Good morning! We share your concerns and are posting, this morning, a statement for those registered for our Spring Convention in Las Vegas later this month. I am attaching a copy of what has just gone out—you're get a personal first edition! ☺

As with many schools and associations, we're trying to be pro-active with this situation and I appreciate your being so too. I look forward to seeing you and your students in LV! Now that you've just had your MA primary voting we can get on with some literary excitement to get our minds back onto things that, in the bigger picture, give us some personal pleasure.
