## THE SCHOOL PIN

The pin was designed by Miss Myrtle Dean, the second superintendent of the hospital. It is yellow gold and small in size. Florence Nightingale's lamp represents the light of learning, and the three books signify the three years of learning. The name Bryan Memorial Hospital is written on the outer edge of the pin. This pin has remained unchanged during the history of the school.

## BRYAN SONG

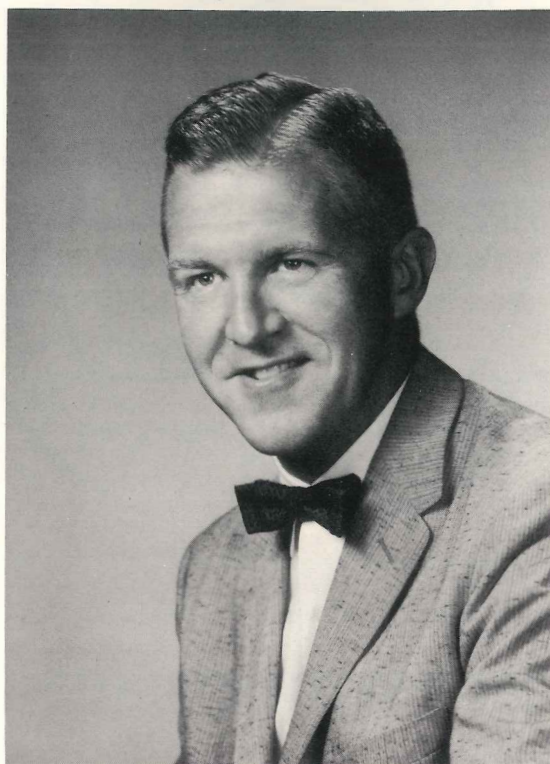

The Bryan song was composed by two students--Bonnie Lutes Nuss and Mildred Pearson Porritt, both graduates of the class of 1933. The tune is "Remember".

Remember the times you've had here,  
Remember when you're away.  
Remember the times you've spent here,  
And don't forget to come back someday.  
Remember the trials and hardships,  
The pleasant memories too.  
For you girls belong to Bryan,  
And Bryan belongs to you,  
Belongs to you.

"CONGRATULATIONS TO THE CLASS OF 1962"

# DEDICATION

EUGENE G. EDWARDS

Eugene G. Edwards assumed his position as Administrator of Bryan Memorial Hospital in June of 1955. He came to Bryan from Hiawatha, Kansas, where he had been administrator of the Community Hospital in that city. Mr. Edwards received his Master's Degree in Hospital Administration from Washington University in St. Louis, Missouri.

Since he has come to Bryan, this hospital has undergone marked changes in remodeling, organization, and methods of procedure in all departments.

Mr. Edward's goal had been to make Bryan Memorial Hospital one of the finest in the Midwest. He has devoted countless hours of time in planning and working for our \$3.5 million building program. This has resulted in the completion of our beautiful School of Nursing and the new hospital wing of three floors. Remodeling of the old section is now underway.

Though many people have shared in making the building program a reality, Mr. Edwards has been the moving factor in the progress experienced by Bryan Memorial Hospital during the seven years of his administration.

Mr. Edwards, the Class of 1962 salutes you.

We dedicate this book, our annual, to you, in the hope that it may show our appreciation for what you have done for us.

Yes, Mr. Edwards, we thank you very much.

## HISTORY OF CLASS OF 1962

September 8, 1959--The first time all of us were together, 28 in number, entering as probies. March 6, 1960--Capping at Christ Methodist Church--our inspiration for the next 30 months. As we started our Pre-Clinical period, our class was 21 in number. June 6, 1960--Freshmen at last! We began working our first 40 hour week. September 12, 1960--As Juniors, five of us entered our first departments. It's a wonder we could stand, our knees shook so. December 12, 1960--We changed departments with new experiences for all. March 10, 1961--Halfway Party at "The Cave". This was a sad day for many of us, as it was the last time we would all be together at Bryan until we completed affiliations. March 13, 1961--Five of us ventured to Hastings and five to Omaha to begin our affiliations, leaving the safe folds of Bryan. June 12, 1961--Still more of us on the move, with no place to call home. August 5, 1961--Junior-Senior Banquet at the University Club. This marked the closing of our second year, with 18 members in our class. September 11, 1961--Still on the move, with the first group returning to a new and changed Bryan. Moving into the new dormitory was a vision we had long expected. And at long last we were seniors! October 26, 1961--We again caught a glimpse of each other when we all attended the NSSNA convention at Grand Island. March 12, 1962--The class of 1962 was back together again; the first time in a year. August 12, 1962--Our graduation day at Christ Methodist Church, with a month's terminal vacation. This was the fulfillment of a long awaited dream. September 8, 1962--Exactly three years ago, we entered a long and strange world which we now accept as a challenge. Dear old Bryan certainly holds many fond memories for all of us.

# CLASS WILL

The Senior Class of 1962, being of sound mind and body, hereby present this legal paper as our last will and testament to all whom it may concern.

We, the Senior Class, do will our sound minds and sound bodies to all who can do justice to them.

We, the Senior Class, do will Conkling Hall to any of those of the Junior Class who wish to find an upstanding young doctor, in hopes that they can get them to stand up.

We, the Senior Class, do bequeath the homemade bread and the private parties, both of which have made Hastings famous, to all the Junior Class, in hopes that they make better use of them than we did.

We, the Senior Class, do willingly bequeath the entire dorm, including both housemothers and the OB call phone, to all underclassmen, in hopes that they may keep it in the good condition that it is.

I, SHARON ANN BLANKENFELD, do bequeath my ability to turn on a look of interest, and at the same time, turn off my hearing, while sitting through any and all long, dry tales to Lana Becher, in hopes that she may use it to the best of her abilities.

I, BONNIE DALE BRYAN, do willingly give my ability to do care studies in two days, or less, remaining calm throughout the whole procedure, to Anna Lee Velte in hopes that she may learn to do the same before her student days are over.

I, MAVIS LORRAINE CARLSON, do will my ability to do the twist at stag parties to Hallie Lore, in hopes that she may better enjoy herself in similar circumstances.

I, RUTH ANN CHRISTOFFERSEN, do willingly bequeath my quiet, contagious laugh to Sharon Erickson, in hopes that she may will it to someone next year.

I, CAROL JEAN COOPER, do will my ability to keep my room neat to all the underclassmen, present and future, in hopes that they do the same with little effort.

I, MARY LOU CRADICK, do bequeath my ability to not bat an eyelash at any good looking specimen of the male species to Pamela Johnson, in hopes that she may better stabilize her social career.

I, DIANA MAY CRAIG, do will my ability to chase men until they catch me to my sister, Carole, in hopes that she may use it to her advantage.

I, ARDITH LOUISE GALBREATH, do bequeath my ability to think up idle chatter and say it, to Ellie Hitchcock, in hopes that she may keep the spirit alive.

I, CAROL ANN HIEBENTHAL, do will my good natured ability to master the art of short-sheeting beds to Linda Dornburg, in hopes that this great tradition may be upheld in fine stead.

I, BARBARA ANN HOLZ, do bequeath all the boundless energy and exhilarating joy that I experience each morning at 6 to Donna Olander, in hopes that she may be the pride of her class on each and every morning, and on graduation day, too.

I, SONDRA MAE KYES, do will my ability to go home after work and clean the house, make supper, bake a pie, wash my hair, study, maintain a high state of marital bliss, and still keep physically fit, to anyone who decides that marriage is the answer, in hopes that they may make the grade, too.

I, KATHLEEN ANN LARSON, do bequeath sufficient funds to anyone who wishes to use same to see their fiance in distant places, in hopes that it may bring her good luck in the future.

I, MARLENE MATILDA LENERS, do will my ability to be alert and responding the morning after the night before to Barbara Wieseman, in hopes that it may bring her good luck in the future.

I, DIXIE LEE NISSEN, do bequeath my ability to know my own mind and sincerely believe the impossible to be the sublime to Gay Barth, in hopes that she may

do the same.

I, MARILYN ARLENE POWERS, do will my ability to stay up till 3:00 A.M., listening to many a tale of woe, to Mother Tag. in hopes that she may not realize her loss of sleep.

I, LOIS MARILYN ROKER, do will my ability to carry anything off to Elaine Versaw, in hopes that she knows what she's doing and may cherish the spoils.

I, CARMEN JOYCE SANDELL, do bequeath my ability to sleep at any time to Katie Gleason, in hopes that she may gain as many pair of sexy pajamas as I did.

I, CATHIE LOU ZIER, do will my courage to attempt to crash high society to Betty Peterson, in hopes that she may attain great success.

## CLASS PROPHECY

It is now 1972 and we look back at our old classmates, we find that ZIER, CRADICK, and BLANKENFELD are still roaming the world looking for adventure. Their main pastime is trailing Buzz and Todd down Rt. 66. On the sidelines they practice nursing and keep track of their old classmates. The last they knew BRYAN was at Ingleside as clinical instructor on the male juvenile ward. She is now organizing a new group known as J.A. (Juvenile Anonymous). CARLSON is now an industrial nurse at the Geritol Bottling plant in Trenton, New Jersey. She no longer uses her favorite expression, "I'm so tired, I can hardly believe it!" COOPER lives at Cape Canaveral giving first aid to the astronauts and monkeys. Her latest recognition is teaching first aid to the "moonmen." CHRISTOFFERSON now does part time work in her home beauty salon. She specializes in cutting hair (with bandage scissors!) SONNIE and KENNY KYES are finally living together. Dorm life was rather hard on her! ROKER is working at St. Luke's in Denver and is chasing all the foreign interns with foreign cars, you know, those short, dark and handsome ones! CRAIG-- after ten years of hard labor is now ready to pay her last dollar on her beautiful 3-speaker stereo that she has been buying for a "dollar down and a dollar a week". HOLZ--last August we found Barb, Wally, and the kids sitting safe and sound at home, since an early winter was predicted. He even skips guard! LENERS is working in Omaha at Children's Hospital in the Admitting Office. She's renting a room at Conkling Hall and has made a great discovery - the tunnel! SANDELL is treating frostbitten igloos in her Eskimo Hospital. Carm's diet is now a farce - her scales froze! GALBREATH is taking various courses at the U. of Nebr. and is still trying to get her bachelor's (degree). HIEBENTHAL is down in New Mexico, still attempting to establish rapport with the Spanish-Americans by means of hieroglyphics. POWERS finally succeeded in living in an all lavender environment - her husband even turned purple! NISSEN is happily married and still living in Miami Beach. She's working double duty because of the high cost of living, although she still doesn't have reciprocity in Florida. KATHY AND RICH LARSON have a corporation in 3-D T.V. They interviewed Buzz Murdoch and Todd Stiles on their Sunday night program, who stated that they had given up their traveling due to suspiciousness. They felt they had been followed! Couldn't have been Cradick, Zier, or Blankenfeld, could it? That's all Folks!!

# THE LIFE OF A STUDENT

All types and kinds of hopefuls came to begin our training at

the Bryan School of Nursing.

To meet us at the door were the dignified housemothers.

Next we were introduced to our roommate, a most unusual fellow;

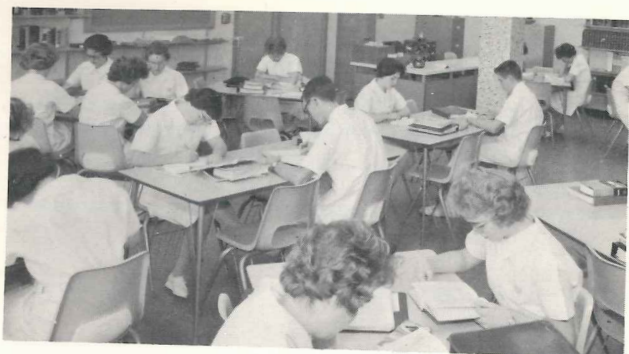

and, the strict instructors were on the scene, too.
