## Update from the Grey House Salon

Dearest patrons of the Grey House salon,

Regretfully, we have decided to remain closed in spite of lifted restrictions.

As frequent as these delays seem to have become, please know we feel it is less of a choice and more of a duty to play our role in decreasing risk for you, our families, and our community.

We understand this is frustrating. We can't wait to have you back in and return to normalcy. Please be aware your stylist is juggling dozens of schedule changes per day and with uncertainty ahead, this task is exhausting.

We are asking for your patience as we navigate all of this. The only priority above your satisfaction is a speedy decrease in the spread of the virus so that we might open our doors permanently when we return.

Your stylist sees your name on her schedule. Please allow her to reach out to you and get you in her schedule as soon as she sees fit.

We wish you the best of health and encourage you to expedite the reopening process by making thoughtful, calculated choices where exposure is concerned.

We love you and we need you as much as you need us. A special thank you for understanding this decision comes at the cost of our livelihoods. That is how important you are.

With appreciation,

GHS
