CLASS PROPHECY

Welcome to the annual meeting of the Interplanetary Nurses. The convention being held at the Sea of Futility, moon. Representing Lincoln General this year are the members of the Class of 1965.

Presiding over the meeting is **Jan Hock**. Jan's objective for the year is to develop an interplanetary demerit system that is "GO". Assisting her is **Judy Knudsen**. Judy's been having a lot of trouble with girls smoking in rocket ships and tying up interplanetary communications.

We hear **Judy Neben** arrived on time despite recuperating from a massive hip pinning for a dislocated bottom.

Millionaire **Lila Krause** has donated a new pediatrics wing to old LGH, furnished by babysitting funds. She would be a failure without the babies **Lois 'Stork'** delivers.

Lori Dukes showed up tonight even though she quit nursing years ago to become first banjo player of Shaky's. Her G-string may be out of tune, but she can still bat those lashes.

Angie Finke made it here in spite of being hauled in by space patrol for embracing while driving. Up to your old tricks huh?

Two celebrities in the crowd are **Judy Flowerday** and **Pam Toovey** after the recent publishing of their informative handbook for Student Nurses entitled "The Right & Wrong Way to Exit -- Gracefully?". We hear Miss Flowerday's next book will be on marriage phobias and how to overcome them.

It seems the first night of the Convention "**Primer Pete**" was at it again. She's still going strong from the practice she had in training.

After her California trip, **Terry Butterfield** decided that one Marine in her arms was worth twenty surfers on the beach.

Pat Janke and her husband are here for their second honeymoon and after just a show in Omaha, they deserved it.

Margie Ransom couldn't make it this year. After that two year separation, who'd expect her to come all this way?

After doing her fair share of running around in Colorado, **Lucy Epp** has finally decided to settle down in South Dakota so she couldn't make it either.

Also missing is **Phyllis Stutzman**. Stutz decided not to come when she found the convention wasn't open to orderlies.

Viv Christensen felt safe in leaving the children this year. She left her personal, full time, pediatrician home babysitting.

We now have a bulletin on last night's fire in the hotel. Fire Chief **Jan Hodenfeldt** is still investigating fires in her own rooms exclusively. Keep her hot on the trail Christy!!!

Dee Baker came in spite of her busy schedule as an Army Nurse. She's also in charge of catering for the convention. Enjoy your donuts girls!

Carolyn Leonard's dreams of joining the Peace Corps have been shattered. Every country she wanted, we seemed to be at war with.

Party girl **Carolyn Bell** was a little disappointed in this year's convention. It seems something was missing, but **Myrna Stienike** must have found it. Only difference is that this year she didn't need the girls to help her up the stairs.

Karen Johnson's here tonight. She's finally dragged Alan someplace other than the drags.

Ruth Hoffman and her husband are still managing a home for young people -- their own.

Mary Pickett is finally married. Jim asked her to his office to show her his impressions and she got hung up in the dentist's chair.

Her old buddy **Ki Anthony** is a little broken up. She has one hand in the hospital, one hand in the Peace Corps, one foot in College, and one foot in Colorado. Put your best foot forward Ki.

We hear **Karen Roesler** was glad to attend. She doesn't get around much since she has eight children under the age of four.

Speaking of families, we hope the **Harper** kids can manage to keep the medical profession in the family as well as their folks did.

Kathy Folden is flying united, and after twenty years, she's still in the clouds. **Lynn Harvey** flies too. She has a cool Package all wrapped up but not tied down.

Jeanie Peterson is in excellent health after her numerous operations on the house-pital.

Chubby Harb is here too. Finally graduated, finally pregnant -- and finally developing a figure.

CLASS PROPHECY

Amy Sandberg misses her old room with the back door for emergency ventilation in desperate moments.

Slippin Schmidt has been enjoying athletic activities here on the moon, but since fracturing her rib cage, right arm, legs, pelvis, skull and left great toe, her sports enthusiasm is sadly lacking.

Moosey Miller is still in nursing despite many offers from pro-football teams, who have had their eyes on those broad shoulders. She didn't accept for reasons not given but we wonder. Do they really get in your way Gay?

Sweet Paulette was paniced about which of her ten different men to bring along. She's finally narrowed it down to five guys.

Hampton as a sideline is demonstrating scooters at the Heiden-Huges Honda Hut. We heard her exclaim as she rode out of sight "I can't take it!"

And finally, entertainment for tonight will be provided by **Elly Garmatz** who has finally learned the last half of Hava Nagecla from **Eileen Rogavin**.
