, students should be able to select the appropriate language for problem solving. This course will become obsolete effective Summer 2007.									
CIS 130 Survey of Operating Systems	02	03	00	03					
Prerequisites: CIS 110 or CIS 111									
Corequisites: None									
Component: None									
The course covers operating system concepts which are necessary for maintaining and using computer systems. Topics include disk, file, and directory structures; installation and setup; resource allocation, optimization, and configuration; system security; and other related topics. Upon completion, students should be able to install and configure operating systems and optimize performance. CIS 130 has been revised to NOS 110 (Operating System Concepts) effective Fall 2006. See NOS 110 for course information.									

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
CIS 148 Operating Sys - Windows NT	02	02	00	03

Prerequisites: None

Corequisites: CIS 130

Component: None

This course introduces operating systems concepts for the Windows NT operating system. Topics include hardware management, file and memory management, system configuration/optimization, networking options, and utilities. Upon completion, students should be able to perform operating system functions at the single/multi-user support level in a Windows NT environment. This course will become obsolete effective Summer 2007.

CIS 152 Database Concepts & Apps	02	02	00	03
---	-----------	-----------	-----------	-----------

Prerequisites: One course required: CIS 110, CIS 111 or CIS 115

Corequisites: None

Component: None

This course introduces database design and creation using a DBMS product. Topics include database terminology, usage in industry, design theory, types of DBMS models, and creation of simple tables, queries, reports, and forms. Upon completion, students should be able to create simple database tables, queries, reports, and forms which follow acceptable design practices. CIS 152 has been revised to DBA 110 (Database Concepts) effective Fall 2006. See DBA 110 for course information.

CIS 154 Database Utilization	01	02	00	02
-------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: CIS 110 or CIS 111 or OST 137

Corequisites: None

Component: None

This course introduces basic database functions and uses. Emphasis is placed on database manipulation with queries, reports, forms, and some table creation. Upon completion, students should be able to enter and manipulate data from the end-user mode. This course will become obsolete effective Summer 2007.

CIS 157 Database Programming I	02	02	00	03
---------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: All courses required: CIS 152

Corequisites: None

Component: None

This course is designed to develop programming proficiency in a selected DBMS. Emphasis is placed on the DataDefinition Language (DDL) and Data Manipulation Language (DML) of the DBMS as well as on reportgeneration. Upon completion, students should be able to write programs which create, update, and produce reportsrepresentative of industry requirements. CIS 157 has been revised to DBA 120 (Database Programming I) effective Fall 2006. See DBA 120 for course information.

CIS 162 Multimedia Presentation Software	02	02	00	03
---	-----------	-----------	-----------	-----------

Prerequisites: CIS 110 or CIS 111

Corequisites: None

Component: None

This course is designed to integrate visual and audio resources using presentation software in a simple interactive multimedia project. Emphasis is placed upon design and audience considerations, general prototyping, and handling of media resources. Upon completion, students should be able to demonstrate an original interactive multimedia presentation implementing all of these resources in a professional manner.

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
CIS 163 Prog Interfaces Internet	02	02	00	03

Prerequisites: CIS 110 or CIS 111

Corequisites: None

Component: None

This course creates interactive multimedia applications and applets for the Internet using web-specific languages. Emphasis is placed on audio, video, graphic, and network resources and various file formats. Upon completion, students should be able create an interactive multimedia application or applet for the Internet. This course will become obsolete effective Summer 2007.

CIS 169 Business Presentations	01	02	00	02
---------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: CIS 110 or CIS 111

Corequisites: None

Component: None

This course provides hands-on experience with a graphics presentation package. Topics include terminology, effective chart usage, design and layout, integrating hardware components, and enhancing presentations with text and graphics. Upon completion, students should be able to design and demonstrate an effective presentation. This course will become obsolete effective Summer 2007.

CIS 172 Introduction to the Internet	02	03	00	03
---	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course introduces the various navigational tools and services of the Internet. Topics include using Internet protocols, search engines, file compression/decompression, FTP, e-mail, listservers, and other related topics. Upon completion, students should be able to use Internet resources, retrieve/decompress files, and use e-mail, FTP, and other Internet tools. CIS 172 has been revised to WEB 110 (Internet/Web Fundamentals) effective Fall 2006. See WEB 110 for course information.

CIS 174 Network System Manager I	02	02	00	03
---	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course covers effective network management. Topics include Network file system design and security, login scripts and user menus, printing services, e-mail and backup. Upon completion, students should be able to administer an office network system. This course is also available through the Virtual Learning Community (VLC). This course will become obsolete effective Summer 2007.

CIS 175 Network Management I	02	02	00	03
-------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course covers fundamental network administration and system management. Topics include accessing and configuring basic network services, managing directory services, and using network management software. Upon completion, students should be able to apply system administrator skills in developing a network management strategy. This course will become obsolete effective Summer 2007.

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
CIS 215 Hardware Installation/ Maintenance	02	03	00	03
Prerequisites: One course required: CIS 110, CIS 111 or CIS 115				
Corequisites: None				
Component: None				
This course covers the basic hardware of a personal computer, including operations and interactions with software. Topics include component identification, the memory system, peripheral installation and configuration, preventive maintenance, and diagnostics and repair. Upon completion, students should be able to select appropriate computer equipment, upgrade and maintain existing equipment, and troubleshoot and repair non-functioning personal computers. This course will become obsolete effective Summer 2007.				
CIS 216 Software Installation/ Maintenance	01	02	00	02
Prerequisites: CIS 130				
Corequisites: None				
Component: None				
This course introduces the installation and troubleshooting aspects of personal computer software. Emphasis is placed on initial installation and optimization of system software, commercial programs, system configuration files, and device drivers. Upon completion, students should be able to install, upgrade, uninstall, optimize, and troubleshoot personal computer software. CIS 216 has been revised to CTS 220 (Adv Hard/Software Support) effective Fall 2006. See CTS 220 for course information.				
CIS 220 Spreadsheets II	01	02	00	02
Prerequisites: CIS 120				
Corequisites: None				
Component: None				
This course covers advanced spreadsheet design and development. Topics include advanced functions, charting, macros, databases, and linking. Upon completion, students should be able to demonstrate competence in designing complex spreadsheets. CIS 220 has been revised to CTS 230 (Advanced Spreadsheet) effective Fall 2006. See CTS 230 for course information.				
CIS 226 Trends in Technology	01	02	00	02
Prerequisites: None				
Corequisites: None				
Component: None				
This course introduces emerging information systems technologies. Emphasis is placed on evolving technologies and trends in business and industry. Upon completion, students should be able to articulate an understanding of the current trends and issues in emerging technologies for information systems. This course will become obsolete effective Summer 2007.				
CIS 245 Operating System - Multi-User	02	03	00	03
Prerequisites: CIS 130				
Corequisites: None				
Component: None				
This course includes operating systems concepts for multi-user systems. Topics include hardware management, file and memory management, system configuration/optimization, and utilities. Upon completion, students should be able to perform operating system functions in a multi-user environment.				

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
CIS 246 Operating System - UNIX	02	03	00	03
Prerequisites: None				
Corequisites: None				
Component: None				
This course includes operating systems concepts for UNIX operating systems. Topics include hardware management, file and memory management, system configuration/optimization, utilities, and other related topics. Upon completion, students should be able to effectively use the UNIX operating system and its utilities. This course is also available through the Virtual Learning Community (VLC). This course will become obsolete effective Summer 2007.				
CIS 257 Database Programming II	02	02	00	03
Prerequisites: CIS 157				
Corequisites: None				
Component: None				
This course is designed to enhance programming skills developed in CIS 157. Topics include application development with GUI front ends and embedded programming. Upon completion, students should be able to develop a DBMS application which includes a GUI front end and report generation. This course will become obsolete effective Summer 2007.				
CIS 274 Network System Manager II	02	02	00	03
Prerequisites: CIS 174				
Corequisites: None				
Component: None				
This course is a continuation of CIS 174 focusing on advanced network management, configuration, and installation. Emphasis is on server configuration files, startup procedures, server protocol support, memory and performance concepts, and management and maintenance. Upon completion, students should be able to install and upgrade networks and servers for optimal performance. This course has a unique concentration requirement in the Network Administration and Support concentration in the Information Systems program. This course becomes obsolete effective Summer 2007.				
CIS 275 Network Management II	02	02	00	03
Prerequisites: CIS 175				
Corequisites: None				
Component: None				
This course is a continuation of CIS 175 focusing on advanced enterprise networks. Topics include directory service tree planning, management distribution and protection, improving network security, auditing the network, printing, networking, and system administration of an Internet node. Upon completion, students should be able to manage client services and network features and optimize network performance. This course becomes obsolete effective Summer 2007.				
CIS 286 Systems Analysis & Design	03	00	00	03
Prerequisites: All courses required: CIS 115, CIS 152 & CSC 235				
Corequisites: None				
Component: None				
This course examines established and evolving methodologies for the analysis, design, and development of a business information system. Emphasis is on business systems characteristics, managing information systems projects, prototyping, CASE tools, and systems development life cycle phases. Upon completion, students should be able to analyze a problem and design an appropriate solution using a combination of tools and techniques. This course will become obsolete effective Summer 2007.

CIS 287 Network Support	02	02	00	03		CIV 210 Engineering Materials	01	03	00	02
Prerequisites: CIS 274 or CIS 275						Prerequisites: None				
Corequisites: None						Corequisites: None				
Component: None						Component: None				
This course provides experience using CD ROM and on-line research tools and hands-on experience for advanced hardware support and trouble shooting. Emphasis is placed on troubleshooting network adapter cards and cabling, network storage devices, the DOS workstation, and network printing. Upon completion, students should be able to analyze, diagnose, and fix network hardware problems. This course has is a unique concentration requirement in the Network Administration and Support concentration in the Information Systems program. This course will become obsolete effective Summer 2007.						This course covers the behavior and properties of Portland cement and asphaltic concretes and laboratory and field testing. Topics include cementing agents and aggregates; water and admixtures; proportioning, production, placing, consolidation, and curing; and inspection methods. Upon completion, students should be able to proportion concrete mixes to attain predetermined strengths and other properties and perform standard control tests.				
CIS 288 Systems Project	01	04	00	03		CIV 211 Hydraulics and Hydrology	02	03	00	03
Prerequisites: CIS 286						Prerequisites: All courses required: CIV 110, PHY 131C and PHY 131L				
Corequisites: None						Corequisites: None				
Component: None						Component: None				
This course provides an opportunity to complete a significant systems project from the design phase through implementation with minimal instructor support. Emphasis is placed on project definition, documentation, installation, testing, presentation, and training. Upon completion, students should be able to complete a project from the definition phase through implementation. This course will become obsolete effective Summer 2007.						This course introduces the basic engineering principles and characteristics of hydraulics and hydrology. Topics include precipitation and runoff, fluid statics and dynamics, flow measurement, and pipe and open channel flow. Upon completion, students should be able to analyze and size drainage structures.				
CIV 110 Statics/Strength of Materials	02	06	00	04		CIV 212 Environmental Planning	02	03	00	03
Prerequisites: MAT 121						Prerequisites: CIV 211				
Corequisites: None						Corequisites: None				
Component: None						Component: None				
This course includes vector analysis, equilibrium of force systems, friction, sectional properties, stress/strain, and deformation. Topics include resultants and components of forces, moments and couples, free-body diagrams, shear and moment diagrams, trusses, frames, beams, columns, connections, and combined stresses. Upon completion, students should be able to analyze simple structures.						This course covers water and wastewater technology, erosion and sedimentation control, and other related topics. Topics include collection, treatment, and distribution of water and wastewater and erosion and sedimentation control law. Upon completion, students should be able to demonstrate knowledge of water and wastewater systems and prepare erosion and sedimentation control plans.				
CIV 111 Soils and Foundations	02	03	00	03		CIV 222 Reinforced Concrete	02	03	00	03
Prerequisites: CIV 110						Prerequisites: CIV 110				
Corequisites: None						Corequisites: None				
Component: None						Component: None				
This course presents an overview of soil as a construction material using both analysis and testing procedures. Topics include index properties, classification, stress analysis, compressibility, compaction, dewatering, excavation, stabilization, settlement, and foundations. Upon completion, students should be able to perform basic soil tests and analyze engineering properties of soil.						This course introduces the basic elements of reinforced concrete and masonry structures. Topics include analysis and design of reinforced concrete beams, slabs, columns, footings, and retaining walls; load-bearing masonry walls; and ACI manuals and codes. Upon completion, students should be able to analyze and design components of a structure using reinforced concrete and masonry elements and utilize appropriate ACI publications.				
CIV 125 Civil/Surveying CAD	01	06	00	03		CIV 230 Construction Estimating	02	03	00	03
Prerequisites: CIS 111, ERG 115, and SRV 110						Prerequisites: One course required: CIS 110, CIS 111 or ERG 115				
Corequisites:						Corequisites: None				
Component: None						Component: None				
This course introduces civil/surveying computer-aided drafting (CAD) software. Topics include drawing, editing, and dimensioning commands; plotting; and other related civil/surveying topics. Upon completion, students should be able to produce civil/surveying drawings using CAD software.						This course covers quantity take-offs of labor, materials, and equipment and calculation of direct and overhead costs for a construction project. Topics include the interpretation of working drawings and specifications, types of contracts and estimates, building codes, bidding techniques and procedures, and estimating software. Upon completion, students should be able to prepare a detailed cost estimate and bid documents for a construction project.				

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
CIV 240 Project Management	02	03	00	03

Prerequisites: CIV 210 and EGR 115
 Corequisites: None
 Component: None

This course introduces construction planning and scheduling techniques and project management software. Topics include construction safety, operation analysis, construction scheduling, construction control systems, claims and dispute resolutions, project records, and documentation. Upon completion, students should be able to demonstrate an understanding of the roles of construction project participants, maintain construction records, and prepare construction schedules.

CIV 250 Civil Eng Technology Project	01	03	00	02
---	-----------	-----------	-----------	-----------

Prerequisites: Departmental approval
 Corequisites: None
 Component: None

This course includes an integrated team approach to civil engineering technology projects. Emphasis is placed on project proposal, site selection, analysis/design of structures, construction material selection, time and cost estimating, planning, and management of a project. Upon completion, students should be able to apply team concepts, prepare estimates, submit bid proposals, and manage projects.

CJC 100 Basic Law Enforcement Training	08	30	00	18
---	-----------	-----------	-----------	-----------

Prerequisites: None
 Corequisites: None
 Component: None

This course covers the skills and knowledge needed for entry-level employment as a law enforcement officer in North Carolina. Topics are divided into general units of study: legal, patrol duties, law enforcement communications, investigations, practical application and sheriff-specific. Upon successful completion, the student will be able to demonstrate competence in topics and areas required for the state comprehensive certification examination. This is a certificate-level course.

CJC 111 Introduction to Criminal Justice	03	00	00	03
---	-----------	-----------	-----------	-----------

Prerequisites: None
 Corequisites: None
 Component: None

This course introduces the components and processes of the criminal justice system. Topics include history, structure, functions, and philosophy of the criminal justice system and their relationship to life in our society. Upon completion, students should be able to define and describe the major system components and their interrelationships and evaluate career options. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

CJC 112 Criminology	03	00	00	03
----------------------------	-----------	-----------	-----------	-----------

Prerequisites: None
 Corequisites: None
 Component: None

This course introduces deviant behavior as it relates to criminal activity. Topics include theories of crime causation; statistical analy-

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
sis of criminal behavior; past, present, and future social control initiatives; and other related topics. Upon completion, students should be able to explain and discuss various theories of crime causation and societal response.				

CJC 113 Juvenile Justice	03	00	00	03
---------------------------------	-----------	-----------	-----------	-----------

Prerequisites: None
 Corequisites: None
 Component: None

This course covers the juvenile justice system and related juvenile issues. Topics include an overview of the juvenile justice system, treatment and prevention programs, special areas and laws unique to juveniles, and other related topics. Upon completion, students should be able to identify/discuss juvenile court structure/procedures, function and jurisdiction of juvenile agencies, processing/detention of juveniles, and case disposition. This course is also available through the Virtual Learning Community (VLC).

CJC 114 Investigative Photography	01	02	00	02
--	-----------	-----------	-----------	-----------

Prerequisites: None
 Corequisites: None
 Component: None

This course covers the operation of various photographic equipment and its application to criminal justice. Topics include using various cameras, proper exposure of film, developing film/prints, and preparing photographic evidence. Upon completion, students should be able to demonstrate and explain the role of photography and proper film exposure and development techniques.

CJC 116 Introduction to Information Security	03	00	00	03
---	-----------	-----------	-----------	-----------

Prerequisites: CIS 110 or CIS 111
 Corequisites: None
 Component: None

This course introduces the students to undercover techniques necessary to identify information security breaches and establish, maintain and monitor information security systems. Emphasis will be placed on the investigative tools used to collect evidence in cases of illegal activity. Upon completion students should be able to evaluate information systems, identify security problems and provide procedures to guard against security breaches. This course is a unique concentration requirement in the Financial Crime/Computer Fraud concentration in the Criminal Justice Technology Program.

CJC 121 Law Enforcement Operations	03	00	00	03
---	-----------	-----------	-----------	-----------

Prerequisites: None
 Corequisites: None
 Component: None

This course introduces fundamental law enforcement operations. Topics include the contemporary evolution of law enforcement operations and related issues. Upon completion, students should be able to explain theories, practices, and issues related to law enforcement operations. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
CJC 122 Community Policing	03	00	00	03

Prerequisites: None
 Corequisites: None
 Component: None

This course covers the historical, philosophical, and practical dimensions of community policing. Emphasis is placed on the empowerment of police and the community to find solutions to problems by forming partnerships. Upon completion, students should be able to define community policing, describe how community policing strategies solve problems, and compare community policing to traditional policing.

CJC 131 Criminal Law	03	00	00	03
-----------------------------	----	----	----	----

Prerequisites: None
 Corequisites: None
 Component: None

This course covers the history/evolution/principles and contemporary applications of criminal law. Topics include sources of substantive law, classification of crimes, parties to crime, elements of crimes, matters of criminal responsibility, and other related topics. Upon completion, students should be able to discuss the sources of law and identify, interpret, and apply the appropriate statutes/elements.

CJC 132 Court Procedure & Evidence	03	00	00	03
---	----	----	----	----

Prerequisites: None
 Corequisites: None
 Component: None

This course covers judicial structure/process/procedure from incident to disposition, kinds and degrees of evidence, and the rules governing admissibility of evidence in court. Topics include consideration of state and federal courts, arrest, search and seizure laws, exclusionary and statutory rules of evidence, and other related issues. Upon completion, students should be able to identify and discuss procedures necessary to establish a lawful arrest/search, proper judicial procedures, and the admissibility of evidence.

CJC 141 Corrections	03	00	00	03
----------------------------	----	----	----	----

Prerequisites: None
 Corequisites: None
 Component: None

This course covers the history, major philosophies, components, and current practices and problems of the field of corrections. Topics include historical evolution, functions of the various components, alternatives to incarceration, treatment programs, inmate control, and other related topics. Upon completion, students should be able to explain the various components, processes, and functions of the correctional system. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

CJC 144 Crime Scene Processing	02	03	00	03
---------------------------------------	----	----	----	----

Prerequisites: None
 Corequisites: None
 Component: None

This course introduces the theories and practices of crime scene processing and investigating. Topics include legal considerations at the crime scene, processing indoor and outdoor scenes, recording, note taking, collection and preservation of evidence and submission to

the crime laboratory. Upon completion, the student should be able to evaluate and search various crime scenes and demonstrate the appropriate techniques.

CJC 145 Crime Scene CAD	02	03	00	03
--------------------------------	----	----	----	----

Prerequisites: None
 Corequisites: None
 Component: None

This course introduces the student to CAD software for crime scenes. Topics include drawing, editing, file management and drafting theory and practices. Upon completion, students should be able to produce and plot a crime scene drawing.

CJC 146 Trace Evidence	02	03	00	03
-------------------------------	----	----	----	----

Prerequisites: None
 Corequisites: None
 Component: None

This course provides a study of trace evidence as it relates to forensic science. Topics include collection, packaging, and preservation of trace evidence from crime scenes such as bombings, fires and other scenes. Upon completion, students should be able to demonstrate the fundamental concepts of trace evidence collection, preservation and submission to the crime laboratory.

CJC 151 Introduction to Loss Prevention	03	00	00	03
--	----	----	----	----

Prerequisites: None
 Corequisites: None
 Component: None

This course introduces the concepts and methods related to commercial and private security systems. Topics include the historical, philosophical, and legal basis of security, with emphasis on security surveys, risk analysis, and associated functions. Upon completion, students should be able to demonstrate and understand security systems, risk management, and the laws relative to loss prevention.

CJC 211 Counseling	03	00	00	03
---------------------------	----	----	----	----

Prerequisites: None
 Corequisites: None
 Component: None

This course introduces the basic elements of counseling and specific techniques applicable to the criminal justice setting. Topics include observation, listening, recording, interviewing, and problem exploration necessary to form effective helping relationships. Upon completion, students should be able to discuss and demonstrate the basic techniques of counseling.

CJC 212 Ethics & Comm Relations	03	00	00	03
--	----	----	----	----

Prerequisites: None
 Corequisites: None
 Component: None

This course covers ethical considerations and accepted standards applicable to criminal justice organizations and professionals. Topics include ethical systems; social change, values, and norms; cultural diversity; citizen involvement in criminal justice issues; and other related topics. Upon completion, students should be able to apply ethical considerations to the decision-making process in identifiable criminal justice situations. This course is also available through the Virtual Learning Community (VLC).

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
CJC 213 Substance Abuse	03	00	00	03

Prerequisites: None
 Corequisites: None
 Component: None

This course is a study of substance abuse in our society. Topics include the history and classifications of drug abuse and the social, physical, and psychological impact of drug abuse. Upon completion, students should be able to identify various types of drugs, their effects on human behavior and society, and treatment modalities.

CJC 214 Victimology	03	00	00	03
----------------------------	-----------	-----------	-----------	-----------

Prerequisites: None
 Corequisites: None
 Component: None

This course introduces the study of victims. Emphasis is placed on roles/characteristics of victims, victim interaction with the criminal justice system and society, current victim assistance programs, and other related topics. Upon completion, students should be able to discuss and identify victims, the uniqueness of victims' roles, and current victim assistance programs.

CJC 215 Organization & Administration	03	00	00	03
--	-----------	-----------	-----------	-----------

Prerequisites: None
 Corequisites: None
 Component: None

This course introduces the components and functions of organization and administration as it applies to the agencies of the criminal justice system. Topics include operations/functions of organizations; recruiting, training, and retention of personnel; funding and budgeting; communications; span of control and discretion; and other related topics. Upon completion, students should be able to identify and discuss the basic components and functions of a criminal justice organization and its administrative operations.

CJC 216 Computer System Security Investigation	03	00	00	03
---	-----------	-----------	-----------	-----------

Prerequisites: CJC 116
 Corequisites: None
 Component: None

This course covers the investigation of illegal activity affecting computer systems and security. Emphasis will be placed on design techniques, security architecture, discretionary and mandatory controls, memory protection, distributed systems and legal issues pertaining to computer operations security. Upon completion, students should be able to recognize and identify potential problem areas in computer systems and provide assistance in solving security problems. This course is a unique concentration requirement in the Financial Crime/Computer Fraud concentration in the Criminal Justice Technology Program.

CJC 217 Net Security Troubleshooting	03	00	00	03
---	-----------	-----------	-----------	-----------

Prerequisites: CJC 216
 Corequisites:
 Component: None

This course enables students to apply the investigative skills they have learned to operating systems and networks. Topics will include security technologies for multiple platforms, encryption techniques

and authentication and key distribution systems. Upon completion, students will be able to contrast competing schemes and describe mistakes made in design, which could lead to criminal activity. This course is a unique concentration requirement in the Financial Crime/Computer Fraud concentration in the Criminal Justice Technology Program.

CJC 221 Investigative Principles	03	02	00	04
---	-----------	-----------	-----------	-----------

Prerequisites: None
 Corequisites: None
 Component: None

This course introduces the theories and fundamentals of the investigative process. Topics include crime scene/incident processing, information gathering techniques, collection/preservation of evidence, preparation of appropriate reports, court presentations, and other related topics. Upon completion, students should be able to identify, explain, and demonstrate the techniques of the investigative process, report preparation, and courtroom presentation.

CJC 222 Criminalistics	03	00	00	03
-------------------------------	-----------	-----------	-----------	-----------

Prerequisites: None
 Corequisites: None
 Component: None

This course covers the functions of the forensic laboratory and its relationship to successful criminal investigations and prosecutions. Topics include advanced crime scene processing, investigative techniques, current forensic technologies, and other related topics. Upon completion, students should be able to identify and collect relevant evidence at simulated crime scenes and request appropriate laboratory analysis of submitted evidence.

CJC 223 Organized Crime	03	00	00	03
--------------------------------	-----------	-----------	-----------	-----------

Prerequisites: None
 Corequisites: None
 Component: None

This course introduces the evolution of traditional and non-traditional organized crime and its effect on society and the criminal justice system. Topics include identifying individuals and groups involved in organized crime, areas of criminal activity, legal and political responses to organized crime, and other related topics. Upon completion, students should be able to identify the groups and activities involved in organized crime and the responses of the criminal justice system.

CJC 225 Crisis Intervention	03	00	00	03
------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: None
 Corequisites: None
 Component: None

This course introduces critical incident intervention and management techniques as they apply to operational criminal justice practitioners. Emphasis is placed on the victim/offender situation as well as job-related high stress, dangerous, or problem-solving citizen contacts. Upon completion, students should be able to provide insightful analysis of emotional, violent, drug-induced, and other critical and/or stressful incidents that require field analysis and/or resolution.

This course covers liability issues for the criminal justice professional. Topics include civil rights violations, tort liability, employment issues, and other related topics. Upon completion, students should be able to explain civil trial procedures and discuss contemporary liability issues.						This course introduces the theories and processes of advanced friction ridge analysis. Topics include evaluation of friction ridges, chart preparation, comparative analysis for valued determination rendering proper identification, chemical enhancement and AFIS preparation and usage. Upon completion, students must show an understanding of proper procedures for friction ridge analysis through written testing and practical exercises.				
CJC 233 Correctional Law	03	00	00	03		CJC 249 Forensic Accounting	03	02	00	04
Prerequisites: None						Prerequisites: ACC 220				
Corequisites: None						Corequisites: None				
Component: None						Component: None				
This course introduces statutory/case law pertinent to correctional concepts, facilities, and related practices. Topics include examination of major legal issues encompassing incarceration, probation, parole, restitution, pardon, restoration of rights, and other related topics. Upon completion, students should be able to identify/discuss legal issues which directly affect correctional systems and personnel.						This course introduces students to theoretical and practical aspects of asset and cash control investigations through internal audit and fraud investigation procedure used in corporate investigation. The emphasis is placed on procedures used to identify the absence of proper controls or the existence of improper activity, which creates illegal activity. Upon completion, students will be able to conduct fraud investigations including the collection of evidence and preparation of the case for criminal prosecution. This course is a unique concentration requirement in the Financial Crime/Computer Fraud concentration in the Criminal Justice Technology Program.

Prerequisites: None						Prerequisites: None				
Corequisites: None						Corequisites: BIO 110 or BIO 111				
Component: None						Component: None				
This course covers programs for convicted offenders that are used both as alternatives to incarceration and in post-incarceration situations. Topics include offenders, diversion, house arrest, restitution, community service, probation and parole, including both public and private participation, and other related topics. Upon completion, students should be able to identify/discuss the various programs from the perspective of the criminal justice professional, the offender, and the community.						This course covers important biological principles that are applied in the crime laboratory. Topics include forensic toxicology, forensic serology, microscopy, and DNA typing analysis, with an overview of organic and inorganic analysis. Upon completion, students should be able to articulate how a crime laboratory processes physical evidence submitted by law enforcement agencies.				
CJC 244 Footwear and Tire Imprints	02	03	00	03		CJC 251 Forensic Chemistry I	03	02	00	04
Prerequisites: None						Prerequisites: None				
Corequisites: None						Corequisites: None				
Component: None						Component: None				
This course provides a study of the fundamental concepts of footwear and tire imprint evidence as related to forensic science. Topics include proper photographic recording, casting, recognition of wear patterns and imprint identification. Upon completion, the student should be able to recognize, record, photograph, and identify footwear and tire imprints.						This course provides a study of the fundamental concepts of chemistry as it relates to forensic science. Topics include physical and chemical properties of substances, metric measurements, chemical changes, elements, compounds, gases, and atomic structure. Upon completion, students should be able to demonstrate an understanding of the fundamental concepts of forensic chemistry.

COM 110 Introduction to Communication

03 00 00 03

Prerequisites: None

Corequisites: None

Component: None

This course provides an overview of the basic concepts of communication and the skills necessary to communicate in various contexts. Emphasis is placed on communication theories and techniques used in interpersonal group, public, intercultural, and mass communication situations. Upon completion, students should be able to explain and illustrate the forms and purposes of human communication in a variety of contexts. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

COM 120 Interpersonal Communication

03 00 00 03

Prerequisites: None

Corequisites: None

Component: None

This course introduces the practices and principles of interpersonal communication in both dyadic and group settings. Emphasis is placed on the communication process, perception, listening, self-disclosure, speech apprehension, ethics, nonverbal communication, conflict, power, and dysfunctional communication relationships. Upon completion, students should be able to demonstrate interpersonal communication skills, apply basic principles of group discussion, and manage conflict in interpersonal communication situations. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

COM 231 Public Speaking

03 00 00 03

Prerequisites: None

Corequisites: None

Component: None

This course provides instruction and experience in preparation and delivery of speeches within a public setting and group discussion. Emphasis is placed on research, preparation, delivery, and evaluation of informative, persuasive, and special occasion public speaking. Upon completion, students should be able to prepare and deliver well-organized speeches and participate in group discussion with appropriate audiovisual support. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts. This course is also available through the Virtual Learning Community (VLC).

object-oriented tools such as the class debugger. Upon completion, students should be able to design, code, test, debug, and implement objects using the appropriate environment at a beginning level.

CSC 142 Visual COBOL

Programming	02	03	00	03
--------------------	-----------	-----------	-----------	-----------

Prerequisites: CIS 115

Corequisites: None

Component: None

This course introduces computer programming using the Visual COBOL programming language with structured programming principles. Topics include input/output operations, iteration, arithmetic operations, arrays, pointers, filters, and other related topics. Upon completion, students should be able to design, code, test and debug at a beginning level.

CSC 148 JAVA Programming	02	03	00	03
---------------------------------	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course introduces computer programming using the JAVA language. Topics include selection, iteration, arithmetic and logical operators, classes, inheritance, methods, arrays, user interfaces, basic applet creation and other related topics. Upon completion, students should be able to design, code, test, and debug JAVA language programs. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement. This course is also available through the Virtual Learning Community (VLC). CSC 148 has been revised to CSC 151 (JAVA Programming) effective Fall 2006. See CSC 151 for course information.

CSC 151 JAVA Programming	02	03	00	03
---------------------------------	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course introduces computer programming using the JAVA programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

CSC 160 Introduction to Internet

Programming	02	02	00	03
--------------------	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course introduces client-side Internet programming using HTML and Javascript. Topics include use of frames and tables, use of meta tags, Javascript techniques for site navigation. Upon completion, students should be able to write HTML documents that incorporate programming to provide web page organization and navigation functions. CSC 160 has been revised to WEB 115 (Web Markup and Scripting) effective Fall 2006. See WEB 115 for course information.

CSC 175 PHP Programming

CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
02	03	00	03

Prerequisites: None

Corequisites: None

Component: None

This course introduces students to the server-side, HTML-embedded scripting language PHP. Emphasis is placed on programming techniques required to create dynamic web pages using PHP scripting language features. Upon completion, students should be able to design, code, test, debug, and create a dynamic web site using the PHP scripting language. CSC 175 has been revised to WEB 182 (PHP Programming) effective Fall 2006. See WEB 182 for course information.

CSC 185 Perl Programming	02	03	00	03
---------------------------------	-----------	-----------	-----------	-----------

Prerequisites: One course required: CSC 134 or CSC 148 or CSC 160

Corequisites: None

Component: None

This course introduces students to the Perl Programming language. Topics include programming techniques using CGI script, input/output operations, sequence, iteration, selection, arithmetic operations, subroutines, modules, integrating database, pattern matching and other related topics. Upon completion, students should be able to design, code, test, and debug Perl language programs. CSC 185 has been revised to WEB 183 (Perl Programming) effective Fall 2006. See WEB 183 for course information.

CSC 234 Advanced C++	02	03	00	03
-----------------------------	-----------	-----------	-----------	-----------

Prerequisites: CSC 134

Corequisites: None

Component: None

This course is a continuation of CSC 134 using the C++ programming language with standard programming principles. Emphasis is placed on advanced arrays/tables, file management/processing techniques, data structures, sub-programs, interactive processing, sort/merge routines, and libraries. Upon completion, students should be able to design, code, test, debug and document programming solutions.

CSC 235 Advanced COBOL	02	03	00	03
-------------------------------	-----------	-----------	-----------	-----------

Prerequisites: CSC 135

Corequisites: None

Component: None

This course is a continuation of CSC 135 using the COBOL programming language with structured programming principles. Emphasis is placed on advanced arrays/tables, file management/processing techniques, data structures, sub-programs, interactive processing, sort/merge routines, and libraries. Upon completion, students should be able to design, code, test, debug and document programming solutions.

CSC 238 Advanced RPG	02	03	00	03
-----------------------------	-----------	-----------	-----------	-----------

Prerequisites: CSC 138

Corequisites: None

Component: None

This course is a continuation of CSC 138 using the RPG programming language with structured programming principles. Emphasis is placed on advanced arrays/tables, file management/processing tech-

niques, data structures, sub-programs, interactive processing, sort/merge routines, and libraries. Upon completion, students should be able to design, code, test, debug and document programming solutions.

CSC 239 Advanced Visual BASIC 02 03 00 03

Prerequisites: CSC 139

Corequisites: None

Component: None

This course is a continuation of CSC 139 using the Visual BASIC programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. Upon completion, students should be able to design, code, test, debug, and implement objects using the appropriate environment. This course is also available through the Virtual Learning Community (VLC).

CSC 241 Advanced Visual C++ 02 03 00 03

Prerequisites: CSC 141

Corequisites: None

Component: None

This course is a continuation of CSC 141 using the Visual C++ programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. Upon completion, students should be able to design, code, test, debug, and implement objects using the appropriate environment.

CSC 242 Advanced Visual COBOL 02 03 00 03

Prerequisites: CSC 142

Corequisites: None

Component: None

This course is a continuation of CSC 142 using the Visual COBOL programming language with structured programming principles. Emphasis is placed on advanced arrays/tables, file management/processing techniques, data structures, sub-programs, interactive processing, sort/merge routines, and libraries. Upon completion, students should be able to design, code, test, debug and document programming solutions.

CSC 248 Advanced Internet Programming 02 03 00 03

Prerequisites: CSC 134 or CSC 140 or CSC 141
or CSC 148 or CSC 160

Corequisites: None

Component: None

This course covers advanced programming skills required to design Internet applications. Emphasis is placed on programming techniques required to support network applications. Upon completion, students should be able to design, code, debug, and document network-based programming solutions to various real-world problems using an appropriate programming language. This course will become obsolete effective Summer 2007.

CLASS LAB CLINIC CREDIT
HRS HRS HRS HRS

CSC 251 Adv JAVA Programming 02 03 00 03

Prerequisites: CSC 151

Corequisites: None

Component: None

This course is a continuation of CSC 151 using the JAVA programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. Upon completion, students should be able to design, code, test, debug, and implement objects using the appropriate environment.

CSC 258 JAVA Enterprise Programs 02 03 00 03

Prerequisites: CSC 151

Corequisites: None

Component: None

This course provides a continuation to CSC 151 using the Java Enterprise Edition (JEE) programming architecture. Topics include distributed network applications, database connectivity, Enterprise Java Beans, servlets, collection frameworks, JNDI, RMI, JSP, multi-threading XML and multimedia development. Upon completion, students should be able to program a client/server enterprise application using the JEE framework.

CSC 289 Programming Capstone Proj 01 04 00 03

Prerequisites: CTS 285

Corequisites: None

Component: None

This course provides an opportunity to complete a significant programming project from the design phase through implementation with minimal instructor support. Emphasis is placed on project definition, testing, presentation, and implementation. Upon completion, students should be able to complete a project from the definition phase through implementation.

CST 111 Construction I 03 03 00 04

Prerequisites: None

Corequisites: None

Component: None

This course covers standard and alternative building methods to include wall framing. Topics include safety and footings, foundations, floor framing systems, and wall framing systems commonly used in the construction industry. Upon completion, students should be able to safely erect all framing necessary to begin roof framing.

CST 112 Construction II 03 03 00 04

Prerequisites: CST 111

Corequisites: None

Component: None

This course covers building methods and materials used to dry-in a building. Topics include safety, ceiling/roof framing applications, roof finishes, windows, and exterior doors. Upon completion, students should be able to safely erect different roof types and properly install windows and exterior doors, roofing, and exterior finish materials.

CST 131 OSHA/Safety/Certification	02	02	00	03		CTS 120 Hardware/Software Support	02	03	00	03
Prerequisites: None						Prerequisites: CIS 110 or CIS 111				
Corequisites: None						Corequisites: None				
Component: None						Component: None				
This course covers the concepts of work site safety. Topics include OSHA regulations, tool safety, and certifications which relate to the construction industry. Upon completion, students should be able to identify and maintain a safe working environment based on OSHA regulations and maintain proper records and certifications.						This course covers the basic hardware of a personal computer, including installation, operations and interactions with software. Topics include component identification, memory-system, peripheral installation and configuration, preventive maintenance, hardware diagnostics/repair, installation and optimization of system software, commercial programs, system configuration, and device-drivers. Upon completion, students should be able to select appropriate computer equipment and software, upgrade/maintain existing equipment and software, and troubleshoot/repair non-functioning personal computers.				
CST 211 Construction Surveying	02	03	00	03		CTS 130 Spreadsheet	02	02	00	03
Prerequisites: MAT 120 or MAT 121						Prerequisites: CIS 110 or CIS 111 or OST 137				
Corequisites: None						Corequisites: None				
Component: None						Component: None				
This course covers field surveying applications for residential and commercial construction. Topics include building layout and leveling, linear measurement and turning angles, plumbing vertical members, and topographic and utilities surveys. Upon completion, students should be able to properly and accurately use surveying equipment to lay out residential and commercial buildings.						This course introduces basic spreadsheet design and development. Topics include writing formulas, using functions, enhancing spreadsheets, creating charts, and printing. Upon completion, students should be able to design and print basic spreadsheets and charts.				
CST 221 Statics/Structures	03	03	00	04		CTS 220 Adv Hard/Software Support	02	03	00	03
Prerequisites: MAT 120 or MAT 121 and ARC 112, CAR 112, or CST 112						Prerequisites: CTS 120				
Corequisites: None						Corequisites: None				
Component: None						Component: None				
This course covers the principles of statics and strength of materials as applied to structural building components. Topics include forces on columns, beams, girders, and footings and connection points when timber, steel, and concrete members are used. Upon completion, students should be able to accurately analyze load conditions present in structural members.						This course provides advanced knowledge and competencies in hardware and operating system technologies for computer technicians to support personal computers. Emphasis is placed on: configuring and upgrading; diagnosis and troubleshooting; as well as preventive maintenance of hardware and system software. Upon completion, students should be able to install, configure, diagnose, perform preventive maintenance, and maintain basic networking on personal computers.				
CST 241 Planning/Estimating I	02	02	00	03		CTS 230 Advanced Spreadsheet	02	02	00	03
Prerequisites: BPR 130 or MAT 120 or MAT 121						Prerequisites: CTS 130				
Corequisites: None						Corequisites: None				
Component: None						Component: None				
This course covers the procedures involved in planning and estimating a residential structure. Topics include labor and equipment with emphasis placed on quantity take-off of materials necessary to construct a residential structure. Upon completion, students should be able to accurately complete a take-off of materials and equipment needs and plan the labor to construct a residential structure.						This course covers advanced spreadsheet design and development. Topics include advanced functions and statistics, charting, macros, databases, and linking. Upon completion, students should be able to demonstrate competence in designing complex spreadsheets.				
CTS 115 Info Sys Business Concept	03	00	00	03		CTS 285 Systems Analysis & Design	03	00	00	03
Prerequisites: None						Prerequisites: CIS 115				
Corequisites: None						Corequisites: None				
Component: None						Component: None				
The course introduces the role of IT in managing business processes and the need for business process and IT alignment. Emphasis is placed on industry need for understanding business challenges and developing/managing information systems to contribute to the decision making process based on these challenges. Upon completion, students should be able to demonstrate knowledge of the 'hybrid business manager' and the potential offered by new technology and systems.						This course introduces established and evolving methodologies for the analysis, design, and development of an information system. Emphasis is placed on system characteristics, managing projects, prototyping, CASE/OOM tools, and systems development life cycle phases. Upon completion, students should be able to analyze a problem and design an appropriate solution using a combination of tools and techniques.

CTS 289 System Support Project	01	04	00	03
Prerequisites: CTS 285				
Corequisites: None				
Component: None				
This course provides an opportunity to complete a significant support project with minimal instructor assistance. Emphasis is placed on written and oral communication skills, project definition, documentation, installation, testing, presentation, and user training. Upon completion, students should be able to complete a project from the definition phase through implementation.				
CUL 110 Sanitation & Safety	02	00	00	02
Prerequisites: None				
Corequisites: None				
Component: None				
This course introduces the basic principles of sanitation and safety and their relationship to the hospitality industry. Topics include personal hygiene, sanitation and safety regulations, use and care of equipment, the principles of food-borne illness, and other related topics. Upon completion, students should be able to demonstrate an understanding of sanitation and safety procedures in the hospitality industry.				
CUL 110A Sanitation & Safety Lab	00	02	00	01
Prerequisites: None				
Corequisites: CUL 110				
Component: None				
This course is a laboratory to accompany CUL 110. Emphasis is placed on practical experiences that enhance the materials presented in CUL 110. Upon completion, students should be able to demonstrate practical applications of sanitation and safety procedures in the hospitality industry.				
CUL 120 Purchasing	02	00	00	02
Prerequisites: None				
Corequisites: None				
Component: None				
This course covers purchasing for hotels and restaurants. Emphasis is placed on procurement, yield tests, inventory control, specification, planning, forecasting, market trends, terminology, cost controls, pricing, and foodservice ethics. Upon completion, students should be able to apply effective purchasing techniques based on the end-use of the product.				
CUL 120A Purchasing Lab	00	02	00	01
Prerequisites: None				
Corequisites: CUL 120				
Component: None				
This course is a laboratory to accompany CUL 120. Emphasis is placed on practical experiences that enhance the materials presented in CUL 120. Upon completion, students should be able to demonstrate practical applications of purchasing within in the hospitality industry.				
CUL 125 Hospitality Information Systems	01	02	00	02

control, recipe control, production control, and nutritional analysis. Upon completion, students should be able to demonstrate competence in utilizing contemporary information application systems in a hospitality setting.				
CUL 130 Menu Design	02	00	00	02
Prerequisites: None				
Corequisites: None				
Component: None				
This course introduces menu design. Topics include development of standardized recipes, layout, nutritional concerns, product utilization, demographics, and customer needs. Upon completion, students should be able to write, lay out, and produce effective menus for a variety of hospitality settings.				
CUL 135 Food & Beverage Service	02	00	00	02
Prerequisites: None				
Corequisites: CUL 135A				
Component: None				
This course covers the practical skills and knowledge for effective food and beverage service in a variety of settings. Topics include reservations, greeting and service of guests, styles of service, handling complaints, and sales and merchandising. Upon completion, students should be able to demonstrate competence in human relations and technical skills required in the service of foods and beverages.				
CUL 135A Food & Beverage Service Lab	00	02	00	01
Prerequisites: None				
Corequisites: CUL 135				
Component: None				
This course is a laboratory to accompany CUL 135. Emphasis is placed on practical experiences that enhance the materials presented in CUL 135. Upon completion, students should be able to demonstrate practical applications of skills required in the service of foods and beverages.				
CUL 140 Basic Culinary Skills	02	06	00	05
Prerequisites: None				
Corequisites: None				
Component: None				
This course introduces the fundamental concepts, skills, and techniques involved in basic cookery. Emphasis is placed on recipe conversion, measurements, terminology, knife skills, safe food handling, cooking methods, flavorings, seasonings, stocks/sauces/soups, and other related topics. Upon completion, students should be able to exhibit the basic cooking skills used in the food service industry.				
CUL 150 Food Science	01	02	00	02
Prerequisites: None				
Corequisites: None				
Component: None				
This course covers the chemical and physical changes in foods that occur with cooking, handling, and processing. Topics include heat transfer and its effect on color, flavor, and texture; and emulsification, protein coagulation, leavening agents, viscosity, and gel formation. Upon completion, students should be able to demonstrate an understanding of the principles covered as they apply to food preparation in an experimental setting.

CUL 160 Baking I	01	04	00	03
Prerequisites: None				
Corequisites: None				
Component: None				
This course covers basic ingredients, weights and measures, baking terminology, and formula calculations. Topics include yeast-raised products, quick breads, pastry dough, various cakes and cookies, and appropriate filling and finishing techniques. Upon completion, students should be able to prepare and evaluate baked products.				
CUL 170 Garde-Manger I	01	04	00	03
Prerequisites: None				
Corequisites: None				
Component: None				
This course introduces basic cold food preparation techniques and pantry production. Topics include salads, sandwiches, appetizers, dressings, basic garnishes, cheeses, cold sauces, and related food items. Upon completion, students should be able to lay out a basic cold food display and exhibit an understanding of the cold kitchen and its related terminology.				
CUL 180 International & American Reg Cuisine	01	08	00	05
Prerequisites: CUL 140				
Corequisites: None				
Component: None				
This course provides practical experience in the planning, preparation, and service of representative foods from different countries and regions of America. Emphasis is placed on eating habits, indigenous foods and customs, nutritional concerns, and traditional equipment. Upon completion, students should be able to research and execute international and domestic menus.				
CUL 192 Selected Topics in Culinary	02	00	00	02
Prerequisites: None				
Corequisites: None				
Component: None				
This course provides an opportunity to explore areas of current interest in specific Program or discipline areas. Emphasis is placed on subject matter appropriate to the program or discipline. Upon completion, Students should be able to demonstrate an understanding of the specific area of study.				
CUL 210 Food Service for Spec Pop	01	08	00	05
Prerequisites: None				
Corequisites: None				
Component: None				
This course covers nutrition and menu planning principles, food preparation, and food management skills needed to provide meals to special populations. Topics include food preparation for child care, geriatric, and school settings. Upon completion, students should be able to plan, organize, and prepare appealing and nutritious meals for special populations within appropriate guidelines.				
CUL 214 Wine Appreciation	01	02	00	02
Prerequisites: None				
Corequisites: None				
Component: None				
This course provides comprehensive and detailed information about wine from all the major wine producing countries. Emphasis is				

placed on the history of wine, production characteristics, laws, and purchasing and storing requirements. Upon completion, students should be able to determine what wines compliment various cuisines and particular tastes.

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
CUL 220 Food Service for Special Operations	01	08	00	05
Prerequisites: None				
Corequisites: None				
Component: None				
This course covers menu planning principles, food preparation, food procurement, and food management skills needed to provide appealing and profitable food service in special operations. Topics include fast-food cookery, convenience-store food service, supermarkets, delicatessens, and take-out venue. Upon completion, students should be able to plan, organize, and prepare food service items for special operations.				
CUL 240 Advanced Culinary Skills	01	08	00	05
Prerequisites: CUL 140				
Corequisites: None				
Component: None				
This course is a continuation of CUL 140. Emphasis is placed on meat fabrication and butchery; vegetable, starch, and protein cookery; compound sauces; plate presentation; breakfast cookery; and quantity food preparation. Upon completion, students should be able to plan, execute, and successfully serve entrees with complementary side items.				
CUL 250 Classical Cuisine	01	08	00	05
Prerequisites: CUL 140 and CUL 240				
Corequisites: None				
Component: None				
This course reinforces the classical culinary kitchen as established by Escoffier. Topics include the working Grand Brigade of the kitchen, table d'hôte menus, signature dishes, and classical banquets. Upon completion, students should be able to demonstrate competence in food preparation in a classical/upscale restaurant or banquet setting.				
CUL 250A Classical Cuisine Lab	00	03	00	01
Prerequisites: CUL 140 and CUL 240				
Corequisites: CUL 250				
Component: None				
This is a laboratory course to accompany CUL 250. Emphasis is placed on the practical experiences that enhance the materials and skills presented in CUL 250. Upon completion, students should be able to exhibit culinary skills and techniques as they pertain to classical/upscale kitchens and banquet settings.				
CUL 260 Baking II	01	04	00	03
Prerequisites: CUL 160				
Corequisites: None				
Component: None				
This course is a continuation of CUL 160. Topics include specialty breads, understanding, development and maintaining of natural sourdough, classical desserts, laminated pastry dough, cake and torte decorating and dessert plating and presentation. Upon completion, students should be able to demonstrate pastry preparation and plating, specialty sourdough production, cake decorating, and dessert buffet production skills.

CUL 270 Garde-Manager II	01	04	00	03		DAN 212 Dance History II	03	00	00	03
Prerequisites: CUL 170						Prerequisites: None				
Corequisites: None						Corequisites: None				
Component: None						Component: None				
This course is a continuation of CUL 170. Topics include pates, terrines, galantines, ice and tallow carving, chaud-froid/aspic work, charcuterie, smoking, canapes, hors d'oeuvres, and related food items. Upon completion, students should be able to design, set up, and evaluate a catering function to include a classical cold buffet with appropriate show pieces.						This course provides an in-depth study of world dance from 1800 to the present. Emphasis is placed on Western theatrical dance (ballet, modern dance, tap, and jazz) and the personalities that shaped it. Upon completion, students should be able to analyze culturally diverse dance forms and their cross-pollination which have produced the "pan world dance of today". This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.				
CUL 280 Pastry & Confections	01	04	00	03		DBA 110 Database Concepts	02	03	00	03
Prerequisites: CUL 160 and CUL 260						Prerequisites: None				
Corequisites: None						Corequisites: None				
Component: None						Component: None				
This course is a continuation of CUL 260. Topics include confections and candy, chocolate tempering and molding, transfer sheets, pulled and blown sugar (basic pulling and ribboning), pastillage, marzipan and custom silicon molding. Upon completion, students should be able to design and produce centerpieces and showpieces made from tempered chocolate, pulled sugar, pastillage and marzipan, as produced through custom molding, pre-set molding, stencil cut-outs, pattern tracing and/or free-hand shaping.						This course introduces database design and creation using a DBMS product. Emphasis is placed on data dictionaries, normalization, data integrity, data modeling, and creation of simple tables, queries, reports, and forms. Upon completion, students should be able to design and implement normalized database structures by creating simple database tables, queries, reports, and forms.				
CUL 280A Pastry & Confections Lab	00	03	00	01		DBA 120 Database Programming I	02	02	00	03

DEN 111 Infection/Hazard Control	02	00	00	02

Prerequisites: None

Corequisites: None

Component: None

This course introduces the infection and hazard control procedures necessary for the safe practice of dentistry. Topics include microbiology, practical infection control, sterilization and monitoring, chemical disinfectants, aseptic technique, infectious diseases, OSHA standards, and applicable North Carolina laws. Upon completion, students should be able to understand infectious diseases, disease transmission, infection control procedures, biohazard management, OSHA standards, and applicable North Carolina laws.

DEN 112 Dental Radiography	02	03	00	03
-----------------------------------	-----------	-----------	-----------	-----------

Prerequisites: Enrollment in Dental Assisting or Dental Hygiene Program

Corequisites: DEN 100 or DEN 110 and DEN 111

Component: None

This course provides a comprehensive view of the principles and procedures of radiology as they apply to dentistry. Topics include techniques in exposing, processing, and evaluating radiographs, as well as radiation safety, quality assurance, and legal issues. Upon completion, students should be able to demonstrate proficiency in the production of diagnostically acceptable radiographs using appropriate safety precautions.

DEN 120 Dental Hygiene Preclinical				
---	--	--	--	--

Lecture	02	00	00	02
----------------	-----------	-----------	-----------	-----------

Prerequisites: Enrollment in Dental Hygiene Program

Corequisites: DEN 121

Component: None

This course introduces preoperative and clinical dental hygiene concepts. Emphasis is placed on the assessment phase of patient care as well as the theory of basic dental hygiene instrumentation. Upon completion, students should be able to collect and evaluate patient data at a basic level and demonstrate knowledge of dental hygiene instrumentation.

DEN 121 Dental Hygiene Preclinical Lab	00	06	00	02
---	-----------	-----------	-----------	-----------

Prerequisites: Enrollment in Dental Hygiene Program

Corequisites: DEN 120

Component: None

This course provides the opportunity to perform clinical dental hygiene procedures discussed in DEN 120. Emphasis is placed on clinical skills in patient assessment and instrumentation techniques. Upon completion, students should be able to demonstrate the ability to perform specific preclinical procedures.

DEN 123 Nutrition/Dental Health	02	00	00	02
--	-----------	-----------	-----------	-----------

Prerequisites: Enrollment in Dental Hygiene Program

Corequisites: DEN 220

Component: None

This course introduces basic principles of nutrition with emphasis on nutritional requirements and their application to individual patient needs. Topics include the study of the food pyramid, nutrient functions, Recommended Daily Allowances, and related psychological principles. Upon completion, students should be able to recommend and counsel individuals on their food intake as related to their dental health.

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
DEN 124 Periodontology	02	00	00	02

Prerequisites: Enrollment in Dental Hygiene Program and DEN 110

Corequisites: DEN 130

Component: None

This course provides an in-depth study of the periodontium, periodontal pathology, periodontal monitoring, and the principles of periodontal therapy. Topics include periodontal anatomy and a study of the etiology, classification, and treatment modalities of periodontal diseases. Upon completion, students should be able to describe, compare, and contrast techniques involved in periodontal/maintenance therapy, as well as patient care management.

DEN 125 Dental Office Emergencies	00	02	00	01
--	-----------	-----------	-----------	-----------

Prerequisites: Enrollment in Dental Hygiene Program

Corequisites: DEN 140

Component: None

This course provides a study of the management of dental office emergencies. Topics include methods of prevention, necessary equipment/drugs, medicolegal considerations, recognition and effective initial management of a variety of emergencies. Upon completion, the student should be able to recognize, assess and manage various dental office emergencies and activate advanced medical support when indicated.

DEN 130 Dental Hygiene Theory I	02	00	00	02
--	-----------	-----------	-----------	-----------

Prerequisites: Enrollment in Dental Hygiene and DEN 120

Corequisites: DEN 131

Component: None

This course is a continuation of the didactic dental hygiene concepts necessary for providing an oral prophylaxis. Topics include deposits/removal, instrument sharpening, patient education, fluorides, planning for dental hygiene treatment, charting, and clinical records and procedures. Upon completion, students should be able to demonstrate knowledge needed to complete a thorough oral prophylaxis.

DEN 131 Dental Hygiene Clinic I	00	00	09	03
--	-----------	-----------	-----------	-----------

Prerequisites: Enrollment in Dental Hygiene Program and DEN 121

Corequisites: DEN 130

Component: None

This course continues skill development in providing an oral prophylaxis. Emphasis is placed on treatment of the recall patients with gingivitis or light deposits. Upon completion, students should be able to assess these patients' needs and complete the necessary dental hygiene treatment.

DEN 140 Dental Hygiene Theory II	01	00	00	01
---	-----------	-----------	-----------	-----------

Prerequisites: Enrollment in Dental Hygiene and DEN 130

Corequisites: DEN 141

Component: None

This course provides a continuation of the development, theory, and practice of patient care. Topics include modification of treatment for special needs patients, advanced radiographic interpretation, and ergonomics. Upon completion, students should be able to differentiate necessary treatment modifications, effective ergonomic principles, and radiographic abnormalities.

DEN 141 Dental Hygiene Clinic II	00	00	06	02

Prerequisites: Enrollment in Dental Hygiene and DEN 131

Corequisites: DEN 140

Component: None

This course continues skill development in providing an oral prophylaxis. Emphasis is placed on treatment of patients with early periodontal disease and subgingival deposits. Upon completion, students should be able to assess these patients' needs and complete the necessary dental hygiene treatment.

DEN 220 Dental Hygiene Theory III	02	00	00	02
--	-----------	-----------	-----------	-----------

Prerequisites: Enrollment in Dental Hygiene and DEN 140

Corequisites: DEN 221

Component: None

This course provides a continuation in developing the theories and practices of patient care. Topics include periodontal debridement, pain control, subgingival irrigation, air polishing, and case presentations. Upon completion, students should be able to demonstrate knowledge of methods of treatment and management of periodontally compromised patients.

DEN 221 Dental Hygiene Clinic III	00	00	12	04
--	-----------	-----------	-----------	-----------

Prerequisites: Enrollment in Dental Hygiene Program and DEN 141

Corequisites: DEN 220

Component: None

This course continues skill development in providing an oral prophylaxis. Emphasis is placed on treatment of patients with moderate to advanced periodontal involvement and moderate deposits. Upon completion, students should be able to assess these patients' needs and complete the necessary dental hygiene treatment.

DEN 222 General & Oral Pathology	02	00	00	02
---	-----------	-----------	-----------	-----------

Prerequisites: Enrollment in Dental Hygiene Program and BIO 163 or BIO 163C and BIO 163L

Corequisites: DEN 130

Component: None

This course provides a general knowledge of oral pathological manifestations associated with selected systemic and oral diseases. Topics include developmental and degenerative diseases, selected microbial diseases, specific and nonspecific immune and inflammatory responses with emphasis on recognizing abnormalities. Upon completion, students should be able to differentiate between normal and abnormal tissues and refer unusual findings to the dentist for diagnosis.

DEN 223 Dental Pharmacology	02	00	00	02
------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: Enrollment in Dental Hygiene Program

Corequisites: A set of courses is required: DEN 220 and BIO 163 or BIO 163C and BIO 163L

Component: None

This course provides basic drug terminology, general principles of drug actions, dosages, routes of administration, adverse reactions, and basic principles of anesthesiology. Emphasis is placed on knowledge of drugs in overall understanding of patient histories and health status. Upon completion, students should be able to recognize that each patient's general health or drug usage may require modification of the treatment procedures.

DEN 224 Materials and Procedures	01	03	00	02

Prerequisites: Enrollment in Dental Hygiene Program and DEN 111

Corequisites: DEN 231

Component: None

This course introduces the physical properties of materials and related procedures used in dentistry. Topics include restorative and preventive materials, fabrication of casts and appliances, and chairside functions of the dental hygienist. Upon completion, students should be able to demonstrate proficiency in the laboratory and/or clinical application of routinely used dental materials and chairside functions.

DEN 230 Dental Hygiene Theory IV	01	00	00	01
---	-----------	-----------	-----------	-----------

Prerequisites: Enrollment in Dental Hygiene Program and DEN 220

Corequisites: DEN 231

Component: None

This course provides an opportunity to increase knowledge of the profession. Emphasis is placed on dental specialties and completion of a case presentation. Upon completion, students should be able to demonstrate knowledge of various disciplines of dentistry and principles of case presentations.

DEN 231 Dental Hygiene Clinic IV	00	00	12	04
---	-----------	-----------	-----------	-----------

Prerequisites: Enrollment in Dental Hygiene Program and DEN 221

Corequisites: DEN 230

Component: None

This course continues skill development in providing an oral prophylaxis. Emphasis is placed on periodontal maintenance and on treating patients with moderate to advanced/refractory periodontal disease. Upon completion, students should be able to assess these patients' needs and complete the necessary dental hygiene treatment.

DEN 232 Community Dental Health	02	00	03	03
--	-----------	-----------	-----------	-----------

Prerequisites: Enrollment in Dental Hygiene Program

Corequisites: DEN 220

Component: None

This course provides a study of the principles and methods used in assessing, planning, implementing, and evaluating community dental health programs. Topics include epidemiology, research methodology, biostatistics, preventive dental care, dental health education, program planning, and financing and utilization of dental services. Upon completion, students should be able to assess, plan, implement, and evaluate a community dental health program.

DEN 233 Professional Development	02	00	00	02
---	-----------	-----------	-----------	-----------

Prerequisites: Enrollment in Dental Hygiene Program

Corequisites: DEN 230

Component: None

This course includes professional development, ethics, and jurisprudence with applications to practice management. Topics include conflict management, state laws, resumes, interviews, and legal liabilities as health care professionals. Upon completion, students should be able to demonstrate the ability to practice dental hygiene within established ethical standards and state laws.

Corequisites: DFT 111

Component: None

This course provides a laboratory setting to enhance basic drafting skills. Emphasis is placed on practical experiences that enhance the topics presented in DFT 111. Upon completion, students should be able to apply the laboratory experience to the concepts presented in DFT 111.

DFT 112 Technical Drafting II	01	03	00	02
--------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: DFT 111

Corequisites: None

Component: None

This course introduces basic drafting skills, equipment, and applications. Topics include sketching, measurements, lettering, dimensioning, geometric construction, orthographic projections and pictorials drawings, sections, and auxiliary views. Upon completion, students should be able to understand and apply basic drafting principles and practices.

DFT 112A Technical Drafting II Lab	00	03	00	01
---	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: DFT 112

Component: None

This course provides a laboratory setting to enhance basic drafting skills. Emphasis is placed on practical experiences that enhance the topics Presented in DFT 112. Upon completion, students should be able to apply The laboratory experience to the concepts presented in DFT 112.

DFT 117 Technical Drafting	01	02	00	02
-----------------------------------	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course introduces basic drafting practices for non-drafting majors. Emphasis is placed on instrument use and care, shape and size description, sketching, and pictorials. Upon completion, students should be able to produce drawings of assigned parts.

DFT 119 Basic CAD	01	02	00	02
--------------------------	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course introduces computer-aided drafting software for specific technologies to non-drafting majors. Emphasis is placed on understanding the software command structure and drafting standards for specific technical fields. Upon completion, students should be able to create and plot basic drawings.

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
DFT 121 Intro to GD & T	01	02	00	02

Prerequisites: None

Corequisites: None

Component: None

This course introduces basic geometric dimensioning and tolerancing principles. Topics include symbols, annotation, theory, and applications. Upon completion, students should be able to interpret and apply basic geometric dimensioning and tolerancing principles to drawings.

DFT 151 CAD I	02	03	00	03
----------------------	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course introduces CAD software as a drawing tool. Topics include drawing, editing, file management, and plotting. Upon completion, students should be able to produce and plot a CAD drawing.

DFT 152 CAD II	02	03	00	03
-----------------------	-----------	-----------	-----------	-----------

Prerequisites: DFT 151

Corequisites: None

Component: None

This course is a continuation of DFT 151. Topics include advanced two-dimensional, three-dimensional, and solid modeling and extended CAD applications. Upon completion, students should be able to generate and manage CAD drawings and models to produce engineering documents.

DFT 153 CAD III	02	03	00	03
------------------------	-----------	-----------	-----------	-----------

Prerequisites: DFT 151

Corequisites: None

Component: None

This course covers basic principles of three-dimensional CAD wire-frame and surface models. Topics include user coordinate systems, three-dimensional viewpoints, three-dimensional wireframes, and surface components and viewpoints. Upon completion, students should be able to create and manipulate three-dimensional wire-frame and surface models.

DFT 214 Descriptive Geometry	01	02	00	02
-------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: DFT 111

Corequisites: None

Component: None

This course includes a graphic analysis of space problems. Topics include points, lines, planes, connectors, and combinations of these. Upon completion, students should be able to solve real world spatial problems using descriptive geometry techniques.

DRA 111 Theater Appreciation	03	00	00	03
-------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course provides a study of the art, craft, and business of the theater. Emphasis is placed on the audiences appreciation of the work of the playwright, director, actor, designer, producer, and critic. Upon completion, students should be able to demonstrate a vocabulary of theater terms and to recognize the contributions of various theater artists. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS		CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
DRA 112 Literature of the Theater	03	00	00	03					
Prerequisites: None									
Corequisites: None									
Component: None									
This course provides a survey of dramatic works from the classical Greek through the present. Emphasis is placed on the language of drama, critical theory, and background as well as on play reading and analysis. Upon completion, students should be able to articulate, orally and in writing, their appreciation and understanding of dramatic works. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.									
DRA 115 Theater Criticism	03	00	00	03					
Prerequisites: DRA 111									
Corequisites: None									
Component: None									
This course is designed to develop a critical appreciation of the theater from the viewpoint of the audience/consumer. Emphasis is placed on viewing, discussing, and evaluating selected theater performance, either live or on film/video. Upon completion, students should be able to express their critical judgments both orally and in writing. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.									
DRA 122 Oral Interpretation	03	00	00	03					
Prerequisites: None									
Corequisites: None									
Component: None									
This course introduces the dramatic study of literature through performance. Emphasis is placed on analysis and performance of poetry, drama, and prose fiction. Upon completion, students should be able to embody and discuss critically the speakers inherent in literature. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.									
DRA 126 Storytelling	03	00	00	03					
Prerequisites: None									
Corequisites: None									
Component: None									
This course introduces the art of storytelling and the oral traditions of folk literature. Topics include the history of storytelling, its value and purpose, and methods of collecting verbal art. Upon completion, students should be able to present and discuss critically stories from the world's repertory of traditional lore. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.									
DRA 211 Theatre History I	03	00	00	03					
Prerequisites: None									
Corequisites: None									
Component: None									
This course covers the development of theater from its origin to the closing of the British theater in 1642. Topics include the history, aesthetics, and representative dramatic literature of the period. Upon completion, students should be able to trace the evolution of theater and recognize the styles and types of world drama. This course has									
					been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.				
DRA 212 Theatre History II	03	00	00	03					
Prerequisites: None									
Corequisites: None									
Component: None									
This course covers the development of theater from 1660 through the diverse influences which shaped the theater of the twentieth century. Topics include the history, aesthetics, and representative dramatic literature of the period. Upon completion, students should be able to trace the evolution of theater and recognize the styles and types of world drama. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.									
ECM 168 Electronic Business	02	02	00	03					
Prerequisites: None									
Corequisites: None									
Component: None									
This course provides a survey of the world of electronic business. Topics include the definition of electronic business, current practices as they evolve using Internet strategy in business, and application of basic business principles to the world of e-commerce. Upon completion, students should be able to define electronic business and demonstrate an understanding of the benefits of e-commerce as a foundation for developing plans leading to electronic business implementation.									
ECM 210 Intro. to E-Commerce	02	02	00	03					
Prerequisites: None									
Corequisites: None									
Component: None									
This course introduces the concepts and tools to implement electronic commerce via the Internet. Topics include application and server software selection, securing transactions, use and verification of credit cards, publishing of catalogs, and site administration. Upon completion, students should be able to setup a working e-commerce Internet web site.									
ECM 220 E-Commerce Plan. & Implem.	02	02	00	03					
Prerequisites: None									
Corequisites: None									
Component: None									
This course builds on currently accepted business practices to develop a business plan and implementation model for e-commerce. Topics include analysis and synthesis of the planning cycle, cost/benefit analysis, technical systems, marketing, security, financial support, Internet strategies, website design, customer support and feedback and assessment. Upon completion, students should be able to develop a plan for e-commerce in a small to medium size business.									
ECM 230 Capstone Project	01	06	00	03					
Prerequisites: ECM 220

EDU 119 Intro to Early Childhood Education	04	00	00	04

Prerequisites: None
 Corequisites: None
 Component: None

This course covers the foundations of the education profession, types of programs, professionalism, and planning quality programs for children. Topics include historical foundations, career options, types of programs, professionalism, observational skills, and planning developmentally appropriate schedules, environments, and activities for children. Upon completion, students should be able to demonstrate observational skills, identify appropriate schedules and environments, develop activity plans, and describe influences on the profession. This course is also available through the Virtual Learning Community (VLC).

EDU 131 Child, Family, & Communications	03	00	00	03
--	-----------	-----------	-----------	-----------

Prerequisites: None
 Corequisites: None
 Component: None

This course covers the development of partnerships between families, inclusive programs for children/schools that serve young children with and without disabilities, and the community. Emphasis is placed on requisite skills and benefits for successfully establishing, supporting, and maintaining respectful collaborative relationships between today's diverse families, centers/schools, and community resources. Upon completion, students should be able to describe appropriate relationships with parents/caretakers, center/school colleagues, and community agencies that enhance the educational experiences/well-being of all children. This course is also available through the Virtual Learning Community (VLC).

EDU 144 Child Development I	03	00	00	03
------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: None
 Corequisites: None
 Component: None

This course covers the theories of child development, developmental sequences, and factors that influence children's development, from conception through pre-school for all children. Emphasis is placed on sequences in physical/motor, social, emotional, cognitive, and language development and the multiple influences on development and learning of the whole child. Upon completion, students should be able to identify typical and atypical developmental characteristics, plan experiences to enhance development, and describe appropriate interaction techniques and environments. This course is also available through the Virtual Learning Community (VLC).

EDU 145 Child Development II	03	00	00	03
-------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: EDU 144
 Corequisites: None
 Component: None

This course covers theories of child development, developmental sequences, and factors that influence children's development, from pre-school through middle childhood for all children. Emphasis is placed on sequences in physical/motor, social, emotional, cognitive, and language development multiple influences on development and learning of the whole child. Upon completion, students should be able to identify typical and atypical developmental characteristics,

plan experiences to enhance development, and describe appropriate interaction techniques and environments. This course is also available through the Virtual Learning Community (VLC).

EDU 146 Child Guidance	03	00	00	03
-------------------------------	-----------	-----------	-----------	-----------

Prerequisites: None
 Corequisites: None
 Component: None

This course introduces practical principles and techniques for developmentally appropriate guidance. Emphasis is placed on encouraging self-esteem and cultural awareness, effective communication skills, and direct and indirect guidance techniques and strategies. Upon completion, students should be able to demonstrate strategies which encourage positive social interactions, promote conflict resolution, and develop self-control, self-motivation, and self-esteem in children. This course is also available through the Virtual Learning Community (VLC).

EDU 147 Behavior Disorders	03	00	00	03
-----------------------------------	-----------	-----------	-----------	-----------

Prerequisites: None
 Corequisites: None
 Component: None

This course is a comprehensive study of behavior disorders encompassing characteristics, assessments, and placement alternatives. Topics include legislation, appropriate management interventions, and placement options for children with behavior disorders. Upon completion, students should be able to identify, develop, and utilize appropriate behavior management applications. This course is a unique concentration requirement in the Special Education concentration in the Early Childhood Associate program.

EDU 148 Learning Disabilities	04	02	00	05
--------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: None
 Corequisites: None
 Component: None

This course is a comprehensive study of the characteristics, teaching strategies, assessment tools, and placement alternatives for children with learning disabilities. Topics include characteristics, causes, assessment instruments, learning strategies, and collaborative methods for children with learning disabilities. Upon completion, students should be able to assist in identifying, assessing, and providing educational interventions for children with learning disabilities. This course is a unique concentration requirement in the Special Education concentration in the Early Childhood Associate program.

EDU 151 Creative Activities	03	00	00	03
------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: None
 Corequisites: None
 Component: None

This course covers planning, creation and adaptation of developmentally supportive learning environments with attention to curriculum, interactions, teaching practices and learning materials. Emphasis is placed on creating and adapting integrated, meaningful, challenging and engaging developmentally supportive learning experiences in art, music, movement and physical skills, and dramatics. Upon completion, students should be able to create, manage, adapt and evaluate developmentally supportive learning materials, experiences and environments.

EDU 153 Health, Safety, & Nutrition	03	00	00	03					
Prerequisites: None									
Corequisites: None									
Component: None									
This course focuses on promoting and maintaining the health and well-being of all children. Topics include health and nutritional guidelines, common childhood illnesses, maintaining safe and healthy learning environments, recognition and reporting of abuse and neglect and state regulations. Upon completion, students should be able to demonstrate knowledge of health, safety, and nutritional needs, implement safe learning environments, and adhere to state regulations.									
EDU 157 Active Play	02	02	00	03					
Prerequisites: None									
Corequisites: None									
Component: None									
This course introduces the use of indoor and outdoor physical activities to promote the physical, cognitive, and social/emotional development of children. Topics include the role of active play, development of play skills, playground design, selection of safe equipment, and materials and surfacing for active play. Upon completion, students should be able to discuss the stages of play, the role of teachers in play, and the design of appropriate active play areas and activities.									
EDU 161 Introduction to Exceptional Children	03	03	00	04					
Prerequisites: None									
Corequisites: None									
Component: None									
This course covers exceptional children as learners within the context of the community, school, and family. Emphasis is placed on the legal, social, physical, political, and cultural issues relating to the analysis and teaching of exceptional children. Upon completion, students should be able to demonstrate knowledge of identification processes, mainstreaming techniques, and professional practices and attitudes.									
EDU 162 Early Exp/Prosp Teachers	01	02	00	02					
Prerequisites: None									
Corequisites: None									
Component: None									
This course provides an opportunity to observe teachers and pupils in a natural classroom environment. Emphasis is placed on observation methods, planning, teaching, evaluation, personal goal assessment, and curriculum. Upon completion, students should be able to demonstrate an understanding of their own personal teaching goals, teaching methods, planning methods, and student performance evaluation.									
EDU 171 Instructional Media	01	02	00	02					
Prerequisites: None									
Corequisites: None									
Component: None									
This course covers the development and maintenance of effective teaching materials and the operation of selected pieces of equipment. Topics include available community resources, various types of instructional materials and bulletin boards, and audiovisual and computer use with children. Upon completion, students should be									
					able to construct and identify resources for instructional materials and bulletin boards and use audiovisual and computer equipment.				
EDU 172 Education Tools	02	02	00	03					
Prerequisites: None									
Corequisites: None									
Component: None									
This course covers practical applications of technology in educational settings. Topics include software selection for classroom usage, record keeping, and adaptive technology for children with special needs. Upon completion, students should be able to demonstrate appropriate computer skills for the educational environment.									
EDU 186 Reading & Writing Methods	03	00	00	03					
Prerequisites: None									
Corequisites: None									
Component: None									
This course covers concepts, resources, and methods for teaching reading and writing to school-age children. Topics include the importance of literacy, learning styles, skills assessment, various reading and writing approaches, and instructional strategies. Upon completion, students should be able to assess, plan, implement, and evaluate developmentally appropriate reading and writing experiences. This course is a unique concentration requirement in the Teacher Associate concentration in the Early Childhood Associate program.									
EDU 188 Issues in Early Childhood Education	02	00	00	02					
Prerequisites: None									
Corequisites: None									
Component: None									
This course covers topics and issues in early childhood education. Emphasis is placed on current advocacy issues, emerging technology, professional growth experiences, and other related topics. Upon completion, students should be able to list, discuss, and explain current topics and issues in early childhood education.									
EDU 216 Foundations of Education	03	02	00	04					
Prerequisites: None									
Corequisites: None									
Component: None									
This course introduces the American educational system and the teaching profession. Topics include historical and philosophical foundations of education, contemporary educational, structural, legal, and financial issues, PRAXIS I preparation and observation and participation in public school classrooms. Upon completion, students should be able to relate classroom observations to the roles of teachers and schools and the process of teacher education. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement. This course is also available through the Virtual Learning Community (VLC).									
EDU 221 Children with Exceptional	03	00	00	03					
Prerequisites: EDU 144 and EDU 145									
Corequisites: None									
Component: None									
This course, based on the foundation of typical development, introduces working with children with exceptionalities. Emphasis is									

placed on the characteristics and assessment of children and strategies for adapting the learning environment. Upon completion, students should be able to recognize atypical development, make appropriate referrals, collaborate with families and professionals to plan, implement, and evaluate inclusion strategies. This course is also available through the Virtual Learning Community (VLC).

EDU 234 Infants, Toddlers, & Twos 03 00 00 03

Prerequisites: None

Corequisites: None

Component: None

This course covers the skills needed to effectively implement group care for infants, toddlers, and two-year olds. Emphasis is placed on child development and developmentally appropriate practices. Upon completion, students should be able to identify, plan, select materials and equipment, and implement and evaluate a developmentally appropriate curriculum.

EDU 235 School-Age Development & Program 02 00 00 02

Prerequisites: None

Corequisites: None

Component: None

This course presents developmentally appropriate practices in group care for school-age children. Topics include principles of development, environmental planning, and positive guidance techniques. Upon completion, students should be able to discuss developmental principles for children five to twelve years of age and plan and implement age-appropriate activities.

EDU 241 Adult-Child Relations 02 00 00 02

Prerequisites: None

Corequisites: None

Component: None

This course covers self-concept and effective and active listening skills in positive one-to-one interactions with individuals and groups of children. Emphasis is placed on self-concept development and effective communication techniques used with children. Upon completion, students should be able to identify principles underlying self-concept and demonstrate effective listening and communication skills used by adults with children.

EDU 247 Physical Disabilities 03 00 00 03

Prerequisites: EDU 144 or PSY 244

Corequisites: None

Component: None

This course covers characteristics, intervention strategies, adaptive procedures, and technologies for children with physical disabilities. Topics include intervention strategies, inclusive placement options, and utilization of support services for children with physical disabilities. Upon completion, students should be able to identify and utilize intervention strategies for specific disabilities and service delivery options for those disabilities. This course is a unique concentration requirement in the Special Education concentration in the Early Childhood Associate program.

EDU 248 Mental Retardation

CLASS LAB CLINIC CREDIT
HRS HRS HRS HRS
02 02 00 03

Prerequisites: EDU 221

Corequisites:

Component: None

This course covers the causes and assessment of mental retardation and individualized instruction and curriculum for children with mental retardation. Emphasis is placed on definition, characteristics, assessment, and educational strategies for children with mental retardation. Upon completion, students should be able to identify, assess, and plan educational intervention strategies for children with mental retardation. This course is a unique concentration requirement in the Special Education concentration in the Early Childhood Associate program.

EDU 250 PRAXIS I Preparation 01 00 00 01

Prerequisites: None

Corequisites: None

Component: None

This course is designed to prepare potential teachers for the PRAXIS I exam that is necessary to enter the field of education. Emphasis is placed on content specifications of the PRAXIS I exam, study skills and simulated examinations. Upon completion, students should be able demonstrate an understanding of the content necessary for successful completion of the PRAXIS I exam.

EDU 251 Exploration Activities 03 00 00 03

Prerequisites: None

Corequisites: None

Component: None

This course covers discovery experiences in science, math, and social studies. Emphasis is placed on developing concepts for each area and encouraging young children to explore, discover, and construct concepts. Upon completion, students should be able to discuss the discovery approach to teaching, explain major concepts in each area, and plan appropriate experiences for children.

EDU 252 Math & Science Activities 03 00 00 03

Prerequisites: None

Corequisites: None

Component: None

This course introduces discovery experiences in math and science. Topics include concepts, facts, phenomena, and skills in each area. Upon completion, students should be able to identify, plan, select materials and equipment, and implement and evaluate developmentally appropriate curriculum materials.

EDU 254 Music & Movement for Children 01 02 00 02

Prerequisites: None

Corequisites: None

Component: None

This course covers the use of music and creative movement for children. Topics include a general survey of the basic elements of music and planning, designing, and implementing music and movement experiences for creative learning. Upon completion, students should be able to use voice and various musical instruments to provide musical and movement activities for children.

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
EDU 256 Science & Social Studies				
Methods	03	02	00	04

Prerequisites: None

Corequisites: None

Component: None

This course covers objectives, content, materials, and instructional approaches to natural sciences and social studies. Topics include classroom and laboratory science experiences; integration of history, geography, economics, and government materials; research/study techniques; and critical thinking. Upon completion, students should be able to assess, plan, implement, and evaluate developmentally appropriate learning experiences in science and social studies.

EDU 257 Math Methods & Materials	02	02	00	03
---	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course covers concepts, activities, methods, and materials for teaching mathematics in elementary through middle school grades. Topics include individual instruction, developmental skill building, manipulatives, problem solving, critical thinking, and numerical concepts. Upon completion, students should be able to assess, plan, implement, and evaluate developmentally appropriate math experiences.

EDU 259 Curriculum Planning	03	00	00	03
------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: One course required: EDU 112, EDU 113 or EDU 119

Corequisites: None

Component: None

This course covers early childhood curriculum planning. Topics include philosophy, curriculum, indoor and outdoor environmental design, scheduling, observation and assessment, and instructional planning and evaluation. Upon completion, students should be able to assess children and curriculum; plan for daily, weekly, and long-range instruction; and design environments with appropriate equipment and supplies.

EDU 261 Early Childhood Administration I	02	00	00	02
---	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course covers the policies, procedures, and responsibilities for the management of early childhood education programs. Topics include implementation of goals, principles of supervision, budgeting and financial management, and meeting the standards for a NC Child Day Care license. Upon completion, students should be able to develop program goals, explain licensing standards, determine budgeting needs, and describe effective methods of personnel supervision. This course is also available through the Virtual Learning Community (VLC).

EDU 262 Early Childhood Administration II	03	00	00	03
--	-----------	-----------	-----------	-----------

Prerequisites: EDU 261

Corequisites: None

Component: None

This course provides a foundation for budgetary, financial, and personnel management of the child care center. Topics include budget-

ing, financial management, marketing, hiring, supervision, and professional development of a child care center. Upon completion, students should be able to formulate marketing, financial management, and fund development plans and develop personnel policies, including supervision and staff development plans. This course is also available through the Virtual Learning Community (VLC).

EDU 263 Developing a School-Age Program	02	00	00	02
--	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course introduces the methods and procedures for operating a school-age program in either the public or proprietary setting. Emphasis is placed on constructing and organizing the physical environment as well as planning and developing a school-age program. Upon completion, students should be able to plan and develop a quality school-age program.

EDU 271 Educational Technology	02	02	00	03
---------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course introduces the use of technology to enhance teaching and learning in all educational settings. Topics include technology concepts, instructional strategies, materials and adaptive technology for children with exceptionalities, facilitation of assessment/evaluation, and ethical issues surrounding the use of technology. Upon completion, students should be able to apply technology enhanced instructional strategies, use a variety of technology resources and demonstrate appropriate technology skills in educational environments.

EDU 275 Effective Teacher Training	02	00	00	02
---	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course provides specialized training using an experienced-based approach to learning. Topics include instructional preparation and presentation, student interaction, time management, learning expectations, evaluation, and curriculum principles and planning. Upon completion, students should be able to prepare and present a six-step lesson plan and demonstrate ways to improve students' time-on-task.

EDU 280 Language & Literacy Exp	03	00	00	03
--	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course explores the continuum of children's communication development, including verbal and written language acquisition and other forms of communication. Topics include selection of literature and other media, the integration of literacy concepts throughout the classroom environment, inclusive practices and appropriate assessments. Upon completion, students should be able to select, plan, implement and evaluate developmentally appropriate literacy experiences. This course is also available through the Virtual Learning Community (VLC).

This course is designed to provide high-intermediate non-native speakers of English with a knowledge of grammatical structures that improves academic communication. Emphasis is placed on using high-intermediate grammatical structures in meaningful contexts through exercised integrating the use of newly acquired structures with previously learned structures. Upon completion, students should be able to demonstrate improved proficiency, comprehension, and grammatical accuracy.						This course prepares low-advanced non-native speakers of English to determine the purpose of their writing and to write paragraphs and essays to fulfill that purpose. Emphasis is placed on unity, coherence, completeness, audience, and the writing process; and the grammatical forms and punctuation appropriate for each kind of writing. Upon completion, students should be able to write unified, coherent, and complete paragraphs and essays which are grammatical and appropriate for the intended audience.				
EFL 084 Grammar IV	05	00	00	05		EFL 095 Composition V	05	00	00	05
Prerequisites: EFL 083						Prerequisites: EFL 094				
Corequisites: None						Corequisites: None				
Component: None						Component: None				
This course is designed to give non-native speakers of English a full understanding of advanced grammatical structures and techniques. Emphasis is placed on oral and written communicative fluency through the study of advanced grammatical forms. Upon completion, students should be able to incorporate the structures covered in both spoken and written form, demonstrating improved proficiency, comprehension, and grammatical accuracy.						This course is designed to prepare advanced non-native speakers of English for college-level composition courses. Emphasis is placed on the study and process of writing formal essays and research papers and the analysis of literary, expository, and descriptive writings. Upon completion, students should be able to write and analyze professional and peer compositions and apply basic research principles.

EGR 115 Introduction to Technology	02	03	00	03		ELC 114 Basic Wiring II	02	06	00	04
Prerequisites: None						Prerequisites: ELC 113				
Corequisites: None						Corequisites: None				
Component: None						Component: None				
This course introduces the basic skills and career fields for technicians. Topics include career options, technical vocabulary, dimensional analysis, measurement systems, engineering graphics, calculator applications, professional ethics, safety practices, and other related topics. Upon completion, students should be able to demonstrate an understanding of the basic technologies, prepare drawings and sketches, and perform computations using a scientific calculator.						This course provides additional instruction in the application of electrical tools, materials, and test equipment associated with electrical installations. Topics include the NEC; safety; electrical blueprints; planning, layout, and installation of equipment and conduits; and wiring devices such as panels and overcurrent devices. Upon completion, students should be able to properly install equipment and conduit associated with electrical installations.				
EGR 131 Intro to Electronics Tech	01	02	00	02		ELC 115 Industrial Wiring	02	06	00	04
Prerequisites: None						Prerequisites: ELC 113				
Corequisites: None						Corequisites: None				
Component: None						Component: None				
This course introduces the basic skills required for electrical/electronics technicians. Topics include soldering/desoldering, safety practices, test equipment, scientific calculators, AWG wire table, the resistor color code, electronic devices, problem solving, and use of hand tools. Upon completion, students should be able to solder/desolder, operate test equipment, apply problem-solving techniques, and use a scientific calculator.						This course covers layout, planning, and installation of wiring systems in industrial facilities. Emphasis is placed on industrial wiring methods and materials. Upon completion, students should be able to install industrial systems and equipment.				
ELC 111 Introduction to Electricity	02	02	00	03		ELC 117 Motors and Controls	02	06	00	04
Prerequisites: None						Prerequisites: ELC 111, ELC 112, or ELC 131				
Corequisites: None						Corequisites: None				
Component: None						Component: None				
This course introduces the fundamental concepts of electricity and test equipment to non-electrical/electronics majors. Topics include basic DC and AC principles (voltage, resistance, current, impedance); components (resistors, inductors, and capacitors); power; and operation of test equipment. Upon completion, students should be able to construct and analyze simple DC and AC circuits using electrical test equipment.						This course introduces the fundamental concepts of motors and motor controls. Topics include ladder diagrams, pilot devices, contactors, motor starters, motors, and other control devices. Upon completion, students should be able to properly select, connect, and troubleshoot motors and control circuits.

Component: None						Component: None				
This course introduces the fundamental concepts of and computations related to DC/AC electricity. Emphasis is placed on DC/AC circuits, components, operation of test equipment; and other related topics. Upon completion, students should be able to construct, verify, and analyze simple DC/AC circuits.						This course covers the use of the current National Electrical Code. Topics include the NEC history, wiring methods, overcurrent protection, materials, and other related topics. Upon completion, students should be able to effectively use the NEC.				
ELC 113 Basic Wiring I	02	06	00	04		ELC 119 NEC Calculations	01	02	00	02
Prerequisites: None						Prerequisites: None				
Corequisites: None						Corequisites: None				
Component: None						Component: None				
This course introduces the care/usage of tools and materials used in electrical installations and the requirements of the National Electrical Code. Topics include NEC, electrical safety, and electrical blueprint reading; planning, layout; and installation of electrical distribution equipment; lighting; overcurrent protection; conductors; branch circuits; and conduits. Upon completion, students should be able to properly install conduits, wiring, and electrical distribution equipment associated with basic electrical installations.						This course covers branch circuit, feeder, and service calculations. Emphasis is placed on sections of the National Electrical Code related to calculations. Upon completion, students should be able to use appropriate code sections to size wire, conduit, and overcurrent devices for branch circuits, feeders, and service.				
EGR 115 Introduction to Technology	02	03	00	03		ELC 121 Electrical Estimating	01	02	00	02

Component: None						Component: None				
This course introduces computer software which can be used to solve electrical/electronics problems. Topics include electrical/electronics calculations, applications, and controls. Upon completion, students should be able to utilize a personal computer for electrical/electronics-related applications.						This course covers the fundamentals of instrumentation used in industry. Emphasis is placed on electric, electronic, and pneumatic instruments. Upon completion, students should be able to design, install, maintain, and calibrate instrumentation.				
ELC 128 Introduction to PLC	02	03	00	03		ELC 215 Electrical Maintenance	02	03	00	03
Prerequisites: None						Prerequisites: ELC 117				
Corequisites: None						Corequisites: None				
Component: None						Component: None				
This course introduces the programmable logic controller (PLC) and its associated applications. Topics include ladder logic diagrams, input/output modules, power supplies, surge protection, selection/installation of controllers, and interfacing of controllers with equipment. Upon completion, students should be able to install PLCs and create simple programs. This course is also available through the Virtual Learning Community (VLC).						This course introduces the theory of maintenance and the skills necessary to maintain electrical equipment found in industrial and commercial facilities. Topics include maintenance theory, predictive and preventive maintenance, electrical equipment operation and maintenance, and maintenance documentation. Upon completion, students should be able to perform maintenance on electrical equipment in industrial and commercial facilities.

This course introduces DC and AC electricity with an emphasis on circuit analysis, measurements, and operation of test equipment. Topics include DC and AC principles, circuit analysis laws and theorems, components, test equipment operation, circuit simulation software, and other related topics. Upon completion, students should be able to interpret circuit schematics; design, construct, verify, and analyze DC/AC circuits; and properly use test equipment.						This course continues the study of the programming and applications of programmable logic controllers. Emphasis is placed on advanced programming, networking, advanced I/O modules, reading and interpreting error codes, and troubleshooting. Upon completion, students should be able to program and troubleshoot programmable logic controllers.				
ELC 131A DC/AC Circuit Analysis Lab	00					ELC 229 Applications Project	01	03	00	02
Prerequisites: None						Prerequisites: ELC 112, ELC 113, or ELC 140				
Corequisites: ELC 131						Corequisites: None				
Component: None						Component: None				
This course introduces provides laboratory assignments as applied to fundamental principles of DC/AC electricity. Emphasis is placed on measurements and evaluation of electrical components, devices and circuits. Upon completion, students should have gained hands-on experience by measuring voltage, current, and opposition to current flow utilizing various meters and test equipment. An introduction to soldering/desoldering, printed circuit boards and safety practices will also be provided.						This course provides an individual and/or integrated team approach to a practical project as approved by the instructor. Topics include project selection and planning, implementation and testing, and a final presentation. Upon completion, students should be able to plan and implement an applications-oriented project.				
ELC 140 Fundamentals of DC/AC Circuit	05	06	00	07		ELN 131 Electronic Devices	03	03	00	04
Prerequisites: None						Prerequisites: ELC 112, ELC 131, or ELC 140				
Corequisites: None						Corequisites: None				
Component: ELC 140AA, ELC 140BB						Component: None				
This course covers the principles of DC/AC circuit analysis as applied to electronics. Topics include atomic theory, circuit analysis, components, test equipment, troubleshooting techniques, schematics, diagrams, and other related topics. Upon completion, students should be able to interpret, construct, verify, analyze, and troubleshoot DC/AC circuits in a safe manner.						This course includes semiconductor-based devices such as diodes, bipolar transistors, FETs, thermistors, and related components. Emphasis is placed on analysis, selection, biasing, and applications in power supplies, small signal amplifiers, and switching and control circuits. Upon completion, students should be able to construct, analyze, verify, and troubleshoot discrete component circuits using appropriate techniques and test equipment.

ELN 132 Linear IC Applications	03	03	00	04					
Prerequisites: ELN 131									
Corequisites: None									
Component: None									
This course introduces the characteristics and applications of linear integrated circuits. Topics include op-amp circuits, differential amplifiers, instrumentation amplifiers, waveform generators, active filters, PLLs, and IC voltage regulators. Upon completion, students should be able to construct, analyze, verify, and troubleshoot linear integrated circuits using appropriate techniques and test equipment.									
ELN 133 Digital Electronics	03	03	00	04					
Prerequisites: ELC 131									
Corequisites: None									
Component: None									
This course covers combinational and sequential logic circuits. Topics include number systems, Boolean algebra, logic families, MSI and LSI circuits, AD/DA conversion, and other related topics. Upon completion, students should be able to construct, analyze, verify, and troubleshoot digital circuits using appropriate techniques and test equipment. This course is also available through the Virtual Learning Community (VLC).									
ELN 150 CAD for Electronics	01	03	00	02					
Prerequisites: CIS 110, CIS 111, or ELC 127									
Corequisites: None									
Component: None									
This course introduces computer-aided drafting (CAD) with an emphasis on applications in the electronics field. Topics include electronics industry standards (symbols, schematic diagrams, layouts); drawing electronic circuit diagrams; and specialized electronic drafting practices and components such as resistors, capacitors, and ICs. Upon completion, students should be able to prepare electronic drawings with CAD software. Additional topics include schematic capture using MultiSIM and PCB layout using Ulti BOARD.									
ELN 231 Industrial Controls	02	03	00	03					
Prerequisites: A set of courses required: ELC 112 or ELC 131 or ELC 140 or ELN 132 or ELN 132C and ELN 132L									
Corequisites: None									
Component: None									
This course introduces the fundamental concepts of solid-state control of rotating machinery and associated peripheral devices. Topics include rotating machine theory, ladder logic, electromechanical and solid state relays, motor controls, pilot devices, three-phase power systems, and other related topics. Upon completion, students should be able to interpret ladder diagrams and demonstrate an understanding of electromechanical and electronic control of rotating machinery.									
ELN 232 Introduction to Microprocessors	03	03	00	04					
Prerequisites: ELN 133									
Corequisites: None									
Component: None									
This course introduces microprocessor architecture and microcomputer systems including memory and input/output interfacing. Topics include assembly language programming, bus architecture, bus cycle types, I/O systems, memory systems, interrupts, and other									
related topics. Upon completion, students should be able to interpret, analyze, verify, and troubleshoot fundamental microprocessor circuits and programs using appropriate techniques and test equipment.									
ELN 233 Microprocessor Systems	03	03	00	04					
Prerequisites: ELN 232									
Corequisites: None									
Component: None									
This course covers the application and design of microprocessor control systems. Topics include control and interfacing of systems using AD/DA, serial/parallel I/O, communication protocols, and other related applications. Upon completion, students should be able to design, construct, program, verify, analyze, and troubleshoot fundamental microprocessor interface and control circuits using related equipment.									
ELN 234 Communication Systems	03	03	00	04					
Prerequisites: ELN 132 or ELN 140									
Corequisites: None									
Component: None									
This course introduces the fundamentals of electronic communication systems. Topics include the frequency spectrum, electrical noise, modulation techniques, characteristics of transmitters and receivers, and digital communications. Upon completion, students should be able to interpret analog and digital communication circuit diagrams, analyze transmitter and receiver circuits, and use appropriate communication test									
ELN 247 Electronic App Project	01	03	00	02					
Prerequisites: ELN 131 or ELN 140									
Corequisites: None									
Component: None									
This course provides a structured approach to an application-oriented electronics project. Emphasis is placed on selecting, planning, implementing, testing, and presenting an application-oriented project. Upon completion, students should be able to present and demonstrate an electronics application-oriented project.									
ELN 249 Digital Communication	02	03	00	03					
Prerequisites: ELN 133 and ELN 234									
Corequisites: None									
Component: None									
This course covers the core processes and applications associated with digital communication techniques. Topics include the characteristics of RF circuits, modulation, transmitters and receivers, electromagnetic transmission, antennas, and related applications. Upon completion, students should be able to demonstrate knowledge of the concepts associated with digital communication systems.									
ELN 275 Troubleshooting	01	02	00	02					
Prerequisites: None									
Corequisites: ELN 133 or ELN 141									
Component: None									
This course covers techniques of analyzing and repairing failures in electronic equipment. Topics include safety, signal tracing, use of service manuals, and specific troubleshooting methods for analog, digital, and other electronics-based circuits and systems. Upon completion, students should be able to logically diagnose and isolate faults and perform necessary repairs to meet manufacturers' specifications.

EMS 110 EMT-Basic	05	06	00	07		EMS 130 Pharmacology I for EMS	01	03	00	02
Prerequisites: Departmental Approval						Prerequisites: EMS 110				
Corequisites: None						Corequisites: EMS 120 and EMS 131				
Component: EMS 110AA & EMS 110BB						Component: None				
This course introduces basic emergency medical care. Topics include preparatory, airway, patient assessment, medical emergencies, trauma, infants and children, and operations. Upon completion, students should be able to demonstrate the knowledge and skills necessary to achieve North Carolina State or National Registry EMT-Basic certification.						This course introduces the fundamental principles of pharmacology and medication administration and is required for intermediate and paramedic certification. Topics include terminology, pharmacokinetics, pharmacodynamics, weights, measures, drug calculations, legislation, and administration routes. Upon completion, students should be able to accurately calculate drug dosages, properly administer medications, and demonstrate general knowledge of pharmacology.				
EMS 115 Defense Tactics for EMS	01	03	00	02		EMS 131 Advanced Airway Management	01	02	00	02
Prerequisites: Department Approval						Prerequisites: EMS 110				
Corequisites: None						Corequisites: EMS 120 and EMS 130				
Component: None						Component: None				
This course is designed to provide tactics that can be used for self-protection in dangerous and violent situations. Emphasis is placed on prediction, recognition, and response to dangerous and violent situations. Upon completion, students should be able to recognize potentially hostile situations and protect themselves during a confrontation.						This course is designed to provide advanced airway management techniques and is required for intermediate and paramedic certification. Topics include respiratory anatomy and physiology, airway, ventilation, adjuncts, surgical intervention, and rapid sequence intubation. Upon completion, students should be able to properly utilize all airway adjuncts and pharmacology associated with airway control and maintenance.				
EMS 120 Intermediate Interventions	02	03	00	03		EMS 140 Rescue Scene Management	01	03	00	02
Prerequisites: EMS 110						Prerequisites: Departmental Approval				
Corequisites: EMS 121, EMS 130 and EMS 131						Corequisites: None				
Component: None						Component: None				
This course is designed to provide the necessary information for interventions appropriate to the EMT-Intermediate and is required for intermediate certification. Topics include automated external defibrillation, basic cardiac electrophysiology, intravenous therapy, venipuncture, acid-base balance, and fluids and electrolytes. Upon completion, students should be able to properly establish an IV line, obtain venous blood, utilize AEDs, and correctly interpret arterial blood gases.						This course introduces rescue scene management and is required for paramedic certification. Topics include response to hazardous material conditions, medical incident command, and extrication of patients from a variety of situations. Upon completion, students should be able to recognize and manage rescue operations based upon initial and follow-up scene assessment.				
EMS 121 EMS Clinical Practicum I	00	00	06	02		EMS 150 Emergency Vehicles & EMS Communication	01	03	00	02
Prerequisites: EMS 110						Prerequisites: None				
Corequisites: EMS 120, EMS 130 and EMS 131						Corequisites: None				
Component: None						Component: None				
This course is the initial hospital and field internship and is required for intermediate and paramedic certification. Emphasis is placed on intermediate-level care. Upon completion, students should be able to demonstrate competence with intermediate-level skills.						This course examines the principles governing emergency vehicles, maintenance of emergency vehicles, and EMS communication equipment and is required for paramedic certification. Topics include applicable motor vehicle laws affecting emergency vehicle operation, defensive driving, collision avoidance techniques, communication systems, and information management systems. Upon completion, students should have a basic knowledge of emergency vehicles, maintenance, and communication needs.				
EMS 125 EMS Instructor Methodology	01	02	00	02		EMS 210 Advanced Patient Assessment	01	03	00	02
Prerequisites: None						Prerequisites: EMS 120, EMS 121, EMS 130 and EMS 131				
Corequisites: None						Corequisites: None				
Component: None						Component: None				
This course covers the information needed to develop and instruct EMS courses. Topics include instructional methods, lesson plan development, time management skills, and theories of adult learning. Upon completion, students should be able to teach EMS courses and meet the North Carolina EMS requirements for instructor methodology.						This course covers advanced patient assessment techniques and is required for paramedic certification. Topics include initial assessment, medical-trauma history, field impression, complete physical exam process, on-going assessment, and documentation skills. Upon completion, students should be able to utilize basic communication skills and record and report collected patient data.

EMS 220 Cardiology	02	06	00	04
Prerequisites: All courses required: EMS 120, EMS 121, EMS 130 and EMS 131				
Corequisites: None				
Component: None				
This course provides an in-depth study of cardiovascular emergencies and is required for paramedic certification. Topics include anatomy and physiology, pathophysiology, rhythm interpretation, cardiac pharmacology, and patient treatment. Upon completion, students should be able to certify at the Advanced Cardiac Life Support Provider level utilizing American Heart Association guidelines.				
EMS 221 EMS Clinical Practicum II	00	00	09	03
Prerequisites: EMS 121 or EMS 122 and COE 121				
Corequisites: None				
Component: None				
This course is a continuation of the hospital and field internship required for paramedic certification. Emphasis is placed on advanced-level care. Upon completion, students should be able to demonstrate continued progress in advanced-level patient care.				
EMS 230 Pharmacology II for EMS	01	03	00	02
Prerequisites: EMS 130				
Corequisites: None				
Component: None				
This course explores the fundamental classification and action of common pharmacologic agents. Emphasis is placed on the action and use of compounds most commonly encountered in the treatment of chronic and acutely ill patients. Upon completion, students should be able to demonstrate general knowledge of drugs covered during the course.				
EMS 231 EMS Clinical Practicum III	00	00	09	03
Prerequisites: EMS 221				
Corequisites: None				
Component: None				
This course is a continuation of the hospital and field internship required for paramedic certification. Emphasis is placed on advanced-level care. Upon completion, students should be able to demonstrate continued progress in advanced-level patient care.				
EMS 235 EMS Management	02	00	00	02
Prerequisites: Departmental Approval				
Corequisites: None				
Component: None				
This course stresses the principles of managing a modern emergency medical service system. Topics include structure and function of municipal governments, EMS grantsmanship, finance, regulatory agencies, system management, legal issues, and other topics relevant to the EMS manager. Upon completion, students should be able to understand the principles of managing emergency medical service delivery systems.				
EMS 240 Special Needs Patients	01	02	00	02
Prerequisites: All courses required: EMS 120, EMS 121, EMS 130 and EMS 131				
Corequisites: None				
Component: None				
This course includes concepts of crisis intervention and techniques				

of dealing with special needs patients and is required for paramedic certification. Topics include behavioral emergencies, abuse, assault, challenged patients, personal well-being, home care, and psychotherapeutic pharmacology. Upon completion, students should be able to recognize and manage frequently encountered special needs patients.

EMS 241 EMS Clinical Practicum IV 00 00 09 03

Prerequisites: EMS 231

Corequisites: None

Component: None

This course is a continuation of the hospital and field internship required for paramedic certification. Emphasis is placed on advanced-level care. Upon completion, students should be able to provide advanced-level patient care as an entry-level paramedic.

EMS 250 Advanced Medical

Emergency 02 03 00 03

Prerequisites: All courses required: EMS 120, EMS 121, EMS 130 and EMS 131

Corequisites: None

Component: None

This course provides an in-depth study of medical conditions frequently encountered in the prehospital setting and is required for paramedic certification. Topics include pulmonology, neurology, endocrinology, anaphylaxis, gastroenterology, toxicology, and environmental emergencies integrating case presentation and emphasizing pharmacotherapeutics. Upon completion, students should be able to recognize and manage frequently encountered medical conditions based upon initial patient impression.

EMS 260 Advanced Trauma

Emergencies 01 03 00 02

Prerequisites: All courses required: EMS 120, EMS 121, EMS 130 and EMS 131

Corequisites: None

Component: None

This course provides in-depth study of trauma including pharmacological interventions for conditions frequently encountered in the prehospital setting and is required for paramedic certification. Topics include hemorrhage control, shock, burns, and trauma to head, spine, soft tissue, thoracic, abdominal, and musculoskeletal areas with case presentations utilized for special problems situations. Upon completion, students should be able to recognize and manage trauma situations based upon patient impressions and should meet requirements of BTLS or PHTLS courses.

EMS 270 Life Span Emergencies 02 02 00 03

Prerequisites: All courses required: EMS 120, EMS 121, EMS 130 and EMS 131

Corequisites: None

Component: None

This course, required for paramedic certification, covers medical/ethical/legal issues and the spectrum of age-specific emergencies from conception through death. Topics include gynecological, obstetrical, neonatal, pediatric, and geriatric emergencies and pharmacological therapeutics. Upon completion, students should be able to recognize and treat age-specific emergencies and certify at the Pediatric Advanced Life Support Provider level.

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
EMS 280 EMS Bridging Course	02	02	00	03

Prerequisites: Departmental Approval
 Corequisites: None
 Component: None

This course is designed to bridge the knowledge gained in a continuing education paramedic program with the knowledge gained in an EMS curriculum program. Topics include patient assessment, documentation, twelve-lead ECG analysis, thrombolytic agents, cardiac pacing, and advanced pharmacology. Upon completion, students should be able to perform advanced patient assessment documentation using the problem-oriented medical record format and manage complicated patients.

EMS 285 EMS Capstone	01	03	00	02
-----------------------------	-----------	-----------	-----------	-----------

Prerequisites: All courses required: EMS 220, EMS 250 and EMS 260
 Corequisites: None
 Component: None

This course provides an opportunity to demonstrate problem-solving skills as a team leader in simulated patient scenarios and is required for paramedic certification. Emphasis is placed on critical thinking, integration of didactic and psychomotor skills, and effective performance in simulated emergency situations. Upon completion, students should be able to recognize and appropriately respond to a variety of EMS-related events.

ENG 070 Basic Language Skills	02	02	00	03
--------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: Placement
 Corequisites: No Corequisites
 Component: None

This course introduces the fundamentals of standard written English. Emphasis is placed on effective word choice, recognition of sentences and sentence parts, and basic usage. Upon completion, students should be able to generate a variety of sentence types that clearly express ideas. This course does not satisfy the developmental-reading and writing prerequisite for ENG 111 or ENG 111A.

ENG 080 Writing Foundations	03	02	00	04
------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: ENG 070 or ACCUPLACER Writing Score of 45
 Corequisites: RED 080 or ACCUPLACER Reading Score of 39
 Component: None

This course introduces the writing process and stresses effective sentences. Emphasis is placed on applying the conventions of written English, reflecting standard usage and mechanics in structuring a variety of sentences. Upon completion, students should be able to write correct sentences and a unified, coherent paragraph.

ENG 090 Composition Strategies	03	00	00	03
---------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: ENG 080 or ACCUPLACER Writing Score of 66
 Corequisites: ENG 090A and RED 90 or ACCUPLACER Reading Score of 80
 Component: None

This course introduces the writing process and stresses effective sentences. Emphasis is placed on applying the conventions of written English, reflecting standard usage and mechanics in structuring a variety of sentences. Upon completion, students should be able to write correct sentences and a unified, coherent paragraph.

ENG 090A Composition Strategies Lab	00	02	00	01
--	-----------	-----------	-----------	-----------

Prerequisites: None
 Corequisites: ENG 090
 Component: None

This writing lab is designed to practice the skills introduced in ENG 090. Emphasis is placed on learning and applying the conventions of standard written English in developing paragraphs within the essay. Upon completion, students should be able to compose a variety of paragraphs and a unified, coherent essay.

ENG 095 Reading & Comp Strategies	05	00	00	05
--	-----------	-----------	-----------	-----------

Prerequisites: ENG 085 or ENG 080 and RED 080
 Corequisites: ENG 095A
 Component: None

This course uses whole language to strengthen proficiency in reading and writing for college. Emphasis is placed on applying critical reading skills to narrative and expository texts and on using the writing process. Upon completion, students should be able to comprehend, analyze, and evaluate college texts and to compose essays in preparation for college writing.

ENG 095A Reading & Comp Strategies Lab	00	02	00	01
---	-----------	-----------	-----------	-----------

Prerequisites: ENG 085 or ENG 080 and RED 080
 Corequisites: ENG 095
 Component: None

This laboratory provides the opportunity to practice the skills introduced in ENG 095. Emphasis is placed on practical skills for applying critical reading skills to narrative and expository texts and on the writing process. Upon completion, students should be able to apply those skills in the production of effective essays in preparation for college writing.

ENG 101 Applied Communications I	03	00	00	03
---	-----------	-----------	-----------	-----------

Prerequisites: None
 Corequisites: None
 Component: None

This course is designed to enhance reading and writing skills for the workplace. Emphasis is placed on technical reading, job-related vocabulary, sentence writing, punctuation, and spelling. Upon completion, students should be able to identify main ideas with supporting details and produce mechanically correct short writings appropriate to the workplace. This course is intended for certificate and diploma programs.

ENG 102 Applied Communications II	03	00	00	03
--	-----------	-----------	-----------	-----------

Prerequisites: None
 Corequisites: None
 Component: None

This course is designed to enhance writing and speaking skills for the workplace. Emphasis is placed on generating short writings such as job application documents, memoranda, and reports and developing interpersonal communication skills with employees and the public. Upon completion, students should be able to prepare effective, short, and job-related written and oral communications. This course is intended for certificate and diploma programs.

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
ENG 111 Expository Writing	03	00	00	03

Prerequisites: ENG 090 or ACCUPLACER Writing Score of 87;
RED 090 or ACCUPLACER Reading Score of 80

Corequisites: None

Component: None

This course is the required first course in a series of two designed to develop the ability to produce clear expository prose. Emphasis is placed on the writing process including audience analysis, topic selection, thesis support and development, editing, and revision. Upon completion, students should be able to produce unified, coherent, well-developed essays using standard written English. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in English composition.

ENG 112 Argument-Based Research	03	00	00	03
--	-----------	-----------	-----------	-----------

Prerequisites: ENG 111

Corequisites: None

Component: None

This course, the second in a series of two, introduces research techniques, documentation styles, and argumentative strategies. Emphasis is placed on analyzing information and ideas and incorporating research findings into documented argumentative essays and research projects. Upon completion, students should be able to summarize, paraphrase, interpret, and synthesize information from primary and secondary sources using standard research format and style. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in English composition.

ENG 113 Literature-Based Research	03	00	00	03
--	-----------	-----------	-----------	-----------

Prerequisites: ENG 111

Corequisites: None

Component: None

This course, the second in a series of two, expands the concepts developed in ENG 111 by focusing on writing that involves literature-based research and documentation. Emphasis is placed on critical reading and thinking and the analysis and interpretation of prose, poetry, and drama: plot, characterization, theme, cultural context, etc. Upon completion, students should be able to construct mechanically-sound, documented essays and research papers that analyze and respond to literary works. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in English composition.

ENG 114 Professional Research & Reporting	03	00	00	03
--	-----------	-----------	-----------	-----------

Prerequisites: ENG 111

Corequisites: None

Component: None

This course, the second in a series of two, is designed to teach professional communication skills. Emphasis is placed on research, listening, critical reading and thinking, analysis, interpretation, and design used in oral and written presentations. Upon completion, students should be able to work individually and collaboratively to produce well-designed business and professional written and oral presentations. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in English composition.

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
ENG 115 Oral Communication	03	00	00	03

Prerequisites: None

Corequisites: None

Component: None

This course introduces the basic principles of oral communication in both small group and public settings. Emphasis is placed on the components of the communication process, group decision-making, and public address. Upon completion, students should be able to demonstrate the principles of effective oral communication in small group and public settings.

ENG 125 Creative Writing I	03	00	00	03
-----------------------------------	-----------	-----------	-----------	-----------

Prerequisites: ENG 111

Corequisites: None

Component: None

This course is designed to provide students with the opportunity to practice the art of creative writing. Emphasis is placed on writing, fiction, poetry, and sketches. Upon completion, students should be able to craft and critique their own writing and critique the writing of others. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

ENG 126 Creative Writing II	03	00	00	03
------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: ENG 125

Corequisites: None

Component: None

This course is designed as a workshop approach for advancing imaginative and literary skills. Emphasis is placed on the discussion of style, techniques, and challenges for first publications. Upon completion, students should be able to submit a piece of their writing for publication. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

ENG 131 Introduction to Literature	03	00	00	03
---	-----------	-----------	-----------	-----------

Prerequisites: ENG 111

Corequisites: One course required: ENG 112, ENG 113,
or ENG 114

Component: None

This course introduces the principal genres of literature. Emphasis is placed on literary terminology, devices, structure, and interpretation. Upon completion, students should be able to analyze and respond to literature. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

ENG 132 Introduction to Drama	03	00	00	03
--------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: ENG 111

Corequisites: One course required: ENG 112, ENG 113,
or ENG 114

Component: None

This course provides intensive study of drama as a literary form, based on close reading of representative texts. Emphasis is placed on the development and analysis of drama. Upon completion, students should be able to interpret, analyze, and discuss the distinguishing features of drama. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

Component: None				
This course covers selected works in American literature from its beginnings to 1865. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to literary works in their historical and cultural contexts. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.				
ENG 232 American Literature II	03	00	00	03
Prerequisites: One course required: ENG 112, ENG 113 or ENG 114				
Corequisites: None				
Component: None				
This course covers selected works in American literature from 1865 to the present. Emphasis is placed on historical background, cultur-				

al context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to literary works in their historical and cultural contexts. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts. This course is also available through the Virtual Learning Community (VLC).

ENG 233 Major American Writers **03** **00** **00** **03**

Prerequisites: One course required: ENG 112, ENG 113
or ENG 114

Corequisites: None

Component: None

This course provides an intensive study of the works of several major American authors. Emphasis is placed on American history, culture, and the literary merits. Upon completion, students should be able to interpret, analyze, and evaluate the works studied. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

ENG 234 Modern American Poets **03** **00** **00** **03**

Prerequisites: One course required: ENG 112, ENG 113
or ENG 114

Corequisites: None

Component: None

This course covers the works of selected major modern American poets. Topics include each poet's theory and practice of poetry and the historical and literary traditions which influenced or were influenced by the poets. Upon completion, students should be able to read poetry with more comprehension and explicate selected poems in light of technique, theory, and poetic traditions. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

ENG 241 British Literature I **03** **00** **00** **03**

Prerequisites: One course required: ENG 112, ENG 113
or ENG 114

Corequisites: None

Component: None

This course covers selected works in British literature from its beginnings to the Romantic Period. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to literary works in their historical and cultural contexts. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts. This course is also available through the Virtual Learning Community (VLC).

ENG 242 British Literature II **03** **00** **00** **03**

Prerequisites: One course required: ENG 112, ENG 113
or ENG 114

Corequisites: None

Component: None

This course covers selected works in British literature from the Romantic Period to the present. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to literary works in their historical

and cultural contexts. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts. This course is also available through the Virtual Learning Community (VLC).

ENG 243 Major British Writers 03 00 00 03

Prerequisites: One course required: ENG 112, ENG 113
or ENG 114

Corequisites: None

Component: None

This course provides an intensive study of the works of several major British authors. Emphasis is placed on British history, culture, and the literary merits. Upon completion, students should be able to interpret, analyze, and evaluate the works studied. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

ENG 251 Western World Literature I 03 00 00 03

Prerequisites: One course required: ENG 112, ENG 113
or ENG 114

Corequisites: None

Component: None

This course provides a survey of selected European works from the Classical period through the Renaissance. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to selected works. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

ENG 252 Western World Literature II 03 00 00 03

Prerequisites: One course required: ENG 112, ENG 113
or ENG 114

Corequisites: None

Component: None

This course provides a survey of selected European works from the Neoclassical period to the present. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to selected works. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

ENG 253 The Bible as Literature 03 00 00 03

Prerequisites: One course required: ENG 112, ENG 113
or ENG 114

Corequisites: None

Component: None

This course introduces the Hebrew Old Testament and the Christian New Testament as works of literary art. Emphasis is placed on the Bible's literary aspects including history, composition, structure, and cultural contexts. Upon completion, students should be able to identify and analyze selected books and passages using appropriate literary conventions. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

ENG 261 World Literature I 03 00 00 03

Prerequisites: One course required: ENG 112, ENG 113
or ENG 114

Corequisites: None

Component: None

This course introduces selected works from the Pacific, Asia, Africa, Europe, and the Americas from their literary beginnings through the seventeenth century. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to selected works. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

ENG 262 World Literature II 03 00 00 03

Prerequisites: One course required: ENG 112, ENG 113
or ENG 114

Corequisites: None

Component: None

This course introduces selected works from the Pacific, Asia, Africa, Europe, and the Americas from the eighteenth century to the present. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to selected works. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

ENG 271 Contemporary Literature 03 00 00 03

Prerequisites: One course required: ENG 112, ENG 113
or ENG 114

Corequisites: None

Component: None

This course includes a study of contemporary literature. Emphasis is placed on literary and cultural trends of selected texts. Upon completion, students should be able to interpret, analyze, and respond to the literature. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

ENG 272 Southern Literature 03 00 00 03

Prerequisites: One course required: ENG 112, ENG 113
or ENG 114

Corequisites: None

Component: None

This course provides an analytical study of the works of several Southern authors. Emphasis is placed on the historical and cultural contexts, themes, aesthetic features of individual works, and biographical backgrounds of the authors. Upon completion, students should be able to interpret, analyze, and discuss selected works. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

ENG 273 African-American Literature 03 00 00 03

Prerequisites: One course required: ENG 112, ENG 113
or ENG 114

Corequisites: None

Component: None

This course provides a survey of the development of African-

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
American literature from its beginnings to the present. Emphasis is placed on historical and cultural context, themes, literary traditions, and backgrounds of the authors. Upon completion, students should be able to interpret, analyze, and respond to selected texts. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement. This course is also available through the Virtual Learning Community (VLC).				

ENG 274 Literature by Women	03	00	00	03
------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: One course required: ENG 112, ENG 113 or ENG 114

Corequisites: None

Component: None

This course provides an analytical study of the works of several women authors. Emphasis is placed on the historical and cultural contexts, themes and aesthetic features of individual works, and biographical backgrounds of the authors. Upon completion, students should be able to interpret, analyze, and discuss selected works. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

ENG 275 Science Fiction	03	00	00	03
--------------------------------	-----------	-----------	-----------	-----------

Prerequisites: One course required: ENG 112, ENG 113 or ENG 114

Corequisites: None

Component: None

This course covers the relationships between science and literature through analysis of short stories and novels. Emphasis is placed on scientific discoveries that shaped Western culture and our changing view of the universe as reflected in science fiction literature. Upon completion, students should be able to trace major themes and ideas and illustrate relationships between science, world view, and science fiction literature. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

EPT 120 Sociology of Disaster	03	00	00	03
--------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course is designed to overview sociological disaster research, disaster systems, and alternative research approaches. Topics include human and organizational behaviors, long term disaster impact on communities, disaster warning, and evacuation considerations. Upon completion, students should be able to assess and predict the impact of disaster-related human behavior.

EPT 150 EMS Incident Management	02	02	00	03
--	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course covers the fully integrated incident management system for EMS response to high impact incidents. Topics include mass casualty incidents, terrorists events, communications, training, triage, law and fire incident command. Upon completion, students should be able to implement and operate within the National Incident Management System.

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
EPT 210 Disaster Resp Ops Mgt	03	00	00	03

Prerequisites: FIP 236

Corequisites: None

Component: None

This course covers the basic concepts and operational procedures and authorities involved in responding to major disasters. Topics include Federal, State, and local roles and responsibilities in major disaster recovery work with an emphasis on governmental coordination. Upon completion, students should be able to implement a disaster plan and assess the needs of those involved in a major disaster.

EPT 220 Terrorism and Emer. Mgt.	03	00	00	03
---	-----------	-----------	-----------	-----------

Prerequisites: EPT 210

Corequisites: None

Component: None

This course covers preparing for, responding to, and safely mitigating terrorism incidents. Topic include the history of terrorism, scene hazards, evidence preservation, risk assessment, roles and responsibilities, explosive recognition, and terrorism planning. Upon completion, students should be able to recognize the threat of terrorism and operate within the emergency management framework at a terrorism incident.

EPT 275 Emergency OPS Center Mgt	03	00	00	03
---	-----------	-----------	-----------	-----------

Prerequisites: FIP 236

Corequisites: None

Component: None

This course provides students with the knowledge and skills to effectively manage and operate an EOC during crisis situations. Topics include properly locating and designing an EOC, staffing, training and briefing EOC personnel, and how to operate an EOC. Upon completion, students should be able to demonstrate how to set up and operate an effective emergency operations center.

FIP 120 Intro to Fire Protection	03	00	00	03
---	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course provides an overview of the history, development, methods, systems, and regulations as they apply to the fire protection field. Topics include history, evolution, statistics, suppression, organizations, careers, curriculum, and other related topics. Upon completion, students should be able to demonstrate a broad understanding of the fire protection field.

FIP 124 Fire Prevention & Public Ed	03	00	00	03
--	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course introduces fire prevention concepts as they relate to community and industrial operations. Topics include the development and maintenance of fire prevention programs, educational programs, and inspection programs. Upon completion, students should be able to research, develop, and present a fire safety program to a citizens or industrial group, meeting NFPA 1021. This course is also available through the Virtual Learning Community (VLC).

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
FIP 128 Detection & Investigation	03	00	00	03

Prerequisites: None

Corequisites: None

Component: None

This course covers procedures for determining the origin and cause of accidental and incendiary fires. Topics include collection and preservation of evidence, detection and determination of accelerants, courtroom procedure and testimony, and documentation of the fire scene. Upon completion, students should be able to conduct a competent fire investigation and present those findings to appropriate officials or equivalent, meeting NFPA 1021.

FIP 132 Building Construction	03	00	00	03
--------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course covers the principles and practices related to various types of building construction, including residential and commercial, as impacted by fire conditions. Topics include types of construction and related elements, fire resistive aspects of construction materials, building codes, collapse, and other related topics. Upon completion, students should be able to understand and recognize various types of construction as related to fire conditions MEETING NFPA 1021.

FIP 136 Inspections & Codes	03	00	00	03
--	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course covers the fundamentals of fire and building codes and procedures to conduct an inspection. Topics include review of fire and building codes, writing inspection reports, identifying hazards, plan reviews, site sketches, and other related topics. Upon completion, students should be able to conduct a fire code compliance inspection and produce a written report, meeting NFPA 1021.

FIP 140 Industrial Fire Protect	03	00	00	03
--	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course covers fire protection systems in industrial facilities. Topics include applicable health and safety standards, insurance carrier regulations, other regulatory agencies, hazards of local industries, fire brigade operation, and loss prevention programs. Upon completion, students should be able to plan, organize, and evaluate an industrial facility's fire protection, which meet elements of NFPA 1021 for Fire Officer I and II.

FIP 152 Fire Protection Law	03	00	00	03
------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course covers fire protection law. Topics include torts, legal terms, contracts, liability, review of case histories, and other related topics. Upon completion, students should be able to discuss laws, codes, and ordinances as they relate to fire protection. This course is also available through the Virtual Learning Community (VLC).

FIP 164 OSHA Standards	03	00	00	03

Prerequisites: None

Corequisites: None

Component: None

This course covers public and private sector OSHA work site requirements. Emphasis is placed on accident prevention and reporting, personal safety, machine operation, and hazardous material handling. Upon completion, students should be able to analyze and interpret specific OSHA regulations and write workplace policies designed to achieve compliance.

FIP 180 Wildland Fire Behavior	03	00	00	03
---------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course covers the principles of wildland fire behavior and meteorology. Emphasis is placed on fire calculations, fuels, and related weather effects. Upon completion, students should be able to demonstrate and apply fire behavior theories through written and performance evaluations.

FIP 184 Wildland Fire Safety	03	00	00	03
-------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course covers safety principles used when working in the wildland fire environment. Emphasis is placed on personal safety and working with equipment, aircraft, and fire-ground operations. Upon completion, students should be able to demonstrate wildland fire safety procedures through written and performance evaluations.

FIP 220 Fire Fighting Strategies	03	00	00	03
---	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course provides preparation for command of initial incident operations involving emergencies within both the public and private sector. Topics include incident management, fire-ground tactics and strategies, incident safety, and command/control of emergency operations. Upon completion, students should be able to describe the initial incident system related to operations involving various emergencies in fire/non-fire situations, meeting NFPA 1021.

FIP 221 Adv Fire Fighting Strat	03	00	00	03
--	-----------	-----------	-----------	-----------

Prerequisites: FIP 220

Corequisites: None

Component: None

This course covers command-level operations for multi-company/agency operations involving fire and non-fire emergencies. Topics include advanced ICS, advanced incident analysis, command-level fire operations, and control of both man made and natural major disasters. Upon completion, students should be able to describe proper and accepted systems for the mitigation of emergencies at the level of overall scene command.

FSE 112 Principles of Funeral Service	03	00	00	03
--	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course covers the principles of funeral service and various religious and cultural customs of funeral service in the US. Emphasis is placed on Protestant, Catholic, Jewish, and other religious groups and the professional and ethical obligations of the profession. Upon completion, students should be able to demonstrate an understanding of religious and cultural traditions and how various funeral services are conducted.

FSE 114 Embalming Chemistry	04	00	00	04
------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course covers the fundamentals of organic chemistry and biochemistry as related to the funeral service profession. Emphasis is placed on chemical changes in the human body during life, after death, and during chemical preservation. Upon completion, students should be able to use various embalming chemicals and mix embalming solutions for laboratory use.

FSE 116 Funeral Law and Ethics	03	00	00	03
---------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course covers fundamentals of mortuary law and ethical considerations relevant to the funeral profession. Emphasis is placed on North Carolina Mortuary Law, OSHA requirements, anatomical donations, vital statistics, and general law relative to mortuary law. Upon completion, students should be able to demonstrate an understanding of the legal and ethical aspects of funeral service.

FSE 118 Embalming Anatomy	04	00	00	04
----------------------------------	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course covers the general anatomy needed in funeral service. Emphasis is placed on medical terminology and the normal structure and function of the human body with special consideration of the circulatory system. Upon completion, students should be able to understand the normal structure and function of the human body and how it relates to the embalming process.

FSE 120 Embalming Microbiology	03	00	00	03
---------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course is a survey of the basic principles of microbiology and related funeral service considerations. Emphasis is placed on sanitation,

disinfection, public health, and embalming practices as it relates to various microorganisms. Upon completion, students should be able to characterize various microbial agents and discuss topical, chemical, and biological methods of control.

FSE 210 Embalming Theory I	03	00	00	03
-----------------------------------	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: FSE 211 or COE 112F

Component: None

This course introduces various embalming procedures and the purpose, history, and need for embalming. Emphasis is placed on laboratory equipment, post mortem changes, and the proper use of embalming chemicals. Upon completion, students should be able to identify various instruments and relate theoretical case analysis to embalming procedures used in the funeral home.

FSE 211 Embalming Lab I	00	04	00	02
--------------------------------	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: FSE 210

Component: None

This course provides hands-on experience with general embalming techniques. Emphasis is placed on preparation of human remains in the embalming laboratory. Upon completion, students should be able to utilize sanitation and disinfection procedures correctly and properly prepare human remains for burial.

FSE 212 Embalming Theory II	03	00	00	03
------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: A course from each set: FSE 210 and FSE 211 or COE112F

Corequisites: FSE 213 or COE 122F

Component: None

This course is a continuation of FSE 210 and covers more detailed embalming procedures. Topics include anatomical consideration for embalming, case analysis, positioning features, arterial injection, cavity treatment, autopsies, and other post mortem conditions. Upon completion, students should be able to demonstrate knowledge of embalming theory and sanitation to protect the public health.

FSE 213 Embalming Lab II	00	04	00	02
---------------------------------	-----------	-----------	-----------	-----------

Prerequisites: FSE 210 and FSE 211

Corequisites: FSE 212

Component: None

This course provides hands-on experience in more advanced embalming skills. Emphasis is placed on preparation of human remains in the embalming laboratory. Upon completion, students should be able to determine the proper techniques to be utilized in each particular embalming situation.

FSE 214 Pathology	03	00	00	03
--------------------------	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course is a general survey of the disease process. Topics include pathological terminology, basic body functions, trauma, disease process, and etiology. Upon completion, students should be able to recognize medical terminology used in completing death certificates and understand the disease process.

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
FSE 215 Funeral Home Operations	04	00	00	04

Prerequisites: None

Corequisites: None

Component: None

This course covers funeral home operations, including business techniques and effective counseling skills. Topics include establishing a funeral home, choosing and financing a location, building, merchandising, caskets, vaults, planning, and counseling techniques and philosophies. Upon completion, students should be able to understand the proper procedures for operating a funeral home and relate more effectively to those experiencing grief.

FSE 216 Restorative Arts	02	04	00	04
---------------------------------	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course covers the terminology used and pathological conditions observed during the restoration process. Topics include basic restoration, anatomical modeling, expression, use of photographs, legal aspects, pathological discoloration, cosmetics, and solvents. Upon completion, students should be able to utilize materials and techniques in the restoration of human remains.

FSE 217 Funeral Service Projects	01	02	00	02
---	-----------	-----------	-----------	-----------

Prerequisites: Department Chairperson approval

Corequisites: None

Component: None

This course provides an overview of funeral service practices and procedures, including computer software used in the funeral service profession. Emphasis is placed on utilizing funeral service software and on topics required for licensure. Upon completion, students should be able to enter information, generate documents, and demonstrate knowledge of the topics covered on state or national licensure exams.

GEL 111 Introductory Geology	03	02	00	04
-------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course introduces basic landforms and geological processes. Topics include rocks, minerals, volcanoes, fluvial processes, geological history, plate tectonics, glaciers, and coastal dynamics. Upon completion, students should be able to describe basic geological processes that shape the earth. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

GEL 113 Historical Geology	03	02	00	04
-----------------------------------	-----------	-----------	-----------	-----------

Prerequisites: GEL 111 or GEL 120

Corequisites: None

Component: None

This course covers the geological history of the earth and its life forms. Emphasis is placed on the study of rock strata, fossil groups, and geological time. Upon completion, students should be able to identify major fossil groups and associated rock strata and approximate ages of geological formations. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

GEL 120 Physical Geology	03	02	00	04
---------------------------------	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course provides a study of the structure and composition of the earth's crust. Emphasis is placed on weathering, erosional and depositional processes, mountain building forces, rocks and minerals, and structural changes. Upon completion, students should be able to explain the structure, composition, and formation of the earth's crust. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

GEL 220 Marine Geology	03	02	00	04
-------------------------------	-----------	-----------	-----------	-----------

Prerequisites: GEL 120

Corequisites: None

Component: None

This course presents a detailed examination of coastal and sea floor geology. Emphasis is placed on coastal and sea floor landforms and processes that shape these features. Upon completion, students should be able to describe the origin and evolution of both coastal and sea floor landforms. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

GEL 230 Environmental Geology	03	02	00	04
--------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: GEL 111, GEL 120 or PHS 130

Corequisites: None

Component: None

This course provides insights into geologic forces that cause environmental changes influencing man's activities. Emphasis is placed on natural hazards and disasters caused by geologic forces. Upon completion, students should be able to relate major hazards and disasters to the geologic forces responsible for their occurrence. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

GEO 110 Introduction to Geography	03	00	00	03
--	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course introduces map reading skills and the physical and cultural features of different areas of the earth. Topics include spatial association, the importance of location, physical characteristics of the earth, and the impact of humans on the environment. Upon completion, students should be able to demonstrate an ability to read a map and describe physical and cultural features of different regions. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

GEO 111 World Regional Geography	03	00	00	03
---	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course introduces the regional concept which emphasizes the spatial association of people and their environment. Emphasis is

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
--	--------------	------------	---------------	---------------

placed on the physical, cultural, and economic systems that interact to produce the distinct regions of the earth. Upon completion, students should be able to describe variations in physical and cultural features of a region and demonstrate an understanding of their functional relationships. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences. This course is also available through the Virtual Learning Community (VLC).

GEO 112 Cultural Geography	03	00	00	03
-----------------------------------	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course is designed to explore the diversity of human cultures and to describe their shared characteristics. Emphasis is placed on the characteristics, distribution, and complexity of earth's cultural patterns. Upon completion, students should be able to demonstrate an understanding of the differences and similarities in human cultural groups. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

GEO 113 Economic Geography	03	00	00	03
-----------------------------------	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course covers the patterns and networks of economic interdependence and how they affect human populations. Emphasis is placed on the economic aspects of the production and distribution of goods and services and their impact on the quality of human life. Upon completion, students should be able to describe different economic systems and demonstrate an understanding of the variables that influence economic development. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

GEO 121 North Carolina Geography	03	00	00	03
---	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course is a survey of the physical and cultural landscapes of North Carolina. Topics include physical characteristics of North Carolina, settlement patterns, resource use, and cultural variations. Upon completion, students should be able to demonstrate knowledge of the distinct physical and cultural features of North Carolina. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

GEO 130 General Physical Geography	03	00	00	03
---	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course introduces both the basic physical components that help shape the earth and the study of minerals, rocks, and evolution of landforms. Emphasis is placed on the geographic grid, cartography, weather, climate, mineral composition, fluvial processes, and erosion and deposition. Upon completion, students should be able to iden-

tify these components and processes and explain how they interact. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

GEO 131 Physical Geography I	03	02	00	04
-------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course introduces the basic physical components that help shape the earth. Emphasis is placed on the geographic grid, cartography, weather, climate, biogeography, and soils. Upon completion, students should be able to identify these components and explain how they interact. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

GEO 132 Physical Geography II	03	02	00	04
--------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course introduces the study of minerals, rocks, evolution of landforms, and consequences of landscape change. Emphasis is placed on mineral composition, fluvial processes, erosion and deposition, glaciers, and coastal processes. Upon completion, students should be able to identify these components and processes and to explain how they interact. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

GER 111 Elementary German I	03	00	00	03
------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course introduces the fundamental elements of the German language within a cultural context. Emphasis is placed on the development of basic listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written German and demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

GER 112 Elementary German II	03	00	00	03
-------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: GER 111

Corequisites: None

Component: None

This course is a continuation of GER 111 focusing on the fundamental elements of the German language within a cultural context. Emphasis is placed on the progressive development of listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written German and demonstrate further cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS		CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
GER 181 German Lab 1	00	02	00	01					
Prerequisites: None Corequisites: None Component: None This course provides an opportunity to enhance acquisition of the fundamental elements of the German language. Emphasis is placed on the progressive development of basic listening, speaking, reading, and writing skills through the use of supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written German and demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.									
GER 182 German Lab 2	00	02	00	01					
Prerequisites: GER 181 Corequisites: None Component: None This course provides an opportunity to enhance acquisition of the fundamental elements of the German language. Emphasis is placed on the progressive development of basic listening, speaking, reading, and writing skills through the use of supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written German and demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.									
GER 211 Intermediate German I	03	00	00	03					
Prerequisites: GER 112 Corequisites: None Component: None This course provides a review and expansion of the essential skills of the German language. Emphasis is placed on the study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate effectively, accurately, and creatively about the past, present, and future. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.									
GER 212 Intermediate German II	03	00	00	03					
Prerequisites: GER 211 Corequisites: None Component: None This course provides a continuation of GER 211. Emphasis is placed on the continuing study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate spontaneously and accurately with increasing complexity and sophistication. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.									
GER 221 German Conversation	03	00	00	03					
Prerequisites: GER 212 Corequisites: None Component: None This course provides an opportunity for intensive communication in spoken German. Emphasis is placed on vocabulary acquisition and									
interactive communication through the discussion of media materials and authentic texts. Upon completion, students should be able to discuss selected topics, express ideas and opinions clearly, and engage in formal and informal conversations. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.									
GER 281 German Lab 3	00	02	00	01					
Prerequisites: GER 182 Corequisites: None Component: None This course provides an opportunity to enhance the review and expansion of the essential skills of the German language. Emphasis is placed on the study of authentic and representative literary and cultural texts through the use of supplementary learning media and materials. Upon completion, students should be able to communicate effectively, accurately, and creatively about the past, present, and future. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.									
GER 282 German Lab 4	00	02	00	01					
Prerequisites: GER 281 Corequisites: None Component: None This course provides an opportunity to enhance the review and expansion of the essential skills of the German language. Emphasis is placed on the continuing study of authentic and representative literary and cultural texts through the use of supplementary learning media and materials. Upon completion, students should be able to communicate spontaneously and accurately with increasing complexity and sophistication. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.									
GRD 110 Typography I	02	02	00	03					
Prerequisites: None Corequisites: None Component: None This course introduces the history and mechanics of type and its application to layout and design. Topics include typographic fundamentals, anatomy, measurements, composition, identification, and terminology. Upon completion, students should be able to demonstrate proficiency in design application, analysis, specification, and creation of typographic elements.									
GRD 117 Design Career Exploration	02	00	00	02					
Prerequisites: None Corequisites: None Component: None This course covers opportunities in the graphic design field and employment requirements. Topics include evaluation of career choices, operations, structure of advertising and graphic design businesses, and related business issues. Upon completion, students should be able to demonstrate an understanding of the graphic design field and consider an appropriate personal direction of career specialization.									

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS		CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
GRD 121 Drawing Fundamentals I	01	03	00	02					
Prerequisites: None Corequisites: None Component: None This course increases observation skills using basic drawing techniques and media in graphic design. Emphasis is placed on developing the use of graphic design principles, media applications, spatial considerations, drawing styles, and approaches. Upon completion, students should be able to show competence and proficiency in finished works.									
GRD 131 Illustration I	01	03	00	02					
Prerequisites: GRD 121 Corequisites: None Component: None This course introduces the application of rendering techniques to create illustrations. Emphasis is placed on controlling various media, methods, surfaces, design problems, and the appropriate media selection process. Upon completion, students should be able to produce quality illustrations from conception through finished artwork.									
GRD 132 Illustration II	01	03	00	02					
Prerequisites: GRD 131 Corequisites: None Component: None This course is a continuation of GRD 131. Topics include editorial, product, fashion, and advertising illustrations. Upon completion, students should be able to demonstrate increased proficiency in creating quality illustrations from conceptualization through finished artwork.									
GRD 141 Graphic Design I	02	04	00	04					
Prerequisites: None Corequisites: None Component: None This course introduces the conceptualization process used in visual problem solving. Emphasis is placed on learning the principles of design and on the manipulation and organization of elements. Upon completion, students should be able to apply design principles and visual elements to projects.									
GRD 142 Graphic Design II	02	04	00	04					
Prerequisites: GRD 121, GRD 141, GRD 151 Corequisites: GRD 152 Component: None This course covers the application of visual elements and design principles in advertising and graphic design. Topics include creation of various designs, such as logos, advertisements, posters, outdoor advertising, and publication design. Upon completion, students should be able to effectively apply design principles and visual elements to projects.									
GRD 151 Computer Design Basics	01	04	00	03					
Prerequisites: None Corequisites: None Component: None This course covers designing and drawing with various types of software applications for advertising and graphic design. Emphasis is placed on creative and imaginative use of space, shapes, value, texture, color, and typography to provide effective solutions to advertising and graphic design problems. Upon completion, students should be able to use the computer as a creative tool.									
GRD 152 Computer Design Tech I	01	04	00	03					
Prerequisites: GRD 151 Corequisites: None Component: None This course covers complex design problems utilizing various design and drawing software applications. Topics include the expressive use of typography, image, and organization to communicate a message. Upon completion, students should be able to use appropriate computer software to professionally present their work.									
GRD 153 Computer Design Tech II	01	04	00	03					
Prerequisites: GRD 152 Corequisites: None Component: None This course covers advanced theories and practices in the field of computer design. Emphasis is placed on advanced use of color palettes, layers, and paths. Upon completion, students should be able to creatively produce designs and articulate their rationale.									
GRD 158 Computer Design Apps III	00	03	00	01					
Prerequisites: None Corequisites: GRD 153 Component: None This course is designed to provide additional hands-on training with computer software applications. Emphasis is placed on utilizing appropriate computer applications to create and develop advanced graphic designs. Upon completion, students should be able to produce advanced graphic design projects using the computer.									
GRD 160 Photo Fundamentals I	01	04	00	03					
Prerequisites: None Corequisites: None Component: None This course introduces basic camera operations, roll film processing, and photographic print production. Topics include contrast, depth-of-field, subject composition, enlarger operation, and density control. Upon completion, students should be able to produce photographic prints with acceptable density values and quality.									
GRD 161 Photo Fundamentals II	01	04	00	03					
Prerequisites: GRD 160 Corequisites: None Component: None This course is a continuation of GRD 160. Topics include conversions, toning, color, specialized equipment, lighting, processing, and other methods and materials. Upon completion, students should be able to demonstrate proficiency in producing photographic prints.									
GRD 220 Calligraphy	00	02	00	01					
Prerequisites: None Corequisites: None Component: None This course covers calligraphy as a design element. Emphasis is placed on the history, methods, materials, tools, and techniques of hand lettering. Upon completion, students should be able to use a variety of pens, brushes, inks, paint, and surfaces to produce several finished calligraphic works.									

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
GRD 231 Marker Illustration	01	03	00	02

Prerequisites: ART 131 or GRD 121

Corequisites: None

Component: None

This course covers marker illustration. Emphasis is placed on various marker types, techniques, and surfaces used in marker illustration. Upon completion, students should be able to demonstrate competence in the use of markers as a medium for commercial illustration.

GRD 241 Graphic Design III	02	04	00	04
-----------------------------------	-----------	-----------	-----------	-----------

Prerequisites: GRD 142, GRD 282, GRD 285 and MKT 220

Corequisites: GRD 153

Component: None

This course is an advanced exploration of various techniques and media for advertising and graphic design. Emphasis is placed on advanced concepts and solutions to complex and challenging graphic design problems. Upon completion, students should be able to demonstrate competence and professionalism in visual problem solving.

GRD 242 Graphic Design IV	02	04	00	04
----------------------------------	-----------	-----------	-----------	-----------

Prerequisites: GRD 241

Corequisites: None

Component: None

This course is a continuation of GRD 241. Emphasis is placed on using advanced media techniques, concepts, strategies, and professionalism in all aspects of design. Upon completion, students should be able to conceptualize, create, and produce designs for reproduction.

GRD 247 Design Applications IV	00	03	00	01
---------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: GRD 242

Component: None

This course is designed to provide additional hands-on training in graphic design. Emphasis is placed on producing sophisticated design projects utilizing concepts and techniques covered in GRD 242. Upon completion, students should be able to solve complex design problems by producing projects to meet client specifications for reproduction.

GRD 263 Illustrative Imaging	01	04	00	03
-------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: GRD 131, GRD 151, GRD 152, and GRD 153

Corequisites: None

Component: None

This course covers the creative manipulation of images utilizing digital techniques of masking, layering, airbrushing, and painting. Topics include the aesthetic analysis of visual imagery as well as the legalities of manipulating images. Upon completion, students should be able to utilize software applications to creatively manipulate and illustratively build digital images which accomplish design objectives.

GRD 265 Digital Print Production	01	04	00	03
---	-----------	-----------	-----------	-----------

Prerequisites: GRD 152 or GRA 151

Corequisites: None

Component: None

This course covers preparation of digital files for output and reproduction. Emphasis is placed on output options, separations, color

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
proofing, and cost and design considerations. Upon completion, students should be able to prepare files and select appropriate output methods for design solutions.				

GRD 271 Multimedia Design I	01	03	00	02
------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: GRD 151 and GRD 152

Corequisites: None

Component: None

This course introduces the fundamentals of multimedia design and production for computer-related presentations. Topics include interface design, typography, storyboarding, scripting, simple animation, graphics, digital audiovideo, and copyright issues. Upon completion, students should be able to design and produce multimedia presentations.

GRD 272 Multimedia Design II	01	03	00	02
-------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: GRD 271

Corequisites: None

Component: None

This course is a continuation of GRD 271. Emphasis is placed on advanced animation, specialized software, quality control, and cross-platform delivery, as well as problems associated with delivery media and interactivity. Upon completion, students should be able to produce multimedia presentations and determine and adapt to technical specifications for delivery.

GRD 280 Portfolio Design	02	04	00	04
---------------------------------	-----------	-----------	-----------	-----------

Prerequisites: GRD 131, GRD 142, GRD 152, GRD 153, and GRD 282

Corequisites: None

Component: None

This course covers the organization and presentation of a design/advertising or graphic art portfolio and appropriate related materials. Emphasis is placed on development and evaluation of the portfolio, design and production of a resume and self-promotional materials, and interview techniques. Upon completion, students should be able to prepare and professionally present an effective portfolio and related self-promotional materials.

GRD 281 Design of Advertising	02	00	00	02
--------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: GRD 142 and GRD 282

Corequisites: None

Component: None

This course explores the origins, roles, scope, forms, and development of advertising. Emphasis is placed on advertising development from idea through production and the interrelationship of marketing to types of advertising, media, and organizational structure. Upon completion, students should be able to demonstrate an understanding of the complexities and relationships involved in advertising design.

GRD 282 Advertising Copywriting	01	02	00	02
--	-----------	-----------	-----------	-----------

Prerequisites: ENG 111

Corequisites: None

Component: None

This course covers copywriting for print, electronic, and broadcast advertising and promotion. Topics include advertising strategies, proposals, headlines, slogans, and text copy for various types of

ment, and contributions of African Americans. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in the history of African Americans. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

HIS 222 African-American History I 03 00 00 03

Prerequisites: None

Corequisites: None

Component: None

This course covers African American history through the Civil War period. Topics include African origins, the nature of slavery, African-American participation in the American Revolution, abolitionism, and the emergence of a distinct African-American culture. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in early African-American history. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement. This course is also available through the Virtual Learning Community (VLC).

HIS 223 African-American History II 03 00 00 03

Prerequisites: None

Corequisites: None

Component: None

This course covers African American history from the Civil War to the present. Topics include Reconstruction; the Jim Crow era, urbanization, the Harlem Renaissance, the Civil Rights movement, and the philosophies of major African-American leaders. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in African-American history since the Civil War. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

HIS 224 US Diplomatic History 03 00 00 03

Prerequisites: None

Corequisites: None

Component: None

This course examines American diplomacy from the Colonial period to the present. Topics include the Monroe Doctrine, expansionism and imperialism, the world wars, the Cold War, and America's role in a changing world. Upon completion, students should be able to analyze significant developments and trends in the diplomatic history of the United States. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

HIS 226 The Civil War 03 00 00 03

Prerequisites: None

Corequisites: None

Component: None

This course examines the social, political, economic, and ideological forces that led to the Civil War and Reconstruction. Topics include regional conflicts and sectionalism, dissolution of the Union, military campaigns, and the War's socioeconomic impact, aftermath, and consequences. Upon completion, students should be able to

analyze significant political, socioeconomic, and cultural developments in the United States during the era of the Civil War. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

HIS 227 Native American History 03 00 00 03

Prerequisites: None

Corequisites: None

Component: None

This course surveys the history and cultures of Native Americans from pre-history to the present. Topics include Native American civilizations, relations with Europeans, and the continuing evolution of Native American cultures. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments among Native Americans. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

HIS 236 North Carolina History 03 00 00 03

Prerequisites: None

Corequisites: None

Component: None

This course is a study of geographical, political, economic, and social conditions existing in North Carolina from America's discovery to the present. Topics include native and immigrant backgrounds; colonial, antebellum, and Reconstruction periods; party politics; race relations; and the transition from an agrarian to an industrial economy. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in North Carolina. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

HIS 271 The French Revolution Era 03 00 00 03

Prerequisites: None

Corequisites: None

Component: None

This course traces the causes and effects of the French Revolution. Topics include the Enlightenment; Jacobins; Reign of Terror; Napoleon's republic, empire, and wars; and the French Revolution's impact upon world history. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments during the French revolutionary era. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

HMT 110 Intro to Healthcare Mgt 03 00 00 03

Prerequisites: None

Corequisites: None

Component: None

This course introduces the functions, practices, organizational structures, and professional issues in healthcare management. Emphasis is placed on planning, controlling, directing, and communicating within health and human services organizations. Upon completion, students should be able to apply the concepts of management within a healthcare service environment.

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
HMT 210 Medical Insurance	03	00	00	03
Prerequisites: MED 122 or OST 142				
Corequisites: None				
Component: None				
This course introduces the concepts of medical insurance. Topics include types and characteristics of third-party payers, coding concepts, payment systems, and manual/electronic claims form preparation. Upon completion, students should be able to process third-party claims forms.				
HMT 211 Long-Term Care Admin	03	00	00	03
Prerequisites: HMT 110				
Corequisites: None				
Component: None				
This course introduces the administration of long-term care facilities and services. Emphasis is placed on nursing home care, home health care, hospice, skilled nursing facilities, and other long-term care services. Upon completion, students should be able to administer state and national standards and regulations as they apply to long-term care.				
HMT 212 Mgt of Healthcare Org	03	00	00	03
Prerequisites: HMT 110				
Corequisites: None				
Component: None				
This course examines current issues affecting the management of healthcare delivery systems. Topics include current problems, changes, and challenges in the healthcare environment. Upon completion, students should be able to identify current health care issues and their impact on healthcare management.				
HMT 220 Healthcare Financial Mgmt	04	00	00	04
Prerequisites: HMT 110 and ACC 225				
Corequisites: None				
Component: None				
This course covers the methods and techniques utilized in the financial management of healthcare programs. Topics include cost determination, pricing of services, financial statement analysis, forecasting/projections, third-party billing, reimbursement, Medicare, Medicaid, and budgeting. Upon completion, students should be able to interpret and apply the principles of financial management in a healthcare environment.				
HOR 110 Intro to Landscaping	01	02	00	02
Prerequisites: None				
Corequisites: None				
Component: None				
This course introduces the basic skills and concepts of drafting and surveying necessary to complete landscape site analysis and topographical drawings. Emphasis is placed on proper use of drafting and survey equipment. Upon completion, students should be able to draw a site analysis drawing with topographical lines.				
HOR 112 Landscape Design I	02	03	00	03
Prerequisites: HOR 170				
Corequisites: None				
Component: None				
This course covers landscape principles and practices for residential and commercial sites. Emphasis is placed on drafting, site analysis,				

and common elements of good design, plant material selection, and proper plant utilization. Upon completion, students should be able to read, plan, and draft a landscape design.

HUM 220 Human Values and Meaning	03	00	00	03
Prerequisites: ENG 111				
Corequisites: None				
Component: None				
This course presents some major dimensions of human experience as reflected in art, music, literature, philosophy, and history. Topics include the search for identity, the quest for knowledge, the need for love, the individual and society, and the meaning of life. Upon completion, students should be able to recognize interdisciplinary connections and distinguish between open and closed questions and between narrative and scientific models of understanding. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.				
HUM 230 Leadership Development	03	00	00	03
Prerequisites: ENG 111				
Corequisites: None				
Component: None				
This course explores the theories and techniques of leadership and group process. Emphasis is placed on leadership styles, theories of group dynamics, and the moral and ethical responsibilities of leadership. Upon completion, students should be able to identify and analyze a personal philosophy and style of leadership and integrate these concepts in various practical situations.				
HYD 110 Hydraulics/Pneumatics I	02	03	00	03
Prerequisites: None				
Corequisites: None				
Component: None				
This course introduces the basic components and functions of hydraulic and pneumatic systems. Topics include standard symbols, pumps, control valves, control assemblies, actuators, FRL, maintenance procedures, and switching and control devices. Upon completion, students should be able to understand the operation of a fluid power system, including design, application, and troubleshooting.				
INS 101 Life/Accident/Health Insurance	04	00	00	04
Prerequisites: None				
Corequisites: None				
Component: None				
This course provides basic instruction in life and health insurance. Topics include life, accident, and health agent regulations, comparison of policies, and individual and group policy provisions. Upon completion, students should be able to demonstrate knowledge of life, health, and accident insurance required for the NC Agents' Life and Health Licensure Exam. This course is intended for certificate and diploma programs.				
INS 102 Medicare Supplement/Long-Term Care	01	00	00	01
Prerequisites: None				
Corequisites: None				
Component: None				
This course covers the types of Medicare coverage, long-term care coverage, Medicaid, policy provisions, applicable laws and regula-				

tions, and buying practices. Topics include hospital insurance, supplementary medical insurance, Medicare supplement insurance, Medicaid assistance, and long-term care. Upon completion, students should be able to discuss long-term care coverage, Medicaid, appropriate policy provisions, legal principles, and their applicable use. This course is intended for certificate and diploma programs.

INS 103 Property & Casualty Insurance

04 00 00 04

Prerequisites: None

Corequisites: None

Component: None

This course covers types of property and casualty coverage, policy provisions, applicable laws and regulations, buying procedures, government property, and casualty coverage. Topics include general liability insurance, automobile insurance, homeowner's insurance, commercial, fire and extended coverage, worker's compensation, and various policy provisions. Upon completion, students should be able to discuss types of property and casualty coverage, appropriate policy provisions, and appropriate legal principles and their applicable uses. This course is intended for certificate and diploma programs.

INS 105 Risk Management

03 00 00 03

Prerequisites: None

Corequisites: None

Component: None

This course introduces the fundamentals of risk management. Topics include risk and hazard recognition and measurement, risk handling methods, steps of the risk management process, and design of a risk management plan. Upon completion, students should be able to recognize risks and hazards and develop a plan for managing them by retention, avoidance, reduction, and transfer methods. This course is intended for certificate and diploma programs.

INS 107 Claims Adjusting

03 00 00 03

Prerequisites: None

Corequisites: None

Component: None

This course introduces the legal basis of contracts and claims. Emphasis is placed on the elements and purpose of negligence, principles of torts, investigation and interview techniques, medical terminology, and diagnostic procedures. Upon completion, students should be able to demonstrate the ability to investigate and legally settle claims. This course is intended for certificate and diploma programs.

INS 108 Income Taxation of Insurance

03 00 00 03

Prerequisites: None

Corequisites: None

Component: None

This course introduces the federal income tax system with particular reference to the taxation of life insurance and annuities. Topics include tax concepts, gross income, business expenses, deductions, credits, sales and exchanges, capital gains and losses, and taxation of business entities. Upon completion, students should be able to demonstrate professional financial service planning strategies to minimize, defer, or avoid taxation for clients. This course is intended for certificate and diploma programs.

Component: None				
This course provides basic hands-on experience in summer gardening techniques. Emphasis is placed on pruning, irrigation, planting, fertilizing, pest control, equipment operation, turf maintenance, landscape construction, and maintaining fruits and vegetables. Upon completion, students should be able to perform various techniques essential to maintaining the summer landscape.				
LSG 231 Landscape Supervision	02	06	00	04
Prerequisites: LSG 123 and HOR 260				
Corequisites: None				
Component: None				
This course provides experience in planning, implementing, and supervising various landscape management projects. Emphasis is				

placed on supervisory skills, organizing, and scheduling. Upon completion, students should be able to supervise employees in various landscape management jobs.

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
LSG 232 Garden Management	01	02	00	02

Prerequisites: LSG 123 and HOR 260

Corequisites: None

Component: None

This course covers the implementation of knowledge gained in previous landscape gardening courses. Emphasis is placed on scheduling, designing, renovation, and plant management. Upon completion, students should be able to collate the material learned in the Landscape Gardening curriculum and apply it to various landscape gardening situations.

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
MAC 111 Machining Technology I	02	12	00	06

Prerequisites: None

Corequisites: None

Component: None

This course introduces machining operations as they relate to the metalworking industry. Topics include machine shop safety, measuring tools, lathes, drilling machines, saws, milling machines, bench grinders, and layout instruments. Upon completion, students should be able to safely perform the basic operations of measuring, layout, drilling, sawing, turning, and milling.

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
MAC 112 Machining Technology II	02	12	00	06

Prerequisites: MAC 111

Corequisites: None

Component: None

This course provides additional instruction and practice in the use of precision measuring tools, lathes, milling machines, and grinders. Emphasis is placed on setup and operation of machine tools including the selection and use of work holding devices, speeds, feeds, cutting tools, and coolants. Upon completion, students should be able to perform basic procedures on precision grinders and advanced operations of measuring, layout, drilling, sawing, turning, and milling.

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
MAC 113 Machining Technology III	02	12	00	06

Prerequisites: MAC 112

Corequisites: None

Component: None

This course provides an introduction to advanced and special machining operations. Emphasis is placed on working to specified tolerances with special and advanced setups. Upon completion, students should be able to produce a part to specifications.

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
MAC 114 Introduction to Metrology	02	00	00	02

Prerequisites: None

Corequisites: MAC 111

Component: None

This course introduces the care and use of precision measuring instruments. Emphasis is placed on the inspection of machine parts and use of a wide variety of measuring instruments. Upon completion, students should be able to demonstrate the correct use of measuring instruments.

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS		CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS	
MAC 121 Introduction to CNC	02	00	00	02		MAC 241 Jigs & Fixtures I	02	06	00	04
Prerequisites: MAC 111						Prerequisites: MAC 112				
Corequisites: None						Corequisites: None				
Component: None						Component: None				
This course introduces the concepts and capabilities of computer numerical control machine tools. Topics include setup, operation, and basic applications. Upon completion, students should be able to explain operator safety, machine protection, data input, program preparation, and program storage.						This course introduces the application and use of jigs and fixtures. Emphasis is placed on design and manufacture of simple jigs and fixtures. Upon completion, students should be able to design and build simple jigs and fixtures.				
MAC 122 CNC Turning	01	03	00	02		MAC 243 Die Making I	02	06	00	04
Prerequisites: MAC 121						Prerequisites: MAC 112				
Corequisites: None						Corequisites: None				
Component: None						Component: None				
This course introduces the programming, setup, and operation of CNC turning centers. Topics include programming formats, control functions, program editing, part production, and inspection. Upon completion, students should be able to manufacture simple parts using CNC turning centers.						This course introduces the principles and applications of die making. Topics include types, construction, and application of dies. Upon completion, students should be able to design and build simple dies.				
MAC 124 CNC Milling	01	03	00	02		MAC 245 Mold Construction I	02	06	00	04
Prerequisites: MAC 121						Prerequisites: MAC 112				
Corequisites: None						Corequisites: None				
Component: None						Component: None				
This course introduces the manual programming, setup, and operation of CNC machining centers. Topics include programming formats, control functions, program editing, part production, and inspection. Upon completion, students should be able to manufacture simple parts using CNC machining centers.						This course introduces the principles of mold making. Topics include types, construction, and application of molds. Upon completion, students should be able to design and build simple molds.				
MAC 151 Machining Calculations	01	02	00	02		MAS 110 Masonry I	05	15	00	10
Prerequisites: None						Prerequisites: None				
Corequisites: None						Corequisites: None				
Component: None						Component: None				
This course introduces basic calculations as they relate to machining occupations. Emphasis is placed on basic calculations and their applications in the machine shop. Upon completion, students should be able to perform basic shop calculations.						This course introduces the basic principles of construction with masonry units. Topics include history of the masonry field, safety practices, blueprint reading, and principles of laying masonry units to the line using tools, equipment, and materials. Upon completion, students should be able to demonstrate knowledge of safety practices, blueprint reading, and basic tool use; identify materials; operate machinery; and lay masonry units.				
MAC 152 Adv Machining Calc	01	02	00	02		MAS 120 Masonry II	05	15	00	10
Prerequisites: MAC 151						Prerequisites: None				
Corequisites: None						Corequisites: None				
Component: None						Component: None				
This course combines mathematical functions with practical machine shop applications and problems. Emphasis is placed on gear ratios, lead screws, indexing problems, and their applications in the machine shop. Upon completion, students should be able to calculate solutions to machining problems.						This course provides practical experience in cost estimating, foundations, bonding variations, expansion joints, wall ties, building codes, and other related topics. Emphasis is placed on material estimation, layout of footing, construction of walls, reinforcements, scaffolding, insulating, and building codes. Upon completion, students should be able to determine cost, plan sound building procedures, construct masonry projects, and apply building codes.				
MAC 226 CNC EDM Machining	01	03	00	02		MAS 130 Masonry III	06	06	00	08
Prerequisites: MAC 121						Prerequisites: None				
Corequisites: None						Corequisites: None				
Component: None						Component: None				
This course introduces the programming, setup, and operation of CNC electrical discharge machines. Topics include programming formats, control functions, program editing, production of parts, and inspection. Upon completion, students should be able to manufacture simple parts using CNC electrical discharge machines.						This course provides fundamentals and skills used in masonry construction. Emphasis is placed on building chimneys, fireplaces, columns, concrete masonry, and arches; using materials economically; satisfying needs and expectations; and proper work ethics. Upon				

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
completion, students should be able to build structures covered in the course, demonstrate increased speed and accuracy, and make smooth transitions between construction stages.				

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
MAS 140 Intro to Masonry	01	02	00	02

Prerequisites: None

Corequisites: None

Component: None

This course introduces basic principles and practices of masonry. Topics include standard tools, materials, and practices used in basic masonry and other related topics. Upon completion, students should be able to demonstrate an understanding of masonry and be able to use basic masonry techniques.

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
MAT 050 Basic Math Skills	03	02	00	04

Prerequisites: Placement

Corequisites: None

Component: None

This course is designed to strengthen basic math skills. Topics include properties, rounding, estimating, comparing, converting, and computing whole numbers, fractions, and decimals. Upon completion, students should be able to perform basic computations and solve relevant mathematical problems.

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
MAT 060 Essential Mathematics	03	02	00	04

Prerequisites: MAT 050 or ACCUPLACER Arithmetic Score of 43 or ACCUPLACER Elementary Algebra Score of 27

Corequisites: None

Component: None

This course is a comprehensive study of mathematical skills which should provide a strong mathematical foundation to pursue further study. Topics include principles and applications of decimals, fractions, percents, ratio and proportion, order of operations, geometry, measurement, and elements of algebra and statistics. Upon completion, students should be able to perform basic computations and solve relevant, multi-step mathematical problems using technology where appropriate.

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
MAT 070 Introductory Algebra	03	02	00	04

Prerequisites: MAT 060 or ACCUPLACER Arithmetic Score of 61 or ACCUPLACER Elementary Algebra Score of 39

Corequisites: RED 080 or ACCUPLACER Reading Score of 60

Component: None

This course establishes a foundation in algebraic concepts and problem solving. Topics include signed numbers, exponents, order of operations, simplifying expressions, solving linear equations and inequalities, graphing, formulas, polynomials, factoring, and elements of geometry. Upon completion, students should be able to apply the above concepts in problem solving using appropriate technology. This course is also available through the Virtual Learning Community (VLC).

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
MAT 080 Intermediate Algebra	03	02	00	04

Prerequisites: MAT070 or ACCUPLACER Elementary Algebra Score of 60

Corequisites: RED 080

Component: None

This course continues the study of algebraic concepts with emphasis

on applications. Topics include factoring; rational expressions; rational exponents; rational, radical, and quadratic equations; systems of equations; inequalities; graphing; functions; variations; complex numbers; and elements of geometry. Upon completion, students should be able to apply the above concepts in problem solving using appropriate technology.

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
MAT 090 Accelerated Algebra	03	02	00	04

Prerequisites: HS Alg I and Alg II or ACCUPLACER

Elementary Algebra Score of 60

Corequisites: RED 080 or ACCUPLACER Reading Score of 60

Component: None

This course covers algebraic concepts with emphasis on applications. Topics include those covered in MAT 070 and MAT 080. Upon completion, students should be able to apply algebraic concepts in problem solving using appropriate technology.

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
MAT 095 Algebraic Concepts	03	00	00	03

Prerequisites: None

Corequisites: None

Component: None

This course covers algebraic concepts with an emphasis on applications. Topics include linear, quadratic, absolute value, rational and radical equations, sets, real and complex numbers, exponents, graphing, formulas, polynomials, systems of equations, inequalities, and functions. Upon completion, students should be able to apply the above topics in problem solving using appropriate technology.

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
MAT 101 Applied Mathematics I	02	02	00	03

Prerequisites: MAT 060, MAT 070, MAT 080, MAT 090 or MAT 095 or ACCUPLACER Arithmetic Score of 61 or has taken the SAT with verbal and math scores at or above 450 each or ACT composite score of 18 or higher within the last five years.

Corequisites: None

Component: None

This course is a comprehensive review of arithmetic with basic algebra designed to meet the needs of certificate and diploma programs. Topics include arithmetic and geometric skills used in measurement, ratio and proportion, exponents and roots, applications of percent, linear equations, formulas, and statistics. Upon completion, students should be able to solve practical problems in their specific areas of study. This course is intended for certificate and diploma programs.

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
MAT 110 Mathematical Measurement	02	02	00	03

Prerequisites: MAT070, MAT 080, MAT 090, MAT 095, MAT 120, MAT 121, MAT 161, MAT 171, OR MAT 175

Corequisites: None

Component: None

This course provides an activity-based approach to utilizing, interpreting, and communicating data in a variety of measurement systems. Topics include accuracy, precision, conversion, and estimation within metric, apothecary, and avoirdupois systems; ratio and proportion; measures of central tendency and dispersion; and charting of data. Upon completion, students should be able to apply proper techniques to gathering, recording, manipulating, analyzing, and communicating data.

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
MAT 115 Mathematical Models	02	02	00	03

Prerequisites: MAT 070, MAT 080, MAT 090 or MAT 095, MAT 120, MAT 121, MAT 161, MAT 171, or MAT 175 or ACCUPLACER Arithmetic Score of 61 or has taken the SAT with verbal and math scores at or above 450 each or ACT composite score of 18 or higher within the last five years

Corequisites: None

Component: None

This course develops the ability to utilize mathematical skills and technology to solve problems at a level found in non-mathematics-intensive programs. Topics include application to percent, ratio and proportion, formulas, statistics, functional notation, linear functions and their groups, probability, sampling techniques, scatter plots, and modeling. Upon completion, students should be able to solve practical problems, reason and communicate with mathematics, and work confidently, collaboratively, and independently.

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
MAT 120 Geometry and Trigonometry	02	02	00	03

Prerequisites: Mat 070, MAT 080, MAT 090, MAT 095, MAT 121, MAT 161, MAT 171, or MAT 175 or ACCUPLACER Elementary Algebra Score of 60 or has taken the SAT with verbal and math scores at or above 450 each or ACT composite score of 18 or higher within the last five years

Corequisites: None

Component: None

This course introduces the concepts of plane trigonometry and geometry with emphasis on applications to problem solving. Topics include the basic definitions and properties of plane and solid geometry, area and volume, right triangle trigonometry, and oblique triangles. Upon completion, students should be able to solve applied problems both independently and collaboratively using technology.

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
MAT 121 Algebra/Trigonometry I	02	02	00	03

Prerequisites: One course required: MAT 070, MAT 080, MAT 090, or MAT 095 or ACCUPLACER Elementary Algebra Score of 80 or has taken the SAT with verbal and math scores at or above 450 each or ACT composite score of 18 or higher within the last five years

Corequisites: None

Component: None

This course provides an integrated approach to technology and the skills required to manipulate, display, and interpret mathematical functions and formulas used in problem solving. Topics include simplification, evaluation, and solving of algebraic and radical functions; complex numbers; right triangle trigonometry; systems of equations; and the use of technology. Upon completion, students should be able to demonstrate an understanding of the use of mathematics and technology to solve problems and analyze and communicate results

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
MAT 122 Algebra/Trigonometry II	02	02	00	03

Prerequisites: MAT 121, MAT 161, MAT 171 or MAT 175

Corequisites: None

Component: None

This course extends the concepts covered in MAT 121 to include additional topics in algebra, function analysis, and trigonometry.

Topics include exponential and logarithmic functions, translation and scaling of functions, Sine Law, Cosine Law, vectors and statistics. Upon completion, students should be able to demonstrate an understanding of the use of technology to solve problems and to analyze and communicate results.

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
MAT 140 Survey of Mathematics	03	00	00	03

Prerequisites: MAT 070, MAT 080, MAT 090, MAT 095, MAT 120, MAT 121, MAT 161, MAT 171, or MAT 175 or ACCUPLACER Elementary Algebra Score of 60 or has taken the SAT with verbal and math scores at or above 450 each or ACT composite score of 18 or higher within the last five years

Corequisites: None

Component: None

This course provides an introduction in a non-technical setting to selected topics in mathematics. Topics may include, but are not limited to, sets, logic, probability, statistics, matrices, mathematical systems, geometry, topology, mathematics of finance, and modeling. Upon completion, students should be able to understand a variety of mathematical applications, think logically, and be able to work collaboratively and independently. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
MAT 140A Survey of Mathematics Lab	00	02	00	01

Prerequisites: Mat 070, MAT 080, MAT 090, MAT 095, MAT 120, MAT 121, MAT 161, MAT 171, or MAT 175 or ACCUPLACER Elementary Algebra Score of 60 or has taken the SAT with verbal and math scores at or above 450 each or ACT composite score of 18 or higher within the last five years

Corequisites: MAT 140

Component: None

This course is a laboratory for MAT 140. Emphasis is placed on experiences that enhance the materials presented in the class. Upon completion, students should be able to solve problems, apply critical thinking, work in teams, and communicate effectively. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
MAT 145 Analytical Math	03	00	00	03

Prerequisites: One course required: MAT 080, MAT 090, MAT 095, MAT 120, MAT 121, MAT 161, MAT 171, or MAT 175 or ACCUPLACER Elementary Algebra Score of 80 or has taken the SAT with verbal and math scores at or above 450 each or ACT composite score of 18 or higher

Corequisites: None

Component: None

This course is designed to develop problem-solving and reasoning skills by the study of selected areas of mathematics. Topics include elementary and Boolean algebra, sets, logic, number theory, numeration systems, probability, statistics, and linear programming. Upon completion, students should be able to apply logic and other mathematical concepts. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

MAT 151 Statistics I	03	00	00	03

Prerequisites: One course required: MAT 080, MAT 090, MAT 095, MAT 120, MAT 121, MAT 161, MAT 171, or MAT 175 or ACCUPLACER Elementary Algebra Score of 80 or has taken the SAT with verbal and math scores at or above 450 each or ACT composite score of 18 or higher within the last five years

Corequisites: None

Component: None

This course provides a project-based approach to the study of basic probability, descriptive and inferential statistics, and decision making. Emphasis is placed on measures of central tendency and dispersion, correlation, regression, discrete and continuous probability distributions, quality control, population parameter estimation, and hypothesis testing. Upon completion, students should be able to describe important characteristics of a set of data and draw inferences about a population from sample data. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

MAT 151A Statistics I Lab	00	02	00	01
----------------------------------	-----------	-----------	-----------	-----------

Prerequisites: MAT 080, MAT 090, MAT 095, MAT 120, MAT 121, MAT 161, MAT 171, or MAT 175 or ACCUPLACER Elementary Algebra Score of 80 or has taken the SAT with verbal and math scores at or above 450 each or ACT composite score of 18 or higher within the last five years

Corequisites: MAT 151

Component: None

This course is a laboratory for MAT 151. Emphasis is placed on experiences that enhance the materials presented in the class. Upon completion, students should be able to solve problems, apply critical thinking, work in teams, and communicate effectively. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

MAT 155 Statistical Analysis	03	00	00	03
-------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: One course required: MAT 080, MAT 090, MAT 095, MAT 120, MAT 121, MAT 161, MAT 171, or MAT 175 or ACCUPLACER Elementary Algebra Score of 80 or has taken the SAT with verbal and math scores at or above 450 each or ACT composite score of 18 or higher within the last five years

Corequisites: None

Component: None

This course is an introduction to descriptive and inferential statistics. Topics include sampling, distributions, plotting data, central tendency, dispersion, Central Limits Theorem, confidence intervals, hypothesis testing, correlations, regressions, and multinomial experiments. Upon completion, students should be able to describe data and test inferences about populations using sample data. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

placed on applications involving trigonometric ratios, right triangles, oblique triangles, trigonometric functions, graphing, vectors, and complex numbers. Upon completion, students should be able to apply the above principles of trigonometry to problem solving and communication. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

MAT 162A College Trigonometry Lab	00	02	00	01
--	-----------	-----------	-----------	-----------

Prerequisites: MAT 161

Corequisites: MAT 162

Component: None

This course is a laboratory for MAT 162. Emphasis is placed on experiences that enhance the materials presented in the class. Upon completion, students should be able to solve problems, apply critical thinking, work in teams, and communicate effectively. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

MAT 165 Finite Mathematics	03	00	00	03
-----------------------------------	-----------	-----------	-----------	-----------

Prerequisites: MAT 161, MAT 171 OR MAT 175

Corequisites: MAT 165A

Component: None

This course provides topics used to formulate models and to solve and interpret solutions using an algorithmic approach. Topics include linear algebra, linear programming, simplex method, sets and counting, probability, mathematics of finance, and logic. Upon completion, students should be able to demonstrate both an understanding of the theoretical concepts of finite mathematics and the ability to solve related problems. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

MAT 165A Finite Mathematics Lab	00	02	00	01
--	-----------	-----------	-----------	-----------

Prerequisites: MAT 161, MAT 171 OR MAT 175

Corequisites: MAT 165

Component: None

This course is a laboratory for MAT 165. Emphasis is placed on experiences that enhance the materials presented in the class. Upon completion, students should be able to solve problems, apply critical thinking, work in teams, and communicate effectively. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

MAT 167 Discrete Mathematics	03	00	00	03
-------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: MAT 121

Corequisites: None

Component: None

This course is a study of discrete mathematics with emphasis on applications. Topics include number systems, combinations/permutations, mathematical logic/proofs, sets/counting, Boolean algebra, mathematical induction, trees/graphs, and algorithms. Upon completion, students should be able to demonstrate competence in the topics covered. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

This course is a laboratory for MAT 167. Emphasis is placed on experiences that enhance the materials presented in the class. Upon completion, students should be able to solve problems, apply critical thinking, work in teams, and communicate effectively. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

MAT 171 Precalculus Algebra	03	00	00	03
------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: One course required: MAT 080, MAT 090, MAT 095 or MAT 161 or ACCUPLACER Elementary Algebra Score of 80 or has taken the SAT with verbal and math scores at or above 450 each or ACT composite score of 18 or higher within the last five years

Corequisites: MAT 171A

Component: None

This is the first of two courses designed to emphasize topics which are fundamental to the study of calculus. Emphasis is placed on equations and inequalities, functions (linear, polynomial, rational), systems of equations and inequalities, and parametric equations. Upon completion, students should be able to solve practical problems and use appropriate models for analysis and predictions. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

MAT 171A Precalculus Algebra Lab	00	02	00	01
---	-----------	-----------	-----------	-----------

Prerequisites: One course required: MAT 080, MAT 090, MAT 095 or MAT 161 or ACCUPLACER Elementary Algebra Score of 80 or has taken the SAT with verbal and math scores at or above 450 each or ACT composite score of 18 or higher within the last five years

Corequisites: MAT 171

Component: None

This course is a laboratory for MAT 171. Emphasis is placed on experiences that enhance the materials presented in the class. Upon completion, students should be able to solve problems, apply critical thinking, work in teams, and communicate effectively. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

MAT 172 Precalculus Trigonometry	03	00	00	03
---	-----------	-----------	-----------	-----------

Prerequisites: MAT 171

Corequisites: MAT 172A

Component: None

This is the second of two courses designed to emphasize topics which are fundamental to the study of calculus. Emphasis is placed on properties and applications of transcendental functions and their graphs, right and oblique triangle trigonometry, conic sections, vectors and polar coordinates. Upon completion, students should be able to solve practical problems and use appropriate models for analysis and prediction. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

MAT 172A Precalculus Trigonometry Lab	00	02	00	01					
Prerequisites: MAT 171 Corequisites: MAT 172 Component: None This course is a laboratory for MAT 172. Emphasis is placed on experiences that enhance the materials presented in the class. Upon completion, students should be able to solve problems, apply critical thinking, work in teams, and communicate effectively. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.									
MAT 175 Precalculus	04	00	00	04					
Prerequisites: ACCUPLACER Elementary Algebra Score of 80 or has taken the SAT with verbal and math scores at or above 450 each or ACT composite score of 18 or higher within the last five years. Corequisites: MAT 175A Component: None This course provides an intense study of the topics which are fundamental to the study of calculus. Emphasis is placed on functions and their graphs with special attention to polynomial, rational, exponential, logarithmic and trigonometric functions, and analytic trigonometry. Upon completion, students should be able to solve practical problems and use appropriate models for analysis and prediction. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.									
MAT 175A Precalculus Lab	00	02	00	01					
Prerequisites: None Corequisites: MAT 175 Component: None This course is a laboratory for MAT 175. Emphasis is placed on experiences that enhance the materials presented in the class. Upon completion, students should be able to solve problems, apply critical thinking, work in teams, and communicate effectively. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.									
MAT 210 Logic	03	00	00	03					
Prerequisites: MAT 161, MAT 171 or MAT 175 Corequisites: MAT 210A Component: None This course introduces the concept of deductive logic with emphasis on the use of formal logic in analysis. Topics include traditional logic, propositional logic, and determination of validity including truth tables, Venn diagrams, and translational exercises. Upon completion, students should be able to analyze data based on formal logic or ordinary language discourse. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.									
MAT 210A Logic Lab	00	02	00	01					
Prerequisites: MAT 161, MAT 171 or MAT 175 Corequisites: MAT 210 Component: None This course is a laboratory for MAT 210. Emphasis is placed on experiences that enhance the materials presented in the class. Upon									
					completion, students should be able to solve problems, apply critical thinking, work in teams, and communicate effectively. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.				
MAT 223 Applied Calculus		02	02	00	03				
Prerequisites: MAT 122 Corequisites: None Component: None This course provides an introduction to the calculus concepts of differentiation and integration by way of application and is designed for engineering technology students. Topics include limits, slope, derivatives, related rates, areas, integrals, and applications. Upon completion, students should be able to demonstrate an understanding of the use of calculus and technology to solve problems and to analyze and communicate results.									
MAT 252 Statistics II		03	00	00	03				
Prerequisites: A set of courses required: MAT 151 and MAT 121 or MAT 161 Corequisites: None Component: None This course provides a technology-based treatment of multiple sample inferential statistics. Emphasis is placed on two sample hypothesis tests and confidence intervals, linear and multiple regression, analysis of variance, experimental design, and non-parametric techniques. Upon completion, students should be able to draw statistical inferences on multiple sample data taken from business and health, social, natural, and applied sciences. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.									
MAT 252A Statistics II Lab		00	02	00	01				
Prerequisites: A set of courses required: MAT 151 and MAT 121 or MAT 161 Corequisites: MAT 252 Component: None This course is a laboratory for MAT 252. Emphasis is placed on experiences that enhance the materials presented in the class. Upon completion, students should be able to solve problems, apply critical thinking, work in teams, and communicate effectively. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.									
MAT 263 Brief Calculus		03	00	00	03				
Prerequisites: MAT 161, MAT 171 or MAT 175 Corequisites: None Component: None This course introduces concepts of differentiation and integration and their applications to solving problems; the course is designed for students needing one semester of calculus. Topics include functions, graphing, differentiation, and integration with emphasis on applications drawn from business, economics, and biological and behavioral sciences. Upon completion, students should be able to demonstrate an understanding of the use of basic calculus and technology to solve problems and to analyze and communicate results. This course has been approved to satisfy the comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.									

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
MAT 263A Brief Calculus Lab	00	02	00	01

Prerequisites: MAT 161, MAT 171 or MAT 175

Corequisites: MAT 263

Component: None

This course is a laboratory for MAT 263. Emphasis is placed on experiences that enhance the materials presented in the class. Upon completion, students should be able to solve problems, apply critical thinking, work in teams, and communicate effectively. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

MAT 271 Calculus I	03	02	00	04
---------------------------	-----------	-----------	-----------	-----------

Prerequisites: One course required: MAT 172, MAT 175 or ACCUPLACER Elementary Algebra Score of 118

Corequisites: None

Component: None

This course covers in depth the differential calculus portion of a three-course calculus sequence. Topics include limits, continuity, derivatives, and integrals of algebraic and transcendental functions of one variable, with applications. Upon completion, students should be able to apply differentiation and integration techniques to algebraic and transcendental functions. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

MAT 272 Calculus II	03	02	00	04
----------------------------	-----------	-----------	-----------	-----------

Prerequisites: MAT 271

Corequisites: None

Component: None

This course provides a rigorous treatment of integration and is the second calculus course in a three-course sequence. Topics include applications of definite integrals, techniques of integration, indeterminate forms, improper integrals, infinite series, conic sections, parametric equations, polar coordinates, and differential equations. Upon completion, students should be able to use integration and approximation techniques to solve application problems. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

MAT 273 Calculus III	03	02	00	04
-----------------------------	-----------	-----------	-----------	-----------

Prerequisites: MAT 272

Corequisites: None

Component: None

This course covers the calculus of several variables and is the third calculus course in a three-course sequence. Topics include functions of several variables, partial derivatives, multiple integrals, solid analytical geometry, vector-valued functions, and line and surface integrals. Upon completion, students should be able to solve problems involving vectors and functions of several variables. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

MAT 280 Linear Algebra	03	00	00	03
-------------------------------	-----------	-----------	-----------	-----------

Prerequisites: MAT 271

Corequisites: None

Component: None

This course provides a study of linear algebra topics with emphasis on the development of both abstract concepts and applications.

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
Topics include vectors, systems of equations, matrices, determinants, vector spaces, linear transformations in two or three dimensions, eigenvectors, eigenvalues, diagonalization and orthogonality. Upon completion, students should be able to demonstrate both an understanding of the theoretical concepts and appropriate use of linear algebra models to solve application problems. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.				

MAT 285 Differential Equations	03	00	00	03
---------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: MAT 272

Corequisites: None

Component: None

This course provides an introduction to ordinary differential equations with an emphasis on applications. Topics include first-order, linear higher-order, and systems of differential equations; numerical methods; series solutions; eigenvalues and eigenvectors; Laplace transforms; and Fourier series. Upon completion, students should be able to use differential equations to model physical phenomena, solve the equations, and use the solutions to analyze the phenomena. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

MEC 110 Introduction to CAD/CAM	01	02	00	02
--	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course introduces CAD/CAM. Emphasis is placed on transferring part geometry from CAD to CAM for the development of a CNC-ready program. Upon completion, students should be able to use CAD/CAM software to produce a CNC program.

MEC 111 Machine Processes I	01	04	00	03
------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course introduces safety, hand tools, machine processes, measuring instruments, and the operation of machine shop equipment. Topics include safety, measuring tools, and the basic setup and operation of lathes, milling machines, drill presses, and saws. Upon completion, students should be able to manufacture a simple part to a specified tolerance.

MEC 131 Metalworking Processes	02	03	00	03
---------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course introduces the standard practices that are found in a metal workshop. Topics include the proper care/use of basic hand tools and precision measuring instruments and layout procedures/operation of lathes, drill presses, grinders, milling machines, and power saws. Upon completion, students should be able to work safely in the metal workshop and use basic metalworking equipment.

Corequisites: MAC 112						Corequisites: None				
Component: None						Component: None				
This course covers the heat treating of metals. Emphasis is placed on the effects of hardening, tempering, and annealing on the structure and physical properties of metals. Upon completion, students should be able to heat treat materials.						This course introduces prefixes, suffixes, and word roots used in the language of medicine. Topics include medical vocabulary and the terms that relate to the anatomy, physiology, pathological conditions, and treatment of selected systems. Upon completion, students should be able to pronounce, spell, and define medical terms as related to selected body systems and their pathological disorders.				
MEC 172 Introduction to Metallurgy	02	02	00	03		MED 122 Medical Terminology II	03	00	00	03
Prerequisites: None						Prerequisites: MED 121				
Corequisites: None						Corequisites: None				
Component: None						Component: None				
This course covers the production, properties, testing, classification, microstructure, and heat-treating effects of ferrous and non-ferrous metals. Topics include the iron-carbon phase diagram, ITT diagram, ANSI code, quenching, senescing, and other processes concerning metallurgical transformations. Upon completion, students should be able to understand the iron-carbon phase diagram, ITT diagram, microstructure images, and other phenomena concerning the behavior of metals.						This course is the second in a series of medical terminology courses. Topics include medical vocabulary and the terms that relate to the anatomy, physiology, pathological conditions, and treatment of selected systems. Upon completion, students should be able to pronounce, spell, and define medical terms as related to selected body systems and their pathological disorders.				
MEC 180 Engineering Materials	02	03	00	03		MIT 115 Introduction to Video Concepts	02	02	00	03
Prerequisites: None						Prerequisites: None				
Corequisites: None						Corequisites: None				
Component: None						Component: None				
This course covers the physical and mechanical properties of materials. Topics include testing, heat treating, ferrous and non-ferrous metals, plastics, composites, and material selection. Upon completion, students should be able to specify basic tests and properties and select appropriate materials on the basis of specific properties.						This course provides an opportunity to gain a basic level of competence in integration of digital and analog video. Emphasis is placed on understanding integration of basic video resources such as AVI, FLL, MPEG, M-JPEG, and digital/analog video. Upon completion, students should be able to use basic video integration techniques and applications for stand-alone personal computers, networks, and integrated room systems.				
MEC 181 Introduction to CIM	02	00	00	02		MIT 120 Introduction to Audio Concepts	02	02	00	03
Prerequisites: None						Prerequisites: None				
Corequisites: None						Corequisites: None				
Component: None						Component: None				
This course introduces the elements of computer-integrated manufacturing (CIM). Topics include statistical process control, computer-aided design and manufacturing, numeric control, and flexible systems. Upon completion, students should be able to explain the major components of computer-integrated manufacturing.						This course provides an opportunity to gain a basic level of competence in the integration of digital and analog audio. Emphasis is placed on understanding integration of audio resources such as MIDI, WAV, Real-audio, and Redbook Resources. Upon completion, students should be able to demonstrate familiarity with basic audio integration techniques and applications for stand-alone personal computers, networks, and integrated room systems.				
MEC 263 Electro-Pneumatic Components	02	04	00	04		MKT 120 Principles of Marketing	03	00	00	03
Prerequisites: None						Prerequisites: None				
Corequisites: None						Corequisites: None				
Component: None						Component: None				
This course introduces principles and practical applications of electrical/pneumatic control systems, and primary control devices incorporated in those systems. Emphasis is placed on reading and interpreting ladder diagrams, building control circuits, and troubleshooting valves, switches, and sensors. Upon completion, students should be able to design, build, and troubleshoot basic electro-pneumatic control systems.						This course introduces principles and problems of marketing goods and services. Topics include promotion, placement, and pricing strategies for products. Upon completion, students should be able to apply marketing principles in organizational decision making.

This course examines the role of retailing in the economy. Topics include the development of present retail structure, functions performed, effective operations, and managerial problems resulting from current economic and social trends. Upon completion, students should be able to demonstrate an understanding of the basic principles of retailing.						This course covers areas of collection that provide an understanding of the expertise needed to manage collection operations. Topics include principles and practices in the extension of credit, collection procedures, and laws pertaining to credit extension and collection. Upon completion, students should be able to demonstrate an understanding of the concepts covered.				
MKT 122 Visual Merchandising	03	00	00	03		MKT 224 International Marketing	03	00	00	03
Prerequisites: None Corequisites: None Component: None						Prerequisites: None Corequisites: None Component: None				
This course introduces basic layout design and commercial display in retail and service organizations. Topics include an analysis of display as a visual merchandising medium and an examination of the principles and applications of display and design. Upon completion, students should be able to plan, build, and evaluate designs and displays. This course is a unique concentration requirement of the Marketing and Retailing concentration in the Business Administration program.						This course covers the basic concepts of international marketing activity and theory. Topics include product promotion, placement, and pricing strategies in the international marketing environment. Upon completion, students should be able to demonstrate a basic understanding of the concepts covered.				
MKT 123 Fundamentals of Selling	03	00	00	03		MKT 225 Marketing Research	03	00	00	03
Prerequisites: None Corequisites: None Component: None						Prerequisites: MKT 120 Corequisites: None Component: None				
This course is designed to emphasize the necessity of selling skills in a modern business environment. Emphasis is placed on sales techniques involved in various types of selling situations. Upon completion, students should be able to demonstrate an understanding of the techniques covered.						This course provides information for decision making by providing guidance in developing, analyzing, and using data. Emphasis is placed on marketing research as a tool in decision making. Upon completion, students should be able to design and conduct a marketing research project and interpret the results. This course is a unique concentration requirement of the Marketing and Retailing concentration in the Business Administration program. This course is also available through the Virtual Learning Community (VLC).				
MKT 220 Advertising and Sales Promotion	03	00	00	03		MKT 227 Marketing Applications	03	00	00	03
Prerequisites: None Corequisites: None Component: None						Prerequisites: None Corequisites: None Component: None				
This course covers the elements of advertising and sales promotion in the business environment. Topics include advertising and sales promotion appeals, selection of media, use of advertising and sales promotion as a marketing tool, and means of testing effectiveness. Upon completion, students should be able to demonstrate an understanding of the concepts covered through application.						This course extends the study of diverse marketing strategies. Emphasis is placed on case studies and small-group projects involving research or planning. Upon completion, students should be able to effectively participate in the formulation of a marketing study. This course is a unique concentration requirement of the Marketing and Retailing concentration in the Business Administration program.				
MKT 221 Consumer Behavior	03	00	00	03		MKT 228 Service Marketing	03	00	00	03
Prerequisites: None Corequisites: None Component: None						Prerequisites: None Corequisites: None Component: None				
This course is designed to describe consumer behavior as applied to the exchange processes involved in acquiring, consuming, and disposing of goods and services. Topics include an analysis of basic and environmental determinants of consumer behavior with emphasis on the decision-making process. Upon completion, students should be able to analyze concepts related to the study of the individual consumer.						This course is designed to define service marketing, demonstrate its importance, and note its special characteristics. Topics include basic building blocks of service marketing, distinctive aspects of services, and applications of service marketing mix. Upon completion, students should be able to demonstrate a basic understanding of the marketing mix as it applies to the service industry.

MKT 230 Public Relations	03	00	00	03		MUS 113 American Music	03	00	00	03
Prerequisites: None						Prerequisites: None				
Corequisites: None						Corequisites: None				
Component: None						Component: None				
This course introduces public relations as it affects communications, strategic planning, and management of the organization. Topics include basic principles and functions of management that guide public relations activities as applied to businesses, services, institutions, and associations. Upon completion, students should be able to perform the communications, evaluation, planning, and research activities of the public relations professional.						This course introduces various musical styles, influences, and composers of the United States from pre-Colonial times to the present. Emphasis is placed on the broad variety of music particular to American culture. Upon completion, students should be able to demonstrate skills in basic listening and understanding of American music. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.				
MNT 110 Introduction to Maintenance Procedures	01	03	00	02		MUS 114 Non-Western Music	03	00	00	03
Prerequisites: None						Prerequisites: None				
Corequisites: None						Corequisites: None				
Component: None						Component: None				
This course covers basic maintenance fundamentals for power transmission equipment. Topics include equipment inspection, lubrication, alignment, and other scheduled maintenance procedures. Upon completion, students should be able to demonstrate knowledge of accepted maintenance procedures and practices according to current industry standards.						This course provides a basic survey of the music of the non-Western world. Emphasis is placed on non-traditional instruments, sources, and performing practices. Upon completion, students should be able to demonstrate skills in basic listening and understanding of the art of non-Western music. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.				
MNT 230 Pumps & Piping Systems	01	03	00	02		MUS 121 Music Theory I	03	02	00	04
Prerequisites: None						Prerequisites: None				
Corequisites: None						Corequisites: None				
Component: None						Component: None				
This course covers pump installation and maintenance and related valves and piping systems. Topics include various types of pump systems and their associated valves, piping requirements, and other related topics. Upon completion, students should be able to select and install pump and piping systems and demonstrate proper maintenance and troubleshooting procedures.						This course provides an in-depth introduction to melody, rhythm, and harmony. Emphasis is placed on fundamental melodic, rhythmic, and harmonic analysis, introduction to part writing, ear-training, and sight-singing. Upon completion, students should be able to demonstrate proficiency in the recognition and application of the above. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.				
MUS 110 Music Appreciation	03	00	00	03		MUS 213 Opera and Musical Theatre	03	00	00	03
Prerequisites: None						Prerequisites: None				
Corequisites: None						Corequisites: None				
Component: None						Component: None				
This course is a basic survey of the music of the Western world. Emphasis is placed on the elements of music, terminology, composers, form, and style within a historical perspective. Upon completion, students should be able to demonstrate skills in basic listening and understanding of the art of music. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.						This course covers the origins and development of opera and musical theater from the works of Claudio Monteverdi to the present. Emphasis is placed on how the structure and components of opera and musicals effect dramaturgy through listening examples and analysis. Upon completion, students should be able to demonstrate analytical and listening skills in understanding both opera and the musical. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.				
MUS 112 Introduction to Jazz	03	00	00	03		NET 110 Networking Concepts	02	02	00	03
Prerequisites: None						Prerequisites: None				
Corequisites: None						Corequisites: None				
Component: None						Component: None				
This course introduces the origins and musical components of jazz and the contributions of its major artists. Emphasis is placed on the development of discriminating listening habits, as well as the investigation of the styles and structural forms of the jazz idiom. Upon completion, students should be able to demonstrate skills in listening and understanding this form of American music. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.						This course introduces students to the networking field. Topics include network terminology and protocols, local-area networks, wide-area networks, OSI model, cabling, router programming,				

TCP/IP concepts, protocols, network traffic analysis, monitoring, and security best practices. Upon completion, students should be able to identify normal network traffic using network analysis tools and design basic security defenses. NET 222 has been revised to SEC 160 (Secure Admin I) effective Fall 2006. See SEC 160 for course information.

NET 225 Routing & Switching I 01 04 00 03

Prerequisites: NET 126

Corequisites: None

Component: None

This course focuses on advanced IP addressing techniques, intermediate routing protocols, command-line interface configuration of switches, Ethernet switching, VLANs, STP, and VTP. Emphasis will be placed on application and demonstration of skills acquired in prerequisite courses. Upon completion, students should be able to perform tasks related to VLSM, routing protocols, switching concepts and configuration, STP, VLANs, and VTP.

NET 226 Routing & Switching II 01 04 00 03

Prerequisites: NET 225

Corequisites: None

Component: None

This course introduces WAN theory and design, WAN technology, PPP, Frame Relay, ISDN, and additional case studies. Topics include network congestion problems, TCP/IP transport and network layer protocols, advanced routing and switching configuration, ISDN protocols, PPP encapsulation operations on a router. Upon completion, students should be able to provide solutions for network routing problems, identify ISDN protocols, and describe the Spanning Tree protocol.

NET 231 Intrusion Detection 02 02 00 03

Prerequisites: NET 222

Corequisites: None

Component: None

This course introduces the student to intrusion detection methods in use today. Topics include the types of intrusion detection products and planning and placements of intrusion detection solutions. Upon completion, students should be able to plan and implement intrusion detection solution for networks and host based systems. NET 231 has been revised to SEC 210 (Intrusion Detection) effective Fall 2006. See SEC 210 for course information.

NET 232 Security Administration II 02 02 00 03

Prerequisites: NET 222

Corequisites: None

Component: None

This course provides the skills necessary to design and implement information security controls. Topics include advanced TCP/IP concepts, network vulnerability analysis, and monitoring. Upon completion, students should be able to distinguish between normal anomalous network traffic, identify common network attack patterns, and implement security solutions. This course will become obsolete effective Summer 2007.

NET 233 Defense In-Depth

CLASS LAB CLINIC CREDIT
HRS HRS HRS HRS

02 02 00 03

Prerequisites: NET 155 and NET 222

Corequisites: NET 232

Component: None

This course introduces students to the concepts of defense in-depth, a security industry best practice. Topics include firewalls, backup systems, redundant systems, disaster recovery, and incident handling. Upon completion, students should be able to plan effective information security defenses, backup systems, and disaster recovery procedures. This course is restricted to the Information Systems Security program NET 233 has been revised to SEC 220 (Defense In-Depth) effective Fall 2006. See SEC 220 for course information.

NET 260 Internet Dev & Support 03 00 00 03

Prerequisites: NET 110

Corequisites: None

Component: None

This course covers issues relating to the development and implementation of Internet related tools and services. Topics include Internet organization, site registration, e-mail servers, Web servers, Web page development, legal issues, firewalls, multimedia, TCP/IP, service providers, FTP, list servers, and gateways. Upon completion, students should be able to develop and support the Internet services needed within an organization.

NET 270 Scalable Networks Design 01 04 00 03

Prerequisites: None

Corequisites: None

Component: None

This course covers principles and techniques of scalable networks. Topics include building multi-layer networks, controlling overhead traffic in growing routed networks, and router capabilities used to control traffic over LANs and WANs. Upon completion, students should be able to design; implement; and improve traffic flow, reliability, redundancy, and performance in enterprise networks.

NET 271 Multi-Layer Networks 01 04 00 03

Prerequisites: NET 270

Corequisites: None

Component: None

This course covers how to build a remote access network to interconnect central sites to branch offices, home offices, and telecommuters. Topics include enabling on-demand/ permanent connections to the central site, scaling and troubleshooting remote access networks, and maximizing bandwidth utilization over remote links. Upon completion, students should be able to assemble and configure equipment, establish WAN connections, enable protocols/technologies, allow traffic between sites, and implement accessible access control.

NET 272 Remote Access Networks 01 04 00 03

Prerequisites: NET 226

Corequisites: None

Component: None

This course covers building campus networks using multi-layer switching technologies over a high-speed Ethernet. Topics include improving IP routing performance with multi-layer switching, implementing fault tolerance routing, and managing high bandwidth broadcast while controlling IP multi-cast access to networks.

Upon completion, students should be able to install and configure multi-layer enterprise networks and determine the required router configurations to support new services and applications.

NET 273 Internetworking Support 01 04 00 03

Prerequisites: NET 226

Corequisites: None

Component: None

This course covers how to baseline and troubleshoot and internet-working environment using routers and switches for multi-protocol client, host and servers. Topics include troubleshooting processes, routing and routed protocols, campus switching; and WAN troubleshooting. Upon completion, students should be able to troubleshoot Ethernet, Fast Ethernet, and Token Ring LANs; and Serial, Frame Relay, and ISDN connections.

NET 275 Attack Methodology 02 02 00 03

Prerequisites: NET 233

Corequisites: None

Component: None

This course provides the student with an in-depth look at common Internet, network, and host-based attack methodologies. Topics include common attack methods such as social engineering, spoofing, denial of service, traffic interception, session hijacking, password cracking, malicious code and web hacking techniques. Upon completion, students should be able to generate anomalous network traffic, identify common network attack patterns, and perform penetration testing. This course is restricted to the Information Systems Security program. This course will become obsolete effective Summer 2007.

NET 285 Security Project 01 03 00 02

Prerequisites: NET 233

Corequisites: None

Component: None

This course provides the student the opportunity to put into practice all the skills learned to this point. Emphasis is placed on security policy, process planning, procedure definition, business continuity, and systems security architecture. Upon completion, students should be able to design and implement comprehensive information security architecture from the planning and design phase through implementation. NET 285 has been revised to SEC 289 (Security Capstone Project) effective Fall 2006. See SEC 289 for course information.

NET 289 Networking Project 01 04 00 03

Prerequisites: None

Corequisites: NET 226

Component: None

This course provides an opportunity to complete a significant networking project from the design phase through implementation with minimal instructor support. Emphasis is placed on project definition, documentation, installation, testing, presentation, and training. Upon completion, students should be able to complete a project from the definition phase through implementation.

NMT 110 Intro to Nuclear Medicine 02 00 00 02

Prerequisites: None

Corequisites: None

Component: None

This course provides a comprehensive introduction to the field of nuclear medicine. Topics include overview of school, program, and profession; medical terminology and ethics; medical legal issues; general patient care and radiation safety practices; and departmental organization. Upon completion, students should be able to utilize various learning resources and demonstrate understanding of radiation safety standards and ethical, professional conduct.

NMT 126 Nuclear Physics 02 00 00 02

Prerequisites: None

Corequisites: None

Component: None

This course introduces the fundamental principles of the physics that underlie nuclear medicine. Topics include atomic structure, electromagnetic and particulate radiation, decay schemes, production of radionuclides with emphasis on radionuclide generators, and decay calculations. Upon completion, students should be able to demonstrate an understanding of the physical concepts covered in the course.

NMT 132 Overview-Clinical Nuc Med 02 00 06 04

Prerequisites: NMT 110

Corequisites: None

Component: None

This course is designed to familiarize students with the clinical practice of nuclear medicine. Emphasis is placed on the routine clinical procedures, radiopharmaceuticals and dosage, equipment manipulation, and basic patient care. Upon completion, students should be able to demonstrate integration of the principles covered in the classroom with the clinical experience.

NMT 134 Nuclear Pharmacy 02 00 00 02

Prerequisites: NMT 110

Corequisites: None

Component: None

This course covers the formulation and application of radiopharmaceuticals. Topics include the preparation, handling, disposition, and quality control of clinically useful radiopharmaceuticals. Upon completion, students should be able to discuss the appropriate use and disposition of radiopharmaceuticals currently used in clinical nuclear medicine.

NMT 136 Health Physics 02 00 00 02

Prerequisites: NMT 110

Corequisites: None

Component: None

This course covers the regulations and practices that ensure minimum exposure of patients, co-workers, and self to ionizing radiation. Topics include interactions of radiation with matter, protective practices, state and federal regulatory agencies and their directives, and methods of monitoring exposure. Upon completion, students should be able to demonstrate an understanding of the regulations and practices presented in the course.

Corequisites: None									
Component: None									
This course is one of two courses designed to provide clinical practice in nuclear medicine. Topics include radiation protection, radio-pharmaceutical use, patient care, imaging procedures, non-imaging procedures, administrative procedures, and the therapeutic use of radionuclide. Upon completion, students should be able to demonstrate performance of the procedures covered in the course.									
NMT 212 Proc for Nuclear Med I	02	00	00	02					
Prerequisites: NMT 132									
Corequisites: None									
Component: None									
This course begins the in-depth study of clinical procedures performed by nuclear medicine technologists. Emphasis is placed on dose administration, use of instrumentation, computer applications, and normal and abnormal presentation. Upon completion, students should be able to demonstrate an understanding of the principles related to the procedures presented in the course.									
NMT 214 Radiobiology	02	00	00	02					
Prerequisites: NMT 132									
Corequisites: None									
Component: None									
This course covers the principles of radiation biology. Emphasis is placed on a system's sensitivity to radiation, radiation pathology, and the biological effects of radiation. Upon completion, students should be able to demonstrate an understanding of the effects of radiation in nuclear medicine.									
NMT 215 Non-Imaging Instrumentation	01	03	00	02					
Prerequisites: NMT 132									
Corequisites: None									
Component: None									
This course covers the proper operation of various types of non-imaging equipment used in nuclear medicine. Emphasis is placed on principles of radiation detection, quality control procedures, various counting problems, and machine-specific operating procedures. Upon completion, students should be able to demonstrate the proper use of the devices discussed in the course.									
NMT 218 Computers in Nuc Med	02	00	00	02					
Prerequisites: NMT 132									
Corequisites: None									
Component: None									
This course provides a general introduction to the operation of computers and the application of computers to the field of nuclear medicine. Topics include number systems, major system components, input/output devices, and acquisition and processing of nuclear medicine images. Upon completion, students should be able to demonstrate an understanding of the concepts presented.									
NMT 221 NMT Clinical Practice II	00	00	21	07					
Prerequisites: NMT 132									
Corequisites: None									
Component: None									
This course is one of two courses designed to provide clinical practice in nuclear medicine. Topics include radiation protection, radio-pharmaceutical use, patient care, imaging procedures, non-imaging procedures, administrative procedures, and the therapeutic use of radionuclides. Upon completion, students should be able to demonstrate performance of the procedures covered in this course.									
NMT 222 Proc for Nuclear Med II	02	00	00	02					
Prerequisites: NMT 132									
Corequisites: None									
Component: None									
This course concludes the in-depth study of clinical procedures performed in nuclear medicine. Topics include method of dose administration, data acquisition parameters, computer use, and data patterns consistent with normal and described pathological states. Upon completion, students should be able to demonstrate an understanding of the principles related to the procedures discussed in the course.									
NMT 225 Imaging Instrumentation	01	03	00	02					
Prerequisites: NMT 132									
Corequisites: None									
Component: None									
This course covers the operations of various imaging equipment used in nuclear medicine. Emphasis is placed on planar and SPECT gamma cameras. Upon completion, students should be able to safely operate and evaluate performance characteristics of the equipment discussed in the course.									
NOS 110 Operating System Concepts	02	03	00	03					
Prerequisites: None									
Corequisites: None									
Component: None									
This course introduces students to a broad range of operating system concepts, including installation and maintenance. Emphasis is placed on operating system concepts, management, maintenance, and resources required. Upon completion of this course, students will have an understanding of OS concepts, installation, management, maintenance, using a variety of operating systems.									
NOS 120 Linux/UNIX Single User	02	02	00	03					
Prerequisites: NOS 110									
Corequisites: None									
Component: None									
This course develops the necessary skills for students to develop both GUI and command line skills for using and customizing a Linux workstation. Topics include Linux file system and access permissions, GNOME Interface, VI editor, X Window System expression pattern matching, I/O redirection, network and printing utilities. Upon completion, students should be able to customize and use Linux systems for command line requirements and desktop productivity roles.									
NOS 130 Windows Single User	02	02	00	03					
Prerequisites: NOS 110									
Corequisites: None									
Component: None									
This course introduces operating system concepts for single-user systems. Topics include hardware management, file and memory management, system configuration/optimization, and utilities. Upon completion, students should be able to perform operating systems functions at the support level in a single-user environment.									

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
NOS 220 Linux/UNIX Admin I	02	02	00	03

Prerequisites: NOS 120

Corequisites: None

Component: None

This course introduces the Linux file system, group administration, and system hardware controls. Topics include installation, creation and maintaining file systems, NIS client and DHCP client configuration, NFS, SMB/Samba, Configure X, Gnome, KDE, basic memory, processes, and security. Upon completion, students should be able to perform system administration tasks including installation, configuring and attaching a new Linux workstation to an existing network.

NOS 230 Windows Admin I	02	02	00	03
--------------------------------	-----------	-----------	-----------	-----------

Prerequisites: NOS 130

Corequisites: None

Component: None

This course covers the installation and administration of a Windows Server network operating system. Topics include managing and maintaining physical and logical devices, access to resources, the server environment, managing users, computers, and groups, and Managing/Implementing Disaster Recovery. Upon completion, students should be able to manage and maintain a Windows Server environment.

NOS 240 Novell Admin I	02	02	00	03
-------------------------------	-----------	-----------	-----------	-----------

Prerequisites: NOS 110

Corequisites: None

Component: None

This course will introduce students to the Novell network operating system. Topics include installing and using NetWare, managing printing, storage space, implementing internet services, and managing security. Upon completion, students should have basic knowledge about implementing NetWare and using its management tools.

NUR 101 Practical Nursing I	07	06	06	11
------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: Departmental Approval

Corequisites: BIO 163 and NUR 102AA

Component: None

This course introduces concepts as related to the practical nurse's caregiver and discipline-specific roles. Emphasis is placed on the nursing process, legal/ethical/professional issues, wellness/illness patterns, and basic nursing skills. Upon completion, students should be able to demonstrate beginning understanding of nursing process to promote/maintain/restore optimum health for diverse clients throughout the life span. This course must be completed satisfactorily to progress to Nursing 102B and Nursing 103A.

This course is intended for certificate and diploma programs.

NUR 102AA Practical Nursing II	02	00	00	02
---------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: Departmental Approval

Corequisites: BIO 163 and NUR 101

Component: None

This course includes more advanced concepts as related to the practical nurse's caregiver and discipline-specific roles. Emphasis is placed on the nursing process, delegation, cost effectiveness, legal/ethical/professional issues, and wellness/illness patterns. Upon completion, students should be able to begin participating in the

nursing process to promote/maintain/restore optimum health for diverse clients throughout the life span. The focus will be on vocational and personal adjustments inherent in the development of practical nurses which must be completed satisfactorily to progress to Nursing 102B and Nursing 103A. This course is intended for certificate and diploma programs.

NUR 102BB Practical Nursing II	06	00	12	10
---------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: NUR 101 and NUR 102AA

Corequisites: CIS 113, NUR 103AA and PSY 110

Component: None

This course includes more advanced concepts as related to the practical nurse's caregiver and discipline-specific roles. Emphasis is placed on the nursing process, delegation, cost effectiveness, legal/ethical/professional issues, and wellness/illness patterns. Upon completion, students should be able to begin participating in the nursing process to promote/maintain/restore optimum health for diverse clients throughout the life span. The focus will be on nursing care of patients with illnesses and disorders of various body systems, child-bearing family and the pediatric patient which must be completed satisfactorily to progress to Nursing 103B. This course is intended for certificate and diploma programs.

NUR 103AA Practical Nursing III	03	00	00	03
--	-----------	-----------	-----------	-----------

Prerequisites: NUR 101 and NUR 102AA

Corequisites: CIS 113, NUR 102BB and PSY 110

Component: None

This course focuses on use of nursing/related concepts by practical nurses as providers of care/members of discipline in collaboration with health team members. Emphasis is placed on the nursing process, wellness/illness patterns, entry-level issues, accountability, advocacy, professional development, evolving technology, and changing health care delivery systems. Upon completion, students should be able to use the nursing process to promote/maintain/restore optimum health for diverse clients throughout the life span. The focus will be on reproductive diseases, mental health disorders and parenteral medication administration which must be completed satisfactorily to progress to Nursing 103B. This course is intended for certificate and diploma programs.

NUR 103BB Practical Nursing III	04	00	09	07
--	-----------	-----------	-----------	-----------

Prerequisites: NUR 102BB and NUR 103AA

Corequisites: ENG 111

Component: None

This course focuses on use of nursing/related concepts by practical nurses as providers of care/members of discipline in collaboration with health team members. Emphasis is placed on the nursing process, wellness/illness patterns, entry-level issues, accountability, advocacy, professional development, evolving technology, and changing health care delivery systems. Upon completion, students should be able to use the nursing process to promote/maintain/restore optimum health for diverse clients throughout the life span. The focus will be on nursing care of patients with disorders involving various body systems which must be completed satisfactorily to successfully complete the program. This course is intended for certificate and diploma programs.

OMT 155 Meeting & Present Skills	03	00	00	03		OST 080 Keyboarding Literacy	01	02	00	02
Prerequisites: None						Prerequisites: None				
Corequisites: None						Corequisites: None				
Component: None						Component: None				
This course is designed to develop skills for facilitating successful meetings by enhancing employee involvement and initiative. Topics include planning meetings that promote results, encouraging diverse points of view, handling disruptive behavior, encouraging participation, and taking action when required. Upon completion, students should be able to plan and participate in meetings that accomplish positive results.						This course is designed to develop elementary keyboarding skills. Emphasis is placed on mastery of the keyboard. Upon completion, students should be able to demonstrate basic proficiency in keyboarding.				
OMT 156 Problem-Solving Skills	03	00	00	03		OST 122 Office Computations	01	02	00	02
Prerequisites: None						Prerequisites: MAT 070 or Accuplacer Score of 60				
Corequisites: None						Corequisites: None				
Component: None						Component: None				
This course provides a foundation for creating constructive relationships and presents the processes behind problem solving for groups and individuals. Emphasis is placed on building constructive relationships, confronting issues, winning support, and the basic processes of problem solving. Upon completion, students should be able to enhance relationships with others and apply a systematic approach to problem solving.						This course introduces the keypad and the touch method using the electronic calculator. Topics include mathematical functions in business applications. Upon completion, students should be able to use the electronic calculator to solve a wide variety of problems commonly encountered in business.				
OMT 227 Maintenance Practices	03	00	00	03		OST 131 Keyboarding	01	02	00	02
Prerequisites: None						Prerequisites: None				
Corequisites: None						Corequisites: None				
Component: None						Component: None				
This course introduces the methods of planning, organizing, and controlling maintenance. Topics include scheduling and supervision, development and use of reports, entrance and retrieval of data, and maintenance of inventory control systems. Upon completion, students should be able to demonstrate an understanding of maintenance practices and procedures.						This course covers basic keyboarding skills. Emphasis is placed on the touch system, correct techniques, and development of speed and accuracy. Upon completion, students should be able to key at an acceptable speed and accuracy level using the touch system.				
OMT 246 Strategic Mgt. of Resourc	02	00	00	02		OST 132 Keyboard Skill Building	01	02	00	02

This course includes the planning and design of production systems and the selection of appropriate technology. Emphasis is placed on investigation into computerized production technology and appropriate systems to implement the technology. Upon completion, students should be able to demonstrate an understanding of production systems and technology and be prepared for the APICS CPIM examination.						This course provides accuracy- and speed-building drills. Emphasis is placed on diagnostic tests to identify accuracy and speed deficiencies followed by corrective drills. Upon completion, students should be able to keyboard rhythmically with greater accuracy and speed.				
OMT 260 Issues in Operations Mgt.	03	00	00	03		OST 133 Advanced Keyboard Skill Building	01	02	00	02
Prerequisites: ISC 121, ISC 210, OMT 112 and ISC 130, ISC 131, ISC 132 or ISC 221						Prerequisites: OST 132 and OST 134				
Corequisites: None						Corequisites: None				
Component: None						Component: None				
This course presents a variety of topics that highlight contemporary problems and issues related to operations management. Emphasis is placed on production and operations planning, environmental health and safety, materials management, and quality systems. Upon completion, students should be able to demonstrate the ability to make decisions and resolve problems in an operations management environment.						This course is designed to increase speed and improve accuracy to meet employment tests and job requirements. Emphasis is placed on individualized diagnostic and prescriptive drills. Upon completion, students should be able to keyboard with greater speed and accuracy as measured by five-minute timed writings and skill-development paragraphs.				
						OST 134 Text Entry & Formatting	02	02	00	03
						Prerequisites: OST 132 and OST 136				
						Corequisites: None				
						Component: None				
						This course is designed to provide the skills needed to increase speed, improve accuracy, and format documents. Topics include letters, memos, tables, and business reports. Upon completion, students should be able to produce mailable documents and key timed writings at speeds commensurate with employability. This course is also available through the Virtual Learning Community (VLC).

OST 135 Advanced Text Entry & Formatting	03	02	00	04					
Prerequisites: All courses required: OST 134, OST 236 and OST 233									
Corequisites: None									
Component: None									
This course is designed to incorporate computer application skills in the generation of office documents. Emphasis is placed on the production of letters, manuscripts, business forms, tabulation, legal documents, and newsletters. Upon completion, students should be able to make independent decisions regarding planning, style, and method of presentation.									
OST 136 Word Processing	01	02	00	02					
Prerequisites: OST 131									
Corequisites: None									
Component: None									
This course introduces word processing concepts and applications. Topics include preparation of a variety of documents and mastery of specialized software functions. Upon completion, students should be able to work effectively in a computerized word processing environment.									
OST 137 Office Software Applications	01	02	00	02					
Prerequisites: OST 131									
Corequisites: None									
Component: None									
This course introduces the concepts and functions of software that meets the changing needs of the community. Emphasis is placed on the terminology and use of software through a hands on approach. Upon completion, students should be able to use software in a business environment.									
OST 141 Medical Terms I-Medical Office	03	00	00	03					
Prerequisites: None									
Corequisites: None									
Component: None									
This course uses a language-structure approach to present the terminology and vocabulary that will be encountered in medical office settings. Topics include word parts that relate to systemic components, conditions, pathology, and disorder remediation in approximately one-half of the systems of the human body. Upon completion, students should be able to relate words to systems, pluralize, define, pronounce, and construct sentences with the included terms.									
OST 142 Medical Terms II-Medical Office	03	00	00	03					
Prerequisites: OST 141									
Corequisites: None									
Component: None									
This course is a continuation of OST 141 and continues the study, using a language-structure approach, of medical office terminology and vocabulary. Topics include word parts that relate to systemic components, conditions, pathology, and disorder remediation in the remaining systems of the human body. Upon completion, students should be able to relate words to systems, pluralize, define, pronounce, and construct sentences with the included terms.									
OST 148 Medical Coding Billing & Insurance	03	00	00	03					
Prerequisites: OST 141									
Corequisites: None									
Component: None									
This course introduces CPT and ICD coding as they apply to medical insurance and billing. Emphasis is placed on accuracy in coding, forms preparation, and posting. Upon completion, students should be able to describe the steps of the total billing cycle and explain the importance of accuracy.									
OST 149 Medical Legal Issues	03	00	00	03					
Prerequisites: None									
Corequisites: None									
Component: None									
This course introduces the complex legal, moral, and ethical issues involved in providing health-care services. Emphasis is placed on the legal requirements of medical practices; the relationship of physician, patient, and office personnel; professional liabilities; and medical practice liability. Upon completion, students should be able to demonstrate a working knowledge of current medical law and accepted ethical behavior.									
OST 162 Executive Terminology	03	00	00	03					
Prerequisites: None									
Corequisites: None									
Component: None									
This course is designed to increase and improve proficiency in word usage. Topics include root words, prefixes, suffixes, homonyms, synonyms, and specialized vocabularies. Upon completion, students should be able to use acquired vocabulary skills in the global workplace.									
OST 164 Text Editing Applications	03	00	00	03					
Prerequisites: ENG 111									
Corequisites: None									
Component: None									
This course provides a comprehensive study of editing skills needed in the workplace. Emphasis is placed on grammar, punctuation, sentence structure, proofreading, and editing. Upon completion, students should be able to use reference materials to compose and edit text. This course is also available through the Virtual Learning Community (VLC).									
OST 181 Introduction to Office Systems	02	02	00	03					
Prerequisites: OST 131 or equivalent									
Corequisites: None									
Component: None									
This course introduces the skills and abilities needed in today's office. Topics include effectively interacting with co-workers and the public, processing simple financial and informational documents, and performing functions typical of today's offices. Upon completion, students should be able to display skills and decision-making abilities essential for functioning in the total office context.

OST 184 Records Management	01	02	00	02					
Prerequisites: None									
Corequisites: None									
Component: None									
This course includes the creation, maintenance, protection, security, and disposition of records stored in a variety of media forms. Topics include alphabetic, geographic, subject, and numeric filing methods. Upon completion, students should be able to set up and maintain a records management system. This course is also available through the Virtual Learning Community (VLC).									
OST 192 Selected Topics in OST	01	02	00	02					
Prerequisites: ENG 111, OST 134 and OST 164									
Corequisites: None									
Component: None									
This course provides an opportunity to explore areas of current interest in specific program or discipline areas. Emphasis is placed on subject matter appropriate to the program or discipline. Upon completion, students should be able to demonstrate an understanding of the specific area of study. This course will concentrate on developing skills in writing business communications that will enable students to communicate effectively in an office environment.									
OST 223 Machine Transcription I	01	02	00	02					
Prerequisites: All courses required: OST 134, OST 136 and OST 164									
Corequisites: None									
Component: None									
This course covers the use of transcribing machines to produce mailable documents. Emphasis is placed on appropriate formatting, advanced text editing skills, and transcription techniques. Upon completion, students should be able to transcribe documents into mailable copy.									
OST 224 Machine Transcription II	01	02	00	02					
Prerequisites: OST 223									
Corequisites: None									
Component: None									
This course provides advanced transcription skills. Emphasis is placed on specialized transcription features. Upon completion, students should be able to transcribe complex business documents into mailable copy with minimal assistance.									
OST 233 Office Publications Design	02	02	00	03					
Prerequisites: OST 134, OST 136, and OST 137									
Corequisites: None									
Component: None									
This course provides entry-level skills in using software with desktop publishing capabilities. Topics include principles of page layout, desktop publishing terminology and applications, and legal and ethical considerations of software use. Upon completion, students should be able to design and produce professional business documents and publications.									
OST 236 Advanced Word/Information Processing	02	02	00	03					
Prerequisites: OST 135 or OST 136									
Corequisites: None									
Component: None									
This course develops proficiency in the utilization of advanced word/information processing functions. Topics include tables, graphics, macros, sorting, document assembly, merging, and newspaper and brochure columns. Upon completion, students should be able to produce a variety of complex business documents. This course is also available through the Virtual Learning Community (VLC).									
OST 241 Medical Office Transcription I	01	02	00	02					
Prerequisites: OST 142, OST 164 and MED 121 or OST 141									
Corequisites: None									
Component: None									
This course introduces machine transcription techniques as applied to medical documents. Emphasis is placed on accurate transcription, proofreading, and use of reference materials as well as vocabulary building. Upon completion, students should be able to prepare accurate and usable transcripts of voice recordings in the covered specialties.									
OST 242 Medical Office Transcription II	01	02	00	02					
Prerequisites: OST 241									
Corequisites: None									
Component: None									
This course continues building machine transcription techniques as applied to medical documents. Emphasis is placed on accurate transcription, proofreading, and use of reference materials as well as continued proofreading/editing skills and vocabulary building. Upon completion, students should be able to perform competently in preparing accurate and usable transcripts of voice recordings in the covered specialties.									
OST 243 Medical Office Simulation	02	02	00	03					
Prerequisites: All courses required: OST 134, OST 142 and OST 148									
Corequisites: None									
Component: None									
This course introduces medical systems used to process information in the automated office. Topics include traditional and electronic information resources, storing and retrieving information, and the billing cycle. Upon completion, students should be able to use the computer accurately to schedule, bill, update, and make corrections. This course is a unique concentration requirement in the Medical Office Systems Technology concentration in the Office Systems Technology program.									
OST 244 Medical Document Production	01	02	00	02					
Prerequisites: OST 134									
Corequisites: None									
Component: None									
This course provides production-level skill development in processing medical documents. Emphasis is placed on producing mailable documents through the use of medical-related materials. Upon completion, students should be able to perform competently in preparing accurate, correctly formatted, and usable documents.									

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
OST 247 CPT Coding in the Med Off	01	02	00	02

Prerequisites: OST 142

Corequisites: None

Component: None

This course provides in-depth coverage of procedural coding. Emphasis is placed on CPT and HCPCS rules for Medicare billing. Upon completion, students should be able to properly code procedures and services performed by physicians in ambulatory settings.

OST 248 Diagnostic Coding	01	02	00	02
----------------------------------	-----------	-----------	-----------	-----------

Prerequisites: OST 142

Corequisites: None

Component: None

This courses provides an in-depth study of diagnostic coding for the medical office. Emphasis is placed on ICD-9-CM codes used on superbills and other encounter forms. Upon completion, students should be able to apply the principles of diagnostic coding in the physician's office.

OST 284 Emerging Technologies	01	02	00	02
--------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: ENG 111, OST 134, OST 137, and OST 164

Corequisites: None

Component: None

This course provides opportunities to explore emerging technologies. Emphasis is placed on identifying, researching, and presenting current technological topics for class consideration and discussion. Upon completion, students should be able to understand the importance of keeping abreast of technological changes that affect the office professional.

OST 286 Professional Development	03	00	00	03
---	-----------	-----------	-----------	-----------

Prerequisites: OST 236

Corequisites: None

Component: None

This course covers the personal competencies and qualities needed to project a professional image in the office. Topics include interpersonal skills, health lifestyles, appearance, attitude, personal and professional growth, multi-cultural awareness, and professional etiquette. Upon completion, students should be able to demonstrate these attributes in the classroom, office, and society.

OST 289 Office Systems Management	02	02	00	03
--	-----------	-----------	-----------	-----------

Prerequisites: All courses required: OST 164 and OST 134 or OST 136

Corequisites: None

Component: None

This course provides a capstone course for the office professional. Topics include administrative office procedures, imaging, communication techniques, ergonomics, and equipment utilization. Upon completion, students should be able to function proficiently in a changing office environment.

PAD 151 Introduction to Public Administration	03	00	00	03
--	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course includes an overview of the role of the public administrator in government and an examination of the development and implementation of public policy. Topics include public personnel

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
administration and management, decision making, public affairs, ethics, organizational theories, budgetary functions within governmental agencies, and other governmental issues. Upon completion, students should be able to explain the functions of government in society and in the lives of people composing that society. This course is a unique concentration requirement of the Public Administration concentration in the Business Administration program.				

PAD 152 Ethics in Government	03	00	00	03
-------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course introduces the ethical issues and problems within the public administration field. Emphasis is placed on building analytical skills, stimulating moral imagination, and recognizing the discretionary power of the administrator's role. Upon completion, students should be able to understand the moral dimensions of public administrative decision making. This course is a unique concentration requirement of the Public Administration concentration in the Business Administration program.

PAD 251 Public Finance & Budgeting	03	00	00	03
---	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course provides an overview of the public finance and budgeting processes used in the allocation of public resources to meet differing public interests. Topics include the political environment, government expenditures, revenues, taxation, budgetary process theories and techniques, and the relation of government finance to the economy. Upon completion, students should be able to recognize impacts of government revenue and expenditure policies and understand the role of budgeting in executing governmental policy. This course is a unique concentration requirement of the Public Administration concentration in the Business Administration program.

PAD 252 Public Policy Analysis	03	00	00	03
---------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course is a study of methods and techniques used to determine the effectiveness of public programs. Emphasis is placed on the concept of ecology and environmental impact, informal groups and information networks, and the relationship between public and private sectors. Upon completion, students should be able to analyze case studies with the use of political analysis techniques. This course is a unique concentration requirement of the Public Administration concentration in the Business Administration program.

PAD 253 Introduction to Urban Planning	03	00	00	03
---	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course includes an analysis of current urban problems and the forces responsible for urban and regional growth. Topics include historical perspectives on the planning approach to urban phenomena and the evaluation of current proposals dealing with aspects of the urban situation. Upon completion, students should be able to evaluate urban and regional growth problems through case study analysis.

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
PAD 254 Grant Writing	03	00	00	03

Prerequisites: None
Corequisites: None
Component: None

This course covers the basic techniques of successful grant writing. Topics include concept development, funding sources research, and writing skills relevant to the grants process. Upon completion, students should be able to demonstrate a basic understanding of the grants process.

PAD 255 Government Contracting	03	00	00	03
---------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: None
Corequisites: None
Component: None

This course is a study of the nature, process, and legal ramifications of contracting with and for the federal government. Emphasis is placed on developing and writing bid specifications for contracts and on negotiating and working with contractors. Upon completion, students should be able to read, write, and interpret government contracts.

PBT 100 Phlebotomy Technology	05	02	00	06
--------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: None
Corequisites: PBT 101
Component: None

This course provides instruction in the skills needed for the proper collection of blood and other specimens used for diagnostic testing. Emphasis is placed on ethics, legalities, medical terminology, safety and universal precautions, health care delivery systems, patient relations, anatomy and physiology, and specimen collection. Upon completion, students should be able to demonstrate competence in the theoretical comprehension of phlebotomy techniques. This is a certificate-level course.

PBT 101 Phlebotomy Practicum	00	00	09	03
-------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: None
Corequisites: PBT 100
Component: None

This course provides supervised experience in the performance of venipuncture and microcollection techniques in a clinical facility. Emphasis is placed on patient interaction and application of universal precautions, proper collection techniques, special procedures, specimen handling, and data management. Upon completion, students should be able to safely perform procedures necessary for specimen collections on patients in various health care settings. This is a certificate-level course.

PED 110 Fit and Well for Life	01	02	00	02
--------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: None
Corequisites: None
Component: None

This course is designed to investigate and apply the basic concepts and principles of lifetime physical fitness and other health-related factors. Emphasis is placed on wellness through the study of nutrition, weight control, stress management, and consumer facts on exercise and fitness. Upon completion, students should be able to plan a personal, lifelong fitness program based on individual needs, abilities, and interests. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 111 Physical Fitness I	00	03	00	01

Prerequisites: None
Corequisites: None
Component: None

This course provides an individualized approach to physical fitness utilizing the five major components. Emphasis is placed on the scientific basis for setting up and engaging in personalized physical fitness programs. Upon completion, students should be able to set up and implement an individualized physical fitness program. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 112 Physical Fitness II	00	03	00	01
------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: PED 111
Corequisites: None
Component: None

This course is an intermediate-level fitness class. Topics include specific exercises contributing to fitness and the role exercise plays in developing body systems. Upon completion, students should be able to implement and evaluate an individualized physical fitness program. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 113 Aerobics I	00	03	00	01
---------------------------	-----------	-----------	-----------	-----------

Prerequisites: None
Corequisites: None
Component: None

This course introduces a program of cardiovascular fitness involving continuous, rhythmic exercise. Emphasis is placed on developing cardiovascular efficiency, strength, and flexibility and on safety precautions. Upon completion, students should be able to select and implement a rhythmic aerobic exercise program. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 114 Aerobics II	00	03	00	01
----------------------------	-----------	-----------	-----------	-----------

Prerequisites: PED 113
Corequisites: None
Component: None

This course provides a continuation of a program of cardiovascular fitness involving rhythmic exercise. Emphasis is placed on a wide variety of aerobic activities which include cardiovascular efficiency, strength, and flexibility. Upon completion, students should be able to participate in and design a rhythmic aerobic exercise routine. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 115 Step Aerobics I	00	03	00	01
--------------------------------	-----------	-----------	-----------	-----------

Prerequisites: None
Corequisites: None
Component: None

This course introduces the fundamentals of step aerobics. Emphasis is placed on basic stepping up and down on an adjustable platform; cardiovascular fitness; and upper body, floor, and abdominal exercises. Upon completion, students should be able to participate in basic step aerobics. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

This course covers the skills necessary to safely negotiate Class II and some Class III rapids. Topics include execution of a river roll, maneuvering, rescuing and retrieving kayaker and equipment. Upon completion, students should be able to safely negotiate Class II and some Class III rapids and perform all rescue skills. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
PED 169 Orienteering	00	02	00	01

Prerequisites: None
Corequisites: None
Component: None

This course introduces the various types of orienteering and proper orienteering techniques. Emphasis is placed on defining various types of orienteering and recognizing and drawing topographic map symbols. Upon completion, students should be able to draw topographic map symbols and negotiate a 3-5 km cross-country orienteering course in a specified time period. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 170 Backpacking	00	02	00	01
----------------------------	-----------	-----------	-----------	-----------

Prerequisites: None
Corequisites: None
Component: None

This course covers the proper techniques for establishing a campsite, navigating in the wilderness, and planning for an overnight trip. Topics include planning for meals, proper use of maps and compass, and packing and dressing for extended periods in the outdoors. Upon completion, students should be able to identify quality backpacking equipment, identify the principles of no-trace camping, and successfully complete a backpacking experience. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 171 Nature Hiking	00	02	00	01
------------------------------	-----------	-----------	-----------	-----------

Prerequisites: None
Corequisites: None
Component: None

This course provides instruction on how to equip and care for oneself on the trail. Topics include clothing, hygiene, trail ethics, and necessary equipment. Upon completion, students should be able to successfully participate in nature trail hikes. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 172 Outdoor Living	01	02	00	02
-------------------------------	-----------	-----------	-----------	-----------

Prerequisites: None
Corequisites: None
Component: None

This course is designed to acquaint the beginning camper with outdoor skills. Topics include camping techniques such as cooking and preserving food, safety, and setting up camp. Upon completion, students should be able to set up camp sites in field experiences using proper procedures. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 173 Rock Climbing	00	02	00	01
------------------------------	-----------	-----------	-----------	-----------

Prerequisites: None
Corequisites: None
Component: None

This course teaches the fundamental skills and safety of rock climbing. Topics include rock climbing, bouldering, rappelling, the correct method of belaying for climbing and rappelling, and knowledge of equipment. Upon completion, students should be able to demon-

strate strong and skillful techniques in climbing and rappelling. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 175 Horseback Riding I 00 02 00 01

Prerequisites: None

Corequisites: None

Component: None

This course introduces beginning and non-riders to recreational horseback riding. Topics include riding skills, equipment, handling of horses, mounting, care of the horse, and coordinated horse-rider balance. Upon completion, students should be able to demonstrate riding, safety, and horse management skills. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 176 Horseback Riding II 00 02 00 01

Prerequisites: PED 175

Corequisites: None

Component: None

This course is designed to give advanced riding experiences in a variety of specialized situations. Emphasis is placed on the development of skills such as jumping, rodeo games, and trail riding. Upon completion, students should be able to demonstrate control and management of the horse and perform various riding techniques. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 181 Snow Skiing-Beginning 00 02 00 01

Prerequisites: None

Corequisites: None

Component: None

This course introduces the fundamentals of snow skiing. Topics include basic techniques, safety, and equipment involved in snow skiing. Upon completion, students should be able to ski a down slope, enter and exit a ski lift, and perform basic maneuvers on skis. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 182 Snow Skiing Intermediate 00 02 00 01

Prerequisites: PED 181

Corequisites: None

Component: None

This course is designed to further develop snow skiing skills. Topics include selection and care of equipment, parallel skiing and turns, christies, advanced jumps, trail skiing, and slalom racing. Upon completion, students should be able to ski on varying terrains and snow conditions with control and safety. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 183 Folk Dancing 00 02 00 01

Prerequisites: None

Corequisites: None

Component: None

This course teaches the fundamental folk dance movements along with cultural traditions from various countries. Emphasis is placed

on the history and traditions of the folk dance as well as the movements and the dances themselves. Upon completion, students should be able to demonstrate folk dances as well as knowledge of their origins and cultural traditions. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 184 Square Dancing I 00 02 00 01

Prerequisites: None

Corequisites: None

Component: None

This course introduces the terminology and skills necessary to perform square dancing. Topics include working from squared sets-squared circles to squared throughs, right and left throughs, and Dixie Chains. Upon completion, students should be able to perform square dance routines and recognize the calls made for all formations. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 185 Square Dancing II 00 02 00 01

Prerequisites: PED 184

Corequisites: None

Component: None

This course includes additional variations and forms of square dancing. Topics include such routines as turns, grand swing, triple trades, wheel and deal, T-cup chain, and arky change. Upon completion, students should be able to demonstrate and perform country and western square dance routines. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 186 Dancing for Fitness 00 02 00 01

Prerequisites: None

Corequisites: None

Component: None

This course is designed to develop movement and recreational dance skills, safety, fitness, coordination, and techniques used to teach various groups. Emphasis is placed on participation and practice with adapting dances for ages and ability levels. Upon completion, students should be able to demonstrate knowledge of fitness through social, folk, and square dance participation and instruction. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 187 Social Dance-Beginning 00 02 00 01

Prerequisites: None

Corequisites: None

Component: None

This course introduces the fundamentals of popular social dances. Emphasis is placed on basic social dance techniques, dances, and a brief history of social dance. Upon completion, students should be able to demonstrate specific dance skills and perform some dances. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS		CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
PED 188 Social Dance-Intermediate	00	02	00	01					
Prerequisites: PED 187									
Corequisites: None									
Component: None									
This course covers advanced fundamentals of social dancing. Topics include rhythm, appearance, and routine sequence. Upon completion, students should be able to perform more difficult steps and types of dances. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.									
PED 210 Team Sports	00	03	00	01					
Prerequisites: None									
Corequisites: None									
Component: None									
This course introduces the fundamentals of popular American team sports. Emphasis is placed on rules, equipment, and motor skills used in various sports. Upon completion, students should be able to demonstrate knowledge of the sports covered. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.									
PED 211 New Games	00	02	00	01					
Prerequisites: None									
Corequisites: None									
Component: None									
This course includes explanation, demonstration, and participation in games that provide an alternative to traditional sports. Emphasis is placed on playing for pleasure rather than for competitive purposes. Upon completion, students should be able to participate and lead others in participating in non-competitive games. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.									
PED 220 Exercise for Physically Challenged	00	02	00	01					
Prerequisites: None									
Corequisites: None									
Component: None									
This course is designed to improve physical strength, endurance, and range of motion while focusing on individual needs. Emphasis is placed on exercises which are designed and adapted to serve those with special needs. Upon completion, students should be able to show improved physical fitness, body awareness, and an appreciation for their physical well-being. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.									
PED 240 Advanced PE Skills	00	02	00	01					
Prerequisites: None									
Corequisites: None									
Component: None									
This course provides those who have mastered skills in a particular physical education area the opportunity to assist with instruction. Emphasis is placed on methods of instruction, class organization, and progressive skill development. Upon completion, students should be able to design, develop, and implement a unit lesson plan for a skill they have mastered. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.									
PED 250 Officiating/Basketball/Volleyball						01	02	00	02
Prerequisites: None									
Corequisites: None									
Component: None									
This course introduces the rules and techniques for sports officiating in basketball and volleyball. Emphasis is placed on officiating fundamentals and responsibilities. Upon completion, students should be able to demonstrate proper mechanics and knowledge of officiating procedures in basketball and volleyball. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.									
PED 251 Officiating/Football/Soccer					01	02	00	02	
Prerequisites: None									
Corequisites: None									
Component: None									
This course introduces the rules and techniques for sports officiating in football and soccer. Emphasis is placed on officiating fundamentals and responsibilities. Upon completion, students should be able to demonstrate proper mechanics and knowledge of officiating procedures in football and soccer. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.									
PED 252 Officiating/Baseball/Softball					01	02	00	02	
Prerequisites: None									
Corequisites: None									
Component: None									
This course introduces the rules and techniques for sports officiating in baseball and softball. Emphasis is placed on officiating fundamentals and responsibilities. Upon completion, students should be able to demonstrate proper mechanics and knowledge of officiating procedures in baseball and softball. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.									
PED 254 Coaching Basketball					01	02	00	02	
Prerequisites: None									
Corequisites: None									
Component: None									
This course introduces the theory and methods of coaching basketball. Emphasis is placed on rules, game strategies, and selected techniques of coaching basketball. Upon completion, students should be able to demonstrate competent coaching skills in basketball. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.									
PED 255 Coaching Football					01	02	00	02	
Prerequisites: None									
Corequisites: None									
Component: None									
This course introduces the theory and methods of coaching football. Emphasis is placed on rules, game strategies, and selected techniques of coaching football. Upon completion, students should be able to demonstrate competent coaching skills in football. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

This course introduces the theory and methods of coaching baseball. Emphasis is placed on rules, game strategies, and selected techniques of coaching baseball. Upon completion, students should be able to demonstrate competent coaching skills in baseball. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.									
PED 257 Coaching Soccer	01	02	00	02					
Prerequisites: None									
Corequisites: None									
Component: None									
This course introduces the theory and methods of coaching soccer. Emphasis is placed on rules, game strategies, and selected techniques of coaching soccer. Upon completion, students should be able to demonstrate competent coaching skills in soccer. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.									
PED 259 Prevention & Care of Athletic Injuries	01	02	00	02					
Prerequisites: None									
Corequisites: None									
Component: None									
This course provides information on the prevention and care of athletic injuries. Topics include safety devices, taping, therapeutic techniques, and conditioning exercises. Upon completion, students should be able to demonstrate proper preventive measures and skills in caring for athletic injuries. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.									
PED 260 Lifeguard Training	01	02	00	02					
Prerequisites: PED 153									
Corequisites: None									
Component: None									
This course covers the skills, knowledge, and techniques of lifesaving and lifeguarding. Topics include identifying and minimizing aquatic hazards, recognizing and effectively rescuing people in distress, and developing safety skills. Upon completion, students should be able to demonstrate skills, knowledge, and techniques of lifesaving and lifeguarding to pass American Red Cross lifeguarding certification. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.									
PHI 210 History of Philosophy	03	00	00	03					
Prerequisites: ENG 111									
Corequisites: None									
Component: None									
This course introduces fundamental philosophical issues through an historical perspective. Emphasis is placed on such figures as Plato, Aristotle, Lao-Tzu, Confucius, Augustine, Aquinas, Descartes, Locke, Kant, Wollstonecraft, Nietzsche, and Sartre. Upon completion, students should be able to identify and distinguish among the									
key positions of the philosophers studied. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.									
PHI 215 Philosophical Issues	03	00	00	03					
Prerequisites: ENG 111									
Corequisites: None									
Component: None									
This course introduces fundamental issues in philosophy considering the views of classical and contemporary philosophers. Emphasis is placed on knowledge and belief, appearance and reality, determinism and free will, faith and reason, and justice and inequality. Upon completion, students should be able to identify, analyze, and critique the philosophical components of an issue. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.									
PHI 220 Western Philosophy I	03	00	00	03					
Prerequisites: ENG 111									
Corequisites: None									
Component: None									
This course covers Western intellectual and philosophic thought from the early Greeks through the medievalists. Emphasis is placed on such figures as the pre-Socratics, Plato, Aristotle, Epicurus, Epictetus, Augustine, Suarez, Anselm, and Aquinas. Upon completion, students should be able to trace the development of leading ideas regarding reality, knowledge, reason, and faith. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.									
PHI 221 Western Philosophy II	03	00	00	03					
Prerequisites: ENG 111									
Corequisites: None									
Component: None									
This course covers Western intellectual and philosophic thought from post-medievalists through recent thinkers. Emphasis is placed on such figures as Descartes, Spinoza, Leibnitz, Locke, Berkeley, Hume, Kant, Hegel, Marx, Mill, and representatives of pragmatism, logical positivism, and existentialism. Upon completion, students should be able to trace the development of leading ideas concerning knowledge, reality, science, society, and the limits of reason. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.									
PHI 230 Introduction to Logic	03	00	00	03					
Prerequisites: ENG 111									
Corequisites: None									
Component: None									
This course introduces basic concepts and techniques for distinguishing between good and bad reasoning. Emphasis is placed on deduction, induction, validity, soundness, syllogisms, truth functions, predicate logic, analogical inference, common fallacies, and scientific methods. Upon completion, students should be able to analyze arguments, distinguish between deductive and inductive arguments, test validity, and appraise inductive reasoning. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.									

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
under a pharmacist's supervision. Emphasis is placed on effective communication with personnel, developing proper employee attitude, and dispensing of medications. Upon completion, students should be able to demonstrate an understanding of pharmacy operations, utilize references, dispense medications, prepare patient charges, and efficiently operate computers.				

PHM 140 Trends in Pharmacy 02 00 00 02

Prerequisites: PHM 136

Corequisites: PHM 125 and PHM 132

Component: None

This course covers the major issues, trends, and concepts in contemporary pharmacy practice. Topics include professional ethics, continuing education, job placement, and the latest developments in pharmacy technician practice. Upon completion, students should be able to demonstrate a basic knowledge of the topics discussed.

PHM 155 Community Pharmacy 02 02 00 03

Prerequisites: PHM 110, PHM 111, PHM 115, and PHM 115A

Corequisites: PHM 118, PHM 120, and PHM 136

Component: None

This course covers the operational procedures relating to retail pharmacy. Emphasis is placed on a general knowledge of over-the-counter products; prescription processing, business/inventory management, and specialty patient services. Upon completion, students should be able to provide technical assistance and support to the retail pharmacist.

PHS 110 Basic Physical Science 03 02 00 04

Prerequisites: None

Corequisites: None

Component: None

This course introduces the physical environment with emphasis on the laws and physical concepts that impact the world and universe. Topics include astronomy, geology, meteorology, general chemistry, and general physics. Upon completion, students should be able to describe the forces and composition of the earth and universe. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PHS 111 Physical Science I 03 02 00 04

Prerequisites: None

Corequisites: None

Component: None

This course covers the general principles of chemistry and geology. Topics include measurement, matter, chemical reactions, and geological concepts. Upon completion, students should be able to perform metric measurements, describe chemical composition and reactions, and explain these in relation to the earth's composition.

PHS 112 Physical Science II 03 02 00 04

Prerequisites: None

Corequisites: None

Component: None

This course covers the general principles of physics, astronomy, and meteorology. Topics include measurement, mechanics, forces, heat, light, sound, electricity, descriptive astronomy, and weather. Upon completion, students should be able to measure and analyze the

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
forces and energy, describe the composition of the universe, and explain basic meteorology.				

PHS 121 Applied Physical Science I 03 02 00 04

Prerequisites: None

Corequisites: None

Component: None

This course introduces the general principles of physics and chemistry. Topics include measurement, motion, Newton's laws of motion, momentum, energy, work, power, heat, thermodynamics, waves, sound, light, electricity, magnetism, and chemical principles. Upon completion, students should be able to demonstrate an understanding of the physical environment and be able to apply the scientific principles to observations experienced. approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PHS 122 Applied Physical Science II 03 02 00 04

Prerequisites: None

Corequisites: None

Component: None

This course introduces the principles of nuclear energy, modern physics, geology, oceanography, meteorology, and astronomy. Topics include nuclear chemistry, relativity, composition of the earth, geologic processes and time, ocean currents and tides, eroding beaches, climate, weather, atmospheric influences, and the solar system. Upon completion, students should be able to demonstrate an understanding of the physical environment and be able to apply the scientific principles to observations experienced. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PHS 130 Earth Science 03 02 00 04

Prerequisites: None

Corequisites: None

Component: None

This course is a survey of the forces that impact the earth. Topics include geology, oceanography, and meteorology. Upon completion, students should be able to explain and identify the forces within, on, and around the earth as they influence the earth's dynamics. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

PHS 140 Weather and Climate 03 00 00 03

Prerequisites: None

Corequisites: None

Component: None

This course introduces the nature, origin, processes, and dynamics of the earth's atmospheric environment. Topics include general weather patterns, climate, and ecological influences on the atmosphere. Upon completion, students should be able to demonstrate an understanding of weather formation, precipitation, storm patterns, and processes of atmospheric pollution. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PLU 110 Modern Plumbing 04 15 00 09

Prerequisites: None

Corequisites: None

Component: PLU 110AA, PLU 110BB

This course introduces the tools, equipment, and materials associated with the plumbing industry. Topics include safety, use and care of tools, recognition and assembly of fittings and pipes, and other related topics. Upon completion, students should be able to safely assemble various pipes and fittings in accordance with state code requirements.

PLU 111 Intro to Basic Plumbing 01 03 00 02

Prerequisites: None

Corequisites: None

Component: None

This course introduces basic plumbing tools, materials, and fixtures. Topics include standard tools, materials, and fixtures used in basic plumbing systems and other related topics. Upon completion, students should be able to demonstrate an understanding of a basic plumbing system.

PLU 120 Plumbing Applications 04 15 00 09

Prerequisites: None

Corequisites: None

Component: None

This course covers general plumbing layout, fixtures, and water heaters. Topics include drainage, waste and vent pipes, water service and distribution, fixture installation, water heaters, and other related topics. Upon completion, students should be able to safely install common fixtures and systems in compliance with state and local building codes.

PLU 130 Plumbing Systems 03 09 00 06

Prerequisites: None

Corequisites: None

Component: None

This course covers the maintenance and repair of plumbing lines and fixtures. Emphasis is placed on identifying and diagnosing problems related to water, drain and vent lines, water heaters, and plumbing fixtures. Upon completion, students should be able to identify and diagnose needed repairs to the plumbing system.

PLU 140 Introduction to Plumbing Codes 01 02 00 02

Prerequisites: None

Corequisites: None

Component: None

This course covers plumbing industry codes and regulations. Emphasis is placed on North Carolina regulations and the minimum requirements for plumbing materials and design. Upon completion, students should be able to research and interpret North Carolina plumbing codes.

Corequisites: None

Component: None

This course introduces sketching diagrams and interpretation of blueprints applicable to the plumbing trades. Emphasis is placed on plumbing plans for domestic and/or commercial buildings. Upon completion, students should be able to sketch plumbing diagrams applicable to the plumbing trades.

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
POL 110 Introduction to Political Science	03	00	00	03

Prerequisites: None

Corequisites: None

Component: None

This course introduces basic political concepts used by governments and addresses a wide range of political issues. Topics include political theory, ideologies, legitimacy, and sovereignty in democratic and non-democratic systems. Upon completion, students should be able to discuss a variety of issues inherent in all political systems and draw logical conclusions in evaluating these systems. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
POL 120 American Government	03	00	00	03

Prerequisites: None

Corequisites: None

Component: None

This course is a study of the origins, development, structure, and functions of American national government. Topics include the constitutional framework, federalism, the three branches of government including the bureaucracy, civil rights and liberties, political participation and behavior, and policy formation. Upon completion, students should be able to demonstrate an understanding of the basic concepts and participatory processes of the American political system. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
POL 130 State & Local Government	03	00	00	03

Prerequisites: None

Corequisites: None

Component: None

This course includes state and local political institutions and practices in the context of American federalism. Emphasis is placed on procedural and policy differences as well as political issues in state, regional, and local governments of North Carolina. Upon completion, students should be able to identify and discuss various problems associated with intergovernmental politics and their effect on the community and the individual. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
POL 210 Comparative Government	03	00	00	03

Prerequisites: None

Corequisites: None

Component: None

This course provides a cross-national perspective on the government and politics of contemporary nations such as Great Britain, France,

Germany, and Russia. Topics include each country's historical uniqueness, key institutions, attitudes and ideologies, patterns of interaction, and current political problems. Upon completion, students should be able to identify and compare various nations' governmental structures, processes, ideologies, and capacity to resolve major problems. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
POL 220 International Relations	03	00	00	03

Prerequisites: None

Corequisites: None

Component: None

This course provides a study of the effects of ideologies, trade, armaments, and alliances on relations among nation-states. Emphasis is placed on regional and global cooperation and conflict, economic development, trade, non-governmental organizations, and international institutions such as the World Court and UN. Upon completion, students should be able to identify and discuss major international relationships, institutions, and problems. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
POS 110 POS History & Organization	03	00	00	03

Prerequisites: None

Corequisites: None

Component: None

This course covers the history and organization of the US Postal Service. Topics include postal service history, policies, philosophies, regulations, rules, and organization. Upon completion, students should be able to explain the history and organization of the US Postal Service.

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
POS 115 Processing and Distribution	03	00	00	03

Prerequisites: None

Corequisites: None

Component: None

This course covers the steps involved in reviewing, processing, and dispatching all classes and types of mail. Topics include quality control, platform operation, dispatch discipline, automation and mechanization, mail flow, manual operations, mail preparation, and premium service. Upon completion, students should be able to explain the flow of mail from sender to receiver and the importance of service standards.

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
POS 120 Postal Operations Support	03	00	00	03

Prerequisites: None

Corequisites: None

Component: None

This course covers in-plant support and customer services operations programs support. Topics include quality improvement, address management systems, transportation and networks, delivery services, mail processing, bar coding, and automation sort plans. Upon completion, students should be able to explain postal mechanization, machine distribution, operational planning, budgeting, and functional coordination with customer services.

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
POS 125 Postal Delivery/Collection	03	00	00	03

Prerequisites: None

Corequisites: None

Component: None

This course is an in-depth study of delivery, collection, and Function-Four review. Topics include carrier responsibilities, delivery and collection rules, time keeping, equipment and supplies, mail count and route inspection, parcel post, and Function-Four review. Upon completion, students should be able to explain the duties and skills required in the carrier crafts, the management of delivery services, and staffing and scheduling audits.

POS 130 POS Support & Finance	03	00	00	03
--	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course covers information and procedures necessary to administer financial control of post offices. Topics include protecting funds and accountable paper, recording receipts and disbursements, verifying accountability, postal service reports, and controlling receipts and receipt forms. Upon completion, students should be able to explain postal revenue receipt and control, budgeting, financial accounting/reporting, time keeping, travel regulations, and administrative services.

POS 135 Officer-in-Charge Training	03	00	00	03
---	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course covers the duties of a window clerk. Topics include window services, image and customer relations, one-on-one selling, postage meters, mail classifications, claims and inquiry, and daily financial reporting. Upon completion, students should be able to explain effective customer relations, retailing postal products, professional window service operations, and the duties of customer service representatives.

PSY 101 Applied Psychology	03	00	00	03
-----------------------------------	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course introduces the basic principles of psychology as they apply to daily life. Topics include perception, emotions, motivation, adjustment, behavior management, communication, and related topics that promote growth and development on the job and in one's personal life. Upon completion, students should be able to apply the principles learned in this class to everyday living. This course is intended for certificate and diploma programs.

PSY 110 Life Span Development	03	00	00	03
--------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course provides an introduction to the study of human growth and development. Emphasis is placed on the physical, cognitive, and psychosocial aspects of development from conception to death. Upon completion, students should be able to demonstrate knowledge of development across the life span and apply this knowledge to their specific field of study.

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
PSY 118 Interpersonal Psychology	03	00	00	03

Prerequisites: None

Corequisites: None

Component: None

This course introduces the basic principles of psychology as they relate to personal and professional development. Emphasis is placed on personality traits, communication/leadership styles, effective problem solving, and cultural diversity as they apply to personal and work environments. Upon completion, students should be able to demonstrate an understanding of these principles of psychology as they apply to personal and professional development.

PSY 141 Psychology of Death and Dying	03	00	00	03
--	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course presents psychological perspectives on death and dying. Topics include the culturally diverse aspects of death and the grieving process, adjustment mechanisms, interventions, and the psychological and ethical dimensions of death and dying. Upon completion, students should be able to demonstrate an understanding of the psychosocial aspects of death and dying.

PSY 150 General Psychology	03	00	00	03
-----------------------------------	-----------	-----------	-----------	-----------

Prerequisites: ENG 090 or Accuplacer Writing Score of 87;

RED 090 Or Accuplacer Reading Score of 80; or has taken the SAT with verbal and math scores at or above 450 each or ACT composite score of 18 or higher with the last five years.

Corequisites: None

Component: None

This course provides an overview of the scientific study of human behavior. Topics include history, methodology, biopsychology, sensation, perception, learning, motivation, cognition, abnormal behavior, personality theory, social psychology, and other relevant topics. Upon completion, students should be able to demonstrate a basic knowledge of the science of psychology. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

PSY 211 Psychology of Adjustment	03	00	00	03
---	-----------	-----------	-----------	-----------

Prerequisites: PSY 150

Corequisites: None

Component: None

This course introduces the study of the adjustment process focusing on contemporary challenges individuals must deal with in everyday life. Topics include theories of behavior, career choices, self-understanding, coping mechanisms, human relationships, intimacy, socio-cultural factors influencing healthy personal adjustment, and other related topics. Upon completion, students should be able to demonstrate an awareness of the processes of adjustment. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS		CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
PSY 237 Social Psychology	03	00	00	03					
Prerequisites: PSY 150 or SOC 210									
Corequisites: None									
Component: None									
This course introduces the study of individual behavior within social contexts. Topics include affiliation, attitude formation and change, conformity, altruism, aggression, attribution, interpersonal attraction, and group behavior. Upon completion, students should be able to demonstrate an understanding of the basic principles of social influences on behavior. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.									
PSY 239 Psychology of Personality	03	00	00	03					
Prerequisites: PSY 150									
Corequisites: None									
Component: None									
This course covers major personality theories and personality research methods. Topics include psychoanalytic, behavioristic, social learning, cognitive, humanistic, and trait theories including supporting research. Upon completion, students should be able to compare and contrast traditional and contemporary approaches to the understanding of individual differences in human behavior. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.									
PSY 241 Developmental Psychology	03	00	00	03					
Prerequisites: PSY 150									
Corequisites: None									
Component: None									
This course is a study of human growth and development. Emphasis is placed on major theories and perspectives as they relate to the physical, cognitive, and psychosocial aspects of development from conception to death. Upon completion, students should be able to demonstrate knowledge of development across the life span. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.									
PSY 243 Child Psychology	03	00	00	03					
Prerequisites: PSY 150									
Corequisites: None									
Component: None									
This course provides an overview of physical, cognitive, and psychosocial development from conception through adolescence. Topics include theories and research, interaction of biological and environmental factors, language development, learning and cognitive processes, social relations, and moral development. Upon completion, students should be able to identify typical and atypical childhood behavior patterns as well as appropriate strategies for interacting with children. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.									
PSY 246 Adolescent Psychology	03	00	00	03					
Prerequisites: PHY 150									
Corequisites: None									
Component: None									
This course provides an overview of the behavior patterns, life changes, and social issues that accompany the developmental stage									
of adolescence. Topics include developmental theories; physical, cognitive and psychosocial growth; transitions to young adulthood; and sociocultural factors that influence adolescent roles in home, school and community. Upon completion, students should be able to identify typical and atypical adolescent behavior patterns as well as appropriate strategies for interacting with adolescents. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.									
PSY 247 Psychology of Adulthood	03	00	00	03					
Prerequisites: PSY 150									
Corequisites: None									
Component: None									
This course examines the major theories and patterns of adult development from young adulthood to late adulthood. Topics include physical, cognitive, and psychosocial changes with an emphasis on relationships, family patterns, work roles, community interactions, and the challenges of each stage of adulthood. Upon completion, students should be able to demonstrate a knowledge of adult development and an ability to apply this knowledge to their own lives. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.									
PSY 249 Psychology of Aging	03	00	00	03					
Prerequisites: PSY 150									
Corequisites: None									
Component: None									
This course covers the particular needs and behaviors of the maturing adult. Emphasis is placed on psychosocial processes; biological and intellectual aspects of aging; adjustments to retirement, dying, bereavement; and the stereotypes and misconceptions concerning the elderly. Upon completion, students should be able to show an understanding of the psychological factors related to the aging process. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.									
PSY 255 Intro to Exceptionality	03	00	00	03					
Prerequisites: PSY 150									
Corequisites: None									
Component: None									
This course introduces the psychology of the exceptional person. Topics include theoretical perspectives, terminology, and interventions pertaining to various handicapping conditions as well as the resulting psychosocial adjustments. Upon completion, students should be able to demonstrate a basic understanding of the potentials and limitations of the exceptional person.									
PSY 259 Human Sexuality	03	00	00	03					
Prerequisites: PSY 150									
Corequisites: None									
Component: None									
This course provides the biological, psychological, and sociocultural aspects of human sexuality and related research. Topics include reproductive biology, sexual and psychosexual development, sexual orientation, contraception, sexually transmitted diseases, sexual disorders, theories of sexuality, and related issues. Upon completion, students should be able to demonstrate an overall knowledge and understanding of human sexuality. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.									

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
PSY 263 Educational Psychology	03	00	00	03

Prerequisites: PSY 150

Corequisites: None

Component: None

This course examines the application of psychological theories and principles to the educational process and setting. Topics include learning and cognitive theories, achievement motivation, teaching and learning styles, teacher and learner roles, assessment, and developmental issues. Upon completion, students should be able to demonstrate an understanding of the application of psychological theory to educational practice. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PSY 265 Behavioral Modification	03	00	00	03
--	----	----	----	----

Prerequisites: PSY 150

Corequisites: None

Component: None

This course is an applied study of factors influencing human behavior and strategies for behavioral change. Emphasis is placed on cognitive-behavioral theory, behavioral assessment, practical applications of conditioning techniques, and maintenance of adaptive behavior patterns. Upon completion, students should be able to implement basic learning principles to effect behavioral changes in self and others.

PSY 271 Sports Psychology	03	00	00	03
----------------------------------	----	----	----	----

Prerequisites: PSY 150

Corequisites: None

Component: None

This course provides an overview of the field of sports and exercise psychology. Topics include concentration, goal setting, arousal level, exercise psychology, mental imagery, confidence, and other issues related to sport and exercise performance. Upon completion, students should be able to demonstrate a knowledge of psychological factors involved in sport and exercise. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PSY 275 Health Psychology	03	00	00	03
----------------------------------	----	----	----	----

Prerequisites: PSY 150

Corequisites: None

Component: None

This course covers the biopsychosocial dynamics of stress and the maintenance of good health. Topics include enhancing health and well-being, stress management, lifestyle choices and attitudes, the mind-body relationship, nutrition, exercise, and fitness. Upon completion, students should be able to demonstrate an understanding of the psychological factors related to health and well-being. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PSY 281 Abnormal Psychology	03	00	00	03
------------------------------------	----	----	----	----

Prerequisites: PSY 150

Corequisites: None

Component: None

This course provides an examination of the various psychological disorders, as well as theoretical, clinical, and experimental perspec-

tives of the study of psychopathology. Emphasis is placed on terminology, classification, etiology, assessment, and treatment of the major disorders. Upon completion, students should be able to distinguish between normal and abnormal behavior patterns as well as demonstrate knowledge of etiology, symptoms, and therapeutic techniques. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

PTA 110 Introduction to Physical Therapy	02	03	00	03
---	----	----	----	----

Prerequisites: Departmental Approval

Corequisites: PHY 125 and PTA 130

Component: None

This course introduces the field of physical therapy including the history and standards of practice for the physical therapist assistant and basic treatment techniques. Emphasis is placed on ethical and legal considerations, universal precautions, vital signs, documentation, basic patient preparation and treatment skills, and architectural barrier screening. Upon completion, students should be able to explain the role of the physical therapist assistant and demonstrate competence in basic techniques of patient care.

PTA 120 Functional Anatomy	01	06	00	03
-----------------------------------	----	----	----	----

Prerequisites: PTA 110

Corequisites: PTA 140 and PTA 150

Component: None

This course provides an organized study of anatomy and kinesiology. Emphasis is placed on the integration of structure and function of the skeletal, articular, muscular, nervous, and circulatory systems to include gait analysis. Upon completion, students should be able to describe the components and demonstrate function of these systems as applied to physical therapy.

PTA 130 Physical Therapy Procedures I	01	06	00	03
--	----	----	----	----

Prerequisites: None

Corequisites: PHY 125 and PTA 110

Component: None

This course covers superficial thermal agents, massage, ultrasound, and documentation methods. Emphasis is placed on physiological effects, indications, contraindications, and skilled applications of heat, cold, ultrasound, massage, and documentation. Upon completion, students should be able to safely, correctly, and effectively apply these techniques and procedures.

PTA 140 Therapeutic Exercise	02	06	00	04
-------------------------------------	----	----	----	----

Prerequisites: PTA 110

Corequisites: PTA 120 and PTA 150

Component: None

This course covers muscle physiology, exercise concepts, testing, and applications to the spine and extremities. Topics include strength, endurance, flexibility, and exercise protocols and progressions. Upon completion, students should be able to demonstrate skill in applying therapeutic exercise principles for non-neurological conditions in a safe and appropriate manner.

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
PTA 150 Physical Therapy Procedures II	01	06	00	03
Prerequisites: PTA 130 Corequisites: PTA 120 and PTA 140 Component: None This course, a continuation of PTA 130, emphasizes the theory and practice of electrotherapy, ultraviolet, hydrotherapy, wound and burn care, and deep heating modalities. Topics include application of deep heating modalities, aquatic therapy, edema reduction, high and low frequency currents, and biofeedback. Upon completion, students should be able to apply these modalities and treatment techniques effectively and safely and demonstrate knowledge of physiological principles involved.				
PTA 160 Physical Therapy Procedures III	02	03	00	03
Prerequisites: PTA 150 Corequisites: PTA 170 and PTA 180AA Component: None This course introduces treatment and measurement techniques and discusses treatment programs for neuromusculoskeletal dysfunction and injury. Topics include soft tissue and joint dysfunction; assessment of girth, volume, length, sensation, pain, and muscle strength; and selected exercise programs. Upon completion, students should be able to measure strength and joint motion and identify methods to assess sensation, pain, volume, girth, length, and gait abnormalities.				
PTA 170 Pathophysiology	03	00	00	03
Prerequisites: None Corequisites: PTA 160 and PTA 180AA Component: None This course is a survey of basic pathology with emphasis on conditions most frequently observed and treated in physical therapy. Topics include etiology, pathology, manifestation, treatment, and prognosis. Upon completion, students should be able to explain repair processes, categorize diseases, define pathology, identify organ/body systems involved, and discuss treatment and prognosis.				
PTA 180 PTA Clinical Education Introduction	00	00	09	03
Prerequisites: Departmental Approval Corequisites: None Component: PTA 180AA, PTA 180BB This course introduces the physical therapy clinic in planned learning experiences and practice under supervision. Emphasis is placed on reinforcement of learned skills in direct patient care and communication. Upon completion, students should be able to demonstrate satisfactory performance in learned patient care skills, communication activities, and professional behaviors. PTA 180A must be completed satisfactorily before registering for PTA 180B.				
PTA 212 Health Care/Resources	02	00	00	02
Prerequisites: PTA 222 Corequisites: PTA 260 Component: None This course provides an overview of various aspects of health care delivery systems and the interrelationships of health care team mem-				

bers. Topics include health agencies and their functions, health care team member roles, management, and other health care issues. Upon completion, students should be able to discuss the functions of health organizations and team members and aspects of health care affecting physical therapy delivery.

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
PTA 222 Professional Interactions	02	00	00	02
Prerequisites: PTA 160 Corequisites: None Component: None This course is designed to assist in the development of effective interpersonal skills in the physical therapist assistant setting. Topics include reactions to disability, the grieving process, methods of communication, motivation, health promotion, disease prevention, and aging. Upon completion, students should be able to discuss and demonstrate methods for achieving effective interaction with patients, families, the public, and other health care providers.				

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
PTA 240 Physical Therapy Procedures IV	03	06	00	05
Prerequisites: PTA 160 Corequisites: None Component: None This course covers normal development, adult and pediatric/CNS dysfunction, spinal cord injuries, amputee rehabilitation techniques, and cardiopulmonary rehabilitation. Topics include neurology review, selected rehabilitation techniques, ADL and functional training, prosthetic and orthotic training, and environmental access. Upon completion, students should be able to demonstrate safe and correct application of selected rehabilitation techniques for neurological dysfunction, cardiopulmonary conditions, and amputations.				

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
PTA 260 Advanced PTA Clinical Education	00	00	30	10
Prerequisites: PTA 180AA and PTA 180BB Corequisites: PTA 212 Component: None This course provides full-time clinical affiliations for planned learning experiences and practice under supervision. Emphasis is placed on reinforcement of learned skills in direct patient care, communications, and professional behaviors. Upon completion, students should be able to demonstrate satisfactory performance as an entry-level physical therapist assistant and as a member of the physical therapy team.				

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
RAD 110 RAD Introduction & Patient Care	02	03	00	03
Prerequisites: Departmental Approval Corequisites: RAD 111 and RAD 151 Component: None This course provides an overview of the radiography profession and student responsibilities. Emphasis is placed on basic principles of patient care, radiation protection, technical factors, and medical terminology. Upon completion, students should be able to demonstrate basic skills in these areas.				

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
RAD 111 RAD Procedures I	03	03	00	04

Prerequisites: Departmental Approval

Corequisites: All courses required: RAD 110 and RAD 151

Component: None

This course provides the knowledge and skills necessary to perform standard radiographic procedures. Emphasis is placed on radiography of the chest, abdomen, extremities, spine, and pelvis. Upon completion, students should be able to demonstrate competence in these areas.

RAD 112 RAD Procedures II	03	03	00	04
----------------------------------	----	----	----	----

Prerequisites: All courses required: RAD 110, RAD 111 and RAD 151

Corequisites: RAD 121 and RAD 161

Component: None

This course provides the knowledge and skills necessary to perform standard radiographic procedures. Emphasis is placed on radiography of the skull, bony thorax, and gastrointestinal, biliary, and urinary systems. Upon completion, students should be able to demonstrate competence in these areas.

RAD 121 Radiographic Imaging I	02	03	00	03
---------------------------------------	----	----	----	----

Prerequisites: All courses required: RAD 110, RAD 111 and RAD 151

Corequisites: RAD 112 and RAD 161

Component: None

This course covers factors of image quality and methods of exposure control. Topics include density, contrast, recorded detail, distortion, technique charts, manual and automatic exposure control, and tube rating charts. Upon completion, students should be able to demonstrate an understanding of exposure control and the effects of exposure factors on image quality.

RAD 122 Radiographic Imaging II	01	03	00	02
--	----	----	----	----

Prerequisites: All courses required: RAD 112, RAD 121 and RAD 161

Corequisites: RAD 131 and RAD 171

Component: None

This course covers image receptor systems and processing principles. Topics include film, film storage, processing, intensifying screens, grids, and beam limitation. Upon completion, students should be able to demonstrate the principles of selection and usage of imaging accessories to produce quality images.

RAD 131 Radiographic Physics I	01	03	00	02
---------------------------------------	----	----	----	----

Prerequisites: All courses required: RAD 112, RAD 121 and RAD 161

Corequisites: RAD 122 and RAD 171

Component: None

This course introduces the fundamental principles of physics that underlie diagnostic X-ray production and radiography. Topics include electromagnetic waves, electricity and magnetism, electrical energy, and power and circuits as they relate to radiography. Upon completion, students should be able to demonstrate an understanding of basic principles of physics as they relate to the operation of radiographic equipment.

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
RAD 151 RAD Clinical Ed I	00	00	06	02

Prerequisites: Departmental Approval

Corequisites: All courses required: RAD 110 and RAD 111

Component: None

This course introduces patient management and basic radiographic procedures in the clinical setting. Emphasis is placed on mastering positioning of the chest and extremities, manipulating equipment, and applying principles of ALARA. Upon completion, students should be able to demonstrate successful completion of clinical objectives.

RAD 161 RAD Clinical Ed II	00	00	15	05
-----------------------------------	----	----	----	----

Prerequisites: All courses required: RAD 110, RAD 111 and RAD 151

Corequisites: RAD 112 and RAD 121

Component: None

This course provides additional experience in patient management and in more complex radiographic procedures. Emphasis is placed on mastering positioning of the spine, pelvis, head and neck, and thorax and adapting procedures to meet patient variations. Upon completion, students should be able to demonstrate successful completion of clinical objectives.

RAD 171 RAD Clinical Ed III	00	00	12	04
------------------------------------	----	----	----	----

Prerequisites: All courses required: RAD 112, RAD 121 and RAD 161

Corequisites: RAD 122 and RAD 131

Component: None

This course provides experience in patient management specific to fluoroscopic and advanced radiographic procedures. Emphasis is placed on applying appropriate technical factors to all studies and mastering positioning of gastrointestinal and urological studies. Upon completion, students should be able to demonstrate successful completion of clinical objectives.

RAD 211 RAD Procedures III	02	03	00	03
-----------------------------------	----	----	----	----

Prerequisites: RAD 122

Corequisites: All courses required: RAD 121, RAD 231, RAD 241 and RAD 251

Component: None

This course provides the knowledge and skills necessary to perform standard and specialty radiographic procedures. Emphasis is placed on radiographic specialty procedures, pathology, and advanced imaging. Upon completion, students should be able to demonstrate competence in these areas.

RAD 231 Radiographic Physics II	01	03	00	02
--	----	----	----	----

Prerequisites: RAD 171

Corequisites: All courses required: RAD 211, RAD 241 and RAD 251

Component: None

This course continues the study of physics that underlie diagnostic X-ray production and radiographic and fluoroscopic equipment. Topics include X-ray production, electromagnetic interactions with matter, X-ray devices, equipment circuitry, targets, filtration, and dosimetry. Upon completion, students should be able to demonstrate an understanding of the application of physical concepts as related to image production.

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
RAD 241 Radiation Protection	02	00	00	02

Prerequisites: All courses required: RAD 122, RAD 131 and RAD 171

Corequisites: All courses required: RAD 211, RAD 231 and RAD 251

Component: None

This course covers the principles of radiation protection and radiobiology. Topics include the effects of ionizing radiation on body tissues, protective measures for limiting exposure to the patient and personnel, and radiation monitoring devices. Upon completion, students should be able to demonstrate an understanding of the effects and uses of radiation in diagnostic radiology.

RAD 245 Radiographic Analysis	02	03	00	03
--------------------------------------	----	----	----	----

Prerequisites: RAD 251

Corequisites: RAD 261 and RAD 281

Component: None

This course provides an overview of imaging concepts and introduces methods of quality assurance. Topics include a systematic approach for image evaluation and analysis of imaging service and quality assurance. Upon completion, students should be able to establish and administer a quality assurance program and conduct a critical review of images.

RAD 251 RAD Clinical Ed IV	00	00	21	07
-----------------------------------	----	----	----	----

Prerequisites: All courses required: AD 122, RAD 131, RAD 171

Corequisites: All courses required: RAD 211, RAD 231, RAD 241

Component: None

This course provides the opportunity to continue mastering all basic radiographic procedures and to attain experience in advanced areas. Emphasis is placed on equipment operation, pathological recognition, pediatric and geriatric variations, and a further awareness of radiation protection requirements. Upon completion, students should be able to demonstrate successful completion of clinical objectives.

RAD 261 RAD Clinical Ed V	00	00	21	07
----------------------------------	----	----	----	----

Prerequisites: RAD 251

Corequisites: All courses required: RAD 245, RAD 281

Component: None

This course is designed to enhance expertise in all radiographic procedures, patient management, radiation protection, and image production and evaluation. Emphasis is placed on developing an autonomous approach to the diversity of clinical situations and successfully adapting to those procedures. Upon completion, students should be able to demonstrate successful completion of clinical objectives.

RAD 281 RAD Clinical Elective	00	00	03	01
--------------------------------------	----	----	----	----

Prerequisites: Department Approval

Corequisites: All courses required: RAD 245, RAD 261

Component: None

This course provides advanced knowledge of clinical applications. Emphasis is placed on enhancing clinical skills. Upon completion, students should be able to successfully complete the clinical course objectives.

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
RCP 110 Introduction to Respiratory Care	03	03	00	04

Prerequisites: Departmental Approval

Corequisites: None

Component: None

This course introduces the respiratory care profession. Topics include the role of the respiratory care practitioner, medical gas administration, basic patient assessment, infection control, and medical terminology. Upon completion, students should be able to demonstrate competence in concepts and procedures through written and laboratory evaluations.

RCP 111 Therapeutics/Diagnostics	04	03	00	05
---	----	----	----	----

Prerequisites: RCP 110

Corequisites: None

Component: None

This course is a continuation of RCP 110. Emphasis is placed on entry-level therapeutic and diagnostic procedures used in respiratory care. Upon completion, students should be able to demonstrate competence in concepts and procedures through written and laboratory evaluations.

RCP 113 RCP Pharmacology	02	00	00	02
---------------------------------	----	----	----	----

Prerequisites: None

Corequisites: RCP 110

Component: None

This course covers the drugs used in the treatment of cardiopulmonary diseases. Emphasis is placed on the uses, actions, indications, administration, and hazards of pharmacological agents. Upon completion, students should be able to demonstrate competence through written evaluations.

RCP 114 C-P Anatomy & Physiology	03	00	00	03
---	----	----	----	----

Prerequisites: A set of courses is required: BIO 163 and BIO 169

Corequisites: None

Component: None

This course provides a concentrated study of cardiopulmonary anatomy and physiology essential to the practice of respiratory care. Emphasis is placed on cardiovascular and pulmonary physiology, acid/base balance, and blood gas interpretation. Upon completion, students should be able to demonstrate competence in these concepts through written evaluation.

RCP 115 C-P Pathophysiology	02	00	00	02
------------------------------------	----	----	----	----

Prerequisites: A set of courses is required: BIO 163 and BIO 169

Corequisites: None

Component: None

This course introduces the etiology, pathogenesis, and physiology of cardiopulmonary diseases and disorders. Emphasis is placed on clinical signs and symptoms along with diagnoses, complications, prognoses, and management. Upon completion, students should be able to demonstrate competence in these concepts through written evaluations.

REL 110 World Religions	03	00	00	03

Prerequisites: None

Corequisites: None

Component: None

This course introduces the world's major religious traditions. Topics include Primal religions, Hinduism, Buddhism, Islam, Judaism, and Christianity. Upon completion, students should be able to identify the origins, history, beliefs, and practices of the religions studied. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

REL 111 Eastern Religions	03	00	00	03
----------------------------------	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course introduces the major Asian religious traditions. Topics include Hinduism, Buddhism, Taoism, Confucianism, and Shinto. Upon completion, students should be able to identify the origins, history, beliefs, and practices of the religions studied. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

REL 112 Western Religions	03	00	00	03
----------------------------------	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course introduces the major western religious traditions. Topics include Zoroastrianism, Islam, Judaism, and Christianity. Upon completion, students should be able to identify the origins, history, beliefs, and practices of the religions studied. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

REL 211 Intro to Old Testament	03	00	00	03
---------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course is a survey of the literature of the Hebrews with readings from the law, prophets, and other writings. Emphasis is placed on the use of literary, historical, archeological, and cultural analysis. Upon completion, students should be able to use the tools of critical analysis to read and understand Old Testament literature. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

REL 212 Intro to New Testament	03	00	00	03
---------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course is a survey of the literature of first-century Christianity with readings from the gospels, Acts, and the Pauline and pastoral letters. Topics include the literary structure, audience, and religious perspective of the writings, as well as the historical and cultural context of the early Christian community. Upon completion, students should be able to use the tools of critical analysis to read and understand New Testament literature. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

REL 221 Religion in America	03	00	00	03

Prerequisites: None

Corequisites: None

Component: None

This course is an examination of religious beliefs and practice in the United States. Emphasis is placed on mainstream religious traditions and non-traditional religious movements from the Colonial period to the present. Upon completion, students should be able to recognize and appreciate the diversity of religious traditions in America. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

RUS 111 Elementary Russian I	03	00	00	03
-------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course introduces the fundamental elements of the Russian language within a cultural context. Emphasis is placed on the development of basic listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written Russian and to demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

RUS 112 Elementary Russian II	03	00	00	03
--------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: RUS 111

Corequisites: None

Component: None

This course is a continuation of RUS 111 focusing on the fundamental elements of the Russian language within a cultural context. Emphasis is placed on the progressive development of listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written Russian and to demonstrate further cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

RUS 181 Russian Lab 1	00	02	00	01
------------------------------	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course is a continuation of RUS 111 focusing on the fundamental elements of the Russian language within a cultural context. Emphasis is placed on the progressive development of listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written Russian and to demonstrate further cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

RUS 182 Russian Lab 2	00	02	00	01
------------------------------	-----------	-----------	-----------	-----------

Prerequisites: RUS 181

Corequisites: None

Component: None

This course provides an opportunity to enhance acquisition of the fundamental elements of the Russian language. Emphasis is placed

on the progressive development of basic listening, speaking, reading, and writing skills through the use of various supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written Russian and to demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

RUS 211 Intermediate Russian I 03 00 00 03

Prerequisites: RUS 112

Corequisites: None

Component: None

This course provides a review and expansion of the essential skills of the Russian language. Emphasis is placed on the study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate effectively, accurately, and creatively about the past, present, and future. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

RUS 212 Intermediate Russian II 03 00 00 03

Prerequisites: RUS 211

Corequisites: None

Component: None

This course provides a continuation of RUS 211. Emphasis is placed on the continuing study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate spontaneously and accurately with increasing complexity and sophistication. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

RUS 221 Russian Conversation 03 00 00 03

Prerequisites: RUS 212

Corequisites: None

Component: None

This course provides an opportunity for intensive communication in spoken Russian. Emphasis is placed on vocabulary acquisition and interactive communication through the discussion of media materials and authentic texts. Upon completion, students should be able to discuss selected topics, to express ideas and opinions clearly, and to engage in formal and informal conversations. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

RUS 281 Russian Lab 3 00 02 00 01

Prerequisites: RUS 182

Corequisites: None

Component: None

This course provides an opportunity to enhance the review and expansion of the essential skills of the Russian language. Emphasis is placed on the study of authentic and representative literary and cultural texts through the use of various supplementary learning media and materials. Upon completion, students should be able to communicate effectively, accurately, and creatively about the past, present, and future. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

RUS 282 Russian Lab 4

Prerequisites: RUS 281

Corequisites: None

Component: None

This course provides an opportunity to enhance the review and expansion of the essential skills of the Russian language. Emphasis is placed on the continuing study of authentic and representative literary and cultural texts through the use of various supplementary learning media and materials. Upon completion, students should be able to communicate spontaneously and accurately with increasing complexity and sophistication. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

SEC 110 Security Concepts 03 00 00 03

Prerequisites: None

Corequisites: None

Component: None

This course introduces the concepts and issues related to securing information systems and the development of policies to implement information security controls. Topics include the historical view of networking and security, security issues, trends, security resources, and the role of policy, people, and processes in information security. Upon completion, students should be able to identify information security risks, create an information security policy, and identify processes to implement and enforce policy.

SEC 150 Secure Communications 02 02 00 03

Prerequisites: SEC 110 and NET 110 or NET 125

Corequisites: None

Component: None

This course provides an overview of current technologies used to provide secure transport of information across networks. Topics include data integrity through encryption, Virtual Private Networks, SSL, SSH, and IPSec. Upon completion, students should be able to implement secure data transmission technologies.

SEC 160 Secure Admin I 02 02 00 03

Prerequisites: SEC 110 and NET 110 or NET 125

Corequisites: None

Component: None

This course provides an overview of security administration and fundamentals of designing security architectures. Topics include networking technologies, TCP/IP concepts, protocols, network traffic analysis, monitoring, and security best practices. Upon completion, students should be able to identify normal network traffic using network analysis tools and design basic security defenses.

SEC 210 Intrusion Detection 02 02 00 03

Prerequisites: SEC 160

Corequisites: None

Component: None

This course introduces the student to intrusion detection methods in use today. Topics include the types of intrusion detection products, traffic analysis, and planning and placement of intrusion detection solutions. Upon completion, students should be able to plan and implement intrusion detection solution for networks and host based systems.

SEC 220 Defense-In-Depth	02	02	00	03					
Prerequisites: None									
Corequisites: SEC 160									
Component: None									
This course introduces students to the concepts of defense in-depth, a security industry best practice. Topics include firewalls, backup systems, redundant systems, disaster recovery, and incident handling. Upon completion, students should be able to plan effective information security defenses, backup systems, and disaster recovery procedures. This course is restricted to the Information Systems Security, the Information Systems Security/Operating Systems, and the Information Systems Security/Security Hardware curriculums.									
SEC 240 Wireless Security	02	02	00	03					
Prerequisites: SEC 110 and NET 175									
Corequisites: None									
Component: None									
This course introduces security principles and topics related to the wireless networking environment. Topics include network topologies, network protocols, security issues, and best practices for wireless environments. Upon completion, students should be able to design, setup, manage, and secure a wireless network.									
SEC 289 Security Capstone Project	01	04	00	03					
Prerequisites: SEC 220									
Corequisites: None									
Component: None									
This course provides the student the opportunity to put into practice all the skills learned to this point. Emphasis is placed on security policy, process planning, procedure definition, business continuity, and systems security architecture. Upon completion, students should be able to design and implement comprehensive information security architecture from the planning and design phase through implementation. This course is restricted to the Information Systems Security, the Information Systems Security/Operating Systems, and the Information Systems Security/Security Hardware curriculums.									
SLP 111 Ethics and Standards for SLPs	03	00	00	03					
Prerequisites: None									
Corequisites: None									
Component: None									
This course provides an overview of the theory, practice, and philosophy of speech-language pathology assisting. Topics include legal and ethical issues, scope of practice, multiculturalism, and diversity. Upon completion, students should be able to describe characteristics of the profession and identify components of safe and ethical practice.									
SLP 112 SLP Anatomy & Physiology	03	00	00	03					
Prerequisites: A set of courses is required: BIO 163 or BIO 169									
Corequisites: SLP 130 and SLP 140									
Component: None									
This course introduces the basic pathophysiology of the orofacial and thoracic structures of the human body. Emphasis is placed on the most commonly treated speech, language, and hearing disorders. Upon completion, students should be able to identify and describe basic pathophysiology related to the production of speech and hearing.									
SLP 120 SLPA Administrative Procedures and Management	02	00	00	02					
Prerequisites: None									
Corequisites: None									
Component: None									
This course covers organizational and functional skills appropriate to the speech-language pathology workplace. Emphasis is placed on scheduling, office etiquette, operation of office equipment, time management, and quality issues. Upon completion, students should be able to demonstrate correct operation of office equipment and work cooperatively and effectively within the speech-language pathology professional environment.									
SLP 130 Phonetics/Speech Patterns	02	02	00	03					
Prerequisites: Department Approval									
Corequisites: SLP 112 and SLP 140									
Component: None									
This course introduces the International Phonetic Alphabet and the categories of speech sounds, including voice, place, and manner of production. Emphasis is placed on the accurate transcription of normal and abnormal speech samples using the IPA and on the production of effective natural speech. Upon completion, students should be able to transcribe and categorize speech sounds and produce natural speech using appropriate breathing, articulation, and pronunciation.									
SLP 140 Normal Communication	03	00	00	03					
Prerequisites: Departmental Approval									
Corequisites: None									
Component: None									
This course introduces normal verbal and non-verbal communications across the life span, including appropriate social interaction with diverse populations. Topics include normal speech, language, and hearing in a multicultural society and an introduction to screening for normality and abnormality. Upon completion, students should be able to identify normal speech, language, and hearing patterns.									
SLP 191 Special Topics in SLP	01	00	00	01					
Prerequisites: Departmental Approval									
Corequisites: None									
Component: None									
This course provides an opportunity to explore areas of interest in SLPA. Emphasis is placed on subject matter appropriate to the program or discipline. Upon completion, students should be able to demonstrate an understanding of the specific area of study.									
SLP 211 Developmental Disorders	03	02	00	04					
Prerequisites: All courses required: SLP 111, SLP 112, SLP 130 and SLP 140									
Corequisites: All courses required: ASL 111, SLP 120 and SLP 212									
Component: None									
This course covers screening for speech, language, and hearing disorders; use of observational checklists; and administration of therapeutic protocols. Emphasis is placed on conditions commonly treated in speech-language pathology. Upon completion, students should be able to accurately administer screening tests and therapeutic protocols and identify characteristics of developmental speech, language, and hearing disorders.

SLP 212 Acquired Disorders	03	02	03	05
Prerequisites: SLP 111, SLP 112 and SLP 140				
Corequisites: SLP 120 and ASL 111				
Component: None				
This course is a continuation of SLP 211 and includes an introduction to clinical settings. Emphasis is placed on acquired conditions commonly treated in speech-language pathology. Upon completion, students should be able to accurately administer screening tests and therapeutic protocols and identify characteristics of acquired speech, language, and hearing disorders.				
SLP 220 Assistive Technology	01	02	00	02
Prerequisites: All courses required: SLP 111, SLP 130 and SLP 140				
Corequisites: SLP 211 and SLP 212				
Component: None				
This course introduces the preparation, use, and maintenance of selected communication equipment in the treatment of respective disorders. Emphasis is placed on the collaborative use of assistive equipment for speech, language, and hearing disorders. Upon completion, students should be able to instruct the patient and caregiver in the use and maintenance of assistive communication equipment.				
SLP 230 SLP Fieldwork	00	00	12	04
Prerequisites: SLP 211 and SLP 212				
Corequisites: SLP 231				
Component: None				
This course provides supervised fieldwork experience in speech-language pathology assisting in a minimum of two diverse sites. Emphasis is placed on the use of written protocols in providing patient care. Upon completion, students should be able to integrate ethical concepts into safe and effective clinical practice.				
SLP 231 SLP Fieldwork Seminar	03	00	00	03
Prerequisites: SLP 211 and SLP 212				
Corequisites: SLP 230				
Component: None				
This course provides an opportunity to discuss fieldwork experiences with peers and faculty. Emphasis is placed on management of clinical problems, conflict resolution, and job seeking and retention skills. Upon completion, students should be able to meet entry-level requirements for speech-language pathology assistants.				
SOC 210 Introduction to Sociology	03	00	00	03
Prerequisites: None				
Corequisites: None				
Component: None				
This course introduces the scientific study of human society, culture, and social interactions. Topics include socialization, research methods, diversity and inequality, cooperation and conflict, social change, social institutions, and organizations. Upon completion, students should be able to demonstrate knowledge of sociological concepts as they apply to the interplay among individuals, groups, and societies. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.				

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS

This course provides an opportunity for intensive reading and composition in Spanish. Emphasis is placed on the use of literary and cultural materials to enhance and expand reading and writing skills. Upon completion, students should be able to demonstrate in writing an in-depth understanding of assigned readings. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a pre-major and/or elective course requirement.										
SPA 281 Spanish Lab 3	00	02	00	01						
Prerequisites: SPA 182										
Corequisites: None										
Component: None										
This course provides an opportunity to enhance the review and expansion of the essential skills of the Spanish language. Emphasis is placed on the study of authentic and representative literary and cultural texts through the use of various supplementary learning media and materials. Upon completion, students should be able to communicate effectively, accurately, and creatively about the past, present, and future. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

SPA 282 Spanish Lab 4	00	02	00	01		02	06	00	04
Prerequisites: SPA 281					Prerequisites: ERG 115 and MAT 121				
Corequisites: None					Corequisites: None				
Component: None					Component: None				
This course provides an opportunity to enhance the review and expansion of the essential skills of the Spanish language. Emphasis is placed on the continuing study of authentic and representative literary and cultural texts through the use of various supplementary learning media and materials. Upon completion, students should be able to communicate spontaneously and accurately with increasing complexity and sophistication. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.					This course introduces the theory and practice of plane surveying. Topics include measuring distances and angles, differential and profile leveling, compass applications, topography, and mapping. Upon completion, students should be able to use/care for surveying instruments, demonstrate field note techniques, and apply the theory and practice of plane surveying.				
SPI 113 Intro. to Spanish Inter.	03	00	00	03	SRV 111 Surveying II	02	06	00	04
Prerequisites: SPA 211					Prerequisites: SRV 110				
Corequisites: None					Corequisites: None				
Component: None					Component: None				
This course introduces the field of interpreting, interpretation models, cognitive processes associated with interpretation, professional ethical standards, employment opportunities, and working conditions. Topics include specialized jargon, code of ethics, interpreter assessments/qualifications, and protocol associated with various settings. Upon completion, students should be able to explain the rationale for placement of interpreters and apply ethical standards to a variety of working situations.					This course introduces route surveying and roadway planning and layout. Topics include simple, compound, reverse, spiral, and vertical curves; geometric design and layout; planning of cross-section and grade line; drainage; earthwork calculations; and mass diagrams. Upon completion, students should be able to calculate and lay out highway curves; prepare roadway plans, profiles, and sections; and perform slope staking.				
SPI 114 Ana Skills Spanish Inter.	03	00	00	03	SRV 210 Surveying III	02	06	00	04
Prerequisites: SPA 211					Prerequisites: SRV 110				
Corequisites: None					Corequisites: None				
Component: None					Component: None				
This course is designed to improve cognitive processes associated with interpreting, listening, short-term memory, semantic equivalence, visual/auditory processing, thought organization and logic. Emphasis is placed on developing skills necessary to generate equivalent messages between Spanish and English. Upon completion, students should be able to consecutively interpret non-technical, interactive messages between Spanish and English.					This course introduces boundary surveying, land partitioning, and calculations of areas. Topics include advanced traverses and adjustments, preparation of survey documents, and other related topics. Upon completion, students should be able to research, survey, and map a boundary.				
SPI 213 Review of Grammar	03	00	00	03	SRV 220 Surveying Law	02	02	00	03
Prerequisites: SPI 113 AND SPI 114					Prerequisites: SRV 110				
Corequisites: None					Corequisites: None				
Component: None					Component: None				
This course is designed to review the common elements of Spanish grammar in oral and written form. Emphasis is placed on the fundamental grammatical concepts of the Spanish language. Upon completion, students should be able to demonstrate comprehension and correct usage of specified grammatical concepts in both oral and written form.					This course introduces the law as related to the practice of surveying. Topics include surveyors' responsibilities, deed descriptions, title searches, eminent domain, easements, weight of evidence, riparian rights, and other related topics. Upon completion, students should be able to identify and apply the basic legal aspects associated with the practice of land surveying.				
SPI 214 Intro to Translation	03	00	00	03	SRV 230 Subdivision Planning	01	06	00	03
Prerequisites: SPI 113 AND SPI 114					Prerequisites: All courses required: CIV 211, SRV 111 and SRV 210				
Corequisites: None					Corequisites: None				
Component: None					Component: None				
This course is designed to improve the quality of Spanish to English and English to Spanish translation. Emphasis is placed on the practice of Spanish to English and English to Spanish translation in a variety of prose styles. Upon completion, students should be able to demonstrate the usage and understanding of the processes involved in translating.					This course covers the planning aspects of residential subdivisions from analysis of owner and municipal requirements to plat layout and design. Topics include municipal codes, lot sizing, roads, incidental drainage, esthetic considerations, and other related topics. Upon completion, students should be able to prepare a set of subdivision plans.				

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS		CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS	
SRV 240 Topo/Site Surveying	02	06	00	04		SUR 134 Surgical Procedures II	05	00	00	05
Prerequisites: SRV 110						Prerequisites: SUR 123				
Corequisites: None						Corequisites: None				
Component: None						Component: None				
This course covers topographic, site, and construction surveying. Topics include topographic mapping, earthwork, site planning, construction staking, and other related topics. Upon completion, students should be able to prepare topographic maps and site plans and locate and stake out construction projects.						This course introduces orthopedic, neurosurgical, peripheral vascular, thoracic, cardiovascular, and ophthalmology surgical specialties. Emphasis is placed on related surgical anatomy, pathology, and procedures thereby enhancing theoretical knowledge of patient care, instrumentation, supplies, and equipment. Upon completion, students should be able to correlate, integrate, and apply theoretical knowledge of the course topics.				
SUR 110 Introduction to Surgical Technology	03	00	00	03		SUR 135 SUR Clinical Practice II	00	00	12	04
Prerequisites: Departmental Approval						Prerequisites: SUR 123				
Corequisites: SUR 111						Corequisites: SUR 134 and SUR 137				
Component: None						Component: None				
This course provides a comprehensive study of the operative environment, professional roles, moral/legal/ethical responsibilities, and medical communication used in surgical technology. Topics include historical development, professional behaviors, medical terminology, interdepartmental/ peer/patient relationships, pharmacology, anesthesia, incision sites, and physiology of wound healing. Upon completion, students should be able to apply theoretical knowledge of the course topics to the operative environment.						This course provides clinical experience with a variety of perioperative assignments to build skills required for complex perioperative patient care. Emphasis is placed on greater technical skills, critical thinking, speed, efficiency, and autonomy in the operative setting. Upon completion, students should be able to function in the role of an entry-level surgical technologist.				
SUR 111 Periop Patient Care	05	06	00	07		SUR 137 Prof Success Preparation	01	00	00	01
Prerequisites: Department Approval						Prerequisites: SUR 123				
Corequisites: SUR 110						Corequisites: SUR 134 and SUR 135				
Component: None						Component: None				
This course provides theoretical knowledge for the application of essential operative skills during the perioperative phase. Topics include surgical asepsis, sterilization/disinfection, and perioperative patient care. Upon completion, students should be able to demonstrate the principles and practices of aseptic technique, sterile attire, basic case preparation, and other relevant skills.						This course provides job-seeking skills and an overview of theoretical knowledge in preparation for certification. Topics include test-taking strategies, resume preparation, and interviewing techniques. Upon completion, students should be able to prepare a resume, demonstrate appropriate interview techniques, and identify strengths and weaknesses in preparation for certification.				
SUR 122 Surgical Procedures I	05	03	00	06		SUR 210 Advanced SUR Clinical Practice	00	00	06	02
Prerequisites: SUR 110 and SUR 111						Prerequisites: SUR 137				
Corequisites: SUR 123						Corequisites: SUR 211				
Component: None						Component: None				
This course introduces a comprehensive study of surgical procedures in the following specialties: general, gastrointestinal, obstetrical/gynecology, urology, otorhinolaryngology, and plastics/reconstructive. Emphasis is placed on related surgical anatomy, pathology, and procedures thereby enhancing theoretical knowledge of patient care, instrumentation, supplies, and equipment. Upon completion, students should be able to correlate, integrate, and apply theoretical knowledge of the course topics.						This course is designed to provide individualized experience in advanced practice, education, circulating, and managerial skills. Emphasis is placed on developing and demonstrating proficiency in skills necessary for advanced practice. Upon completion, students should be able to assume leadership roles in a chosen specialty area.				
SUR 123 SUR Clinical Practice I	00	00	21	07		SUR 211 Advanced Theoretical Concepts	02	00	00	02
Prerequisites: All courses required: SUR 110, SUR 111						Prerequisites: SUR 137				
Corequisites: SUR 122						Corequisites: SUR 210				
Component: None						Component: None				
This course provides clinical experience with a variety of perioperative assignments to build upon skills learned in SUR 111. Emphasis is placed on the scrub and circulating roles of the surgical technologist including aseptic technique and basic case preparation for selected surgical procedures. Upon completion, students should be able to prepare, assist with, and dismantle basic surgical cases in both the scrub and circulating roles.						This course covers theoretical knowledge required for extension of the surgical technologist role. Emphasis is placed on advanced practice in complex surgical specialties, educational methodologies, and managerial skills. Upon completion, students should be able to assume leadership roles in a chosen specialty area.				

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
TRF 110 Intro Turfgrass Cult & ID	03	02	00	04

Prerequisites: None

Corequisites: None

Component: None

This course provides an in-depth study of turfgrass. Topics include principles of reproduction, growth development, species characteristics, establishment and maintenance of golf courses and sports fields, and lawn applications. Upon completion, students should be able to identify turfgrass species through characteristics and reproductive stages and develop an establishment and maintenance plan for high quality turf areas.

WEB 110 Internet/Web Fundamentals	02	02	00	03
--	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course introduces basic markup language, various navigational tools and services of the Internet. Topics include creating web pages, using Internet protocols, search engines, file compression/decompression, FTP, E-mail, listservers, and other related topics. Upon completion, students should be able to deploy a web-site created with basic markup language, retrieve/decompress files, e-mail, FTP, and utilize other Internet tools.

WEB 111 Advanced Web Graphics	02	02	00	03
--------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: WEB 110

Corequisites: None

Component: None

This course is the second of two courses covering web graphics. Topics include graphics acquisition using scanners and digital cameras, graphics optimization, use of masks, advanced special effects, GIF animation, and other related topics. Upon completion, students should be able to create graphics optimized for size, graphic file type, properly converted from digitized sources and create useful animated graphics.

WEB 111 Advanced Web Graphics	02	02	00	03
--------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: WEB 110

Corequisites: None

Component: None

This course is the second of two courses covering web graphics. Topics include graphics acquisition using scanners and digital cameras, graphics optimization, use of masks, advanced special effects, GIF animation, and other related topics. Upon completion, students should be able to create graphics optimized for size, graphic file type, properly converted from digitized sources and create useful animated graphics.

WEB 115 Web Markup and Scripting	02	02	00	03
---	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course introduces client-side Internet programming using the current W3C-recommended presentation markup language and supporting elements. Topics include site management and development, markup elements, stylesheets, validation, accessibility, standards, browsers, and basic JavaScripting. Upon completion, students should be able to hand-code web pages with various media elements according to current markup standards and integrate them into websites.

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
WEB 120 Intro Internet Multimedia	02	02	00	03

Prerequisites: None

Corequisites: None

Component: None

This is the first of two courses covering the creation of Internet Multimedia. Topics include Internet multimedia file types, file type conversion, acquisition of digital audio/video, streaming audio/video and graphics animation plug-in programs and other related topics. Upon completion, students should be able to create Internet multimedia presentations utilizing a variety of methods and applications.

WEB 140 Web Development Tools	02	02	00	03
--------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course provides an introduction to web development software suites. Topics include the creation of web sites and applets using web development software. Upon completion, students should be able to create entire web sites and supporting applets.

WEB 180 Active Server Pages	02	02	00	03
------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: CIS 115

Corequisites: None

Component: None

This course introduces Active Server Programming. Topics include Jscript, VBScript, HTML forms processing, and the Active Server Object Model. Upon completion, students should be able to create and maintain Active Server applications.

WEB 182 PHP Programming	02	02	00	03
--------------------------------	-----------	-----------	-----------	-----------

Prerequisites: CIS 115

Corequisites: None

Component: None

This course introduces students to the server-side, HTML-embedded scripting language PHP. Emphasis is placed on programming techniques required to create dynamic web pages using PHP scripting language features. Upon completion, students should be able to design, code, test, debug, and create a dynamic web site using the PHP scripting language.

WEB 183 Perl Programming	02	02	00	03
---------------------------------	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course introduces students to the Perl Programming language. Topics include programming techniques using CGI script, input/output operations, sequence, iteration, selection, arithmetic operations, subroutines, modules, integrating database, pattern matching and other related topics. Upon completion, students should be able to design, code, test, and debug Perl language programs.

WEB 210 Web Design	02	02	00	03
---------------------------	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course introduces intermediate to advanced web page design techniques. Topics include effective use of graphics, fonts, colors, navigation tools, advanced markup language elements, as well as a

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
study of bad design techniques. Upon completion, students should be able to employ advanced design techniques to create high impact and highly functional web pages.				

WEB 220 Advanced Multimedia	02	02	00	03
------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: WEB 120 and WEB 140

Corequisites: None

Component: None

This is the second of two courses covering Internet multimedia. Topics include use of advanced Internet multimedia applications. Upon completion, students should be able to create interactive Internet multimedia presentations.

WEB 230 Implementating Web Serv	02	02	00	03
--	-----------	-----------	-----------	-----------

Prerequisites: NET 110 or NET 125

Corequisites: None

Component: None

This course covers website and web server architecture. Topics include installation, configuration, administration, and security of web servers, services and sites. Upon completion, students should be able to effectively manage the web services deployment lifecycle according to industry standards.

WEB 240 Internet Security	03	00	00	03
----------------------------------	-----------	-----------	-----------	-----------

Prerequisites: WEB 110 and CIS 110 or CIS 111 and SEC 110

Corequisites: None

Component: None

This course covers security issues related to Internet services. Topics include the operating system and the Internet service security mechanisms. Upon completion, students should be able to implement security procedures for operating system level and server level alerts.

WEB 250 Database Driven Websites	02	02	00	03
---	-----------	-----------	-----------	-----------

Prerequisites: DBA 110 and WEB 140

Corequisites: None

Component: None

This course introduces dynamic (database-driven) website development. Topics include the use of basic database CRUD statements (create, read, update and delete) incorporated into web applications, as well as in software architecture principles. Upon completion, students should be able to design and develop database driven web applications according to industry standards.

WLD 110 Cutting Processes	01	03	00	02
----------------------------------	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: WLD 115

Component: None

This course introduces oxy-fuel and plasma-arc cutting systems. Topics include safety, proper equipment setup, and operation of oxy-fuel and plasma-arc cutting equipment with emphasis on straight line, curve and bevel cutting. Upon completion, students should be able to oxy-fuel and plasma-arc cut metals of varying thickness.

WLD 112 Basic Welding Processes	01	03	00	02
--	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course introduces basic welding and cutting. Emphasis is placed on beads applied with gases, mild steel fillers, and electrodes

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
and the capillary action of solder. Upon completion, students should be able to set up welding and oxy-fuel equipment and perform welding, brazing, and soldering processes.				

WLD 115 SMAW (Stick) Plate	02	09	00	05
-----------------------------------	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: WLD 110

Component: None

This course introduces the shielded metal arc (stick) welding process. Emphasis is placed on padding, fillet, and groove welds in various positions with SMAW electrodes. Upon completion, students should be able to perform SMAW fillet and groove welds on carbon plate with prescribed electrodes.

WLD 116 SMAW (Stick) Plate/Pipe	01	09	00	04
--	-----------	-----------	-----------	-----------

Prerequisites: WLD 115

Corequisites: None

Component: None

This course is designed to enhance skills with the shielded metal arc (stick) welding process. Emphasis is placed on advancing manipulative skills with SMAW electrodes on varying joint geometry. Upon completion, students should be able to perform groove welds on carbon steel with prescribed electrodes in the flat, horizontal, vertical, and overhead positions.

WLD 121 GMAW (MIG) FCAW/Plate	02	06	00	04
--------------------------------------	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course introduces metal arc welding and flux core arc welding processes. Topics include equipment setup and fillet and groove welds with emphasis on application of GMAW and FCAW electrodes on carbon steel plate. Upon completion, students should be able to perform fillet welds on carbon steel with prescribed electrodes in the flat, horizontal, and overhead positions.

WLD 131 GTAW (TIG) Plate	02	06	00	04
---------------------------------	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course introduces the gas tungsten arc (TIG) welding process. Topics include correct selection of tungsten, polarity, gas, and proper filler rod with emphasis placed on safety, equipment setup, and welding techniques. Upon completion, students should be able to perform GTAW fillet and groove welds with various electrodes and filler materials.

WLD 141 Symbols & Specifications	02	02	00	03
---	-----------	-----------	-----------	-----------

Prerequisites: None

Corequisites: None

Component: None

This course introduces the basic symbols and specifications used in welding. Emphasis is placed on interpretation of lines, notes, welding symbols, and specifications. Upon completion, students should be able to read and interpret symbols and specifications commonly used in welding.

312 Course Descriptions

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
WLD 143 Welding Metallurgy	01	02	00	02

Prerequisites: None
 Corequisites: WLD 115
 Component: None
 This course introduces the concepts of welding metallurgy. Emphasis is placed on basic metallurgy, effects of welding on various metals, and metal classification and identification. Upon completion, students should be able to understand basic metallurgy, materials designation, and classification systems used in welding.

WLD 212 Inert Gas Welding	01	03	00	02
----------------------------------	-----------	-----------	-----------	-----------

Prerequisites: None
 Corequisites: None
 Component: None
 This course introduces inert gas-shielded welding methods (MIG/TIG). Topics include correct selection of consumable and non-consumable electrodes, equipment setup, safety, and welding techniques. Upon completion, students should be able to perform inert gas welding in flat, horizontal, and overhead positions.

	CLASS HRS	LAB HRS	CLINIC HRS	CREDIT HRS
WLD 261 Certification Practices	01	03	00	02

Prerequisites: All courses required: WLD 115, WLD 121 and WLD 131
 Corequisites: None
 Component: None
 This course covers certification requirements for industrial welding processes. Topics include techniques and certification requirements for prequalified joint geometry. Upon completion, students should be able to perform welds on carbon steel plate and/or pipe according to applicable codes.

WLD 262 Inspection & Testing	02	02	00	03
---	-----------	-----------	-----------	-----------

Prerequisites: All courses required: WLD 115, WLD 121 and WLD 131
 Corequisites: WLD 261
 Component: None
 This course introduces destructive and non-destructive testing methods. Emphasis is placed on safety, types and methods of testing, and the use of testing equipment and materials. Upon completion, students should be able to understand and/or perform a variety of destructive and non-destructive testing processes.

FULL-TIME FACULTY – AS OF JANUARY 2006

Dina Adams, Department Chair, Pharmacy Technology
Pharm.D., Campbell University

Saresa Aiken, Basic Skills Instructor
B.S., Fayetteville State University
M.S., Central Michigan University

Murray Alford, Jr., Mathematics Instructor
B.S., East Carolina University
M.Ed., University of North Carolina, Pembroke

Myra Allen-McGrew, Department Chair, Healthcare
Management Technology
M.A., Pfeiffer University - Health Education
M.B.A., Pfeiffer University

Frank Arnold, Industry Training Instructor
Diploma, Fayetteville Technical Community College
A.A., University of Maryland
B.A., University of Maryland

Emmanuel Ayoade, Biology Instructor
B.S., University of Ibadan
M.S., Saga University
Ph.D., Kagoshima University

Joyce Bain, Basic Skills Instructor

Margo Ogg, Certified Nursing Assistant Instructor
A.A., Sandhills Community College
B.A., Methodist College

Brian Oldham, Department Chair, Automotive Systems
Technology
A.A.S., Fayetteville Technical Community College

Shelly Oliver, Early Childhood Instructor
B.S., University of North Carolina, Pembroke
M.A., University of North Carolina, Pembroke

Ronald Orban, Mathematics Instructor
B.A., Pfeiffer College
M.S., Stephen F. Austin University

Sonja Osborne, Program Coordinator, Communication &
Developmental
B.S., University of the West Indies
M.A., Austin Peay State University

Patricia Ostlund, Biology Instructor
B.S., University of North Carolina, Pembroke
M.Ed., Fayetteville State University

Terry Packer, Industry Training Instructor

John Page, Mathematics Instructor
B.S., Fairleigh Dickinson University
M.S.E.E., Fairleigh Dickinson University

Rudy Pait, Information Systems Instructor
A.A.S., Bladen Community College
B.A., University of North Carolina, Pembroke
M.A., Webster University

John Parker, Chemistry Instructor
A.B., Elon University
D.D.S., Loyola University Chicago

Roni Paul, Practical Nursing Instructor
B.S., Winston-Salem State University

Janice Pavlikianidis, Business Services Instructor
B.A., Pembroke State University

Iлона Pelerin, Mathematics Instructor
B.S., Fayetteville State University
M.S., Fayetteville State University

Cheryl Perkins, Basic Skills Instructor
B.S., Fayetteville State University

Beata Peterson, English Instructor
M.A., East Carolina University

Joyce Pettengill, Emergency Services Instructor (Paramedic)

Bridget Petzold, Business Administration Instructor
B.A., Virginia Tech
M.B.A., University of Colorado

John Philligin, Jr., Division Chair, Building Trades
A.A.S., Fayetteville Technical Community College

Weldon Phillips, Mathematics Instructor
B.S., University of Mississippi
M.A., Central Michigan University
M.S., Fayetteville State University

James Pilgrim, Jr., Department Chair, Dental
B.S., North Carolina Central University
D.D.S., Howard University College of Dentistry

Mary Pines, Physical Edu. Instructor/Fitness Center
Coordinator
A.A.S., Fayetteville Technical Community College
B.S., Mt. Olive College

Mary Plott, Mathematics Instructor
B.S., Western Carolina University
M.S., University of North Carolina, Chapel Hill

Janice Powell, Culinary Technology Instructor
B.S., East Carolina University
M.Ed., University of North Carolina, Greensboro

Tenette Prevatte, Department Chair, Information Systems
Security
B.S., University of North Carolina, Wilmington
M.B.A., Campbell University

Shelly Pruitt, Mathematics Instructor
B.S., East Carolina University
M.A., East Carolina University

Phillip Pugh, Program Coordinator, Humanities
B.S., North Carolina State University
M.A., Abilene Christian University

Torie Quismundo, Computer Programming Instructor
B.S., East Carolina University
M.A., Webster University

Bala Raman, Mathematics Instructor
B.S., C.K.N. College, Cuddalore
M.S., Fayetteville State University

Lori Reckler, Basic Skills Instructor
B.S., Fayetteville State University

Andrea Richard, Basic Skills Instructor
B.A., East Carolina University

Susan Ritter, Mathematics Instructor
B.S., University of North Carolina, Greensboro
M.A., University of North Carolina, Greensboro

James Robinson, Social Science Instructor
B.A., North Carolina A & T University
M.S., University of Georgia

Michelle Robinson, Mathematics Instructor
B.S., Fayetteville State University
