

W. C. Wilson
HEAD OF DEPARTMENT OF
INDUSTRIAL ARTS

East Tennessee
State Normal School
Johnson City

Johnson City, Tenn. April 8, 1918.

To whom IT May CONCERN:

I have known Miss Alta Purdue of Monroe Co., Tenn. for several year both as student and teacher. As a student she was held in high esteem by all her teachers because of her pleasing personality and her zeal and earnestness in preparing for her life work. Few if any graduates from our Domestic Science department have ever gone out with a clearer conception of the Home Economics problem, or a better preparation for solving it.

I have watched with pleasure the splendid way in which she has handled her work in the High schools at Sweetwater, Madisonville, and Tellico Plains and can commend it unqualifiedly.

I take pleasure in saying that I can recommend Miss Purdue for any position for which she may see fit to apply.

^{see fit}
Sincerely yours,

W. C. Wilson
