Jan 9-

Dear Mama and Papa:- I am afraid this will not be a very long or interesting letter for its beginning to get late and it seems I have so much work on hands. It seems the first of the [[?]] the Prof's have loaded the worst and most of the work on us. I supposed they think that we have all been off on a vacation and need a hand of discipline to get us in working order. I've been working on a [[?]] of hypothetical cases on devolution of [[?]] under the different laws and it requires pretty hard work while we [[?]] at it. Then i guess my extra study guides me more work to do. I guess theres nothing to tell about today

except that I've worked most of the time. We did have a class meeting this morning and they did me the honor as give me the "you" of [[?]]. Sunday morning we started out again with our Sunday school class and it started off well. Began with movement next. We did not stay for church there but went across to Mardel Stall and heard Dr. Gifford. It was a fine sermon. Ss you see, Dr. Ames did not preach, but the Pres. of Eureka College look just please so we visit we would rather take chances of hearing a good sermon at Mardel Hall. There was to be a memorial service at the auditorium the afternoon in honor of Theodore [[?]] who died last week and the orchestra was to play so, being free, we went we would go down but the

auditorium was full when we got there 1 1/4 [] before time for program to being so we went over to Ash [] a little while then came home. It was truly cold- and by the way, we have had a young blizzard all today and [] weaken man medicals below zero weather tonight. Last week was the first week under the new regime and things down do as badly as we had thought- of course it keeps us both pretty busy all the time- I try to help more than I need too- and I guess we will make it out alright. I generally [] here at home, would prefer that to the commons. I like my new course under Mechen very much- he is so clear and so quiet in class that I [] are [] all the time. We earned a paper Gregory so Pilot" last week. It contained a [] of Aunt Lucy sounding [] Uncle Fred [] of delicacies. Have you heard [] he is watching it financially? He owes us a letter.

We [][] Lucy a [] to hold her [] [] and to much Fred a pair of shaving paper with an embroidered cover. We received our box from []Home the last of the week. Edna sent Clemmer an apron-"white [] linen trimmed with lace"(those are Clemmers []) with a hip pocket in it for fancy work. She is using it nowadays when she is hulling her sweater. Then [] of valuables. Aunt Dell sent me a fine [] [][] handkerchief and a handkerchief and a bake tie. Glad you are getting acquainted so quickly there in Woodward. It's about the size of Perry isn't it? And is it as large? Your letter came this morning, mamma and of course was enjoyed. Also your little note in Papa's letter. As Clemmer said, we will get around to it as soon as possible. I thought I might make a trip to town this Friday or Saturday. I'll do my best or our visit. ~~are course~~

Your letter, Papa came in good time and we have [] next Uncle Sam was pretty good in the stationary department. You must not work yourself too hard at them. We boys met on Friday night to plan for our Law Club work and we came decided to load up the pleading park. I'm []

weeks we are to come and then we will take up cases in the [[?]] courts. That promises to go on well. I [[?]] the Law Congress will make in O.K. It's pretty hard to keep going [[?]].

Tuesday morning- just here my [[?]] game out, or [[?]] my letter judgement [[?]] brief and I quit and now its about a quarter to eight [[?]] are these [[?]] at home the course [[?]] up. You see we get up at 6:30 now a days, possibly that's earlier than you folks get up. Our best guess at the [[?]] day present is that it is a toilet- pummice stone. It's a hard one to guess tho. you were certainly well remembered, Papa, in Woodward, having been here but so short a time. Well, it's cold this morning so before [[?]][[?]] and I guess this is all. I must work some on [[?]] devotions again this morning. We are both well. Hope you are evenly over your cold, papa and mama, you must be careful not to catch any. ~~[[?]]~~

Your loving children,

Clemmer and Porter.
