Joel Andrews (Photo by Corbin)

FTI Musician-In-Residence

Harpist Joel Andrews, the newly appointed musician-in-residence at Fayetteville Technical Institute was introduced to the faculty, staff and students at an informal concert in the Paul H. Thompson lounge on Monday. Sponsored by the N.C. Arts Council and the Department of Community Colleges, Joel Andrews is also scheduled to play at the formal library dedication ceremony on Sunday.

A gifted and personable man, Andrews likes to play for "real" situations where people need music such as weddings and funerals.

A master harpist and former student of the great Carlos Salzedo, Andrews assumes a unique position as musician-in-residence among United States institute, college and university campuses.

Formerly at North Carolina State University, he has recently composed new music for his performances. He sees his position at FTI as a "rare" opportunity to play for young people who may not have heard his kind of music.

"It's like a tour, already set up for you," he said.

Andrews brings to the harp dynamic qualities and a vitality which is not usually associated with this delicate, almost feminine instrument.

He is well-known for the 30 new effects, or sounds, he has discovered for the harp. Fif-

teen of these appear in his original "Sea Suite" which he will perform at his first concert.

Andrews is also an organizer. In 1960, he directed and conducted the first national harp festival at the University of Texas with 50 harpists participating, including his famous teacher, Salzedo.

Andrews explained that his ability to play the harp in such a vast number of different ways is attributable to the fact that he comes in

direct contact with the strings of the instrument.

He noted that the harp is one of the world's most ancient instruments, dating back to about 6,000 B.C.

"But the interesting things is that we can create new and modern sounds on the harp. Such as the sounds being used by composers of electronic music today," he said. "The reason we can create so many effects is that we still play with our hands, and the instrument hasn't been mechanized."

He continued, "We can create sounds so complex that it would take an electronics studio a long time to synthesize them. In this area, I feel that we humans are still ahead of the computers."

The noted musician has always been a student of "psychic and spiritual things," and he is an amateur palmist. He has lectured to spiritual groups on the spiritual meanings of music. His uncle is the well-known astrologer, Gavin Arthur, of San Francisco.

Andrews and his wife Ann have two children, Myra, 8 and Michael, 6. His hobbies are few — photography and chess — because, as he stated, "I do so many different things with music that I don't need many hobbies."

6 Counties To Participate In Safety Seminar Here

9-12-71

Six counties will participate in a one-day seminar, "Implementation of the Occupational Safety & Health Act of 1970" conducted by state and federal officials from the Department of Labor Wednesday, Sept. 22, in the Exposition Center of the Downtowner Motor Inn.

Discussion topics include an explanation of the Safety Act, enforcement procedures, record-keeping, and state administration of this law.

Program speakers will include Frank Crane, N. C. Commissioner of Labor, Billy Creel, Safety Coordinator, N.C. Department of Labor,

and Quinton Haskin, Area Safety and Compliance Officer, U. S. Department of Labor.

Sponsored by the Fayetteville Area of Commerce and Fayetteville Technical Institute, enrollment fee is \$4 per person, which includes the luncheon and special materials. Checks should be made payable to the "Fayetteville Area Chamber of Commerce."

Management executives, supervisory personnel from business and industry in this area are urged to attend.

A list of personnel from each participating company and a check covering the registration fee should be mailed to Warren H. Fischer, Industrial Services Committee, Fayetteville Area Chamber of Commerce, P.O. Box 9, Fayetteville.

For further information, contact Director of Extension at Fayetteville Technical Institute at 484-4121.

THREE NEW courses have been added to the 122 other courses being offered during the winter quarter at Fayetteville Technical Institute.

For the first time, FTI will offer creative writing, mythology and modern drama, will be offered.

Registration will be held in LaFayette Hall on campus from 6 to 8 p.m. on Wednesday and Thursday and from 8:30 a.m. until noon on Friday.

More information can be obtained from FTI.

FTI Has First Summer School Graduation

Fayetteville Technical Institute's first summer school graduation ceremony was held Friday in the Paul Thompson Library. The 32 graduates included twelve-month program students who were awarded diplomas in practical nurse education and welding as well as those who received associate degrees in applied science.

The occasion also marked the completion of the first co-op program for F.T.I. students in civil engineering technology. Under this curriculum, pupils attended Fayetteville Tech for three quarters and spent one quarter in the field with an additional three quarters of classroom work following and another three months on-the-job.

Graduating with honors with a grade point average of 3.5 or better, in the practical nurse education curriculum were Mrs. Valeria R. Lugo, Mrs. Adriana

M. Nicholson, Mrs. Betty Jean Provost and Paul Sharpe. Among those graduating were: David Lee Brown, Dennis Ray Carter, Nell Lindsey Caldwell, Kathryn Lucille Canady, Diane Cox Carter, Kristi Jo Carper, Donald James Collier, Norma Enever, Elaine Webb Ferrell, Henry Wayne Haddock, Catherine Grace Hubbard, Neil Keith Kaiding, Valeria Ruth Lugo, Angus Carl Metzger, Henry Mullen, Marvin Wayne Melvin, Carolyn Burke McLaurin, Mona Lisa McLaurin, Ervin D. Oakes, Jullanne Parker, Adrina Marie Nicholson, Hester Elaine Powers, Betty Jean Provost, James Edgar Peck, James Stephen Pone, James B. Pittman, Johnny Raynor, Phillip Crenshaw Smith, Philip Deon Stephan, Paul Brantley Sharpe, Jr., Joene Martha Timmons and Lenora Topp.

HONOR STUDENTS: Three FTI students with a grade point average of 3.5 or better, in the practical nurse education curriculum were awarded honors at graduation Friday. Upon successfully writing the State Board Nursing Examination, they will become licensed practical nurses. From left to right they are: Mrs. Valeria R. Lugo, Mrs. Betty Jean Provost, and Mrs. Adriana M. Nicholson. *Sept. 1, 1971*

FTI Expects Record Enrollment

A record enrollment of 1,000 students in the daytime curricula is expected at Fayetteville Technical Institute this fall, according to FTI President, Howard Boudreau. Pre-registration and orientation for freshmen will be held Tuesday, Sept. 7, followed by a cookout on the campus for the new students. Wednesday marks the completion of freshmen registration and second year students will also report to the campus that day. The first class for the fall quarter will be Thursday, September 9th at 8:00 a.m.

A get-acquainted dance for all students will be held Tuesday evening at the new student lounge sponsored by the Student Government Association.

Fayetteville Technical Institute offers a variety of daytime programs including 14 separate associate degree curricula and eight diploma programs.

Another first at FTI this fall will be 10 evening courses carrying college credit toward an associate degree in general education. Registration for these evening classes will be held on Tuesday and Wednesday Sept. 7 and 8 from 7 to 9 p.m. in the administration building at Fayetteville Technical Institute.

FEEDBACK
REGISTRATION for general education classes on the college level for credit at Fayetteville Technical Institute will be held Sept. 7 & 8 from 7 to 9 p.m.
9/13/71

NEW STUDENTS — A welcoming tea was held in the Paul H. Thompson Library Student Lounge Sunday, August 29th for the incoming freshmen in the Associate Degree Nursing Curriculum at F.T.I. Assisted by the members of the ADN faculty and their second year classmates, the Executive Board of the Student Nurses' Association received forty young women and two men who will comprise the first year ADN class. Officers of the Association who make up the executive board are pictured left to right: Linda Bell, Reporter; Barbara Emery, Secretary; Ken Ledford, Vice President; Kendall Jamison, President and Dot Copas, Treasurer. *9/4/71*

FAYETTEVILLE TECHNICAL INSTITUTE OFF-CAMPUS EVENING CLASSES FOR ADULTS

REGISTRATION: Will be held September 9, 1971 between the hours of 7:00 to 9:30 P.M. at the schools listed below — NOT Fayetteville Technical Institute. REGISTRATION WILL BE ON A FIRST-COME, FIRST-SERVE BASIS.

Classes will be held on Monday and Thursday Evenings from 7:00 P.M. to 9:30 P.M. beginning September 13, 1971.

AUGUST in Fayetteville was on the cool and dry side, but only slightly.

Average temperature was 77.3 degrees and total rainfall was 4.37 inches. These figures compare with long-term averages of 78.2 degrees and 5.83 inches.

Highest temperature during the month was 93 degrees on the 15th and 16th. The lowest was 63 on the 29th. The coolest day had a high of 74 and the warmest night 73.

There were only nine days on which the thermometer reached 90 degrees, compared with an average of 17 days during the month in which the temperature reached 90 or better.

A **FOUR DAY** faculty workshop is being held this week at Fayetteville Technical Institute. Seventy instructors are participating in the program.

Three new curricula—dental hygiene, general education, and electrical maintenance and installation—will be offered this fall.

Registration for the general education program will be held Tuesday and Wednesday of next week from 7-9 p.m. In all, 10 separate courses carrying college credits will be offered to high school graduates at FTI this fall.

name and address of your employers during the past 12 months.

If you are filing for survivor's benefits, needed is the deceased worker's social security number; your number; the deceased's birth certificate; military discharge papers; death certificate; and a copy of your marriage certificate if you are the widow.

The above are not an all-inclusive list of proofs that may be required. Additional information can be obtained at the Social Security Office here, telephone 483-2661.

NEW FTI BUILDING—A 12,000 square foot administration building designed by Paul H. McArthur Jr. and Associates for Fayetteville Technical Institute is scheduled for bids Nov. 1. The new structure will house 32 offices for the administrative and secretarial staffs as well as the business office and board of trustees conference room. Forty-four additional parking spaces will be provided adjacent to the building. Completion date is set for July, 1972.

THE FAYETTEVILLE Metropolitan Housing Authority met today to, among other things, swear in one of its commissioners to a new five-year term and to elect a new chairman and vice-chairman. Dr. W. T. Holland Sr. was sworn in by Mayor Jack Lee to a new term. The election of new officers followed.

JAMES H. PERKINS, of Perkins Motors Inc. of Fayetteville, has been reappointed Cumberland County Area Chairman for the N. C. Automobile Dealers Association.

Perkins will act as liaison officer between new car and truck dealers in this area and NCADA and the National Automobile Dealers Association.

He will be responsible for promoting the various programs and activities of NCADA and NADA and will conduct a countywide membership campaign for both organizations this fall.

THIRTEEN residents of Cumberland County will participate in the 25th annual convention of the North Carolina State Employees Association in Wilmington Sept. 17-18.

The delegation representing 12 southeastern North Carolina counties will be led by L. W. Ezzell of Fayetteville, chairman of Area 4 of the association. Ezzell works with the Motor Vehicles Department.

Vice-chairman of the 12-county area is M. D. Varnedoe of Fayetteville, an employee of the Revenue Department.

An estimated 400 state employees from throughout North Carolina are expected to attend the convention. Total membership of the association is 17,200.

Besides the 13 Cumberland County state employees, Area 4 representation will include others from Lumberton and Pembroke.

IN MAY, Fayetteville Technical Institute's high school adult program graduated the largest class of men and women in North Carolina receiving their high school diplomas.

Registration for the new fall off-campus evening classes for adults will be held tonight from 7:30 p.m. at Cape Fear, Massey Hill, Reid Ross and 71st high schools, and J. S. Spivey Junior High School.

For further information, contact FTI. 9/9/71

WHO MAY ATTEND: Any adult 18 years of age or older not enrolled in day school, or a high school graduate of any age.

COST: All extension classes are free. Text books may be purchased in the F.T.I. bookstore.

CANCELLATION OF CLASSES: The Institute reserves the right to cancel any class prior to starting date if enrollment is not large enough to warrant such course, or if a qualified instructor is not available.

CERTIFICATES: Students attending 80% of class hours will receive a certificate of participation issued by Fayetteville Technical Institute.

HOURS: Classes will be held from 7:00 to 10:00 P.M. on Mondays and Wednesdays, and Tuesday and Thursdays. Length of class depends on subject and type of course offered and will last from two to three hours, two nights a week.

FOR FURTHER INFORMATION DIAL 484-4121

To Aid Community Colleges Musicians In Residence Named

SOUTHERN PINES — Devotees of classical music and the program chairman of countless organizations who seek talented performers for cultural, entertainment, church and school groups interested in music activities — all will welcome the two outstanding artists who will be "Musicians in Residence" at Sandhills Community College this year.

Dr. Raymond A. Stone, president of the college and Marion Rogers, chairman of the department of music, have announced that Joel Andrews, nationally known harpist, and Robert Guthrie, famed classical guitarist, are at Sandhills under a new program sponsored by the North Carolina Arts Council in cooperation with the State Department of Community Colleges.

Sandhills will share the two artists with two other schools of the community college system — guitarist Guthrie with Richmond Technical Institute in Hamlet, and harpist Andrews with Fayetteville Technical Institute in Fayetteville. The two musicians will not teach individuals or classes according to Dr. Stone, but will be available for concerts, lectures and demonstrations for students of the college and groups throughout the area during the 1971-72 academic year. "For instance," Dr. Stone said, "if a history class at Sandhills is studying a special period, say the Renaissance in Europe, Mr. Guthrie or Mr. Andrews can play music of that time."

Joel Andrews has been musician in residence at N. C. State University for the past two years. The holder of three

degrees and prize student of the great Carlos Salzedo and Alice Chailfoux, he has been praised by critics as a "master harpist," "a remarkable virtuoso" and for his "superb technique and expressive playing". He is considered the most versatile harpist in the country, having composed, arranged and performed music for solo harp, harp ensembles, dancers, poets, plays, radio and television.

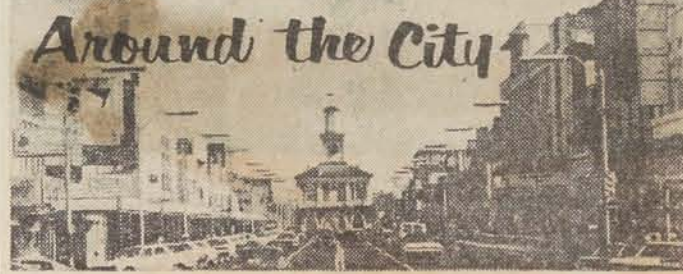

Mrs. Andrews is the daughter of philosopher Alan Watts and the couple has two children.

Guthrie is a graduate in music from the North Carolina School of the Arts and this past summer was with the School's summer session in Siena, Italy. A native of Texas, Guthrie began playing the guitar when he was twelve years old and for the past twelve years he

has combined study in California, Venezuela and Canada, with a distinguished career on the concert stage, radio and television. His record album, "Robert Guthrie — A guitar Recital" has received rave reviews.

Mr. and Mrs. Guthrie have one youngster.

Rogers says that the two musicians in residence will delight music lovers in the area and will also emphasize the importance of the department of music at the college. Sandhills provides two years of studies in voice and instrumental music for men and women who desire to continue at a senior institution for a Bachelor of Music Degree. Also, the college provides music classes in the division of adult education, and welcomes the participation of talented persons in the area in the Sandhills concert band and chorus.

MAJ. ROBERT L. Schroll, Special Services Officer at Ft. Bragg, was presented with a special citation award by the N. C. Recreation and Parks Society during its annual conference at Asheville this week.

The award is the highest professional recognition which any recreation worker can achieve based upon his contributions to the field of recreation.

A NEW SECTION of the North Carolina tax laws exempts \$5,000 of valuation of certain retired people from ad valorem taxes. The section becomes effective Jan. 1.

The first \$5,000 of the "appraised" value of a person's residence is exempted from taxes, provided the owner is 65 and retired, and his gross disposable income does not exceed \$3,500. If he is married, the combined disposable income of both must not exceed that figure.

County tax supervisor June Gorth said the new law becomes effective with the listing of taxes next January. It does not apply to the present taxes now due for 1971.

A PROGRAM of continuing education for supervisors and managers will begin Oct. 4 at

Fayetteville Technical Institute.

Courses in effective communications, principles of supervision, conference leadership and work measurements will be offered as a management development series.

Further details can be obtained by contacting the director of extension education at FTI.

THE FAYETTEVILLE OBSERVER
SUNDAY MORNING, SEPTEMBER 26, 1971

City Rose Garden Work Progressing After Set Back

In January of 1971 groundbreaking took place at the site of the Fayetteville Rose Garden, located on the northeast corner of the Fayetteville Technical Institute campus.

This beautification endeavor is a project of the Fayetteville Beautiful Board and is co-sponsored by the Fayetteville Rose Society. Since its inception the Rose Garden has become a community effort with business and industry donating some materials and many volunteers donating their time and talents to the cause.

Mrs. Vance K. Knight Jr., a member of the Fayetteville Rose Society, designed the garden which at its completion will feature approximately 25 varieties of roses. All roses are being donated by the Jackson and Perkins Rose Company of Medford, Oregon.

The preparation of the site began in January of 1971 with the Street Department personnel, at the direction of Jimmy Jones, superintendent, cultivating the soil to a depth of three feet. One-hundred and sixty loads of topsoil, all donated by local building contractors, were brought in to raise the garden to the desired level for proper drainage. Members of the Fayetteville Rose Society, assisted by personnel from the Recreation and Parks Department, at the direction of Bill Kendall, director, volunteered their

time and services in preparing the beds and the actual planting of the first shipment of 240 roses in March of 1971. The soil nutrients added were peat moss superphosphate, lime and fertilizers, some of which were donated by local businessmen. All fertilizer has been donated by local industry.

Unfortunately, the Fayetteville Rose Garden has not been without its problems. It became apparent by mid-summer that problems existed in the soil. The Rose Garden Committee, working with Dr. J. C. Wells, plant pathologist, North Carolina State University, A. L. Hatfield, agronomist, Soil Testing Division, North Carolina State Department of Agriculture, and Bruce Woodard, county extension agent, learned the soil contained a high level of zinc which was not revealed in the testing which took place prior to the planting. The only solution was to remove the roses in order to replace the contaminated soil with fresh soil. This was to be a time-consuming process which involved bringing in approximately 70 more loads of topsoil. Many hours of labor were provided by the City, Fayetteville Technical Institute students and maintenance staff and young men working on Saturdays. When the grading of the new soil is completed it will be treated for weed and nematode control.

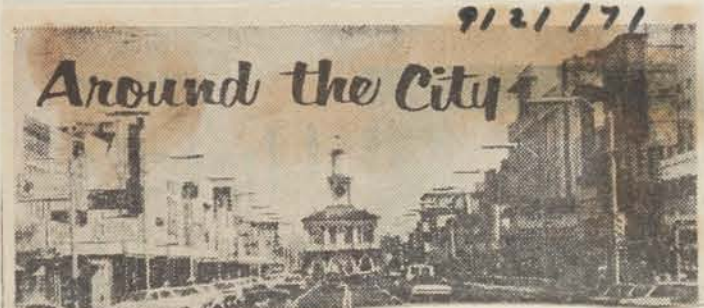

VISIT GARDEN — Mrs. Elliot Harris (left), president of the Fayetteville Rose Society, admires a blossom in the FTI Rose Garden. Shown with her are Mrs. William Miller (center), chairman of Fayetteville Beautiful, and Mrs. Vance Knight, who designed the garden.

"We will be ready for that second shipment of roses in the early spring," said Mrs. Harris, president of the Fayetteville Rose Society, and who with the help of Mrs. Vance Knight and Mrs. Dan Reaves, City Beautiful coordinator, have supervised all the work in the garden area. The evergreens, which will be planted this fall will be furnished by five local garden clubs. The dogwood trees will be memorial gifts as are two tree roses already planted in the garden.

"Our Fayetteville Rose Garden will feature a fountain in the center as its focal point which will be surrounded by beds of roses extending to the corners where evergreens and dogwood trees will be planted," said Mrs. William C. Miller Jr., chairman of the Fayetteville Beautiful Board.

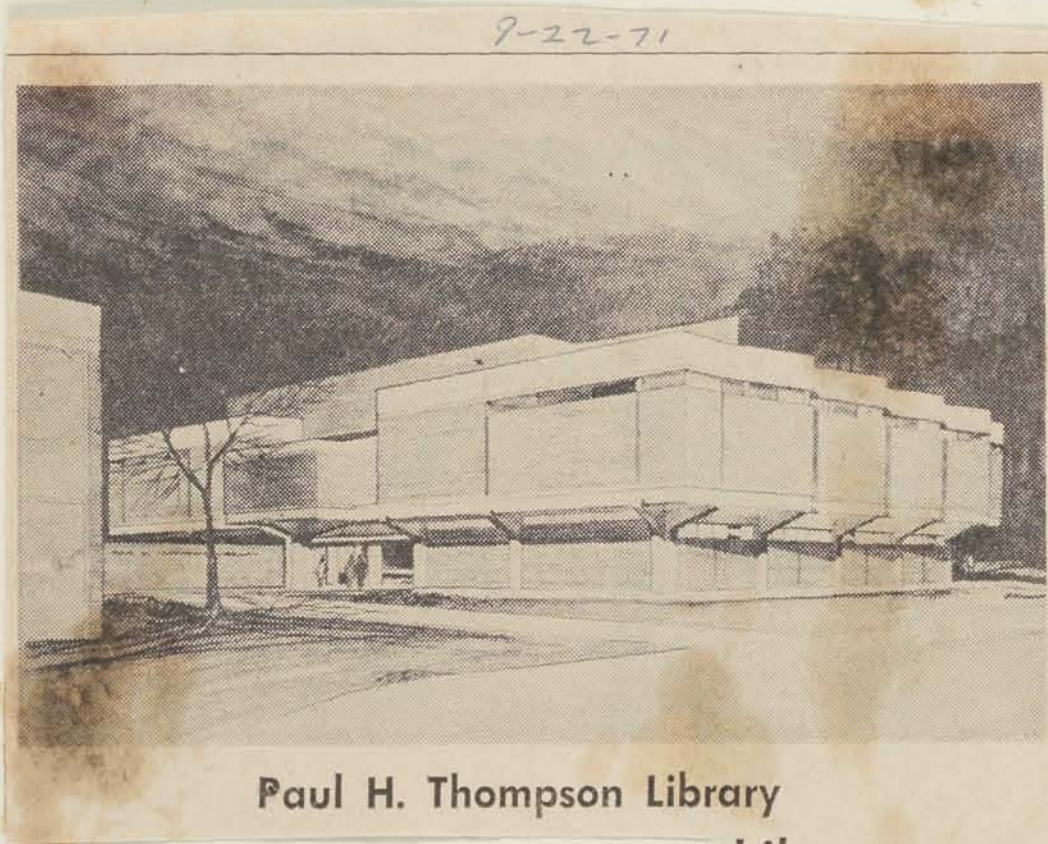

"We expect to work on this garden for several years and look forward to enjoying the fruits of our labor for many years to come," she added.

Around the City

DEDICATION ceremonies for the new Paul H. Thompson Library at Fayetteville Technical Institute will be conducted Sunday at 2 p.m. An open house will follow the ceremony.

Paul H. Thompson Library

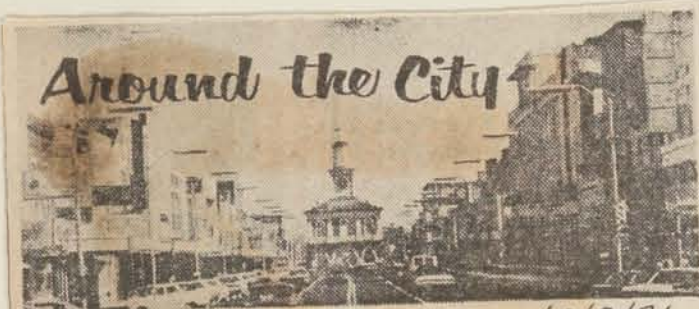

Library Dedication Set Sunday

Fayetteville Technical Institute's new Paul H. Thompson Library will be dedicated Sunday at 2 p.m.

Terry Sanford, president of Duke University and a former North Carolina governor, will deliver the dedication address. A highlight of the ceremony will be the unveiling of a portrait of Thompson by his daughters Ann, Cathy, Jane and Louise. It will be presented by Mrs. Thompson.

Other dignitaries scheduled to appear on the program are State Sen. John T. Henley of Hope Mills, FTI President Howard Boudreau, Thornton Rose, chairman of the FTI board of trustees, the Rev. Wayne Ham of Snyder Memorial Baptist Church, and harpist Joel Andrews, musician-in-residence at FTI.

Following the ceremony, an open house will be held. The public is invited.

Around the City

CUMBERLAND COUNTY RED CROSS will hold its 54th annual meeting Tuesday, Oct. 19, at 8 p.m. at the chapter headquarters, 807 Carol Street.

The meeting is being held to elect officers and board members for the coming year. Speaker for the meeting will be Charles H. Lockwood Jr. of Waynesville, national field volunteer for the Red Cross in western North Carolina. The public is invited.

NEWSPAPERBOY DAY will be celebrated Friday in Raleigh. This year's celebration will include a tour of Raleigh.

lunch and group pictures with Lt. Gov. Pat Taylor.

Attending from the Fayetteville Observer will be supervisors Grady Hales and Bob Marsh and carriers Mike Cain, son of Mr. and Mrs. R. W. Cain of 3213 Boone Trail, and Steven Cain, son of Mr. and Mrs. Tom Cain of 114 Brookwood Ave.

A REGISTERED NURSES refresher course will be sponsored by Fayetteville Technical Institute beginning Oct. 18.

Classes will meet Monday through Friday at Cape Fear Valley Hospital from 9 a.m. to

TECHNICAL
INSTITUTE**

PAUL H. THOMPSON

North Carolina lost one of her best and ablest citizens when Paul H. Thompson died in May of 1968. More than a successful businessman, he was truly public-spirited and he made lasting contributions to his community and his state.

Dedicated to education, he was chairman of the Board of Trustees of Fayetteville Technical Institute and was president of the State Association of Community Colleges.

Under his leadership, FTI became the first institute in North Carolina to become accredited, making the school an even more valuable asset to this city, region and state.

Thompson was a member of the State Department of Conservation and Development and the State Banking Commission. A longtime associate and friend of former Gov. Terry Sanford, he served during the Sanford administration as National Democratic Committeeman from North Carolina.

A native of Anson County, he was educated in the Wadesboro schools and graduated from the University of North Carolina. Following service in the United States Navy in World War II, he came to Fayetteville and entered the real estate business. He died when he was 49 years old.

The Paul H. Thompson Library at Fayetteville Technical Institute is a tribute to a man who was truly a friend of the school and a distinguished citizen of the state.

(Observer photo — Blount)

Example In Cooperation

Undoubtedly one of the finest examples of multiple agency cooperation in the Fayetteville community in some time was the recently completed project involving the training of 12 young women in the field of day care.

Just listing the agencies which participated in the training program tells a large part of the story. Fayetteville Technical Institute acted as coordinator for the different groups, and provided an instructor for the course; sponsors were the Division of Vocational Rehabilitation, the Department of Social Services, the Employment Security Commission and the Association of Parents of the Mentally Retarded; facilities for practical, supervised experience were provided by Mr. Sinai, John Wesley, Fayetteville Day Care and the Retarded Children's day care centers; and funding was arranged through the Donner Foundation.

The program has at least a two-fold result, if not more. The children who are being placed in day care centers in growing numbers need competent, loving and well-trained supervisors, and the evidence is that the graduates of the course have these qualities. And the young women themselves now have an opportunity to begin meaningful and productive careers which would not have been available to them otherwise.

An added benefit also was pointed out by the sponsors of the training. The day care course graduates are qualified to care for the elderly as well as the young and thus also can be placed in nursing home positions.

All the agencies which made the day care training program a reality deserve to be commended. And in regard to Fayetteville Technical Institute's role in the effort, it is but another example of how the state's community college system's diversity is helping cope with basic problems in North Carolina as opposed to educational frills.

Ed. Torral

New Devices Increase Importance Of Communicating With Patients

Sophisticated new electronic medical equipment has greatly increased the importance of a coordinated therapeutic team to communicate with the patient and his or her family.

That was the consensus of a panel of five representatives of various professional fields during a three-hour discussion Sunday at the Ft. Bragg Main Post Officers Club.

An audience composed primarily of area nurses attended the session on "The Right To Pursue the Will To Live and To Die" moderated by Dr. Hubert Batten, director of the Radiology Department at Cape Fear Valley Hospital.

Panel participants were Dr. Lynn Johnsen, internal medicine physician at Cape Fear Valley Hospital; Chaplain (Maj.) Lynn Jones of Ft. Bragg; Dr. Hans Lowenbach, professor of psychiatry at Duke University Medical Center in Durham; George R. Hicks, chairman of the Social Science Department at Fayetteville Technical Institute; and Ervin I. Baer, Fayetteville attorney.

Dr. Johnsen described the "electronic age" devices that can keep the patient's vital signs operating in heart and artery illnesses which she said were the leading cause of death, followed by auto accidents. "It is never easy to deal with a dying patient," she said. Dr. Johnsen said, however, she felt duty bound to inform the person of a terminal illness, especially if he is the wage earner in the family.

Chaplain Jones said in recent terminal illnesses in hospitals, "people seemingly have lost their right as human beings. Death has now been given over to the machine age." He said "the thing that scares everybody is eternal death" but Christians believe that "death is a vehicle to a new life". The chaplain concluded, "From my end, a man has a right to die."

Dr. Lowenbach said the psychiatrist rarely treats a dying patient but often has to deal with relatives or friends of a person who has died. He said these patients go through stages of anger and often concealed grieving that must be brought into the open. The

psychiatrist engages in dialogue in which the patient "can face himself and his problems," he said.

Hicks cited social changes in the last 20 years that remove relatives from virtually any contact with the body of the deceased person. He said, "I think we all have a right to ask to die with dignity... it's really our only choice." Hicks said he couldn't directly answer the question of a patient's right to live but in a changing role of death medical authorities must seek the attitude of the patient and the next-of-kin.

Baer said a patient who is physically and mentally capable has a legal right to know from his doctor his condition. If his condition makes him incapable, his next of kin should be informed, Baer said. The attorney said that a person has a legal right to be left alone and not receive medical treatment as long as the health of others is not affected.

Dr. Duncan Owen presented a patient, Richard M. Holland, who has recovered after an emergency situation in which his heart stopped five times. Holland said he had confidence in the medical team treating him and added, "I don't remember being afraid." He said that "when I awoke," he was informed he had suffered a heart attack.

During a question period, Chaplain Jones said he had no objection to therapeutic abortion since he believes that life begins at the birth of a baby. Miss M. D. Grinevich, director of Cape Fear Valley Hospital Nursing Services, introduced panel members.

Economic Stimulant Is Cited

The director of the N.C. Department of Community Colleges, speaking here Wednesday night, said the industrial training offered in the state's community colleges and technical institutes is "a powerful and constructive stimulant to economic expansion" in North Carolina.

Dr. Ben E. Fountain Jr. spoke to a meeting of the Fayetteville Area Industrial Development Corporation at Green Valley Country Club.

He stressed the interdependence between industries and the technical institutes and community colleges which helped the state's economy evolve from an agricultural base to an agricultural-industrial base.

"Nowhere is the parallel between industry and institution more conspicuous than right here in Fayetteville," said Fountain.

"There is no institution in our entire system that is more sensitive to the needs of industry than your own Fayetteville Technical Institute,"

INDUSTRY APPRECIATION — Dr. Ben Fountain Jr. (right), director of the Department of Community Colleges, addressed the Fayetteville Area Industrial Development Corp. Wednesday night as part of the Industry Appreciation Week observance here. With Fountain are (from left) James Thornton, president of FAIDC; J. R. Helmer of Burlington Industries; and John Bisco Jr. of Puralator. (Observer photo — Dick Blount)

etteville Technical Institute," said Fountain.

"In 1961 (the year Fayetteville Technical Institute opened) there were only two manufacturing industries which employed as many as 25 people."

"As of April 1971, there were eight industries in this category in Fayetteville which gave permanent and honorable employment to more than 5,000 people," he said.

Fountain told the industrial representatives that the system of community and technical schools were established to "serve the industry of North Carolina" and "retrain those deposed from their farms in a skill saleable in the industrial manpower market."

"Industrial training, occupational education... is and shall continue to be the heart of our community college system," said Fountain.

He also stressed the role industries must play in the community college system.

"Your involvement and participation is the best insurance that our community college system will continue to mature and that it will continue to serve the industry and people of North Carolina," said Fountain.

"It is you who have created the jobs and provided the incentive for people to come to our institutions," he said.

Fountain claimed the technical institutes were one of the state's major drawing cards in attracting industry to the state.

In the ten years since the technical schools opened in North Carolina, industrial investment in the state has increased 265 per cent, from \$235 million in 1960 to \$631 million in 1970, according to Fountain.

"I submit that our institutions have been a potent stimulant to North Carolina's industrial growth," said Fountain.

"I am quite certain that the impact of industrial training on our industrial growth will be even greater in the future," he concluded.

Multiple Agency Effort Trains Young Women As Day Care Workers

By JOANN MacMILLAN

Through an unprecedented program of multiple agency cooperation, 12 young women graduated from a course in day care training Friday morning at the Mt. Sinai Baptist Church Center.

Acting as a catalyst for the participating groups, Fayetteville Technical Institute agreed to provide an instructor for the course while the Division of Vocational Rehabilitation Offices, the Department of Social Services, the Employment Security Commission and the Association of Parents of the Mentally Retarded initiated the pilot program. Facilities for practical, supervised experience in working with children were arranged at Mt. Sinai, John Wesley, Fayetteville Day Care and the Retarded Children's Day Care Centers.

Ten of the 12 girls are graduates of vocational education programs of Fayetteville and Cumberland County School Systems. Two traveled daily from Clinton to participate in the course.

In addition to the unique combination of agency cooperation in setting up the program, a second milestone was set by the manner in which it was funded. Last January, noting an article on the Donner Foundation, Mrs. Rayetta Crook and Mrs. Jackie Barnett of the Parents' Agency decided to investigate the possibility of such a program in this area. They requested the involvement of the Donner Foundation in initiation and development of a day care project in Fayetteville.

CARING IS A LIVING THING — FTI student Dorothy Goings holds Crystal Lewis during story hour at Mt. Sinai Day Care Center. (Photo by McLendon).

There are eight Southeastern states participating in Donner projects in day care work, but the training offered in Cumberland County is the only program of its type in the United States. Union County joined Cumberland in the Donner Grant work, but again, their training is quite

different from the program which FTI and the other agencies have carried out in the Fayetteville area. Funds from the Donner Foundation are used for purchasing equipment and for program guidance. As director of the North Demonstration Day Care project under the Donner grant,

Mrs. Gertha Gibson administers these funds. "Our interest," she explained, "is to upgrade and improve day care programs in this area in the quality of care at non-profit, federally-approved centers. These graduates are a valuable asset to our community and can render much-needed services in assisting day care leadership."

"For the future, we should like to keep in mind the need for a male figure in day care work and involve some young men in a similar program. Many of the children attending the centers are doing so through special assistance due to the absence of the father in the home. As North Carolina day care centers move toward licensing, a higher ratio of adult to child in these programs will be required," concluded Mrs. Gibson.

Through the cooperative effort of the five agencies, many new job opportunities have been opened to the 12 graduates. Each of the girls has her own counselor from the Vocational Rehabilitation Office who will continue to act as her advisor until she is employed. Two of the dozen have been placed in positions following Friday's graduation. The others are available for employment and may be contacted through the Division of Vocational Rehabilitation.

Multiple Duties — "Emphasis on child care and development was an important part of the girls' training," commented Charles Smith of the Vocational Rehabilitation office. "However, these day care workers can also be placed in

BUDDING ARTISTS — At the Mt. Sinai Day Care Center children show their art work to Carolyn Allen, one of the FTI Day Care Worker students. The youngsters are, top, Mary Lunstford, Tonya Portis and Paul Haywood. Gerand McLaurin and Samantha Cook look up from their play to approve the exhibit. (Photo by McLendon).

nursing homes for the aged and would be particularly effective in helping look after home-bound adults. We even anticipate their assisting families who need someone to come into the home and cook the noonday meal and read to a bed-ridden elderly charge."

"There has been a need for a day care facility which would offer training such as this program has covered which ran from graduation in June for the high school girls through the early fall allowing the students to develop extra skills and added maturity. They now can enter the world of work when the job market is not flooded," said Smith.

Each of the girls has a special reason for embarking on this unique program. The

most ambitious of the group is a 32-year-old mother of five from Sampson County who "doesn't want to be on welfare." To further complicate her life, she has epilepsy which is successfully contained through medication.

She traveled daily from Clinton to Fayetteville to complete the day care program and now can become a contributing member of our working population. Instructor for the 423-hour course was Mrs. Juanita Floyd Bremer. A registered nurse, she is a graduate of the Medical College of South Carolina. She has had nursing experience in hospitals throughout the nation. Her last assignment before joining FTI was as staff nurse at

Womack Army Hospital at Ft. Bragg. In addition to the day care course, she teaches nurse's aide classes two evenings a week at Fayetteville Tech.

Assisting with instruction also was Mrs. Shirley Gunn from the Department of Social Services who has had special training in day care work.

Course Guide — "There was no course outline for a program such as this," said Mrs. Bremer, "so we took a guide from the college level courses in day care assistants' curriculum" and with the help of Mrs. Gibson, the local director of Donner project, adapted it to the goals for our group."

Classroom work emphasized personal grooming and hygiene, conversational abilities, coordination of home and student responsibilities, and the observance of child development, health and safety. Nutrition and creative activities for young children are also a part of the 75 hours spent in class, and 363 hours were devoted to practical experiences in the four participating day care centers. The most important aspects of the course, according to Mrs. Bremer, were social adjustment and success.

Although instructional care covers ages up to 12, at Mt. Sinai where the classroom work was held, the children ranged in age from 18 months to six years of age. Pastor Aaron Johnson of the church and Mrs. Mary Lewis, director of the day care center, proved helpful in providing space for the classes and the practical instruction.

"Children at Mt. Sinai's Center are from all parts of Fayetteville," observed Mrs. Lewis. "Some have parents who teach school or work outside the home, some are here through federal aid to dependent children. And some are here due to illness or some other unsettling aspect of the home environment. Mrs. Lewis is a graduate of Fort Valley State College of Georgia and is assisted by four teachers, four aides and a dietician. Hours are from 7 a.m. to 5:30 p.m., and follow the school year with the exception of summer vacation period where hours are sched-

uled to meet the needs of their clients.

Mt. Sinai Church, located on the Murchison Road, has the use of two small houses, one a former parsonage, and there the children are guided through the day's activities in a homelike atmosphere. There are outdoor and indoor games and toys. Meals are served in the educational section of the church building. Learning material is used both in the kindergarten area and the adjoining houses.

When asked if the students had been helpful to her, Mrs. Lewis promptly agreed. "They have saved us many a step with these lively little ones. It really takes an energetic and patient person to keep up with them!"

BRIDGING
COMMUNICATION
GAPS

SEMI-ANNUAL MEETING
NORTH CAROLINA COMMUNITY COLLEGE
PUBLIC INFORMATION OFFICERS
OCTOBER 21-22, 1971

HALIFAX COUNTY TECHNICAL INSTITUTE - Weldon, N.C.

THE NORTH Carolina State Highway Commission will hold a public hearing Dec. 9 on the proposed design of the improvement and extension of Grove Street from the U.S. 301 intersection to the NC 24, 53, and 210 intersection.

The hearing will be held at 1:30 p.m. in the Maintenance Office at the Davidson Office of the highway commission on Gillespie Street.

The hearing will consist of an explanation of the proposed design, the right of way requirements and procedures, and relocation advisory assistance.

The proposed design consists of widening Grove Street to 68 feet face to face of curb section which will transition into a 56 feet curb to curb bridge over the Cape Fear River and transition back to a 68 feet section at the intersection with Dunn Road.

From Dunn Road to Lock Trail the proposed section is two 24 feet roadways with a 16 feet median. From Lock Trail to the Atlantic Coast Line Railroad crossing at NC 210 and 53, the section will be 68 feet face to face of curb. Access will be controlled from North Broad Street to the NC 24, 53 and 210 intersection.

TEST DATES for competitive summer jobs in federal agencies were announced today by the U. S. Civil Service Commission.

The examination will be given on three dates—Jan. 8, Feb. 12 and March 11.

Complete information on opportunities available and instructions for filing may be obtained at Room 214 of the Federal Building on Green Street here.

MAYOR JACK LEE has proclaimed the week of Nov. 8-14 as "Youth Appreciation Week" in Fayetteville.

In his proclamation, Mayor Lee urged everyone to "have faith in the ability of today's youths as they assume responsible roles in the future of mankind."

MORE THAN 16,000 professional nursing students and 3,183 practical nursing students received the work experience portion of their training in Veterans Administration hospitals during 1971, Homer T. Ford, director of the Fayetteville VA Hospital, said today.

Ford said VA hospitals are affiliated for the training with 304 of all the schools of professional nursing in the nation. In cooperation with the Office of Economic Opportunity, the Red Cross, and other agencies, some 1,500 nurse's aids, assistants or technicians also trained in VA hospitals during 1971, Ford said.

From 1963 to 1971 the local VA hospital has afforded work experience training to 327 student nurses from Highsmith-Rainey Memorial Hospital, Fayetteville Technical Institute and Sandhills Community College and 10 student nurse aids from Reid Ross High School.

A. F. T. I. Lecture-Workshop Series Set

Fayetteville Technical Institute will present a lecture-workshop series with Joel Andrews conducting on five consecutive Monday evenings beginning at 8 p.m. in the Paul H. Thompson Library Student Union on the campus of the Institute. The lecture-workshops will be held on November 15-22-29 and on December 6-13.

Joel Andrews, harpist, composer and lecturer, will discuss "Musical Sound: Its Nature, Significance and Awareness."

In this thought-provoking series Mr. Andrews will attempt to answer the questions that most often embarrass music teachers. He will undertake a penetrating analysis of the fundamental nature of sound and music from many standpoints: acoustical, philosophical, sensory, psychic and spiritual.

Sunday Concerts Mr. Andrews, musician in residence, will present a series of Sunday afternoon concerts with the assistance of three other artists, Robert Guthrie, guitarist, Don Adecock, flutist, and Linda Booth, harpist.

Guthrie is musician in residence jointly with Andrews at Sandhills Community College in Pinehurst and is shared with Richmond Technical Institute. From Texas, he is a graduate of the Winston-Salem School of the Arts under Jesus Silva, protégé of Segovia.

Adecock is assistant director of music at North Carolina State University in Raleigh and Columbia University in New York City. He and Andrews played many concerts together while Andrews was musician in residence at NCSU in 1969-71.

Mrs. Booth is first harpist with the Charlotte Symphony

and received her bachelor's at the University of Texas under Joel Andrews. Going on for a master's at Ohio State, she has played with orchestras, solo concerts and chamber music in many parts of the country. She also teaches music and is the wife of Ronald Booth, pianist.

One critic has said that "to hear these fine artists in person is a rare and memorable experience."

All concerts will begin at 4 p.m. in the Student Lounge of the Paul H. Thompson Library. The following is the schedule November 14, solo program; January 30, duo program; March 19, harp and guitar program, and April 30, duo program. The public is invited to attend free of charge.

Altrusans Will Help At Cancer Clinic Sunday

Members of the Altrusa Club of Fayetteville will register those who report for examination at the oral detection clinic to be conducted by Cumberland County Dental Society and American Cancer Society Sunday, April 9.

The clinic will be held at Fayetteville Technical Institute from 2 to 5 p.m.

4/1/72

Candle-Making Class Scheduled At FTI

A Holiday Candle-Making Class will be held at Fayetteville Technical Institute on Monday evenings from 7 to 9 beginning November 15. Instructor for the twenty-hour course will be Kerwin Gillex. Registration begins Monday evening at 7:30 p.m., and students will be accepted on a first-come, first-served basis at Lafayette Hall on the F.T.I. campus.

11/12/71

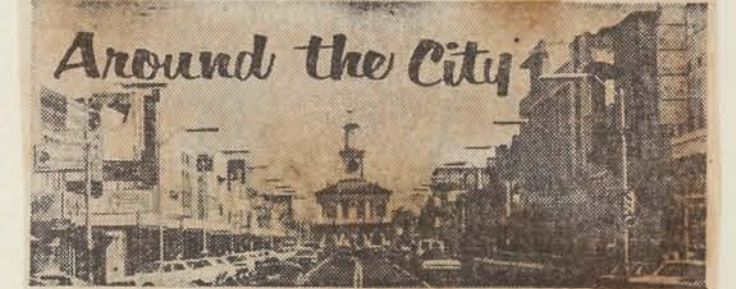

Robin Eleanor Wallace

Miss Wallace Elected

Robin Eleanor Wallace, daughter of Mr. and Mrs. James H. Wallace of Paisley Avenue, was elected "Miss F.T.I." by vote of the Fayetteville Tech students. A graduate of 71st High School, Robin is enrolled in FTI's Associate Degree General Education program and plans to enter the field of primary education. Her hobbies include skiing, softball, swimming and camping.

Miss Wallace was crowned at Fayetteville Tech's Harvest Ball by the 1971 Miss F.T.I., Lenora Topp. Finalists for the contest were: Cindy Lewis, first runnerup; Gloria Chance, second; Susan Bulla, third and Polly McNair, fourth runnerup.

11/12/71

HUNDREDS of Fayetteville residents were among the 2,196 persons who assembled Sunday at the Cumberland County Memorial Auditorium at the climax of the three-day convention of Jehovah's Witnesses from Southeastern North Carolina.

Sunday's feature was a sermon by D. J. Thomas, Bible lecturer, who spoke on the subject "Can You Live Forever - Will You?" Saturday's session was highlighted by the baptism of 47 new Jehovah ministers.

NANCY MELVIN, Kenneth Averette and Don Williams, second-year students in Environmental Engineering Technology at Fayetteville Technical Institute, are attending a three-day meeting of the American Water Works Association and Water Pollution Control Federation in Durham.

Each has been awarded a \$250 scholarship to FTI from the two organizations.

The two-year program in environmental engineering technology is the only one of its kind in North Carolina and is directed by Gordon Dwiggins of the FTI faculty.

receipts, expenses, inventory and depreciation of farm buildings and machinery and an inventory of feed, crops, and supplies. The book is available at any of the 149 offices located throughout the state, including Fayetteville.

STUDENT NURSE WEEK — Governor Bob Scott has proclaimed the week of November 8-13 as North Carolina Student Nurse Week. Here, Miss Brenda Jackson, second-year student in Fayetteville Technical Institute's Associate Degree Nursing Curriculum, is pictured holding "Baby Chick," one of the "Chase Family" of mannikins used to train FTI students in nursing skills. Brenda, president of the North Carolina Student Nurse Assn., representing 38 statewide nursing programs, was on hand for the signing of the proclamation in Raleigh.

11/12/71

BIOGRAPHY

Joel Andrews brings extensive background to this challenging series. Probably the most versatile harpist in America, he has composed and performed many styles of music for solo harp, harp ensembles, poets, dancers, plays, film scores, exhibitions, radio and television. He has toured in solo concerts and with his chamber groups adding flute, cello, and soprano. He has discovered many special effects on the harp and composed works incorporating them. He has appeared as soloist with orchestras and organized and directed 5 Harp Festivals, once drawing 50 harpists nationwide. He has given joint seminars with the noted authority on the wisdom of the east, Alan Watts. The present seminar was first given as a lecture for the College of San Mateo in California and since then many times for religious groups such as the Association for Research and Enlightenment and also for Universities and Centers for Human Potential. Since his debut in 1962, Joel Andrews has been captivating audiences all over the country. He has just finished a 2-year appointment as Musician-in-Residence at North Carolina State University where his concerts drew better than the chamber music series with its top artist. He has been one of the pioneers in breaking down the traditional barrier between performer and audience. He builds rapport by talking to the audience instead of printing program notes. His always including some of his own deeply moving compositions, has lifted warm informal presentation, together with his richly-varied programming, his audiences to musical heights. To hear this gifted artist is an unforgettable experience.

WHAT THE CRITICS ARE SAYING

"... lived up to his reputation as a master harpist." —Roseburg, Oregon

"The playing of Andrews with the orchestra and the conducting of Arthur Fiedler were superb—a sparkling performance." Robert Commanday, S. F. Chronicle

"Andrews' 'Sea Suite' is frighteningly realistic. easily the most absorbing on the program." Hertelendy, Oakland Tribune

"A unique facility to develop an immediate rapport with his audience; an artist of the highest calibre." Perry Watson, Director of Music, N.C.S.U.

"... an unqualified success... showed impeccable skill, a warm personality and contagious enthusiasm." Warren Martin, College of the Pacific

"Attired in a white Nehru suit, he walked on stage and captured his audience; a completely enjoyable and memorable evening." Oroville, California

CONCERT — Cumberland County's Friends of the Library will meet Sunday evening at Fayetteville Technical Institute in the Paul Thompson Library for a concert by Joel Andrews, musician-in-residence at FTI, and McKellar Israel, pianist. The public is invited to attend the 8 p.m. performance. There will be no charge for admission. Mr. Andrews will conduct a lecture-workshop Monday evening at 8 p.m., first in a series at Fayetteville Tech. The lectures and concerts will be held in the lounge of the Thompson library. (Photo — McLendon)

Manpower Grant Approved For FTI Training

A \$51,000 Manpower Development and Training Act grant has been approved by the Department of Health, Education and Welfare to provide classroom-type training for 20 unemployed persons here.

The 20 will receive training as general office clerks for a period of up to 35 weeks at Fayetteville Technical Institute. Actual federal cost of the project is \$51,703.

In addition, 500 persons in Lumberton, Ahoskie, Forest City, Asheville, Kinston and New Bern will receive educational motivation and orientation at a cost of \$100,000.

In Sanford, 15 persons will receive training as sheet metal workers at Central Carolina Technical Institute at a cost of \$31,209.

FTI Accredited

President Howard Boudreau is representing Fayetteville Technical Institute at the 76th annual convention of the Southern Association of Colleges and Schools and was notified Wednesday that the Commission on Colleges has re-affirmed accreditation of Fayetteville Tech for a period of ten years.

This action is the result of a year's study and self-evaluation by the institute itself and the report of a visiting committee of the association.

Fayetteville Technical Institute is the only technical institute in the North Carolina Community College System to be granted the decade of accreditation by the Southern Association. 12/3/71

Benson Native Is Counselor At FTI

Helen Winstead, a graduate of Benson High School and daughter of the Rev. Mr. and Mrs. J. David Capps of Coats, is now a counselor at Fayetteville Technical Institute.

She is described by another Benson native, Niles E. Compton, as a "decided asset to the counseling staff at FTI." Mr. Compton is the institute's dean of student affairs.

Mrs. Winstead leads a busy life both professionally and as a homemaker. She and her husband, Clarence J. Winstead, live in Glendale Acres, Fayetteville, with their four sons: Ronald, 13; Stephen, 12; Richard, 5; and Gregory, 4 months.

While at Pembroke State University in 1964, she was elected to Who's Who in American Colleges and Universities. She received her Master of Education degree in guidance and personnel services from North Carolina State University in 1968.

"To be of help and to act as a counselor is one of the most rewarding experiences I can ever ask for," she said of her

Helen Winstead

work at Fayetteville Technical Institute. She is a member of Peace Presbyterian Church, the National Education Association, the American Personnel and Guidance Association, and many other professional organizations.

THE BIOLOGY Department at Methodist College has an over-abundance of invertebrate specimens.

Phillip Crutchfield, assistant professor of biology, said his department will prepare labeled collections of some 100 or so specimens each for any high school science department that can make use of them—free of charge.

Crutchfield said his out-mast collection is overstocked. Rather than throw away the excess, he'd like to donate them to schools who can use them.

Interested parties should contact the college's Biology Department, telephone 455-7110, extension 247.

FAYETTEVILLE Technical Institute will receive \$63,810 in federal money to train 140 persons as station installers. The project is one of six Manpower Development and Training Act projects approved by the Departments of Labor and Health, Education and Welfare.

The training itself will be conducted by the State Vocational Education System.

Institute Is Developing An Intramural Program

Fayetteville Technical Institute's newly-appointed student activities coordinator, Alvin R. Pierce, has scheduled a variety of intramural sports including women's basketball during the winter quarter at FTI.

Each curriculum will be permitted two teams—a 15-man team and an eight-player team for the women. The season will start Dec. 15.

Other activities to be offered Fayetteville Tech students will be bowling, table tennis, billiards and chess. Participation will be from 4 to 6 daily. Karate classes will be taught from 3:30 to 4:30 p.m. daily.

Recreational cards, checkers and Spanish checks will be on the agenda.

"One of the hardest arrangements to make on a campus like ours," said Pierce, "is to provide recreational activities and sports for our students. Many of them commute from nearby towns and also hold down jobs so they are limited as to the time they can give. But these students really need the excitement of competitive sports, and the teams help provide a closeness among students within a curriculum. Although we have no gym at FTI, the new Paul Thompson Library building provides excellent facilities. We will also use the Honeycutt Recreation Building and gyms at several churches."

Pierce holds a B.S. degree in physical education from Johnson C. Smith University

of Charlotte, a member of Fayetteville Tech's student affairs department from A & T University. He has a graduate degree in vocational guidance from N. C. State University where he earned an additional certificate in education of the disadvantaged.

ALVIN R. PIERCE... student activities coordinator.

11/28/71

Thompson Library Dedicated

THE PAUL H. THOMPSON LIBRARY, dedicated recently at Fayetteville Technical Institute, provides space for a learning resource center and also for the bookstore and student union activities. Cafeteria service is also available in the building, which can be converted into a large Student Union or into a separate library. The structure was named for the late Paul H. Thompson, the first chairman of the institute's board of trustees, who provided leadership under which the Fayetteville institute became the first in the state to be accredited. Seating capacity in the library is 225, and the shelving capacity is for 25,000 volumes. Carrels are provided for viewing and listening, and additional audio-tutorial carrels are available. Films, filmstrips, tapes, slides, and microfilm will be used to supplement instruction.

LPN Students At FTI Pass Board Exam

Mrs. Ada Leonard, R.N., chairman of the FTI Licensed Practical Nursing Curriculum, has been notified that all Fayetteville Tech candidates passed their State Board Examination for licensure. The nine LPN students who graduated from FTI at the end of their fourth quarter of study in August were:

Mrs. Nell Caldwell, Kathryn Canady, Mrs. Diane Carter, Mrs. Norma Ennever, Mrs. Valeria Logo, Mrs. Carolyn McLaurin, Mrs. Adrina Nicholson, Helen Powers, and Mrs. Betty Provost.

A score of 900 is considered "outstanding" and seven of the nine candidates received grades above 940 with Mrs. Provost scoring 954.

Assisting Mrs. Leonard at FTI are Miss Claudia Dancy, R.N., and part-time instructor, Mrs. Eddy Barker, R.N. The current enrollment in licensed practical nurse education at Fayetteville Tech totals 29 females and, for the first time in Fayetteville Technical Institute's history, one male LPN student. The curriculum runs four quarters, or one full year with graduation for these students held at the conclusion of summer school.

Since the first class in 1961, 137 girls have graduated from the Practical Nurse Program. About half of these graduates are employed in the local area. "Some," observed Mrs. Leonard, "have used our training as a stepping-stone to their career goals and have continued their education and become registered nurses."

Sandhills Belts Fayetteville Tech

SOUTHERN PINES—Sandhills Community College had three players with 20 or more points and six in double figures as it completely demolished Fayetteville Technical Institute here Wednesday night, 132-65.

Joe Bridges led the winners with 26 points, while Darius McLaughlin and Marvin Thompson had 20 each. Philip Hancock added 18, Keith Harris 13 and Manzell Spencer 11.

Brown topped Fayetteville Tech with 15, Greg Melton added 13, Kelly Rogers 12 and Kenny Tyson 10.

FAY. TECH (65) — Tyson 10, Melton 13, Rogers 12, Evans 5, Brown 15, Harris 13, Spencer 11, Hancock 18, Bridges 26. SANDHILLS (132) — McLaurin 10, McLaughlin 20, Thompson 20, Harris 13, Bridges 26, Hancock 18, Tyson 10, Melton 13, Rogers 12, Evans 5, Brown 15. FTI (65) — Spencer 11, A. McLaughlin 10, McKay 5, Melton 13.

WALTER CROOM, chairman of Agri-Business Technology at Fayetteville Technical Institute, has been initiated into the Epsilon Pi Tau Fraternity at N. C. State University, an international honorary professional fraternity for industrial arts and industrial-vocational education.

Croom left FTI for the first eight months of this year for research for the State Department of Public Instruction. The project included the study of the professional development needs of educational personnel involved in the direction, supervision, and teaching aspects of occupational education programs in the state school system.

FAYETTEVILLE TECHNICAL INSTITUTE

FAYETTEVILLE TECHNICAL INSTITUTE offers the ASSOCIATE DEGREE in the following curricula:

- *ACCOUNTING
- *AIR CONDITIONING ENGINEERING TECHNOLOGY
- *AGRICULTURE BUSINESS
- *BUSINESS ADMINISTRATION
- *CIVIL ENGINEERING TECHNOLOGY
- *ELECTRIC DATA PROCESSING
- *ELECTRIC ENGINEERING TECHNOLOGY
- *GENERAL EDUCATION
- *INDUSTRIAL MANAGEMENT
- *MARKETING AND RETAILING
- *MECHANICAL ENGINEERING TECHNOLOGY
- *SECRETARIAL SCIENCE (TECHNICAL, MEDICAL, EXECUTIVE AND LEGAL)
- *ASSOCIATE DEGREE CURRICULA CARRYING FULL TRANSFER CREDIT

DIPLOMA CURRICULA:

- Air Conditioning Mechanics
- Architectural Drafting
- Automotive Mechanics
- Carpentry
- Electrical Maintenance
- Machine Shop
- Masonry
- Plumbing
- Practical Nursing
- Tool & Die
- Welding

TUITION

- Curriculum programs, full-time: \$32.00 per quarter
- Books - approximately \$50.00 per quarter
- Activity fee - \$20.00 annually for full-time students
- Extension and short courses in non-curricula area - NO CHARGE

CONCERT ARTIST — Joel Andrews of Fayetteville will make a special guest appearance Tuesday night when the Pembroke State University concert chorus presents its annual Christmas concert. Andrews is musician-in-residence at Fayetteville Technical Institute.

Andrews To Make Guest Appearance At PSU

PEMBROKE — The Pembroke State University concert choir will present its annual Christmas concert Tuesday, featuring a guest appearance by harpist Joel Andrews of Fayetteville. Andrews is currently musician-in-residence at Fayetteville Technical Institute. From 1969-71 he served in the capacity at N.C. State University.

Considered one of the most versatile harpists in America, he has composed and performed many styles of music for solo harp, harp ensembles, poets, dancers, plays, film scores, exhibitions, radio and television.

A lecturer, he has toured the nation, building rapport with his audience by talking to them while he performs.

Andrews has also organized and directed five harp festivals. Discoverer of many special effects on the harp, he has composed works incorporating them.

Comments from critics have been laudatory in their praise of him:

"Although in a white Nehru suit, he captivated his audience, a completely enjoyable and memorable evening." — Oroville, Calif.

"...lived up to his reputation as a master harpist." — Roseburg, Ore.

"...an artist of the highest calibre." — Perry Watson, director of music, N.C. State University.

Andrews will perform with the concert choir in its rendition of "A Ceremony of Carols." He will also play two solos, "Catalan Carol" and "I Wonder As I Wander."

Part three of the program will include three 19th century carols plus "O Rejoice, Ye Christians, Loudly," "Hodie" and "O Magnum Mysterium."

Members of the PSU concert choir from the Fayetteville area include: Robert Bell, Fayetteville; Martha Blalock, Fayetteville; Chris Boutselis, Maxton; Cindy Barney, Fayetteville; Fay Emanuel, Godwin; Nellie Freiwirth, Pembroke; Tom Fulp, Lumberton; Mary Garner, Red Springs; John Hancock, Robbins; Robin Harroun, Fayetteville; Jimmie Jacobs, Red Springs; Lida King, St. Paul; Jerry Lamb, Bladenboro; Linda Lloyd, Fayetteville; Cathy Locklear, Pembroke; Frances Martin, Fayetteville; Jeff McLeod, Fayetteville; Blanca Moore, Red Springs; Joyce Moore, Red Springs; Carol Morgan, Dunn; Dale Oxendine,

Pembroke; Miriam Oxendine, Pembroke; Steve Pate, Fayetteville; Vickie Ransom, Pembroke; Gail Smallwood, Fayetteville; Milton Smith, Bladenboro; Judy Syke, Fayetteville; Sharon Waldron, Whiteville; Lade Watkins, Fayetteville; Alice Wilson, Fayetteville; Caroline Wilson, Fayetteville; Jim Wilson, Laurinboro; and Vincent Winnies, Chadbourn.

A STUDENT organization affiliated with the Data Processing Management Association has been formed at Fayetteville Technical Institute, according to Paul Moro, president of the local organization. The organization will function as an educational group to promote understanding of data processing as a profession. It will serve as a means of furthering the careers of data processing students.

DPMA is the world's largest professional organization with over 27,000 members in 250 chapters in the U.S., Canada, the Philippines, and Saigon.

FTI 10-Year Accreditation Reaffirmed

President Howard Boudreau representing Fayetteville Technical Institute at the annual convention of the Southern Association of Colleges and Schools, was notified December 1 that the Commission on Colleges has reaffirmed accreditation of Fayetteville Tech for a period of ten years.

This action is the result of a year's study and self-evaluation by the institute itself and the report of a visiting committee of the association.

Fayetteville Technical Institute is the only technical institute in the North Carolina Community College System to be granted the decade of accreditation by the Southern Association.

Practical Nurse Students Pass Examinations

Mrs. Adel Leonard, R.N., chairman of the FTI Licensed Practical Nursing Curriculum, has been notified that all Fayetteville Tech candidates passed their State Board Examination for licensure. The nine LPN students who graduated from FTI at the end of their fourth quarter of study in August were:

Mrs. Nell Caldwell, Kathryn Canady, Mrs. Diane Carter, Mrs. Norma Ennever, Mrs. Valeria Lugo, Mrs. Carolyn McLaurin, Mrs. Adrina Nicholson, Helen Powers, and Mrs. Betty Provost.

A score of 500 is considered "outstanding" and seven of the nine candidates received grades above 540 with Mrs. Provost scoring 654.

Assisting Mrs. Leonard of FTI are Miss Claudia Dancy, RN, and part-time instructor, Mrs. Edith Barker, RN. The current enrollment in licensed practical nurse education at Fayetteville Tech totals 29 females and, for the first time in Fayetteville Technical Institute's history, one male LPN student. The curriculum runs for four quarters, or one full year with graduation for these students at the conclusion of summer school.

Since the first class in 1961, 157 girls have graduated from the Practical Nurse Program. About half of these graduates are employed in the local area. "Some," observed Mrs. Leonard, "have used our training as a stepping stone to their career goals and have continued their education and become Registered Nurses."

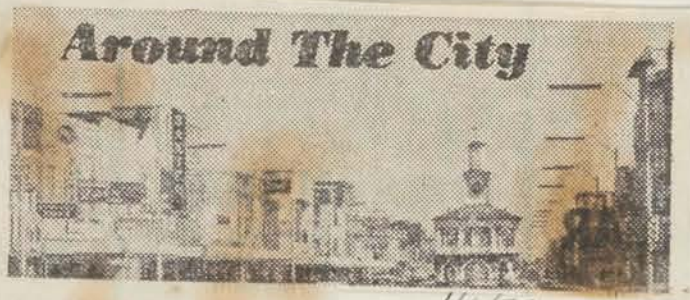

REAL COOL GREETING — Fayetteville Technical Institute President and Mrs. Howard E. Boudreau found a real cool greeting as they arrived at the Paul Thompson Library and Student Union for the annual Fayetteville Tech Christmas dinner and dance Wednesday evening. Despite the record-breaking

heat, FTI air conditioning and refrigerations students, under the direction of instructor Pete Oakes, fashioned the long-haired snowman for the occasion. Because of the unseasonable warm weather, the snowman lost considerable weight during the evening. (Photo — Kim Smith)

THE CUMBERLAND County Health Department has asked that persons using county garbage landfill disposal areas dump only in the designated places as pointed out by signs.

Due to the increasing volume encountered at all sites, health director Dr. Carl Hammer said the public's cooperation is needed in placing refuse in the properly designated areas at each of the sites.

REGISTRATION for Fayetteville Technical Institute's evening classes will be held Friday night from 7-9 p.m. These classes are open to anyone 18 years or older on a first-come, first-served basis. Off-campus adult classes will hold registration Monday from 7-9 p.m. at Cape Fear, Massie Hill, Reid Ross, and 71st High schools and J.S. Spivey Junior High School.

THREE TECHNOLOGIES LEADING THE WAY
TO THE SEVENTIES AND BEYOND . . .**

Agricultural Business - Technical training for a career in marketing, processing, and distribution of farm goods and management in farm related businesses.

Air Conditioning Engineering Technology - Two years of intense study designed to train the student in controlled environmental techniques essential to tomorrow's industries, businesses and housing.

Mechanical Engineering Technology - A two-year curriculum concerned with design, procedures, analysis and testing of mechanical components of industrial equipment.

Each curriculum offers the Associate Degree and carries transfer credit to four-year institutions.

Indian Student Adding New Western Languages

By JOANN MAC MILLAN
A pretty Indian student at F.T.I., Renu Kawatra Nijhawan is adding the language of the computer to her repertoire of linguistic accomplishments. In addition to her native tongue, Hindi, she has a command of Punjabi and English and is now learning Cobol, Fortran and PL-1 as an electronic data processing major at Fayetteville Tech.

"And doing extremely well in her subjects," observed instructor Ronald Christie, chairman of the EDP department.

Fayetteville Tech now houses a NCR Century 100 stand-alone computer which enables the students to work directly with the machine rather than via telephone lines to the Research Triangle's Computation Center which was the former procedure.

"Now," explained instructor Christie, "when there are errors, the student realizes them immediately and is responsible for the information himself rather than going through another person which takes too much time. This also avoids waiting for lines to clear. We can work on our own computer immediately and conveniently."

Renu is married to Dr. Inder P. Nijhawan, assistant professor of economics at N.C. State's Fort Bragg campus. She and her husband came to Cumberland County in 1970 with their young son, Ashish. She is a graduate of St. Mary's Academy and Raghu Naih College of India.

"In Chapel Hill where we lived before coming to this

area, I used to help my husband some with his economics research. When we arrived in the Fayetteville area, I decided to learn how to use the computer myself," explained the student.

Renu's bright silk sari proves a contrast in attire on a campus where the coeds are generally found wearing slacks or jeans. She speaks English with a delightful touch of Irish brogue. "That's because so many of my teachers at St. Mary's were Irish priests," Renu said. "They used to tell us to think in English, think in English. And soon we did. That's why attending class at FTI is really not difficult at all as far as the language is concerned."

Life, she admits, is quite different for her here compared to the kind of life she would live in India. "There I would have many servants. Here, I must clean, cook and look after our three-year-old son as well as study. It has been something of an adjustment. I also had to learn to drive. At first, I was just simply stuck because I could not drive. Now I drive everywhere."

The adjustment appears to be quite successful. While they were living in Chapel Hill, Renu participated in many activities including modeling. She also appeared on Betty Elliott's television show, visited elementary schools and attended civic programs. Her hobbies are badminton, netball, boating, sewing and interior decorating.

The recent unrest in India has given her some grave

Mrs. Nijhawan

concern for her parents' well-being. "They live," she said, "in the shadow of the Taj Mahal. It is the most beautiful sight I've ever seen — one of the 7 wonders of the world. And it shines in the moonlight like a great beacon — which unfortunately would make it an easy target for bombers."

It will be another year or two before they will return to India. In the meantime, Renu will have completed her associate degree in electronic data processing at Fayetteville Technical Institute and plans to be a computer programmer.

THE CUMBERLAND County Blind Association needs help in transporting local blind persons to and from the Cumberland Center for the Blind on S. Cool Spring Street. The blind center, open on Tuesdays, Wednesdays and Thursdays, provides a chance for the blind to engage in activities which interest them but are not otherwise available. If you can help, telephone 488-0139.

FOR THE PAST 41 years, the N.C. Forest Service has been growing forest tree seedlings which are sold to landowners in the state at cost. This year, the service's nurseries are growing their one billionth seedling, according to Frank Cain, Cumberland County Forest Ranger.

Services in organizing county and statewide youth projects. Approximately 100 persons attended the meeting to discuss the upcoming horse-riding clinic scheduled in March. Heird will conduct the clinic. THE TIMELY topic of Fayetteville Technical Institute's "Great Decisions" series tonight will be "Our China Policy." The speaker will be Dr. Lawrence Kessler of the University of North Carolina's history department. Dr. Kessler's teaching specialty is East Asian history — particularly pre-modern, and modern, China history. A graduate of Chicago University, Dr. Kessler held a Foreign Area Fellowship for study in Taiwan from 1964-66. The public is invited to attend tonight's program at 7:30 at FTI.

GOOD NEIGHBORS — Fayetteville Technical Institute's chapter of Data Processing Management Association was organized to promote better understanding of data processing as a profession. However, recently they promoted the cause of "good neighbors" by volunteering to paint the gymnasium at St. Patrick's School on Ft. Bragg Road. The volunteers were Ron Christie, Trox Poland, Paul Moro, H. D. Grantham, Ken Arnold, Kathy Hall, Keith Hooker, David Beckner, Robert Oliver, Bobby Crossen, Linda Mantley, Yoneko Addleton, Ray Bowles, Clint Nordan, Mike Morris and Joan Mosher. (Observer Photo — Blount)

1/13/72

The American College of Life Underwriters has announced that 22 local insurance life underwriters have successfully completed their fall semester studies as part of the Chartered Life Underwriter education program.

The studies were conducted as part of the Fayetteville Technical Institute adult education curriculum in cooperation with the Fayetteville Association of Life Underwriters.

115 FTI Students On 'List'

One hundred fifteen students enrolled at Fayetteville Technical Institute were named to the President's List for the fall quarter. Those earning a grade of "B" or better for the first session of the 1971-72 academic year at FTI were:

ACCOUNTING — Johnathan Rowie, Ronnie West and Charles Wrenn.

AIR CONDITIONING MECHANICS — George P. Averie, Clayton L. Burtrum, Joseph Edwards, Jr., Millard Hartranft, Marrah Spencer, Ronald K. Kiser, Thomas K. Hutchinson, Milton S. Hudson, Jr., Charles C. Clapper, Harry J. Austin and William Barry Jones.

ARCHITECTURAL DRAFTING — Michael J. Quarterman, James R. Ratcliff, Jr., David McKee and Wilson Carter.

ASSOCIATE DEGREE NURSING — Marguerite Burch, Helen Cates, Sandra Hoffman, Sarah Jenkins, Gay McAdams, Felicia Schaefer, Judy Sireloff, Donna Corbin, Kendall Jamison and Patricia Warren.

AGRICULTURAL BUSINESS — David P. Brown.

AUTOMOTIVE MECHANICS — Steven F. Smith, John Hilderbrand, Robert Nixon and Bob Perkins. Francisco Pelaez, Richard Sison.

BUSINESS ADMINISTRATION — Larry Ferguson, Michael Parker Vick, Arthur Bass, Edgar Bennington, Jr., Richard Gray and Kevin M. Lynch.

CIVIL ENGINEERING TECHNOLOGY — Gary Butler, Glen Elliott, James T. Horne, John D. Simons, Avelino Torres Billoch, Jr., Richard L. Hilliard, Jr., John Dawson, Woodrow Doherty, Joe Godwin, Walter Kolody, John Smith and Ronald Vaudais.

DENTAL HYGIENE — Carol Cogdell, Pam Pearsall, Jackie Perkins, Sandra Warren, Janet Vitolo, and Brenda Wiseman.

ELECTRICAL INSTALLATION & MAINTENANCE — John Burkett, Danny Barnes, Holl Cannady, Jim DeLoach, David Nelson, Samuel McGirt, Shelton Niles, and Joseph Saxon.

ELECTRONIC DATA PROCESSING — Kenneth Ray Arnold, David L. Buckner, James Godwin and Paul Moro. Also, Joan Mosher, Clinton Nordan and William Westbrook.

ELECTRONICS ENGINEERING TECHNOLOGY — Samuel Croom, Steven Gates, Jenny Ballard, David Shroats, Robert Woods and David Warner.

ENVIRONMENTAL ENGINEERING TECHNOLOGY — James Thomas Fisher, James Harrell Jones, Russell J. Kopti, Nancy Melvin and John Reid.

MARKETING & RETAILING — William McDaniel, Lynn Glover, and Ann Leamon.

MACHINISTS — Mack Herring, Millard Lowry, Loyd Blackman, and Thomas Matlock.

MECHANICAL ENGINEERING TECHNOLOGY — William Daniels and Darryl Wolfe.

PRACTICAL NURSE EDUCATION — Kathryn Carter, Doris Creighton, Barbara Melvin, Judy Shea, Robert Stanley, Theresa Stanley, Emily Sutherland, Janice Uhrich.

SECRETARIAL SCIENCE — Catherine Clark Will, Linda Morrison, Edna Williams.

POOL & DIE — James Bensley, J. E. Crabtree, Philip Hedrick, Broncho Naylor and Charles Redwine.

WELDING — Robert Bensley and Scott Jermigan.

A WRITING symposium will be held at Methodist College Saturday at 1:30 p.m. in the north lobby of the Fine Arts Building. The topic is "Writing in the High School English Program."

Participants will include area high school teachers, Methodist College students and representatives from Fayetteville State University and Fayetteville Technical Institute. The two-hour conference is open to the public.

Raymond Conley of Methodist is moderator of the symposium. Speakers will be Robert Christian of Methodist, Mrs. Mason Sykes of Pine Forest High School, and Mrs. L. G. Mason of Methodist. 3/19/72

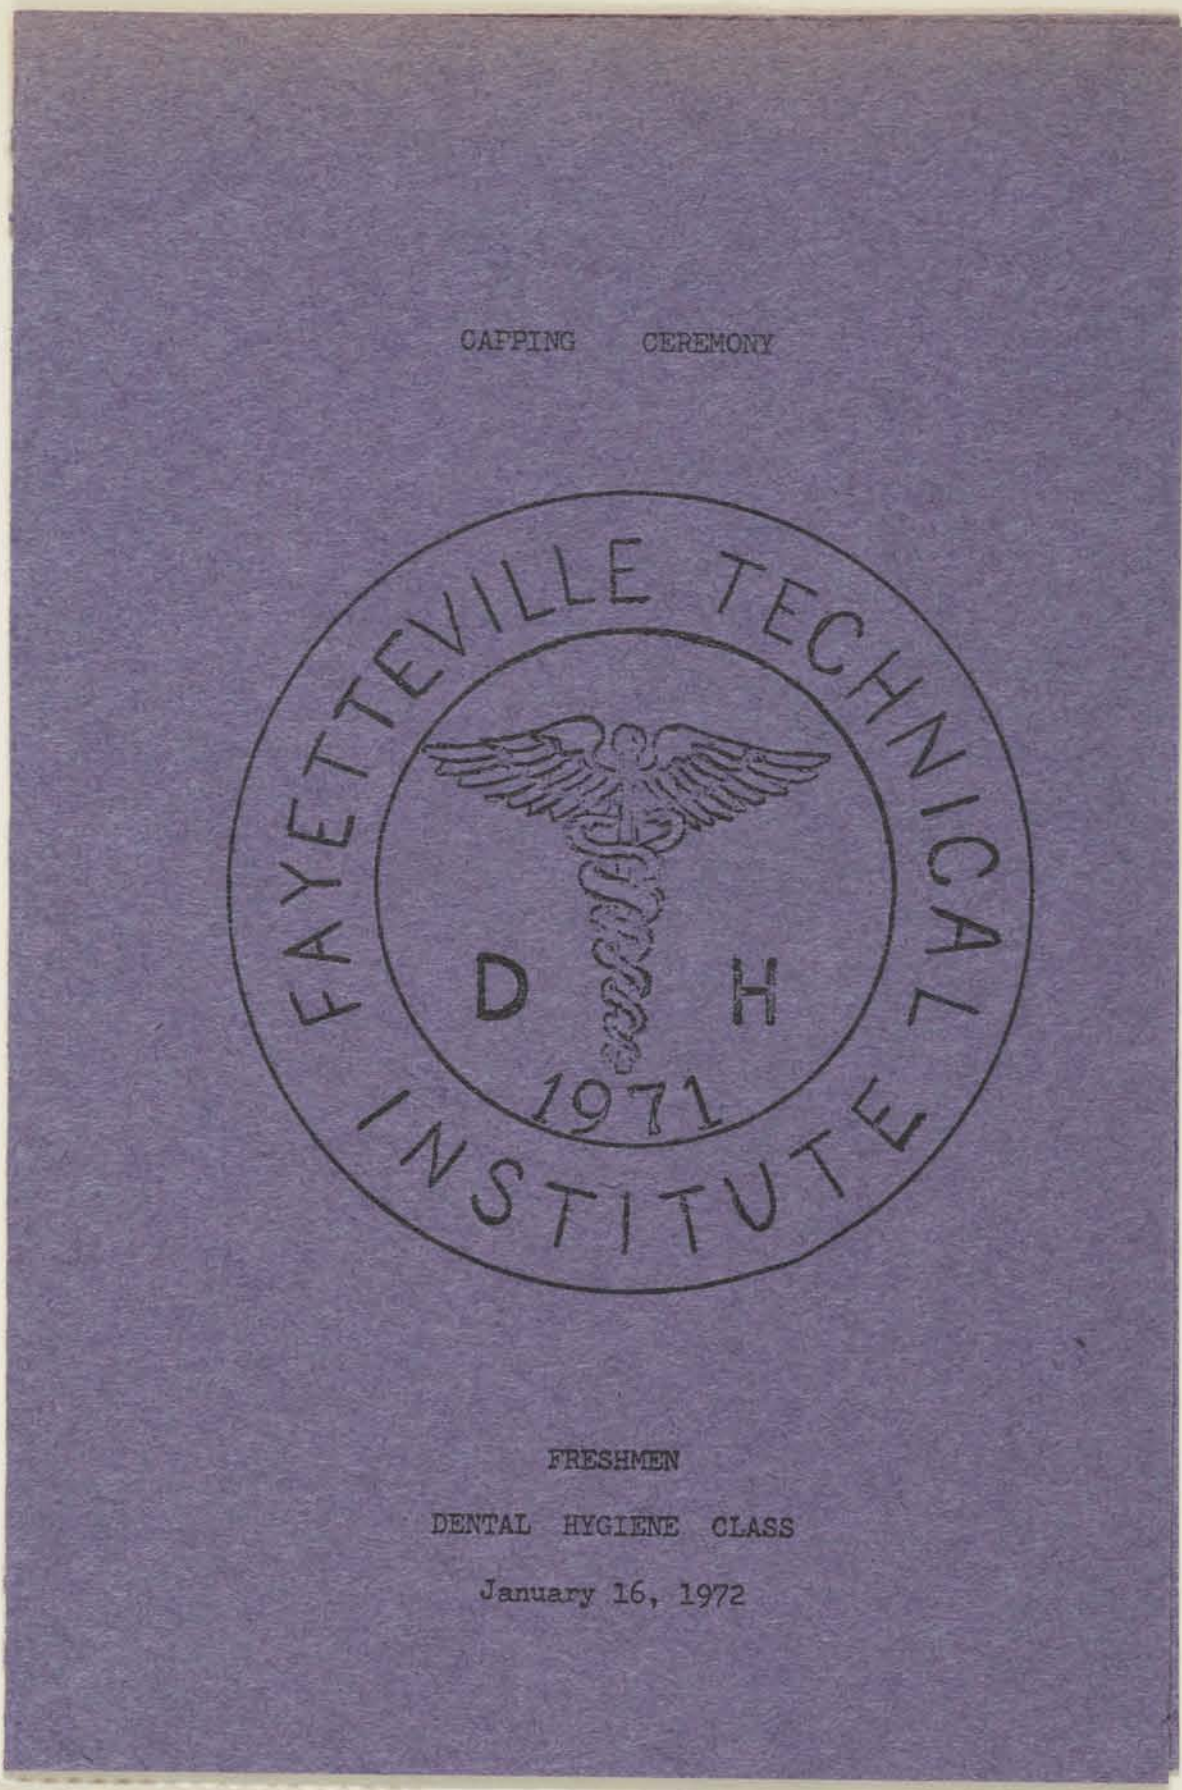

People You Know

BILLY D. HAYES has returned to his home in Spring Lake from Vietnam where he was manager of the Post Exchange for the past year. He is the son of Mr. and Mrs. Willie D. Hayes of Spring Lake. He is at home with his wife and two sons at Bragg Estates.

MISS JOAN DORSETT, daughter of Mrs. Elenore Dorsett, 1811 Stamper Road, has been selected to play Tuptim in the "King and I" for the February 3, 4, 5 productions at the Daycroft School, Greenwich, Conn. Joan is a sophomore at Daycroft.

FTI DEAN OF STUDENTS, Niles E. Compton, has returned from Washington, D.C., where he and three other representatives of the Community College System of North Carolina met with the National Task Force on Education. Their primary concern was related to the Vietnam veteran and an increase in the educational benefits allotted the military separates.

Tobler Slates Speech At FTI

Dr. John O. Tobler, chairman of the social science department at Methodist College, will speak at the Great Decisions discussion at Fayetteville Technical Institute Monday night.

He will speak on "Guns And-Or Butter." He holds the Matura Degree from State College, Appenzel, Switzerland, and Licence "En Droit" from the University of Geneva. He received his Ph.D. degree in political science from Johns Hopkins University.

The program will be held in the Paul Thompson Library at 7:30 p.m.

3/12/72

For Woman's Club Fields Gives Program

William C. Fields, internationally known artist, was guest speaker for the January meeting of the Fayetteville Woman's Club held Friday morning at the club house on Dick St. Mr. Fields described slides of portraits now hanging in the North Carolina Museum of Art, with a few of his own. The Fine Arts Department, Mrs. James Masouras, chairman, Mrs. John A. Stewart, co-chairman, and Mrs. R. F. Kelly, presented the program.

The club members voted unanimously to support the Fayetteville city utility water and sewer bond issue to be voted on February 15. Mayor Jack Lee presented slides and explained the objectives of the bond issue. Announcement was made concerning the "Great Decisions" discussion program which will meet January 31 at Fayetteville Technical Institute.

and on each Monday evening for two months. The discussions will be held at 7:30 p.m. and led by outstanding speakers from Duke University, Raleigh and Fayetteville, it was announced. World problems will be discussed. There will be no admission charge. Adults interested in attending may call FTI to register.

Announcement was also made concerning Expo '72, the annual trade fair, to be held in March. Plans are underway and ads are being sold for the fair directory book and booth spaces are being signed up.

Routine reports were heard from the various departments. Mrs. Parker Lynch, president of the Junior Woman's Club, presented the club's silver bonbon dish and serving tongs.

The International Affairs Department reported more than \$500 sent to UNICEF for the sale of Christmas Cards.

New members of the club recognized were: Mesdames Furman, Numamaker, Nathan B. Rigby, C. C. Terrell, Robert D. Dubbs, Harvey Keaton, Gregg Sutton, and Renu Mautisby.

Hostesses for the luncheon were Mesdames James H. Perkins, chairman, R. C. Butler, co-chairman, John Farrell, Irvin L. Snyder, Edwin E. Montgomery, William G. Nimocks, C. M. O'Neill, Haywood Stanley, V. J. West, Wilbur J. Smith, V. R. White and W. Yardell Williamson.

Decorations were furnished by Owen's Florist and the hostesses.

A BOOKLET giving information on how to fill out federal tax returns is available at all postal facilities in the area.

The 160-page booklet sells for 75 cents.

Fayetteville Postmaster George Herndon said "by selling this booklet, we are offering a convenient service to our customers. We are participating in a nationwide program to make the booklet available to the public in 15,000 postal facilities."

Another tax publication, "Tax Guide for Small Business" is also on sale for 75 cents.

MRS. LURA TALLY will serve as coordinator for Fayetteville Technical Institute's "Great Decisions, 1972" series which will begin Jan. 31 at FTI.

"Great Decisions" is an annual study-discussion program on key foreign policy topics organized by the non-partisan Foreign Policy Association and offered for the third year on the campus at FTI.

Thousands of citizens throughout the United States consider the weekly topic in a variety of settings. The National Educational Network features a distinguished speaker on each subject, and the local groups consider the same question at their weekly meeting.

The Fayetteville Tech series will be marked as one-hour workshop credit for teachers' renewal certification. Each of the Monday evenings will bring an outstanding authority on the discussion subject to the campus of FTI. January 31, Dr. Lewis Lipsitz, associate professor of political science at UNC, will conduct the discussion of "Vietnam and After—What Lessons Have We Learned?" Dr. Lipsitz is a member of the Executive Committee of the Caucus for a New Political Science. The author of journal articles on national politics, Lipsitz holds a Ph.D. from Yale and was the 1968-69 recipient of

'Great Decisions, 1972' Begins Jan. 31 at FTI

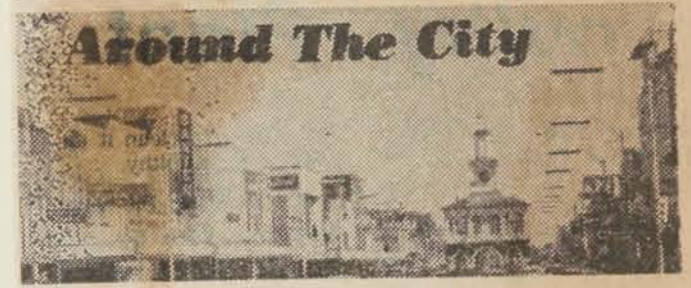

The Salgo Award for distinguished teaching. An additional talent is poetry. Dr. Lipsitz's book of poems, "Cold Water", was recently published, and he is now working on translations of the Chilean poet, Pablo Neruda.

Mrs. Tally, coordinator for the series, is a counselor at Washington Drive Junior High School and received her A.B. degree from Duke University and her Master's from North Carolina State University. An outstanding civic leader, Mrs. Tally is president of the Cumberland County Historical Society, past-president of the Woman's Club, Fayetteville Art League and the North Carolina Society for the Preservation of Antiquities.

The Great Decisions series will run for eight weeks beginning Monday, January 31, at 7:30 p.m. in Fayetteville Technical Institute's Library, and run through March 20. There is no tuition for this course offered through the Continuing Education program of FTI. A booklet containing concise information on each of the discussion topics is available at Fayetteville Tech's bookstore.

Further information is available by contacting the director of extension at Fayetteville Technical Institute.

10C THE FAYETTEVILLE OBSERVER THURSDAY, FEBRUARY 10, 1972

FAYETTEVILLE State University's Music and Fine Arts Department has scheduled a concert of chamber music next Tuesday.

The concert will feature musicians from the FSU music department, members of the Methodist College music department, and members of the Fayetteville Symphony. It will be held in the Rosenthal Building beginning at 8 p.m. The public is invited.

A similar concert will be held at Methodist College March 1.

"THE SOVIET Union and the U.S." will be the third topic of Fayetteville Technical Institute's "Great Decisions" series next Monday night.

Dr. Joel Swartz of the University of North Carolina political science department, will be the featured speaker. He attended the University of Moscow as a Fulbright Scholar and is considered an expert on Russian affairs.

The session begins at 7:30 o'clock in the Paul Thompson Library.

TO HELP FILL the area's need for registered nurses, Fayetteville Technical Institute will offer a refresher course for nurses during March. It will be sponsored by the Cumberland County Hospital System Inc. and clinical experience will be provided at Cape Fear Valley and Highsmith-Rainey hospitals.

The course consists of 135 hours of clinical and classroom instruction and classes will meet daily Monday through Friday from 9 a.m. to 2 p.m. for six weeks. There is no tuition, but students are expected to purchase selected text materials and participate in the institute's insurance plan. The course will run from March 13 to April 21.

Registered nurses interested in enrolling should telephone 484-4121, extension 25.

Karate Tourney Here Sunday

Four FTI students will participate in the U.S.A. Karate Championship Tournament sponsored by the Korean-American Tae Kwon Do Association Sunday, March 5th at the Cumberland County Memorial Auditorium.

Michael L. Hayes, a business administration major at FTI, is also the institute's instructor in karate, and will compete in the black belt (2nd degree) division. Nicky Vereen, electrical installation student, will participate in the blue and green belt division while David Walters, from the electronics engineering technology curriculum; Bob Sandlin, industrial management, and Thomas Matlock, machinists, will compete in the white and yellow belt division.

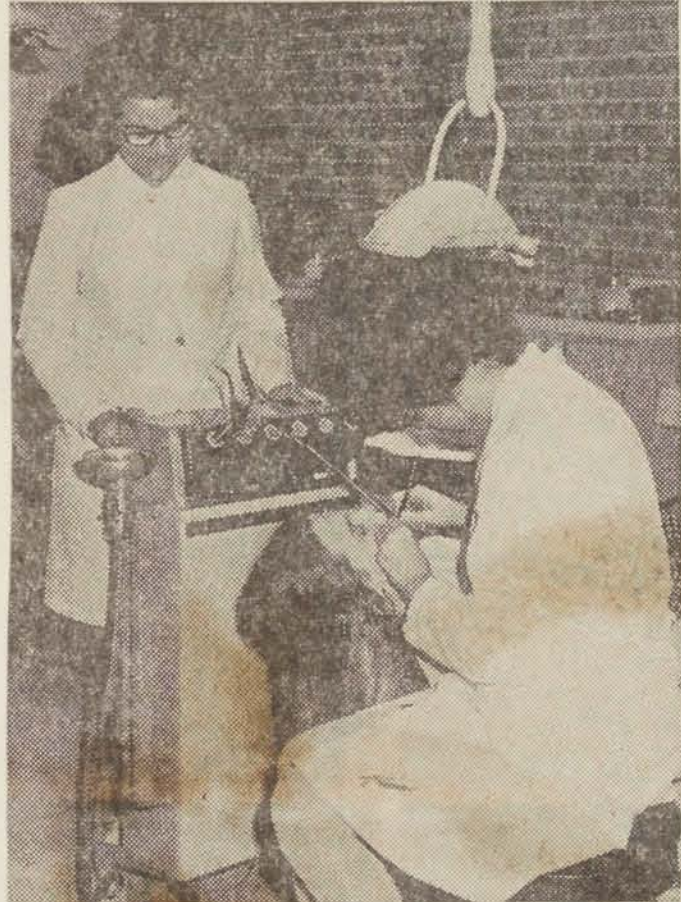

This is the first year Fayetteville Tech has offered students the opportunity to learn karate as one of the several intramural student activities initiated under the direction of Al Pierce, coordinating counselor.

"Tae Kwon Do" is the technique of unarmed combat for self-defense. Translated from Korean, "Tae" means to jump or kick. "Kwon" denotes a fist-to-punch or destroy with the fist. "Do" indicates the art or method. Thus, "Tae Kwon Do" the art of self defense through fists and feet. It is, however, more than that — it is a way of life involving strict, self-imposed discipline and vigorous mental and physical conditioning.

3/2/72

Capping Service Set For Dental Hygiene Students

By HASTY
Today is an important occasion in the lives of the twenty young women in the first dental hygiene class at Fayetteville Technical Institute and another step forward for growing FTI.

CLINIC PRACTICE — Pam Pearsall, president of the dental hygiene class, at work in the clinic under the supervision of Mrs. Eileen Hoehn, instructor. Carol Cogdell is the student patient.

TOOTHsome TRAINING AID — Mrs. Tena McQueen (left), clinic director, observes Janet Vito scaling on the Dentiform. Janet is president of the Junior American Dental Hygienists.

This afternoon in a ceremony at FTI (closed to the public), they will receive their caps, signifying the accomplishment of an assigned amount of work and the beginning of the school experience of seeing patients under the supervision of instructors.

Students receiving their caps will be Susan Barnes, Carolyn Blecker, Lynda Faircloth, Carol Cogdell, Vickie French, Debbie Giles, Donna Harris, Carolyn Hemingway, Sandy Hennessie, Carolyn Hoffman, Helga King, Debra Norris, Gladys Reynolds, Brenda Wiseman, Pamela Pearsall, Sandra Russell, Janet Vito, Sandra Warren, Karen Putham, and Martha Bock.

Miss Pearsall, president of the group, will preside at the event. Others appearing on the program include FTI President Howard E. Boudreau, Dr. David Dunham, chairman of the Dental Hygiene Department, and Dr. Robert Taylor, president of the 5th District Dental Society. Following the program, a reception will be given for the families and guests of the students.

According to Mrs. Tena McQueen, clinic director, the students have completed their basic academic work and are ready to apply their knowledge under supervision.

Their services will be extended to the public on Tuesdays and Thursdays. However, Tuesdays are already "booked". The superintendent of city schools has agreed to arrange for children to be seen on Tuesday mornings, and in the afternoon children in foster homes will be seen. However, Thursdays will be open to adults only, at 9 a.m. and 2 p.m. Interested persons should call in advance, Mrs. McQueen advises.

This visit will include scaling and polishing the teeth, applying fluoride topically, exposing radiographs, and taking study casts of the teeth.

Next year, in the second year of training, the clinic will be open each afternoon to children and adults.

The dental hygienist is recognized as an auxiliary member of the dental profession which includes the dentist, dental assistant, and dental technician. The role of the dental hygienist is to function as a member of the dental health team with the primary purposes of providing preventive care and oral hygiene education under the direction and supervision of a dentist. Only the dental hygienist and the dentist are legally allowed to perform direct preventive procedures within the patient's mouth.

In their two-year program, dental hygiene students take a college curriculum along with their dental hygiene courses. Subjects included are composition, literature, speech, psychology, sociology, chemistry, first aid, anatomy and physiology, biochemistry, nutrition, microbiology. Dental hygiene courses include histology, embryology, head-neck anatomy, radiology, community dental health, general and oral pathology, dental health education, periodontology, dental materials, pharmacology, anesthesiology, office management, ethics and jurisprudence. In addition, there are electives. In all, there are 105 hours in six quarters.

The duties and functions assigned to the dental hygienist profession are viewed as essentially professional in nature. According to Mrs. McQueen, the practicing dental hygienist must be licensed by the State Board of Dental Examiners. She must be a graduate of an accredited school and passed state and national board examinations. A state board examination is required in each state.

FTI's school of dental hygiene has provisional accreditation. Full accreditation is expected during the second year of the program when an accreditation committee composed of one member of the American Dental Hygienists Assn. and two members of the American Dental Assn., Council on Dental Education, visits the school to evaluate the program.

The field of dental hygiene is fairly open, especially in smaller communities, and wages are good, Mrs. McQueen said. Men, too, are wanted in the program, she pointed out. Dr. Dunham, who noted that most of the dental hygienists within the military are men. They are particularly needed in institutional and education posts. The work of the dental hygienist isn't competitive with a dentist, it was noted. Rather, the hygienist makes it possible for a dentist to be able to treat more patients. Recent figures show that only twenty per cent of the public has any dental work done.

The dental hygiene department occupies a spacious and attractive suite of rooms in Cumberland Hall. Plans are being made to train dental assistants in the near future.

X-RAYS — Dr. David Dunham, head of the dental hygiene department at FTI, watches as Brenda Wiseman exposes dental radiographs. The student patient is Sandy Hennessie.

LIVE WIRE

DIAL 485-3440

The Observer's Live Wire cuts red tape to answer questions and solve problems of general interest. For action dial Live Wire direct at any hour or write Live Wire, Box 848, Fayetteville 28302. We'll print your initials but you must include name, address and phone number.

Q. Can you tell me whether Fayetteville Technical Institute is considered an accredited junior college, or is it just an accredited school? — M. W.

A. FTI is accredited by the Southern Association of Schools and Colleges as a special purpose school, Howard Boudreau, president, said. This accreditation is equal to that given a college or junior college, he said.

Projectors Stolen

Fayetteville police reported this morning that two movie projectors, have been stolen from Fayetteville Technical Institute.

The theft was discovered Wednesday after police received a report one of the projectors had been pawned.

2/7/72

Scott To Address Local Gathering

Howard E. Boudreau, President of Fayetteville Technical Institute, and John H. Swope, Executive Director of the Fayetteville Area Industrial Development Corporation, will act as co-hosts for 150 members of the North Carolina Association of Public Community College Presidents and the North Carolina Industrial Developers Association here next week at Green Valley Country Club.

Purpose of the conference is an exchange of ideas involved in the education and training of personnel for industry. Highlight of the Wednesday and Thursday session will be an address by Gov. Bob Scott Thursday night. Gov. Scott will be introduced by Dr. W. Dallas Herring, chairman of the State Board of Education.

Each of North Carolina's 86 community colleges will be represented as well as the leading industries, old and new, and delegates from the Tar Heel State's Department of Natural and Economic Resources.

As President of Fayetteville Technical Institute, and as a member of FAIDC, Boudreau will preside at the daytime sessions scheduled on the campus of FTI. Swope will emcee the Thursday night meeting.

1/17/72

People You Know

MRS. JOHN O'RALE, chairman, Health Occupation Division, Fayetteville Technical Institute, recently attended the University of North Carolina School of Nursing one-day workshop, "Problems of Patients on Long-term Medication" in Chapel Hill. She was one of 30 registered nurses learning how to better handle these problems.

2/13/72

Mrs. Knight Gives Club Program

The Lafayette Garden Club met Tuesday at the home of Mrs. Rudolph Singleton. Also serving as hostesses were Mrs. Henry Huttaff, Mrs. M. W. Wallace and Mrs. Jim Hill.

The business meeting was conducted by Mrs. Reginald Barton, president, who welcomed new member, Mrs. C. G. Pantelakos.

Garden Center chairman, Mrs. Alex McBryde, reminded members the club is responsible for the flower show at the Garden Center on February 24.

It was decided to donate \$15 to Fayetteville Beautiful to help with the cost of planting Carolina Jasmine along the brick walls on Ho St.

Plans for a Flower Show School to be held September 26, 27 and 28 at the McNairy Building were related to the group by Mrs. Barton and the club voted to pledge support to this project.

It was reported that the vaqueros purchased for the Rose Garden at Fayetteville Technical Institute were planted in December.

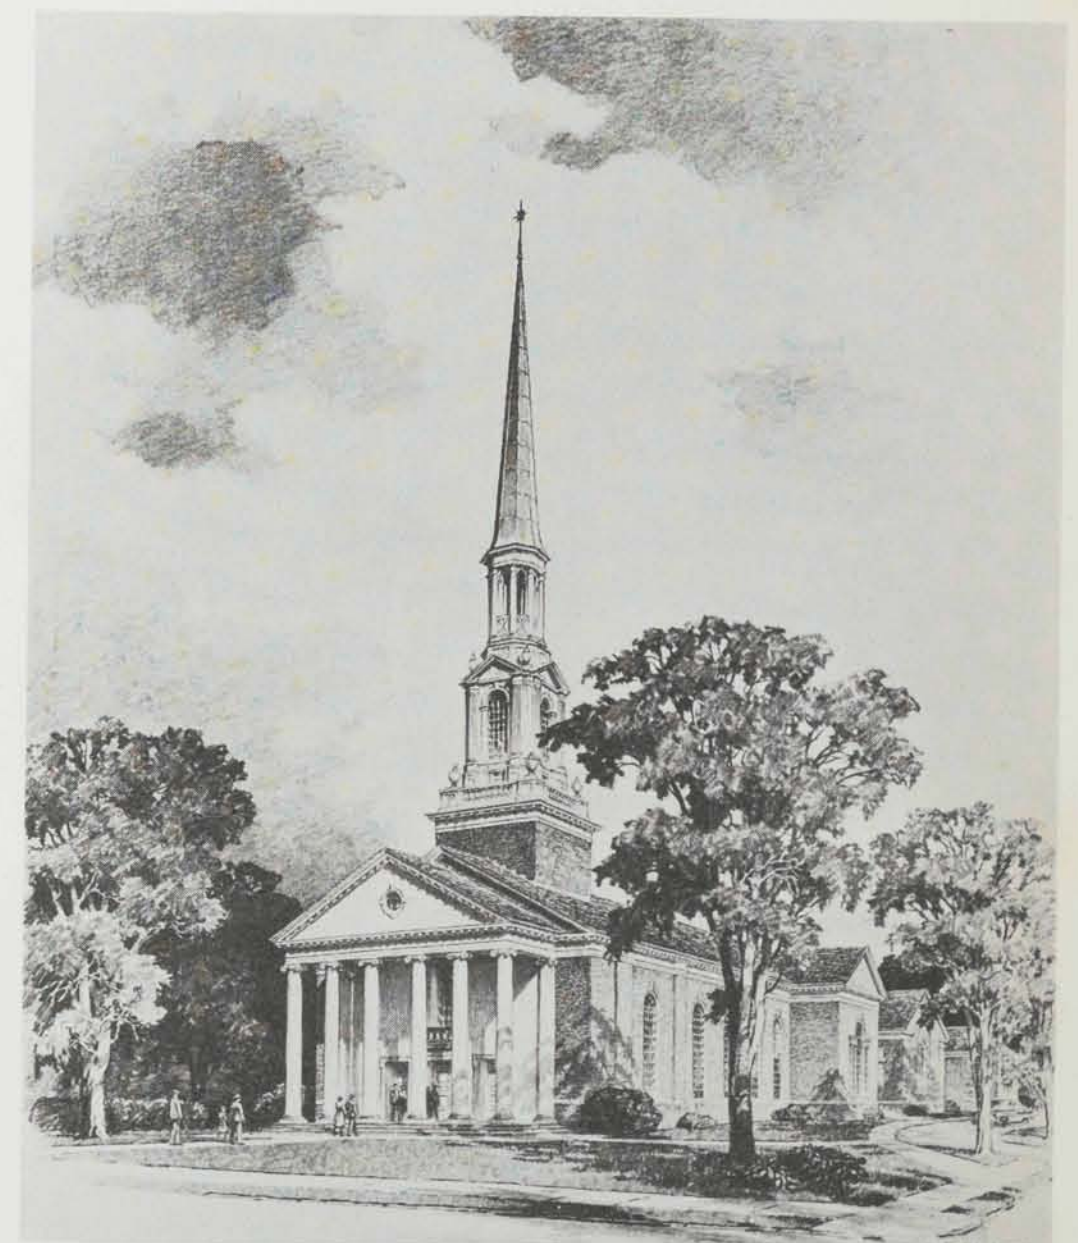

Mrs. Larry Price, program chairman, introduced Mrs. Vance Knight, a member of the club, who presented a program on planting a garden for continual bloom through all seasons. After going over some basic landscaping rules, Mrs. Knight suggested spring bulbs, iris, day lilies, summer phlox and chrysanthemums as five easy-to-grow plants for this area that would provide color from Spring through Fall. Studies of various different seasons of the year were shown to illustrate how to overplanting each area was done with color throughout the year.

Community Calendar

MONDAY
Women In Construction: 7:30 p.m., Horne's Restaurant.
Alcoholics Anonymous, Ft. Bragg Group: 8 p.m., Building HT-3050, Smoke Bomb Hill Annex.
Fayetteville Optimist Club: 7 p.m., The Heel Restaurant.
Fayetteville Rotary Club: 6:30 p.m., Raleighs Civic Center.
Fayetteville Chapter, Society for the Preservation and Encouragement of Barber Shop Quartet Singing in America: 8 p.m., Haymount United Methodist Church.

TUESDAY
Cape Fear Optimist Club: 1 p.m., Empire Steak House.
Haymount Lions Club: 1 p.m., Barbecue Lodge.

FTI's Annual Great Decisions Series will begin tonight at 7:30 p.m. in the Paul Thompson Library. Topic of tonight's discussion: "Vietnam and After" — with Dr. Lewis Lipsitz, Associate Professor of Political Science, UNC, as featured speaker.

Industry Ties Examined

North Carolina in general and Fayetteville and its technical institute in particular were included in an eight-part series on industry in a New York newspaper recently.

The series, which appeared in the Times-Union newspaper in Rochester, N.Y., dealt with what companies from the North encounter when they either expand or relocate in the South.

Fasco Industries here has its home base in Rochester.

John Swope, executive director of the Fayetteville Area Industrial Development Corp., was quoted in the article as saying "Eastern Carolina is a virgin area. Up to six years ago, the only plants we had here were Burlington Mills and Fasco.

"Since then, DuPont, Black & Decker, Rohm & Haas, Purolator, Kelly-Springfield and three textile plants have come to Fayetteville."

Swope said this and other growth across the state is partly attributable to the technical institutes which train workers, especially young ones, for work in industry.

"Industry doesn't want community colleges. It wants skilled workers," said Swope. And, Fayetteville Technical Institute is hard at work turning out those skilled workers.

Swope said the best thing companies from the North find when they consider expanding here is the readiness of people willing and able to learn new tasks and to adapt to industrial life.

Industry's ties with the technical institutes will be further examined at a two-day midwinter conference next week of the N.C. Industrial Developers Association and the N.C. Association of Public Community College Presidents at Fayetteville Technical Institute.

1/28/72

Harp Concert Set At FTI

A two-harp concert will be held at Fayetteville Technical Institute Sunday, January 30th at 4:00 p.m. Featured on the program will be Mrs. Linda Booth, first harpist with the Charlotte Symphony. Mrs. Booth received her Bachelor's degree at the University of Texas where she studied with Joel Andrews, also performing at the Sunday afternoon presentation. Andrews is musician-in-residence at Fayetteville Technical Institute and previously held that position at N.C. State University.

Using the theme, "Musical Sound — its nature, significance and awareness," the artists will offer a rare duet concert for their audience in the Paul H. Thompson Library on FTI's campus Sunday at 4:00 p.m. Admission is free of charge. 1/28/72

Garden Course

A short course for the "home gardener" interested in growing plants from seeds and cuttings will be given at Fayetteville Technical Institute starting Tuesday, Feb. 8th at 7 p.m., running two hours each Tuesday and Thursday evenings through Feb. 22.

Instructor for the ten-hour course will be Stanley Owen of N. C. State University. Class activities include discussions on soils and various means of propagating plants.

For further information, contact the director of extension, Fayetteville Technical Institute, telephone 494-4121.

1/28/72

Governor, Chamber Chief To Speak Here Thursday

Gov. Bob Scott and Archie R. Davis, president of the Chamber of Commerce of the United States, will make separate speaking appearances here Thursday night.

Gov. Scott will speak at a joint meeting of the North Carolina Association of Public Community Colleges and the North Carolina Industrial Developers Association at Green Valley Country Club.

Davis, who is chairman of the board of Wachovia Bank and Trust Company, will speak at the 73rd annual dinner of the Fayetteville Area Chamber of Commerce at the Cumberland County Memorial Exhibit Hall.

Gov. Scott's appearance will climax a two-day conference of community college presidents and industrial developers group beginning

Wednesday. Hosts for the conference will be Howard E. Boudreau, president of Fayetteville Technical Institute, and John H. Swope, executive director of the Fayetteville Area Industrial Development Corp.

Purpose of the conference is an exchange of ideas in educating and training personnel for industry. Dr. W. Dallas Herring, chairman of the State Board of Education, will introduce Gov. Scott.

About 150 representatives of the state's 36 community colleges and leading industry will attend.

Davis, who will speak at the chamber dinner, is the 4th president of the national organization which is observing its 60th anniversary in Washington this year.

Davis is a past president of the American Bankers Association, a former director of the Charlotte branch of the Federal Reserve Bank of Richmond and is at present a trustee of the Committee for Economic Development and the joint Council on Economic Education.

He has been chairman of the board at Wachovia since 1956. 2/1/72

Program of Words, Music, Dance Set

Under the sponsorship of the Friends of the Library and Fayetteville Technical Institute, a program of words, music and dance will be presented Sunday, Feb. 6, in the auditorium of the FTI Library beginning at 4 o'clock.

The words: the poetry of Alton Buzbee, member of the department of student affairs at the North Carolina School of the Arts at Winston-Salem. Readings will be from the recently published volume "Words by Buzbee" and from newer works not included in that volume.

The music will be improvisation based on the poetry.

Alan Smallwood will play piano and Randy Powell will be on drums. The basic style of the music is jazz. Smallwood and Powell have appeared on numerous television shows in the Winston-Salem area with Buzbee. They have also appeared with him at Reynolds House on several occasions. Both are students at the North Carolina School of the Arts.

The dancers, who will improvise to the words and music, are Liz Broiman and Larry Ward. They also are students at NCSA.

The public is invited to attend. 2-1-72

Good-bye Pollution

THE technical institute-community college system has gotten into the act of fighting pollution statewide with the initiation of a course to train mechanics in servicing emission control devices installed on motor vehicles.

Ninety percent of the funds for the one-year project are from the Manpower Development and Training Act with the remaining money coming from state funds. The total funding amounts to nearly \$50,000.

Robert G. Smith, MDTA supervisor, Department of Community Colleges, estimates that 2,500 mechanics will be trained through the 56 technical institutes and community colleges in this special project. "The independent garage owners are primarily the ones we are trying to reach," said Mr. Smith. And he added, "There is no charge for taking the course."

The four-hour-long course is being taught by two instructors who are based at Wayne Community College and Richmond Technical Institute. One instructs classes at technical institutes and community colleges located in the eastern half of the state while the other teaches in the western half.

Emission control devices have been standard equipment on new vehicles for the past few years, and there is a nationwide demand for training mechanics to service these parts.

In the past, in another attempt to attack pollution, the Department of Community Colleges, the Office of Water and Air Resources and the Employment Security Commission have sponsored training for wastewater treatment plant operators. The project was financed with Manpower Development and Training Act funds.

The training emphasized the practical aspects of proper plant operation and maintenance. It added to the operator's knowledge and skills so that he can now do a better job of operating and maintaining his plant, obtaining maximum efficiency and reducing the pollution in the state's streams.

On the local scene, Central Piedmont Community College sponsored a two-day seminar for the trucking industry to inform those people as to the exact amount of exhaust emissions that are allowed from diesel trucks as they travel up and down the highways. Otto Locke, Central Piedmont's vice president for continu-

ing education and adult education, says, "You have probably seen some of these trucks with a roll of black smoke coming from them as they travel; this is illegal. What the seminar was supposed to do was to teach the people involved in the trucking industry exactly how to control the exhaust emissions from trucks."

Forsyth Technical Institute recently hosted a training session in Visible Emissions Evaluation for the North Carolina Motor Carriers Association. The training session was held at the request of the Office of Water and Air Resources.

Technical institutes and community colleges are offering full-time curriculums and regular credit courses which deal with modern-day ecology. For example, Fayetteville Technical Institute's Environmental Engineering Technology curriculum is recognized nationally. It is the only one of its kind in the state and the curriculum has been repeated in over two dozen schools, colleges and institutes in the country, according to Mrs. Joann MacMillan, public relations director for Fayetteville Tech.

Western Piedmont Community College has recently added two

new courses which are related to ecology and pollution, according to H. D. Moretz, dean of the college. The courses are Environmental Science and Environmental Science Laboratory. According to the college catalogue, Environmental Science is a study of ecological principles and present-day environmental problems with special emphasis on populations and various types of pollution.

A report from Davidson County Community College reveals that the school is offering a course during the winter quarter called Fundamentals of Earth Environmental Studies and a continuation of the course will be offered in the spring quarter.

The Davidson County Community College also reports that a small grant has been received to support a two-week workshop for public school teachers during the summer of 1972. The workshop will be concerned with providing the teachers with up-to-date information on the problems of pollution. Although it will be aimed primarily at the junior high school level, it will also be appropriate for other public school personnel.

Martin Technical Institute teaches a course in pollution as a part of the institute's Fish and Wildlife Management Program. The students study in detail air, water and chemical pollution.

Several curriculums related to ecology are offered by Haywood Technical Institute and are proving to be particularly popular with the college-age generation. Among the programs are Fish and Wildlife Management, Forest Management, Forest Recreation and Wood Products Technology.

Robert M. Howard, public information officer at Gaston College, reports that the college is offering a course in Environmental Science in cooperation with the staff development/in-service offerings of the Gaston County Schools. "While this course is broader than the single topic of pollution, en-

vironmental pollution is an integral subject of discussion during the course," said Mr. Howard.

At the Technical Institute of Alamance the students in the Chemical Technology Department took on an ambitious project designed to show what is happening to one of North Carolina's major river systems—the Cape Fear and its major tributaries. According to Paul C. Davis, administrative assistant at the Alamance County technical institute, the project was highly successful with students' experimental work detecting the presence of specific pollutants.

Across the state technical institutes and community colleges observe Earth Day, hold "Clean-up Days" and have organized clubs that have as their purpose an attack on pollution.

Marjorie Talton, of the Public Relations Department at Caldwell Community College, reports that the students there in one day's time collected 100 bags of litter

on a rural road near the college. "Ironically, found in the ditch with the litter was a sign warning citizens of the fine for littering," said Mrs. Talton.

Clean-up day at Southeastern Community College is getting bigger and bigger. With the assistance of faculty and local businesses, the students recently cleaned up the highway that runs in front of the college campus. They traveled a distance of approximately four miles in their clean-up campaign.

Among the schools that have clubs organized specifically to fight pollution are College of the Albemarle and Wilkes Community College. According to Wilkes' student newspaper, the students this year formed a club called STOP (Society Troubled Over Pollution). STOP plans to invite people to give talks at a seminar on pollution to be held in the spring. And too, they are presenting a "Polluter of the Week" award.

Mike Stuts (second from left) conducts an emission control devices class at Richmond Technical Institute. His classes cover the western half of the state.

AROUND THE CITY

FAYETTEVILLE State University will appoint a board of visitors shortly.

Creation of a board of visitors was approved by the board of trustees recently "to assist the institution in enhancing its image and status before the many publics it serves and to aid in ways in strengthening and increasing the services of the institution to the people."

To be represented on the board will be all facets of the university — administration, alumni, faculty, students and citizens.

The board of trustees also approved the beginning of an Air Force ROTC program during the 1972-73 academic year.

SOCIAL SECURITY

manager W. W. Thomas announced today the start of Teleservice, a telephone service by which many people can handle their social security matters.

The number is 483-2661. On this line a person can file a claim, ask a question, determine if he has all needed proofs to claim social security benefits or take care of other matters. The call saves a trip to the office.

Thomas said, "All information is taken over the telephone to complete the claim form and then mailed to you for signature. The necessary documents with the signed claim for benefits would then be returned by mail."

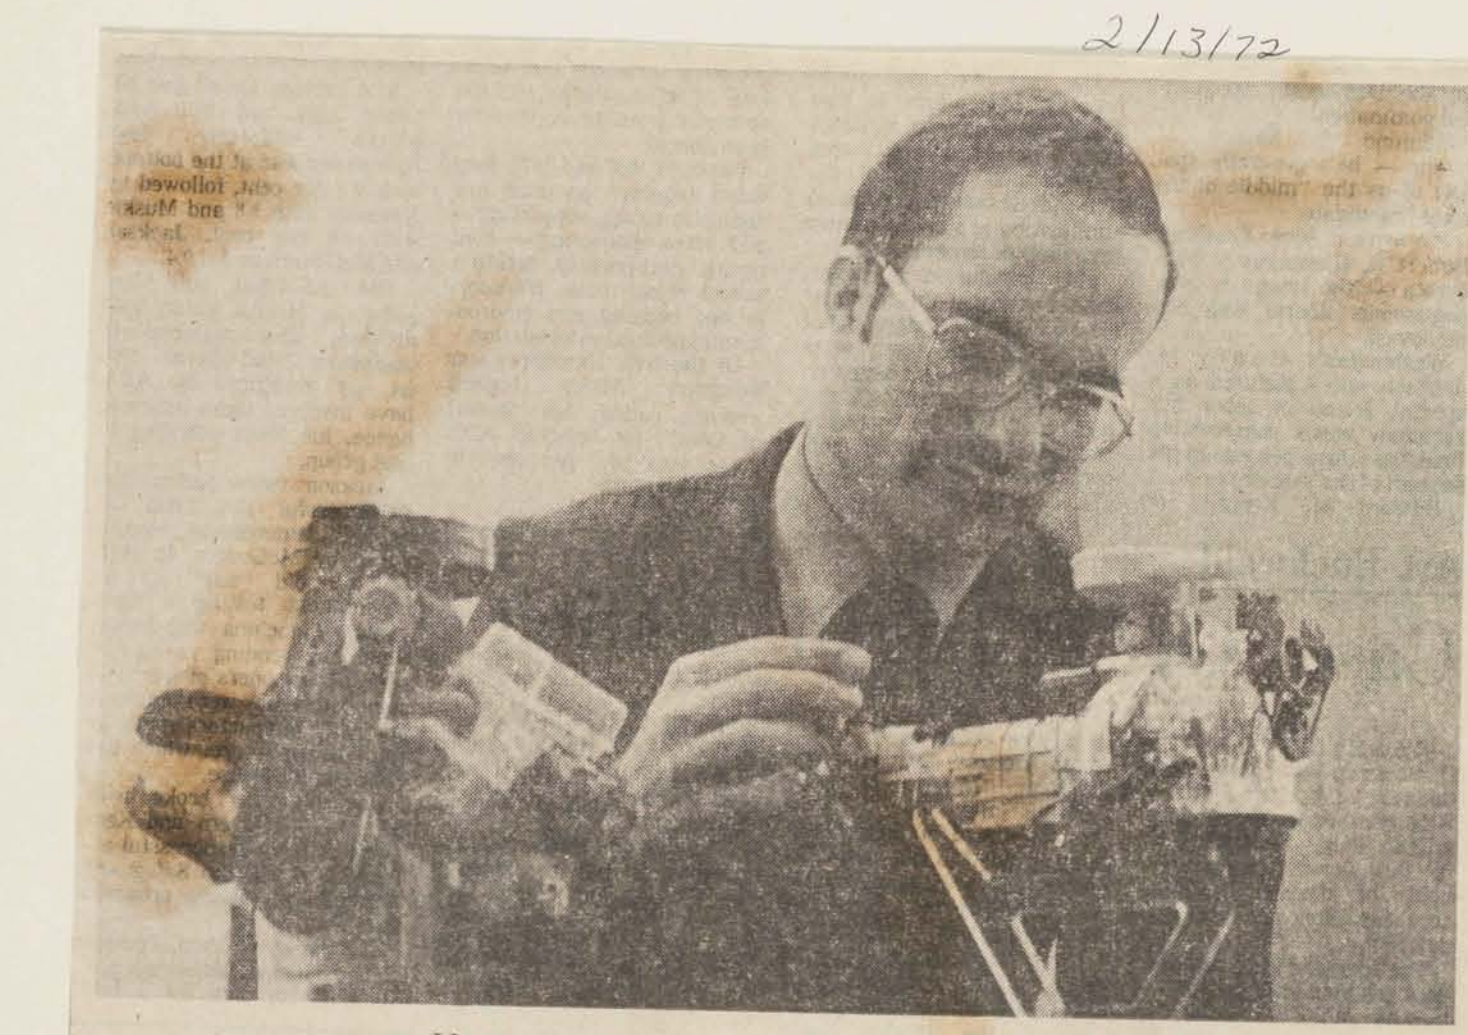

PRESIDENTS, business managers and librarians from 15 technical institutes and community colleges will meet in the Education Building of the Department of Community Colleges in Raleigh Wednesday.

Participating will be officials from Fayetteville, Anson, Bladen, Central Carolina, Durham, W. W. Holding, Johnston, Montgomery, Piedmont, Sampson, Richmond, Robeson and Stanley Technical institutes, and Sandhills and Southeastern Community colleges.

Dr. J. Reid Parrott, vice-president for administrative services, and Mrs. Vera Melton, director of library services, will preside.

CUMBERLAND County sales of U.S. Savings Bonds reached \$2,612,294 during

21/72

Hunt Examines Rotary, V-8 Engines

FTI Studies Rotary, V-8 Engines

Models of the revolutionary Wankel rotary engine and the traditional V-8 have been built by Joseph Hunt, chairman of FTI's mechanical engineering department. Hunt built the replicas for the students in his thermodynamics class.

These models are 1-5 scale and are activated by pressing a small button which switches on the battery-driven mechanism.

A small, light-weight engine, the Wankel bears the name of the consulting engineer who perfected the principle first used in 1888 as a part of a water pump in the eighteenth century. James Watt tried, but failed, to use the same principle in the steam engine.

The Wankel rotary engine replaces the piston and crank assembly with a single rotating disc which has three lobes forming chambers.

The material for the discs

presented a major challenge. They had to withstand high temperatures, without the usual incident of easy breakage of the triangular shaped discs. In 1954 Felix Wankel designed the engine and developed oil seals. It was ultimately built in 1957.

"Because the principle is comparable to the V-8," remarked Hunt, "maintenance of this engine should prove easy to learn for the traditionally trained mechanic."

The engine's patent has been licensed to a German, and a Japanese, automotive firm. In the U.S., General Motors has purchased rights for research purposes. A model airplane manufacturer is using the Wankel rotary engine which weighs 14 ounces and produces 12 horsepower.

Hunt foresees a great future for the use of the Wankel in chain saws, small aircraft, lawn mowers and pumps, emergency generators and tractors. He also predicts the Wankel as the favorite engine of the future for racing enthusiasts because it runs at high speed with better balance than the V-8.

"Although the Wankel is still in the experimental stage," commented a second FTI instructor, Ed Smith, "it is soon to replace the V-8. The Wankel is a beautiful engine."

21/72

Reagan Brown chats with Fayetteville Technical Institute's Director of Extension, William L. Bryant.

BROWN SPEAKS AT BUSINESS AND INDUSTRY BANQUET

Joan MacMillan, Public Relations Director, Fayetteville Technical Institute.

Noted sociologist, Reagan V. Brown of Texas A & M University, was the featured speaker at Fayetteville Technical Institute's Second Annual Business and Industry Banquet, September 1st at Green Valley Country Club.

The following day eighteen separate seminars were held on the Fayetteville Tech campus. Moderators for each discussion group were chosen for their skill and experience in the topic subjects.

Brown is a widely known educator and a sought-after public speaker. Selected as the 1968 "Texan of the Year in Agriculture," Brown is often called "Mr. Community Improvement." A member of the summer faculty at Colorado State University, his classes in human relations attract students from all over the United States and many foreign countries.

One hundred-fifty men and women attended this year's Business and Industry Symposium sponsored by the Director of Extension at Fayetteville Technical Institute.

For adults only
winter '71

Call **LIFELINE**

Q. I am interested in taking a vocational course at home but how can I find whether a particular school is accredited. Can you help? — D. K. C.

A. You can obtain a directory of accredited private home study schools from the National Home Study Council by writing 1601 18th Street N.W., Washington, D.C. 20009.

Q. How can a person become a nurse's aide? What training is required and where can you get this? — M. S.

A. Nurses aides are not licensed but Cumberland County hospitals look to Fayetteville Technical Institute to provide training for them. The institute will offer another 75-hour course beginning next September to help applicants obtain needed entry skills. Classes are held on Monday and Wednesday or Tuesday and Thursday. 2-6-72

Student Returns For Degree

Former Fayetteville Tech student David Wayne Adcock has returned to FTI to intern for his bachelor's degree in technology. Two years ago, he was one of 20 selected for Appalachian State University's pilot program leading to a "B.T." An environmental engineering technology major at FTI, he is now conducting labs in applied microbiology before men twice his age.

Purpose of the internship program is to provide supervised teaching experience for men and women who have earned their associate degrees in applied science at technical institutes and community colleges and are preparing to instruct in their elected fields. They receive the usual general education courses at Appalachian in addition to the quarter assigned to intern.

A second FTI graduate, Liz Hernandez, is in the same program and majored in secretarial science prior to entering the Boone campus. Her internship is being spent at Western Piedmont Community College in Morganton.

The technology degree is of major interest to educators not only in North Carolina, but throughout the South. It is hoped that these men and women will help fill the instructional vacancies in post-secondary institutions primarily concerned with vocational education. As more and more industries come to the area, the need for skilled technicians increases.

Adcock is a graduate of Terry Sanford High School and earned a 3.5 scholastic average at FTI. He is a member of Sigma Tau Epsilon fraternity, and is taking a minor in Industrial Arts at Appalachian.

When asked how the two campuses compared, Adcock said FTI was the more demanding in its program. "Especially the time spent in labs and class. I have more free time at Appalachian."

William L. Bryant Will Address Woman's Club

William L. Bryant, director of the Extension Program at Fayetteville Technical Institute, will be the guest speaker for the luncheon meeting of Fayetteville Woman's Club Friday at 10:30 a.m. in the club house on Heritage Square.

Mr. Bryant will discuss current trends in adult education, sponsored by the Education Department of the Woman's Club. Mrs. James H. Perkins, chairman.

Born in Andalusia, Ala., Mr. Bryant attended Stedman High School and received his B. S. degree in agricultural education from N.C. State College. He attended NCSTU on a graduate fellowship and in 1954 received his Masters of Education Degree. He did further graduate studies at Colorado State University. He came to Fayetteville in 1963.

Prior to coming here, he taught agriculture for 14 years in Wayne and Bladen Counties, was coordinator of Agriculture-Technology at FTI in 1963-64, and became director of Extension in 1964.

He is past president of the Lions Club in Seven Springs, Rotary Club in Bladenboro and former president of N.C. Adult Education Association. He is a member of the board of directors of N.C. Adult Education Association, and is serving on the Administrative Board of Haymount Methodist Church. He is a charter

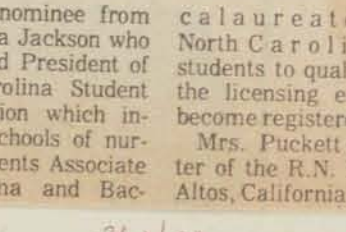

Mrs. Puckett Named FTI Nurse Of Year

Fayetteville Tech's Ruth Puckett was chosen "Student Nurse of the Year" by the students of the Associate Degree Nursing Program of FTI. She represented the institute at the District 9 competition where she won first runner-up for the contest.

She is the wife of Lt. Wayne Puckett and a graduate of the University of Seattle where she received her Bachelor of Arts Degree. A first year student in Fayetteville Technical Institute's Associate Degree Nursing Program, Mrs. Puckett competed in the finals with representatives from Hamlet School of Nursing, Southeastern Community College and the UNC School of Nursing at Wilmington.

Last year's nominee from FTI was Brenda Jackson who was also elected President of the North Carolina Student Nurse Association which included 44 schools of nursing and presents Associate Degree, Diploma and Bachelor's degrees.

Mrs. Puckett is the daughter of the R.N. Laude of Los Altos, California.

Mrs. Ruth Laude Puckett

21/72

Scott Says Vocational Aid Pushed

FAYETTEVILLE (UPI) — Gov. Bob Scott said Thursday financial support of vocational education in North Carolina has increased well over 100 per cent in the last four years.

Scott, in remarks prepared for a conference of industrial developers and community college presidents, said this "illustrates in rather dramatic terms the determination of my administration to keep pace in this very vital field of education."

Scott said appropriations for the community college system for the current biennium show an increase of 133.2 per cent over the past biennium. Appropriations for vocational education in the public schools showed a 101.8 per cent increase.

The governor said occupational education must be emphasized because the preoccupation with the baccalaureate degree has become almost a fetish in our society.

Scott said there were "mistaken notions" that the community colleges were "a system of academic social climbers — institutions bent on becoming four-year colleges and universities."

2/5/72

Dental Observance Scheduled

Dental hygiene students at Fayetteville Technical Institute are visiting city elementary schools this week to give toothbrushing demonstrations in observance of National Children's Dental Health Week.

The students are also urging the students and their parents to practice regular home and professional dental care.

The dental hygiene service at FTI is concerned primarily with preventive techniques. Hygienists are the only members of the profession's auxiliaries who are permitted to work directly on the patient, and they help relieve the dentist's crowded schedule.

The service is available to the public on an appointment basis on Thursdays. The students are closely supervised by the department's faculty.

Area dentists have said the FTI program is a great asset to their profession because of the need for preventive procedures. Less than 30 per cent of the population seek a dentist on a regular basis, the profession said.

The county health department also has a dental program, aimed primarily at restoration work.

Dental Health Week, being observed this week, has also been noted by military and civilian authorities. A resolution was endorsed by county commission chairman Hector Ray, Mayor Jack Lee, Spring Lake Mayor W. A. Holland, Lt. Gen. John H. Hay of Ft. Bragg and Maj. Gen. John H. Herring of Pope AFB, saying, "Whereas the future is dependent on the good health of our children and youth, the citizens of tomorrow, and good health, physical and mental, can be achieved through good health habits, learned early."

FTI Holds Seminar

An educational seminar entitled "review of respiratory problems, their recognition and management" will be conducted at Fayetteville Technical Institute on Wednesday afternoon, March 15 from 1:30 p.m. to 4:30 p.m.

The seminar is designed for the medical professionals in the Fayetteville area and is presented as a community service activity by the Adult and Continuing Education Department of Fayetteville Technical Institute.

3/13/72

Public Meeting

Cumberland County candidates for public office will appear at a "Meet and Know Your Candidates" session in Paul Thompson Library at Fayetteville Technical Institute Wednesday at 7:30 p.m. The session will be sponsored by the Governmental Affairs Committee of the Fayetteville Area Chamber of Commerce.

Eighteen of the 25 candidates entered in the May 6 primary are scheduled for appeal to state their positions on major issues. Candidates appearing will include those for Seventh District Congressional seat, N.C. House and Senate and Board of County Commissioners.

The session is open to the public.

'More Than Coincidental' Scott Cites City As Example Of Industry-Education Ties

By BOB WILSON
Observer Staff Writer

Gov. Bob Scott Thursday night tied North Carolina's economic growth over the past decade directly to the development of the state's community college-technical institute system, and pointed to Fayetteville as "an example of the success of the program."

The governor was the featured speaker at a banquet at Green Valley Country Club here which closed a two-day joint conference of the North Carolina Industrial Development Association and the North Carolina Association of Community College Presidents.

"Many factors have been involved in the economic gains chalked up over the last 10-15 years," said Scott, "but it is more than coincidental that this growth has paralleled both the development of our community college-technical institute system and the expansion of our industrial promotion efforts. Since the first industrial education center opened in Burlington in 1937, the system has grown to 56 institutions with enrollments of 338,000 — 171 different vocational and technical programs are being offered today and many thousands of workers are being trained for new industries locating in our state."

Pointing specifically to Fayetteville, Scott said that when the Fayetteville Industrial Education Center began operations in 1961, it had 109 students housed in a 35,000 square foot building. "Today," Scott said, "its buildings totaling 132,000 square feet are filled beyond capacity with 1,000 fulltime students, and another 5,000 citizens of this area are served by extension offerings."

"Now we must consider," he continued, "the industrial growth which has come to the community. In the last five years, the annual average work force in direct production jobs has more than doubled. Figures for 1971 show eight major industries in the area with a total em-

ployment of 5,000. And across the state, the story is similar."

Scott said that as he approached the end of his term as governor, "I am pleased that the advancement of vocational education will be a

part of the legacy I leave. During the last four years, appropriations to the community college system have increased more than 135 per cent, and during this same period of time, appropriations for vocational education in

the public school system have increased more than 101 per cent."

The governor said he also wanted to "dispel a couple of mistaken notions about our community college system — one that we have a system

of academic social climbers bent on becoming four-year colleges and universities, and the other that the system is oriented to college parallel work rather than occupational programs."

Scott pointed out that since

the system was established in 1963, "not a single community college or technical institute has become a four-year institution, and I know of none with a consuming desire in that direction."

Regarding vocational training, less than five per cent of the total enrollment in the system is college parallel work. Indeed, even in the 15 community colleges, the college transfer enrollment is far below enrollment in technical fields. To illustrate further, during the 1970-71 fiscal year, of the \$4 million spent for operation of the system, only \$4 million went to support college transfer students and the remaining \$4 million was spent for occupational and related instructional programs.

Scott was introduced by Dr. Dallas Herring, chairman of the State Board of Education. Herring called the industrial developers and community college presidents "two groups which form the state's greatest pool for leadership and economic development."

Presiding over the banquet activities was John Swope, executive director of the Fayetteville Area Industrial Development Corporation. The industrial group and Fayetteville Technical Institute served as hosts for the conference.

GOVERNOR VISITS—Gov. Bob Scott visits Fayetteville Thursday night to address members of the N.C. Association of Public Community College Presidents. Here, he's shown with Howard Boudreau (left),

president of Fayetteville Technical Institute, and John Swope, executive director of the Fayetteville Area Industrial Development Corp. (Observer photo — Bill Shaw)

Graduation For Adults Is Planned

Ceremonies are set for next Wednesday, April 26, at which 259 adults will receive high school diplomas from Fayetteville Technical Institute.

The program will begin at 8 p.m. at Cumberland County Auditorium. The Rev. Dr. C. R. Edwards, pastor of First Baptist Church, will give the commencement address.

FTI Graduates Employed In Varied Technical Jobs

The week of Feb. 22 has traditionally marked National Engineers' Week in order to commemorate the birth of the first President of the United States who was also the foremost American engineer.

This year, Fayetteville Technical Institute's mechanical engineering technology instructors decided to mark the occasion by learning what kinds of jobs some of their alumni are doing. The results were gratifying to the faculty. Their graduates have high paying and varied technical engineering careers.

John Simmons, class of '70, is with the North Carolina Natural Gas Co. There his duties consist of maintaining and updating more than 1,000 maps and associated records covering the company's vast network of underground pipeline facilities. He also assists in the preparation of detailed construction applications required to install these underground facilities.

His instructor remarked that on any given work day, John may be called upon to read, interpret or change numerous maps from the

company's 42 distribution systems in North Carolina's eastern communities. Over 900 miles of high pressure gas transmission lines make up the network feeding the individual community systems as well as 75 major industrial plants throughout the eastern part of the Tar Heel State.

"I feel," said Simmons, "the training I received during my two years in mechanical engineering technology at FTI prepared me to handle these day-to-day duties. The associate degree program at Fayetteville Tech is a good one, and I highly recommend it."

Other graduates in the Fayetteville area include Jay Nichols at Put-Put planning their miniature golf course layouts. Belinda Davis and Justin Brehm in Fasco's design department. Dwayne Wilkes and Mary Swick prepare engineering drawings of plant facilities and new machine designs as well as correcting drawings of existing installations at Rohm and Haas.

William Murray was employed by Western Electric in

Greensboro after graduating from Fayetteville Tech but has now been given a leave of absence by that company in order to earn his B.S. Degree at NC State University.

Senior engineering aide, Leonard Symmek, was a member of the class of '68. He is in the nuclear equipment department of Babcock & Wilcox's Power Generation Division at Barberton, Ohio. Currently involved with the engineering of components for nuclear power plants for U.S. Navy vessels, Symmek commented, "I find what I learned in the technical program is invaluable to what I'm doing now. The practical training is quite applicable to a product-oriented industry."

Two years of technical training at FTI have led engineering technicians into fields undreamed of in Washington's day.

Duo Concert Program

The following is the program for today's duo concert by Joel Andrews, harpist, and Donald Adecock, flutist, beginning at 4 p.m. in the Paul H. Thompson Library at Fayetteville Technical Institute.

Sonata in F, Marcello; The

Little Shepherd, Debussy; Girl with the Flaxen Hair, Debussy; Arioso, Bach; Adagio, Bach; Sicilienne, Faure; Berceuse, Ravel; Tambourin, Gossec; Entracte, Ibert; (Intermission) Improvisation in the Pargyan Mode, Night Soliloquy, Kennan; and Sonata, Houbness.

FTI Golfers Bow

KINSTON — Fayetteville Technical Institute dropped its first golf match of the year Monday, losing to Lenoir Community College, 304-324. FTI plays host to Central Carolina on April 6 at Cypress Lakes.

Vets Will Find Friends In Community Colleges

By NANCY DUCKETT
N. C. Dept. Community Colleges

When Johnny comes marching home again he will find a friend in the state's technical institute-community college system.

More and more veterans are enrolling in the 56 institutions within the system as they find curriculums that suit their talents and tuitions that fit their pocketbooks. Presently more than 7,000 veterans are taking credit courses in these institutions.

In that veterans' educational allowances are based on their enrollment status (full time or part time) and the number of dependents and not on a school's tuition, this makes the technical institutes and community colleges particularly attractive to them.

For a technical or vocational program, the tuition fee is \$2.50 per credit hour, with a maximum tuition charge of \$32 per quarter. The college transfer tuition fee is \$3.00 per credit hour, with a maximum tuition charge of \$42 per quarter.

Technical institutes and community colleges have courses for the veterans who have not completed high school as well as the ones who are ready to enter a post-secondary program. Those who have not finished high school may study in the adult high school program or work toward their high school

equivalency certificate for a period of up to 12 months without the time being charged against their entitlements, according to Gilmore Johnson of the Division of Veterans Education, Department of Public Instruction.

In addition to the great variety of occupational programs in the community colleges and technical institutes and the freshman and sophomore years of college work in the community colleges that are attractive to veterans, several schools in the system have a special course for veterans called Agricultural Science and Mechanization. The two programs are cooperative projects involving the schools, the marine and army bases and the Employment Security Commission, according to Odell Faircloth, MDTA supervisor, Department of Community Colleges.

"The courses that make up Project Transition are strictly job oriented even though some of the men further their education after their discharges.

Among the areas of training are welding, coin machine servicing, auto mechanics, radio and television repair, basic drafting and surveying, and plumbing.

The national employment picture is thoroughly investigated by the Employment Security Commission prior to course selection. The

exception of Pitt, all of the institutes are offering the program in cooperation with the county school boards.

On a limited basis, North Carolina is offering occupational training courses to servicemen before they are discharged.

This training, called Project Transition, is funded through the Manpower Development and Training Act.

North Carolina's programs are appropriately offered through Coastal Carolina Community College near Camp Lejeune and Fayetteville Technical Institute near Fort Bragg.

The technical institutes are offering the training for farmers are Johnson, Pitt, James Sprunt, Sampson, Robeson and Piedmont. With

need for the training must be nationwide in that when the men are discharged they will settle all over the country.

According to follow-up surveys and letters the men have written to the schools, Project Transition has been a bang-up success in North Carolina. The discharged servicemen are finding employment and adjusting to their roles as civilians.

As one man wrote: "Because of the training I had at your school, I am going to be up for promotion long before the guys who started work at the same time I did, but who had not been trained."

Twain Meets

Typical of what is being done in the technical institute-community college system for veterans is a project recently conducted by Asheville-Buncombe Technical Institute. The technical institute held a Veterans Job Day where the twin did meet. Attending were approximately 200 veterans who recently returned to western North Carolina from Vietnam. There to greet them and to supply them with information on jobs, training and special programs for veterans were representatives from businesses, industries, U. S. Service, local and state governmental agencies, schools and colleges.

Poetry Reading Tonight

Richard Vela, of the Department of English at Pembroke State University, Campbell Reeves, Raleigh poet and book reviewer, and Maj. Herb Metoyer, composer and guitarist, of Ft. Bragg, will be presented tonight at 8 o'clock in Paul Thompson Library at Fayetteville Technical Institute under the auspices of the Fayetteville Museum of Art.

The "Evening with Three Poets" program is made possible by a grant from the North Carolina Arts Council to the Fayetteville Museum of Art. There will be no admission charge. All interested persons are invited to attend.

Community Effort Begun To Get Nurses On Jobs

By BILL WRIGHT
Observer Staff Writer

A community effort is being started to get inactive registered nurses back into the field to alleviate a nursing shortage at the county's two hospitals.

John Moulton, director of the Cumberland County Hospital System, said there are approximately 120 RN's in Cumberland County who are not working.

This is more than enough to fill the 51 nursing vacancies at the two hospitals, 42 at Cape Fear Valley, nine at Highsmith-Raney.

Moulton said many of these nurses fear coming back to work, because they have been out of the field for some time and the rapid advances that have been made in nursing in recent years.

To help them, Fayetteville Technical Institute has started offering a refresher course for registered nurses who have been inactive.

A new course will begin March 13. It calls for 70 hours of classroom work, with classes meeting Monday through Friday. It will end April 21.

It will be the second class offered by FTI. The first class was completed in November.

Moulton, who said the nursing shortage is "critical," urged nurses to get into the course and apply for work.

The 51 nursing vacancies are part of a total of 216 budgeted nursing positions at the two hospitals, almost a 20 per cent vacancy rate.

The refresher course is the best hope of filling the vacancies, he said.

Despite the shortage, Moulton said the level of nursing service in the two hospitals has not suffered. He has stretched the working hours of the nurses who are working to overcome the deficiency.

The nursing staff works overtime, many working as many as 80 to 90 hours a week, Moulton said.

"The nurses we do have are dedicated," Moulton said. Otherwise, the situation would be more critical.

The hospital also makes up for the shortage by using nurses' aides and orderlies to do many of the nursing tasks which they are qualified to do.

Nursing shortages are a familiar situation all over the nation, Moulton said.

Fayetteville has been more fortunate than many places, however, because of Ft. Bragg Military wives "have

brought vast experience and knowledge" in the nursing field into the community, and the two hospitals have used them wisely, he said.

It does, however, make the nursing staff more transient than in other communities.

Recent cutbacks in military personnel have reduced the number of nurses available from this source, Moulton said.

"We have the lowest number of military wives working now than we have had in the last six years," Moulton said.

There is one drawback to the military being here, Moulton said. While military men bring in wives to work in the hospitals, the single ones also marry nurses and take them away, and this has shown up in his statistics.

In North Carolina, there are about 7,800 RN positions unfilled, Moulton said.

But there are also about 3,100 RN's who are not practicing. And it is this source from which hospitals here and elsewhere hope to fill some of the vacancies.

FTI offers another source of hope for the hospitals through its associate degree program in nursing. A similar course is offered at Sandhills Community College in Southern Pines.

Twenty-One FTI Students In 'Who's Who'

Twenty-one students from Fayetteville Technical Institute have been selected as outstanding campus leaders and will be included in the 1971-72 edition of "Who's Who Among Students in American Junior Colleges."

Students were chosen by the campus nominating committee and the editors of the annual directory on the basis of their academic achievement, service to the community, leadership in extra-curricular activities and future potential.

Six hundred institutions from the United States and other countries of North and South America participate in honoring outstanding young men and women in their junior colleges.

Chosen from FTI were Kenneth R. Arnold, Loyd Blakeman, Donald Byrd, Charles Clapper, William Daniels, Richard Gray, Royce Houston, Miss Brenda Jackson, Miss Pickett Jameson, William Jones, James Koepke, Walter Kolody, Miss Anne Leamons, Miss Nancy Melvin, Robert Moore, Paul Moro, Bobby Perkins, Jonathan Rivington, John Reid, David Walters and Mrs. Catherine White.

FTI Holds Nursing Classes

Nine more persons signed up this week for the refresher course for registered nurses at Fayetteville Technical Institute.

Renewed interest in the course came as a result of a public appeal by Director John Moulton of the Cumberland Hospital System.

Until Moulton spoke out, only seven persons had enrolled. Sixteen nurses have now signed up, and the Institute has been flooded with inquiries.

Today, Moulton also appealed for women to get into FTI's course for licensed practical nurses. He called LPN an important part of the nursing team and said their help was vital to filling the gaps created by the shortage of registered nurses at the two hospitals here.

The refresher course for RN's was designed for nurses who have been out of the field for some time and have some reluctance to getting back in view of the advances that have been made in recent years.

Moulton reported a shortage of about 50 nurses at Cape Fear Valley and Highsmith-Raney Memorial Hospital, and urged FTI's nurses to take the refresher course and apply for work.

The course begins March 13, and will meet five days a week for six weeks.

ENTER COLLEGE SPRING QUARTER AT FAYETTEVILLE TECHNICAL INSTITUTE

Registration will be held Thursday, March 2nd, at 6:30 PM in the Student Lounge, second floor of the Paul H. Thompson Library. Tuition for the FTI Evening Courses in Liberal Arts is \$2.50 per quarter hour.

Upon completion of FTI's Associate Degree in General Education, students will be accepted as full-fledged juniors at several local colleges and universities. CAMPBELL COLLEGE, FAYETTEVILLE STATE UNIVERSITY, METHODIST COLLEGE and PEMBROKE STATE UNIVERSITY have agreed to accept the Associate Degree in General Education as the freshman and sophomore requirements for fulfillment of their baccalaureate work.

COURSE DESCRIPTION	MONDAY & WEDNESDAY EVENINGS	TUESDAY & THURSDAY EVENINGS	QUARTER HOUR CREDIT
ENG. 93, Developmental Grammar	7:00-9:30		3
ENG. 104, English Usage & Composition I		7:00-8:30	3
ENG. 105, English Usage & Composition II	8:30-10:00		3
HIS. 104, Western Civilization I		8:30-10:00	3
HIS. 105, Western Civilization II	7:00-8:30		3
HIS. 106, Western Civilization III		7:00-8:30	3
HIS. 201, American History I		8:30-10:00	3
HIS. 202, American History II		8:30-10:00	3
BIO. 202, Biology II		7:00-9:30	5
PHI. 101, Introduction to Philosophy	8:30-10:00		3
MAT. 108, Introduction to College Math			5
MAT. 109, College Algebra	7:00-9:30		5

Paraglide 2/24/72

Coming Events In Auditorium

The following events have been scheduled at Memorial Auditorium for the next several weeks. Information on tickets is available in newspaper advertisements and at the Auditorium box office.

- March 30 — David Cassidy in concert in the arena at 7:30 p.m.
- March 31 — Easter Soul Review in the arena at 8:30 p.m. Appearing will be Clarence Carter, Candi Staton, The Nitelites, Jean Knight, with special guest stars Junior Walker and the Allstars and the J & M Funkhouse Show and Band.
- April 3 — Wrestling at 8:30 p.m. in the arena.
- April 12 — The Carpenters in concert in the arena at 8 p.m., featuring Randy Edelman.
- April 12 — Cathedral of Tomorrow with the Rev. Rex Humbard in the auditorium at 7:30 p.m.
- April 13 — North Carolina Symphony in the auditorium at 9:30 a.m., in concert for city schools attendance only.
- April 14 — North Carolina Symphony in concert in the auditorium at 10:15 a.m. for Cumberland County schools attendance only.
- April 17 — Wrestling at 8:30 p.m. in the arena.
- April 19 — Jethro Tull in the arena at 8 p.m.
- April 22 — Gospel Sing in the auditorium at 7:30 p.m., featuring The Florida Boys, Kenny Parker Trio, The Prophets, The Harvesters and The Centurions. Sponsored by the Stedman Jaycees.
- FTI adult education graduation in the auditorium at 8 p.m.
- April 27 — South River Electric Membership Corporation annual meeting in the auditorium at 7:30 p.m.

2191 3/23/72 FTI Golfers Snare Victory

SANFORD — Fayetteville Tech opened its golf season Tuesday with a victory over the Central Carolina Tech Centurions.

The Trojans compiled a 380 total while the Centurions had 389. Jerry Dean of FTI was medalist with an 89 over the Sanford Municipal layout.

Concert Is Set

A concert featuring harp and guitar will be presented at Fayetteville Technical Institute Sunday at 4 p.m.

Joel Andrews, harpist, is musician-in-residence at FTI and will have as his guest, Robert Guthrie, guitarist and musician-in-residence at Sandhills Community College.

The public is invited to attend the concert in the Paul Thompson Library at Fayetteville Technical Institute. Admission is free. 3/11/72

Around The City

SMOKERS who want to kick the habit can attend a special clinic conducted by a physician-clergyman team at the Downtowner Inn next week.

The session, called the Five-Day Plan, consists of regular evening groups therapy sessions, films and a daily personal control program.

The program will be conducted locally by Dr. G. S. Schoepflin and the Rev. L. D. Groger of Fayetteville.

Group therapy sessions will be held from 7:30 p.m. at the Downtowner beginning Monday.

The program is sponsored by the Seventh-Day Adventist Church.

FRIDAY, April 7, is the last day for registration to vote in the May 6 primary. G. E. Edgerton, chairman of the Cumberland County Board of Elections, has announced.

That date is also the last day for transferring, Edgerton said. It is illegal to return to an old precinct to vote if you have moved 30 days prior to the election.

To assist new voters or transfers, the board offices in

the Courthouse Annex will be open from 9 a.m. to 1 p.m. on Saturday, March 18, and Saturday, March 25.

RETAIL SALES in Cumberland County exceeded \$40 million in December for a record monthly high and moved above the \$400 million mark for the first time in 1971, according to the Fayetteville Area Chamber of Commerce.

The December sales showed an increase of more than 18 per cent above sales in December, 1970. The yearly total marked an increase of almost 10 per cent above the previous year.

George W. Vossler, president of the chamber, said gains were recorded in each month of 1971 except January.

THE FINAL program in the 1972 "great decisions" series will be held Monday at Fayetteville Technical Institute.

Dr. James A. Allen of the department of health administration of the University of North Carolina will speak on "our crowded world."

The program will be held at 7:30 p.m. Monday in the school library.

An Evening With Three Poets

By Richard Vela

A thorn
is a leaf
curled
from the sun,

or you
closing
your hands
in a crowded room,
tightening
your lips
after each word.

Thorns
catch,
tear
without cruelty,
all flesh,

but nothing remains
without shadow.

By CAMPBELL REEVES

I was not strong at all
(she said)
merely competent
you never knew the
difference
pushing me out
away into the never
amiable night
where animals yapped
from strange places
and I never knew if they
were wolves or not.
I went and grew
as strong as twenty horses
twenty horses strong
and cunning
and surefooted as the
white unicorn
in the mythical wood
I change my skin
often
and can stand alone for
hours listening.

By HERB METOYER

Love is like a picture book,
Wisdom for the one who
looks
My love's like a missing
page
The more I love the
more I age.
Oh, the wind blows
North from Idaho.
Love is like a summer
breeze,
a gently rustle in the
trees
My Love's like a
hurricane,
That rips my heart
across the grain
Oh, the Wind blows,
North from Idaho.
Love is like a pretty song,
Once its sung, it lingers
on.
My Love's like a
chinese gong,
That chills my soul to
the very bone.
Oh, the Wind blows,
North from Idaho.

Richard Vela, newly arrived to North Carolina and professor in the Department of English at Pembroke State University, will be one of the poets presented at the Fayetteville Technical Institute Thursday, March 16, at 8 p.m. in a program made possible by a grant from the North Carolina Arts Council to the Fayetteville Museum of Art.

Of himself he says: "I am Mexican-American, born in Los Angeles and bred in Del Rio, Texas — at the edge of the hill country, the desert, the valley, Mexico and the U.S., but really not a part of any. I went to Catholic schools with Mexicans, Mexican-Americans, and Americans where we were all taught by Irish nuns. From there I scholarshiped to the University of Dallas where I gathered up philosophy and literature. Before coming to Pembroke, I taught English and Spanish at the Cistercian Preparatory School to the super-smart and super-rich and then, literature at Westark Junior college."

He has had poetry, criticism, reviews, and fiction published in EPOS, BITTER ROOT, SOUTHERN POETRY REVIEW, PEMBROKE MAGAZINE, ST. ANDREWS REVIEW, SOUTHWEST AND VOICES INTERNATIONAL. He currently has a novel in progress. If Richard Vela appeared alone on the program one should not miss the opportunity provided to hear him. But he will not be alone. Along with him will appear

Campbell Reeves. Once met

though her poetry, she can not be easily nor quickly forgotten. A Raleigh poet who was born in New Zealand, she reviews books for the News and Observer, and recently published a collection of poetry, BANE OF JEWELS. She has also been published in RED CLAY READER, SOUTHERN POETRY REVIEW, NORTH CAROLINA DECADE OF POETS, LONGVIEW JOURNAL, SPIRIT, GOLDEN QUILL ANTHOLOGY AND INTERNATIONAL ANTHOLOGY OF POETS. She is currently in the process of publishing a new book. If the chance to delight in her readings won't cause you to break your most rigid engagement, there will also be the talented music man

Herb Metoyer. And his guitar.

A Major in the U.S. army now stationed at Fort Bragg, he was born in Oakdale, Louisiana. He received a B.S. degree in Liberal Arts from Southern University, and became actively involved in songwriting in 1964 which resulted in the release of an album on a MGM label in 1965. This received a four star rating by Billboard Magazine. One of his compositions, "Mother, Fools Are a Long Line Coming", was recorded by Fred Neil on a Capitol Album, and this album was later selected by the Astronauts to be placed in the time capsule which was left on the moon. He was a first place winner in the 1970 all army composers-arrangers contest. His winning song was entitled, "Two Lost Children of Cumberland County."

The Fayetteville Museum of Art and the Fayetteville Technical Institute issue a cordial invitation to all to attend "An Evening With Three Poets" in the Paul Thompson Library. Immediately following the program, coffee will be served. Norman Sturdivant is chairman of the event and will serve as master of ceremonies. There will be no charge for admission.

3/16/72

Fayetteville Tech Gives Associate Degree Program

In July of 1971, President Howard E. Boudreau of Fayetteville Technical Institute announced a new curriculum in general education to be offered at FTI.

"This program, which leads to an associate degree, is designed to meet the needs of the area adults who wish to pursue post-secondary education systematically and unrestricted by specific professional or technical goals," explained President Boudreau. "In addition, students selecting general education courses may take as few as three, or as many as nine, quarter hours a session." Classes are held daytime and

evenings for the convenience of the students. An accumulation of 96 quarter hours in general education and relevant electives will lead to an associate degree from Fayetteville Technical Institute in a minimum of two years. FTI is accredited by the Southern Association of Colleges and Schools.

The general education graduates can transfer to Methodist College, Fayetteville State University, Campbell College and Pembroke State University from FTI. All four institutions have agreed to accept core curriculum and elective courses toward the fulfillment of their baccalaureate requirements.

Director of the general education program at FTI is Arthur Cavano. "An advantage of our general education curriculum program is its appeal to men and women in middle management, wives whose families are semi-independent, and those who crave to understand and appreciate the intellectual, political and rational world in which we find ourselves. This affords a means toward acquiring an orderly,

progressive awareness of the enriching factors contributing to our present and the determining factors of our future as individuals and as a people." Requirements for admission are under the jurisdiction of the Dean of Students and an applicant must have a certificate of graduation from an accredited high school or from the high school equivalency program.

"The general education curriculum is particularly

appropriate to men and women who have completed their high school diploma through FTI's off-campus, adult education division and to the veteran," explained Cavano. "Students wishing to transfer to Fayetteville Tech's general education program from other institutions and those wishing to begin college now rather than waiting for fall are encouraged to contact the Dean of Students. An advisor is assigned each individual during registration.

ECOLOGY COURSE—Students at Fayetteville Technical Institute check samples in the only two year associate degree course in ecology in North Carolina.

Around The City

THE METHODIST College Stage Band will present a popular music contest May 2 at 8 p.m. in Reeves Auditorium on campus.

The concert is an informal program of popular and rock music, planned and coordinated by students.

Vocal, instrumental and modern dance arrangements will be featured.

The concert is free to the public.

FAYETTEVILLE Technical Institute will hold its adult high school graduation program Wednesday.

The graduation exercises will be held at 8 p.m. at Memorial Auditorium.

A total of 258 men and women will receive high school diplomas from FTI.

TWO FAYETTEVILLE students have been selected to serve on the campus judicial board at North Carolina State University.

They are David N. Sinoski of 310 Hawthorne Road and Robert K. Hoy, 3036 Wedgewood Drive.

THE OBSERVANCE of "Textile Week" here is its third day. Mayor Jack Lee set aside the week of April 22-28 for the occasion through proclamation.

The observance is sponsored by Phi Psi, national textile fraternity, to highlight the role of textile industry in the American economy.

J. R. Hefner, division vice-president of Burlington Industries, said the U.S. textile industry employs almost 1 million persons.

He said in North Carolina, textiles is by far the largest single manufacturing employer, with more than 273,000 employed in textile plants.

Burlington has been a part of the Fayetteville community since 1929 and now employs 765 persons here.

Seminar Slated At FTI Mar. 15

An educational seminar entitled "Review of Respiratory Problems, their Recognition and Management" will be conducted at Fayetteville Technical Institute on Wednesday afternoon, March 15, from 1:30 p.m. to 4:30 p.m.

The seminar is designed for the medical professionals in the Fayetteville area and is presented as a community service activity by the Adult and Continuing Education Department of Fayetteville Technical Institute.

Dr. William DeMaria, Director of Continuing Education at Duke University Medical Center is coordinating the seminar. Dr. Sam McMahon, Assistant Medical Professor, and Mrs. Katherine Chalk, Registered Nurse of the Duke University Medical Staff are participating as a physician-nurse teaching team.

A cordial invitation to participate in the seminar is extended to physicians and nurses in the community. For additional information, contact the Director of Extension at Fayetteville Technical Institute, 404-4121, extension 25.

DENTAL CLINIC—The most recent members of FTI's faculty are shown in their department of dental hygiene clinic. Instructors Mrs. Tena McQueen and Mrs. Eileen Hoehn and Dr. David Dunham, chairman of the curriculum, try out their new equipment.

NEW LIBRARY—The Paul H. Thompson Library on Fayetteville Tech's campus houses the student union, bookstore, cafeteria and student activities offices. Designed by MacMillan, MacMillan & Shawcroft, Architects, it was officially dedicated Sunday, September 26, in ceremonies featuring Governor Terry Sanford, President of Duke University, as the main speaker. Over three hundred guests attended the reception and open house hosted by FTI's Board of Trustees.

Fayetteville Technical Institute Offering

- TRANSFER CREDIT (Associate Degree) in
 - Liberal Arts
 - Accounting
 - Air Conditioning Engineering Technology
 - Agriculture Business
 - Associate Degree Nursing (RN)
 - Business Administration
 - Civil Engineering Technology
 - Dental Hygiene
 - Electronic Data Processing
 - Electronics Engineering Technology
 - Environmental Engineering Technology
 - Industrial Management
 - Marketing and Retailing
 - Mechanical Engineering Technology
 - Secretarial Science (Technical, Medical, Executive and Legal)

and

- CAREER TRAINING (Diploma) in
 - Air Conditioning Mechanics
 - Architectural-Drafting
 - Automotive Mechanics
 - Carpentry
 - Electrical Maintenance
 - Machine Shop
 - Masonry (Brick Laying)
 - Practical Nursing
 - Tool & Die
 - Welding

Area Club News

Groups Schedule Course, Show

The mid-Atlantic regional conference of Alpha Kappa Alpha sorority, to be held at the Downtowner Motor Inn Friday through Sunday, will feature a keynote talk by Mrs. Florence Davis Crenshaw of Winston-Salem, who will discuss the sorority's responsibility as an agent for change. She is deputy director of the Model Cities commission in Winston-Salem.

Also taking a leading role in the regional gathering will be Mrs. Barbara Kenard Phillips of Winston-Salem, director of the Mid-Atlantic region, who is model cities coordinator for the Winston-Salem-Forsyth County Schools.

About 400 college women from North Carolina and Virginia are expected to attend the gathering.

The Azalea Festival Ceramic Show to be held at Wilmington April 14, 15, and 16th is making a special effort this year to attract entries from throughout the southeastern part of the state, as part of the festival's 23rd anniversary observance.

A special course in local plants and their environments will be offered in Fayetteville beginning today.

Offered by a joint arrangement between Fayetteville Beautiful, FTI, and the University of North Carolina, the course will be taught by Kenneth Moore, supervisor of the N.C. Botanical Garden.

The sessions, which are to be held each Thursday for five weeks, take place from 9 to 12:30 at the Science building at Methodist College. Although the first session was held this morning, there is room in the course for new students. Information is available through the director of extension at Fayetteville Technical Institute.

Ceramics prizes will be awarded for professionals, hobbyists, senior citizens and children 16 and under. In each division ribbons will be awarded for glaze, under-

glaze, glaze and stain combinations, sgraffito, and texture, lustres, stains, potters wheel and hand kolded. Two entries may be made in each category. Broken or mended

pieces will not be accepted. Mrs. Marion Rogers, special activities supervisor of the parks and recreation department, P.O. 1810, Wilmington, has entry blanks.

FTI Holds 'Charrette'

Fayetteville Technical Institute is currently holding a four-day "charrette" with eight students from N.C. State University and sixteen from FTI Area architects are acting as advisors to the students, who have been formed into three teams, as they compete in proposing a "creative arts center" for Fayetteville.

Starting Wednesday at 1 p.m., the project ended Saturday at 6 p.m.

Models and plans will be presented this afternoon at 2 p.m. in the Paul Thompson Library, and the public is invited to attend the

discussion of the various student solutions. Ronald Mace, FTI's instructor in architectural drafting, conceived the idea of inviting State's fifth-year students to participate in the program with Fayetteville Tech's second year students.

The seventy-seven hour charrette is the first one to be held at the Institute.

"Charrette" comes from the Beaux Arts school of Paris when architectural students rode to class in horse-drawn wooden wagons, or charrettes, as they frantically completed their assignments en route to class.

BACK TO SCHOOL — Ten registered nurses are going to school for six weeks to catch up on new trends in nursing. All have stayed home with families for periods ranging from four to 17 years. Shown are, in last row, Marion Spell, Gloria Buchholz, Harriet Treece, Joyce Lutz, in first row, Frances Gilchrist, Jessie Kennedy, Wanetta Carroll, Susan Hopkins, Bobbie Paul, Rosanne Gardella, and Mrs. David Gatewood, course instructor. (Observer photo — Blount)

School Bells Ringing For 10 Nurses

Mrs. Gloria Buchholz hasn't worked as a nurse for 17 years, but when she returns to paid employment in a few weeks she'll be up to date in more ways than one.

For her new uniform Mrs. Buchholz made the latest thing, a pantsuit; for her skills she enrolled in a tailor-made course for registered nurses facing the skills gap after a long layoff.

She and nine others are students at Fayetteville Technical Institute's refresher course for RN's. The course isn't required, though class instructor Mrs. David Gatewood believes it should be.

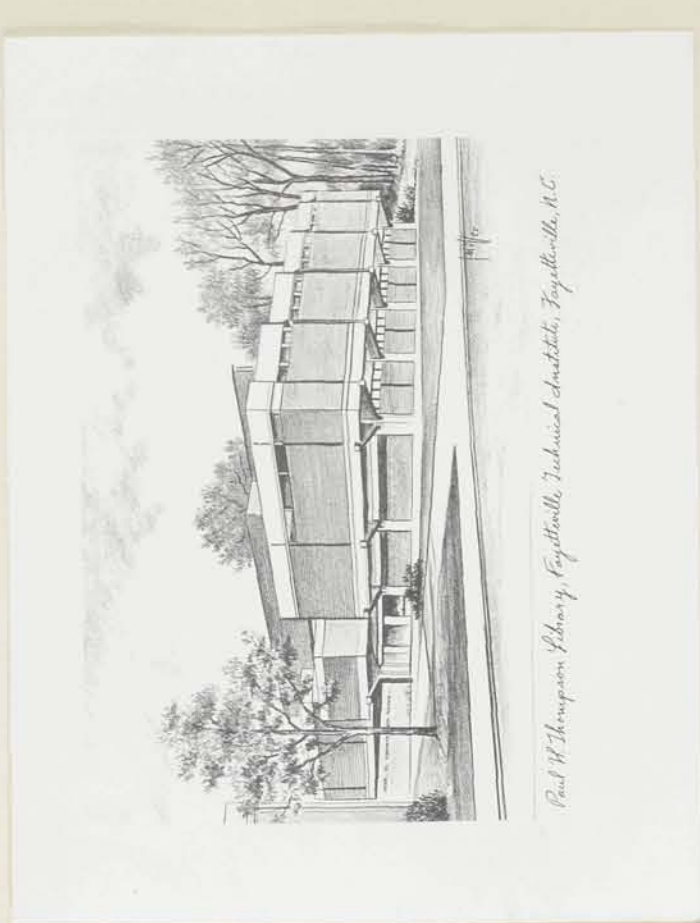

"The course is planned to avoid that moment of terror that we've all heard some nurse friend describe: alone on a ward or with a sick patient and expected to run a machine you've never seen before. And frantic that you didn't quite understand, that you might do it wrong."

The skills gap is serious for the nurse who tries to re-enter the field without catching up. Many states, including California, won't allow a nurse who cannot show recent working experience to go to work without retraining.

The ten enrollees at FTI would seem to be facing bright employment prospects; registered nurses are a scarce commodity.

But the ten students said in a group interview that there may not be a "shortage" so much as a mismatching of job and job-hunter. All of them have home obligations and would prefer daytime work; few believe they'll find hours that won't disrupt their home life to some extent.

But in spite of the adjustments they expect to make to become working nurses again, all ten students are excited about going back to work at last. One says her small daughter is thrilled at "my mommy the nurse" and has insisted Mom call for her at school in uniform "so my friends can see."

Paul W. Thompson, School of Fayetteville, Technical Institute, Fayetteville, N.C.

Ft. Bragg Firemen Eye High School Graduation

On April 26, a dozen Ft. Bragg firemen will trade their uniforms and asbestos suits for the traditional cap and gown of graduation.

The firemen will join 259 adults receiving high school diplomas at Memorial Auditorium after completing educational requirements at Fayetteville Technical Institute.

Ft. Bragg Fire Chief Harold Engle said the 12 firemen "showed a special form of courage" in completing their education "after so many years away from the studying routine."

Last fall, Chief Engle decided to have his men take a special advanced course in fire fighting, but found several of them had not finished high school — a requirement for enrolling in the advanced program.

With the approval of Military Facilities Director Col. James O. Baker, Engle contacted Fayetteville Tech and requested a class be offered for his men at Fire Station No. One in Mallico Village.

Instruction was under the supervision of C. M. Carraway who had retired from public school work in June with more than 40 years' experience as a classroom teacher and principal.

The firemen ranged in age from 37 to 58. Each man progressed at his own rate and since September all completed the required objectives for every grade level of high school.

Some of the firefighters had dropped out of school in the eighth grade. A couple had quit in their junior year to join the Army during World War II while others simply had stopped school in order to go to work.

Classes met from 6 to 9 p.m. on Mondays and Tuesday evenings. Unlike many

high school teenagers, these students averaged 95 per cent attendance for the year.

Fifty-eight year old David H. Vinson, assistant chief in the Fort Bragg Fire Department, and grandfather of 10, was somewhat reluctant to enroll and uncertain of success in the program. But Carraway maintained he had done "outstanding work."

Twice classes had to be set aside due to major fires on the post. Often the class was stopped while the men answered a fire alarm. Alarms are frequently the result of a malfunction in the signal's electrical system. Each alarm, however, coming through the Mallico Village Fire Station Switchboard requires the men to dress out and answer the call.

HITTING THE BOOKS — Ft. Bragg fireman R. P. Winstead catches up on some studying. He and eleven other firemen will receive high school degrees April 26.

CAREER OPPORTUNITIES AWAIT OUR GRADUATES

KATHY HARDEE LASSITER at her drawing board in the Highway Commission.

She Chose Drawing Board

By NANCY DUCKETT RALEIGH — If it hadn't been for the advice of a guidance counselor at Fayetteville Technical Institute, Kathy Hardee Lassiter would probably be sitting behind a typewriter instead of a drawing board.

Kathy, like so many girls her age, thought the only courses for the distaff side to take at a technical institute were in the secretarial field, but she found out different when she went for an interview prior to entering Fayetteville Tech. The dean of student affairs, Niles Compton, immediately saw Kathy's aptitude for math and realized she would be a natural in an engineering technology program, specifically civil engineering technology.

Mr. Compton says that more and more he is guiding girls into the engineering technology programs at the institute. "There is a tremendous market for women in the engineering technologies," says Mr. Compton.

Kathy has found out for herself that the curriculum she chose was the right one for her. With a broad smile on her face, she said, "My father thought it was the worst thing in the world, but he has come around now. Way back he wanted me to be a school teacher."

Kathy now holds a responsible, well-paying job as an engineering technician with the North Carolinian Highway Commission, where she and one other young woman, also a graduate of Fayetteville Tech, are surrounded by a room full of men. But neither woman is daunted by this unbalanced ratio.

The young Mrs. Lassiter says, "I prefer working with men to women." And she added, "There is no other field in the world I would be happier in; however, I don't think all girls would be suited, but many are."

Kathy, who is a petite young woman with shining Auburn hair, has been employed by the Highway Commission ever since her graduation from Fayetteville Tech in 1968.

The commission's assistant state design engineer, Henry Clegg, is well pleased with the women engineering graduates that have worked in his division. "We know if a girl has come through the civil engineering technology program, she has made a special effort and is 'good' in math," said Mr. Clegg.

Mr. Clegg, who would hire a woman as quickly as he would a man, sees the major drawback in hiring women with children are the trips to doctors and dentists. But he admitted, "They are mother first and they should be."

Kathy and her husband are the parents of a year-old son named Marty. The Lassiters live in Four Oaks with her commuting to Raleigh each weekday and her husband traveling to his job at Burlington Mills in Erwin.

She is a native of Benson and the daughter of Mr. and Mrs. Weldon Hardee.

WEATHER PRECAUTIONS — Jimmy Jones, superintendent of Fayetteville's street and sanitation department, lights a heater to try to protect rose bushes at Fayetteville Technical Institute. Possible freezing temperatures were predicted by the weatherman for Saturday night. (Observer Photo — Dick Blount)

Boating Course

Julius Nelson, commander of the Fayetteville Power Squadron and Robert Rice, education officer, have announced that 102 area residents have completed a basic boating course.

The twelve week course taught by local Power Squadron members covered safety afloat, seamanship, aids to navigation, trailering, navigation charts, river and lake piloting, mariner's compass, rules of the road, government regulations, small boat handling, towing water skier, and course plotting.

The next Basic Boating Course open to the public will begin September 9th at Fayetteville Technical Institute.

Area Colleges Offer Varied Courses

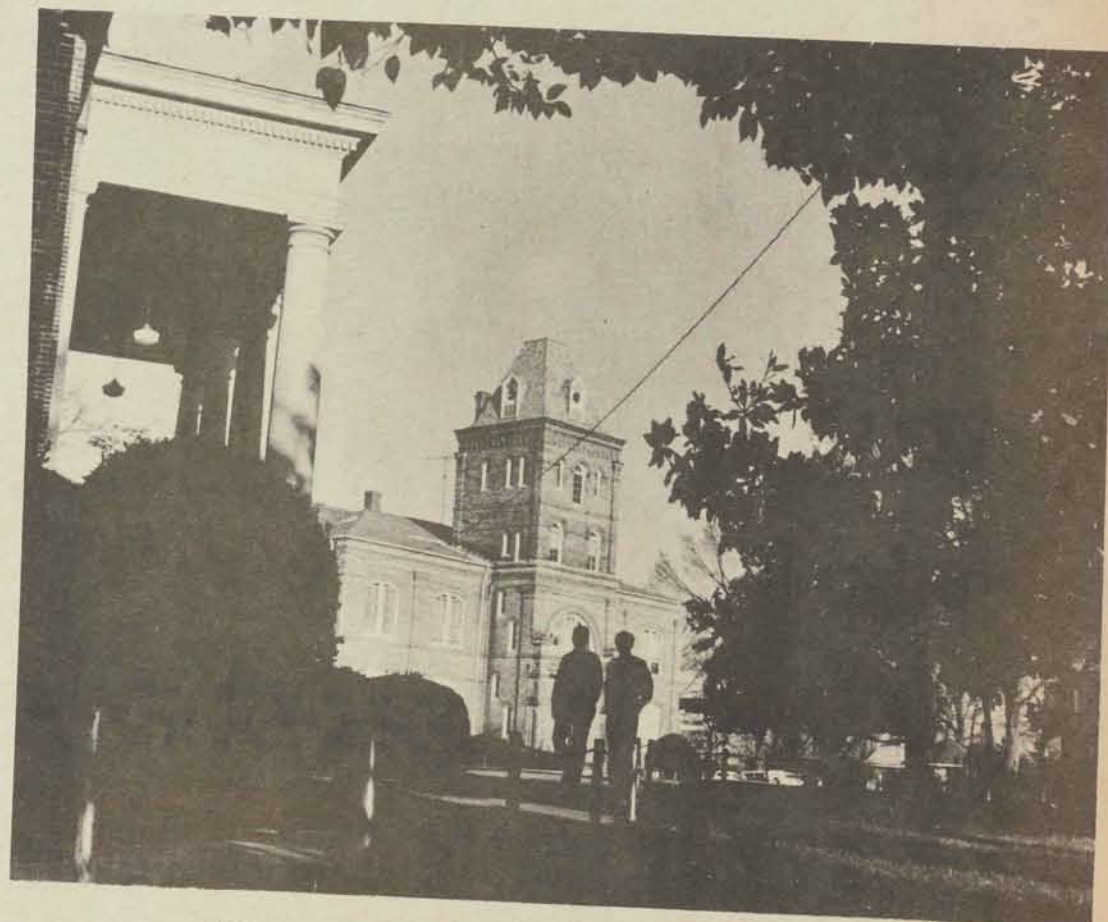

The Dunn (N. C.) Dispatch—Monday, April 10, 1972—A-1

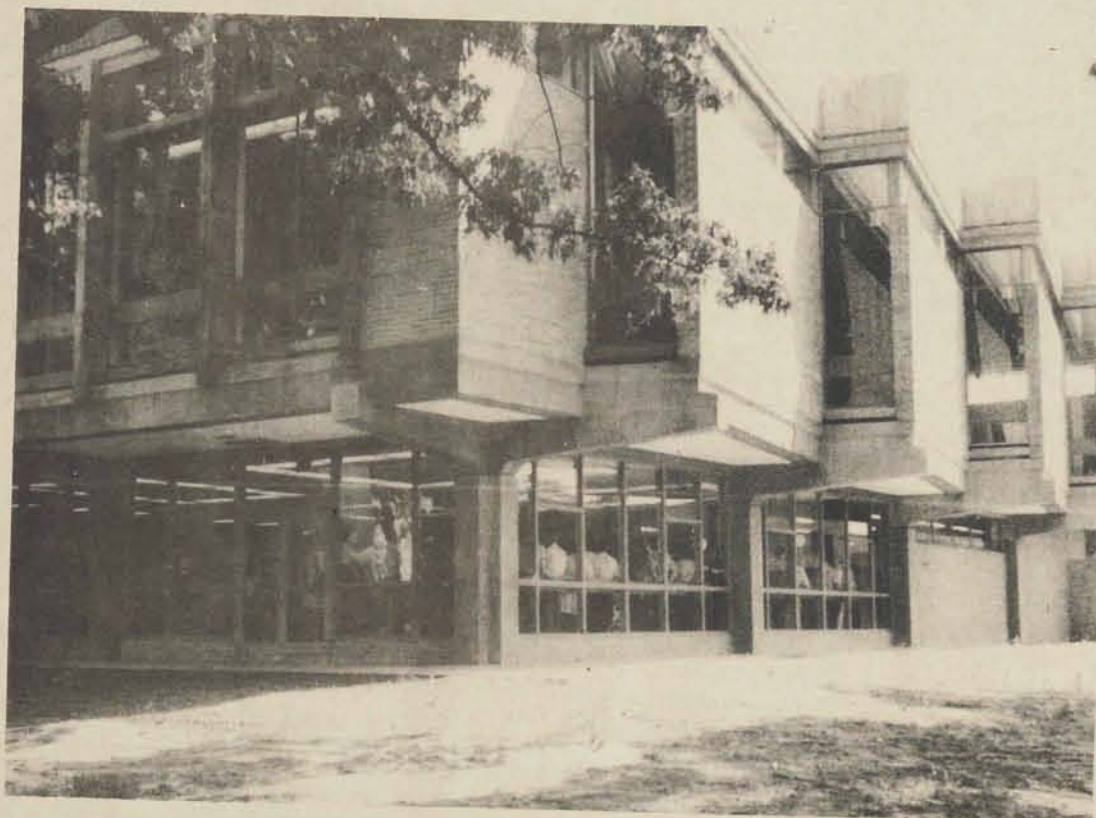

JOHNSTON TECHNICAL INSTITUTE

As higher education, adult education or technical skills become more important to a successful future, young people completing high school in the Dunn area are especially fortunate to have almost any type of further instruction they may wish, and close at hand.

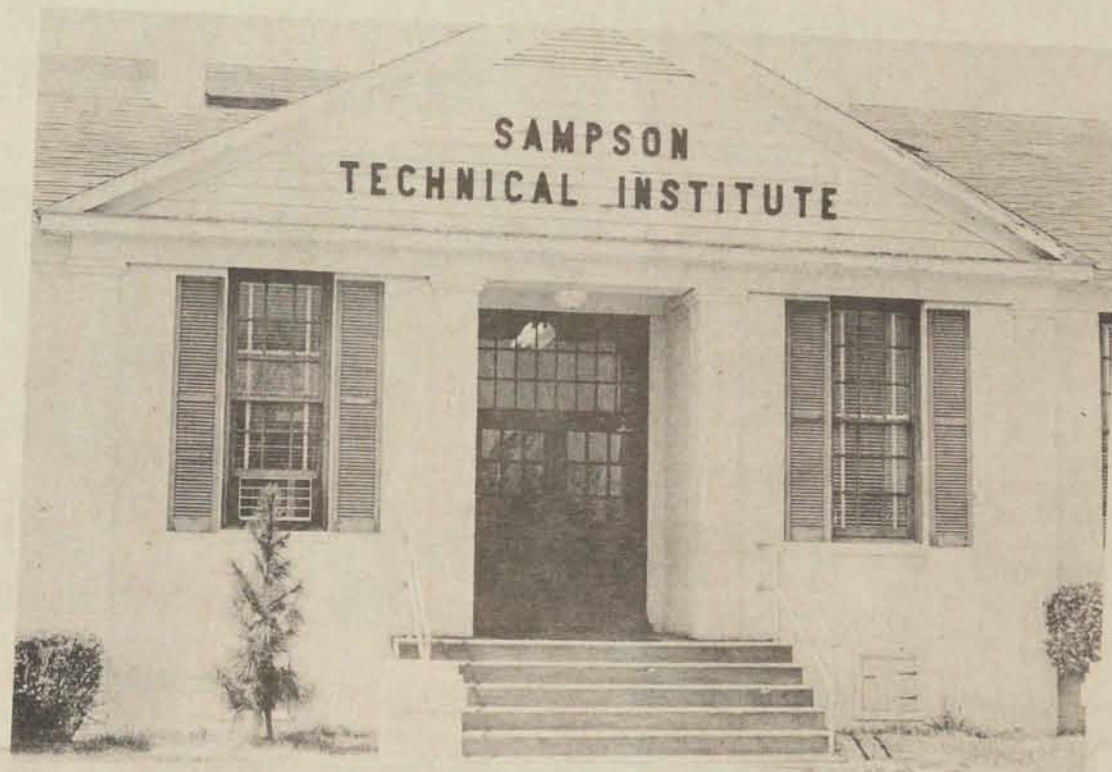

Within a 25 to 40 mile radius are four-year colleges, junior colleges, community colleges, and many of these institutions also conduct adult classes even closer to the students' homes, working with local education authorities and interested citizens or organizations. The Dunn Dispatch, in this annual college section, salutes these fine learning institutions.

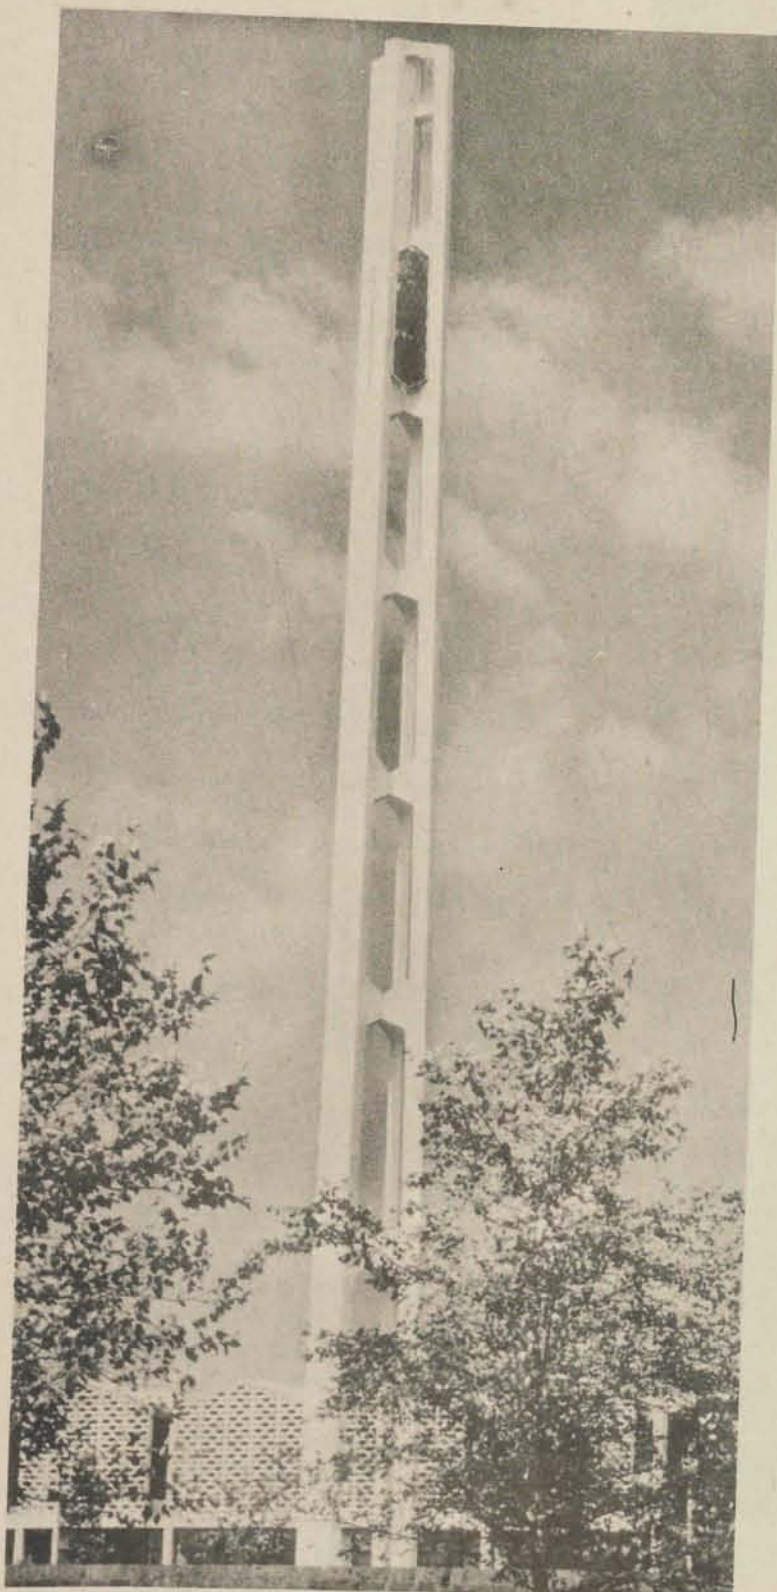

KIVETT HALL, CAMPBELL COLLEGE LANDMARK

PAUL H. THOMPSON LIBRARY, FAYETTEVILLE TECH

SAMPSON TECHNICAL INSTITUTE

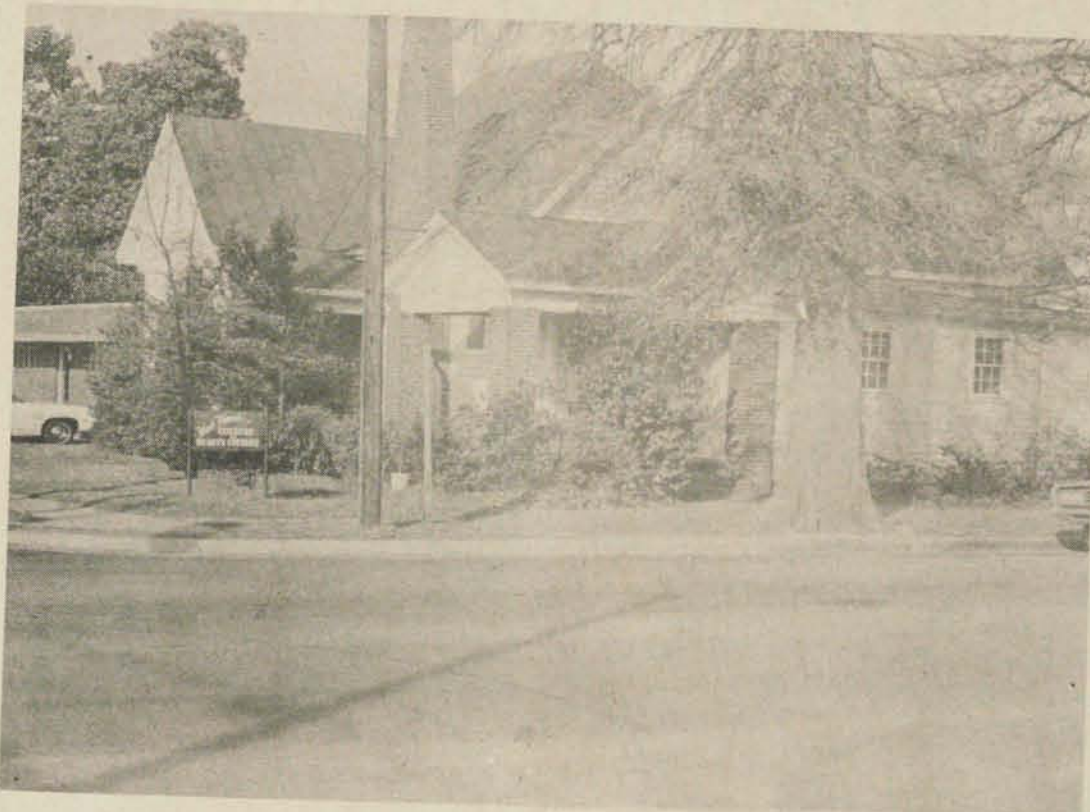

METHODIST COLLEGE, FAYETTEVILLE

On the pages inside this section will be found partial information about colleges serving this area. It would be impossible to carry the complete story, but this information will be helpful to the student interested in attending a college and the schools themselves will be happy to furnish any additional information desired.

The advertisements and news features should be of interest to all students nearing completion of their high school years and parents of such students.

It is recommended, however, that interested persons contact the schools as early as possible to most nearly be sure of enrolling in the school and the courses wanted with the least delay.

HANK HANNA COLLEGE OF BEAUTY CULTURE

CENTRAL CAROLINA TECHNICAL INSTITUTE, SANFORD

Emergency Medicine Topic For District 14 Nurses

"The World of Emergency Medicine" was the topic when Thomas Little, educational and training specialist in the Traffic Safety Section of the North Carolina State Board of Health, spoke at the April dinner meeting of District 14 of the North Carolina State Nurses Association at the Concord House in Clinton Tuesday evening.

In his present position, Little is primarily involved with ambulance and rescue training. He is a graduate of Lenoir-Rhyne College and Lutheran Theological Southern Seminary. The speaker has been a public school teacher and an ambulance attendant. As a Red Cross and Water Safety courses over a ten-year period. Little is also a Certified Emergency Medical Technician.

"First aid is the immediate and temporary care given to victims of an accident or illness until further medical assistance can be rendered," stated the speaker in opening his talk. He went on to trace the history of emergency medical care from the early Egyptian era to the years of World Wars I and II, when advanced techniques in this area were developed.

Little cited North Carolina as being foremost of the states in the adoption of regulations governing emergency medical care. These regulations cover equipment carried on ambulances and rescue trucks, inspections of this equipment by county health departments, and the requirement of certification for ambulance workers. "For every worker who rides an ambulance in North Carolina must have completed at least one standard Red Cross First Aid Course. However, of the 3,392 ambulance attendants in North Carolina, over 2,000 have completed 56 hours of training, or all of the training offered." He added that there are now 117 volunteer rescue squads in North Carolina that provide full-time emergency rescue service.

In closing his talk, the speaker described the nurse's role in emergency medical services. He advised the nurses present to get involved with the teaching of emergency and first aid courses. "Also, one of the most important things that the nurse can do is to help keep the lines of communication open between the emergency services and the hospital staff," he emphasized.

Introducing the speaker was Mrs. Marie Kelley, first vice president. Capt. Joe Caldwell, president, welcomed guests from Simpson Memorial Hospital, M. S. Ann Grant, Mrs. Cynthia Kirkman, staff nurses, and

Miss Virginia Winslow, director of nursing. He announced that May is designated as District 14 Membership Month when each member will be asked to recruit one new member.

In closing the meeting, Capt. Caldwell stated that the next meeting would be a covered-dish supper at the Red Cross Chapter House in Fayetteville when the Associate Degree Nursing Students at Fayetteville Technical Institute will present a skit based on the reasons why a new graduate nurse should join her professional organization. The date for this meeting is May 9 at 7:00 p.m.

Qualified nursing school graduates of Sandhills Community College and Fayetteville Technical Institute are now eligible for commissions as officers in the U.S. Air Force.

According to Capt. Barbara A. Shaver, Air Force Nurse Coordinator for eastern North Carolina, the Air Force will accept applications from graduates of the two nursing schools because of a policy change by the Air Force Nurse Corps.

The new policy enables nurse graduates of all schools accredited by the National League of Nursing to apply for Air Force commissions, Capt. Shaver said.

She added that Sandhills Community College and Fayetteville Technical Institute are the only North Carolina associate degree schools which have National League of Nursing accreditation.

Prior to the change in policy, nurse graduates of two-year schools could not apply, she said.

BACK TO SCHOOL - Ten registered nurses are going to school for six weeks to catch up on new trends in nursing. All have stayed home with families for periods ranging from four to 17 years. Shown are, in last row, Marion Spell,

Gloria Buchholz, Harriet Treece, Joyce Lutz; in first row, Frances Gilchrist, Jessie Kennedy, Waneta Carroll, Susan Hopkins, Bobbie Paul, Rosanne Gardella, and Mrs. David Gatewood, course instructor. (Observer photo - Blount)

16 Nurses Answer Call

For the past few months, the Fayetteville Observer has focused attention on the need for inactive registered nurses to return to work in Cumberland County.

As a result of the newspaper's articles, and an appeal by hospital system director John Moulton, nine inactive nurses signed up with seven other students for a refresher course for registered nurses at Fayetteville Technical Institute.

As Moulton explained, many inactive registered nurses fear coming back to work because during their absence from the field, rapid advances have been made in nursing.

The new refresher course at FTI can alleviate problems in this area. It calls for 70 hours of classroom work with classes meeting Monday through Friday.

In pointing out the critical nursing shortage, Moulton also noted that the nursing staff of the Cumberland County Hospital System often works overtime, many up to 80 or 90 hours a week.

"The nurses we do have are dedicated," Moulton said. Otherwise the situation would be more critical.

Fayetteville has been more fortunate than many other places because of Ft. Bragg. Military wives have "brought vast experience and knowledge" in the nursing field into the community, and the

community has used them widely, he said.

The military situation does make the nursing staff more transient than in other communities. And recent cutbacks in military personnel have reduced the number of nurses available.

The lowest number of military wives are working now in Cumberland's hospitals than has been the case in the last six years, Moulton said.

Another drawback of the military is that while military men bring in wives to work in the hospitals, the single ones also marry nurses and take them away.

In March, Cape Fear Valley and Highsmith - Rainey hospitals had a total of 51 nursing vacancies. In North Carolina, there are about 7,800 RN positions unfilled, Moulton said. But there are also about 3,100 RNs who are not practicing.

This is the source from which hospitals here and elsewhere hope to fill some of the vacancies.

FTI offers another source of hope with its associate degree program in nursing and a similar course is offered at Sandhills Community College in Southern Pines.

Organizational Meet Set By Practical Nurse Class At FTI

The Practical Nurse Education Class at Fayetteville Technical Institute is sponsoring an organizational meeting Thursday, June 8, at 7:30 p.m. in the upstairs lounge of the Paul H. Thompson Library on the FTI campus. Mrs. Elizabeth Crowder, secretary for the North Carolina Licensed Practical Nurses Assn., will be present.

A novel approach through the use of experimental theatre techniques in which the audience is expected and

Cultural Events

The Fayetteville Art Guild is sponsoring its first annual "On the Green" Art Show today in Cross Creek Park on Green Street as a special event of Fayetteville Beautiful Week.

"This competition will bring the work of artists from the entire state and present it in a natural outdoor setting," said Mrs. Monroe Evans, chairman of the show. Co-Chairmen of this event are Mrs. Bobbie Bennett and Mrs. Charles Jamison.

Entries will be judged for Awards which will be presented at 3:30 p.m. by Mayor Jackson F. Lee, and will include purchase and cash awards in various categories and appropriate ribbons," added Mrs. Evans. The cash Awards will be given by First Union National Bank, Sears Roebuck and Company and Bordeaux Shopping Center.

Following the Awards presentation by Mayor Lee, special entertainment will be presented by the 82nd Airborne Chorus and noted vocalist, Janet Watkins, with piano accompaniment.

In the event of inclement weather the Show and all activities will be moved to the First Presbyterian Church Fellowship Hall.

The Fayetteville Museum of Art will present the portraits of local artist, William

C. Fields, in a one man show at the Market House, today through Sunday, April 23.

The internationally known Mr. Fields returned to his native Fayetteville in 1962 after seventeen years of maintaining studios in New York and in Italy.

The public is cordially invited to meet Mr. Fields at the formal opening of his "one man show" today between 2 and 5 p.m. The show will be open from 10 a.m. to 4 p.m.

(Continued on Page 2)

Joel Andrews 4/16/72

Local, Area Graduates Are Listed

Local and area graduates and honor roll students continue to be reported to The Observer.

Rosemary V. Ford, 2340 Ramsey St., has received a master of arts degree from the University of Colorado.

Douglas S. Shafer, son of Lt. Col. and Mrs. Philip S. Shafer, 1388 Parsley Ave., has been named to the dean's list at Carson-Newman College.

Two local students were among 600 receiving degrees at Wake Forest University.

They are Gerald T. McCoy, son of Mrs. Marian McCoy, 1505 Murchison Road, and John W. Smith, son of Mr. and Mrs. Julian C. Smith, Spring Lake.

William Marshall Butler, a graduate of electrical engineering at FTI, was omitted from the list published recently.

Lynn G. Chandler was omitted from the list of graduates of the University of North Carolina.

Nursing Graduates Sought

Qualified nursing school graduates of Sandhills Community College and Fayetteville Technical Institute are now eligible for commissions as officers in the U.S. Air Force.

According to Capt. Barbara A. Shaver, Air Force Nurse Coordinator for eastern North Carolina, the Air Force will accept applications from graduates of the two nursing schools because of a policy change by the Air Force Nurse Corps.

The new policy enables nurse graduates of all schools accredited by the National League of Nursing to apply for Air Force commissions, Capt. Shaver said.

She added that Sandhills Community College and Fayetteville Technical Institute are the only North Carolina associate degree schools which have National League of Nursing accreditation.

Prior to the change in policy, nurse graduates of two-year schools could not apply, she said.

Week's Cultural Events

Continued from P-1B

The Junior Service League of Fayetteville will present Part I of "North Carolina Artist 1972" at the Frances Brooks Stein Memorial Library continuing through April 27.

This show will feature the winners of the 1972 competition from the North Carolina Museum of Art in Raleigh. The public is invited.

In cooperation with Fayetteville Technical Institute Fayetteville Beautiful will present as a special feature of the week a duo program of music featuring Joel Andrews, harpist, and Don Adeock, flutist, Sunday afternoon, April 23, at 4 p.m. in the Student Lounge of the Paul H. Thompson Library on the campus of Fayetteville Technical Institute.

Mr. Andrews has composed and performed many styles of music for solo harp, harp ensembles, poets, dancers, plays, film scores, exhibitions, radio and television. He has toured in solo concerts with his chamber groups adding flute, cello and soprano.

Mr. Adeock is Assistant Director of Music at North Carolina State University in Raleigh. He directs the Marching Band from East Carolina University and Columbia University in New York City.

FTI Golfers Win

WHITEVILLE - Fayetteville Tech defeated Southeastern Community College in a golf match here Monday, 3/21/72.

Ron Christopher and Jerry Dean both fired 81s for FTI, now 6-3. The winners meet Southeastern again next Monday at Cypress Lakes.

4/27/72

THE FAYETTEVILLE OBSERVER

SUNDAY MORNING, MAY 7, 1972

Out Of The Rough

(Continued from Page 2D)

Witnessing the event were J. W. Boyce, J. A. Purdie and L. J. Hildebrand.

Bill Bice and Steve Simmons notched eagles at OC, both coming on No. 18. Simmons' eagle was the third of his illustrious career - all on the same hole.

G. E. Peterson had his best ever, an 81, highlighted at the 15th by a tap-in birdie after reaching in two and missing a "short" eagle putt of 10 feet.

Eleanor Betts won the Ladies Spring Handicap low net honors and had her best ever with an 87. Marge Snowden won first-flight competition, Kitty Schwartzstein the second, Eleanor Jackson the third and Lucille Lyons the fourth.

Eagles by Bruce Gibson at No. 10 and Cindy Garner at No. 3 highlighted Cypress Lakes action this past week.

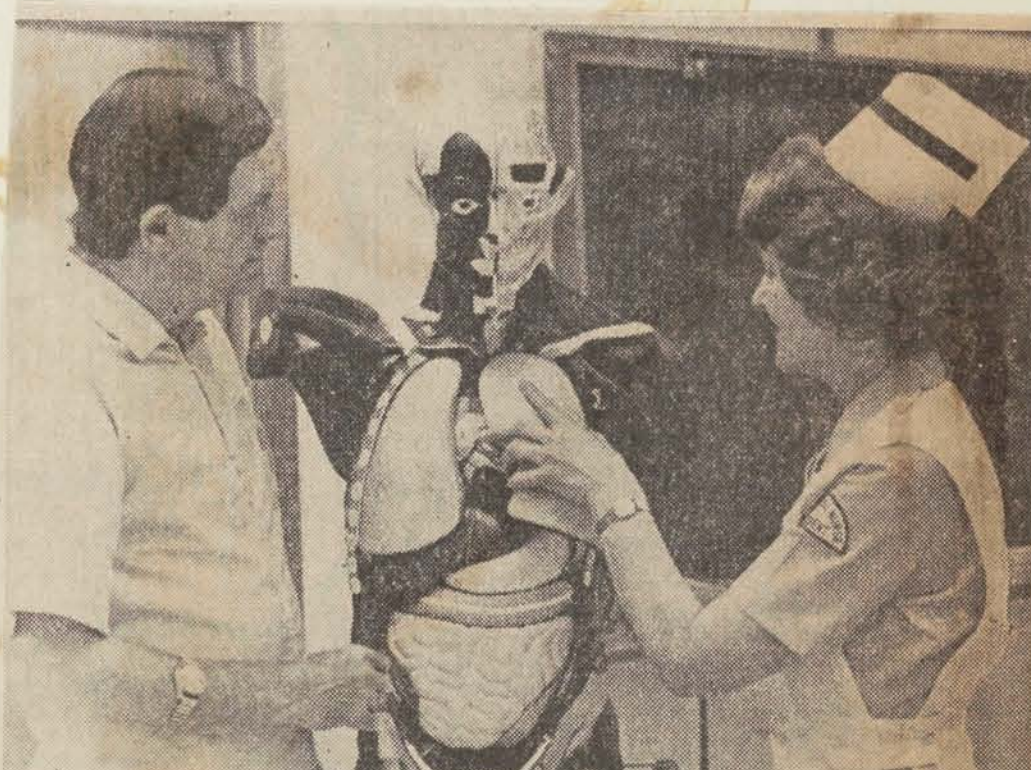

Gibson got his eagle on a 7-iron which took two bounces into the hole and it helped him to a 14-10-81. Miss Garner hit a 9-wood second shot and dropped an eight-foot putt for the eagle, then sank a 15-foot birdie on No. 6.

Eleanor Murph had her best ever with a 96 and Mike Kinlaw turned the trick with a 37-36-73.

The Grays Creek Invitational is coming up with a qualifying round to be played May 14-20 and the final 18 May 21. Entries are picking up in the two-man event, but there's room for more.

Jesse Waters, golf coach at Fayetteville Technical Institute, visited Carolina Trail near Sanford last week and shot an unusual 77. Waters had two eagles in the round, both on par four holes, No. 8 and No. 18.

Fore 'til next week!

Robert and Teresa Stanley in LPN Classroom at Fayetteville Technical Institute.

FTI Couple Planning For Career Togetherness

Major (ret.) Robert and Teresa Stanley are enrolled in Fayetteville Tech's Licensed Practical Nursing curriculum and will graduate this summer. Shown above in the FTI classroom, the Stanleys anticipate working together at a local hospital after completing the four-quarter course of study at Fayetteville Tech.

A native of Normandy, France, Mrs. Stanley admitted she "felt the urge to do something. To be an American citizen one must contribute, not just receive these benefits. I feel I can best help others by becoming an LPN."

Fayetteville Tech's 1st male LPN student was assigned to duty at Pope Air Base's dispensary as a doctor's assistant for five years prior to his retirement from the Air Force.

"I like working in the health occupations field," said Stanley, "and I have really enjoyed my training at FTI. We have had clinical experiences at a local nursery and at Cape Fear Valley Hospital. Everyone has been most helpful, patient

and encouraging the doctors, nurses, instructors, everyone."

Heading up Fayetteville Tech's practical nurse education curriculum is Mrs. Ada Leonard assisted by Miss Claudia Dancy, R.N. The program is four quarters in length, beginning in September and continuing to August.

Graduates of the LPN curriculum then take the State Board Examination for Licensure. After successfully writing this examination, licensed practical nurses are eligible to work in any health occupation under the direction of a physician, dentist or registered nurse.

The 26 students enrolled in Fayetteville Technical Institute's Practical Nurse Education program are currently working toward establishing a student-oriented LPN association in North Carolina.

For District Nurses

FTI Students To Present Program

District 14 of the North Carolina State Nurses Association will feature a covered-dish supper at a May meeting, Tuesday evening, May 9 at 7:00 p.m., at the Red Cross Chapter House of Carol St. The program will be given by the Fayetteville Technical Institute Associate Degree Nursing students as a project of District 9 of the North Carolina Student Nurse Association which is their professional organization. The students will present a skit entitled, "Why I Should Belong to the American Nurses Association When I Graduate."

A novel approach through the use of experimental theatre techniques in which the audience is expected and

encouraged to participate will be used in the skit. Through this approach, the nursing students hope to gain answers to such questions as: What does the ANA expect of its members? What can a professional nurse expect of the ANA? Can a member of the ANA participate in solving vital social problems through her professional organization?

As well as obtaining answers to these questions, the students hope to present a challenge to District 14 members that will inspire them to work toward the improvement of their organization.

Presiding will be Capt. Joe Caldwell, District 14 president. Each member is encouraged to bring a nurse guest to this meeting.

5-4-72

Harpest, Flutist Join In Concert At FTI

Joel Andrews

Fayetteville Beautiful will join Fayetteville Technical Institute in presenting a duo concert Sunday afternoon at four o'clock in the Paul Thompson Library on the campus of FTI.

The artists will be harpist, Joel Andrews, musician-in-residence at Fayetteville Tech, and flutist, Don Adcock, assistant director of music at N.C. State University. Adcock also serves as director of the Marching Band from East Carolina University and Columbia University of New York. A popular performer, he and Mr. Andrews have played many concerts together while the harpist was musician-in-residence at N.C. State from 1969-71.

Mr. Andrews, as composer, lecturer and harpist, has become a familiar figure in Cumberland County as he has performed for hundreds of fans during his tenure at Fayetteville Technical Institute.

The public is invited to hear these two outstanding artists at FTI on Sunday. Admission is free of charge.

"It is quite appropriate,"

remarked Mrs. Julia Reaves, coordinator for Fayetteville Beautiful, "to terminate our week emphasizing the beauty of Fayetteville with lovely music provided by these talented artists. We anticipate a large audience on this occasion and hope to make the concert part of our annual observance of Fayetteville Beautiful Week."

Rose Gets FTI Post

The board of trustees of Fayetteville Technical Institute has elected Thornton Rose to his third term as chairman.

Also returned to office were W. J. West, vice chairman, and Howard L. Hall, secretary.

Other board members of the institute are William C. Beard Jr., Roscoe Blue, Marion C. George, Mrs. Dan S. Currie, F. C. Franklin, John T. Henley, John C. Mitchell and Harry F. Shaw.

FTI has grown from an enrollment of 58 to 1,200 students in less than a decade.

Open House At FTI

Fayetteville Technical Institute will hold an open house next Sunday from 3 to 5 p.m.

Theme will be "planning a better tomorrow through technology."

The event will open with a concert featuring harpist Joel Andrews.

Classrooms, labs and shops will be open to the public for demonstrations of new techniques and skills in applied sciences, health occupations, vocational trades and engineering technologies.

Open to the public will be Lafayette Hall, Cumberland Hall and the Paul H. Thompson Library.

Diplomas In Hand, They Plan A Rest

By LEE RIDENOUR
Observer Staff Writer

James and Ammie Peterson will have some spare evenings beginning today for the first time in seven years, but they think they'll find things to fill up the time.

For Mr. and Mrs. Peterson are among the 200-plus Fayetteville area residents who were graduated from high school last night in Fayette-

ville Technical Institute's annual adult high school graduation. Ceremonies were held at Cumberland County Memorial Auditorium.

The Petersons have attended classes twice a week, winter and summer, for seven years and have completed work from about the third or fourth grade level to the twelfth. Both were awarded diplomas just one year ahead

of their son's college graduation from Lincoln University in Pennsylvania.

A builder who has completely renovated his home from a dilapidated wooden building to a trim dwelling with an all-modern interior, Peterson says he "had always dreamed of some way finishing school." He quit school after three grades as a youth to support his family after his father's death.

The couple began their studies in the Gillespie Street library under a volunteer-run literacy program which has since been merged into FTI's adult school, which graduated over 300 adults last year in addition to last night's class.

Both the Petersons have high praise for the teachers and staff at FTI, particularly the patience exhibited

"when we got there late from being tired."

Mrs. Peterson, who was a laundry worker when she began studying, has since quit outside work to be a housewife. She thinks she'll spend the spare evenings resting up.

"Some nights I'd be so tired I just couldn't face going to class. But he kept pushing me, and we'd get there somehow."

Both the Petersons hope their success in finishing will encourage others. Mrs. Peterson describes her worries in the beginning as "not scared of the work, but embarrassed" at being an adult third grader.

Are the Petersons planning to go to college?

"Oh no; we still have to finish paying for our son's education!"

NEW GRADUATES—Mr. and Mrs. James Peterson are among Fayetteville Technical Institute's adult high school graduates, after seven years of going to school, during which time they completed ten grades each. (Observer photo by Dick Blount)

Fayetteville Rose Garden Ablaze With Blossoms

In a Garden beauty abides we see God's marvelous hand at work

These well chosen words are the sentiments of the Fayetteville Rose Garden Committee whose applied knowledge and hard work in conjunction with the miracle of nature have produced the first blooms of spring in the Fayetteville Rose Garden.

In cooperation with Fayetteville Beautiful the Fayetteville Rose Society is a co-sponsor of the Garden. Since the groundbreaking in January of 1971 the Garden has steadily taken shape under the guiding hands of Mrs. Elliott Harris, Mrs. Vance Knight and Mrs. Julia Reaves, city coordinator.

"We are so pleased to have the cooperation of the Garden Clubs and businessmen in Fayetteville who are taking such an active interest in creating the Rose Garden," stated Mrs. William C. Miller, chairman of the Fayetteville Beautiful program. "The purpose of Fayetteville Beautiful is to guide the efforts of civic groups in a well planned beautification and area improvement program for the City of Fayetteville," she added.

"Because of the beauty of the Rose Garden we are receiving many requests for roses for civic purposes, but due to the fact that the roses were donated by Jackson and Perkins Rose Company to be used in a "show" garden, we are establishing a policy that these roses cannot be cut for either civic or private use," continued Mrs. Miller.

Through the efforts of Julia Reaves, a total of six garden Clubs, Dig and Dream, Lafayette, Scotch, Friendly Acres, Greenwood and Greenlawn have taken portions of the Garden as HANDS site projects.

At the present time another beautification oriented group is considering the donation of the fountain for the center of the Garden. At the time of the installation of the fountain the brick walks around the fountain will also be laid. The maintenance of the Garden is provided by Fayetteville Technical Institute personnel.

Mrs. Vance Knight, who designed the Fayetteville

Rose Garden, advises that the garden now features 638 roses all of which were donated by Jackson & Perkins. The tree roses and dogwood trees were donated as memorial gifts by interested Fayetteville citizens.

In announcing future plans for the Garden, Mrs. Elliott Harris, past president of the Fayetteville Rose Society, states that additional roses will be added to the corner beds over the next two years. The Garden will feature stately and wide trellises which will be mounted on concrete columns. "These items will be added as funds permit," she stated. At the present time the proceeds from the Fayetteville Beautiful Paper Drive are being used on the Rose Garden Project. Should any civic groups or private citizen wish to donate needed items at the Garden, they are requested to contact Mrs. Reaves, who will work with any group in deciding on a project which would be suitable to its means.

Since the inception of the Fayetteville Beautiful program many civic, professional and garden club groups as well as local businessmen have decided to either take a project of civic improvement or to donate to a Fayetteville Beautiful project such as the Market House corner beautification effort. In this way civic clubs and private citizens are making a tremendous contribution to the improvement of Fayetteville, it was pointed out.

It has been said that the people of a city can be judged by the appearance of that city. "I have found this work in our community to be a very heartwarming experience," stated Mrs. Reaves. "I find that private citizens and city officials are eager to cooperate in every way to make our city more beautiful," she added.

Fayetteville Beautiful, the Fayetteville Rose Society and Fayetteville Technical Institute cordially invite the citizens of Fayetteville to come by the Fayetteville Rose Garden to enjoy the roses at the peak of spring bloom. The Garden is located at the corner of Devers Street and Hull Road.

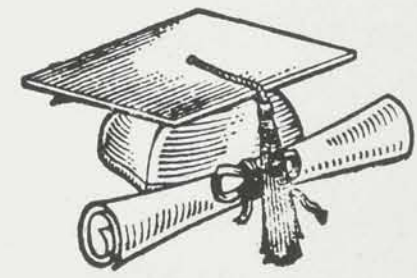

FIRST BLOOMS: Mrs. Julia Reaves (left), city coordinator and director of Fayetteville Beautiful, and Mrs. T. B. Tyson, awards chairman for Fayetteville Beautiful, are shown admiring the first blooms in Fayetteville Rose Garden, sponsored by Fayetteville Beautiful and the Fayetteville Rose Society. FFA Rally Winners Picked

Some 300 Future Farmers of America and advisors attended the District Four Federation rally Saturday at Fayetteville Technical Institute.

In FFA contests, winners were chosen in dairy judging, public speaking, parliamentary procedure, forestry and beef and swine judging.

District Four consists of federations from Bladen, Cumberland, Sandhills, North Robeson, Pineland, South Robeson, Harnett and Waccamaw regions.

Winners were:
Dairy judging — Lafayette,

Parkton and Sanford Central. Public speaking — Marty Tadlock of Hockingham

Parliamentary procedure — East Montgomery. Forestry — West Columbus. Beef and Swine — Cape Fear High School.

The highest scores for individuals in the beef and swine judging were recorded by John Blackman of Cape Fear, Tracey Gardner of Cape Fear, Mike Pait of Bladenboro, Bruce McLaurin of Cape Fear and Ed Tom Hollowell of Cape Fear.

The team winners will represent District Four at the state finals in Raleigh June 3 at the State FFA Convention.

SCHOLARSHIP WINNERS — Mrs. Ellen McLaughney, president, congratulates 1972 scholarship winners (left to right) Miss Jane Gayle Holmes, Cape Fear High School; Miss Donna Jean Harris, Fayetteville Technical Institute; and Miss Charrellita Edwina Wilkerson, E. E. Smith High School.

YOU'RE INVITED TO
FAYETTEVILLE TECHNICAL INSTITUTE'S

Open House

SUNDAY, MAY 21, 1972 FROM 3 TO 5 P.M.

FAYETTEVILLE TECHNICAL INSTITUTE OFFERS...

TRANSFER CREDIT (Associate Degree) in

- Liberal Arts
- Accounting
- Air Conditioning Engineering Technology
- Agriculture Business Technology
- Associate Degree Nursing (RN)
- Business Administration
- Civil Engineering Technology
- Dental Hygiene
- Electronic Data Processing
- Electronics Engineering Technology
- Environmental Engineering Technology
- Industrial Management
- Marketing and Retailing
- Mechanical Engineering Technology
- Secretarial Science (Technical, Medical, Executive and Legal)

and

CAREER TRAINING (Diploma) in

- Air Conditioning Mechanics
- Architectural Drafting
- Automotive Mechanics
- Carpentry
- Electrical Maintenance
- Machine Shop
- Masonry (Brick Laying)
- Practical Nursing
- Tool & Die
- Welding

People
You Know

MISS CLAUDIA DANCY, R.N., has received her B.S. Degree from Limestone College in Gaffney, South Carolina. A native of Laurinburg, N.C. Miss Dancy is an instructor in practical nurse education at Fayetteville Technical Institute and received her diploma in nursing from Highsmith-Rainey School of Nursing.

MRS. LAURA PETERS 627 Greenland Dr., is a patient in Highsmith-Rainey Memorial Hospital.

MR. AND MRS. QUINCY A. HUTSON, Friendly Rd., have returned after attending the 57th annual convention of Kiwanis International in Atlantic City, N.J.

MR. AND MRS. PIERRE W. DELABY, Miss Betsy Delaby and Miss Billie Crocker have returned from Myrtle Beach, S.C. where Mr. Delaby attended the joint meeting of the North Carolina-South Carolina Societies of Orthotists and Prosthetists. Mr. Delaby was elected vice president of the North Carolina Society of Orthotists and Prosthetists for 1972-1973.

THE STATE BOARD of Examiners of Electrical Contractors has notified instructor E. D. "Pete" Oakes Jr. of Fayetteville Technical Institute that he has successfully written the qualifying examination for electrical contractors' license. He is department chairman of the electrical installation and maintenance curriculum at FTI and a licensed contractor in refrigeration. Oakes has done undergraduate work at NC State University in addition to teaching at Fayetteville Tech since 1964. *6/25/72*

Outstanding Educators

Dean of Instruction William E. Sease; William O. Cameron, director of Technical and Vocation Education; and Eli Anderson Jr., director of Adult Basic Education at Fayetteville Tech, have been chosen Outstanding Educators of America for 1972, according to Fayetteville Technical Institute. Nominated earlier this year, they were selected for the honor on the basis of their civic and professional achievements.

Outstanding Educators of America is an annual awards program honoring distinguished men and women for

their exceptional service, achievements, and leadership in the field of education. Each year those chosen outstanding educators are featured in a national awards volume, Outstanding Educators of America.

Nominations for the program are made by officials of colleges and universities including presidents, deans, and department chairmen.

Guidelines for selection include an educator's talents in the classroom, contributions to research, administrative abilities, civic service, and professional recognition.

Duell, People's Clinic, accepted for Mental Health. (Observer photos—Blount)

Arbund The City

FAYETTEVILLE TECHNICAL Institute will hold its registration for the summer quarter Monday and Tuesday, June 5 and 6, from 8 a.m. to 3 p.m.

Classes will begin Wednesday, June 7.

Late registration will be permitted through Monday, June 12, officials said.

Courses to be offered will range from college preparatory subjects to nursing and engineering technology.

The courses are open to anyone 18 or older. Tuition is \$2.50 per credit hour. 5/24/72

Day Care Assistants Complete FTI Course

Miss Barbara Farris was chosen "Most Outstanding Student" among the eight young girls completing a training program as child care assistants on June 22. The presentation was made at an informal ceremony marking the completion of a 348-hour course at College Heights Kindergarten on Friday morning.

This is the second time such a program has been offered in Cumberland County, and once again, Fayetteville Technical Institute has acted as a catalyst in forming a training class with multiple agency support. Those participating were: The Cumberland County Department of Social Services, the Mental Health Association, the Association for the Retarded, Vocational Rehabilitation and FTI. All twelve of last year's graduates have been employed.

Under the direction of Mrs. Juanita Bremer, RN, the students were given both classroom and practical experiences in child care. They visited Mt. Sinai Day Care Center, John Wesley, College Heights and the Day Care Center for the Retarded where the workers particularly enjoyed their training.

"Our students especially liked working with children at the Day Care Center for the Retarded," observed Mrs. Bremer. "They seemed to feel they were needed there and that what they were doing was meaningful."

The facility, located on the Raleigh Rd., is owned by the Civitan Club.

Classroom work was performed at the College Heights Kindergarten. Mrs. Bremer was assisted by Mrs. Gwendolyn Evans, Barbara Farris, Denise Grooms, Gwendolyn Lee, Andrea McDougald, Margaret McLean, Brenda Scates and Linda Lee Scott. 6/22/72

HIGHLIGHTS OF FAYETTEVILLE TECHNICAL INSTITUTE'S

Open House

SUNDAY, MAY 21, 1972 FROM 3 TO 5 P.M.

BUSINESS DIVISION:
The electronic data processing department will use the computer to find monthly payment schedules for mortgage amortization. "Let's Talk Business" a slide presentation produced by the business administration department.

CONCERT:
Harpist Joel Andrews, musician-in-residence at FTI will be featured in a solo recital from 3 to 3:45 P.M. in the Student Lounge of the Paul H. Thompson Library.

ENGINEERING TECHNOLOGY:
Testing procedures for water pollution, field density tests using nuclear moisture meter, and electronic switching with solid state devices.

GENERAL EDUCATION
Demonstration of machine used to increase speed and comprehension in reading. Physics department will present static electricity and wave motion demonstrations. Live animals will be used in showing a monkey's response to artificial mother and several types of maze setups for white mice.

GREENHOUSE
Agricultural business technology students will show proper method of potting plants.

HEALTH OCCUPATIONS
Planning activities for sick children; live demonstrations of oxygen therapy, surgical dressings and intravenous therapy as well as dental hygiene procedures.

VOCATIONAL EDUCATION
Architectural drafting students will present their portfolios; automotive department will demonstrate the use of engine analysis and the tool and die shop will produce metal parts from blanking dies.

Swope Addresses FTI Graduates

John Swope, director of the Fayetteville Area Industrial Development Corp. was speaker at Fayetteville Technical Institute's 10th graduation exercise Saturday at Memorial Auditorium.

President Howard Boudreau introduced Swope.

Diplomas and degrees were conferred by Thornton W. Rose, chairman of the board of trustees. Special awards to outstanding graduates were presented by William E. Sessa, dean of instruction.

Marshals were Clayton Burtrum, Patricia Blackmon, William Carter, Samuel Croom, David Deason, James Fisher, Susan Gravelly, Janet Keel, Joseph Ratcliff, Janet V. Lolo, Brenda Wiseman, Charles Wrenn and alternates Stephen Gates and Ronnie Wise.

The following students graduated in these areas:

Accounting: Jerome Alfano, Robert Mitchell Hunt, William Joseph McPhatter Jr., Cherry Bullard Naylor, Rickey Clifton Roller and Jonathan Paul Rovira.

Air conditioning engineering technology: Percy Benjamin Ammons, Earl Lofton Hall, Dexter Dallas Jones, William Barry Jones and Howard Lee Norris.

Agricultural business technology: Leon David Bridgers, William Bucciarelli, Roger Dale Houston, Darium Allen Moore, John Edward Newton, Bobby Hugh Norris and Harold Michael Smith.

Associate degree nursing: Dorothy Joanne Barnes, Linda Sue Bell, Dorothy Jane Copas, Donna Marie Corbin, Diane Marie Coulbourne, Barbara Eileen Emery, Olympia S. Harrell, Kay Wagar Hill, Betty Anne Hyde, Brenda Kaye Jackson, Beckett Kendall Jamison, Kenneth Rodgers Ledford Jr., Mary Lee Jackson Norton, Patricia Cox Warren.

Business administration: Edgar Charles Bennington Jr., James William Bordeaux, William Ernest Caulder, Paul Christian Curlee, James Ronald Fraser, Richard Ray Gray, Donnie Ray Jackson, Dennis Allen Kemp, Dennis Paul Lee, Thomas Jay Lee, Joseph Anthony Norton, John Davis Palmer, William Arthur Patterson Jr., Daniel Joseph Pfeiffer, Robert Larry Weddings.

Electronic data processing: Kenneth J. B. Johnson Lynn S. Jones, David Lee Buckner, Joseph S. Austin Godwin, Howard Douglass Grantham, Janie Kathryn Hall, Walter Keith Hooker, James Randy Ivey and Paul Frederick Mora.

Electronics engineering technology: Henry Lee Autry, Charles Gregory Bass, Michael Glenn Bradley, James Catton Bue Jr., Jerry Allen Bullard, William Bryan Byrd, Charles Edward Conoly, Ellis Max Guy, Ernest Lee Johnson, DeLeon McLamb Jr., Douglas Lee Meares Jr., Robert Charles Moore, Linda Jo Parker, David Bynum Walters and Nest Trent Woods.

Environmental engineering technology: Kenneth Lenar Avertite, Kitty Anna Katherine Kramer, William Lacy McQueen, Henry Massey, Nancy Lou Melvin, Kent Edwin Penn, John William Reid, Joseph Albert Stanish, Michael Allen Strickland and Donald Wayne Williams.

Industrial management: Julian Ray Andreade, Donald A. Byrd, William Elton Carter, Kessie Aden Creech Jr., Grady Holland Jr., Rufus Linwood House, Kenneth Franklin Jones, Bradley Warren McKenzie, Michael David Neptad, Robert Kennedy Sandlin, James Larry Tinglen, William Alan Ward, Michael Lee Whitley.

Marketing and retailing: Charles Alston Archbell, Arthur Doug Bass, Brenda C. Redsole, Anne Ruth Leomons, Barbara Jean Thompkins.

Mechanical engineering technology: Richard Ernest Brucker, William Council Daniels Jr., Frederick Eugene Holland, Danny Mac McGuire, William Alton Miliken Jr., Michael R. Walker, Malcolm Earl Williams Jr., Darryl Glenn Wolfe.

Air conditioning and refrigeration mechanics: David Alfred Altman, Harry Junius Auten, Alton Leroy Bynum III, Charles Chester Clapper, J. Billy Ford, Milton Sebastian Hudson Jr., Thomas Kenneth Hutchinson Timothy Warren Liles, Rodney Phillip Lloyd, Anthony Francis Makolajczyk, Richard Irvan Payne.

Architectural mechanics: William Dave Dudley, Steven Dale Fairclough, Tom W. Hildebrand, Don O'Kelly Lloyd, Robert D. Nixon, Bobby W. Perkins.

Machinist: Loyd T. Blackman, Johnnie Buxton Jr., William Oliver Currie, Marvin Elliott, Fletcher Wardell Fort, Thomas Lea Matlock III, Daniel Rufus Matthews, Larry Robert Mercer, Russell Washington Townsend Jr.

Tool and die making: James Allen Beasley, Michael Alan Bethea, James Everett Crabtree, Jerry Wayne Manning, Jeffery Wolfe Duktant, Furman Lemuel Evans, Philip Thaddeus Hedrick, Sherwood Allen Morgan II, Broncho Clarence Naylor, Charles Robert Redwine.

RECEIVE PINS—Members of Fayetteville Technical Institute's 1972 Associate Degree Nursing class are shown after receiving their pins. Seated, left to right, are Brenda Jackson, Patricia Warren, Diane Coulbourne, Donna Corbin, Dorothy Copas, Mary Norton, and Linda Bell. Standing are, left to right, Betty Hyde, Joanne Barnes, Barbara Emery, Ken Ledford, Kaye Hill, Kendall Jamison, and Olympia Harrell.

ADA Class Includes First Male

The 1972 Associate Degree Nursing Students at Fayetteville Technical Institute includes its first male student, Ken Ledford, vice president of the Student Nurses' Association who is a native of Asheville. Ledford served in the Air Force as a sergeant prior to entering FTI and is representative of the growing trend toward young men entering the field of nursing.

The annual pinning luncheon for graduating nursing students was held on Saturday, May 13, at the Fort Bragg Non-Commissioned Officers Club.

President Howard E. Boudreau opened the program with a welcoming speech. Miss Judy Sicloff, president-elect of the Student Nurses' Association, gave the invocation.

After repeating the pledge of the International Council of Nurses, the graduating students received their pins from Student to Graduate ADN program at Fayetteville Tech, Mrs. John O'Hale.

Dr. Grady Davis, psychology professor at Fayetteville State University, was the guest speaker. He addressed the group on "The Transition from S Student to Graduate Nurse."

The 1972 Class closed the program with the presentation of special awards to Mrs. Shirley Cox, secretary for the ADN curriculum, and to Leo Corbin, husband of one of the graduating students. The two were named "Honorary Student Nurses of the Year." A plaque was presented to the ADN faculty in token of the students' appreciation for their support and guidance.

Representatives from Fayetteville's Veterans Administration Hospital and the American Nurses' Association attended the luncheon.

After graduating on May 27, members of the class will write their licensing examinations which, when successfully completed, will entitle them to Registered Nurse status.

FTI To Offer Adult Courses

Fayetteville Technical Institute will offer summer school courses for adults in grades 1 through 12 from July 10 through August 21.

Registration for these adult basic education and high school diploma subjects will be held in Lafayette Hall at FTI on Thursday, July 6 at 7 p.m.

For further details, contact the director of General Adult Education of FTI. 6-29-72

THERE'S STILL TIME TO REGISTER FOR F.T.I.'S SUMMER SESSION

Formal registration will be held through Tuesday, June 6th at Fayetteville Technical Institute, but late registration will be permitted through Monday, June 12 final date for enrolling at Fayetteville Tech this summer.

Courses to be offered include secretarial and college preparatory subjects as well as engineering technologies and health occupation courses.

For further details, contact

FTI Fayetteville Technical Institute P. O. Box 5236 Fayetteville, N. C., 28303 Telephone 484-4121, Extension 44

Accredited by the Southern Association of Colleges & Schools

Around The City

THE STATE Forest Service has identified the 60-year-old tree but down in Haymount last week as a chestnut oak, rather than a chestnut tree.

George Strange of the N. C. Forest Service examined the tree at the request of the Fayetteville chapter of the Sierra Club.

The city has not decided what action it will take against Hubert Downing, 665 Oakridge Ave., who allegedly cut down the tree without city permission.

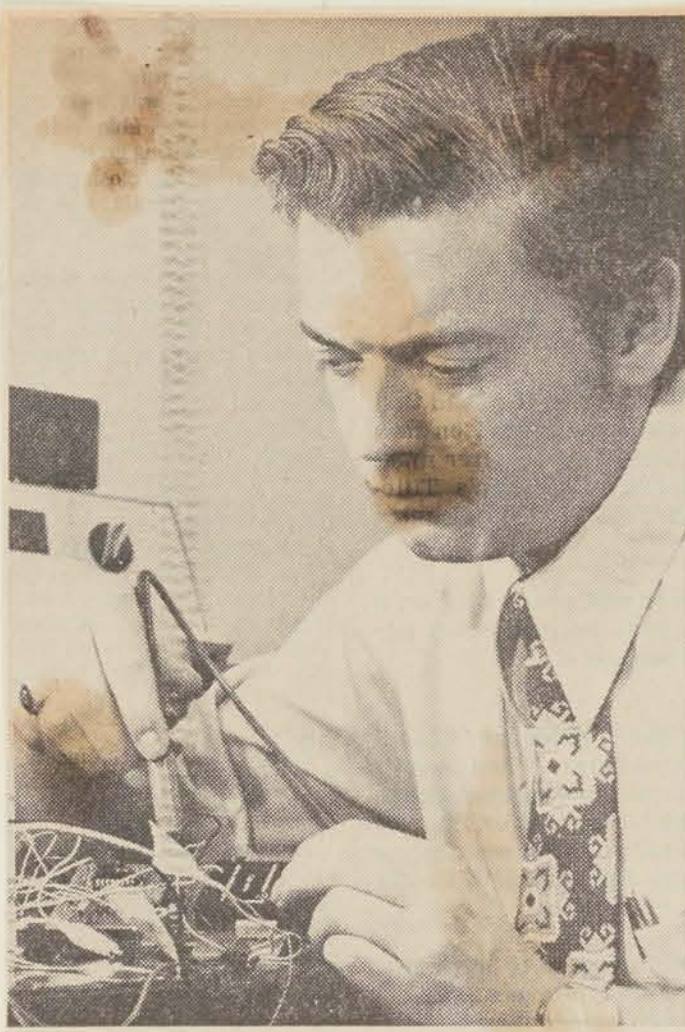

City officials were to meet this morning to discuss the matter.

NET PROFITS for the first nine months of the fiscal year on sales from local ABC stores totaled \$119,779.31, according to a report filed with the Board of County Commissioners Monday.

The report said total sales amounted to over \$3.6 million.

The ABC board has paid the state over \$700,000 in taxes, the report said.

The ABC board's control division has made 397 arrests during that period, seized 716 gallons of non-tax paid whiskey and destroyed 57 stills.

Richard Lutz At New Career

Graduate Of FTI In 'Unique' Job

To the traditional question, "what are you going to be?" this year's graduate may very well reply, "something that doesn't yet exist."

Educational research indicates that 40 percent of the jobs now held in the 1970's were unknown 10 years ago.

Fayetteville Tech graduate, Richard Lutz, is an example of the young man employed in a field unknown a decade ago.

Assigned to UNC's Memorial Hospital, he is now a medical electronics technician doing research in biological measurement. Lutz finished high school in 1962 and enrolled in the Fayetteville Industrial Education Center — predecessor to FTI. After graduating in electronics engineering technology, he joined a company.

Doing biological research, Lutz's job is unlike the possible employment he and his classmates anticipated in the mid-sixties. At Memorial Hospital, he is a member of the team doing research in psychiatry and physiology.

Working closely with Dr. Paul Obrist, a psychiatrist, Lutz and electronics engineer J. S. Hutcheson have produced innovative research equipment for biological measurement.

Lutz was previously assigned to produce a capsule-size instrument called an endoradiosonde to measure internal gastric pressure of postoperative patients and serve as a warning against shock.

Other precise instruments on display in his offices include a cardiometer coupler to use in measuring heart rate, indicating the stimulus effect and other parameters of subject response.

To accent the newness of his field, Lutz noted that he and Hutcheson had recently attended the Fourth Annual National Conference for Electronics in Medicine. Just in the past four years engineers and doctors have met annually to determine how they could best use today's technology for the benefit of patients.

Other duties at Memorial have required Lutz to be responsible for the video tapes and closed circuit television instruction for medical students in psychiatry.

Lutz is presently working with white noise experimentation — a sound that screens out all other disconcerting sounds so the subject can concentrate on stimulus at hand.

FAYETTEVILLE Technical Institute has received approval from the State Board of Education to teach a course in banking and finance.

FTI will offer the course beginning in the fall.

The school has also awarded the general contract for its new administration building.

FTI's board of trustees awarded the contract to Player Construction Co. The building will cost almost \$200,000 and is scheduled for completion within nine months.

FAYETTEVILLE STATE University reported an increase in recruiting visiting the campus from business and industry during the 1971-72 academic year.

Board Eyes Computers For FTI

By RICK GRAY
Observer Staff Writer

Computers, recreation and a tax exemption led the list of topics taken up by the county Board of County Commissioners Monday.

The commissioners are going to study a proposal from Fayetteville Technical Institute that computers at the school be used by the county to expedite billing procedures at the county's hospitals, the Public Works Commission and the county tax office.

They heard a brief report from the newly appointed County Recreation Director Elmer Arnett and chairman Hector Ray accepted a check for \$300 to be used to purchase a ballfield. The Fayetteville Optimist Club made the donation.

A tax exemption, requested last month by the Quaker House of Fayetteville Inc., again brought a motion to delay action, this time pending a recommendation from the county attorney.

The commissioners asked attorney Heman Clark for a recommendation when they could not decide if the Quaker House would qualify for the religious tax exemption under current state law.

The proposal from FTI calls for the county to provide funds to the school for some additions to the current computer facilities to bring those facilities up to the quality needed by the county for a data processing center.

Although the commissioners took action, nearly every member said the proposal was "a good idea," and Chairman Ray said, "we'll consider it and let you know in time to get it into the budget."

That would indicate action at the next meeting, since budget hearings will begin in the middle of the month, and the budget for the 1972-73 fiscal year will go into effect July 1.

The initial cost of the system would be \$173,419.21 for the first year. Some \$23,436 of that would be in one-time charges.

Most of the cost of the proposed system — which would eventually be used by nearly all of the county agencies — would be in equipment purchases and leases. Most

computer equipment used in the nation is leased since equipment is rapidly outdated as new machinery is designed.

Under the proposal some \$108,515 would go for equipment. All of the one-time charges listed in the proposal are for the outright purchase of some equipment and shipping charges for that equipment.

The major single expenditure proposed is \$86,600 for leasing a NCR 290 computer, a third generation model which leases for \$7,225 per month.

The commissioners also agreed to purchase the program devised for processing the tax data by Howze and Associates for some \$90,000, to be paid over three years.

Included in that purchase would be some additional services from the data processing company which would include making the county's own computer system operational for the tax system.

Arnett told the commissioners his newly-formed Rec-

reation Department has already scheduled a 30-team Little League baseball tournament and is in the process of organizing a county-wide golf tournament. Both will be held in August.

The commissioners also opened bids, but accepted none pending further study, for a car for the planning department and for gas, oil and tires for sheriff's department cars.

Area LPNs Form Association

A meeting of Fayetteville area licensed practical nurses and student LPNs, was held Thursday at Fayetteville Technical Institute for the purpose of uniting all area licensed practical nurses into a Fayetteville Licensed Practical Nurses Association.

Mrs. Mary Adams, president of the North Carolina Licensed Practical Nurses Association, was guest speaker.

"This Association will have the responsibility of establishing better working conditions where applicable, improved salaries, status, dignity, personal growth, education, registration and a better understanding of the role of the LPN between nursing homes, hospitals and other medical facilities and organizations in the area, and for fellowship," Mrs. Adams said.

Selected as temporary officers were: James H. Fetherston, chairman; Mrs. Joan Mercer, secretary; Mrs. Willie Campbell, treasurer.

It was announced the next meeting would be held June 20, 7:30 p.m., in the Paul Thompson Library, FTI. All LPNs in the area are encouraged to attend.

130 Make FTI List

Fayetteville Technical Institute has listed 130 students on the President's List for the spring quarter.

The students from areas other than Fayetteville making a grade of "B" or better were:

Autryville: Broncho Naylor; Benson; Sherwood Morgan and Joe Godwin; Broadway: Clayton Burtrum; Chocomaity: Kenneth M. Fuller; Clanton: William C. Daniels; Clinton: Mercer Jones, Fred Holland and Cherry Naylor.

Dunn: Shelton Noles, Deborah Hollingsworth, Donald A. Byrd, Milton S. Hudson and James Ivey.

Erwin: Debbie Giles, Michael Strickland, Kay Autry; Fuquay: Michael Bradley; High Point: Phillip Hedrick; Lexington: Jerry Dunning and Charles Redwine; Lillington: Lynwood McDonald.

Maxton: David Dodson, Sam McGirt and Nash Woods; Rutherford: Melrah Spencer, William McQueen; Red Springs: William McPhatter; Sanford: Holt J. Cannady and Patricia Warren; Shallotte: William A. Milliken Jr.; Smithfield: Ressie A. Creech; Stedman: Thomas H. Young; Wagram: Percy Ammons; and Wilmington: John D. Simon.

FAYETTEVILLE TECHNICAL INSTITUTE SUMMER SESSION SCHEDULE

Fayetteville Technical Institute will offer college preparatory, vocational, technical and health occupation courses as part of the summer program.

Skills, techniques, and knowledge needed to keep up with changing technology, and preparing for the demanding college years ahead, or improving on-the-job performance can be learned through the summer months at FTI. Many courses are scheduled to carry credit toward diploma or associate degree curricula for Fayetteville Tech students, but are open to anyone 18 years of age.

1st Session June 7 through July 13 2nd Session July 31 through August 31
REGISTRATION DATE: June 5 and 6 from 8:00 AM to 3:00 PM in Lafayette Hall.
TUITION: \$2.50 per quarter hour. (courses, for example, which carry 3 quarter hours' credit cost the student \$7.50 plus text, personal instruments and tools).

Economic Growth Linked To Education Here

By BOB WILSON
Observer Staff Writer

Cooperation between education and industry was cited Wednesday by Fayetteville Technical Institute President Howard Boudreau as "the key to the economic growth in the Fayetteville community during the past decade."

Boudreau was the featured speaker at the annual meeting of the Fayetteville Area

Industrial Development Corporation, held at Green Valley Country Club.

Boudreau said that FTI, which opened here in 1961 with an enrollment of 58, anticipated a student body of 1,200 fulltime students in the fall of this year.

"We at FTI are extremely happy to have played a part in the industrial growth which has taken place here,"

Boudreau said, "and we look forward to its continued expansion in the years ahead."

"There is no question but that industrial growth is closely related to the availability of skilled labor. The community colleges and technical institutes of this state have the flexibility to provide the training to meet these labor needs. If you in industry will let us know what

your needs are, we will know in what direction to move with training programs."

Boudreau also praised the industrial education programs which have been instituted at the high school level and said they "enabled students to come to us better prepared for advanced training in whatever vocation they have chosen."

Boudreau was introduced

by FAIDC Executive Director John Shoop, who paralleled the growth of industry in the Fayetteville area to the growth of Fayetteville Tech.

James M. Thornton, FAIDC president, said in his annual report that "despite the fact that we have had no new plant announcements during the past year, we still have experienced an improved economy. Several existing industries have added several hundred workers to their payrolls, and unlike some other areas, we have had no plant shutdowns."

"The industry-hunting game doesn't produce a plant a year," Thornton said. "We've had some good prospects, and some of them are still hot. We're optimistic about the future. We are going to get other."

Thornton and John D. Ashford were re-elected to FAIDC's board of directors, along with Dr. Charles M. Speegle. Earlier this year, the board named Wilbur Breece to fill out the unexpired term of the late William A. Dickinson. A resolution in memory of Dickinson was adopted at the meeting.

At a meeting Wednesday night, the FAIDC board of directors named Walter C. Moorman as president for the 1972-73 year. Other officers chosen were David L. Godwin, vice president, William H. Johnson, secretary, and Ashford, treasurer.

FAIDC DIRECTORS—Newly elected directors of the Fayetteville Area Industrial Development Corporation are shown here with Howard Boudreau (second from left), Fayetteville Technical Institute

president who was guest speaker at the FAIDC's annual meeting Wednesday. They are John D. Ashford, James M. Thornton, Wilbur Breece and Dr. Charles Speegle.

Around The City

THE SANDHILLS Firemen Association will hold their 46th annual convention here Saturday.

Several hundred firemen from throughout the southeastern section of the state are expected to attend the convention at Memorial Auditorium here.

Registration will be held from 8:30 to 10:30 a.m. A parade and lunch will be held from 11 a.m. to 1 p.m. After the afternoon business session, the firemen will hold water fights, hose races and demonstrations beginning at 2:30 p.m.

The evening banquet will be held at 5:30 p.m., and the beauty pageant will begin at 7:30 p.m.

FAYETTEVILLE MAYOR Jackson F. Lee has declared this week "national flag week" in the city.

In his proclamation, Mayor Lee said the flag "serves to remind us of our precious heritage and the courageous determination of our forefathers to be free men under a democratic form of government."

RETAIL SALES in Cumberland County increased over 16 per cent during the

first three months of 1972 as compared to the same period in 1971, the Fayetteville Area Chamber of Commerce reports.

Sales in March totaled over \$38 million, bringing the first quarter's total to almost \$108 million.

If the trend continues throughout the year, retail sales should exceed \$500 million, chamber officials said.

METHODIST COLLEGE Foundation has surpassed its community fund-raising goal for this year.

Contributions total over \$123,000, with cash received as of May 31 listed at almost \$103,000. This is an increase of \$23,000 over gifts received on the same date in 1971.

FAYETTEVILLE Technical Institute has enrolled a record-breaking 635 students for its summer session.

The total exceeds last year's enrollment by 133 students.

Twelve per cent of the students are 1972 high school graduates.

The first summer sessions ends July 13, with the second session scheduled to be held from July 31 to August 31.

TOURING PLANT—Taking a tour of lab at Gregory Poole Equipment Co.'s manufacturing headquarters in Peoria, Ill., are, from left, resources director Robert T. Cadwallar, new

employee, Benny Britt, Barry Thomas, W. J. Kincaide, Bob Allen, an unidentified tour guide, and Gregory Poole promotion director W. T. Scarborough.

Gregory Poole Utilizing Tech Schools' Graduates

The Gregory Poole Equipment Company of Raleigh, with branches in Washington and Wilmington is tapping the human resources of North Carolina's technical institutes and community colleges. Their service specialists make up more than half the firm's employees.

Kenneth Sawyer, Poole's Raleigh training director, said about 12 per cent of their service specialists are graduates of auto mechanics, diesel mechanics, or heavy equipment programs of technical institutes and community colleges.

Sawyer said that, while Poole's plants each person to service a variety of heavy equipment, tech school graduates have a basic interest and knowledge that give them a valuable advantage over a "walk-in" employee.

Poole's Raleigh center, located across from the fairgrounds, houses the regular facilities of a large business, plus a service department for regular repairs, a specialization department for electrical rebuilding, power shift transmissions and engine rebuilding. An engine dynamometer is used in testing all machines that are repaired. Sawyer has his own training department at the Raleigh branch, where he combines on-the-job training, audio-tutorial instruction and personalized instruction.

Students recruited from the technical institutes and community colleges by Poole, all receive further specialized training. Robert Cadwallar, director of human resources for the company, said that Scarborough, director of production and advertising, has a new employee to Peoria, Ill. to tour

the company's manufacturing headquarters, Scarborough, who is also the company's chief pilot, flies the young recruits.

Institutions now supplying employees for Gregory Poole are Central Carolina Technical Institute, Fayetteville Technical Institute, Wilson Technical Institute and Durham Technical Institute. Sawyer plans soon to expand his recruitment program to other institutions in the community college system.

Around The City

A LIVE WIRE question has been answered by Democratic presidential frontrunner George McGovern.

An Observer reader submitted a question dealing with the founding of the town of Mitchell, S.D. The reader asked if McGovern's ancestors had founded the town.

In reply, McGovern wrote: "my family was not involved in the early days of Mitchell. We moved there in 1928 when I was 6 years old from Avon, S.D."

The question was probably the least controversial one McGovern has been asked in recent weeks.

RETAIL SALES in Cumberland County showed another healthy increase in April.

According to the Fayetteville Area Chamber of Commerce, sales increased over 14 per cent over April, 1971. Sales topped \$39 million.

Sales for the first four months of 1972 are almost 16 per cent ahead of those for the same period in 1971. Total sales thus far are over \$147 million.

Chamber officials are continuing to predict that 1972 sales will exceed \$500 million.

an increase of nearly \$100 million over 1971 sales.

FAYETTEVILLE TECHNICAL Institute has announced three administrative changes.

Effective immediately, Charles Koonce will become assistant to FTI President, Jack Fernald will become director of admissions and William Bryant will be director of adult education.

FTI is planning a three-day course on visible emissions evaluation July 18-20. The program will make available training to business, industry and governmental agencies to assist them in complying with visible emissions regulations.

THE COLLEGE Level Examination Program (CLEP) has been rescheduled by Fayetteville State University.

Previously, the university has given CLEP tests on the second Saturday of each month. Now, those examinations will be held on the third Saturday.

CLEP is designed to give persons entering school college credit in certain areas, so they may advance at a faster rate.

7/12/72

FTI Students Make President's List

One hundred-thirty students enrolled at Fayetteville Technical Institute were named to the President's List for spring quarter. Those earning a grade of "B or better" for all work taken in the third quarter at FTI were:

General Education: Aileen Frye, Susan Gravley, Patricia Keenan, Lyle R. Spidle,

and Karen Zimmermann. Air Conditioning Mechanics I: Clayton Burtrum, Charles Fisher, Jr. and Metrah Spencer. Architectural Drafting I: Wilson Carter, Jimmy Kelt, Joe Ratcliff and David Walker. Associate Degree Nursing I: Sandra Hoffman and Felicia Schaffer.

Business Administration: Larry Ferguson. Civil Engineering I: Glenn B. Elliott, Kenneth M. Fuller, James T. Horne and John D. Simon. Dental Hygiene I: Carolyn Bleeker, Debbie Giles, Helga King, Janet Vitolo, Sandra Warren and Brenda Wiseman. Electronic Data Processing I: Pat Blackman, Joan

Mosher and Rena Nijhawan. Electrical Installation & Maintenance: Albert D. Atkinson, Holt J. Cannady, John W. Burkett, David D. Dodson, Ronald Klossner, Sam A. McGill, Shelton D. Noles and Joseph B. Saxton. Electronics Engineering I: Samuel E. Croom, Mercer C. Jones, John J. Woodard and Thomas H. Young. Environmental Engineering I: James T. Fisher and Russell J. Kopt. General Office Education: Eva Kirkwood and Lillie Turner. Industrial Management I: Carlton F. Schafford.

Machinist I: Gary L. Smith. Practical Nurse Education: Brenda Best, Anne Ross, Robert Stanley, Theresa Stanley, Emily Sutherland, and Janice Unkuh. Secretarial Science I: Deborah K. Hollingsworth. Tool & Die Making I: James A. Beasley, Michael Bethea, James E. Crabtree, Jerry Dunning, Philip Hedrick, Sherwood Morgan, Broncho Naylor, and Charles Redwine. Welding: Scott Jernigan.

Accounting: William McPhatter, Cherry Naylor, Rickey Roller, Jonathan R. vira Marilyn Duke, Rena Elliott, David Gilchrist, Ronnie West, and Charles Wrenn. Air Conditioning Technology II: Percy B. Ammons. Air Conditioning Mechanics II: Richard I. Payne, Milton S. Hudson, Charles Clapper and Harry J. Auten. Architectural Drafting II: Jim Koepke, Lynwood McDonald, Michael Quarterman, Hossa Ray and Harold Blausler. Associate Degree Nursing II: Dorothy Copas, Donna Corbin, Barbara Emery, Brenda Jackson, Kendall Jamison and Patricia Warren.

Automotive II: John Hildebrand, Robert Nixon and Bobby Perkins. Business Administration II: James R. Fraser, Richard R. Gray, Kevin Lynch and Thomas McNicholas, Jr. Civil Engineering Technology II: John A. Dawson, Joe Godwin, Walter J. Kolody, Avelino Torres Billoch, Jr., Randall S. Williams and Ronald Steven Williams. Electronic Data Processing II: Kenneth Arnold, James Ivey, Paul Moro and Robert Oliver. Electronics Engineering Technology II: David Walton. (See STUDENTS, Page 9B)

ters, Nash Woods, Robert Moore, Douglas Meares, Ernest Johnson, Jerry Bullard and Michael Bradley. Environmental Engineering Technology II: William C. McQueen, John Reid and Michael Strickland. Marketing & Retailing II: Ann Leamons. Secretarial Science: Lynda Amos, Kay Autry, Linda Jones and Cathy Wilt. Mechanical Engineering Technology II: William C. Daniels, Fred E. Hollis, Nancy J. Holland, William A. Milliken and Malcolm E. Williams. Industrial Management II: Donald Byrt, Hester Creech and William E. McDaniel. Marketing & Retailing I: Glen A. Keel, Sue M. Brewer and William F. Smith.

FOR ADULTS ONLY SUMMER SCHOOL at FAYETTEVILLE TECHNICAL INSTITUTE

Registration for courses in grades 1 through 12 will be held on Thursday, July 6th at Fayetteville Technical Institute in Lafayette Hall at 7:00 P.M. Classes in adult basic education and high school diploma programs are scheduled for each Monday, Tuesday and Thursday evenings from 7 to 10 P.M. beginning Monday, July 10 and ending August 21. All classes will meet on the Fayetteville Tech campus this summer.

For further details, contact:

El Anderson, Jr.
Director of General Adult Education
Fayetteville Technical Institute
Hull Road & Devers Street
Fayetteville, N. C. 28303
Telephone: 484-4121, Ex. 29

Elizabeth Hernandez is interning at Western Piedmont Community College. She is a graduate of Fayetteville Technical Institute's secretarial science program.

Joel Andrews chats with Fayetteville Tech students Becky Whightsil and Linda Howard.

Around the City

THE REV. Grady McKeithan and a party of students and adults have returned from a 22-day educational tour of Europe.

The group visited Holland, Germany, Austria, Italy, Switzerland, France and England.

Some of the highlights of the trip including seeing Rembrandt's work and a diamond-cutting factory in Amsterdam, a boat ride down the Rhine River and the Sistine Chapel.

TWO BOY SCOUTS are earning a merit badge by giving the city a helping hand.

William Hollering, 14, and Thomas Carrier, 13, spent two days cleaning debris from around railroad tracks between Hay and Franklin streets.

The youths filled 30 trash bags in the clean-up campaign. The parents of the youths are Mr. and Mrs. C. W. Hollering, 103 Lockwood Court, and Mr. and Mrs. William D. Carrier, 602 Reels Ave.

FAYETTEVILLE Technical Institute is planning to provide "project transition" training for civilians.

The civilians must be re-

cently-separated veterans.

They may choose training in auto service station mechanics, welding, vending machine service and repair, radio and television repair, architectural drafting, plumbing, electrical wiring and heavy truck driving.

For further information contact the MDTA coordinator at the Employment Security Commission, 414 Ray Ave., or FTI.

THE WILDLIFE Resources Commission will sponsor a courtesy boat inspection Saturday.

The inspection will be held from 9 a.m. until noon at Hope Mills Lake.

A DRIVER refresher course for licensed drivers who have some doubts about passing the tests for renewal of their licenses is being sponsored by the North Carolina Department of Motor Vehicles.

The courses will be offered from 7 to 9 p.m. at the Highway Patrol Station Aug. 14 and 18.

For information, contact E. N. Taylor, driver education representative, at 488-2826 after 5 p.m.

Q. According to English and secretarial books, the title "Mr." should not be written before a man's signature. I received several letters with this title used before the signature. Is this correct? — Mrs. H.W.

A. This is incorrect, according to instructors at the Secretarial Science Department at Fayetteville Technical Institute. They quote from the Reference Manual for Stenographers and Typists, Fourth Edition: "Never type 'Miss' or 'Mr.' in the signature line unless the writer's given name might be that of either a man or a woman."

Q. What facilities are there in this area for licensed practical nurses' training? — G.J.

A. Fayetteville Technical Institute will offer LPN training this fall. Contact the Student Affairs Office for details.

THE FAYETTEVILLE OBSERVER
SUNDAY MORNING, JULY 2, 1972

Former Medics Become

The word "nurse" traditionally conjures up a picture of a lovely feminine vision in white, but this image — as so many of our stereotypes — is changing. Each year more men are working in hospitals as registered nurses, particularly in areas of critical care.

Fayetteville Technical Institute's first young men to complete the associate degree in nursing are Ken Ledford and Bill Stewart.

"I was majoring in history at what is now UNC-Asheville," explained Ken, "when I joined the Air Force. I took a battery of tests and to my surprise, scored highest in the sciences. I joined the medics and was stationed at Pope Hospital for boot training."

Ledford flew as a medical technician during his tour of duty in Europe and was discharged at Pope. "I got out in August of '70, and enrolled the next week at Fayetteville Tech. I've been in school ever since. Even last summer I took a couple of electives to lighten my course load for the fall."

Bill Stewart, the other FTI male nurse graduate, is a native of Rockingham. He, too, was tested when he joined the Army and advised to go into the medics. "I'd never even thought of doing that," Bill confessed, "but I became an aide, attended jump school and joined the 82nd Airborne."

During his six years in service, Bill went to the Dominican Republic and was on active duty in Vietnam.

"Bill outranks me by one stripe," said Ken, "I was discharged a sergeant, he made staff sergeant."

The young men took time to pay tribute to their wives who supported them figuratively and literally during their protraction at FTI. The associate degree nursing curriculum at Fayetteville Technical Institute is accredited by the National League for Nursing and covers six quarters or two years' instruction prior to writing the State Boards.

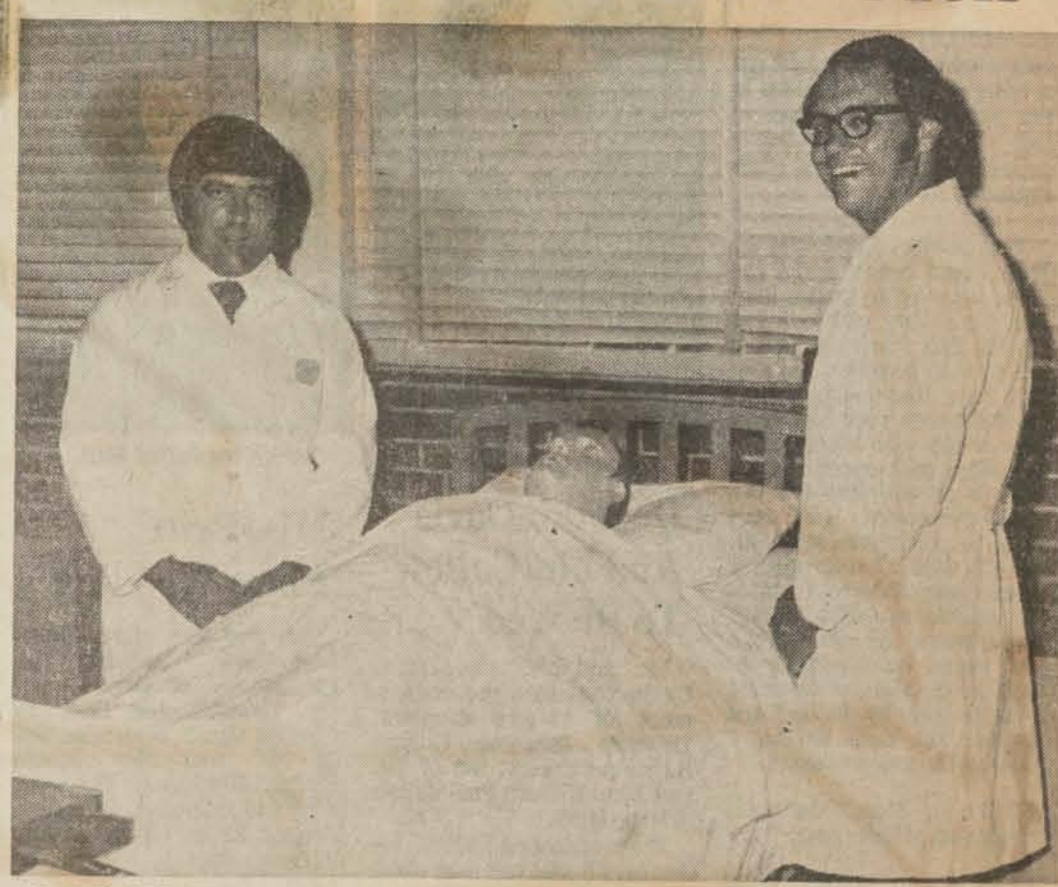

Bill is married to the former Joan Hancock, beautician, and Ken, to Brenda Tischer, public school teacher.

"We had 18 and 19 classroom contact hours in addition to clinical work, plus studying, so our wives just had to take over an extra amount of duties at home," said Ken, "as well as earning our living while we were in school."

After successfully writing the State Board Examination for Licensure, the duo will become registered nurses. Each plans to work in an emergency room — Bill at Richmond Memorial Hospital in Rockingham, and Ken at Asheville Hospital while awaiting acceptance in a school for nurse anesthetists. Unfortunately, the young men explained, North Carolina does not have adequate facilities for educating nurses in this field. It is a highly competitive program and the graduates cannot fill the demand for their services. It provides a career with several options. The nurse anesthetist can become a member of a hospital or private surgeon's clinic team, pop an oral surgeon, veteran's physician or enter the armed services medical corps as an officer. This advanced training re-

Identifying a plant.

Uncovering Spring Beauty In Fayetteville

By JOANN MacMILLAN

"I wish all my classes could see this slope of spring beauty in Fayetteville," remarked Kenneth Moore, instructor for FTI's continuing education course "Local Plants and Their Environment."

"Unless you have a good eye, you miss them. But once you start looking at these woodland plants, you spot them all around you," he continued as he guided his group through Clark Park located behind the Veterans' Hospital.

As supervisor of the N.C. Botanical Gardens, Moore is often called on to teach throughout the state. Clark Park in Fayetteville is one of his favorite sites. A graduate of Davidson, Moore took a M.A. degree in English at UNC before embarking on his Master's Degree in botany. During the past year and a half, he has taught courses in six Tar Heel cities.

At the request of Fayetteville Beautiful, William Bryant, of FTI, arranged for the five-week course to be offered in this area. Dr. Philip Critchfield provided classroom space for lectures at Methodist College. Classes met from 9 to 12:30 on five consecutive Thursdays from March 16 to April 13. Each session included a lecture hour followed by a field trip to Clark Park or Texas Lake. Plants were observed in open fields, by the roadside and in waste places and marshes, and in different woodlands.

At Clark Park, wildflowers bloom in profusion. Tiny heralds of spring are strewn along the pathways. Instructor Moore led his group pointing right and left and up and down to spots of unusual beauty.

The response was enthusiastic. "What's this?" "Can this be a blackberry blooming before May?" "Here's a wild ginger plant! A partridge berry!" "Here's poison ivy!"

As they moved along the trail, the teacher gave the common name, the botanical classification, and frequently a brief history of the species -- in vibrant tones.

Along the path beside the Cape Fear River in Clark Park, woodland plants were yellow violets, bluets, spring beauty, wild garlic and ginger. As the class crossed to the northern side of the park, vegetation changed. Stopping beside a small waterfall, Moore commented, "Look at this yellow jasmine blooming on a shad tree. It's symbolic of this area -- the mountains meeting the shore here in the sandhills."

A gorge cut by a small creek meandering on the northern side showed many plants indigenous to colder areas. This was the result of the glacier age which brought plants, roots, and seeds from the mountains toward the shore. In the Fayetteville area they found compatible soil and climate and have flourished.

"People of Fayetteville should be proud of this remarkably beautiful area and take better care of it," Moore noted. "It would make a great project for Scouts or some organization to clean up the litter here."

Trash was not the only pollution noticed, however. Minibikes and Hondas were screaming through the trails adding noise to the other forms of contamination. Felled trees and other tornado damage from last year's storm were also evident.

Members of the class agreed, when asked why they had taken this course, they love flowers, shrubs and trees. "Besides," commented one, "it's more fun if you know the real name of a plant and something about the species and its use."

Although the class was careful to leave plants for those who would follow them on the trail, the use of plants -- particularly in Colonial times -- was part of the instruction given them.

One mother had brought her third grader to class taking advantage of the Easter holiday. The child happily ran from plant to shrub, looking for "treasures." "Oh," she exclaimed, "school like this would be such fun."

A tiny wildflower is a big discovery.

Instructor Kenneth Moore discusses discovery with class members.
