Ronald Inwood

Dear Sir:

If the "liberals" would  
quit calling America a democracy  
and help get the republican system  
back in operation they would have  
something to brag about.

Until Wilson was for the  
freedom nobody thought of calling  
America a democracy. It is only  
speech he liked the word,  
democracy, democracy.

A suppressive go out have  
been working for over 50 years to  
change our form of government.

1891 to 95 in June

A republic began in the  
local republican, the republic

I would like to see a change

Delegates elected in the present go to the county  
convention and are supposed to run  
the convention. But - they do not. The party  
leaders have decided who will be  
permanent chairman, - the delegates used  
to decide that. The chairman picks a  
committee to name the state delegates  
and give them a list to name

In my childhood all out into the  
country, the delegates after some  
scrapping, named the permanent  
chairman. To do this reversing of  
the convention by the delegates, they  
should get in touch with each other,  
maybe hold a caucus.

The way things are now,  
Grand Rapids gets a Republican  
delegate for each 25 votes, East Lansing  
gets one for 577. It is all but  
unintentional, but - see those 1915

in the back of the "Independent" that can be seen in any library.

Land instead of votes is represented by a Russian, who became very

powerful in detail; got that put over the state, "inserted & deleted" by the Board of

Expenses that is contradicted in detail by the city hall, no publicity. It

just happened years ago, it saves

money in counting the whole of delegates, it would have cost a lot of

money. It is out of the state, as other Board, Superintendent the

same money. In October the Board

tried for city got 2 delegates for 1.2 for Republican voters. Hazel Park got 12 for 1.306. Not an ounce of sense in it. And the 90 cent boot

man do not touch what a referendum

is. The party would meet an intelligently that one a note to

referred their ideas

Then the party conference, that the  
delegates are supposed to have, steel state  
delegates, they the national conference  
then now under the pretext, I am  
repulse it stark before the good rep.

I need to teach school. I have  
been "in politics" since 1909, only  
I call it stockpiling and need  
like very much to have an

address of some of your leaders.

If any of you go, <sup>through</sup> through  
Cochran you fear this place  
just before you get down to  
state & I hope you are  
there. Respectfully

Tommy P. Doherty
