

Dec. 28th, 1909.

Hon. Dick T. Morgan,

Washington, D. C.

Dear Father:

You will remember my telling you of a Bohemian having expressed himself of being favorable to you in the recent campaign from hearing you talk at the Auditorium. He spoke to me some time ago about getting some garden seed through you as he is interested in raising farden and would appreciate any samples or information in the shape of pamphlet that you might send him. He just came in to the office and I wish that you would favor him if possible, his name is John Hrabe of 500 East 6th, Street, City. He is a Bohemian and was talking concerning his son who is a boy twenty-eight years of age and married, securing a place in the consular service in some place where the bohemian language would be necessary. I have an idea that he would have to take some sort of an examination in order to secure the place. What ever information you can give him regarding the securing of such a place, you can send to Mr. Hrabe at the address above.

I have either been too busy or lazy to write this week, but will try to get at it tonight. I think Clemmer has written you our thanks for our presents.

I remain very sincerely,

Your son,
