REPUBLICAN CAMPAIGN COMMITTEE
WEEHAWKEN, N. J.

September, 1934

Dear Fellow Citizen:

With the approach of the coming election the Republican Campaign Committee plans an aggressive campaign to restore to office all the candidates of our party from Governor to Committeeman. We have nominated men of the highest character and integrity for all offices in order that the voters may feel that if elected these men will give their best efforts toward bringing back that kind of government of which our party has always been proud.

Locally, Weehawken has been at a standstill under the present administration. There has been no municipal progress; just "Democratic bally-hoo."

We believe that the time has come to restore decent government and in order to wage a successful campaign we require not only your moral but also financial support.

If you wish to assist, your contribution will be thankfully received and acknowledged by

Edward Fetterly
