

TOES ON THE NOSE

Autrey Surfboards has been working on some really nice Longboards and Hybrid fun-boards. Burgess and Rob have put together some really nice stuff. The nice thing about their boards is that they're shaped locally for our conditions. These are guys who surf the same waves that you do and they KNOW what works in this area. You owe it to yourself to check out the new shapes at a dealer near you!

Tory has been working hard on his 10th Anniversary at the Surf Station. If you've been calling the surf report, you already know about all the effort he's put into this event. He's always tried to keep a good stock of Longboards available and you can always go in and see the wall display. He has some real classics there (thanks to contributions from some club members). Go in and check it out!

Our next club meeting will be an "Afternoon Board Bash" on Thursday, June 2nd. We'll be meeting on the beach just a little south of Ocean Trace Blvd. If you're unfamiliar with the area, that's where the Oasis Restaurant is located just south of where S.R.3 and A.1.A. come together. Our plan is to surf for awhile

(if the waves will cooperate) then have a "tailgate" meeting or maybe head on down to the Oasis. Come anytime you're able to get off work, get out of school or get out of the house, but the meeting probably won't start until around 7:00 or 7:30. We're not EXACTLY sure of the tides but we think it should be high tide "around" 4:00/4:30. So come on out, bring a friend, your board, baggies & wax!

If you're wondering just exactly where some of our club members have been for the past couple days, it's because they haven't been in town at all... THEY'VE BEEN IN COSTA RICA!! The "1994 Rabbit Kekai Costa Rica Longboard Classic" is running this week (May 15-22), and Burgess Autrey, Josh Autrey, Rob Autrey, Joe Beach, Pam Hill, Bill Murray, Mark Bernstein and Don Larson have all been down there since Sunday or Monday carving up some waves. While we get this piddly stuff rolling in on our coast, they're probably tearing up some stuff that's chest high with perfect form. Oh well, we can always LIE!!!!

"F+A." ON A GOOD DAY!!!
