An Untaught Cow.

(Woman's Home Companion.)

Down on a Southern plantation the dairy hands were accustomed to do the milking squatting down in a primitive fashion, until the owner introduced milking stools with other improvements. But the initial experiment with the innovation was not exactly a success. The darkey who first sallied forth with the stool returned bruised and battered and with an empty pail.

"I done my best, sah," he explained. "Dat stool looked all right to me, 'but de blamed cow she won't sit on it!"
