

## **SSEC Stories**

The story of SSEC encompasses many people across many decades who contributed to the culture and success of the organization. Do you have a short story, memory, or vignette to share about your time at SSEC -- the early days and beyond?

Think about:

**People:** Researchers, administrators, staff, students, or faculty who influenced you during your time at SSEC. Notable SSEC visitors. Someone who had an impact on you, your research, or your career path. A mentor? Someone you mentored? Traveling for SSEC?

**Places:** Spaces in the AOSS/SSEC building such as your office, a laboratory, the data center, a study space, etc. Where did you spend time at SSEC? Where did you work or conduct your research?

**Things:** Research-related groups that occupied your time. Organizational culture. Notable events during your time at SSEC. Field campaigns, installations, demos, meetings? Retirements? Awards? Notable achievements? Celebrations? Research or other milestones?
