PREFACE.

The day was when that ever changing individual, the oldest inhabitant, could have furnished the enquirer with all particulars concerning the whereabouts of any resident of New Albany, but "old father time," in his ceaseless round, has supplanted the quiet village with the busy hum of a city commerce, large manufacturing establishments of various kinds, ship yards, &c., and a population of near twenty thousand, all of which require some more reliable means of conveying information regarding the names, occupation, and abiding places of the inhabitants of the city. To supply this want has been the object of the present publication, (the second Directory ever published here,) and it is hoped an investigation of its pages will prove its worthiness to the title of a Directory. That a publication of this character is deemed beneficial by the business community, is demonstrated by their almost universal use in cities of this size throughout the United States.

In looking over this work it will be observed that it contains a **Business SUMMARY**, giving at a glance the number of business houses engaged in the various branches of trade, or in the professions.

Those who are disposed to dissect the work, for the purpose of showing up what few errors there may be in it, should hesitate to condemn without a knowledge of the difficulties that beset the pathway of the compiler.

In consequence of the streets not being numbered, abbreviations had to be used, which will be found in the proper place. The **Business Directory**, and **Appendix**, furnish much useful information to the resident and stranger.

The present work contains some six hundred more names than the former Directory of New Albany, and we believe the Classification will be conceded to be very complete and satisfactory.

To those who have kindly aided in the undertaking, by advertising in its pages, our thanks are due, and we trust that they may be rewarded sevenfold for their liberality.

The printing and binding were executed at the office of the *Daily Tribune*, by Messrs. M. Garco & Sons, whose facilities in both departments, are equal to any in the West. They merit our thanks for the assistance rendered us during the compilation, and our respect for their courtesy.

NEW ALBANY FEMALE SEMINARY.

REV. T. SPENCER, PRINCIPAL.

THE FOURTH SESSION

Of this Institution will commence on

TUESDAY, FEBRUARY 1st, 1859.

The course of study is thorough and extensive. The corps of Teachers in the several departments are able and experienced. The accommodation good, and ample for boarders and day pupils.

New Albany has been long and well known for its excellent institutions of learning; its accessibility, healthfulness, morality, intelligence and refinement, render it a very desirable location for a young ladies' Seminary. The public spirit of its citizens demands and will secure schools for their daughters, inferior to none in the country—East or West. Such a standing, it is intended the New Albany Female Seminary shall sustain.

It will be the constant aim of this Institution to combine all those elevating and refining influences derived from religion, science, literature and art, which go to form the best style of female character.

Particular attention will be paid to

MUSIC—under the charge of Hiram O. Harvey, from Boston.

FRENCH—taught by Mons. Alex. Chomel, a native Frenchman, and successful Teacher.

PAINTING AND DRAWING—Under the direction of Mr. C. P. Fetsch, an accomplished and well-known artist.

The Academic year is divided into two sessions of five months each, commencing in September and February.

INDIANA CENTRAL RAILWAY!

The Indiana Central Railway proper, is 72 1/2 miles long, extending from Indianapolis to the State line, dividing Indiana and Ohio near New Paris, in the latter State, and connecting at the State line with the Dayton and Western Railroad, extending to Dayton, Ohio, making the distance between Indianapolis and Dayton 108 miles. The line is nearly a straight one, having less than four miles of curvature in Indiana, and runs nearly east and west, and nearly throughout its whole length within fifty rods of the old National Road, and through the very best improved portion of the State, in the counties of Marion, Hancock, Henry and Wayne, and at one place the line runs for a distance of about six miles on the line dividing the counties of Rush on one side, and Hancock and Henry on the other.

At Richmond the line connects with the Cincinnati, Hamilton, Eaton and Richmond Railroad, affording an outlet to Cincinnati through an old settled, highly improved, and among the most fertile valleys in Ohio.

The lines through to Dayton and Cincinnati are very substantially constructed, well ballasted, smooth and comfortable to travel over, and the succession of broad fertile fields, neat farm-houses, and other rural improvements, prosperous towns and cities, with large manufacturing establishments, render this route one of the most attractive of any in the State. The through business in passengers and freight is large and increasing; and the local business, owing to the fertility of the soil, high state of improvement, and dense rural, village and city population, is the best in the State.

BRYANT'S COMMERCIAL COLLEGE,

Ramsay's Block, Corner Illinois and Maryland Streets, one
Square South of Palmer House.

Indianapolis, Ind.

The facilities for acquiring a thorough business education at this School have been increased till now unsurpassed. The room is one of the largest and best ventilated in the West, and in addition to the teachers formerly connected with the School, we expect to secure the services of a gentleman who has had over twenty years experience as a merchant and active business man. The regular lecturers hereafter will be Dr. E. F. Brown, Geo. K. Perrin, Esq., John Coburn, Esq., and the Principal, each of whom are well known.

The large number graduating at this school the past year has far surpassed every expectation, while nine-tenths of them are in good business, and fully establish the reputation that it is not only the cheapest, but most thorough School in the West.

Each pupil, on bearing satisfactory examination, will receive a Diploma that is acknowledged to surpass any in the Union. The original design of which (may be seen at all times at our room) cost us months of labor.

The course of studies embraces not only Book-Keeping, but all the connecting branches, such as Penmanship, Mercantile Arithmetic, Mercantile Correspondence, Drawing, counterfeited money, &c., with daily lectures on Mercantile Law, and such subjects as are essential to every man.

Terms for complete course, with right of reviewing at pleasure, \$25 00.

T. J. BRYANT, Principal.

Munson's Patent
COPPER TUBULAR
LIGHTNING ROD
WITH SPIRAL FLANGES.

(Patented Aug. 5, 1856.)

Has received the **FIRST PREMIUMS** at the American Institute, New York City; the Franklin Institute, Philadelphia; the National Fair, Louisville, Ky.; the State Fairs of Ohio, Iowa, Indiana and Connecticut, and wherever exhibited.

It has been endorsed and highly recommended by

JAS. S. ATTON, Sup't Indiana Insane Asylum.
R. T. BROWN, M. D., Indiana State Geologist.
JOHN YOUNG, Professor of Natural Science in the N. W. C. University.
LORIN ANDREWS, President Kenyon College, Gambier, Ohio; and many others of well known scientific ability.

This rod is in general use in Central Indiana, and many localities in the West. It always succeeds, wherever introduced. It is no humbug. No man who examines its merits will use any other kind; the old iron rod peddlers fly before it as ignorance flies before the advance of light. Copper, according to Prof. Faraday, Dr. Priestly, and other men of note, has a conducting power 5 to 8 times greater than iron; and, in addition to this important fact, Munson's Rod has a surface, inside and out, nearly three times as great as the old iron rod. Munson's rod is an ornament on the best houses, and does not rust, but will endure an age without deteriorating. Single rods, in complete order for attaching to buildings shipped to order.

We will be glad to hear from persons desiring to act as local or traveling agents. We offer unusual inducements to dealers.

COLLEGIATE INSTITUTE,

NEW ALBANY, IND.,

JOSIAH BLISS, Principal.

Students from abroad will be, as heretofore, under the constant supervision of the Teachers—will recite extra lessons out of school hours—eat with them at the same table; thus forming a part of the family of the principal, who with his wife will take special care to make their *School a home for those youths who are sent to School.*

In addition to the facilities hitherto enjoyed by the pupils, by means of a *Library, Maps, Globes, &c.*, there is a good *Philosophical and Chemical Apparatus, Anatomical Maps, and a Geological Cabinet*, so that all the Sciences are fully illustrated by experiments, and accompanied by familiar lectures. Particular attention is paid to young men desiring a Business Education, or a preparation for *College.*

DIPLOMAS

Are given to all who take a full course in *Double Entry Book-Keeping.*

The Scholastic Year commences on the First Monday in September, and closes the last week in June.

Price of Board and Tuition in the Ordinary Branches.

Per Session of five months, - - - - -	\$75 00
German, French and Book-keeping, double entry, - - - - -	10 00
Fuel and Lights in rooms, per session, - - - - -	5 00
Washing, per dozen, - - - - -	50

For breakage—the cost of repairs.

Payment is required by the session, one-half in advance, and no deduction is made for absence except for protracted illness.

Only 25 to 30 pupils will be received under the instruction of any one teacher.

New Albany is a very eligible location for such a school. It is distinguished for good health and good society, and is entirely free from those elements of agitation and discord which tend to foster sectional jealousies and disunion. It is accessible both by river and railroad from all points in the West and South.

Please address,

JOSIAH BLISS, Principal,

ESTABLISHED IN 1829.

Devoted to Politics, Literature and General News.

W. G. & C. M. TERRELL, . . . PROPRIETORS.

THE DAILY JOURNAL
JOB PRINTING ROOMS.

Our facilities for getting up Posters, Programmes, Bills, Bill Heads, Cards, &c., and every description of Merchants, Manufacturers and Railroad Printing, are not surpassed by any establishment in the city.

Orders from a distance will receive prompt attention.

W. G. & C. M. TERRELL.

LAFAYETTE ARGUS
JOB PRINTING
 ESTABLISHMENT,
 South-west Corner of the Public Square,
 LAFAYETTE, IND.

Extensive additions of the latest and most approved styles of plain and ornamental Job Type, Borders, &c., have recently been made to the previous sample assortments, which enables me to execute any variety of Job Printing the community may be pleased to order, in a style unsurpassed for neatness, and at reasonable rates.

POSTERS.—My facilities for doing Posters are unsurpassed, and having a press three sizes larger than any in the city, enables me to turn out Posters unequalled for size or style.

THE ARGUS is one of the largest Weeklies in the State, and having a general and extensive city and country circulation, offers superior advantages as an advertising medium—the same that would be enjoyed by advertising in both the Daily and Weekly issues of either of the other papers.
