Joe,

Let me know what you think of this logo and if it is useable. Erika is also working on one that is tennis specific.

Thank you for sending the letters - I will follow up on each in mid September.

after our conversation I am more focused on how to proceed with a proposal for the \$20,000 health department grant. I will develop both radio spots & design for a 'subway square' and we can see which has the most potential appeal.

Robbie
