"as good a joiner as any in Virginia"
African-Americans in the
Eighteenth-Century Building Trades
An Introduction

One of the greatest challenges facing historians of colonial America is the search for material evidence of African-American life. The objects used and created by the enslaved majority and the free minority have proved to be largely fragile, impermanent and often difficult to identify. Once discovered, they endow plantation journals and tax records with a heightened degree of eloquence and in themselves speak directly of individual hopes and trials. The metal button and bone fish-hook are especially important to the history museum striving to interpret the past in immediate and compelling ways. African-American material culture, however, was not limited to small, portable items, but embraced houses, outbuildings, bridges, roads--in short every man-made element of the colonial landscape. Sometimes such structures, like most moveable objects, have come to light only through archaeological investigation. Many others, particularly buildings, have remained clearly in view to this day. A walk along Williamsburg's Duke of Gloucester Street, or in any locality in which eighteenth-century architecture has survived, reveals the sites and, indeed, the products of African-American endeavor. This most extensive yet accessible artifact of African-American life includes not only living spaces and workplaces, but the tangible results of labor and creativity. It owes its existence to the significant numbers of slaves and free blacks employed in the building trades. This introduction considers those African-Americans who contributed to the building of eighteenth-century Virginia. All of the documentary references to specific individuals cited in the discussion may be found in the Sourcebook section of this volume. Immediately following the introduction is a selected bibliography of pertinent secondary works.

African-Americans worked in every facet of the colonial building process, from preparation of materials to decorative finishing, and in every capacity, from unskilled laborer to accomplished craftsman. With their fellow artisans among the indentured servants, convicts, apprentices and free individuals of European and Native American descent, they constituted one of the very largest occupational groups in the colonies. In eighteenth-century Virginia only agriculture claimed larger numbers of workers than the building trades in both the free and enslaved segments of the population. The Sourcebook references for Virginia, spanning the years 1717 to 1825, include some 302 African-American building tradesmen known by name. The carpenters outnumber all other tradesmen, accounting for 52% of the total, and when joined by the carpenter-joiners, carpenter-painters and other dual specialists they truly dominate at approximately 70%. A distant second place is held by the sawyers at roughly 21% of the total, and bricklayers and masons follow at about 5% and a little better than 2% respectively. Brickmakers, painters and millwrights make up the remaining 2% of the named craftsmen. These relative percentages hold true for both runaway slaves and those who remained; the small number of free black artisans identified are all carpenter-joiners. A comparable sample of white building trades craftsmen yields the same predominance of the carpenters and carpenter-joiners, amounting to about 72% of the total number. Second place belongs not to the sawyers, who are hardly represented at less than 1%, but to the bricklayers constituting about 16%. The painters follow and masons, millwrights, plasterers, carver-gilders and glaziers complete the total. The absence of many finishing trades among the African-American craftsmen is somewhat misleading, as carpenters and bricklayers, particularly in a plantation context, usually carried out the glazing of windows and plastering of rooms. Sawing, however, does seem to have been a building-related activity associated with African-Americans and, in general, those craftsmen proficient in more than one trade were quite often slaves.

Craft Training. Like their white counterparts, black workers in the building trades acquired their training in one of three ways. Some arrived in America with construction skills they had developed in their homelands. Their knowledge of building traditions utilizing wood and other botanical materials undoubtedly found ready application in the colonies and perhaps led to their further training along European lines. Such might have been the experience of Gruff and Bob, a carpenter and sawyer who ran away from their Prince George County owner in 1745. Both Africans, their familiarity with construction matters could have recommended them for on-the-job training, the route by which most enslaved building craftsmen learned their trades. Richard Henry Lee of Westmoreland County issued a set of tools "to Jubiter for him to learn the Carpenters trade with" in 1782 and presumably had in mind an experienced craftsman who would show the slave how to use them. Many slaves learned their trades from free white craftsmen hired either to instruct them or undertake a specific job with their assistance. The brickmaker Charles Hagen worked for George Washington for eight months in 1788 and one of the slaves who had helped him was moulding and firing his own bricks in 1789. Slaves owned by craftsmen also acquired various levels of training; Going was sold in 1795 by a Richmond bricklayer "with whom he sometime worked at that trade."

The carpenter-joiner Charles Harding reported in 1772 that he had learned to paint from his former master in Nansemond County. Harding may have been intentionally taught, or he may have acquired his new skill through his own powers of observation and aptitude. Whether bound or free, many African-Americans developed their facility with saw, chisel or trowel by simply watching or assisting a family member, neighbor, master or hired craftsman at work. Especially after mid-century and on the larger plantations, trained slaves taught others. Quite often the aspiring craftsman was the son or other relation of his teacher. Writing about the carpenter Tony in 1770,

Landon Carter noted that "his boy has now been going on 3 years his apprentice." John Hemings had been trained by the free white carpenters employed by Thomas Jefferson. He, in turn, instructed his own nephews in carpentry and, incidentally, left behind not only physical, but written evidence of his exceptional craftsmanship in the letters he wrote to Jefferson.

The third and least common type of craft instruction was the formal apprenticeship. The contractual agreement between craftsman and neophyte proved just as rigorous and effective as on-the-job training and, moreover, was defined in detail and legally binding. The same conventions that applied to whites governed apprenticeships for African-Americans with the omission of literacy instruction for slaves. The slaveowner who could or would not provide training on his own properties sometimes opted to bind out a potential tradesman for a set number of years. In return for an apprentice's labor, a craftsman offered not only instruction, but housing, food and clothing. Though the owner temporarily lost one member of his labor force, he profited ultimately on the return of a skilled worker. Free blacks also entered apprenticeships, bound usually by family members or themselves just like free whites. Unlike enslaved African-American apprentices, John Whitlock Spurlock of York County bound himself in 1753 to learn not only a trade, but to read and write and receive the customarily promised "freedom dues." The free apprentice, whether white or black, could also complain to a county court when his master failed to honor the terms of their agreement. Just so did Richard Limehouse obtain his release, as well as court costs and a suit of clothes, from the York County carpenter John Jones in 1752. There is evidence that some slave owners terminated apprenticeships before the contracted time had elapsed in their impatience to capitalize on the slaves' enhanced abilities. George and Stepney, apprenticed to the Williamsburg carpenter Matthew Tuell, were apparently "inveigle[d] ... away" by their Yorktown owner in 1772, when he judged their training to be sufficiently advanced for his purposes.

Training for both free and enslaved African-Americans in the various building trades sometimes began when they were as young as seven to ten years old. At each of two farms belonging to William Byrd III, one of the full-fledged carpenters was yet a boy in age. Formally bound apprentices seem to have embarked on their education as teenagers. Among slaves, the taking up of a craft might occur at even more advanced ages, possibly through individual initiative or as a kind of "promotion" granted by an owner. Mention should be made of a small number of African-Americans who, like the sawyer Sam Howell of Cumberland County, were "bound for 31 years according to the [free] condition of [their] mother[s]." In 1766, the twenty-three year old Howell had eight years to wait before his release from indentured servitude, though he possessed a skill which might sustain him in freedom. It should also be noted that just as free white women appear to have been barred from the building trades, so too were their free and enslaved African-American sisters. Some slave women worked at the periphery of construction, clearing vegetation from building sites, repairing the simpler types of fencing or whitewashing outbuildings. No doubt they and many white women carried out other tasks in the realms of carpentry or bricklaying, but their actual training in any of the building crafts has yet to be proved.

The premature return of the apprentices George and Stepney to the domain of their owner illustrates not only the economic needs of a particular individual, but the defining characteristic of the colonial Chesapeake--a chronic shortage of labor. By the later decades of the seventeenth-century, large farms and plantations had begun to emerge, modest urban areas to develop and agriculture to diversify. These trends continued into the next century and demands for labor, especially skilled labor, intensified accordingly. In the seventeenth century some African-Americans could be found among the carpenters and coopers so essential to tobacco cultivation. The overwhelming majority, however, labored in the fields as indentured servants or, increasingly, as slaves, while white tradesmen performed the more skilled tasks. In the

eighteenth century the addition of grains and other crops to the agricultural repertoire, expanding settlement and ever-rising material expectations created more skilled work than the existing labor force could handle. By the second quarter of the century the purposeful training of slaves as craftsmen had been well established. As slaveowners increased the size of their labor forces they found craft instruction for some individuals economically feasible. At the same time there emerged enhanced opportunities for free blacks and a general employment of African-Americans in a far wider range of occupations. As Hugh Jones reported in 1724, "their Work is to take Care of the Stock, plant Corn, Tobacco, Fruits, &c. ... [but] several of them are taught to be Sawyers, Carpenters, Smiths, Coopers, &c. and though for the most Part they be none of the aptest or nicest; yet they ... will perform tolerably well." The versatility exhibited by a typical plantation carpenter and the deft workmanship he and his fellow craftsmen often imparted to barn and courthouse alike challenges Jones's assessment. As the century progressed, it became clear that African-Americans engaged in building could be exceptionally able and the products of their labor very nice indeed.

A Diversity of Work. Regardless of their ancestry, members of the colonial building trades represented every possible level of craft ability and achievement. Some claimed skills they simply did not have, while others never attained any acceptable degree of proficiency in spite of instruction or experience. Some proved better suited to other tasks. Will, in 1770 a Fauquier County runaway, "worked some time at the carpenters and coopers trade, though knows but little of either, but is a tolerable good turner." Phill, who ran away from the same county ten years later, achieved quite different results from a similar situation. He "worked with stone mason and bricklayer, [but] has no particular trade by being capable of doing something at almost every kind of business." Such innate ability was, not surprisingly, greatly valued by slaveowners and the plantation setting in particular fostered the development

of diversified building craftsmen. Most frequently those following multiple trades combined carpentry and sawing or carpentry and some other branch of woodworking, usually joinery or coopering. The dual specialty of carpenter and shoemaker was also fairly common. A few remarkable individuals gained competency in a variety of trades, like Peter Deadfoot of Stafford County, described in 1768 as not only an excellent sawyer, but a butcher, carter, ploughman, scytheman, shoemaker and waterman. Specialists in a single trade actually predominated, but even they routinely engaged in a wide variety of craft activities. In 1770 and 1771 Landon Carter's carpenters carried out such diverse tasks as building fences and thatching outbuildings, repairing a carriage and making a wheat cradle. When no immediate need existed for the expertise of certain craftsmen or an extraordinary event called for large numbers of laborers, slaveowners sometimes assigned their building tradesmen to unaccustomed tasks. Thus Washington at times set temporarily unoccupied bricklayers to helping carpenters or carpenters to plant corn and assist with the wheat harvest.

Besides the craftsmen who were proficient in more than one building trade or combined their construction work with other, sometimes quite unrelated activities, there were those for whom building matters remained secondary or incidental. Will, a driver, mower and ploughman in 1784 Fairfax County, was routinely called upon to "do the common carpenter's jobs necessary on a plantation." Both enslaved and free African-Americans, craftsmen and laborers alike, often carried out basic tasks like making ax or hoe handles or replacing the damaged siding of an outbuilding. They were characterized as "part of a carpenter" or able to "do something of the house carpenters work," indicating that they possessed only a few of the skills associated with the true artisan. It should be noted here that the same relatively simple and routine building activities that intermittently occupied the blacksmith or ditcher constituted full-time employment for the workers known as "jobbers." "Jobbing carpenters" and others less specialized provided

the semi-skilled labor for all phases of construction, from making bricks to installing interior woodwork. Just as carpenters and other tradesmen occasionally found themselves working in the fields, agricultural workers and domestic servants sometimes labored on construction sites. During the remodelling of Mount Vernon in 1758, Washington's overseer reported that "as to pul[ling] Down the old plastering and leaths [laths] out of the rooms I made the home house people Do and all other work as they could," while the carpenters built scaffolding and salvaged nails from old shingles.

While some craftsmen and laborers qualified as partial carpenters, some carpenters were confined by their training and experience to certain aspects of the trade. The "jobbing carpenters" just mentioned were generalists and displayed varying levels of skill. Eighteenth-century Virginians used a number of other descriptive terms to express the abilities of a carpenter somewhat more precisely. "Coarse" or "rough carpenters" built most of the structures required for domestic, agricultural and even public purposes. Assembling and securing the frame, splitting out and nailing up the clapboards for siding and roofing and finishing the job with simple doors and perhaps a floor did not exceed the capabilities of such craftsmen. Buildings of some scale and solidity could only be created by the "complete carpenter," whose range and level of skill met the challenge of sophisticated structural framing and joinery work like panelling. "House carpenters" usually equalled the "complete carpenters" in achievement and did not always limit themselves to domestic building. These terms described carpenters of all races and social conditions. African-American carpenters acquired two additional terms for specifying the nature and complexity of their work. "Plantation carpenters" seem to have performed the same tasks as the above-mentioned Will--basic carpentry in service to agricultural production, often including clapboard work. In certain contexts "Negro carpenter" appears a straightforward designation for an African-American craftsman. Elsewhere, though, it might pointedly indicate the enslaved condition of a craftsman or even serve as a synonym for "clapboard

carpenter." Of all the building trades, only carpentry inspired classification according to skill level. Every trade, however, ventured to assess quality of workmanship. Thus among the African-American building craftsmen of the eighteenth century can be found the ingenious rough carpenter, the good bricklayer, the fine sawyer and "as good a joiner as any in Virginia."

Circumstances. The majority of enslaved African-Americans lived and worked exclusively on plantations. Slave craftsmen in general lived on the larger farms and were owned in disproportionate numbers by the wealthiest planters in Virginia. Building tradesmen virtually always figured in their ranks and usually constituted a sizeable percentage of their numbers. As early as 1757, the six carpenters at William Byrd III's Brunswick County property accounted for roughly 32% of all skilled men present, while at Washington's Mount Vernon six carpenters and two bricklayers made up 21% of the tradesmen in 1799. At the largest establishments, like those of Washington or Robert Carter, carpenters and bricklayers labored in gangs under the direction of a free, white craftsman hired for a specific project or as a resident overseer of all building activities. Particularly after mid-century as more and more African-American craftsmen were trained, some slaves entered into supervisory roles themselves or otherwise worked in a comparatively independent fashion. Thus a craftsman might receive the general instructions of his owner and carry out a job individually or with the help of one or more less-skilled assistants. Just so did Robert Carter dispatch the carpenter Oliver to one of his quarters to make a tobacco house door in January of 1785. Comparably accomplished craftsmen might form working partnerships, like the carpenters Guy and Jimmy at Landon Carter's Sabine Hall in Richmond County. Pit sawing by its very nature was a two person operation, encouraging practiced duos of "top man" and "bottom man."

The white carpenter or bricklayer engaged on the plantation was not always a supervisor, nor was he always free. African-American building

tradesmen were often joined in their tasks by indentured servants or convicts of European ancestry. Hired white artisans often took their orders directly from the plantation owner or manager, as did the slaves assigned to work with them. In some instances they brought their own slaves to assist with the job. While most enslaved craftsmen belonged to planters, some were purchased by the more successful white tradesmen. These slaves and their less-skilled brethren constituted the core, if not the entirety, of such a tradesman's workforce. The builder William Buckland's laborers and the joiner Francis Jaram's house carpenters both enhanced and expanded their owners' business possibilities.

The hiring of free white building trades craftsmen for plantation work occurred throughout the eighteenth century, but most routinely in the earlier decades. By contrast, the hiring of enslaved African-American craftsmen became common in the 1760s and intensified both during and immediately after the Revolution. Often a single plantation could not fully employ its artisans, and slaveowners discovered a new source of income in renting out their temporarily unoccupied workers. Ever-present construction needs plus the accelerating incidence and scale of building projects towards the end of the century contributed to the great demand for skilled carpenters, bricklayers, joiners and also general laborers. Slaves were hired for specific periods of time and monetary rates, frequently for work at considerable distances from their home plantations. Usually the hirer assumed responsibility for their housing, clothing and food, while the owner collected their earnings. Newspaper advertisements announced the need or availability of slaves for hire, but most owners seem to have made agreements less formally with family members or neighbors. Sometimes alternative methods of payment were adopted, as when Landon Carter swapped the labor of his carpenter Jimmy for that of the stonecutter Ralph, one of John Tayloe's slaves, in 1764. A few owners allowed their slaves to retain part or even all of the money they earned as hirelings and sometimes to make their own arrangements with potential employers.

Charles, a versatile sawyer, ran away from Norfolk in 1767, perhaps fearing that his new owner would not honor the fact that "he has been used to hire his time, and has a pass of Joseph Jones for that purpose." Most hiring and self-hiring took place in the plantation context, but certain late colonial and early national era industries like mining and founding, as well as ambitious public projects like churches, courthouses and canals, also claimed the labor of African-American building tradesmen. The industries and the canal companies also purchased slaves outright, accounting for most of those few skilled individuals neither free nor owned by the planters and craftsmen.

Very few enslaved African-American craftsmen managed their own hiring and only a slightly greater number shared in the fees they garnered for their owners. Many, however, enjoyed living and working conditions superior to those of fieldworkers and the lesser-skilled. At the more extensive plantations artisans usually lived at the main or home house. Proximity to the owner's immediate domain generally insured fairly well-built housing and sometimes provision of a structure or shop designated for a certain trade. Whether at home house or distant quarter, the building craftsman was particularly well equipped to create, care for and improve his domestic surroundings, as well as fabricate items for personal comfort, barter or sale. In addition to selling chickens or three-legged stools, he might also acquire cash from owners like Francis Taylor of Orange County, who paid "Carpenter Moses for working on Overseers house 1/3 per day in holidays" in 1792. Like most slaves, craftsmen spent whatever money they had almost exclusively on items of clothing. The variety and quality of clothes worn and carried by building trades runaways indicates their enhanced opportunities for personal gain even within the strictures of bondage. Slave carpenters, sawyers and bricklayers benefitted from their status as skilled workers in a number of additional, less tangible ways. Even a rudimentary knowledge of a building trade helped to diversify a slave's work routine and allowed him to develop his intellect and talents. Varied and challenging work, often authority over

other slaves and the trust of the manager, overseer or owner endowed the craftsman with a heightened sense of self and some control over his situation. Hiring and self-hiring allowed the craftsman to extend his freedom of movement, meet prospective friends and spouses and, most significantly, experience a world beyond his home environment.

If hiring opened up certain possibilities for a slave, it also closed off other aspects of his life by separating him from his family and accustomed surroundings. Building trades craftsmen, as possessors of highly sought after abilities, were always prime candidates for hiring and also for sale. Some, like the carpenter and sawyer Will in 1758 Halifax County, even became victims of abduction. The circumstances encountered by a slave after he was hired out or sold might prove uncomfortable or even dangerous. In the building trades the threat of injury was always present and many craftsmen lost fingers and toes and bore the scars of ax and saw cuts. Inferior tools or unreasonable demands simply increased the risk. Slave craftsmen were susceptible to an additional psychological burden arising from their comparative material comfort and close working relationships with whites--a sense of alienation from the majority of the enslaved population. Not only did some craftsmen feel caught between two worlds, but they often wielded even less negotiating power than the field hands with those in authority due to their small numbers and unique status. On the other hand, enslaved building tradesmen were able to express resistance through their skills by employing such tactics as slowing down the pace of work, intentionally misunderstanding directions and deliberately producing work of inferior quality.

The ultimate form of resistance for a slave was running away. Dissatisfaction with their present situation apparently motivated the 1794 flight of Bob and Duke, a house carpenter and sawyer from Richmond County, whose owner believed they ran away "to compel me to hire or sell them, as many applications have been made" Ten years earlier, a Cumberland County carpenter named Jack had offered a more elemental reason when he

"was heard to say, since he ran away, that he never intended to serve any person as a slave again." The craftsman was far more likely than the fieldhand to run away, in part because he was better equipped to cope with life beyond the plantation. He possessed readily marketable skills, for the practice of which he usually took his tools away with him. He was often literate or knowledgeable about the working world and sometimes had accumulated cash or acquired other valuables to finance his journey. The practice of hiring out provided the slave with additional opportunities for running away, as Reuben, a carpenter and sawyer from Spotsylvania County, discovered in 1794. Reuben "was hired to Mr. Nicolas Voss in the city of Richmond, last year, and continued till the expiration of his limited time, which was the 25th of December last, from which time and place he eloped."

Most runaway craftsmen, in the words of the advertisements placed by slaveowners seeking their return, intended to "endeavour to pass for a free man." Some, no doubt, successfully entered the ranks of the free black tradesmen. In eighteenth- and early nineteenth-century Virginia, unlike Charleston and other places in the north as well as the south, free black carpenters and bricklayers apparently never encountered overt hostility as competitors to the free white members of the building trades. While agricultural tasks divided clearly along racial lines, craft activities developed relatively few such distinctions. The labor shortage that had always afflicted the colony persisted into the new century, and building needs continued or increased in the decades immediately after the Revolution. Jobs, it seems, were not scarce, and one particular inequity awarded to free African-American building tradesmen--less pay for equal work--appears to have forestalled any fears their white counterparts may have been harboring. The role of free blacks in the building trades is certain, but as yet indistinct. There were those who acquired the basic skills to maintain and improve their homes and augment their incomes by supplying the semi-skilled labor always required in construction. Others were accomplished craftsmen, who achieved varying

degrees of prosperity. In 1797, Washington asked his nephew George Lewis if he knew "of a good House Joiner (white or black) that could be hired" and was sober, diligent and "capable of making a rich finished pannel Door, Sash, and wainscot." That a craftsman might be judged by his attributes and abilities rather than by his race or social status, suggests that free, as well as enslaved African-American building tradesmen could sometimes refute the prejudice and oppression of their time.

The Sourcebook and its Applications. The Sourcebook that follows offers a collection of written references to African-Americans in the building trades, drawn from a variety of eighteenth- and early nineteenth-century documents. It is presented in two parts. The first and most expansive is devoted to the colony and state of Virginia and the second, for comparative purposes, to other locations from Florida to Massachusetts. Each part covers basically the same period of time, the first from 1717 to 1825 and the second from 1729 to 1804. The Sourcebook also appears in two formats--hard copy and diskette. The diskette version (in WordPerfect 5.1) is provided to facilitate subject searches and encourage users to add newly discovered references to the collection. The principle types of sources represented are newspaper advertisements, plantation and business records, letters and diaries and court records; they are described in detail at the end of each section of the Sourcebook. All of the sources have been reviewed in entirety, but for some only a selection of references was made for the collection. Advertisements of collective sales of slaves, for example, are formulaic and reveal comparatively little about the individuals concerned, so only a few are included as typical. Researchers should consider the Sourcebook a point of departure and ideally consult the original document for themselves. Notes on the arrangement of references and other aspects of using the Sourcebook will be found immediately preceding Part 1 in the hard copy and both parts in the diskette version.

The Sourcebook is designed to help interpreters, historians, curators and other museum staff members pursue the topics and issues briefly discussed earlier in this introduction. Craft interpreters, especially carpenters and brickmakers, will be particularly interested in what the documentation reveals about training and work practices. Those concerned specifically with the experiences of African-Americans will discover instances of individual crisis and resistance, as well as examples of material life and cultural expression. The collection also supplies grist for the investigation of much broader subjects, like the organization of labor or the structure of society in colonial Virginia. The Sourcebook is ultimately intended to advance the ongoing development of informative and innovative museum presentations and inspire further exploration of the questions and possibilities that will arise from its pages.

Using the Sourcebook

The Sourcebook is divided into two parts, one for Virginia references and the other for places outside that state. References are presented in chronological order with headings composed of date, geographical location and name and trade of an individual craftsman when identified. The reference text follows and source information appears at the end of each entry.

Additional, often unrelated trades practiced by building trades craftsmen are set off by a semi-colon in the headings. Some references identify more than one tradesman. Names and respective trades are organized with semi-colons plus, in complex listings, the word "and."

Notations following source information indicate related references. "See above" and "see below" (with dates) point to references contained in the Sourcebook and "see also" to others, usually nearly identical or equally representative, to be found elsewhere.

Following the entries in each part of the Sourcebook is a List of Sources containing full bibliographical information for manuscripts, newspapers and printed works from which the references have been gathered. Only those newspapers individually listed have been reviewed in entirety. Others represent references drawn from the cited published collections of runaway advertisements.

On the next page are the abbreviations used throughout the Sourcebook.

Had on a good dark Bearskin Frock-Coat, and Cotton Breeches; but carried with him several other Cloaths. He is by Trade a compleat Wheelwright, and so much of a Smith, as to make the Nails, and shoe those he makes. He is likewise a good Cooper, Sawyer, and House-Carpenter, and has also been employed in small Craft by Water. Mr. Fox of Fredericksburg, was formerly his Master, and as he has lived in that Town, and other public Places, most Part of his Life, has contracted a pretty general Acquaintance, and may by that Means be conveyed out of this Colony. He has been seen on board several Vessels in Rappahannock River and on board of a Schooner bound to New-York; but on being detected as a Runaway, he got clear, by swimming on Shore from the Vessel in Rappahannock. He has been outlawed, by which any Person may lawfully kill him. I am informed he goes by the Name of Jack

Simpson, and has a forg'd Pass, pretending he has served as a Mulatto 31 Years, agreeable to the Laws of this Colony. It is hoped all Captains of Ships, or Commanders of Craft, will be cautious how they entertain so notorious a Villain; for when he is drunk, he will steal any Thing.

Billy, George, Mike, Tom

"Visited my Plantation ... Passing by my Carpenters that were hughing I found that four of [them] viz. George, Tom, Mike & young Billy had only hughd 120 Foot Yesterday from 10 Oclock. Sat down therefore and observd.

Tom and Mike in a less space than 30 Minutes cleard the Bushes from abt. a Poplar Stock - lind it 10 Foot long and hughd each their side 12 Inches deep. Then, letting them proceed their own way - they spent 25 Minutes more in getting the cross cut saw standing to consider what to do - sawing the Stock off[f] in two places - putting it on the Blocks for hughing it square lining it &ca. and from this time till they had finishd the Stock entirely; requird 20 Minutes more, so that in the Space of one hour and a quarter they each of them from the Stump finishd 20 Feet of hughing: from hence it appears very clear that allowing they work only from Sun to Sun and require two hour's at Breakfast

they ought to yield each his 125 feet while the days are their present length and more in proportion as they increase. While this was doing George and Billy sawd 30 Foot of Plank so that it appears as clear making the same allowance as before (but not for the time requird in pilling the Stock) that they ought to Saw 180 Feet of Plank.

It is to be observd here, that this hughing, & Sawing likewise was of Poplr. What may be the difference therefore between the working of this Wood and other some future observations must make known."

Also NED, a fire-man, a black fellow, remarkably well made for strength, about 5 feet 7 or 8 inches high, generally laughs when he speaks, has a large mouth, which is seldom shut, Virginia born, inclinable to be fat, has a sluggish walk, and broad shoulders. Also BRUMHALL, a Gold Coast Negro, about the size and height of Ned; he is a fire-man, has remarkable broad shoulders, a roll in his walk, and had a hurt on his knee lately, from which he was lame a day or two before he went off; but whether any scar on it, I know not. Both the last mentioned fellows have scars on their arms, from burns which they got by melted cinders flying on them when at work. Brumall is a yellow Negro, and has a very pleasant countenance. I can give no particular description of their clothes; I do not know of their carrying any more than their suits of cotton and osnaburghs. I will give 5 l. reward for each slave, it taken up in Virginia, and delivered to me; if in Carolina, 10 l. for each. ARCHIBALD CARY."

Sam[uel] Howel[I]
sawyer

Cumberland County, Va.

"RUN away from the subscriber, the 20th of October last, a likely young Mulatto man named SAM HOWEL, 23 years old, about 5 feet 9 inches high, well made for strength, has a remarkable good set of teeth, very black large eyebrows, and is a little bow legged, as for his apparel it is so long since he went away that I suppose he has worn them out, and got others. He was bound for 31 years, according to the condition of his mother, who was to serve until that time; his pretence for going away was to apply to some lawyer at Williamsburg to try to get his freedom, though he had a trial in the county court, and was adjudged to serve his full time. I did hear that he applied to the King's Attorney, and he told him he could not get free until his time was out; and I have never heard from him since. As he passes for a free man, I imagine he will endeavour to get on board some vessel, I therefore desire all masters of vessels not to entertain him, or carry him out of the country. Whoever apprehends the said slave, and brings him to me, in Cumberland county, on James river, shall receive 5 l. reward. WADE NETHERLAND."

As I have reason to suspect that he intends to make his escape out of the colony, I forewarn all Captains of ships, and skippers of any vessel whatsoever from taking the said slave in, upon any pretence whatsoever; and further, I desire all masters may order their vessels to be searched upon their clearing out, in case he should be concealed. RUN AWAY from the subscriber, near Williamsburg, last Saturday night, a Negro fellow named BOB, about 5 feet 7 inches high, about 26 years of age, was burnt when young, by which he has a scar on the wrist of his right hand, the thumb of his left hand burnt off, and the hand turns in; had on a double breasted dark coloured frieze jacket, and yellow cotton breeches. He was lately brought home from Hartford county in North Carolina, where he has been harboured for three years past by one Van Pelt, who lives on Chinkopin creek; he passed for a freeman, by the name of Edward or Edmund Tamar, and has got a wife there. He is an extraordinary sawer, a tolerable good carpenter and currier, pretends to make shoes, and is a very good sailor. He has been gone for eight years, a part of which time he lived in Charlestown, South Carolina. He can read and write; and as he is a very artful fellow, will probably forge a pass. All masters of vessels are hereby cautioned from carrying him out of the colony, and any person from employing him. He took his wife with him, a Mulatto, about 19 years old, about 5 feet and half high, a very likely well shaped woman, and very ingenious at any work. Peter Deadfoot, alias William Swann
sawyer; butcher, carter, ploughman, scytheman, shoemaker, waterman

Stafford County, Va.

"STAFFORD County, August 20, 1768. RAN away last April, from one of the subscriber's quarters in Loudoun (where he had been a short time sawing) a Mulatto slave belonging to Samuel Selden, jun. named Peter Deadfoot, though it is supposed he has changed his name, as he the day before attempted to pass for a freeman, and had got as far as Noland's ferry, on his way to Philadelphia, by a forged pass, in which he was called William Swann. He is a tall, slim, clean limbed, active, genteel, handsome fellow, with broad shoulders; about 22 years of age, a dark Mulatto, with a nose rather flat than otherwise, very sensible, and smooth tongued; but is apt to speak quick, swear, and with dreadful curses upon himself, in defence of his innocence, if taxed with a fault, even when guilty; which may be easily discovered, by any person's taxing him

with being run away. He is an indifferent shoemaker, a good butcher, ploughman, and carter; an excellent sawyer, and waterman, understands breaking oxen well, and is one of the best scythemen, either with or without a cradle, in America; in short, he is so ingenious a fellow, that he can turn his hand to any thing; he has a great share of pride, though he is very obliging, is extremely fond of dress; and though his holiday clothes were taken from him, when he first attempted to get off, yet, as he has probably passed for a freeman, I make no doubt he has supplied himself with others, as such a fellow would readily get employment; it has been reported that he was seen on board a vessel in York river, near York town; but for my own part, I suspect that he is either in Prince William county, Charles county in Maryland (in both which places he has relations) or in the neighbourhood of Winchester. Whoever apprehends the said slave, and conveys him to me in Stafford county, shall receive, if taken within ten miles of my house, Five Pounds; if about fifty miles, Ten Pounds; and if above one hundred miles, Twenty Pounds reward, besides what the law allows. He is a sawyer and shoemaker by trade, and carried with him his shoemaker's tools. The said fellow reads tolerably well, and is a great preacher, from which I imagine he will endeavour to pass for a freeman. Harry
carpenter; waterman

"Cumberland, Sept. 29, 1768. RUN away from the subscriber, a Negro man named HARRY, who is about 5 feet 8 or 9 inches high, a very sensible artful fellow, that speaks quick and plain, understands a little of the carpenter's business, is a good waterman, and has been much used to work on board of ships, at Cumberland Town, in the time he belonged to Mr. Richard Littlepage. He has a wife in the neighbourhood of the said town, where I have good reason to believe he has resorted ever since he has been run away, and might be easily apprehended. If he leaves those parts, I am apprehensive he will endeavour to make his escape by water, therefore desire all persons, particularly masters of vessels, not to harbour or entertain the said Negro. Also about the same time, a young Negro man named TOM, about 6 feet high, has a roguish look, and has lost part of one of his ears. He has been seen in Nansemond and Norfolk counties, and is supposed to be about the Dismal Swamp. Whoever conveys the said runaways to me, shall have 5 l. reward for each. JOHN MAYO."

Sam

"Gloucester, October 19, 1768. RUN away from the subscriber the 9th of this Instant, a Negro fellow named Sam, about five feet eight inches high; he stole a white horse about thirteen hands three inches high, was seen to pass Caroline Court-house the 11th of this instant, on his way to Mr. John Wiatt's, at Mr. Mann Page's plantation, near Bull Run. The said runaway had the usual cloathing for labouring Negroes. Some vile person gave him a pass, signed with my name, to permit him to pass to the said Wiatt's, and to hire himself to any person. The aforesaid runaway is a good carpenter and cooper. Whoever will secure him in any gaol [jail], so that I may get him again, shall have three pounds reward. JASPER CLAYTON."

Sandy
carpenter; horse jockey, shoemaker

Albemarle County, Va.

"RUN away from the subscriber in Albemarle, a Mulatto slave called Sandy, about 35 years of age, his stature is rather low, inclining to corpulence, and his complexion light; he is a shoemaker by trade, in which he uses his left hand principally, can do coarse carpenters work, and is something of a horse jockey; he is greatly addicted to drink, and when drunk is insolent and disorderly, in his conversation he swears much, and in his behaviour is artful and knavish. He took with him a white horse, much scarred with traces, of which it is expected he will endeavour to dispose; he also carried his shoemakers tools, and will probably endeavour to get employment that way. Whoever conveys the said slave to me, in Albemarle, shall have 40 s. reward, if taken up within the county, 4 l. if elsewhere within the colony, and 10 l. if in any other colony,

RUN away from the plantation of William Fitzhugh, Esq; in King George, the 17th of September last, Hanover, a Negro man slave, by some called William Hanover, about five feet eleven inches high, and forty years old. He had a variety of cloaths, particularly a kersey surtout coat, with flat metal buttons on the breast, by trade a good house carpenter and joiner, and is well acquainted in most parts of Virginia. I expect he is in Lancaster county, at a plantation of Mr. Burgis Bell's, where his wife has been lately removed. It is supposed he went down Rappahannock river in some vessel, by the quantity of bed and wearing cloaths he carried with him. I hope all masters of vessels will take care such a fellow shall not be carried out of the country. Whoever will deliver him to me in Carolina, shall receive the above reward, and all reasonable charges, paid by WALKER TALIAFERRO."

Tony, Guy, Jimmy [Gerry ?]
carpenters

"Tony has been 2 days morticing Cedar posts for paling in my Garden. As to Mr. Guy it is well he has a lame partner [Jimmy] to lay his idleness to. If Jimmy had been well he says the Corn house [w]ould have been finished but from Jimmy's sickness he has above the plank [to] saw and the stocks to get. I believe [he] will t[ell] another tale by tomorrow night. [Will] Lawson [overseer] has resolved to take him [u]nder his care."

"Tony is preparing my garden posts but at so slow a rate that his boy and he only mortices [sic] 7 of them a day. As to my fork Corn house I believe Gerry will never get ready to frame that. It will be a good one when done and a lasting one but I fear a dear one by the labour."

away, was taken up at Hampton in 1766, where he endeavoured to pass for a freeman, and was lurking, as I suppose, in order to get the opportunity of some vessel to escape out of the country. As he may probably have made that way now with the same design, I forewarn all masters of vessels from harbouring or employing him; and will give the person who takes up and brings him to me, or secures him in any prison, TWENTY SHILLINGS, besides the allowance by law. carpenter

Richmond County, Va.

"Tony it seems although he had a stout boy will not reckon this work [a weir] was done but by one person. His boy has now been going on 3 years his apprentice

... Tony begins this morning to paling in my Garden."

"Mr. Toney shall as certainly receive ample correction for his behaviour to me as that he and I live. The day before yesterday he began to pale in the garden and only fitted the rails to seven posts. When he began to put them up I was riding out and ordered him to leave the gateway into the garden as wide as the two piers next the gate on each side. Nay, I measured the ground off to him and showed him where the two concluding posts where to stand and the rest at 8 feet asunder from post to post to answer to the tenons of his rails and I asked him if he under stood me. He said he did and would do it so. I had been 2 hours out and when I came home nothing was done and he was gone about another jobb. I asked him why he served me so. He told me because it would not answer his design."

The silling my Mudhouse [a tobacco house], a jobb of not more than 3 days, he has already been above a fortnight about, and this morning when my people went to help to put the sills in, though he said he was ready for them, he had the rotten sills to cut out and because I told him he should certainly be called to account for it as I came back truly he was gone and no body knew where and had been gone for sometime but not about my house."

"Forty Shillings Reward.

RUN away from the subscriber, in York county, about the 11th or 12th of November last, a very black Negro man named BEN, about 5 feet 6 inches high, 35 years old, spare made, by trade a carpenter, and understands something of the coopers business, his upper teeth rotten; he has many clothes, so it is impossible to describe them. He took with him sundry carpenters and coopers tools. I expect he will endeavour to pass for a freeman, as he can read tolerably well, and am doubtful of his obtaining a pass from some evil disposed person, and leave the colony. This is to desire all masters of vessels, and others, from harbouring him; and I will give the above reward to any person that will deliver him to me, at Mr. James Shields's, near Williamsburg. carpenters

Richmond County, Va.

"Tony began yesterday to nail my pails up."

"I think my man Tony is determined to struggle whether he shall not do as he pleases. He has with McGinis been 2 days only pailing in the dairy and henhouse yard with the posts ready hewed and morticed for him. I told him when I rode out this morning he would certainly get another whipping. He was ranging the pales at least one pannel above another full a foot pretending the ground was uneven. I asked him if he could not pare the ground away. He stooped down like falling but I imagined it was the Negroe's foolish way of hearing better. I rode out. When I came home the pales were all laid slanting I asked him why he did that. He still laid the fault on the ground and as his left shoulder was to me I gave him one small rap upon it."

"£.20 Reward. RUN away from the subscriber, on Monday night the 9th instant, three Negro men, two of them slaves, viz. NED, about 5 feet 8 inches high, 21 years of age, of a yellow complexion, a likely well made fellow, his usual clothing an osnabrug shirt, dark gray fearnought waistcoat, cotton breeches, course yarn stockings, bad shoes, and a felt hat. He also took other clothes, but what not yet known. FRANK, a foreign Negro, a very good cook, says he was born in the Spanish West Indies, speaks bad English, as also French, Spanish, and some Dutch, near the same height of Ned, about 30 years of age, of a yellow complexion, with little or no beard, and has several remarkable wounds on his body, and a large one near his throat; he is clothed in blue plains, osnabrug shirt, and felt hat, as also a pair of red flannel muffs, and a red cap. HENRY COOKE, a free Negro, born in Gloucester county, but indented himself for five years for the cure of a pox, about 5 feet 10 or 11 inches high, about 24 years of age, lusty and very well made, of a good black complexion, and thick lips; his clothing mean, being an old brown cloth waistcoat and breeches much patched with green cloth, osnabrug shirt, yarn stockings, very bad shoes, though he took leather with him ready cut out for another pair. He understands a little of the carpenter business, and has likewise followed the water. It is thought they took with them a Negro fellow belonging to the estate of the late Major William Tate, middle aged, about 5 feet 6 inches high, well set, bow legged, of a dark copper complexion, an old offender in this way, and a few years past advertised in the Maryland and Pennsylvania Gazettes by William Tate, deceased, by virtue of which he was taken up near the head of the bay, within a few miles of the Pennsylvania government. They took with them a yawl of about 18 feet keel, London clinch work, painted white to her gunwales, two good sails, rudder, and two new pine oars. The 20 l. reward, or 5 l. for each, will be paid if taken in any other colony; but if taken in Virginia only 12 l. or 3 l. for each. WILLIAM FLOOD. WESTMORELAND, April 12, 1770"

He has worked some time at the carpenters and coopers trade, though knows but little of either, but is a

tolerable good turner, and has taken with him several of his tools, though as they may be troublesome to carry he probably may sell them, and being an artful subtle fellow, imagine he will go as much in disguise as possible, to prevent suspicion. Having reason to believe, from the information of his companions, that he intends to steer his course for the back country or the upper part of Maryland, I will give to any person that will deliver the said fellow to me, in Fauquier county, near the court-house, 3 l. reward, if taken up in this county or any of the adjacent counties, if out of the colony, 5 l. besides what the law allows. John Wilson
carpenter

Virginia

"RUN away from the subscriber, on James river, about a month ago, a mulatto
fellow named JOHN WILSON, by trade a carpenter, 5 feet 9 or 10 inches high,
34 years of age, very well made, sober and smooth in his discourse, has pretty
long curling hair, which he generally wears tied behind, and has a mark on
one of his shoulders of something resembling a shoulder of mutton. He had
great variety of clothes, particularly a blue cloth coat and breeches, red cloth
jacket, a pea jacket of black spotted cotton or flannel, brown plains jacket,
white linen and osnabrug shirts and trousers, and good shoes and stockings.
He can read, write, and cipher very well, so that he is every way well qualified
to attempt passing as a freeman, and probably to get out of the country. All
masters of vessels, and others, are therefore forewarned from employing,
harbouring, or carrying said slave out of the colony. He has relations at my
quarter in Bute county, North Carolina, and may flee that way southerly. I will
give FORTY SHILLINGS to whoever will deliver him to me, if taken in the
country, and TEN POUNDS if taken in any other province; Bute county, and
about any quarter there excepted. In that case I will give FIVE POUNDS.
About a week after went off from the same place SARAH, a very lusty negro
woman, about 19 years of age, very tall, and large footed, which she turns in
pretty much. She is a very dark molatto, with black freckles in her face, has a
surly look, and is pretty saucy. She is sister to WILSON, and also has a good
many clothes; but when she went away had on a dark coloured plains jacket
and petticoat, with a border round the coat of red cloth like []. She had been
run away for near a twelvemonth before, and was taken up near Blandford

and committed to Prince George prison, and had not been at home above a fortnight before she went off again. It is very probable she is now in the neighbourhood of Blandford or Petersburg, as there are runaways always thereabouts. She pretends to pass for a freewoman. I will give TWENTY SHILLINGS to whoever brings her home to me. WILLIAM BLACK."

"RUN away from Morris Ramsay, in James City county, some time in the year 1769, a mulatto fellow named MOSES, by trade a sawyer, the property of the subscriber; he is about 36 years of age, his size and apparel I cannot describe as he belonged to the estate of Joseph Morton, Gentleman, deceased, and never came to my possession after the division of the said estate. He has a wife named JOAN, the property of Mr. William Morton, that has been out with him almost the whole time, and therefore must necessarily suspect that they are harboured by some ill disposed person in or about Williamsburg. Whoever takes up the said fellow, and conveys him to me in Richmond county, shall receive a reward of SEVEN POUNDS, besides what the law allows; and as such notorious offences are not to be bourne with any degree of patience, I will give a reward of TWENTY POUNDS to any person who will produce the head of the said fellow, severed from his body. "I find there is no making my Carpenters understand me. I only ordered those two roofs of the River side cornfield to be put on pens made of logs to lap in across one another; And they have got plates, posts and sills as if for a new tobacco house. I also ordered to mend the rafters here and there just to make the house serviceable to stack the wheat in that is growing in that cornfield, and they have got an intire [sic] new set of rafters. I understood by Toney, Guy first made the mistake and though I forbid it he has spent a week more in doing it his way."

"Toney, Guy, McGinnis, and Jammy with their boys have now been a full month about preparing to lift the roof of the tobacco house fallen down."

"The Carpenters thatching the new raised Old tobacco house near the Riverside. I made them reap and thrash out the Wheat to get the straw and to thatch on each side regularly so that I hope by monday that house will be in order to receive the wheat."

Though his Hair is of the Negro Kind, he keeps it very high and well combed; but, as he wants to be free, I imagine he will cut it off, and get a Wig to alter and disguise himself. He had with him thirty or forty Shillings in Silver Money, and a brass Medal with the Image of our present King and Queen on it, which he will endeavour to pass for Gold. He can read pretty well, and I make no Doubt will endeavour to pass for a Freeman and get himself a forged Pass, and endeavour for some foreign Part, either by getting on Board of some Vessel or stealing some Gentleman's Horse and make for Carolina. He has always been my Waiting Man when I went from home, and is a good Waiter, Driver, and Hostler, understands something of Gardening, of combing and dressing Wigs and Hair, can plough, work at the Hoe and Axe very well, and is, on the Whole, a very clever active brisk Fellow. "RUN away from the subscriber, in Cumberland county, on the 26th of February, a Mulatto man slave named SANCHO, appears to be about 40 years old, stoops a good deal, and is by trade a carpenter and cooper; had on, when he went away, the usual cloathing of Negroes, and carried with him a broadcloth coat, mixed with something of a violet colour, a blue duffil coat and blanket, a large knife, made in the shape of a butcher's, the blade of which is broad, and about 15 inches long. Absconded with him a white servant woman named ELIZABETH BEAVER, about 20 years old, of a fresh complexion, low, but thick, her hair, being cut in a very uncommon manner, is short, but long about her temples. She went off without either hat or bonnet; but I imagine she now wears a man's hat, as the fellow carried with him two of that sort She took with her one yarn, one cotton, and one linen striped holland gown, a very good blue calimanco quilt, and many other things. I expect they will change their names, and endeavour to pass for husband and wife, as free people. Whoever will bring the said runaways to me shall receive SIX POUNDS, if taken in Virginia, and TEN POUNDS, if out of it, besides what the law allows. I forewarn all persons from carrying them out of the colony. The fellow is outlawed. JOSEPH CALLAND."

Billey

founder, stone mason; miller

"Neabsco Furnace, Virginia, April 15, 1774.

RUN away from the Neabsco Furnace, on the 16th March last, a light coloured Mulattoe man, named BILLEY, the property of the honourable JOHN TAYLOE, Esq; when I tell the public he is the same boy who for many years waited on me in my travels through this and the neighbouring provinces (and by his pertness, or rather impudence, was well known to almost all my acquaintances) there is the less occasion for a particular description of him; however, as he is now grown to the size of a man, and has not attended me for some years past, I think it not amiss to say he is a very likely young fellow, about 20 years old, about 5 feet 9 inches high, stout and strong made, has a remarkable swing in his walk, but is much more so by a knack he has of gaining the good graces of almost every body, who will listen to his bewitching and deceitful tongue, which seldom or ever speaks the truth; he has a small scar on the right side of his forehead, and the little finger on his right hand quite straight, by a hurt he got when a child; had on, when he went away, a blue fernaught and an under jacket of green baize, light coloured cloth breeches, with silver basket buttons, a pair of cotton ditto, ozenbrigs shirts, a mixed blue pair of yarn hose, country made shoes, and yellow buckles. --- From his ingenuity he is capable of doing almost any kind of business, and for some years past has been chiefly employed as a founder, stone mason and miller, as occasion required; one of which trades, in the character of a freeman, I imagine he will profess. Whoever apprehends the said fellow, and delivers him to me, or his master at Mount-airy, or secures him so as to be had again, shall have double the reward allowed by law, and all reasonable charges, if brought home. Peter Brown
carpenter, painter

"RUN away from the subscriber, about the 20th of April last, a mulatto fellow named Peter Brown, a painter by trade, but can do carpenter's work; he is 35 or 40 years of age, of a dark complexion, five feet eight or nine inches high, slim made, and has a thin visage, has lost several of his upper foreteeth, is fond of singing, and can sing well. The said fellow has several suits of clothes, therefore I cannot describe his dress. He was some years past tried for a robbery, but obtained the governor's pardon on suffering one year's imprisonment; after that he was sold to Mr. John Fox, of Gloucester, with whom he lived one or two years; he then run away, and passed for a free man in the counties of King William, Caroline, and Hanover, where he was taken up and brought home. As he has a wife at Mr. Benjamin Hubbard's, it is likely he may be lurking in that neighborhood, and as he was raised in Petersburg, it is very probable he may be in those parts. Whoever will take up the said runaway, and deliver him to me, at Osborne's, shall receive FORTY SHILLINGS reward. "CHARLES CITY, September 13, 1774. RUN away from the Subscriber, about the first of August last, a Negro Man named PETER, by Trade a good House-Carpenter, Cooper, Bricklayer, Plaisterer and Whitewasher, and Gardener, about five Feet five or six inches high, rather of a yellowish Complexion, and a little pitted with the Smallpox; has Clothing as usual for Crop Negroes, except a Cotton Coat instead of a Waistcoat, which is dyed of a drak brown Colour. He formerly belonged to Mr. Willis of Gloucester, and by him given to Mrs. Kennon of this County. He worked some Time at Kennon's Mine in Buckingham, and has lived on the Eastern Shore; and I am of Opinion he is lurking in one of those Neighbourhoods, or endeavouring to get to Mr. Kennon's in North Carolina, where he may be harboured by his Negroes. I will give 30 s. to any Person who will deliver him to me, if taken in Charles City, 40 s. if in any other County, and if out of the Province 5 l. and I hereby forewarn all Masters of Vessels and others from harbouring or carrying him out of the Colony. He was bred by Major Gaines to keeping Horses and riding Races, but is now a good Sawyer. He is not tall, knock-kneed, full Eyes, and I believe a Speck in one of them, caused by a Chip as he was cutting with an Axe. He values himself for his fine Dancing, is subject to Liquor, and fond of talking about Religion. If he is taken in the Colony, and brought to me, near the old Courthouse, in Albemarle County, or my Overseer, James Scoot, at Manakin Town, I will give 3 l., and if

He was taken up in Norfolk last October or November and brought up James River as high as Mrs. Cocke's by Charles City, but made his Escape, and is supposed to be returned to Norfolk, or Portsmouth, as he was employed there by several different Persons as a Freeman. George

stone and woodworker

"RUN away from the subscriber, in Spotsylvania, the 20th of May, a convict servant man, named GEORGE NEWTON, a farmer, born in Yorkshire, and imported in the Justitia this spring, a stout man, about 6 feet high, much freckled, has a very red beard, and walks clumsily. I am informed he has a scar on the fore part of his head, and some scars on his left arm, which he says was occasioned by shot. He has been in some office about the customhouse in London. He took with him two osnabrig shirts, almost new, one of them died of a purple colour, pair of osnabrig trowsers, rather too small for him, a felt hat, bound, a pair of old country shoes, a jacket without sleeves, much worn, a Dutch blanket, a white linen shirt, a stock, and brass stock buckle, a pair of new worsted hose, mixed brown and white, and one pair of white yarn stockings. I suspect he has other clothes with him. He also took away with him a negro man, named GEORGE, about 5 feet 3 inches high, well made, and understands working in stone and wood; his fore teeth in the upper jaw is a good deal worn; the finger next to his little finger, on his left hand, is stiff in the first joint, occasioned by a cut, and when the others are shut, stands out; he has lost part of a toe, and, as well as I remember, it is the toe next his great toe, and on the left foot. He took with him some osnabrig shirts, a kersey jacket, with yellow metal buttons, a pair of white yarn stockings, a blanket, a pair of country made shoes, with some other clothes. They say they intend getting on board some ship, but I suspect they will endeavour getting on board the man of war. All masters of vessels, or other persons, are forwarned from harbouring or taking them on board. I will give FIVE POUNDS reward for both, or THREE POUNDS for Newton, and FORTY SHILLINGS for George, besides what the law allows, if conveyed to me, near Fredericksburg, or FORTY SHILLINGS each if secured in any gaol [jail], so that I get them again. If they are not well secured they will make their escapes, being both cunning, artful fellows. JAMES TUTT. N.B. "LOUISA County, April 30, 1777. STOLEN, some Time in November 1775, a Negro Man named ABRAHAM, Virginia born, about 28 or 29 Years old, 5 feet 10 or 11 Inches high; he is a black Negro, with large Calves to his Legs, his upper fore Teeth incline out rather more than common, and has an Impediment, or Stammering in his Speech when he speaks hastily; he is a well proportioned Fellow, and can saw very well, but was brought up chiefly to the Planter's Business. I am informed he was stolen by one Joseph Cook of Pittsylvania County, who, to prevent his Owner's getting or hearing of him, conveyed him out to Watauga, within 6 or 7 Miles of the Great Island on Holstein River, and, through a Blind, put him under one Thomas Shoat, an Inhabitant of that place, where I went in Pursuit of him, and understood by the said Shoat that it was the same Negro that I described to him, but was brought there by the said Cook, and put under him to make a Crop of Corn, and that he intended to move into those Parts to live; but I have sufficient Reason to believe that the said Shoat is in Confederacy with Cook, and that Shoat had Intelligence of my being in Pursuit of said Negro before I could get there, and concealed him, telling me that Cook had sent for him four or five Days before, and he was gone to him. Upon which I returned to Bedford Courthouse, and sent Word to Cook to meet me there with the Negro, which he failed to comply with, but sent a Letter in Retaliation for the Negro. I have likewise been informed, that if ever Cook should understand that I have heard of his stealing the said Negro, he intended to convey him to New Orleans, where he expected the Owner would never get him. I will give twenty Pounds to any Person that will deliver the said Negro to me, and on Conviction of the Thief forty Pounds. The said Negro has changed his Name to WILL, and, by Promise of Cook, was to have his Freedom after a Year or two, and in all Probability may now pass for a free Man. RICHARD PHILLIPS."

"RUN away from the subscriber in Amelia, on the 3d of March last, a negro man slave named SAM, about 28 years of age, about 5 feet 7 inches, well made, has a flat nose, large feet, and had on when he went away a Newmarket coat made of lightish coloured brown cloth, also a Virginia cloth jacket, cotton warp, and filled in with yarn, striped yarn breeches, double wove, his shirt cotton and thread; he is a carpenter by trade, and is a good cooper. He can read print, pretends to a deal of religion, has been a good fiddler, and is acquainted with many parts of Virginia. I have a suspicion that some malicious person has given him a pass to travel to North Carolina, or some other parts of North America. I will give 40 s. reward for apprehending the said runaway, if taken up in Virginia, 5 l. if taken in any other state, and 6 d. a mile for bringing him home besides all reasonable expenses paid. He knows a little of the Carpenter's and Cooper's business, and took away some tools with him. He belonged to his Excellency Gen. Phill, Adam, Mark and Will
carpenter, cooper, shoemaker, wheelwright; carpenter, miller; bricklayer,
stonemason; carpenter

"FORTY POUNDS HARD MONEY REWARD FOR taking and delivering to me near Fauquier court-house, the four following negroes, who run away the 9th instant, viz. PHILL, country born, about 35 years of age, stout and well made, of a yellow complexion, a carpenter by trade; also a good cooper, cart wheelwright, and shoemaker, about 5 feet 10 inches high, has many white places on his hands, arms, and neck, occasioned by some disorder, speaks slow, very artful, and pretends a good deal to the Baptist religion; had on a blue cloth coat, half wore, with flat metal buttons, an old light coloured broadcloth jacket, with mohair buttons, a pair of striped woolen country cloth breeches, with flat metal buttons, a pair of strong shoes, white yarn stockings, one white, and one or more brown linen shirts, and a wool hat. ADAM, about 25 years of age, a small negro, about 5 feet 5 or 6 inches high, a little on the yellow complexion, can do something at the carpenter's business, though properly a miller, having attended a merchant mill for some years past, has a good deal to say for himself, and is pretty forward; carried with him a claret coloured cloth frock, much wore, with mohair buttons, an old light coloured broadcloth coat and breeches, which coat I understand he intended cutting up into something else, old shoes, one white and one brown linen shirt, and a hat. He was once the

property of Mr. Hugh Walker of Urbanna, and I believe was born in Middlesex county, where he has kindred. MARK, about 25 years old, a stout able black fellow, about 5 feet 8 inches high, born in the island of St. Jago, and speaks the Portuguese language; by his talk is easily discovered to be foreigner, very active, and remarkable for his ingenuity; and although he has worked with stone mason and bricklayer, has no particular trade by being capable of doing something at almost every kind of business, blows the French horn, can play on the fiddle, whistles many tunes well, and to be heard at a surprising distance, is fond of marches and church musick, particularly that belonging to the Roman Catholick religion, which he professes; carried with him a twilled woollen jacket, a pair of red trousers, one or more white shirts, and some of brown linen, and a wool hat. I cannot give a particular description of his dress which I expect his ingenuity will vary as often as he finds it necessary. He has the mark of a cut on the outside (I believe) of his left hand. WILL, about 20 or 30 years of age, an African born, 5 feet 8 or 9 inches high, of a slender make, and has many of his country marks on his face, speaks fast, and not readily understood, has worked sometime with Phill at the carpenter's business, and is much under his direction. He carried with him a twilled woollen jacket of country cloth, a pair of old leather breeches, one or more brown linen shirts, and a straw hat. From their manner of going off, and without having had any previous difference with any of them, I suspect it must have been a plan sometime conceived with a design of getting on board some vessel in the river or bay, as all of them have been accustomed to go by water in river craft, and are well acquainted with all the harbours and creeks, on some of which I expect they will be found lurking. If they are confined in any jail so that I get them again, the taker up will be entitled to one half of the above reward, or in proportion for one or more of them. WILLIAM ALLASON. He run [sic] away in May 1779, and was seen several times last summer lurking about Mrs. Bolling's plantations in Amelia and Dinwiddie; I have since heard of his being seen at Coan in Northumberland; to which place I imagine he accompanied some runaway slaves who had been carried from the neighbourhood of Coan and sold in Dinwiddie. He is Virginia born, 31 years of age, about 6 feet high, raw boned, strong and active, of a yellowish brown complexion, has bad teeth, a long and lean visage, and suffers his wool to grow long below his temples, pretends to be very religious and honest, and when questioned hastily, answers with a

timid faltering voice; he is a good plantation carpenter and cooper. Whoever delivers him to me in Amelia, shall have the above reward, or I will give one half of it to any person for securing the said slave in jail so that I get him again. He is outlawed. THOMAS GRIFFIN PEACHY."

I purchased him of Mr. John [Jeakel of the Eastern Shore, in the year 1778. I expect he will endeavour to go down there again, if not taken up; he perhaps will try to pass for a free man, delights much in a fiddle, and pretends to know something of the carpenters business. Also a very likely black girl, wife to the above fellow and taken off by him, about 18 or 19 years old, middle size, by the name of AMIA. I expect as they were with the British both at Portsmouth and York that she has had the small pox. She is a fine spinner and Weaver, has never had a child, and I am informed has holes in her ears for rings. He joined the British army from Mr. Andrew Ronald's, near Richmond, to whom he was hired, and waited on a Mr. Tait till the reduction of York and Gloucester. He is probably in some of the lower Counties, or perhaps may be gone to Northumberland, as he was bred there. He was accustomed to house business, taking care of horses, and driving a carriage.

They might collect a number of old Nails from the old useless buildings on the plantation, sufficient I shou'd imagine for the Jobbs I may have to do. I wanted a house patched up for the Overseer to live in, that the one he is in at present may be reserved for my Use only."

RAN away from the subscriber, about the 15th of August last, a mulatto man slave named JACK, but was called Patterson when a boy, about 40 years old, 5 feet 4 or 5 inches high, his beard grows up his temples, which he generally wears long; he turns his toes rather out as he walks, a carpenter and cooper by trade, and carried some of his tools away with him; is a sensible crafty fellow, and I expect will change his name; he has a forged pass to pass for a free man, as was heard to say, since he ran away, that he never intended to serve any person as a slave again; he can read print tolerably well, and pretends to much religion; as to his cloathes it its uncertain, as he carried different kinds away with him. I heard of him in my neighbourhood about two or three weeks ago. All persons are forbid harbouring the said slave, or carrying him out of the State. I will give five pounds reward to any person that will deliver him to me, if taken up less than thirty miles from home, if over that distance, eight pounds, and if out of the State, the above reward, or five pounds for securing him in any gaol [jail], and giving me such information that I get him again. George
carpenter; cooper

"RAN away, from the subscriber living in Charlotte County, on the first instant (September) a large portly black fellow, named GEORGE; he is a good cooper, a tolerable good carpenter, and carried away several tools with him, to wit, a broad axe, carpenters compasses, gimlets, &c. It is expected he will endeavour to pass as a free man; he chews tobacco, speaks slow, though very sensible; he is about 35 years of age, is a little knock-kne'd, his left foot is very remarkable, having but three toes, they stand apart and turn out; this foot is also much smaller than the other; he took away with him, a double wove hat and breeches, also a negro cotton jacket died a purple colour, one pair of shoes and two pair of stockings. I will give forty shillings reward, beside what the law allows, to any person that will bring him home, or apprehends him so that I

get him again. JOSIAH FOSTER, jun."

Mark

stone and brick worker; waterman

"FAUQUIER County, Oct. 25, 1784. RAN away this morning, from the subscriber, MARK, a black negro man, about 20 or 30 years of age, 5 feet 8 or 9 inches high, a scar on his right jaw, has the mark of a cut on the outside (I believe) of his right hand, walks much with the broadside of his feet foremost, was born in the Island of Saint Jago, and speaks his native (the Portuguese) language, by his talk is easily discovered to be a foreigner, very active, and remarkable for his ingenuity; and although he may pretend to some knowledge in stone and brick work, has no particular trade, being capable of doing something at most kinds of business. Before the war, he was employed in going by water, and is well acquainted with the Bay, Rivers, and Creeks, to which I expect he will make, in order to get on board a vessel, to be carried to a greater distance from home, and then make his escape from it. It is very probable he will pass for a freeman, in consequence of his being able to speak another language. He can blow the French horn, play the fiddle, whistles many tunes, well to be heard at a surprising distance, is fond of marches and Church music, particularly of that belonging to the Roman Catholic religion, which he professes. He carried with him a negro cotton jacket and breeches, a light coloured surtout coat, much wore, one or two blankets, a soldier's hat, bound round with white linen, and a smooth bored gun, pretty wide in the bore, and straighter than common from the breech to the butt. I make no doubt but he will endeavour to vary his dress as much as possible, in order to effect his escape to as great a distance as he can. Whoever apprehends said negro, and delivers him to me, near the Court-house, with the gun, will be paid EIGHT DOLLARS reward, besides what the Law allows. -- If great care is not taken by the takers up, he will most certainly make his escape from them. WILLIAM ALLASON."

Ned

"RUNAWAY from Cawson, three negro fellows, viz; NED, ISAAC, and JUPITOR: NED is a tall rawboned fellow of about six feet high, is some-what of a carpenter and a good negro sho[e]maker, at the latter of which trades he

will probably offer himself to work -- he has a wife at one Isaac Vadens, near Holt's Forge on Chickahominy, in which neighbourhood, or about Col. W. Allens plantation New-Kent on York river, near the Brickhouse he will probably be found; Isaac a stout well made fellow, of about thirty or five and thirty years of age, about the middle size, much scared with frequent floggings, before he came into my possession -- he has a wife at one David Williams's (near the above plantation of Col: Allens) at whose house he was taken up about six months ago, and is probably harboured there at this time, his clothing was Virginia made cloth; Jupiter a young likely fellow of about 23 years of age, well made, about five feet ten inches high, cloathed in blue when he absconded, which was in last June; he is a very black negro, smooth skin and a modest countenance -- I have been informed that his haunts are in King-William, near West-Point; at Snow-Creek near Fredericksburg, and in the neighbourhood of Col. Allens Quarter in New-Kent above mentioned, -- I will give SIX DOLLARS to any person, for each of the above negroes delivered to me at CAWSONS, and three pence a mile for travelling expences; or FOUR DOLLARS for each of them, to any person who will confine them in the Jail of the County where they are taken, and inform me thereof so that I get them again: The above negroes all belonged to the estate of Mrs. Hannah Dangerfield of New-Kent County, deceased. "FIVE POUNDS REWARD. RAN away from the Subscriber, in Halifax County, near Doby's Store, on Burches Creek, on the first of November last, a negro man named DICK, about thirty years of age, five feet eleven inches high, of a yellowish complexion. Had on when he went away, a suit of Virginia cloth cloaths, and a new wool hat. He has worked at the carpenter's trade, and is a good sawyer. Whoever will deliver the said negro to me, or secure him in any public gaol [jail], so that I get him again, shall receive the above reward. JOSEPH AIKIN. Dec. 9, 1783.

"TEN DOLLARS REWARD. He has been seen in the City of Richmond, about Rockett's Landing. I forewarn all persons from harbouring the said fellow, or carrying him out of the State. Jack, formerly Patterson, alias William Scott
carpenter; cooper

"120 Dollars Reward. RUN away from the subscriber in Cumberland county, about the 15th of August last, a mulatto man slave named JACK, forty years old, and about five feet five or six inches high; his beard grows up his temples, which he generally wears long, turns his toes rather out when he walks; is a carpenter and cowper by trade, and carried some of his tools away with him. I have been informed that he has been at work lately in the town of Norfolk, where he passed for a freeman by the name of William Scott, and has a forged pass with him; but is now supposed to be gone into the lower part of North Carolina.

Also run away from the subscriber about the first of February last, a young mulatto fellow, named JACK, rather above the middle size, wears his hair combed high before, and his beard down his temples; and has a down look; he has been lately taken up and confined in Princess Anne jail, but made his escape and is supposed to be somewhere in the lower part of this state, or gone to North Carolina. When he was apprehended he went by the name of James Scott, and had a forged pass for his freedom. Whoever will deliver them to Mr. William Rose, keeper of the public jail in Richmond, or to the subscriber in Cumberland, shall receive the above reward, or sixty dollars for each of the said slaves. They are very artful sensible fellows, and without great care will make their escape. HENRY MACON."

Nero, alias George Patrick
carpenter, joiner

"TEN DOLLARS REWARD. RAN away on the first day of January last, a negro man slave named NERO, by trade a carpenter and joiner; his ingenuity is such that he can turn his hand to almost any trade. He is a well made fellow, about 5 feet 6 inches high, of a yellow complexion, a little bow-legged, and bald; one of his fore teeth darker than the rest. He was seen in Hobb's Hole about three months ago; it is not improbable but he may hire himself as a

free negro to work on board some vessel, or on shore, as he has done since he absconded. I am informed that he has been employed by a fellow, who served his time with Mr. Charles Carter, of Shirley, who calls himself Peter Shorde, to drive cattle from the Northern Neck, to sell in other parts of the Country. He was taken up at one Swynes, and committed to the gaol [jail] of Charles City County the 21st of last April, and has a forged pass, wherein he called himself George Patrick. He broke gaol [jail] the the [sic] 6th of this instant. The above reward will be given to any person that will deliver him to me near Newcastle. THOMAS JONES. June 11, 1785."

He is a dark Mulatto, 24 years old, stout and well made, 6 feet 2 inches high, has a bushy head of hair, and is of the Indian breed; is an excellent sawyer, can do rough carpenters work, plays on the violin, of which he is very fond; he endeavoured to pass for a free man since his elopement, and changed his name to PETER TONY, when he was taken up at Jordan's point in Prince George county. As he was then trying to get on board a vessel (in company with a sailor) to go down the river, may very likely be lurking in some town in the lower parts of this state, or perhaps in Baltimore, and assume to himself a new name since his escape. Whoever apprehends the said slave and delivers him to William Wilkins, in Prince George, (to whom I have sold him) shall receive the above reward. DRURY THWEATT. N.B. I will pay the above reward to any person on delivering the above mentioned slave to me, 10 l. if brought from another state, and 3 l. if secured in jail that I may get him. WILLIAM WILKINS."

I understand he went down the river in a flat belonging to the estate of the late Mr. Watkins of Cumberland, to York, and assumed the name of William Lucas or Moss, and passes for a freeman, he pretends to shew a pass or certificate of his freedom, and endeavors to get employment as a waterman, and has made one trip to Norfolk in Capt. Lilly's vessel, in that capacity; I therefore forewarn all masters of vessels or others, from carrying the said slave out of the country at their peril. Whoever will apprehend the said negro, and secure him so that I get him again, shall receive such a reward as may be thought reasonable for

George Washington to Henry Lee:

"It is not my wish to be your competitor in the purchase of any of Mr. Hunters tradesmen: especially as I am in a great degree principled against increasing my number of Slaves by purchase and suppose moreover that Negroes sold on credit will go high. yet if you are not disposed to buy the Bricklayer which is advertized for Sale, for your own use, find him in the vigour of life, from report a good workman and of tolerable character and his price does not exceed one hundred, or a few more pounds, I should be glad if you would buy him for me. I have much work in this way to do this Summer. If he has a family, with which he is to be sold; or from whom he would reluctantly part I decline the purchase, his feelings I would not be the means of hurting in the latter case, nor at any rate be incumbered with the former."

George Washington to John Lawson:

"On the 8th. Instant Neptune delivered me your letter of the 2d. Instant. Although he does not profess to be a workman, yet as he has some little knowledge of Bricklaying, seems willing to learn, and is with a man who understands the business, I will keep him, and this shall be my obligation to pay you the sum for which he sold, at the time and agreeably to the terms of Mr. Hunters Sale ... P.S. Since writing the above, and informing Neptune of my determination to buy him he seems a good deal disconcerted on acct. of a wife which he says he has at Mrs. Garrards from whom he is unwilling to be so far removed this also embarrasses me as I am unwilling to hurt the feelings of anyone. I shall therefore if agreeable to you keep him awhile to see if I can reconcile him to the separation (seeing her now and then) in which case I will purchase him, if not I will send him back, and pay what hire you shall think

fit and is reasonable to charge for the time he is here."

Bob
joiner

"FIVE POUNDS REWARD. RAN away from the Subscriber, living in Georgetown on Potomack River, BOB, a Mulatto fellow, rather small size, about 40 years of age, not very talkative, has bushy hair, was brought up to the joiner's business and can do very good work; he is a modest fellow but will get drunk when he can get liquor. His former master, Mr. William Haymond, who I am informed lives in Harrison County, Virginia, sold him to me in the year 1773, but before that time he had intended to procure his freedom as a slave, by selling him to a man in Frederick County, for the term I think of 10 years, but finding the person could not pay the money agreed upon, the bargain became void and Bob was sold to me by Mr. Haymond as a slave, but by some means, having possession of the papers, whereby he was to have obtained his freedom, petitioned the Magistrates of Montgomery Court, for that purpose, and on a hearing was ordered to return to his State of slavery. I suppose he may still have those papers in his possession, and shew them as his discharge. -
When he left me, which was about the 4th of April last, he had on a brown sheeting linen shirt, a short coat and breeches of drab frize, stockings, shoes

and hat, but I cannot describe the quality, I think his height is somewhere between 5 feet 6 and 5 feet 8 inches. - I am inclined to think he will endeavour to get up to his old master's, or perhaps to the Eastern-Shore in some vessel from George-Town. - The above reward will be paid for securing him so that I get him again, and reasonable expences for bringing and delivering him to me in George-Town. "Charles Hagan was at work in the Brick yard."

"Added Thos. Davis, Reuben, and Billy to the Brick layers to day, by which means five were thus employed. The necessary attendance was given them. Also set Gunner to making Bricks, along with Charles Hagan, with attendance also."

Jackson and Twohig, eds., *The Diaries of George Washington* V: 304, 312, 331. Hagan was a free, white brickmaker hired by Washington at a salary of £4 10s. a month; he worked at Mount Vernon from April to November of 1788. Other named individuals were African-American slave laborers, with the possible exception of Reuben (see below March 3, 1793). In the 1799 list of slaves (XXXVII: 256-261) Thos. Davis is recorded as "Tom Davis ... B:l ayr." and Gunner as "Passed Labour" and 90 years of age, both at Mount Vernon. "The Dollars Reward. RUNAWAY from the Subscriber, on the 18th instant, a negro man slave by the name of CAESAR, A STOUT strong made fellow, rather short and thick, about 40 years of age, he is a sawyer, a carpenter, a shoemaker, and a remarkable good mower; he is a strong headed sensible fellow; has a rough face with a scar on the right side, he wore a dirty white great coat of twilled cloth, with a g[r]een cape, a short coat, waistcoat and breeches of the same, white German osnabrigs shirt, shoes and stockings; he carried with him a pair of buckskin breeches. - He will probably pass for a freeman, or perhaps has a forged pass. - It is likely he will be seen at the time of cutting small grain, as he is extremely fond of that business, and generally gets from 6 to 8 shillings per day by it. - The above reward will be given for apprehending and securing the said runaway so that I get him again. RUNAWAY from the subscriber in Henrico county, the 18th instant (July) a negro man named WILL, but frequently goes by the name of Martin; He is about 30 years of age, a thick well set fellow, about 5 feet 5 inches high, tolerable black; he took with him two coats made of plains, one a green and the other a white, and one pair of white plains breeches, and one of hempen rolls, a pair of white yarn stockings and a pair of shoes with nails in the bottom. He is a very good hewer and sawyer, and in short can turn his hand to any thing in the plantation business. I expect he will endeavour to pass as a free man, and hire himself as such. All persons are forewarned from employing him and masters of vessels from taking him out of the state at their peril. He was seen about the beginning of August in company with a mulatto fellow, by the name of Sam, the property of Mr. George Turner of Caroline county, for whom there is also offered a reward of ten dollars. Sam is about 30 years of age, 6 feet high, rather spare, with long bushy hair, and has a remarkable scar on one of his cheeks occasioned by an Imposthume. "RUN AWAY from the subscriber, living in Powhatan county, the 26th of December, 1785, a bright mulatto man slave, named FOX. I expect he has altered his name. He is about 34 years old, a short well made fellow, a very bushy head of hair, somewhat bow-legged, has a down look, stammers in his talk when not surprised, but when closely attacked he is much worse. From the information I have had, he passed through the town of Manchester the

Byrd, of Westover, and it is expected he has gone that road. He is gone away from an ill grounded apprehension of being sent to the back country, and from no dissatisfaction at his situation. "RUN-AWAY from the subscriber in Culpeper county, a likely negro fellow by the name of POMPEY, about 40 years old, 5 feet 7 or 8 inches high, a black complexion, bow-legged, stout made, very strong and active; he is an artful ingenious fellow, a tolerable good shoe-maker, an excellent sawyer, and has been accustomed of various kinds of business; he is much addicted to liquor, and when intoxicated very talkative; he was allowed the privilege of visiting his wife in Richmond, by the name of Betty, the property of William Banks; she was to return with him to Culpeper, for which purpose they obtained a pass from Richard T. Banks about the 17th of last January, also had a letter directed to Baylor Banks. She is about 38 years old, 5 feet one or 2 inches high, a black complexion, an agreeable countenance, and has lost one of her upper fore teeth. It is very uncertain what kind of clothes they may have on, as they had a variety of them. I suspect they will endeavor to pass as free negroes. "Forty Dollars Reward FOR apprehending and delivering of two mulatto men, SAM and SQUIRE, to the subscriber in Albemarle county, or SIX POUNDS for either of them, if apprehended in the state of Virginia; if out, I will pay the above reward and all necessary expences. They were formerly the property of Mr. Watt Bradley, deceased, of Charles City county, and sold by his executors to Colonel William Randolph, and since their elopement sold to me. SAM, a bright mulatto, about 6 feet high, about 28 years old, he dresses well, has a bushy head of hair, he has been branded on each cheek; he has been shot with large Bristol shot in the right knee and thigh. He has a wife at Mrs. Eppess in Charles City county, and has been seen to pass and repass frequently of late towards Rappahannock. He has some knowledge of the carpenters and blacksmiths trades and is an excellent sawyer. I am informed he has procured himself a pass, and passes as a free man. He has been once badly whipped. SQUIRE, a dark mulatto, about 24 years old, about 6 feet 1 or 2 inches high, stoops in his shoulders, and a little knock-kneed. He has a scar on one of his thighs and buttocks, occasioned by a burn when a boy. He has some knowledge of the carpenters trade, and is a very good sawyer. He has with him a low, black, well set wench for a wife, the property of a Mr. James Toolers of Charles City, the wench is a decent house servant, can sew and wash very well. I have some reasons to believe they have procured themselves passes, and made to the northward as free people. I expect they are gone to Baltimore or Philadelphia. I also have reason to believe that they have with them a likely black fellow who can read and write, and has upon examination confessed himself to be a slave, belonging to some man in North Carolina. Tom, alias Tom Corn
sawyer; drayman, waterman

"RUN away from the subscriber the 28th of July last, a very tall, black, likely negro fellow, upwards of six feet high, by the name of TOM, about 30 years of age, has a stoop as he walks, and a smiling countenance when spoke to: Also, very remarkable bad crooked legs, much scarified by sores; his left leg was very sore when he went away and wore a bandage always round it; by his leg he is sure to be known, as I do not believe it will get cured up soon, owing to its being a running sore for about two years before he went off: His clothes cannot be particularly described, as he carried different kinds with him. He has lived several years at Petersburg, part of his time with a Mr. Lauslet, in Blandford, and has been used to go by water and draying in the town: -- From this he is well known by many watermen, that comes to Petersburg; he is also a Sawyer and can do any plantation business. From information I received soon after he run away, he was lurking about Norfolk and Princess Ann counties, passing for a freeman, and was at Mr. Black's at Kemps landing, and hired himself to him, as a freeman, under the name of TOM CORN, which name he has taken from his wife Peggy Corn, (a free, dark mulattoe wench at Petersburg) but his being informed by Mr. Black, that a gentleman and lady from Petersburg (to whom the said fellow is well known) were to be out there the next day to dinner, he disappeared the next morning from Mr. Black's service. Sometime after my hearing that my fellow was down about Norfolk, his wife abovementioned, went down there likewise; on my enquiring after her, was informed that some of her companions said, she was gone to Norfolk, to live with her brother Tom (which is my fellow, her husband) from this, it plainly appears that it was a scheme agreed upon by them both, before hand, to go off in this manner. If they should be found together his wife will partly convict him (should they even change their names,) as they have been man and wife for several years past, and she has never had a child. She is a stout, strong, thick made wench, and her colour nearly as dark as common negroes are. I will give FIVE POUNDS reward, for his being taken and well secured in irons in the Norfolk gaol [jail], so that I get him again. JOHN THEWATT. July 1, 1790."

hewer, sawyer; ditcher, scytheman

"Fifty Dollars Reward. RAN-AWAY a Negro Man, named PETER, a stout well made black fellow, between 20 and 30 years old, about 5 feet 10 inches high, supposed to weigh two hundred, he has a full face, thick under lip, and stammers in speech generally, but more so when surprized or spoken to suddenly; his clothes uncertain, as it is expected they are changed; he is by trade a Ditcher, but can also hew, and saw at the whip saw or use the sythe in the fields; he is fond of conversing on religion, and professes to be of the Baptist church; is a very cunning artful fellow, and it is probable has changed his name. The said Peter was sold about 3 or 4 years ago by one Harris or Harrison a native of Ireland, to Mr. William Graham of Northumberland county, and sometime after by said Graham to William Siffel, of whom the subscriber in December last purchased the said negro Peter, who had some time before absconded from the said Siffel, and was then out, and has not since been heard of. A few months after Peter's elopement, his first mentioned master, Harris or Harrison, the Irishman, also went off in such a manner that no intelligence can be had of him. It is suspected those two fellows have joined themselves together again, and if a second sale has not already taken place, that it is their design for Peter to be sold as often as they find it convenient, and are either of them in want of money. Whoever may take up the said Peter, and will deliver him to the subscriber in Richmond county, state of Virginia, if taken out of the state, shall receive the above reward, but if taken within the state, ten pounds, exclusive of what the law allows. VINCENT REDMAN. N.B. All masters of vessels and others are forewarned harbouring of carrying him off at their peril. Oct. 16, 1790."

"It was very much the practise with Gentlemen of landed and Slave Estates in the interior of Virginia, so to organize them as to have considerable resources within themselves; to employ on pay but few tradesmen & to buy little or none of the coarse Stuffs and materials used by them, and this practise became stronger and more general during the long period of the Revolutionary War which in great measure cut off the means of supply from elsewhere. Thus my Father [George Mason (1725-1792)] had among his slaves Carpenters, Coopers, Sawyers, Blacksmiths, Tanners, Curriers, Shoemakers, Spinners, Weavers & Knitters, and even a Distiller. His woods furnished Timber and Plank for the Carpenters and Coopers ... His carpenters and sawyers built and kept in repair all the dwelling-Houses, barns, Stables, Ploughs, Harrows, Gates &c., on the Plantations and the out-houses at the Home House."

"BOB, about 5 feet 3 or 4 inches high, upwards of 30 years of age, large limbs, a strong, well made, active Negro man slave, ranaway the 26th of May last: He is a compleat Wheelwright and house carpenter, and a tolerable good joiner and carpenter; he formerly belonged to Mr. John Wormeley, deceased, and lived in York county, between the city of Williamsburg and York Town, removed to Lancaster county, from where he run away in 1789, was taken up about the North mountain, passing as a free man, he was delivered to Capt. John Edmonds, of Fauquier county, who hired him until the close of the last year. - He is pert, smooth tongued sensible, and very artful, fond of dressing in fine cloaths and ruffled shirts and has a variety of cloaths. I expect he has a pass, and will endeavour to pass as a free man. I have some reason to think he will endeavour to get to Pennsylvania, or some other of the northern states. I will, besides what the law allows, give a genteel reward to any person who will apprehend and deliver the said negro to me at this place, or secure him so

"And let the two Carpenters (Gabriel and Reuben) belonging to that Estate [George Augustine Washington's] if not otherwise disposed of by the orders of their Mistress, join mine under [Thomas] Green; and an account taken of the time it happens, that the said Estate may be paid for the hire of them. I am as apprehensive as you can be, that Green never will overcome his propensity to drink; that it is this which occasions his frequent sicknesses; absences from work, and poverty. And I am convinced, moreover, that it answers no purpose to admonish him. But if the work in hand cannot be carried on without a head to execute it, and no other presents in whom confidence can be placed, there is no alternative but to keep him; unless he should get too bad to be longer borne with; and even then, a house so framed as the Dogue run Barn is intended to be ought not to be entrusted to my Negro Carpenters or any other bungler."

George Washington to William Augustine Washington:
Do you hire any of your Negro Carpenters by the year? or do you know who is in the habit of doing, or would do it? Having work on hand and in the prospect that I wish to have completed as soon as it is conveniently possible, I would hire two, four, or Six if they are good common workmen and who are orderly and well disposed people. Your answer to these queries, with the precise terms on which they could be obtained, if to be had at all, would very much oblige Your etc."

"TEN POUNDS REWARD, FOR apprehending two runaways: - BOB, about 5 feet, 3 or 4 inches high, upwards of 30 years of age, large limbs, well made, strong and active negro man slave, run away the 26th of May, 1792: He is a wheelwright and house carpenter, compleat: a tolerable good joiner and cooper. - This man was advertised in Mr. Green's papers last summer. - DUKE, sometimes calls himself DOCTOR, about 5 feet 10 inches high, stout, strong, and very able-bodied, big eyes, speaks loud, about the same age of Bob, and run away the 16th of July, 1792: He is a good sawyer, and pretends to the carpenter and cooper's business. - Duke went to Lancaster county where I first got him from, and from thence into the county of Fauquier, where Bob went to when he left me in May. In December last, they were both seen together in the neighbourhood of Ashby's gap, where Bob has a wife, having been hired some time to Capt. John Edmonds of that county. They call themselves brothers, tho' they are not, and will endeavour to pass a free people, and may get a forged pass; are fond of fine dress, and have a variety of clothes that I cannot describe. Bob is the same man that runaway about the year 1789, advertised by Mrs. Burnwell, was taken up about the North Mountain, and delivered to Capt. John Edmonds, who hired him until the close of the year 1791 - I expect they will visit Alexandria. I will give the above reward for them both, if secured so that I get them again, or if delivered to me at this place, and six shillings per day travelling, if taken up over one hundred miles from me, or in proportion for either. tolerably well, and is both sensible and very artful; he has a surly countenance, especially if offended, and is of a morose temper, fond of liquor, and when drunk is very turbulent; has had the small-pox, for which he was inoculated, and is a little marked with it in his face; he has also a remarkable scar above half round his neck, given by a knife in a scuffle he had with another Negro some time past. - The dress he went off in is uncertain; he took with him two coats, one with short skirts, a drab coloured duffle; the other a white Virginia cloth, long skirted; whatever other articles is unknown. - I make no doubt but he will endeavour to pass for a free man, and is most probable will endeavour to get into some of the northern states, in order to facilitate his escape; I believe he has procured some forged pass or writing. - Any person who will apprehend the said runaway within the state, and deliver him to me, shall receive a reward of TEN POUNDS - and if without the state TWENTY. Isaac; [Tom] Davis
carpenter; bricklayer

George Washington to Howell Lewis:

"Unless Isaac is engaged about things, the execution of which cannot be delayed, order him, and whoever is with him, to join Thos. Green [overseer of the carpenters]; and the whole of them to stick to the Barn at Dogue Run until it is completed. It appears to me that the whole, or greatest part of the time of these people, is employed about one nonsensical job or another; which is the

very thing Green is delighted with, as they afford him a pretext to be idle or to be employed in matters which more immediately relate to himself. I wish this may not be the case also with Isaac as I find he is very desirous of getting by himself always ... Davis, any more than the Carpenters, ought not to be taken from the above work for every little trifle that might as well be done by that lazy scoundrel Charles; who might as well be employed in white washing, Painting, or putting up Bedsteads, as to take Green or him, for these purposes."

I have understood he has obtained by some means, a certificate of manumission, consequently passes as a free man, under a fictitious name. I have understood that he solicited a Captain Potts, for a passage to Philadelphia, where he wishes to go. "FIVE POUNDS REWARD. RUNAWAY from the subscriber, in this county, a Negro man named REUBEN, about 25 years of age, about 5 feet 8 or 10 inches high, a bright skin and thin visage, has lost one of his upper fore teeth; his clothes cannot be described, as he has sundry suits. He is a good sawyer and carpenter, was hired to Mr. Nicholas Voss in the city of Richmond, last year, and continued till the expiration of his limited time, which was the 25th of December last, from which time and place he eloped. He was seen at Major John W. Willis's about three weeks after Christmas, and it is supposed he is lurking in this county near the borders of Fredericksburg, or has made his way

towards the northern states. -- I forewarn all owners and masters of vessels, from harbouring or taking the said negro on board. -- I will give the above reward to any person that will deliver the said negro to me, or secure him in gaol [jail] so that I get him again. John

carpenter; sawyer

"RUNAWAY from my plantation near this city, a tall stout, likely, sensible black negro man named JOHN, the property of Mr. Armistead Russel, of New Kent; he pretends to be a sawyer, and a carpenter, but I believe him skilled in nothing except villany -- he had on when he went away, a dark green coat and new gray cloth for another, in other respects tolerably well clad. I expect he is some where in the counties of New-Kent, or James City -- he has a wife below New-Kent Court-House. I will give TEN DOLLARS REWARD to any person who will deliver him to the Goaler [jailer] of this city. HENRY BANKS. Richmond, March 31, 1794."

Bob and Duke

house carpenter; cooper, wheelwright
and sawyer; cooper

"45 Dollars Reward, besides what the law allows. BOB and DUKE, two runaways. - They were particularly described in the advertisements published in Mr. Green's paper July 1792, in the same paper March 1793; also in Mr. Angell's Baltimore paper April following. - BOB run away the 26th of May 1792; he is an extraordinary good house carpenter, cooper and wheelwright; is a very active, artful and sensible black fellow, short and stout made, I suppose him to be upwards of 30 years of age. He run away about the year 1789, when he belonged to Mrs. Burwell, was apprehended about the North mountain and delivered to capt. John Edwards of Fauquier county (where he has a wife) who hired him until the close of the year 1791, tho' not brought home until the April following; it is supposed he is lurking in that neighbourhood, or among the mountains.

DUKE run away July 1792: He is a good sawyer and pretends to the coopers business; has big eyes, is a stout strong fellow, about the age of Bob; he was apprehended near Lancaster court-house the 7th of September last, and about

midnight of that day brought home; he made his escape out of the hands of the people that brought him at my door, a few minutes after he came; he is very fat, and well cloathed in good mixed Virginia cloth, coat, waistcoat and breeches; since then he has been detected stealing corn in that county; a gentleman of undoubted character saw him at large armed with a gun, and has threatened those who informed of his stealing the corn. The few minutes he stayed, he told me he had been about col. Gaskins' in Northumberland county, and in the county of Middlesex, I suppose about Brandon and Rosegill, the seats of Messrs. Grymes and Wormeley. Both these negroes formerly belonged to Mr. John Wormeley of Lancaster county, late deceased. Bob stayed with me about six weeks, the other about six months. I well know they had no cause to complain of ill treatment in any respect whatever, and am satisfied the object of their going is to compel me to hire or sell them, as many a applications have been made, I will do neither till they return to a sense of their duty. I have reason to suspect they are harboured and employed by some ill disposed persons: On conviction of the offenders, I will give Fifteen Dollars for Bob, Twenty Dollars for Duke, Ten Dollars if apprehended and secured in any gaol [jail] so that I get them again; or if brought home and delivered to me at this place, what the law allows over and above the reward. - I expect they will get passes and endeavour to pass as free people. All persons are forewarned carrying them out of the state at their peril. GRIFFIN GARLAND. Richmond county, Totuskey, April 10, 1794."

"Five Guineas Reward. RAN AWAY from the subscriber, about the 5th of this month, NEGRO JAMES, alias JAMES DARCAS; He is a stout fellow, of a yellowish complexion, about 28 years of age - Has very large feet, and speaks with a coarse imperious voice. He is by trade a blacksmith, but can saw very well with a pit-saw, or cut grain with a scythe: I believe he can read and write, and perhaps may have a forged pass. He had on and carried with him a blue New-Market coat, a blue broad-cloth jacket, and corded breeches, He has other apparel that I am unacquainted with. He eloped a few years ago, and was employed in the State of Pennsylvania as a labourer in the country, in the season of harvest, and as a blacksmith at other times in Philadelphia. After working a few days at his trade, he complains of a pain in his left wrist, which he says was occasioned by a hurt he received in a fight, in the City of Philadelphia. On a nice examination it may be discovered that he has lost a small part of the rim of his ears. James; Muclus and [Tom] Davis
carpenter; bricklayers

George Washington to William Pearce:

"It seems to me, to be indispensibly necessary that some person should be engaged in place of Thomas Green, to look after my Carpenters; for in the manner they conduct under his Superintendancy, it would be for my interest to set them free, rather than give them their victuals and cloaths. James, by the Reports, has been 9 days I perceive, in plaining the floors of the house in Town, Muclus (besides what was done to it before) Six days paving, and sanding the Cellar which a man in Philadelphia wd. have done in less than as many hours. Davis eight or nine days papering, and so on; whilst Green himself, and the others, appear determined (as it would seem to me) to make the new-house at Union farm a standing job for the Summer; as the Chimney, and underpinning will, more than probably be, for Davis the sametime. When this last work is done, that is, underpinning the house, it must be remembered that air holes is left in it to prevent the Sleepers from rotting."

John C. Fitzpatrick, ed., *The Writings of George Washington* XXXIII: 454-455. In the 1799 list of slaves (XXXVII: 256-261) James is recorded as "James ... Do [Carpenter]," Muclus as "W. Muclus ... B:layr." and Davis as "Tom Davis ... B:layr.," all at Mount Vernon.

He had on when he went off, a blue cotton cloth coat, green striped vest, long sacking trousers, white shirt, and an old hat. - In a bundle he had two white shirts, one of which had a good deal of needle work on the wrists; a blanket, one pair linen trouses, a tenant saw, and a pair of carpenter's compasses. He was in possession of a pass which I gave him to go in quest of a Negro boy, and had five dollars in money. I have reason to suppose he is gone for Baltimore by way of Petersburg and Richmond. The above reward will be given if delivered to me at my plantation, and half that sum if committed to the jails of Richmond or Petersburg, by Messrs. George Washington to William Pearce:

"Since writing to you this day week, I have engaged a Scotchman, just arrived in this Country, in the place of [Thomas] Green [overseer of carpenters]. I do not expect much from him as an overlooker; that is, I do not believe he will carry much authority among my negro carpenters, as he appears to be a simple, inoffensive man; and because, that of House Carpentry or Joinery, is not his profession; but as he has the character of a very honest, sober, and industrious man, his example, with such representations as he may make to you, of neglect and misconduct, may be serviceable. Making of all sorts of

Plows, Carts, wheels of all kinds, and various impliments of husbandry, is what he has been brought up to; though he says he has worked two or three years at house work, and can make a Sash or a pannel door. The buildings in his country being all of Stone, he knows nothing of framing. The enclosed memorandum contains the out lines of the agreement between us; which has yet been verbal only ... Donaldson, if he is really skilful in making plows, Carts, Wheels, &ca, may be extremely useful to me; first in makg. these things himself for the farms, and next, in putting my own people in the way of doing it."

sawyer; shoemaker

"RUNAWAY from the subscriber the 5th Instant, a likely NEGRO MAN, named ISAAC, about 30 years of age, 5 feet 10 or 11 inches high, of a black complexion, well made; when walking carries himself very straight. He has (I believe) over his right eye a small scar, and on his breast a large whelk, which appears, occasioned by a burn, he talks very plain, and when spoken to sharply, puts on a smile, he is a good sawyer, and can make a good negroe's shoe.

He took with him, when he went away, a Virginia cloth coat, double wov'd and fill'd with yarn, over the pockets bound with blue, a jacket strip'd with coperas, a mixt pair Virginia cloth breeches, and sundry other clothes He formerly lived in Essex near Leighton's ware house, where it is probable he may be lurking about at present. Any person apprehending said negro, and

deliver him to me, living in Caroline county, near Ellis's tavern, shall receive TEN DOLLARS reward by the subscriber JOS. BRAME. Sept. 24th, 1796. N.B. I forewarn all masters of vessels from taking the said negro out of this state."

"If it shall be found, on experiment, that the pounded Stone answers as well, as sand for coating the houses, Frank, Hercules and Cyrus may get a good deal of it pounded. They may get up a large quantity of gravel at the place I shewed you. They may, when Davis and Muclas [sic] have done the Brick work at River farm assist them in throwing up Brick earth at the place I pointed out for at least One hundred thousand Bricks. They may assist the Gardener in making good the Hedges about the Mansion house, getting Dung into the Garden, or in any thing else. In short let them be employed in any manner at, or near the M. House that will Keep them out of idleness and mischief."

"Thirty Dollars Reward. ELOPED from the service of the subscriber, on the 19th instant, a Negro Man by the Name of DICK, About twenty five years of age, and five feet nine or ten inches high; by trade a carpenter, and is a very lively brisk workman. His countenance is very good -- When spoken to, he converses with ease and confidence, and is pretty sagacious. I purchased the said fellow of Mr. Dabney Minor, in whose name he has been twice advertised in the Richmond newspapers. During his last runaway trip (last summer) he was employed a considerable length of time, by some person near Dumfries, from which circumstance, I conjecture, he has taken another northern route. I forewarn all persons from giving him employment, of any kind whatever; and masters of vessels and others, from carrying him out of this state. The above reward will be given if he is taken within forty miles of this city; and an additional sum, in proportion to the distance he may be brought, or the trouble and expence the apprehender may be at, in bringing him to this place. AUG: DAVIS.

N.B. His apparel was of the usual negro kind, but he had more cloathes than is customary for them to possess. A.D. Richmond, June 11, 1797."

"ELOPED from the subscriber, the 27th instant, a NEGRO FELLOW named JESS, is about 22 years of age, 5 feet 10 inches high, has a yellowish complexion, has a lump or wen on his right cheek and has a scar on his right thumb, which makes it appear as if it was in twain; he has a very down look when spoken to, and is a very artful fellow, and perhaps may endeavour to get off from the neighbourhood, as he is a very good sawyer; and from the manner of his elopement, I think he means to get to some distant place. I therefore forewarn all persons and masters of vessels from employing or carrying him out of the state at their peril. I will give FIVE DOLLARS REWARD, besides what the law allows, to any person that will apprehend and bring the said fellow to me. JOHN AUSTIN, jun. Hanover county, June 28, 1797."

Solomon
sawyer; batteaux-man

Albemarle County, Va.

"Ten Dollars Reward, FOR taking and securing my negro man SOLOMON, who eloped from my plantation about the sixteenth of December last. I have reasons to believe he is lurking about the city of Richmond, Manchester, or Petersburg, and will attempt to get on board some vessel. He is about thirty four of five years of age, of a very black complexion, and remarkable stout for his height, of a pleasing countenance when spoken to, and pretty talkative; has lost nearly all his teeth, occasioned by the scurvy; he carried off with him sundry clothes, and a new fife, which he is fond of playing, but not a professed hand at it; also, about forty or fifty pounds worth of ribbons which he stole: His clothes I expect he has changed, therefore useless to describe them -- his shoes had a quantity of nails in them. He is a pretty good sawyer, used to saw at bottom, and a very good batteaux-man. I will give the above reward to any person who will secure him in any jail, so that I get him again, or if delivered to me in Albemarle county, near Milton, the above reward, besides what the law allows, and all reasonable expences. Jim Stovall
carpenter; shoemaker

"RAN AWAY FROM the Subscriber living in Cumberland county near Cartersville, on the night of the 9th of May last, a likely Mulatto Man, known by the name of JIM STOVALL, aged 45 years, about 5 feet 7 inches in height, tolerably well set, a full beard and bushy hair when combed; one of his legs much larger than the other at the ancle, a little above which place it is somewhat flattened and crooked, caused by losing some of the bones from it by a white swelling; this defect I make no doubt he will endeavour to conceal by wearing overalls or trowsers -- He is a very handy fellow at most businesses, a rough carpenter and coarse shoemaker, he is loud and talkative, and very impertinent where he thinks he may take the liberty. The above described fellow I have reason to suppose was some time since in Richmond, where he will perhaps endeavor to make his escape by water. I therefore caution masters of vessels from employing or carrying him out of the state. -- I will give a reward of TWENTY DOLLARS for securing him in any jail so that I get him again. RICHARD JAMES. "Ten Pounds Reward. RANAWAY from the subscriber, in Cumberland County, on the 3d day of July last, a negro man slave, something of a yellow complexion, by the name of PETER, twenty eight years of age, he is about five feet eight inches high, straight and well made, has small feet, a scar across the back of his left hand, occasioned by a cut, a dent near the corner of his left eye, perceivable when laughing; took with him sundry wearing clothes, some of which supposed to be very fine; likewise sundry tools, such as would answer a carpenter or cooper; also some cash. He is a tolerable shoe maker, carpenter, and an extraordinary flour barrel cooper. He is a cunning artful fellow, and will endeavour to pass as a freeman, and probably has procured papers for that purpose. He has made attempts of this kind before, taking different routs [sic] in the year 1790, having been furnished with a free pass -- He was then detected in Nansemond county, and put in Suffolk jail. The said negro continued in my neighbourhood until about the 25th of the said month, at which time was taken from Cumberland courthouse, a horse, bridle and saddle, belonging to Mr. William Thompson: The horse is a likely bright bay, about four feet eight inches high, with high spirit and carriage, a short switch tail, a good saddle and bridle, with plated bosses, with the letters A.R. engraved. Mr. Thompson will give ten pounds reward for the horse and saddle. JOHN BURTON, near Cumberland courthouse October 15, 1798."

3d ... Upon reconsideration of the first Article above, I believe it will be best for Davis and Muclus to proceed to digging Brick Earth immediately. For as the care of all the Stable horses, as well as the Jacks &ca. must devolve upon Peter, he will require assistance: of course, Mike must join him, and as Anthony will, probably be required to supply the House with Wood [it] will hardly be necessary to keep David [Davis?] [and] Muclus alone, at the slope before th[at] until they can be joined by the House g[ang]. "Chestertown, Maryland, March 12, 1755. TEN PISTOLES Reward. RAN away last night, from James Ringgold, of Eastern Neck, in Kent County, in the province of Maryland, the two following servant men; one named James Francis, an indented servant for five years, a middle siz'd young fellow, about 26 years of age, of a smooth fair complexion, his hair cut off, is an Englishman, and speaks a little in the west country dialect; was brought up to farming and husbandry: Had on, a country kersey jacket and breeches, blue fearnought jacket, and an old dark colour'd coat. The other a lusty young Mulatto fellow, named Toby, a slave about the same age, he is a well-set, clean limb'd, stout fellow, neither a very bright or very dark Mulatto, has large nostrils, is a likely fellow, and when he talks drawls his words out in a very slow manner, is no other way very remarkable; he had on the same sort of clothes with the other servant, and one of them has a check or striped green and red everlasting jacket on or with them; and perhaps the Mulatto may set up for a cooper or carpenter, having work'd at both those businesses, and also understands plantation affairs. Whoever takes up and secures the above persons, and gives notice, so as their master gets them again, shall have Four Pistoles reward for the white servant, and Six Pistoles for the Mulatto; and if brought back either to their master or to the subscriber, shall be paid reasonable charges for their trouble of bringing them, either by their master or the subscriber. That this slave should runaway, and attempt getting his liberty, is very alarming, as he has always been too kindly used, if any thing, by his master, and on in whom his master has put great confidence, and depended on him to overlook the rest of his slaves, and he had no kind of provocation to go off. It seems to be the interest of least of every gentleman that has slaves, to be active in the beginning of these attempts, or whilst we have the French such near neighbours we shall not have the least security in that kind of property. I should be greatly obliged to any gentlemen that shall hear of these fellows, to endeavour to get certain intelligence which way they have taken, and to inform

me of it by express, and also to employ some active person or persons immediately to take their tract and pursue and secure them, and I will thankfully acknowledge the favour, and immediately answer all expences attending it. THOMAS RINGGOLD."

Tom
house carpenter

"One Hundred Pounds Reward. RAN AWAY last night, about 11 or 12 o'clock, Three Negro Men, One Wench, and her male child, viz. A Negro man named TOM, born in the Havanna, speaks Spanish and French, a very likely fellow, and somewhat used to the house carpenter's trade: Had on an osnabrugs shirt and breeches, green jacket, an old felt hat, and a blanket surtout coat. PETER, a short well set fellow, remarkable for large rolling eyes, having on much the same cloaths as the former, with a red surtout coat. POMPEY, a middle sized, down-looking ill-favoured fellow, has a scar on the side of his nose, his toes very crooked. Had on a ragged black jacket, and green breeches. He can write and read, and talk good English. The wench named ARABELLA, is very likely, short and slim, with a clear black skin, and a good sett of teeth, a scar on the side of one of her hands, and a deep dimple in her chin: Had on and carried with her, a blue callimanco gown, and a check'd ditto, also sundry coats and jackets of different sorts. Her child answers to the name of CASTILA, a smart looking boy, about six years old, has a scar on his forehead. As there is a small Scooner or fishing boat missing this day, it's suspected they may have off in her; and as some other Negroes are missing, among whom is a French or Spanish fellow, a fisherman, it is strongly suspected that they are gone to the Southward, on their way to Havanna. Any person or persons apprehending and securing said Negroes so that the subscriber may have them again, shall receive ONE HUNDRED POUNDS currency reward, besides all reasonable charges. Will is a carpenter, speaks remarkably through his nose. Leicester has crooked legs. They are in general able fellows; they went off in a canoe of Mrs. Barwick's, which they stole from her landing. There is great reason to think they are on Skidaway island, as such a canoe has been found near Bowman's landing, and is now secured. There is also reason to believe that four of said negroes were seen on Gen. M'Intosh's plantation. The above reward, and all lawful charges, will be paid on delivery of each to the gaoler [jailer] in Savannah, or at the Sugar-house in Charleston. JOHN BOWMAN. July 4, 1786."
