The sounds through high school are memorable ones. We hope that through this book, we have portrayed the many sounds of high school years.

The sounds of winning and losing, the sounds of happiness and sadness, and most of all the sounds of memories.

We are proud of our faculty, administration, and our school.

With all these things in mind we give to you . . .

THE SOUNDS OF N.H.S.

THE SOUND OF LEARNING

The Student body en masse!

Seniors—leaders of the followers,
sentimental at the end, but
proud to be Nederland graduates!

Juniors—accustomed to confusion,
conscious of senior rings and
anticipating their senior year!

Sophomores—awed, bewildered,
confused!

This is the student body.
These are the classes.

OF SILENCE

Hello darkness my old friend, I've come to talk with you again,
Because a vision softly creeping, left its seeds while I was sleeping,
And the vision that was planted in my brain still remains, Within the
sound of silence.

In restless dreams I walked along narrow streets of cobblestone.
'neath the halo of a street lamp, I turned my collar to the cold and
damp. When my eyes were stabbed by the flash of a neon light, That
split the night, and touched the sound of silence.

And in the naked light I saw ten thousand people maybe more,
People talking without speaking, people hearing without listening
People writing songs that voices never share and no one dare, Disturb
the sound of silence.

"Fools" said I "You do not know silence like a cancer grows."
"Hear my words that I might teach you, Take my arms that I might
reach you." But my words like silent raindrops fell, and echoed in the
wells, Of silence.

And the people bowed and prayed to the neon god they made. And
the sign flashed out its warning. In the words that it was forming, And
the signs said "The words of the prophets are written on the subway
walls and tenement halls" And whisper in the Sounds of Silence.
