## Snead appointed to student post

Bob Geha, in one of his first moves as President of the Student Government has appointed Ron Snead to the position of Administrative Vice-President.

Geha commented, "A position such as this has almost become a necessity at Ferris, because of the increasing complexity of the student government and their resolutions, which accompany a growing school."

It will be Snead's job, next fall, to serve all phases of the student government in an advisory capacity. Although the student Administrative Vice-President is a new position, Snead foresees no difficulties now or in the future.

"I have chosen Ron Snead because it's my opinion he in the most qualified person to take on this task" said the new President. He continued, "Ron has seen the student government operate and is aware of the duties of the various members and officers, and when called upon, hopefully he will know how to attack many problems."
